## Phi Eta Kappa Wins The Charlie Rice Cup

Delta Tau Delta Loses by Three Points. Theta Chi Is Third

The Phi Eta Kappa fraternity won the annual intramural track meet Saturday Feb. 26 with a score of 35 points. Delta Tau Delta was second with 32 points and Theta Chi was third with 20 points. Phi Eta Kappa will receive the cup offered by the Intramural Athletic Association and will have the custody of the coveted Charles Rice Cup which is now in the possession of Delta Tau Delta.

The field events of the meet were held on Saturday Feb. 19 in the gym. Phi Eta obtained a big lead in these events scoring 21 points. The events Saturday were watched by a large crowd. Everything went off in fast time and the crowd was thrilled again and again by the close races. The freshmen relay runs, the 440 yd. and the 45 yd. dashes were closely contested. In the 880 yd. run O'Connor, Commons Council, led until the last lap when Castle, Delta Tau Delta, who was holding himself in reserve, "let out" and defeated O'Connor by a few feet. The fat man's race was easily won by Murray, Phi Gamma Delta. This race with the three-legged and the bag races was a humorous feature of the meet. The Arbuckles with track aspirations and the acrobats and contortionists had ample opportunity to show their ability.

In the mile run, Phi Eta placed all three positions. Pease who won the mile at the state meet last spring, led for three-quarters of the distance until Ames, who had been running easily, stepped into the lead and won. Raymond came second and Pease third.

The high point winners of the meet were Pratt, Delta Tau and Pinkham. Theta Chi, each with 12 points and Murray, Phi Gam was third with 10 points. Pratt scored his points by his work in the broad jump, pole vault, 220 yd. and 440 yd. Pinkham scored his in broad jump, hurdles, 220, and the 45 yd. dash. Murray, Phi Gam, scored his points in the fat man's race and shot put.

(Continued on Page Four)

## Hayseeders Ball Coming At The Bangor City Hall

Everything is ready for the Hayseeders Ball at City Hall, Bangor, on Tuesday evening, March 8. The American Legion will serve coffee and doughnuts, under the supervision of James S. Edwards, their new Post-Commander. From 7.30-8.30 there will be an entertainment that will make you laugh until your sides ache. The Grand March starts at 9.00 o'clock and then there will be a Quadrille, a Contra, and "one of them new-fangled dances." Also a Lady-of-the-Lake-ladies' choice. For special attractions there will be moonlight dancing, and a chance to win a 100 pound bag of sugar by guessing the number of seeds in a pumpkin. Everyone should be in some kind of a hayseed costume, as there will be no dancing before intermission, unless in costume. If you don't have a "heck" of a time, it will be your own fault. There will be dancing all night—as long as people can keep an eye open. Special late cars are to be run to Old Town, Kenduskeag, and Hampden. There are tickets to be had right here on the campus, at 211 Oak Hall.

## Junior Assembly Dance Will Be Held March 11

The annual Junior Assembly dance given by the Junior Masks will be held in the gym Friday night, March 11. The committee in charge have secured "Cobby O'Brien's Novelty Dance Orchestra" of Bangor to play for the occasion. There will be the customary fraternity booths and decoration.

The dance order contains 18 dances and may be secured from any member of the Masks.

## Maine Loses Three Games Played on Trip

Tuesday, Feb. 22, the Maine basketball team played New Hampshire State and after playing a fast game was defeated by N. H. State by the score of 37-8. New Hampshire has developed a wonderful defense since their defeat in our gym.

Thursday, Feb. 24, a very close game was played with Bates at Lewiston. It was a hard fought, closely contested game. The Maine team had the ball most of the time but were unable to score. Bates won 24-23.

Friday, Feb. 25, Boston College defeated Maine by the score of 34-27. The small hall hampered the Maine men who were used to the large gymnasium. In the second period the Maine boys had evened the score and were going strong until Urban, the B. C. captain, went into the game and put new life and vigor into his men.

The men who made the trip were Coach Baldwin, Capt. Coady, Mgr. Crandall, Noyes, Turner, Woodman, Berg, Taylor, Judkins, and Holmes.

## Veterans of Foreign Wars Dance a Success

The dance of Friday evening, managed by the Veterans of Foreign Wars was well attended. Music was furnished by Al Johnson's Novelty Jazz Orchestra. Mrs. Mary J. Parcher and Miss Mary Hopkins were present as chaperones.

The proceeds of the dance will be laid aside, with contributed from the Alumni and friends of the University, for building a memorial arch at the entrance to the campus. This arch will be dedicated to the men who sacrificed their lives in the last war.

## Mr. Cummings Talks on Drummond to Y. W. C. A.

The Y. W. C. A. held an unusually interesting meeting at Valentine Hall, Sunday evening. The speaker of the evening was Mr. Cummings who gave a sketch of the life of Drummond and an account of a trip through the Canadian country. He also read several selections of Drummond and a few original ones. These were greatly enjoyed by all as they were delivered with the cleverness which is characteristic of the speaker.

## Forestry Club Holds Interesting Meeting

The regular bi-monthly meeting of the forestry club was held in the forestry rooms in Winslow Hall Wednesday evening, Feb. 23. After a short business meeting Prof. Briscoe gave a short talk on the Katahdin reserve bill which has been a topic of discussion at the State house recently.

The president then introduced the speaker of the evening, Mr. Cooledge of Bangor, who gave a fine talk on the various phases of Forestry as it exists in the State of Maine. He touched on the present and future conditions comparing intensive with extensive forestry. Mr. Cooledge emphasized the fact that Maine compared favorably with any other State in forestry work as she employed a large number of technical foresters to carry on the proper conservative methods of forestry. Maine stands first in the methods of fire protection and among the first in conservative methods of cutting, in other words, looking ahead for the future crop.

Mr. Cooledge closed his talk by giving several cool experiences personally encountered in the forestry work, which were very interesting. Refreshments were served in the form of peanuts and cigarettes.

The Municipal University of Cincinnati has received \$7,000,000 from the Rockefeller endowment fund on the condition that the University itself raise \$400,000.

## Harry Laidler Delivers Interesting Lecture

Speaks of General Unrest and the True Meaning of Socialism in America

Mr. Harry Laidler, the well known socialist, was an interesting speaker in chapel last Friday. The opening of his talk consisted of reflections on his own college days in a small Connecticut town. In his humorous way, he described college life as the passionless pursuit of passionless intelligence, then added that this is only right, the life of a college student should be aloof and away from the world to a great extent.

He said, however, that the student should not be ignorant of the important events going on in the world, he should keep in touch with the principal issues of the day. Socialism, he said, is generally misunderstood in America; popular hysteria has made it a subject of fear, whereas a little intelligent study would make it recognized for what it really is, an effort toward industrial democracy, one of the most vital and fundamental movements in history.

Quite different from the American attitude, he said, is the sentiment in Europe. In a few words he described conditions in France and Italy, where the socialists are in the majority. The condition in Russia, he agrees, is deplorable, but here again we are not yet in possession of the real facts. Socialism is not to be blamed, history will show later the great principles underlying the Bolshevik unrest.

Mr. Laidler pleasantly told how he enjoyed addressing the students of Maine, closing with a cordial wish for success in their present business of life—the passionless pursuit of passionless intelligence.

## Sophomore Owl Dance Last Sat. Well Attended

The annual Sophomore Owl Dance was held in the gym Saturday evening, February 26. About eighty couples were present. Music was furnished by the Six Syncopaters, who played for an order of sixteen dances.

The patronesses were: Mrs. Stuart, Mrs. Mason, and Miss Hopkins.

The committee in charge consisted of: Carl L. Martin, Clarence L. Beckett and A. L. Bisson.

## S. A. E. Hold Annual Banquet in Bangor

The twentieth annual founders' day banquet of Sigma Alpha Epsilon fraternity was held Tuesday evening, at the Bangor House, in the English room. There was an unusually large number of alumni present and the classes represented dated back to '03. P. I. Chase and Shive Sheehan being representatives of this class.

Arthur Patterson '14, acted as toastmaster and presided over the banquet in fine style. Toasts by both alumni and students were given. In addition to men from the local chapter, there were three members from the Boston University chapter present. Lieut. Uhling from the military department was also a guest. The affair was one of the most enjoyable in the history of the fraternity.

The toasts which were given during the evening were as follows:

In Retrospect Dan Campbell '21  
To the Alumni Shive Sheehan '03  
S. A. E. at St. Louis Farmer Stevens '22  
The Future of S. A. E. Jacob Froberger '19  
Thoughts from Minerva P. I. Chase '03  
Class of 1924 Ted Monroe '24

The summer term circular is being prepared announcing the courses for the summer school held from Monday, July 27 to Friday, August 5. From the number of inquiries being received a large attendance is expected.

## Maine Faculty Rifle Team Wins Match

The University of Maine Faculty Rifle Team defeated the Tufts College Rifle Team in a dual match shot February 23rd. The following scores were made:

U. OF M. FACULTY	
Gardner	191
Helmiok	188
Dorsey	188
Smith	187
Crossland	183
Total	937
TUFTS FACULTY	
Baker	195
Rockwell	184
Knights	179
Bachelor	178
Burden	176
Total	912

It is interesting to note that all five men on the faculty team hail from the College of Agriculture. This condition probably would not be true if all the members of the club turned out for practice. It is hoped that all the faculty members who have joined the rifle club will come out regularly in order to make it possible to select the highest men for the team. The team has shown remarkable improvement in the last two matches and with more practice will soon be able to make it interesting for any team.

## Agricultural Society Has Enjoyable Smoker

The Alpha Zeta fraternity honorary society for students in Agriculture, gave a smoker Thursday evening. Representatives from the other honorary societies of the University were present to enjoy an evening of speeches and an informal good time. Professor Merrill spoke of his early days in college, the conditions and customs then existing, and the improvements of the present day.

Mr. A. L. T. Cummings told some of his unrivaled French-Canadian stories. Richard Muller gave a vivid and interesting talk on Socialism.

## University Band to Play Concert Friday

The University Band will play for a concert and dance in the gym Friday, March 4. This Pop Concert will be given under the auspices of the Contributors' Club.

This concert will be the first of a series to be given by the Band throughout the state. The second concert will be held in Bangor City Hall, Saturday, March 5.

Concerts are scheduled to be played in Portland, Saco, Lewiston and Augusta during the week of March 7.

## Try to Accommodate Men Not Living on Campus

Plans are being made by the Maine Christian Association in the event of heavy storms during the coming few weeks to take care of any Bangor and Old Town boys who go back and forth daily on the cars, and who may wish to remain on the campus.

It is not expected that there will be need of this service, but the Association believes in preparedness and many Bangor and Old Town students suffered great inconvenience last winter because of the snow blockade which prevented the cars from running.

The Christian Association through its secretary plans to be able to house a number of students temporarily, should they desire to remain on the campus instead of attempting to "buck" the drifts or waiting for a delayed train service.

The trustees of Allegheny College have recently agreed to use one hundred thousand dollars upon athletics exclusively.

## Maine I. A. A. Elects Officers for the Season

H. W. Fifield Is Second Vice-President. Next Meet to Be Held at Bowdoin

The 26th annual meeting of the Maine Interscholastic Athletic Association was held at the Elmwood Hotel in Waterville last Saturday. The following officers were elected for the coming season: President, Virgil McGorrell of Bowdoin, first vice president, Herbert Fifield of Maine, second vice president, Maurice Dean, Bates, and secretary, Thomas Grance of Colby.

The principal discussion of the meeting was to decide upon the matter of transferring the Maine interscholastic track meet, which was scheduled to be held at Waterville, to Whittier Field at Bowdoin. There was no opposition on the part of the Colby authorities. The new track started on Seavern's Athletic Field in Waterville last summer is not yet completed. It was also decided that the track meet to be held at Bowdoin, will be held May 14, one week after the New England Meet. The place of the next state meet will follow the logical order next year as previous to this change.

They also took up the matter of the one year law regarding transfers now in vogue among the four Maine colleges. As it is at present, no student is allowed to compete in athletics for a college until one year after his transfer. The proposed change allows a student to return to his alma mater and compete in athletics during the same year, if he has not taken part in any athletics of the school to which he transferred.

This proposed plan was laid upon the table until the next meeting so fuller details upon the matter might be found. This system is in vogue at Harvard, Yale and many of the larger colleges of the country.

The meeting closed with a discussion of judges, starters, timers and other officials who will probably be picked at the next meeting.

## Interclass Basketball Schedule Is Arranged

The class basketball teams are practicing every day in the gymnasium. Friday afternoon the freshmen elected Jim Rice captain of their team. About 20 freshmen are working out for the quintet. Of the candidates Rice, Newell, Foster, Jordan, Driscoll, Carter, and Gentile are showing up well. Many of the men are evenly matched and the personnel of the team, as yet, is a matter of conjecture.

The following schedule has been arranged.

March 1. Seniors vs. Freshmen  
Juniors vs. Sophomores  
March 2. Seniors vs. Sophomores  
Juniors vs. Freshmen  
March 3. Seniors vs. Juniors  
Sophomores vs. Freshmen

## Physics Club Will Meet In Aubert Hall Tuesday

The Physics Club will meet next Tuesday evening at 7 o'clock in room 204, Aubert Hall. The first part of the meeting will be devoted to a short business session. There will be an election of officers and an appointing of several committees. After the business, Dr. Fitch will give a short talk on, "The Application of Physics as Applied to Paper Making." This talk should appeal especially to students interested in paper manufacturing.

This talk is not to be a lecture, but a combination of theoretical and practical paper manufacture. Dr. Fitch will perform three experiments. An interesting experiment to be performed will be on a machine, invented by Dr. Fitch for the measuring of very small distances in the manufacture of paper.

Fletcher A. Thomas '17 is in the woods with a lumber crew of 28 men.

## Editorial

Every once in a while someone asks what we are doing for Maine. We've heard so much about Maine spirit and the duty of boosting Maine that it has become an old story. The question is—What is Maine doing for each one of us? College is a place where men or failures are made. We use the term men in the broad sense meaning fully developed intellectual and moral human beings. Are we getting out of college all that the place can give? The man who makes good is not necessarily the athletic hero or the social lion. The fellow who finds time, or takes time, to learn and to understand his college companions is hoarding up, for future use, the most valuable kind of information.

Maine can offer you good courses that will make you work for your rank, and after four years of hard work it can turn you out with the degree you have strived for, but if you're not getting more out of college than a degree and a familiar acquaintance with a few intellectual subjects, you are one of the failures. You're a failure even if you've been on the dean's list. You're only a failure if you leave college without learning to look at things from the other fellow's point of view as well as from your own. A man's a man only when he knows other men well enough to understand them and to be able to meet them in a manner that will win friends for himself in the outside world. College is the place to learn to take hard knocks without being overcome by them. It is the place to learn to feel easy with a crowd of fellow men. College is the most select little world of many sided human experience that life has to offer. All of the larger problems which present themselves to every man are met in some small or large degree during the four year college course.

If you are learning from Maine to meet the situations of life and to meet them without fear of defeat you are getting from your college the greatest gift she has to offer and you can never be a failure once you've learned from association with your fellow students the secret of being a man.

## NOTICES

March 5: An operetta by the Girls' Glee Club.

March 4: Pop Concert and dance in the gymnasium by University of Maine Band.

All baseball batterymen report at the cage at three o'clock every afternoon.

All freshmen wishing to work out for baseball manager report at the cage every afternoon at three o'clock.

Physics Club Meeting March 8 at 7 o'clock in Aubert Hall. Professor Fitch will speak on Application of Physics to Paper Manufacture.

## FRATERNITY NOTES

### KAPPA SIGMA

Don Coady is away with the basket ball team on the Massachusetts trip.

Bernie Mayo has recovered from his cold and is with us again.

Mr. Edward Hudson was the guest of Clark Perry at dinner Sunday.

Charles Hotham has returned from his trip to Boston and Providence.

Mrs. Mason, who was one of the chaperones, and a number of the boys enjoyed themselves at the Sophomore Owl dance at the gym Saturday evening.

Clyde Vining spent the week-end on an outing trip at Mt. Katahdin.

Fred Edwards who has been confined to his bed by illness will leave shortly for home.

### PHI ETA KAPPA

Jean Lancaster who left college last semester on account of illness visited the house last week.

Bill Keyte '16 spent the week-end at the house.

The water crew has been dissolved. Chemo has apparently given up its fishy taste, or have we all colds?

The boys are all jubilant over the victory last Saturday. It will certainly seem good to have two more cups adorning our shelves.

We sincerely hope that our fraternity brother, Professor Harold M. Ellis, will have a speedy recovery from his illness.

### ALPHA OMICRON PI

Lilla Hersey '21 who completed her course at mid-years, has accepted a position as teacher of French and History at Fryeburg Academy.

Lillian Dunn '22 and Virginia Colbath '23 each attended a house party at Bowdoin last week-end.

### PHI MU

Owing to sudden illness, Mrs. Beryle Molleson will not be able to make her inspection tour of Beta province so her visit to Maine has been postponed indefinitely.

### BETA GAMMA

The first annual banquet of Beta Gamma was held at the Bangor House Friday evening. The program immediately following the dinner was an entertaining one. Estelle Nason officiated as toastmistress and called forth many clever responses. Mrs. Walkley, one of the patronesses told of some interesting experiences during her own college life in the west. The program closed with the Stein song. The initiates were Elizabeth Harkness '23, Rebecca Hall '24, Irene Guppy '24, Ione Irving '24 and Margaret Wolf '24.

On Saturday night the sorority gave a theatre party at the Bijou.

### PI BETA PHI

"Peg" Blethen '21 spent the week-end at her home in Dover.

Betty Kingsbury '23 spent the week-end in Biddeford being called there by the death of her aunt.

It is reported that Pi Phi is about to pledge another brother.

Peg Harding spent the week-end with her aunt in Old Town.

### LAMBDA CHI ALPHA

"Mel" Holmes made the trip to Boston with the varsity basket-ball team.

"Tige" Hall is confined to the house with la grippe.

"Hero" Small has returned from his visit to Farmington. He reports that he had a wonderful time.

John White spent the week-end at his home in Newport.

"Dannie" Walsh has decided to stay at the house during the entire week. The brothers will surely be glad to see him.

The boys of the house have organized a "Jazz" orchestra to be known as "Maine's Midnight Sons." It will be some time before the boys will appear at public concerts. We wonder why?

### LAMBDA DELTA

Several of the seniors are planning to take a trip to Boston the week before vacation.

Cy Thompson and Lev Boothby are on the sick list.

Mr. Whalen of Island Falls is spending a few days with Bob Robinson.

### BETA THETA PI

The members of the house enjoyed the annual straw-ride Saturday evening. About thirty couples attended. The ride ended at the Billington, East Eddington where dinner and dancing were enjoyed.

The senior class received a box of cigars given by the Alumni to the class with the highest scholastic record.

Bear Osgood visited his home at Blue Hill, Maine, last week.

Norm Tozier left Monday for Presque Isle. He is to do practice teaching at Presque Isle High School for two weeks.

Thomas Gay visited his home in New Castle last week-end.

### THETA CHI

Cecil H. McNally ex-'22, was a week-end visitor at the house.

Theta Chi announces the following pledges: Arthur L. Peakes '23, Arthur Willey '24, Charles Stone '24.

Cap Legrow as yet has not passed the stogies. We fear he is waiting for a drop in the market.

The Waterville High basketball team that played in Bangor last week, stopped at the house with their coach Bro. Mathews '16.

### SIGMA ALPHA EPSILON

Dr. Harry W. Laidler, who addressed the Economics Club Thursday evening, was a guest at the house during his stay on the campus.

Miss Avis Strout was a guest at the house Sunday.

The twenty-second annual banquet was held at the Bangor House, Tuesday evening, Feb. 22. A large number of alumni and Bros. Pinkham, Barrett and Deering of the B. U. chapter were present.

Buck Fifield attended the meeting of the Maine Intercollegiate Association in Waterville Saturday going from there to Portland where he spent Sunday with relatives.

Temple Bradley is confined to the house with illness.

Reginald Jocylen spent the week-end at his home in Bucksport.

Stanley Campbell was at his home in Cherryfield over the week-end.

Bros. Henry Campbell, Stub Jones and Phil McGouldrick, who are employed by the State Department in Augusta, were guests at the house the past week.

Phil Woson spent the past week at the Bangor House.

Howard Deering spent the week-end in Lewiston.

Johnny Eames, who was operated upon for appendicitis a short time ago was able to return to his home last week.

### PHI GAMMA DELTA

Ray Wass visited Bar Harbor Saturday.

Squawk Renwick is spending the week-end at his home in Bar Harbor.

Warren Preble spent Friday and Saturday in Addison.

Spike Smith spent the week-end at his home in Bangor.

Perkins, Footer, Clements and Capt. Sprague of the Morse High basketball team were guests at the house Saturday and Sunday.

Phil Taylor and Chris Christopherson made an unsuccessful business trip to Augusta over the week-end.

### PHI KAPPA SIGMA

The informal house party Tuesday afternoon was attended by seventeen couples. An afternoon spent in dancing was followed by a supper with an appetizing menu. It all leads us to remark that the co-eds are wonderful dancers.

Skeet Anderson is making his appearance in society. We feel sure that he will make good since "In the spring a

young man's fancy lightly turns to love."

Stut Linekin, leader of Linekin's famous Indian orchestra which has been featuring at the Strand Theatre, Old Town, spent a few days at home last week.

Miss Marguerite Waterman of Portland spent the week-end at the house.

### SIGMA CHI

Julian Weeks returned from his home in Portland Sunday.

Donald O'Reagan spent the week-end in Waterville.

Henry 'Small spent the week-end at his home in Charleston.

Charles Taylor and Horace Crandall returned from the basketball trip Monday.

Bert Spear has been visiting the house for the past few days.

## LOOKING BACK

### A YEAR AGO

The freshman basketball team defeated Swampscott High School by a score of 39-16.

A team composed of prominent men who are touring the country in behalf of the Interchurch Movement of the World will arrive on the campus soon to address the students.

A large number of baseball candidates have answered Manager Burrows' call for men and are working out daily in the cage.

The series of intramural track meets is to begin next Saturday.

### FIVE YEARS AGO

Theta Chi won the first interfraternity meet of the season, nosing out Beta Theta Pi by three points.

The Glee Club gave concerts in Portland, Old Orchard, and Winthrop last week on their annual tour of Southern Maine.

President Aley is at present traveling in the West attending various alumni association meetings.

The Maine Rifle team has won four of the five matches fired this season having defeated Princeton, Worcester Polytech, University of Wisconsin, and Oklahoma Agricultural College, one match was lost to Notre Dame University.

### TEN YEARS AGO

The Maine Masque presented its production "Twelfth Night" in Milo and Brownville last week.

The seniors won the interclass basketball championship by defeating the juniors Friday.

Fourteen hundred dollars has been subscribed by students, alumni and members of the faculty for the improvement of Alumni Field.

Professor A. B. Aubert was entertained at a banquet in New York given by the New York Alumni.

The freshman-sophomore debate is to take place in the chapel, March 14.

### TWENTY-FIVE YEARS AGO

The chemical laboratory building which was recently damaged by fire will be repaired and refitted. It will be named Fernald Hall in honor of ex-president Fernald.

The football team did not play Bates October 31, as scheduled, because several of the members of the team did not awake in time to catch the train. They must have had "that tired feeling."

Professor Roger's new book "Our System of Government" has been adopted as a text book by the Orono High School.

The electric cars will not run thru the campus as was recently proposed.

The waiting rooms which have been recently erected at each end of the campus will be greatly appreciated by those who have occasion to wait for the car these cold days.

## VENUS PENCILS

FOR the student or prof., the superb VENUS out-rivals all for perfect pencil work. 17 black degrees and 3 copying.

American Lead Pencil Co.  
217 Fifth Ave.  
New York  
Dept. w43

The largest selling quality pencil in the world.

The girls' operetta picture on the front of Alumni?

The "live wires" on the campus?

The "Jordan" river running in and out of Balentine?

That if as much preparation were put on text books as on the chair-arms in the class-rooms, the Dean's list would be lengthened slightly?

That crowded car from Old Town at seven o'clock Sunday morning?

Gus and Carl at all the dances?

Any co-eds playing marbles yet?

It's a wee short time to the first baseball game?

What an improvement it is, not to have class numerals painted all over the campus?

Even "Ray" Smith couldn't qualify as a speaker at the Freshman Banquet (Human beings have their limit.)

Brown "Pop"ping around the Maples.

That prelims are "the thing" just before and after any holidays.

Barstow getting her "Phil" of mail.

The "green carpet" is getting hard usage.

Ranks coming up.

Bone-rim glasses are no sure sign of brains?

How easy it is to acquire social poise at Old Town.

Everybody's beginning to boost now?

"Young Smeers told me he was wedded to his art and asked me whether he had better go to Paris or Rome."

"What did you say?"

"Advised him to go to Reno."

"What is your favorite wild game?"

"Football."

"My brother is living in Ireland, and says he's delighted."

"Delighted at living in Ireland?"

"No! Delighted to be living at all."

He: "May I hold your hand for a second?"

She: "How will you know when the second is up?"

He: "Oh, I'll need a second hand for that."

Prof: "Have you ever done any public speaking before?"

Student: "O. h, yes, I proposed to a girl over the telephone in my home town."

Alex: "What's that grass widow's last name?"

Ander: "Nobody knows. She hasn't come to it yet."

Prof: "What is the highest form of animal life?"

Aggie: "The giraffe, sir."

Bill: "Was that a new girl I saw you with last night?"

Henry: "Nope, just the old one painted over."

An engaged girl would press a man's trousers from eight till eleven every night in the week but she wouldn't press 'em for love nor money after they're married.

PILAR INCLINE  
CITY OF BAHIA, BRAZIL

BAHIA is divided into an Upper and  
a Lower City. One section is on the  
top of a cliff—the other extends between the  
foot of the cliff and the waterfront.

Four Otis Electric Elevators in two large  
vertical towers and the Otis Incline Railway  
pictured here, carry the people and freight  
up and down the cliff. The Incline Railway  
is built at an angle of 40 degrees; there are  
two cars working alternately, each with a  
capacity of 20 people and 1500 pounds  
freight and the trip is made in 90 seconds.

Otis engineering has successfully linked these  
two parts of Bahia. This achievement, big  
as it is, is but one significant detail of the  
world-wide service given by Otis.

Most of the famous structures of the world  
are equipped with Otis Elevators.

OTIS ELEVATOR COMPANY  
Offices in all Principal Cities of the World

## What Is Air Pressure?

THE air is composed of molecules. They constantly bombard you from all sides. A thousand taps by a thousand knuckles will close a barn door. The taps as a whole constitute a push. So the constant bombardment of the air molecules constitutes a push. At sea-level the air molecules push against every square inch of you with a total pressure of nearly fifteen pounds.

Pressure, then, is merely a matter of bombarding molecules.

When you boil water you make its molecules fly off. The water molecules collide with the air molecules. It takes a higher temperature to boil water at sea-level than on Pike's Peak. Why? Because there are more bombarding molecules at sea-level—more pressure.

Take away all the air pressure and you have a perfect vacuum. A perfect vacuum has never been created. In the best vacuum obtainable there are still over two billion molecules of air per cubic centimeter, or about as many as there are people on the whole earth.

Heat a substance in a vacuum and you may discover properties not revealed under ordinary pressure. A new field for scientific exploration is opened.

Into this field the Research Laboratories of the General Electric Company have penetrated. Thus one of the chemists in the Research Laboratories studied the disintegration of heated metals in highly exhausted bulbs. What happened to the glowing filament of a lamp, for example? The glass blackened. But why? He discovered that the metal distilled in the vacuum depositing on the glass.

This was research in pure science—research in what may be called the chemistry and physics of high vacua. It was undertaken to answer a question. It ended in the discovery of a method of filling lamp bulbs with an inert gas under pressure so that the filament would not evaporate so readily. Thus the efficient gas-filled lamp of today grew out of a purely scientific inquiry.

So, unforeseen, practical benefits often result when research is broadly applied.

General Electric  
General Office Company Schenectady, N.Y.

Dr. Ellis has been obliged to give up his work for a time because of illness.

Professor Kueny spoke before the Arts Club Saturday, Feb. 29 on "The Saints of the French Republican Calendar."

To the Students of the University:

This is to advise you that Mr. Harry Belyea, at the Beta House, has been appointed as agent for the New Franklin Laundry. He will begin business by making collections and deliveries on the north end of the campus and extend to other portions as rapidly as conditions warrant. At first and until he finds out what service will suit best, he will make the collections on Saturday afternoons.

Give him a trial bundle and help him to get started in business. The work will be done in the best manner and the charges are moderate.

The New Franklin Laundry is owned and operated by a Maine man and by dealing with Mr. Belyea you will PATRONIZE HOME INDUSTRY all the way.

## HARVARD UNIVERSITY Dental School

There is unlimited demand for skilled dentists and specialists in dentistry. This school offers a most thorough and efficient training in this interesting profession. For those who wish to specialize there are courses in Oral Surgery, Orthodontia (straightening the teeth) and other branches. Instruction by leading dentists of Boston and vicinity. Up-to-date equipment with unusual opportunities for practical work. A college certificate indicating one year's work in college English, Biology, Chemistry, as well as high school or college Physics, required for admission. Write for particulars.

EUGENE H. SMITH, D. M. D., Dean  
Boston, Mass.

ANY tobacco—every tobacco—tastes better in a WDC Pipe. Our own specially seasoned and carefully selected French briar makes it so. Add to this the supercraftsmanship of the Demuth workers, and you'll not wonder that we claim pre-eminence in the quality of our pipes. Ask any good dealer.

WM. DEMUTH & CO., NEW YORK  
WORLD'S LARGEST MAKERS OF FINE PIPES

## Summer Positions For College Men

We pay as high a percentage of commission as any other Map Publisher, and a *SALARY* of \$15.00 per week besides.

We also pay the transportation on all goods sold.

## LAW

THE BOSTON UNIVERSITY LAW SCHOOL

Trains students in the principles of the law and in the technique of the profession so as to best prepare them for active practice wherever the English system of law prevails.

America's new place in international politics and commerce challenges the young American.

He must equip himself for new world conditions with a knowledge of legal fundamentals.

LAW—Its principles and application to all business is almost as necessary to the coming business man as it is indispensable to the lawyer.

Special scholarships (\$75 per year) are awarded to college graduates.

Course for LL.B. requires 3 school years. Those who have received this degree from this or any other approved school of law may receive LL.M. on the completion of one year's resident attendance under the direction of Dr. Melville M. Bigelow. Several \$25 and \$50 scholarships open in this course.

For Catalog, Address  
HOMER ALBERS, Dean  
11 Ashburton Place, Boston

According to the Daily Kansan, anti-British feeling has caused many Hindoo students to take an oath not to attend any educational institution sponsored by the British Government in India.

Students of Pennsylvania State College have organized a volunteer fire department, including a chief and four captains.

## Alumni Notes

Swede Berry ex-'23 was on the campus several days last week. He has been in the employ of the Great Northern Paper Company.

Sam Collins '19 was a guest at Phi Kappa Sigma over Sunday. He is now engaged in the lumber business at Caribou.

R. B. Cruikshank '10 is active in his office as secretary of the American Pomological Society. Mr. Cruikshank is located at Columbus, Ohio as extension horticulturalist.

F. Roger Miller ex-'14 who for the past six years has practiced law in South Berwick is now Register of Probate for York County.

Grace Clapp '16 has resigned her position with the Aroostook State Normal School at Presque Isle and has accepted a position as Director of Domestic Science in the Reading (Mass.) High and Junior High Schools.

C. Neil Merrill '18 has recently left Webb City, Mo., to accept a position as chemical engineer in the Bureau of Economy with the Great Northern Paper Company, Millinocket, Maine.

Benjamin E. Grant '17 has completed his duties as treasurer of the city of Westbrook and is now located at 8 Bloomfield Street, Lexington, Mass.

C. H. Tucker '10 is at the head of Tucker's Teachers Agency which has its headquarters at 120 Boylston Street, Boston. A representative of Mr. Tucker's agency has been on the campus recently.

## Phi Eta Kappa Wins the Charlie Rice Cup

(Continued from Page One)

The summaries:

45 yard dash: Won by Thomas, Phi Kappa; second, Pinkham, Theta Chi; third, Gray, Commons Council. Time, 5 2-5 seconds.

40 yard hurdles: Won by Fenderson, S A E; second, Pinkham, Theta Chi; third, Castle, Delta Tau. Time, 5 4-5 seconds.

Freshman relay (Winners with best time), Phi Eta, S A E, and Commons Council.

880 yard run: Won by Castle, Delta Tau; second, O'Connor, Commons Council; third, Laughlin, Theta Chi. 220 yard run: Won by Pinkham, Theta Chi; second, Pratt, Delta Tau; third, Rock, S A E.

Fat man's race: Won by Murray, Phi Gam; second, Ricker, S A E; third, Rockwell, A T O.

440 yard: Won by Lawrence, Phi Gam; second, Pratt, Delta Tau; third, Castle, Delta Tau.

Bag race: Won by Healey, Delta Tau; second, McBride, Theta Chi; third, Houston, Delta Tau.

3 legged race: Won by Delta Tau. Mile run: Won by Ames, Phi Eta; second, Raymond, Phi Eta; third, Pease Phi Eta.

Field Events, Phi Eta, 21; Delta Tau, 3; Phi Gam, 5; Commons Council, 1; Theta Chi, 1.

Phi Eta Kappa 35; Delta Tau Delta, 32; Theta Chi, 20; Phi Gamma Delta, 15; Sigma Alpha Epsilon, 12; Commons Council, 6; Phi Kappa Sigma, 5; Alpha Tau Omega, 1.

Judges at the finish: Walker, Johnson, Brooks.

Clerk of Course: Schenkel. Referee: Barnard. Starter: Grover.

The Conversation Club was held at the home of Professor H. S. Hill. Professor Peabody talked on the legal status of the University of Maine.

Professor G. D. Chase gave a lecture before the Athenian Club on the Lithuanian dialect.
