Hearing To Be Held in Bangor on Fare Rates

Attempt Will Be Made to Reestablish Special Ticket Privileges to the Campus

On complaint of officials, members of the faculty and students of the University, as well as several residents of Orono, a hearing is to be held at the Probate office in Bangor at 1:30 o'clock, March 21, which, it is hoped, may result in a decrease in the rate of fare on the Bangor Railway and Electric Co. line to those going to and from the campus. The hearing will be held by the Public Utilities Commission in response to a petition filed early in February.

As will be recalled by local patrons of the B. R. & E. the special ticket privilege which was accorded to those traveling between Bangor or Great Works and the University was discontinued the first of last December, after a 30-day notice from the Commission acting upon representations from the railroad company of the discovery of "Wholesale Ticket Frauds" in which it was alleged that the students were in collusion with certain of the conductors. While admitting the dishonesty of their own employees, only three of whom it is reported were dismissed from the service, the regular patrons are punished by being obliged to pay three full fares from Bangor to the campus and two full fares from Old Town. The tickets which provided a half-fare charge for the third or second zone from either terminus, were withdrawn

Pres. Aley Dispel Dame Rumor in Address

According to President Aley, conditions in the state of Maine are much the same, in one respect, as the Apostle Paul found when he first visited Athens. His chief complaint was that the people were ever too anxious to hear new and strange things. Today, in connection with the University of Maine many new and strange rumors are causing trouble in the legislative halls; idle and unfounded remarks by friends of the institutions are exaggerated and circulated by its enemies.

During the past week, two hearings were held before committees of the legislature which were distinctly encouraging in that they gave the representatives of the University an opportunity to clear up many important facts which have been misrepresented and distorted before the people of the state. The hearing before the committee on finances and appropriations was very satisfactory, while that before the educational committee was held by some to be the best hearing in their memory. However, it is too early to make predictions.

We can say that the University of Maine will keep on the rest of the year and will reopen in September, and that the Summer School will be here for those who need a little push to get that degree. Those Arts and Science students who are anxiously considering the various colleges in New England to which they may go when Maine is defunct, can settle down in peace, for an Arts and Science degree will be possible for a few more years to come.

There has been on the campus during this year, a spirit of criticism and unrest which is rampant everywhere, it is merely a reflection of the thing in the minds of all the people of America, in fact in all countries which engaged in the World War. It is true that there have been things to criticize, but this continual fault-finding is productive of no good whatever. What we need now is a boost, a general get-together. The old University of Maine is here to serve us, and we to serve it; neither the students nor the administrators can make any progress unless they feel that they are a part of it. A spirit of loyalty and boosting will bring back those good old days that our alumni speak of with pride. The University of Maine is what we make it.

Football Schedule Is Revised by the Board

The revised football schedule was approved by the Athletic Board at the meeting held last week. Two more games have been added to the original list. These are with Fordham University in New York City and with Stevens Tech. at Hoboken, New Jersey. Both of these teams are fast and strong. Stevens Tech is an institution little known in this section of the country but in the Middle Atlantic States it has a good reputation, especially in football. They were undefeated last year winning over Columbia and N. Y. Universities. The game with Fordham comes after the Fort McKinley game. The game with Stevens Tech. will be the last one of the season. The Bowdoin game will be played at Orono on Nov. 5; the Stevens Tech game at Hoboken on Nov. 12. There was some discussion as to whether the Bowdoin game should not be the last one of the season. The reason was given that the men would not train after the Bowdoin game but it was finally decided that the men would keep in condition for the Stevens Tech game because of the reputation of their opponents and that the trip to Hoboken would be an incentive for the men to keep in training.

The schedule as it now stands is as follows:

Sept. 17 Fort McKinley at Orono
Sept. 24 Fordham University at N. Y. City
Oct. 1 Norwich University at Orono
Oct. 8 Lowell Textile at Orono
Oct. 15 Rhode Island State at Orono
Oct. 22 Bates at Lewiston
Oct. 29 Colby at Waterville
Nov. 5 Bowdoin at Orono
Nov. 12 Stevens Tech at Hoboken, N. J.

Lyceum Course Will be Finished on March 18

The last of the Lyceum Course entertainments, given by the M. C. A. will take place at Alumni Hall, March 18 at 8 P. M. The entertainers at this time will be Crawford Adams and his company. It will be remembered by those who were at the University last year that Crawford Adams furnished some fine music on his violin. The fact that Crawford Adams, "The Wizard of the Violin" will be here is enough for an entertainment in itself. With this company is Miss Ethel Hinton, "The Girl of Many Dialects," who is one of the best liked readers on the platform. Another noted artist of this company is Miss Nan Synott, the solo pianist and accompanist. The work of these two artists is entirely in keeping with the high standard set by the wizard. From these few facts we can guarantee any audience that this company can give 100% satisfaction. In the event that this is the last entertainment of the year, let's all show the M. C. A. that we have appreciated the superb entertainment that they have given us during the winter months, by turning out to this last entertainment.

At the meeting of the Physics Club in Aubert Hall, March 8, officers for this semester were chosen, and a practical lecture was given by Professor Fitch. The officers elected were: Unk Armstrong, president; and Chubby Holt secretary. For the executive committee the following men were elected: Professor Fitch, chairman, Thomas, Alexander, Stickney and Barnard.

Professor Fitch's lecture was relating to pulp and paper manufacture. The lecturer introduced two inventions of his own which seemed wholly practical and possess point of superiority over the instruments of similar nature now in use.

At the next meeting of the club, March 22, Prof. L. H. Dawson, who has spent three years at the Bureau of Standards, will be the speaker. He will speak about some of the non-destructive tests of materials performed at the Bureau. He will also show some of the opportunities for Physics students there.

No Money in Treasury As State Failed to Pay

No Salaries Available for Faculty for First Time in History of University

For the first time in the history of the University of Maine, the members of the faculty are forced to get along without their monthly salary checks, due March 15. There is in the treasury no money available, for the sole reason that the State has failed to pay over any funds to the University since December.

No appropriations have yet been made by the Legislature, but it has always been the custom in periods pending legislative appropriations, for the State treasurer to send monthly checks to the University on a basis of the payments of the previous year. This custom the State officials now decline to follow, because of the controversy over amount needed for maintenance.

In the resolve presented in behalf of the University, based on the claims of the trustees as to needs, an appropriation of \$750,000 is asked for maintenance during the financial period of two and one-half years. The budget committee appointed at the last session, to estimate expenses for the present administration, recommended a maintenance appropriation of \$575,000. Governor Baxter, in his special economy message, delivered last Thursday, said he thought \$75,000 could be sliced off the committee's budget, and that the University ought to be able to get along with an appropriation of \$500,000. He also drew a deep red line through the committee's recommendation of \$50,000 for an annex to the Mt. Vernon dormitory. The \$235,000 deficit, he said, ought to be taken care of by the U. of M. alumni, by a popular subscription fund.

Shortly after the delivery of the Governor's economy message the committee on education gave a hearing on the University resolve. President Aley and Trustee Samuel W. Gould spoke in behalf of the resolve, cited the University's needs and were questioned at some length in regard to the \$235,000 deficit. They said that \$111,000 of the deficit represents the excess cost of coal consumed in the campus heating plant in the last three years. Another large portion of the deficit was incurred through United States Government orders for expenditures when the campus was a war training camp, the War Department failing to make reimbursement. Increased cost of provisions, materials and labor and last year's increase of salaries of members of the faculty were responsible for the remainder of the deficit expansion. The deficit had been growing since 1914, the Legislature never making sufficient appropriation to meet cost of maintenance. The trustees kept former Governor Milliken and his council informed about the increasing deficit and he told them the State would stand behind them.

At the hearing, Rex Dodge of Portland, a former president of the Colby College Alumni, was the only person to appear in opposition to the resolve. He said he is a friend of the University.

(Continued on Page Three)

R. T. Patten to Speak to Students on Journalism

Students interested in journalism will have an opportunity, next Monday afternoon, to hear an address by Roland T. Patten of Skowhegan, editor and publisher of the Somerset Reporter-Journal, on "The Publisher's Problems." Mr. Patten's paper is one of the best of Maine's weeklies and he has an interesting story to tell about his experiences as a moulder of public opinion in a Maine shire-town. He is secretary of the Maine Press Association.

Monday evening he will address the Men's Club of the United Parish, following the monthly supper of the club.

His address to the students will be delivered in Coburn Hall, beginning at 4.10.

Professor Toelle Talks On Harding's Cabinet

The students were interested in the talk given by Professor Toelle of the Economics department at Chapel on Friday. The subject of his talk was the cabinet chosen by President Harding. Of eighty students in the Economics classes, Professor Toelle was surprised to find that only one could name the cabinet in full.

Although it is better to have the members of the cabinet all chosen from different states, President Harding has appointed more than one man from New York, as ex-President Wilson also did. The first selection for the new cabinet is Charles E. Hughes of New York as Secretary of State, a choice thought to be well made. The oldest of the new members of the cabinet is Melvin of Pennsylvania, who is Secretary of the Treasury. Weeks of Massachusetts, who represents New England, has been appointed Secretary of War. Since he is a graduate of the Naval Academy it was thought that he would be Secretary of Navy, but, owing to the fact that we may have serious trouble with Mexico during the coming administration, he was chosen for the war department. The biggest man—biggest in the sense of stature—in the cabinet is Denby of Michigan who is Secretary of Navy.

The south has only one representative in the cabinet, Fall from New Mexico, Secretary of the Interior. Will Haynes of Indiana, who has for some time been Secretary of the National Republican Committee, is Postmaster General. The selection of Davis, a well-known financier, as Secretary of Labor has caused some criticism. Other members of the cabinet are: Wallace, Secretary of Agriculture and Hoover, Secretary of Commerce.

In closing, Professor Toelle said that although a man stands the most chance of becoming President of the United States if he is from Ohio or New York, he would not advise anyone of us to leave for that purpose the "sheltered wilds of Maine."

Athletic Board Awards Letters in Basketball

The following men were awarded letters in basketball by the Athletic Board at a meeting held last Thursday: Capt. Coady, Judkins, Berg, and Manager Crandall. These men will hold the distinction of being the first to receive a letter for varsity basketball at the University of Maine. The few men making their letter in this sport is accounted for by the ruling of the Athletic Board that no letter will be given unless a man plays two-thirds of the number of periods played. The men will be given the M plaques instead of sweaters this year. These plaques are made up of a rich dark wood with a big bronze M under which is an inscription bearing the name of the owner and the sport and the year in which he made his letter.

The feeling among the students toward basketball as a varsity sport is that basketball has been a success and it should be continued as a major sport.

The University Band returned Sunday from their concert tour of the southern part of the state. The trip was most successful both from the financial and personal enjoyment point of view.

The first concert was played in the Portland City Hall, Wednesday, March 9. The attendance at this concert was small due to a very rainy night. The concert and dance was given in Saco Thursday before a very appreciative audience. The Band was well supported in Lewiston on Friday night. The Lewiston Alumni entertained the Band in fine style. The largest audience was at Augusta Saturday night. The trip proved that the Maine Band is able to give a successful and entertaining concert tour. It is expected that a longer trip will be carried thru next year.

Girls Play First Varsity Game with N. H. State

The Score Was 13-13 When Final Whistle Blew. Game Continued, N. H. Winning 15-13

The first girls' varsity basketball game in the history of the University was played Saturday evening in a hard fought contest with the New Hampshire State girls on the gymnasium floor. The game which was the first to run overtime on the gym court this year, was attended by the largest crowd that has witnessed the basketball games this season. The final score resulted in a victory for the N. H. State girls with a score of 15-13. When final whistle blew the score was 13-13 and the game was continued until one side scored two points and it was the work of Miss Aldrich of New Hampshire that decided the result.

The game was a big surprise to many of the audience who expected a much inferior brand of basketball than was exhibited by both teams. There was never a more exciting game played than the game Saturday night, especially in the overtime period. The onlookers were brought to their feet and kept there during the exciting and fast playing before the deciding basket was shot.

Three ten minute periods were played. New Hampshire started the scoring after a few minutes of play by leading off with a basket. At the end of the first period the score stood 1 to 4 in favor of New Hampshire. In the second period the Maine girls strengthened and succeeded in scoring 6 points to New Hampshire's 7, the score being 7 to 11. In the third period the remarkable shooting of Capt. Weatherbee on free tries and the work of Norell and Ritter put Maine on even terms with New Hampshire. Miss Chase went in at forward and shot a basket just as the final whistle blew. The ball was caged a second too late however and the score stood at the end of the third period a tie 13-13. The overtime period lasted about three minutes during which time both teams displayed a fast brand of basketball.

The visitors played a good game at passing throughout the game. Miss

Mainiac Is About to Take Maiden Plunge

A number of Maine students felt that in not publishing a magazine of humorous nature, the University was not keeping up with the other large institutions of the country. They conceived the idea of launching such a periodical from the college press. After many weeks of midnight oil the "Mainiac" is about to take her maiden plunge.

As the editor says, the history of the founding of the paper is on a par with Topsey—she just grew. The big idea was a very small one at first, but interviews with the faculty, the students, and the alumni encouraged its publication.

First issue difficulties, always hard to surmount, have limited the number of pages in the April issue to sixteen or twenty. New talent, wit and ability, continually being discovered on the campus, will be put on display in the bigger, better Commencement "Mainiac".

It is hoped that the magazine will be a permanent institution here, the first issue being the work of a temporary board, made up of: Harry A. Patterson, editor; Horace C. Crandall, Business manager; J. Owen Weeks, Advertising manager; Henry Y. Howard and Henry T. Carey, Associate editors; Sidney Osborne, art; Clarence B. Beckett, circulation. Professor Charles P. Weston is the keeper and advisor of the Mainiacs.

The literary work of the magazine will be similar to that of the Harvard "Lampoon," Pennsylvania's "Punch Bowl," and Yale "Record." The front cover, artistically done in two colors, aptly represents the "Mainiac's" maiden plunge.

Editorial

Eleven years ago the Senior Skulls put up a cup to go, at the end of ten years, to that fraternity which had attained the highest scholastic standing for the college year the greatest number of times. It should have been awarded last June, but four fraternities had equal legs towards it and so the period had to be extended one year for the tie to be worked off. These fraternities are Sigma Nu, Phi Eta Kappa, Phi Gamma Delta and Alpha Tau Omega. Each of them have been the high rank leaders two years apiece. If one of these four win it this year the cup is theirs.

We believe that this cup has been of great influence in raising the scholastic standing of the fraternities. And we all know that some incentive to better the scholastic standing of the fraternities is needed. The non-fraternity men stand way ahead of the fraternity men in scholarship. If this cup is awarded this coming June there will be no goal to work for outside of one's own good feeling, and that in most cases is easily satisfied. So we ask that the Senior Skulls, if possible, put up another cup and let this year count as the first leg.

We will not undertake to decide whether there should be fewer or more dances, or whether or not attending the dances is the cause of the low scholastic standing of so many students. But we do admit that the scholarship is very low and we would like to suggest that the dance committee spend a little more time in preparation for the dance, and strive to have the gym in a better condition than it has been for a number of the dances already held this year.

The number of publications of the University is to be increased in the near future by a comic magazine—*The Mainiac*. Knowing the difficulties that boards of all publications meet with we hope that the students will receive the first issue without prejudice and if they like it, help to spread the good news about.

Many Are Victims of Heart Disease Epidemic

The epidemic of heart disease which has been sweeping over the campus has at last reached the offices in Alumni Hall. The girls have been the most numerous sufferers although Pep Towner is to be counted among the number of the victims. Mr. Towner is so pleased to be swept along by the epidemic that it is rumored that he has been passing the cigars for several days.

The engagements which have been discovered are those of Harriet Tupper, stenographer of the alumni secretary, to Thomas Kane of Old Town; Laura Bolan, stenographer of the alumni secretary, to Carroll Dempsey of Orono;

Essie White, cashier, to Raymond Spruce of Milford; Anna Jorgenson, stenographer to the assistant treasurer, to Sergeant Mark B. Ashley; Betty Mills, ex-'20, private secretary to President Aley, to Wayland B. Towner (Pep) '14, the alumni secretary.

It was thought that this serious epidemic had subsided some time ago but there is only one solution for the new outbreak. The wedding chimes of Gladyds Cunningham, the campus postmistress and Norman J. Kelley '22 must have set many hearts to fluttering and some of them were unable to stand the strain.

Sophomores Prove to Much for H. C. I. Team

The Sophomore Basketball team closed its season last Wednesday, March 9, by easily defeating the Higgins Classical Institute team by a score of 40 to 12. This victory helped to wipe out the defeat suffered by our second team of football last fall. The game was rather slow at times, due to the Higgins Classical team not being used to a large floor, and a large number of substitutions were made on both sides. Spear of the Sophomore team was the star of the evening, shooting 10 baskets and 2 fouls. Plummer came across in good style and caged 4 baskets from the floor. Shaw and Keith played the best game for the opposing team. Keith shot 2 baskets and caged four free tries. The Sophomore team was well balanced and played H. C. I. off its feet in the second half.

At this time the members of the Sophomore squad of basketball players wish to thank Coach Baldwin for offering his valuable time and services in coaching the team this past season and they wish to take this time and opportunity of showing their appreciation of his services. To Captain "Ted" Curtis is due a lot of credit in piloting the team thru a successful season, in coming out on top in the class series and it is hoped that we will have as able a leader as Captain Curtis for next year's team. To the squad as a whole is due a lot of credit for making the recent class champion team of the inter-class series.

The summary of the game:

To Have Tractor School During Farmers' Week

Inquiries are daily being received at the College of Agriculture for information regarding the tractor school to be conducted on the campus during Farmers' Week, March 28—April 2. In reply Prof. Simmons, head of the department of agronomy, is sending out copies of a letter outlining the plans and rules governing the course.

The school will open Monday noon, March 28, and continue until Saturday afternoon. Like the regular Farmers' Week course, it will be free. The only charges will be for board and notebooks. Those who are to take the tractor course are advised to bring along their working clothes. The course will be under the direction of Prof. Emerson of the department of mechanical engineering, University of Maine, and will consist of lectures, discussions, laboratory practice relating to gas engines in general and to the detailed study, care and operation of different types of tractors. A number of tractor companies will send men here with their makes of tractors, for exhibition purposes and for work in dismantling and equipping.

In the lectures attention will be given to engine troubles, their causes and remedies, and a study will be made of the different parts and operations of the machines. Special attention will be given to ignition, pulling system, transmission, carburetor adjustment, cooling systems, etc.

Four periods in the forenoon and four each afternoon will be devoted to school work. Each man attending will be given, at the completion of the series a certificate showing that he took the course.

A tractor conference, Tuesday evening, in which various problems relating to the use of tractors on Maine farms, will be a feature of Farmers' Week.

Lieut. Ewing Has Been Transferred to Texas

The student body in general and especially those taking the course in Military Science and Tactics will regret to learn of the transfer of Lieut. J. W. Ewing from the post here to the 12th U. S. Cavalry stationed at Del Rio, Texas.

Lieut. Ewing has been with us since January and during his short stay has made many friends.

Lieut. Nichols of the 22nd Infantry will arrive this week to replace Lieut. Ewing.

A new addition to the staff here is Sergt. John Tomlinson from the 1st Corps Aero headquarters, Boston. Sergt. Tomlinson has seen 9 years service. During the war he served with the 1st Army Artillery overseas. He participated in the St. Mihiel, and the Argonne-Meuse offensives and opposed the enemy on the Toul sector.

Plans Under Way for Fife and Drum Corps

One of the new things which is just getting under way at the University is the Fife and Drum Corps. Sometime in the near future a dance will be given by this organization in order to get some equipment for this corps. It is hoped that there will be a large delegation from the student body that will attend this dance. Anybody who believes that he has any ability with the drum or fife is most cordially asked to come out and help make this corps a success. It really does not require any ability to get out there and play a drum or a fife. The leaders desire to get this body into full swing in time for the spring inspection of the R. O. T. C. Corps. Now let's all get behind this corps and push it forward all we can so as to get it going by inspection time. This is sure to give the University a good word if it is put through with the right kind of spirit. This is also a good opportunity for anyone who desires to get out of the regular military drill.

Spring Baseball Schedule Was Approved Saturday

The baseball schedule for this spring was approved, Thursday by the Athletic Board and the faculty committee on Athletics. The schedule calls for 17 games, seven of which will be played on Alumni Field. The team will make a trip to Massachusetts and Rhode Island the week of April 25, playing six games.

Many battery men are working out daily in the cage and Manager Graffam states that the field will be ready in a week or so. Coach Monte Cross will report April 6 to take charge of the squad.

The schedule is as follows:
April 19 Colby at Waterville
April 25 Boston College at Boston
April 26 Tufts at Medford
April 27 Boston Univ. at Boston
April 28 Springfield Y. M. C. A. College at Springfield
April 29 Rhode Island at Kingston
April 30 Bates at Lewiston
May 4 Eastern A. A. at So. Brewer
May 7 Bowdoin at Brunswick
May 11 Colby at Waterville
May 12 N. H. State at Orono
May 18 Norwich Univ. at Orono
May 21 Bates at Orono
May 25 Eastern A. A. at Orono
May 28 Bowdoin at Orono
June 3 Tufts at Orono
June 4 Colby at Orono

NOTICES

LOOKING BACK

A YEAR AGO

Leap Year Ball at which the co-eds acted as escorts was held in Alumni Hall Saturday evening.

The seniors in the departments of Chemical, Electrical, and Mechanical Engineering are taking their annual inspection trip, having left for southern New England Sunday.

A plan for the development of the campus of the University has been drawn up by H. A. Rich, an alumnus.

The championship series between Kappa Sigma, champions of the North League and Alpha Tau Omega, champions of the South League, will be played soon.

FIVE YEARS AGO

The Girls' Musical Clubs gave a concert in the Old Town City Hall Saturday evening. The girls are to appear in Bangor and Brewer in the near future.

The Maine Masqué presented "Leolo and Isabella" at Bangor State Hospital, the South Berwick Town Hall, and the Gorham Opera House, while on its tenth annual trip.

The Information Club has been recently organized under the supervision of the College of Arts and Sciences for the purpose of giving the students the opportunity to become better informed on campus topics.

LAW

THE BOSTON UNIVER- SITY LAW SCHOOL

Trains students in the principles
of the law and in the technique
of the profession so as to best
prepare them for active practice
wherever the English system of
law prevails.

America's new place in inter-
national politics and com-
merce challenges the young
American.

He must equip himself for
new world conditions with a
knowledge of legal funda-
mentals.

LAW—Its principles and ap-
plication to all business is
almost as necessary to the
coming business man as it is
indispensable to the lawyer.

Special scholarships (\$75 per
year) are awarded to college
graduates.

Course for LL.B. requires 3
school years. Those who have
received this degree from this or
any other approved school of
law may receive LL.M. on the
completion of one year's resident
attendance under the direction of
Dr. Melville M. Bigelow. Several
\$25 and \$50 scholarships open in
this course.

and wants it to receive an adequate ap-
propriation, but that he believes the
amount called for in the resolve is ex-
cessive. He also voiced the Governor's
theory, that the deficit should be wiped
out by alumni subscription.

A number of alumni and ardent
friends of the institution spoke in favor
of the resolve. The committee has not
yet reported on the measure.

The previous day a hearing was given
by the appropriations committee on a
resolve in favor of the appointment by
the Governor and council of a resident,
all-year treasurer of the University.
This bill was opposed by President Aley
and the trustees, who said it would leg-
islate out of office Treasurer Charles J.
Dunn, who has given much of his time
and talent to advancing the interests of
the university, and whose name is on
many of the notes issued to bridge the
institution over periods of financial
stress. The committee has not yet re-
ported on that bill.

An informal dance was held in the
gymnasium on Saturday evening after
the girls' basketball game. An unusu-
ally large crowd attended and Rice's
orchestra from Bangor furnished the
music. Dancing lasted until 11.30.

YOU HAVE WRITTEN POEMS!

Do you care to have them revised or
constructively criticised by successful
authors? If you do, then send us your
manuscript (stories, articles or poems).
We will criticise, and place them
should they prove to be acceptable for
publication.

There is no actual charge for our
services. If, however, you have not
previously enrolled with the advisory
department of this association, we re-
quest that you enclose the initial fee
of two dollars, which we must ask of
each new contributor. There is no
additional expense, no future obligation.

It must be realized that we can only
be of aid to those of serious intent. If
you do mean to strive for literary suc-
cess, we can help you in many ways.
Our services are yours until we have
actually succeeded in marketing at
least one of your manuscripts. Send
something to-day!

Please enclose return postage with
your communications.

and plant

INSPECTION TRIP REGULA- TIONS

As each student taking the trip is
excused from all class work in the Col-
lege of Technology during the inspec-
tion trip period, he is expected to meet
each and every appointment promptly
at place specified. Failure to do so
may invalidate his privileges during the
remainder of the semester. A complete
set of brief but complete notes indicating
industrial procedure employed for each
plant visited is required on or before
April 11.

Headquarters: Adams House

Note: Be present at the assigned
meeting place a few minutes ahead of
appointed time. The party can not wait.

Y. W. NOTES

The annual election of the local Y.
W. C. A. cabinet members was held
Friday, March 11 in the different dormi-
tories. The following girls were elect-
ed: president, Alta Jones; vice-presi-
dent, Doris Twitchell; secretary, Mar-
garet Wolfe; treasurer, Margaret Man-
chester; undergraduate field representa-
tive, Catherine Sargent. The other
members of the cabinet who are to be
appointed by the new president will be
announced later.

A joint cabinet meeting of the old
and new cabinet officers was held Sun-
day afternoon in the sun-parlor at Bal-
entine Hall, so that the girls might
meet Miss Mary Weisel, the Y. W.
field representative of the Northeastern
division, who was paying a visit to the
local organization on her tour of in-
spection of the college associations.

Miss Weisel discussed with the girls
the problems which confront a Y. W.
association on every college campus.
The advisers of the cabinet members
were invited to meet Miss Weisel and
the girls after the regular cabinet meet-
ing for an informal discussion of col-
lege Y. W. questions.

On Thursday evening at 7.30, in the
chapel, the Forestry Club will show sev-
eral reels of pictures. There will be two
reels of technical and one local picture
not connected with forestry.

These pictures are open to the entire
student body and will be very interest-
ing.

THE HIPPODROME NEW YORK CITY

FEW people know that the two Hippo-
drome stages are gigantic Otis Elevators
whose plungers have a total combined lifting
capacity in excess of half-a-million pounds.

The main stage may be lowered to be used
as a tank, giving a depth of thirteen feet of
water.

This may surprise some who know Otis
only as makers of elevators. The Otis
institution, reaching out into every country
of the civilized world, is a gigantic engineer-
ing organization devoted to the vertical
transportation of men and materials. Nothing
in this field is too big for Otis—nothing so
small that it has not been included in their
accomplishments.

Pioneer in the elevator industry, leader from
the first, Otis still keeps years ahead and is
even now planning, building, inventing and
designing for a future leadership as sure as
that Otis now holds.

Most of the famous buildings of the world
are equipped with Otis Elevators.

OTIS ELEVATOR COMPANY

A freshmen glee club has been formed at Harvard. The new organization will appear at the Freshmen Jubilee to be held in May.

Hearing to Be Held in Bangor on Fare Rates

(Continued from Page One)

from sale Nov. 2 and not accepted after Dec. 2. Since that time it has been necessary to "dig" three times for the seven cent fare for those going or coming from Bangor and twice for those from Old Town.

The injustice manifested by the company in evidently exaggerating "collusion" between students and employees and the seeming desire of the company to assess the most fruitful source of revenue on the whole line, "all that the traffic would stand," led to the complaint to the Utilities commission, with the hope that the true situation might be impartially reviewed.

While the complaint alleges nine distinct grievances, particular stress will be made of the excessive charge for the Bangor residents as well as those from Old Town, the latter paying nearly three times the original rate on the line, while Bangor patrons pay over double. The ride from Orono and Stillwater and the campus, in both cases less than half of a zone, should be reduced, according to the petitioners. In both cases special tickets will again be demanded.

The matter of the evening service out of Bangor is the occasion of much complaint and will be forcibly touched upon by witnesses from the student body as well as by residents of Orono, who have been obliged to put up with dangerously crowded conditions of the cars, especially on the last run out.

As the increased cost of the transportation for the Bangor residents ranges from \$26 for six day trips during 36 weeks, to \$33 for week day trips for the whole year for some of the patrons and as some 250 students and others who are more or less effected, it naturally becomes a matter of considerable moment to them as well as every-one at the University.

Girls Play First Varsity Game With N. H. State

(Continued from Page One)

Aldrich and Miss Hill featured at caging the baskets. The Maine girls played a strong game but the visitors had the edge at passing. The work of Capt. Weatherbee and Miss Kritter at forward was of a high order.

The old Maine spirit was much in evidence and some lively cheering was led by Sid Osborne.

Summaries:

The shooting of fouls was equal to that of the men.

Capt. Weatherbee made 5 out of 7
Miss Kritter made 1 out of 1
Miss Hodgdon made 1 out of 2
Miss Aldrich made 3 out of 5
