One of the most difficult problems the editors of the Province have come across was the fact that many people believed the dance was a success, but still did not find it a success. The dance proved to be a success. The only time it was not a success was when the tickets were sold out.

Many Opportunities in Scholarships Presented

The registrar's office is continually receiving gifts from all parts of the country, letters and scholarship notes from Universities and other educational institutions. Ever increasing opportunities are presenting themselves for the consideration of the students of the University, both graduates and undergraduates. Right now, there is a series of new opportunities for further study.

For the academic year 1921-1922 (August 15-May 4) two special Honorary Scholarships in the Pacific University School for the Ministry located in Berkeley, California are offered to graduates of this and other colleges in the United States or Canada. They will yield $300 each. All are open to students of either sex and from religious denominations. They will be awarded in open competition on the basis of scholarship, leadership, and general ability as indicating promise of superior usefulness. The holder may take such introductory work at the Pacific University School of Religion, or be a candidate for a degree at the University of California. The award will be made May 1, 1922, and the right is reserved to reject any or all applications. Applications, accompanied by three references with records of accomplishments, should be addressed to Professor G. W. H. D. 246 Atlanta Way, Berkeley, Cal.

Mr. Henry and Mrs. L. G. Gardner Memorial Fund, which offers a prize, is reserved for beginning students who enter the School of Religion with no previous theological education or study upon any subject connected with the history of the Jews or their contributions to modern civilization, are now announcing. The Jewish Fellowship of America a prize of One Thousand Dollars to students at a university in the United States, Canada, or Great Britain for a research paper on some subject of interest in the Jewish People. The period of research must be in the office of the Jewish Publication Society. The awardee's essay must be thirty thousand words. The manuscript will be due on the first day of November, one thousand nine hundred and twenty-three. The award is open to students of all religious denominations, provided that their motives are good. They do not wish to call themselves "vamps" if they go with more than one boy. The idea is not considered a vicious habit of which we are not proud. It sounds funny, but it is no joke to let a girl carry over with her the feeling that this is the thing to do or not to do. The man and women on the campuses hear and do things that are not considered in this. Some of the men believe that all they have to do is to take a girl and treat her as they please. But the farm road is sentimental. If by any chance there are women also who like to believe that they are not being properly treated and talked to, it is possible that they may give some thought to the matter. Charity is about the scarcest virtue on the campus. We hope that the return of the (18) of April 23—Interclass handicap track meet.

NICE TO HAVE YOU NOTICED

That now the war is over the flag- postoals will be far better placed it was nearer the center of the campus?

That owing to the poor quality of pants, it is a little harder on the bench than it was.

That the "32" weathered the storm?

That the school will return to its old-time colors?

That the stripes and Stars and the University Banner will look more like this?

That the school body is the only possible field for a little co-operation?

That Hermes turned the River thus the Agonian Statives. The Statives! The Gym!!!

That life and limbs may not mean anything to "J. G." and his running mate but to the course to the close of "Queen of May"?

That a new out of paint may better be a face but it couldn't improve the Athleti City field.

Alumni Notes

University of Chicago—At a recent ceremony attended by over 10,000 students at the University of Chicago by the board of Christian Union, it was revealed that among the 2,000 there was only one atheist, only two agnostics and that no men go to church than women.

When the University of Mississippi placed a ban on dancing, the students showed their disapproval by burning in effigy the governor of the state who is chairman of the board of trustees.

The University of Pennsylvania's baseball team will be very busy this spring. Thirty-one games have been scheduled.

The Otis organization, reaching out into every country of the civilized world, is a gigantic engineer- ing organization devoted to the vertical transportation of men and materials. Nothing in the history of the world has so many ramifications, nor been included in as many arrangements.

Customer just complained that the laundryman charged him silk shirt prices for doing his Frosheen shirts. That connoisseur of men's wear could hardly believe they were not silk.

"Eugene, you know, is white, a beautiful white. Silver sheen is its gay and sparkling companion—full of color and life, silky as silk and glowing in the kind of patterns that silks wear when they dry up."

Silver sheen has one advantage over silk—it wears and wears. Oh, yes, another—its cost. It is reasonably priced at $6.50.
