Begin Final Work-Outs For The B. A. A. Races

**Relay Becomes The Topic of Chief Interest
As Candidates for Team Begin Most Inten-
sive Training.**

With the B. A. A. meet scheduled to take place at Boston the night of February 4, interest is beginning to center on relay. Weather conditions have been unfavorable for the past few days and the squad has been working on the indoor track. With the advent of warmer weather the ice is being removed from the outdoor track and this week preparation for the meet will begin in earnest.

Coach Flack has issued his code of training rules which always indicates the fact that he intends to make the pace faster and hold a few of his famous time trials. From three-thirty until five in the afternoon will be a busy time "on the boards" and will give the student body a chance to observe just what is being done.

Brown will probably be our opponent and should give keener competition than Tufts has in the past few years.

The following is the schedule as it now stands.

Feb. 4. B. A. A. Games—Brown vs. Maine, Boston
Apr. 25-29. Penn. Relays at Philadelphia
May 6. Holy Cross at Orono
May 12. Maine Intercollegiate, Waterville
May 20. New England Intercollegiate at Boston
May 20. Maine Interscholastic at Orono
May 27. National Intercollegiate at Boston

Rifle Team is Defeated In Match with Yale

The University of Maine Varsity Rifle team fired its third match Friday, Jan. 13 in a telegraphic competition with Yale. The result was 497-464 in favor of Yale.

The five high men were:

MAINE	
Currier	95
Holt	94
Hill	94
Steward	92
Plummer	89
Total	464
YALE	
Baker	100
Schlesinger	100
Clise	99
Redick	99
Bennett	99
Total	497

The high scores made by the Yale men show the possibilities in shooting. Although our men have been working hard, they should be encouraged to work harder and to keep the few training rules. In the subsequent matches the team will be reinforced by men from the freshman class.

Secretary Steward announces the following schedule for the remainder of the season. There are six matches in the National Rifle Association besides the intercollegiate matches. Jan. 17, Dartmouth; (21) De Pauw; Feb. 4, First N. R. A.; (11) West Virginia and second N. R. A.; (18) Third N. R. A.; (25) Fourth N. R. A.; March 4, Boston University and Fifth N. R. A.; (11) Princeton and Sixth N. R. A.; (18) Columbia; April 8, Michigan Agriculture.

These competitions cover a wider range of colleges than any other athletic activity on the campus. A successful season will be a big advertisement for our University.

Announce the Baseball Schedule for a Season

The University of Maine baseball team is to play a very worthwhile schedule of games this year. Although the fans will be able to witness but few home games, the quality of teams that make up our schedule will be better than it was last year. The 1922 baseball schedule, as announced by the Athletic Board is as follows:

Apr. 19	Colby at Waterville
24	Amherst at Amherst, (pending)
25	Brown at Providence
26	Harvard at Cambridge
27	Boston College at Boston
28	Norwich at Northfield, (pending)
29	Dartmouth at Hanover
May 1	Vermont at Burlington, (pending)
6	Bowdoin at Brunswick
12	Bates at Lewiston
17	Colby at Waterville
20	Bowdoin at Orono
24	Bates at Orono
June 2	Colby at Orono

Schedule Arranged for General Lecture Course

The College of Arts and Sciences of the University of Maine has arranged the following series of lectures for the General Lecture Course for the Spring Semester of 1922. These lectures will be held weekly under the auspices of the Departments of Physics and Mathematics. The course will begin Wednesday, February 1, at 4.15 P. M., in the physics lecture room of Aubert Hall, and will continue thru the Semester at the same time and place.

Registration for this course is open to all students in the University and one hour credit is given for its completion. The lectures are open to the public and are without charge.

Feb. 1	The Theory of Relativity	Prof. Stevens
8	Theories of Matter	Mr. Bless
15	Vacuum Tubes	Prof. Fitch
23	Thunder Storms	Prof. Dawson
March 1	Sound	Prof. Stevens
8	Analysis of Speech	Prof. Fitch
15	Heat	Mr. Bless
22	Celestial Yardsticks; Measuring the Universe	Prof. Hart
April 5	Index Numbers	Prof. Willard
12	Some Properties of Field and Number Systems	Prof. Hill
19	Fire-arms, Projectiles, and Ballistics	Major James
26	Axiomatic Methods in Mathematics	Mr. Lucas
May 3	Geometrical Constructions with Ruler and Compass	Mr. Brown
10	Types of Problems Solved by Elementary Methods	Mr. Beale
17	Practical Aids in Computation	Mr. Loring

Students Hear Plenary Winter Carnival in Chapel

The student body "jazzed into it" Friday when the Old Orchard Seven played for one of those old-time student chapels and rallies.

Coach Flack (answering to the name Howard) placed himself before the students, not as a prophet but as a hard working coach who was confident that his men would do the best that they were capable of and would with the help and support of the student body, "knock the tar out of New Hampshire." He placed the proposition before the students as a matter of getting the team in the habit of winning by strong support from the side-lines, and no slumping. It is not the winning team that needs support, it is the losing team that needs some of that old Maine "push and go" behind it to give them the "pep and ginger" to fight it through.

Cohen next outlined briefly the plans for our Maine winter carnival which will have become an annual affair for one year on February 12. The Intramural Association is entirely responsible for this fete and to them is due the credit for putting this scheme into working order on a large basis.

Friday evening there will be a Carnival Ball in the gymnasium with all of the streamers, confetti, and everything that makes such an affair a real ball.

Saturday there will be sports of all kinds in which everyone is privileged to enter. Snowshoeing, skiing, skating, and all sorts of trick stunts! Go on out and win a prize so that you will be eligible as a contestant in the Augusta Carnival. Following the stunts there will be an informal party in all of the frat houses and the dorms will give an informal dance in the gym. Possibly the frat houses may hold open house all day Saturday so that one can dance in all of the houses and get acquainted with those whom they have not known before.

Maine Girls Play First Basketball Game Feb. 4

The girls' basketball squad will play its first game February 4. This is the only home game and consequently the only opportunity given spectators to see how the Maine girls match with other varsity squads. The game will be with the Eastern State Normal girls. Castine has had organized basketball much longer than Maine and this year has about as heavy a team as Maine, consequently a fast game is expected. The game will be called at 8 o'clock in the gym. Dancing will follow the game.

The following week the girls will take a trip to New Hampshire, playing at Gorham on the way. This will be the first trip ever taken by a girls' varsity team. The interclass series has brought out much good material. These girls will be candidates for the trip, and all of the positions are closely contested.

OBITUARY

It was with deep regret that the student body learned of the death of William Stanley Stevenson, January 15, thru a sudden attack of influenza brought on by injuries received in the late war. Mr. Stevenson graduated from the University of Maine with the class of '21 receiving a B. S. degree in Electrical Engineering. While here he was ranked as one of the best students of his class, and was respected for his modesty and fine character.

During the war Mr. Stevenson served as ammunition clerk and telephone operator with the 26th Division. He was in many important engagements, and was gassed several times, which undoubtedly hastened his death. Last September Mr. Stevenson was married to Miss Ruth Sullivan of Bangor, also of the class of '21. Since then he has been employed as an electrical engineer by the Westinghouse Company of Wilkesburg, Pa., where he was making rapid advancement, having been promoted several times.

Maine Defeats N. H. State In Fast Game

New Hampshire Falls Before Maine Offensive. Result of Game Doubtful Until Last Five Minutes of Play.

New Plans for Reducing Registration Day Trials

After registration last September, plans were begun for the purpose of making the next registration less tiresome. One of the editors of the Campus conferred with the Chief Accountant at the Treasurer's office. All of the officers of the University are glad to co-operate in every way possible to simplify registration procedure and the success of the plan that has been drawn up, now depends largely upon the cooperation of the student body.

Saturday, January 28, is registration day, but there will be an opportunity for all who so desire to register in advance of Saturday. It is hoped that the majority will register before Saturday. A schedule of the days on which students can register in advance has been posted in Alumni Hall. Upper classmen, generally speaking, can register with their major instructor during his office hours.

The Treasurer's office is now ready to accept registration fees, and the Registrar's office is ready to stamp cards. Fall semester term bills and spring semester charges must be paid at this time.

Students having scholarships should go directly to Mr. Grindle on Friday, January 27 from 1:30 to 3 P. M. Neither should vocational men, coming under the Federal Board for Vocational Education, form in line at the Cashier's window but should see Mr. Grindle on January 27 from 9 to 12.

Students who register on Saturday January 28 should go to their major instructor as usual and to the Military and Physical Training officers, if they are taking these subjects, but they will go to the Treasurer's office alphabetically as follows: Students whose last

(Continued on Page Four)

The Girls Dramatic Club Holds Successful Meeting

There was another successful meeting of the Girls' Dramatic Club in Alumni Hall, Wednesday, Jan. 18. All girls interested in Public Speaking, Debating or Dramatics were cordially invited to attend and to become members. The brief business meeting was followed by a short program:

A short play: "The Will o' the Wisp"
Doris Merrill, Minnie Norell, Shirley Doherty, Ethel Bird.

Reading: Bernice Nicoll
Reading: Cutting from "Daddy Longlegs" Anna Daley

Dean Merrill Entertains Phi Kappa Phi Members

The members of Phi Kappa Phi with the newly elected members held a social meeting at the home of Dean and Mrs. Merrill, Thursday night. Mr. Valle played a number of saxophone solos at the opening of the meeting. Mr. Bachelor gave a report on the Phi Kappa Phi convention in Toronto, held December 26, 27 at which he, Miss Patch and Dean Stevens were delegates from this, the mother chapter.

Mr. Bailey gave two interesting readings which were followed by saxophone selections.

Refreshments consisting of ice cream and fancy crackers were served before the gathering broke up at ten o'clock.

The University of Maine basketball team repeated their victory of last year over the strong New Hampshire State team on the gym floor Saturday night by the score of 34-31 in what was considered the best and most closely contested game ever seen here even by the "old timers."

The freshman team scored a victory over the Mattanawcook Academy of Lincoln 37-27 after being outplayed and outpointed in the first period but coming back strong with team work in the last period.

The main game was thrilling from start to the final whistle. Both teams fought like mad to get into the lead. Thruout the whole game, until the final two minutes of play there wasn't a variation of more than two points between the scores of the Maine and New Hampshire teams.

The outstanding individual players were Ollie Berg, and Captain Perry of the visitors. Berg was here, there, and everywhere—"chained lightning," as one spectator declared. Perry had an uncanny faculty of tossing the ball into the basket from the floor and in shooting fouls. Toward the end of the first period N. H. State put in four new men but in the second period the regular men were put in to hold back the Maine boys who, backed by an enthusiastic student body that would only have victory, were playing the game as if their very lives depended on a victory.

The Maine team kept its lineup intact thruout the game; every man, Berg, Captain Mel Holmes, Crabby Newell, Hank Turner and Noyes played the game for all it was worth.

(Continued on Page Four)

Mr. Towner Resigns as President of Rifle Club

At a special meeting of the University of Maine Student Rifle Club held Friday January 13, Mr. Towner, the Alumni Secretary, tendered his resignation as President and honorary member of the Club, to which position he was recently elected. In stating his reasons for resigning, Mr. Towner said, "I have thought this matter over thoroughly and feel that I cannot with justice to myself, to your organization and to my present work at the University take upon myself any additional duties." Although the members of the Club are very sorry not to have his services, it was voted to accept Mr. Towner's resignation.

As the constitution provides for only one regular meeting each year, the Club voted to amend its constitution so as to have two regular meetings each month. These meetings are to be held the second and fourth Fridays of each month at chapel time, in Room 3, Alumni Hall and are open to all members of the Club as well as to those on the Varsity squad.

At Coach Kidney's suggestion, the Club decided to cooperate with the Girl's Rifle Club in giving a dance, which will be held sometime before Easter if arrangements can be made. The Rifle Club Dance has been held annually for several years, but this year it is planned to make it bigger and better in every particular. The girl's co-operation will undoubtedly insure its success.

At the close of the meeting Mr. Kidney announced the appointment of Hillis W. Holt as temporary Captain and Assistant Coach of the Varsity Rifle Team.

In conclusion, the Coach urged all members of the Club to attend all meetings in order to keep in touch of what is going on in the Club affairs.

The New B. R. & E. Co. Cars

The Bangor Railroad and Electric Co. have recently installed a new type of car for use on the Old Town line. This new type has many new operating features and among them is the use of the forward door only for passengers, both entering and leaving the car. As much criticism was made of this new type the company offered to demonstrate the many advantages of this car to the members of the University faculty and student representatives. A member of the *Campus* staff made the test trip with the car and Mr. Daggett, who gave the demonstration.

The following points were brought out in the demonstration. These cars were made over from the old type at a cost of \$1300 each in order to make the cars give better service with greater safety. A few years ago a man was killed while hanging on the step of one of the moving cars. There have been two instances, in the history of the road, where motor men have died suddenly while operating the car. These new cars make accidents from these or similar causes impossible. The cars have also been newly painted and rubber matting put on the floor by the exits. All cars to be run on the line will be of this type.

The safety appliances make it impossible for the door to be opened unless the air brake is applied and the door cannot be closed with a person standing on the step. The air brake is not released until after the door is shut. The motorman must at all times, when the car is in motion, either have his hand on the controller or his foot on a similar device. The moment the motorman lets up on both of these appliances the emergency brakes are applied, and is applied to both rails, the electric power is switched off and both the front and rear doors are unlatched. This makes an accident due to the sudden death of a motorman impossible. Entering or leaving the car while it is in motion is also impossible.

The cars as they are arranged will seat four more passengers and give much more standing room than the old style. There will be a conductor on every car to collect fares and look after passengers. The car may be stopped by simply signaling the motorman by pressing a button conveniently located near each seat.

The objection that has been raised, is the fact that the car may be entered or left from the right side only. The company has built landing platforms at many of the principal stops and have expressed the opinion that many more platforms will be built in the spring. The road crews are to shovel the platforms after each storm.

It seems to us that the many safety advantages outweigh the inconvenience of being obliged to leave the car from one side only. There is one point which, in our estimation, should be changed and that is the ventilation. The poor air on the cars is a point that keeps many people from making the trip to Bangor often. In these cars there are only eight ventilators approximately six inches in diameter, these do not give sufficient ventilation in a crowded car. The B. R. & E. feel that this new type of cars will give more satisfactory service than the old ones.

"Drones do not live long: nature is always working to rid herself of the useless."

In a recent class in Education, a very interesting discussion arose as to some

of the aims of the Department of Education at the University of Maine. The department realizes that Maine has not stood so far as an institution for the training of teachers because the small numbers in the College of Arts and Sciences did not warrant so much attention as those in the Colleges of Technology and Agriculture. Now, with the rapid growth of classes in education the chief ambition of those in charge is to send out well-trained, capable teachers, teachers who know their subjects thoroughly and who can present them to students in an efficient manner. The placing of strong teachers in prominent high schools of the state cannot fail to be an asset and also an inducement to pupils under them for coming to Maine.

The Winter Carnival

The Maine Winter Carnival which is to be held here February 9, 10, 11 will prove one of the best events of the college year. It will be one of the best advertisements for Maine that can be conceived. The Dartmouth Winter Carnival is known the country over and there is no reason why the Maine Carnival could not be made equally as good. This is the first attempt that has been made on a large scale, to have a real winter carnival in the state. The Carnival is managed by the Intramural Athletic Association and loving cups together with medals will be given the winners.

Stamps advertising the Carnival are being sold on the Campus now and they should be sent on every Maine man's letter from now until the Carnival is held. There are to be events for the co-eds as well as the men and faculty. Everybody should enter at least one of the events if not all.

If you will enter this Carnival with the spirit of cooperation and good fellowship you should, the Maine Winter Carnival will be an event looked forward to in the fall and back upon in the spring, with the greatest pleasure.

The Maine-Spring

Our literary publication "The Maine-Spring" which was published for the first time this year shortly before vacation was without doubt the best edition of the magazine yet printed.

The stories were exceptionally interesting, well written and edited. The size change in the magazine is decidedly an improvement as is the larger print. The general appearance of the magazine is very high class. This is the beginning of a very fine magazine and should have the support of the entire student body. The next issue is to appear early next week.

The Musical Club

The Maine Musical Club will give the annual concert and dance in the Gymnasium on Saturday evening, February 4. The men in this club have been working hard to make the concert this year the best ever. If you want our club to stand up with the best you must support this concert and dance and show that you are behind them every minute.

There are to be several outside artists as is stated elsewhere in this issue of the *Campus*. The function this year promises to be the best that has been staged for many years. Do not miss this opportunity to boost Maine and have a good time.

MT. VERNON NOTES

Virginia Colbath was called to her home in Mars Hill because of the serious illness of her mother.

Vera Thompson has recovered from an attack of tonsillitis.

Mary and Alice Bunker and Grace Coombs spent the week-end at their homes in Bangor.

Lois Mantor has been ill all week with a cold and sore throat.

Marjorie Willey has recovered from her illness of last week.

Elizabeth Ring of Orono spent the week-end at Mt. Vernon, the guest of Catherine Cary.

A Meeting of the Maine Branch of A. I. E. E.

A meeting of the Maine branch of the American Institute of Electrical Engineers was held Wednesday night at 23 Lord. The feature of the evening was the talk given by "Shorty" Boothby '22 about his experiences with the Westinghouse Company of New Jersey and the student course conducted by this company. After the speech, peanuts and smokes were enjoyed by all.

Excellent Program For Convocation Services

The fourteenth Annual Convocation Week of Bangor Theological Seminary will be held this year during the week of Jan. 23-27. The excellent program that has been arranged includes such powerful speakers as Dr. James Levi Barton of Boston, Bishop Edwin Holt Hughes of Boston University and Dr. Floyd Williams Tompkins of Philadelphia.

PROGRAM

All sessions unless otherwise indicated, at Hammond St. Church.

MONDAY

4.30 Opening Devotional Service—Prof. Francis B. Denis D. D.
4.45 First George Shepard Lecture, The Temptation of Christ as Illustrating the temptations of the ministry, Bishop Hughes

7.30 First Samuel Harris Lecture, The Literary Frontier, Dr. Sharp

TUESDAY

9.30 (At Grace Church) Quiet Hour, Patience in Self Control, Dr. Tompkins
11.00 First Enoch Pond Lecture, The Modern Missionary in Education, Dr. Barton

3.00 Second George Shepard Lecture, The Balance of Preaching as based on the character of Jesus, Bishop Hughes

4.30 Second Samuel Harris Lecture, The Radium of Romance, Dr. Sharp

7.30 Second Enoch Pond Lecture, The Modern Missionary in Philanthropy, Dr. Barton

WEDNESDAY

9.30 (At Grace Church) Quiet Hour, Patience thru Faith, Dr. Tompkins

11.00 Third George Shepard Lecture, Four Elements in Preaching as shown in the example of Christ, Bishop Hughes

12.30 Luncheon in Hammond St. Church Vestry

4.00 Meeting of Bangor Alumni, to which all ministers are invited

7.30 Third Samuel Harris Lecture, The Duty to Dig, Dr. Sharp

THURSDAY

9.30 (At Grace Church) Quiet Hour, Patience and Action, Dr. Tompkins

11.00 Fourth Samuel Harris Lecture, The Lost Poet and Prophet, Dr. Sharp

3.00 Third Enoch Pond Lecture, The Modern Missionary in Social Reform, Dr. Barton

4.30 Fifth Samuel Harris Lecture, Literature at Wood Chuck Lodge, Dr. Sharp

7.30 Fourth George Shepard Lecture, First Corinthians XIII as a Pastoral Document, Bishop Hughes

FRIDAY

9.30 (At Grace Church) Quiet Hour, Patience thru Love, Dr. Tompkins

11.00 Fourth Enoch Pond Lecture, Reflex Value of Modern Missions, Dr. Barton

4.30 Fifth George Shepard Lecture, The Parental Element in Preaching as founded on New Testament Theology, Bishop Hughes

7.30 Fifth Enoch Pond Lecture, National and International Problems and the Modern Missionary, Dr. Barton

Former Maine Baseball Captain's Fine Average

The official batting averages of the New International League players for the season of 1921 show Otis Lawry, of Fairfield and former captain of a University of Maine baseball team, in seventh position. Lawry, now with Baltimore, was for a short time with the Philadelphia Athletics and is now considered one of the most valuable men in the New International league. He is frequently mentioned in connection with rumored trades with the majors.

The leading batters in the league were:

Name and Club	G	AB	R	H	PC
Bentley, Balti.	141	597	122	246	.412
Post, Roch.	55	104	25	40	.385
Murray, Roch.	33	73	17	28	.384
Muelih, Syracuse	73	75	298	108	.362
Walsh, Newark	153	581	106	209	.360
Lawry, Otis, Balti.	134	509	130	179	.352

Fothergill, Roch.	143	582	114	197	.338
Toporcer, Syra.	21	71	15	24	.338

Maine Receives Copy of Dante's "Divine Comedy"

The University of Maine is one of seventy educational institutions and libraries in the United States to receive a facsimile of the oldest manuscript of Dante's "Divine Comedy." This gift is due to the liberality of a number of Italians residing in this country and is an expression of gratitude for the part which America has taken in honoring the great Florentine in connection with the celebration of the six hundredth anniversary of his death. As a part of this movement, the Dante Memorial Association of which Professor Peterson is a member raised funds during the past year for the restoration of the old church of St. Francis at Ravenna, which is associated with the last years of the poet's life. Last summer a delegation of American students from various institutions laid upon his tomb in that city a bronze wreath representing the tribute of our schools and colleges. Here appears the name of the University of Maine as the result of small contributions made by members of the Italian class and others interested in honoring the greatest poet of all time.

The facsimile which has thus come into the possession of the University reproduces with the utmost exactness all the colors and varying shades of the original manuscript by means of the processes of color photography. Even the texture and stains of the parchment on which it is written are plainly visible. The facsimile is a real triumph of heliographic art. As such reproductions of manuscripts are extremely expensive, the number available in this form is very small.

The original was transcribed in Florence in 1337 sixteen years after Dante's death. The writing is clear and beautiful and is accompanied by a number of interesting illuminations as was customary in the better mediaeval manuscripts. The copyist, Ser Nardo da Barberino, is supposed to have had before him an original written by the poet himself. He exerted himself especially in the elaboration of this manuscript as he expected to receive from its sale a large amount of money which he could utilize in furnishing his numerous daughters with suitable dowries. It has long been in the hands of an important family of Milan and is almost priceless in value.

NOTICES

Group pictures are to be taken at Chalmers' studio for the Prism on the following dates. Any society or organization omitted or having conflicting dates notify Bryant Patten, Phi Gamma Delta, or Prexy Niles, Lambda Chi Alpha.

Please Contribute

I looked from my window
And I could behold
The sun going down
In its glory of gold.

It brought to my mind
Quiet evenings at home
So I sat me right down
To write a short "pome."

How great is the contrast
With the life 'way up here
For the fellows all round
Are so funny and queer.

They'll argue all day
On nothing at all
'Cept how to pitch hay
And how round is a ball?

Their minds are so simple
I think they should wear
The sign of all babyhood
Bald heads 'stead of hair.

There's A. B.'s and Doctors
"By Heckers" and worse
Bad men that do holler
And hard ones that curse.

Above all these mentioned
I claim without fear
The smartest of all
Is the Maine Engineer.

He keeps 'way from "co-eds"
And is without doubt
The best type of Maine man
That ever came out.

He came here for work
And is trying to see
What a fool he can make
Of the boastful A. B.

I look from my window
Again I behold
The sun has gone down
All is dark now and cold.

There was a freshman student
Who bought a bran' new Ford
Though by many considered prudent
By the co-eds he's adored.
He takes them out in his "Lizzie"
And spins them around the place
Until it fairly makes one dizzy
To watch his awful pace.
And "freshie" sure was a winner
His stock was way above par
Until along came a sporty Senior
With a regular six cylinder car.
The senior copped all the glory
Made the "Lizzie" a regular can.
Here endeth my little story
Of the "Lizzie" and the fresh freshman.

ALUMNI NOTES

Charles T. Pease '80 of the United States Reclamation service at Denver, Colorado, is passing the winter in Los Angeles, Calif.

Dr. and Mrs. E. S. D. Merchant (nee Marie Foster, U. of M. '16) of Manila are receiving congratulations on the birth of a son, Eustace Foster Merchant born on December 11. Mrs. Merchant is spending the winter with her parents in Portland, Oregon.

Miss Marie Emery '17 and a graduate of the Children's Hospital of Boston is now situated at the Sunshine Repair Shop in North Scituate, Mass.

Brad Harvey '11 is a member of the Massachusetts State Legislature. Mr. Harvey has not yet decided whether or not he will resign from the General Court.

The marriage of Gertrude Cox to Daniel Earnest Higgins ex-'16 has been announced.

The students of Gilman High School of Northeast Harbor at a recent mass meeting presented a silver loving cup lined with gold to their coach, J. Glynn Furey. Mr. Furey '20 has done much to bring athletics back to Northeast Harbor and is coach of football, basketball and baseball. He has had a very successful season in both football and basketball and deserves much credit. Mr. Furey was a member of the Theta Chi fraternity. While at college he was much interested in athletics and was a member of the freshman football team, the varsity football team and the "M" Club.

She (at the dance): Isn't there something I can put on to keep these flies from bothering me?

He: How about some clothes?

CORRESPONDENCE

The Maine Campus is not responsible for the sentiments of letters published in the correspondence column. Signed communications from graduates, undergraduates and members of the faculty will be placed in print if they are not of too great length.

No communication will be admitted to this column without the name of the writer being attached not necessarily for publication.

Editor of Maine Campus,
Dear Sir:

I wish to thank the students on the Campus in behalf of the committee in charge of the Christmas Seal Sale in Orono, for their generosity and cooperation. The fraternities and dormitories were all very generous with their assistance. The houses may be ranked as follows in regard to the number of seals taken:

Phi Epsilon Pi.
Phi Kappa Sigma, Delta Tau Delta,
Sigma Alpha Epsilon.
Kappa Sigma.
Phi Eta Kappa.
Lambda Chi Alpha.
Phi Gamma Delta, Alpha Tau Omega.
Theta Chi.
Sigma Nu.
Sigma Phi Sigma.
Sigma Chi.

Yours truly,
Mrs. J. N. Hart.

At the regular faculty meeting on the ninth of the month the faculty gave the department permission to hold the camp at Newport and with this authority will begin the actual preparations for making the camp of 1922 a greater success than the one last year. The name of the camp shall not be changed, it shall be "Camp Andrews," named in honor of Harold T. Andrews of the class of 1918, who was the first Maine man killed in the war. In speaking of the camp, call it "Camp Andrews," let's get the habit. Instead of using trucks this year, the unit will travel on its own special train, provided rates from the Railroad Company can be obtained from the station in Orono. This no doubt will be a great disappointment to Captain Nichols who took special delight last year in saying, "One more in here," when a truck had about twenty more men than it could comfortably carry. The "Camp Andrews Special" will leave Orono about six o'clock and the unit should detrain at Camp Andrews not later than eight o'clock. Those members of the unlucky truck which broke down and of the one which refused to go beyond Newport will welcome this opportunity of riding with "the best of them" right into the camp. At any rate if one walks, everybody walks, including the officers which isn't such a bad thought for the "buck" after all. Warrant officer Kidney will be the "presiding elder" where the chow is concerned and as there was only praise for that department last year this phase of camp life can, in this camp, as in all others, be anticipated with a great deal of "inward delight." Probably the brightest in the prospect of a great camp is the fact that the band is going along and there will be music galore and parades, in fact, all the frills of the Army will be in attendance. Saturday has been

named as visitors' day and it is on this day that the Governor of the State will review the regiment and a great sham battle, with all the noise that accompanies such a combat, will be held. Arrangements are to be made to accommodate any of the visitors who desire to remain over night for the big dance to be held at the close of the camp on Saturday night. Get up parties now and make reservations with Captain Nichols. Every available room in Newport will be commandeered and it will be a case of first come, first served. Get your name on the list for the number of rooms to accommodate your party. The camp is to be held the first week in May so don't make any appointments that will keep you from going, for those who failed to go last year lived to regret it. In financing the camp, the same idea as last year will be carried out, that is, each man may pay his five or six dollars cash or he may assign that portion of his military deposit, whichever he elects. Get busy and if permission to use your deposit for this purpose is required from your parents, get it now and don't be one of the few that will delay until the last moment because you have failed to make the necessary arrangements. Members and non-members of the R. O. T. C. who went last year, tell the men who didn't go what he missed and let's have just five hundred attend the camp. The reporter who covered the camp for the Commercial last year will be on hand and when that is said you can draw your own conclusions as to the amount of publicity the camp will get and remember this is only another way of saying the University will be advertised.

Now remember the date, the first week in May, remember to get that co-ed lined up for the party on Saturday afternoon and night and to make reservations for her, remember to get your deposit "foot-free" and if this is impossible, start saving those nickles and get the amount necessary to see you through the camp. Newport has lots of pretty girls but let's make this a case of B. Y. O. L. (Bring your own ladies). We are going to dust off your seat in the Camp Andrews Special and don't disappoint the entire regiment by staying at home.

The commissioned officers on duty at the University were all ordered to Augusta on the tenth of the month to take

their annual physical examination that is required by law. Each officer in the Army is required to go before a board of Medical officers once a year to determine his physical fitness. There are certain standards that an officer must meet in this examination and if he fails to meet these standards he is ordered before a retiring board and retired. Needless to add, however, that all of the officers here were found in good physical condition.

While in Augusta, and in company with Colonel Cole of the Bangor High School, they called on his Excellency, the Governor, who reiterated his intention to attend Camp Andrews at Newport in the Spring.

The following is taken from an advertisement of the Western Electric Co. "Maybe it's against all campus tradition, but some men who stood in the upper third in their class and who entered this Company years ago have since become its executives."

Jimmie had a sister
At least he claimed he had
But Jimmie's sister's brother
Proved to be another lad.
Susie had a brother
But it has come to pass
That Susie's brother's sister
Was somebody else's lass.

MAPLES' NOTES

Miss Catherine Clark, accompanied by Dr. and Mrs. Clark, passed the week-end in Bangor.

The following girls spent the week-end at home: Marion Cluff, Marion Lindsay, and Dorothy Marchal.

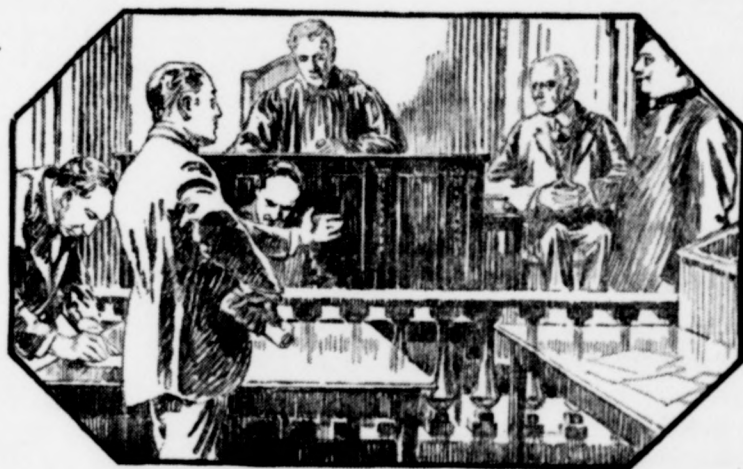

Miss Frances Towne was in Old Town over the week-end visiting her aunt, Mrs. Frank McLellan.

On Friday evening, January 6, Helen Burton, Hope Norwood, Ruth Weeks, and Katherine Clark entertained with an informal dance in the Balentine sun parlor.

Business has been done by and among men for many centuries. It has varied its methods from age to age. Sometimes it has drawn upon the arsenal of force. It has yoked itself with war. It has tied itself to romance. It has walked hand in hand with science. It has found friendship with art.

But always it has had one central idea, which was Truth; and its success, measured by enduring standards, has been in direct proportion to its faithfulness to that central thought.

The University of Nebraska is working for appropriations for a new museum.

In Law—

SELF-CONFIDENCE comes next to legal knowledge when you stand before the bar and plead your first case. And it helps that self-confidence if you are on familiar terms with the best things of the world, those luxuries that belong naturally to the successful man—such as

Melachrino

"The One Cigarette Sold the World Over"

Remember that Melachrino contains only the finest Turkish Tobaccos as originated by Miltiades Melachrino. Egyptian cigarettes are simply those that originated in Egypt. But the tobacco is what you want to know about—and if it's Melachrino—it's right.

GOLDSMITH BROS.

Stop and think—the average life of a man is forty-five years. After forty-five years comes a million years. No matter what your ideals, your profession or our desire for wealth may be, you must meet the million years.

The big question to ask yourself is this: Will your conduct in forty-five years warrant a great deal of consideration in the next million? All you will have in the next million years is your personality. By personality is meant character, ideals and the record of good done in the world. Will your personality be worth taking?

After all, when the threshold of the million years comes, your only passport, your only substance, will be life as you have lived it.

Maine Defeats N. H. State in Fast Game

(Continued from Page One)

With but two minutes to play, score 31-31, a desperate attempt to gain the lead and hold it, was made by both teams. Berg shot a foul and Newell caged a basket while the gym fairly shook with the uproar of the students. The support of the student body was responsible, in a measure, for the victory over the New Hampshire boys who presented an almost perfect machine in every branch of the game. The student body was "there" from the start to the finish and needless to say the players responded to the support.

In the preliminary game the freshmen presented ragged teamwork and were on the short end of the score at the end of the first period 12-15. With the introduction of Montgomery into the game the tide turned and the frosh got together and played a good passing game scoring by their teamwork. Montgomery was the outstanding player, he starred. Playing a strong passing game and getting away for the whole length of the floor, dodging all opposition and succeeded in scoring, he proved to be a big obstacle to the Academy boys. Captain McKinnon of the visitors was their strong man, scoring 15 of their points.

New Plans for Reducing Registration Day Trials

(Continued from Page One)

names begin with the letters A to M (inclusive) will pay their tuition downstairs in Alumni Hall; those whose names begin with the letters N to Z will pay their tuition at the Cashier's booth upstairs. Those whose names begin with A and N will register first.

Each alphabetical division should be on hand when the previous division shall have been completed. Those failing to appear with their division will be obliged to wait until the alphabet shall have been completed. It is planned to place on the bulletin boards large letters showing what names are being registered. This plan is to be in use on Saturday only. For advanced registration, students may come regardless of alphabetical order.

Class cards are not to be cut but are to be brought to the Registrar's office in one sheet. Do not write in the square marked "date of registration." Before coming to the Registrar's office, have all the necessary signatures and be ready to leave the cards.

Musical Clubs to Give Concert and Dance Feb. 4

The University of Maine musical club will give a concert and dance in Alumni Hall on Saturday evening, February 4 at eight o'clock. This concert is to be given just previous to the trip to Portland, Boston, Worcester and New York.

The concert this year will be different from any given for a number of years in that there will be several features never before obtained. Outside of the regular program of vocal and instrumental quartettes, acrobats, jugglers solos, instrumental solos, vocal and instrumental quartettes, acrobats, jugglers and dancers.

Mrs. Capt. Norris will give several vocal solos which will be one of the principal features. A saxophone quartette, composed of students, also promises to be a splendid feature. G. H. Ross '24 has been elected to the position of assistant business manager to aid Harry Belyea in making the final arrangements for the trip.

A dance will be held in the gymnasium after the dance and the music will be supplied from the musical club, the best obtainable. The price for the concert and dance will be 50 cents each.

Intramural Basketball Is Still Going Strong

Six very interesting games were played in the Intramural Series last week. Three of them were hotly contested while the others were more one-sided. There is a great deal of interest in the outcome of this series, first place in both the Northern and the Southern Leagues are being fought for and the frat which wins the championship of both leagues will have to be very clever and fight out some hard games.

On January tenth Sigma Phi Sigma was beaten by Theta Chi 27-6. During the first half the competition was hot, only one field goal being secured on each side. After the first half, the Theta Chi's outplayed their opponents by far. Horsman starred with six field goals.

On the twelfth, two of the most interesting games of the week were held. Lambda Chi Alpha managed to squeeze out a win from the Phi Kappa Sigma defeating them by the close score of 11-10. Team play surpassed individual play in this game but the basket shooting was very poor in the last half of the game.

The other game on January twelfth was between the Commons' Council and Sigma Alpha Epsilon. In this game Commons Council won by the score of 14-9. The Commons Council showed their usual fine teamwork. S. A. E. had only one man, Cobb, who showed up and got any goals.

Saturday afternoon and evening, the week was brought to a close with three whitewashes. These games, altho interesting, were also very one-sided but were, of course, enjoyed by the winners. All the fraternities cannot have good men and therefore some are unfortunate in not having material this year.

The Sigma Nu defeated the Sigma Alpha Epsilon 18-8. Cobb played a fine game for the S. A. E. Jowett was the star for the Sigma Nu and was very ably assisted. The Sigma Nu have been playing fine basketball this year and will undoubtedly be strong contenders for the championship.

The Delta Tau Delta handily defeated the Sigma Chi Sigma 26-4. The Sigma Chi Sigma's were entirely outclassed by the fine team work. Huston of the winners led with 7 goals, but was seconded by Blair with 4 and Hegarty with 2. Martin and Rollens got the goals for the losers.

The Phi Gamma Delta's whitewashed the Phi Eta Kappa's by the score of 22-9. In this contest Everett, a man who looks good for the varsity next year, played the best game. He was well supported. Pleeman should not be overlooked for he played a fine game also. F. Foster played a good game for the Phi Eta Kappa's but did not receive much support.

Spanish Majors Meet at Home of Prof. Peterson

Saturday evening, Jan. 14, in accordance with their usual custom, Professor and Mrs. Peterson entertained at their home on North Main Street the major students in Spanish who are doing senior work. The entertainment took the form of a *tertulia*, where all the games and diversions had some connection with the Spanish speaking countries. Records of Spanish voices were listened to and curios from Spain were inspected. Much amusement was derived from the unsuccessful efforts to put together properly post cards representing views from Spain. Ida Collins was most successful in providing the lady from Seville with a fan. David Gross made almost a perfect score in identifying the series of illustrious Spaniards who were presented in couplets. When lunch was served, everyone found his fortune as predicted by a Spanish gypsy. *Yerba mate*, the national beverage of Argentine and Uruguay, was served, and each Senior received a little bag exemplifying the national colors of Spain with a supply of leaves of the yerba plant to serve as a stimulus for the approaching examinations. The company separated in time for the Balentine girls to catch the last car. Those present were Misses Ida Collins, Cecilia Nevens, Pauline Hill, Beulah Duran, Ina Gillespie, Julia Gilpatrick and Leona DeBeck and Messrs. David Gross and F. L. S. Morse.

The application of Radium to Medicine, a lecture by Dr. Barbara Hunt, which was scheduled for Wednesday evening, January 12th, was not given owing to the stormy weather. The lecture has been indefinitely postponed.
