Maine Team Trounces
Boston College 46-29Team Work of Maine Boys Wins Exciting
Game in Last Ten Minutes of Play.

The University of Maine basketball team decisively redeemed themselves from the defeat of last year in Bangor City Hall at the hands of Boston College when Saturday night on the same floor they trounced the maroon and gold by the score of 46 to 29. The game was hard fought from start to finish and was in doubt until the last ten minutes of play when the Maine outfit with perfect teamwork and accurate shooting scored point after point as if it was a matter of course. The B. C. men worked hard until the final whistle but were unable to overcome the lead.

The first half was a struggle for supremacy in point tallying which ended when Ollie Berg and Crab Newell by their clever footwork and shooting gained a two point advantage over the Hub collegians which lead Maine held thruout the rest of the game.

In the second half Boston College came back strong and Maine had all it could do to hold its own against their whirlwind playing. A battle of points took place between Berg and Newell with Cassell and Melley which finally showed the superiority of the Black men.

For Maine Berg and Newell played a sterling game. Noyes at center consistently outjumped his opponent, Hickey and was a big factor in the scoring for Maine. Cassell, Tierney and Melley proved to be the feature players of the visitors.

Before the big game the Maine freshmen easily trimmed the Brewer high school.

(Continued on Page Four)

Bates Defeats Colby in
Basketball Game 39-33

Bates defeated Colby at Waterville in the first varsity basketball game at Colby for years by the score of 39 to 33. Bates showed superiority in passing but Colby showed more pep and fight. Kempton, the Ollie Berg of the Bates team, starred along with Perkins, dropping 15 baskets from the foul line. For Colby, Baldwin at right forward scored 21 of the points.

Kempton of Bates is the little fellow that starred when Bates played here; fast, clever, and an accurate cager of baskets, he excels in shooting fouls and was the big factor in Bates' win here.

Colby is out to produce a winning basketball team and the team that plays Maine at Alumni during the carnival will work hard to win from the big Blue team.

Sixty Foot Ski Jump
Built on Bennock St.

If anyone doubts that this locality offers all the natural necessities for a winter carnival he should visit the ski jump located just across the Stillwater on Bennock Street.

On the upper side of the street a twenty foot high slide has been built which adds greatly to the momentum acquired before the take-off is reached. The take-off itself has been built up at a height of about six feet. The ground slopes rapidly at this point allowing a jump of more than forty feet. The steep bank involves a drop of nearly eighty feet and seems to be the critical point of jump since most of the head long plunges occur here.

There are many ambitious contestants and already several are showing good form. Elliott, the freshman from Montreal, has convinced many of the spectators that he was brought up on skis.

(Continued on Page Four)

Much Interest Shown
In Boosting Hockey

With the sanctioning of hockey as a sport by the Athletic Board interest in the great winter has quickened and large crowds are out daily to watch the practice on the new rink.

Johnny Norton elected temporary captain by the Intra-Mural Athletic Association has a large squad of men out including several who are masters of the game. Among the candidates are Nor-

OBSTACLE RACE MAINE WINTER CARNIVAL 1920

ton, Hawes, Vaites, Elliott, Stearns, Stone, Sargent, Kelleher and Garvin.

Vaites from Melrose High School played on the championship team at that school in 1918, 19.

Elliott from Montreal looks very good as well as Garvin, a former member of the Portland High School team.

Many compliments have been heard about the rink built by the Intra-Mural Association. The rink is one of the largest in the state and there is no doubt that with the making of the Carnival and winter sports a permanent feature of the winter months the rink will provide a means for some good wholesome sport.

Colby plays here Feb. 11th and is expected to bring a strong team. Practice at Waterville has been going on for some time under the direction of Captain elect Vale of Glen Cove, N. Y. who played on the Colby football team. Their schedule includes Augusta Feb. 10th, Maine Feb. 11th, Bowdoin at Waterville Feb. 15th, Bates at Lewiston Feb. 18th and return games with Bowdoin and Bates.

Yale just managed to nose out the fast Bates hockey team at New Haven, Monday, January 30th by the score of 5 to 3 by making two points in the final period. For Bates, Eddie Roberts former Lewiston High hockey and star player with Capt. Rounds his fellow townsman starred; Reid of Yale played a hard game. The Lewiston college has one of the strongest teams in the east which is in keeping with its record in this branch of sport for the last several years.

Gov. Baxter Unable to
Attend Winter Carnival

My dear Mr. Cohen:

I wish I might be with you at the Winter Carnival at Orono but my engagements for the week beginning February seventh make it impossible for me to accept another invitation. I have a long trip to make into Oxford County and then have engagements for every day following my return. I hope you have a most successful Carnival and wish you would express to your associates my interests in everything that has to do with the University of Maine.

With personal regards, Sincerely,
Percival M. Baxter,
Governor of Maine

Maine Relay Team Meet
Brown Feb. 4 in Boston

Our Representatives Are to Compete in a Meet Which Will Be Attended by the Best Athletes in the East

Saturday evening, February 4, our relay team will compete with Brown in the big Boston A. A. games which will be held in the Boston Arena. Nearly every athlete of note in the Eastern athletic world and many from the middle west will be among the competitors.

Representing one of the largest entries ever received in the big games and including some six hundred athletes, there will be Olympic, intercollegiate, national, metropolitan, and other sectional champions contesting for the various laurels in the different athletic events.

Bowdoin will match her strength with Williams from whom she won last year by a few yards. Colby will meet R. I. State and should win according to the dopesters and Bates should be able to hold her own in competition against the University of Vermont.

Relay is a sport in which the student

Winter Sports Here
To Make Real Debut

Carnival Plans Are Complete. Joyous Program Made Up of Dancing and Various Other Sports.

To Have a Wrestling
Course Here This Term

Beginning this week the Physical Training Department will offer a course in wrestling on Wednesday and Friday afternoons during the spring semester.

Director Schenkle has secured the services of Harry Cohen erstwhile football and basketball star as coach and teacher of this branch of the department. Prof.

Winter sports at the University of Maine while evident in the past have had no real stimulation until the present Winter Carnival was set afoot. Activity is now evident in every branch of winter sport.

Plans have been completed for the Winter Carnival by the Intra-Mural Athletic Association and a complete schedule of events has been announced. Emphasis has been laid on the outdoor sports.

Thursday afternoon the University will be given over to the reception of the Carnival guests. Social events begin in the evening in Chapel with the first appearance of the Masque together with a musicale by the combined Musical Clubs, and Orchestra. The evening will close with an exhibition of fireworks and dances in the Fraternity Houses.

Preliminary heats in the outdoor events will take place Friday morning. In the afternoon at 2.30 a demonstration of fancy and stunt skating will take place by Messrs. Blanchard and Nat Niles of Boston, widely known skaters. This will be followed by a hockey game between Colby College and the University of Maine Informal Team. A Carnival Ball will conclude the night's program.

(Continued on Page Four)

Maine Receives Grant
From Rockefeller Inst.

Mr. Strickland announced Saturday that the board of trustees of the University of Maine directed Dr. Gowen of the Experiment Station, to accept a grant made to him by the Rockefeller Institute for Medical Research for increased maintenance of the animal husbandry investigations. This grant amounts to \$5000 for the coming year. It will enable the Experiment Station to carry on its work on the inheritance of milk yield with its accustomed vigor without being greatly handicapped for lack of funds.

This grant reflects great credit on this phase of University activity. It shows the increasing recognition given to Dr. Gowen's investigational work. The results coming from this work are not only applicable to Maine, they are national or even international in their scope. In fact only recently it became known that a member of the ministry of agriculture in England had requested information as to the best manner in which to take up work along the lines now carried on by the Maine Station.

Third Number of Lyceum
Course Thursday Night

Mr. Edwin M. Whitney comes to Alumni Hall Thursday night, Feb. 2nd, as the third number in the Lyceum Course at the University of Maine this season.

Mr. Whitney is reputed to be highly capable as an interpreter of plays and character impersonator, representing as he does more than a dozen characters in a single play, in quick succession with no change of makeup.

Several of the students here have heard Mr. Whitney at other places. They were much pleased with him and are encouraging others to hear him at Alumni Hall Thursday night.

Those not having season tickets and wanting to hear just this one treat can do so for the sixty-five cents single admission charge. Those wanting to take in all three remaining concerts can buy the three tickets now for one dollar and a half.

Cohen is a wrestler of note in the eastern part of the country having given course and exhibitions around Boston and Philadelphia. During the war wrestling matches under his supervision were held at Red Cross affairs and at the rehabilitation camps for wounded soldiers.

(Continued on Page Four)

Registrar Rearranges
The Chapel Seating List

The Registrar has announced a new seating arrangement in chapel for the coming semester. It is intended to be an improvement over that of last semester in that it brings a very different group of the students together for the chapel exercise. Those whose names begin with the letters from A to D and from S to Z report on Monday and Wednesday and the other from E to K and L to R on Tuesday and Thursday. Those who have not been required to attend chapel the past term are requested to have their excuses renewed for the new semester, otherwise their absence will be counted against them. Any student who finds the days opposite those he is scheduled for more convenient may make the desired change by seeing Mr. Gannett.

Co-eds to Meet Castine
Normal Team Feb. 4

The Girls' Basketball Team makes its debut Saturday evening, February 4, in a game with Castine Normal. The teams are well matched and a fast game is promised the student body.

The girls started out this fall with a strong determination to make basketball a recognized and successful sport on the campus. So far they have done much toward gaining that end. Under the able leadership of "Cracker" Ring, they have practised regularly since vacation. During the inter-class games much good material has come to the fore, especially in the freshman class. There have been many appointments for the various positions and great competition. Thus a strong team has been built up from last year's prep school stars and the Old Guard.

The Bates Game

In the recent basketball game with Bates the conduct of the spectators was such that the referee, Mr. Edwards saw fit to penalize the varsity team. In all games in which Mr. Edwards has officiated he has given absolute satisfaction. The booing and hissing by the audience shows a very unsportsmanlike attitude and moreover as it was entirely uncalled for and a very poor example of the sportsmanship for which the University of Maine stands.

The penalty came in the midst of a rally by the team and served to check the advance of our own men. Such happenings coming at critical periods of the game cause disturbances that may be fatal to the fortunes of the team.

Even if no harm comes from such a poor showing by the students it cannot help but give outsiders the impression that we are poor losers. Such rowdiness should not be tolerated.

The student body as a whole and particularly those guilty of the disturbance owe Mr. Edwards an apology. His work the week previous was highly complimented and his judgment, in the opinion of Coach Flack, is of the best.

Let us all condemn any one starting any such thing at a future game. We want game Maine men!

The Winter Carnival

Do you realize that what this University needs is publicity? The Winter Carnival is an opportunity to boost Maine as well as to make a permanent winter attraction. The winter carnival will put this college in the line light. University of Maine will be in the public eye and we want everyone to know what we are doing here. This is an institution of, and for the people more than any other school in the state. Everybody help make the Carnival a success. This is the dull time of the year when all on the campus seem to hover around the fires. Get out in the air. If you can ski or snowshoe come out. If you can't, come out just the same. The carnival is THE affair of the winter. If you can't do anything else, you can BOOST. Let's all get together and make this carnival a success and insure it a place on the college calendar. Other colleges make a success of it. So can we!

The Campus Board, as well as every other college institution, is pausing to take stock of goods and start a new lease of life for the second semester's work in which it will start a new line of policies.

Each editor is responsible for his division of the paper and is held for editorials and all news and information regarding his department.

Each editor has two to more reporters directly responsible to him for work and this work must be completed and deposited in the Campus office before Monday at 1.00 P. M.

Each editor is responsible for all assignments given in his department. Editors and reporters must be present at Campus Board meetings held Thursday noon in Alumni.

Membership on the Campus Board is unlimited. Because you have never done any journalistic work is no sign that you cannot. Come out and make your pen count for the Maine Campus.

Perhaps the so-called lack of college traditions at the University of Maine is really a neglect of the traditions that we have. At present we say, we have

nothing near at hand to foster traditions except tales handed down by upper classmen. The biggest inspiration of Maine Night is hearing our alumni tell what they did in college, what they thought on various subjects. Surely, even then, there must have been something back of them when the members of the College of Arts and Sciences literally fought to have their department retained; surely some great ideal was inspiring President Fernald when, an old man with declining health, he went before the Maine legislature and almost begged for an appropriation for his little college.

At least there is no excuse for not making use of the means within our reach. How many of the students here have read "Bolivar's Children?" Short, amusing tales they are and written by one of Maine's own alumni. They breathe out the spirit of Maine University through their carefree, wholesome characters, while underneath that gay exterior lie deep earnestness, clear vision and an indomitable gameness. Characteristics of the Maine students have not changed so much since Edward Chase wrote of his college days.

What has become of our Maine songs? The underclassmen of this college generation manage to learn the Stein Song, yet they stumble pathetically over the words of our University Hymn. They have given up trying to learn even the first verse of the old favorite, "Blige the Lady" and join in half-heartedly on the chorus.

Well, crabbing won't get us anywhere. Beginning this week, the Campus is going to have a series of articles on important men and happenings in the history of the institution. Members of other colleges make it a matter of pride to know something of the past endeavors of their Alma Mater. Those in charge of these short articles will try to write them in a sufficiently interesting manner, so that the students will not pass over as mere fillers facts that are written chiefly for them and facts which they are supposed to know. Next week's issue will contain an account of President Fernald's administration based on his own history of the University of Maine.

Does This Apply at The University of Maine?

Co-Eds an Inspiration Football Stars Assert

Reply to Charges of Northwestern University Alumni that Poor Team Was Due to Co-eds

Co-eds are not a handicap but an inspiration to the college athlete, two star football players declared today in replying to charges of Northwestern University alumni that the consistently poor showing made by the school's team was due to the distracting influence of Miss Northwestern.

Jack Bryant, Chicago halfback, who was one of the reasons why Chicago beat Princeton last fall, and Henry Penfield, captain of the 1921 Northwestern football team, took issue with the charges made by the alumni.

"I never knew how to play football until I met a certain little co-ed," said Bryant. "She furnished inspiration enough to make a star of any one." Bryant recently was married to a co-ed.

"It is better to have the girls here than to have the men chasing after them," said Penfield. "Ours are real girls and should share in our activities for they are a real help to us."

Mr. Northrop's Lecture Feb. 24 Much Enjoyed

An interesting lecture was given Feb. 24 in chapel by Mr. Albert E. Northrop a representative of the Stone and Webster Construction Company of Boston. The subject of the lecture was the building of a 60,000 H. P. hydroelectric plant on the so called Caribou Project in California to furnish San Francisco with electricity. The lecture was very well illustrated by colored slides and two reels of moving pictures. Mr. Northrop explained by the aid of the pictures how the plant was built and how the water was procured to run it. These pictures included different branches of works from the beginning to the completion of the plant and the difficulties which had to be overcome. The lecture was held under the auspices of the Civil Engineering Dept. and was well attended.

Gordon: "Do you handle fish here?" Dealer: "Why, yes; we can take care of you."

CORRESPONDENCE

The Maine Campus is not responsible for the sentiments of letters published in the correspondence column. Signed communications from graduates, undergraduates and members of the faculty will be placed in print if they are not of too great length.

No communication will be admitted to this column without the name of the writer being attached not necessarily for publication.

Orono, Me., Jan. 22, 1922

Editor, Maine Campus,
Orono, Maine.

Dear Mr. Marston:

At the game with Bates on Saturday for the first time this year the conduct of the spectators was such that the referee was forced to penalize the varsity team. Mr. Edwards, the referee of the game, is a thoroughly competent official who has given excellent satisfaction in all games in which he has officiated this year and particularly so in the game with New Hampshire State only a week ago. His judgment is very good and it seems to me that the action of the crowd in booing him was entirely uncalled for and not in keeping with the spirit of sportsmanship for which the University of Maine is supposed to stand. Incidentally that particular offense served to stop the best rally we had been able to stage during the game and in that much injured our chances of winning.

I feel that the people guilty of the offense owe Mr. Edwards an apology and hope that in your official capacity as editor of the college paper you will see your way clear to impress on the student body the fact that the tactics of the roughneck are not the ideals of the Maine student body and will not be tolerated.

Sincerely yours,
Howard W. Flack

Phi Mu's Have a Supper And Dance at Niben Club

To celebrate the end of finals, Phi Mu fraternity went on a sleigh ride out to the Niben Club last Friday evening. Twenty-four couples with Mrs. Hendrickson as chaperone packed into two long barges filled with straw and gaily started off on the four-mile drive. Upon arriving at the Niben Club where roaring fires blazed in each fireplace, a supper was served consisting of oyster stew, sandwiches, cakes, pickles and coffee. After supper, the tables were cleared away and general dancing enjoyed. Those who did not care for dancing sat around the fireplaces and swapped stories. After a most enjoyable evening the party broke up about midnight and started homeward.

Farmers' Week Will Be During Easter Recess

Farmers' Week, an annual event at the College of Agriculture, will be held this year, March 28-31. An attractive program of lectures, discussions and demonstrations is being prepared. It will, as usual, be divided into two sections, one relating to agriculture and the other to home economics. Members of the faculty of both the college and the extension service will participate and the list of speakers will also include the names of a number of prominent educators and agriculturists from other sections of Maine and from other states. As the series of meetings will come during the Easter vacation, Balentine and Oak Halls will be utilized in housing the visitors.

Practice House Girls Give Successful Dance

A very successful dance was given by the Practice House Girls in the gym Saturday evening, January 14th. The proceeds went toward the paying for the victrola at North Hall.

The decorations consisted of kitchen utensils, brooms, vacuum cleaner, wash tubs, clothes horse, ironing board, dust pan and brush, etc. Banners were hung from the balcony.

The refreshments consisted of ice cream and cake, and punch served from a mixing bowl.

During intermission a chocolate cake with thick frosting and walnuts on top, was auctioned.

Chapters in The History Of University of Maine

The events of President Fernald's administration as told in the *History of the University of Maine* were of vital importance to the college. In the beginning (1879) prospects were rather bad; the so-called "Greenback Legislature" refused to give an appropriation, therefore a tuition had to be charged. The upper classes were not affected by this, but of the fifty freshmen who had applied, seventeen came. It was a pity to have the change come just at that time for it took years for the effect to wear away.

Honorable Lewis Barker offered in 1879 the sum of \$5,000 toward a citizen's endowment of \$100,000 for the University. Gov. Coburn subscribed \$10,000 but the plan didn't succeed. At the time of his death, however, the ex-governor left Maine the whole \$100,000.

The year 1880 saw an attempt to limit the work of the college. A resolution introduced in the House of Representatives by L. H. Hutchinson of Lewiston resulted in the formation of a joint committee composed of the Committees on Agriculture, on Education and on the State College. A visit of this committee in Orono resulted in an entirely unexpected attitude. It introduced an Act which provided that: 1. The course be restricted to three years. 2. The Legislature appropriate \$3,000 for discharging the debt. 3. The expenditures be limited. 4. French, German, higher mathematics and most of the engineering studies be dropped from the curriculum.

On hearing this, Hutchinson stated that he had introduced the resolution for joining the committees merely as an act of courtesy toward a fellow member that he did not approve of the work of the committee. As a result of a rapid campaign in some quarters, the measure was defeated.

After this, the Maine College made steady progress in its work and in the estimation of the citizens of the state. The principal happenings during the rest of President Fernald's term of service were as follows:

1882 A military detail was sent by the government.

1883 a. The Department of Mechanical Engineering built a small wooden building of two stories with an ell of one story for shop work. The Russian system of shop instruction was introduced, with vise-work and forge work.

b. The State Experiment Station was definitely organized.

1887 a. The State Station was superseded by the Maine Agricultural Station according to the provisions of the Hatch Act. In the meantime the college was unfortunate in losing almost all of a herd of 51 through tuberculosis, a loss of \$5,000.

b. Maine received \$34,600 from the State.

1888 Coburn Hall was completed and dedicated in honor of the Hon. Abner Coburn. The architect was Frank Kidder '79, who gave his services without any charge.

1890 In this year occurred the burning of Wingate Hall, a wooden structure. It was replaced by a brick building valued at \$30,000.

In this year too, the Morrill Act provided for a more complete endowment for agriculture and the mechanic arts.

1891. The College of Arts and Sciences was established.

1894. Electrical Engineering was introduced.

The last catalogue of Pres. Fernald's administration contained the list of 139 students at the University. Early in 1892 the impaired health of the President forced him to leave his service. The coming of James S. Stevens in 1891 allowed him to withdraw without serious interference in his teaching.

New Group of Seniors To Run Home Eco. House

The second group of senior Home Economics students entered the Practice House, Monday, January 30th, for a semester's training in household management.

The Practice House has been a great success this year and the girls who have left North Hall only wish they could remain for the rest of the college year.

The seven girls at the Practice House will each have their turn at cook, assistant cook, housekeeper, upstairs and downstairs cleaners, dining room girl, baby manager and assistant baby manager.

Frances Pauline, the youngest member of the house, with her black eyes and rosy cheeks, is growing into an attractive young lady.

INTERCOLLEGIATE

Kansas: Tau Sigma, a newly organized honorary fraternity at Kansas University, admits women on their ability to execute fancy dancing.

Cornell: Students intending to enter Cornell University next fall must send in application not later than August 1 and must send an advance deposit of \$25. The action has been made necessary to give some indication of the number of students to be expected.

University of California: Twenty-four nations were represented in a vote cast at this university in favor of disarmament.

University of Pennsylvania: Official announcement has been made that General Leonard Wood, who was recently elected to the presidency of the University of Pennsylvania, will assume his duties in the fall of 1922. General Wood is now in the Philippines.

Leland Stanford has adopted a very distinctive emblem, the Indian. Football blankets in the future will have on them a white Indian head on a red background. The purpose of the new emblem is to typify the Stanford spirit and will fit in nicely with their present color scheme.

Yale: Yale has awarded the degree of bachelor of fine arts to Rex Ingram for his production of the film play, "The Four Horsemen of the Apocalypse."

Northwestern: Engagement rings being taboo at Northwestern University those co-eds who have plighted their troth will now make their status known through the manner in which they wear their galoshes. Over-shoes opened or buckled will now tell the story hitherto conveyed by the diamond ring. It all came about by one young fiance pleading with his girl to please cover up her shapely ankles from public view.

Open galoshes now signify that the wearer is foot-loose and fancy-free, but woe betide the young man who attempts to charm a girl who wears hers buckled. It is the unwritten law of the campus at Northwestern that men students should never "pirate" another fellow's sweetheart.

Centre College: If the contemplated plans are carried out the famous Centre College football team will meet a western as well as an eastern team next fall. The opponent will probably be Leland Stanford, the University of Southern California, or Washington State.

Intercollegiate airplane flying contests will be established as a new sport when Oxford and Cambridge hold a flying meet at the Hendon Aerodrome in London. There will be three events in the contest.

Dartmouth: Dartmouth students like the looks of the modern co-ed in her up-to-date raiment, but they do not think that she looks comfortable. Because they are solicitous of the welfare of the girls who will attend the annual winter carnival at Hanover, the members of the Outing Club are including in their invitations to the affair this year some friendly advice.

"We saw you at the last carnival," says the message, "standing in the snow in pumps, silk stockings, and a fur coat. We were sorry, and you did not look as happy as you tried to be. So remember that there will be snow, that you will have to stand in it, and that it will be cold. We wish you to look pretty and warm, not expensive and cold."

Yale: A total of 31,000 spectators attended the nine games on Yale's schedule this year. The gross receipts will amount to well over \$300,000.

University of Arizona: Faculty members at the University of Arizona have organized a dancing club and have hired an instructor to teach them all the latest steps.

Princeton recently had a bequest of \$12,000,000 from Andrew Carnegie's successor in the Carnegie Steel Corporation, but Columbia University considers itself even better off than that, for a warm personal friend at the eleventh hour has enabled the University to obtain the \$750,000 Dyckman tract on upper Broadway for athletic purposes. President Nicholas Murray Butler states that the donor does not wish his name to be given. The property covers 26 acres, and on it will be constructed a huge stadium and several athletic fields.

At Richmond University chapel attendance is under the Honor System now. Each student is allowed six cuts per semester. Cuts above that number must be reported to the student government senate. No checking system is used.

Sophomore Owl Dance
Meets Great Success

A very successful dance was held at the gym last Friday evening by the members of the Sophomore Owls. Music was furnished to an order of sixteen dances by the Old Orchard Seven. Refreshments were served at intermission. Chaperones of the evening, Mrs. Mason of Kappa Sigma and Mrs. Parcher of S. A. E.

Cornell University has organized a class in basketball officiating. The students will be given an opportunity to referee at the varsity scrimmages and at intercollegiate, interfraternity and independent league games.

If sufficient ability is shown, the men will have a chance to be appointed by the committee in New York as approved basketball officials.

There is a plan on foot at the University of Virginia, according to College Topics, for the erection of a bronze tablet or other suitable memorial at the room which was occupied by Woodrow Wilson when he was a student at the University.

LAW STUDENTS

THE BOSTON
UNIVERSITY LAW
SCHOOL

Trains students in principles of the law and the technique of the profession and prepares them for active practice wherever the English system of law prevails. Course for LL.B. requires three school years.

Beginning in the Autumn of 1923, one year in college will be required for admission. In 1925 the requirement will probably be two years in college.

University of Maine students may obtain both A.B. and LL.B. degrees in six years by application at University of Maine for special arrangements.

Special Scholarships \$75 per year to college graduates.

ALUMNI NOTES

Robert H. Hawthorne and Miss Dorcas C. Stevens were united in marriage at the parsonage of the First Methodist Church of Cheyenne, Wyoming, Sunday, January eighth. Mrs. Hawthorne is the daughter of the late Charles H. Stevens, Class 1887. Mr. Hawthorne, class 1918, was formerly of Brownville, Maine.

E. L. Nudick, chief of the division of seed improvement, has been promoted to chief of the division of plant industry in the Maine Department of Agriculture

at Augusta. He is a member of the Kappa Sigma fraternity.

Lieut. Clarence B. Stephenson of Portland, two years a student at University of Maine, was among those who lost their lives in the Knickerbocker Theatre disaster in Washington, Saturday. He was a member of the class of 1919, but left when America entered the war and served in the navy, being rapidly promoted until at the end of hostilities he held a commission as lieutenant. He had since last June been engaged in government foreign and domestic research work connected with the Department of the Interior.

**Winter Sports Here to Make Real
Debut**

(Continued from Page One)

Saturday afternoon at one o'clock the long distance ski and snowshoe races begin after which the remainder of a series of fourteen events will take place. Relay races and dashes have been arranged for the women students. Ski jumping and jumping are some of the features of the events for the men. A snowball battle to be waged between the Sophs and Freshies will provide considerable excitement. The invitation events are the quarter and half mile snowshoe runs and a special relay race for outside teams. The Intercollegiate Basketball Game between Colby and Maine for the New England Championship take place in the gymnasium the early part of the evening after which the fraternities will accommodate all the guests with open houses, every one being at liberty to change from one chapter house to the other.

Banquets, sleigh parties and snowshoe tramps on Sunday will conclude the program of the Carnival.

To Have a Wrestling Course Here

This Term

(Continued from Page One)

The department is fortunate in securing the services of so capable a man. The need for such instruction has been felt here at the University and in Mr. Cohen as coach of the sport there will be a chance for every student so desiring to become accomplished in the manly art of wrestling. Mr. Cohen, it is understood will also take up various holds and means of self defense methods, American and Japanese.

Students wishing to take the course will see Prof. Schenkele at his office, Alumni Hall.

**Sixty Foot Ski Jump Built on
Bennoch Street**

(Continued from Page One)

Christopherson, Woodman, and Stearns are doing very good work.

Plans are made for extending the take-off to the edge of the bank which will allow a greater drop and a much greater jump. When these alterations are completed the jump will be as good as any of those used in the famous Dartmouth Carnivals, and will allow a linear jump of some sixty feet.

**Interest in Intramural
Basketball is Reviving**

Now that final examinations are over, interest turns back to the Intramural Basketball Series. With the approach of finals activity in Intramural Sports necessarily slowed up, but will be renewed as the rest of the games are played. All of those which had to be postponed are to come off in the next two weeks. As there are fourteen to be played the basketballs will be kept very busy. The schedule for these games follow:

Postponed Games Intramural A. A.

Basketball**NORTHERN LEAGUE**

Jan. 31 Kappa Sigs vs. Delta Tau Delta
Feb. 1 Betas vs. Commons Council
Feb. 2 C. C. vs. Sigma Phi Sigma
Feb. 4 S. A. E. vs. Sigma Phi Sigma
Feb. 7 Delta Tau vs. C. C.
Feb. 8 Beta vs. Sigma Phi Sigma
Feb. 4 Theta Chi vs. C. C.
Feb. 14 Sigma Phi vs. Kappa Sig

SOUTHERN LEAGUE

Jan. 31 Phi Epsilon vs. A. T. O.
Feb. 2 A. T. O. vs. Phi Gam
Feb. 4 Phi Gam vs. Sigma Chi
Feb. 7 A. T. O. vs. Phi Eta
Feb. 8 A. T. O. vs. Sigma Chi
Feb. 14 Phi Gam vs. Phi Kappa Sig

Saturday afternoon the Sigma Alpha Epsilon's easily defeated the Betas 17 to 7. After getting four points ahead of them in the first half the S. A. E.'s easily ran up their score until they had the Betas 17-7 when the whistle blew. Cobb starred for the winners getting all their field goals and Monroe, also of the S. A. E., specialized in fouls. The lineup follows:

S. A. E. BETA THETA PI
Cobb lf. If Brown
Monroe rf. rf Durham
Tarbox c. c. Sherbon
Jordan lb. lb. Rieche
Chase rb. rb. Gibben

Substitutions: Crawford for Gibben.
Goals: Cobb 5, Sherbon 2.
Fouls: Monroe 4, Cobb 2, Tarbox 1,
Brown 1, Durham 1, Sherbon 1.

Monday night, January 30, the standing of the League in the Intramural Basketball Series was as follows:

NORTHERN LEAGUE

| House | Won | Lost | Average |
|-----------------|-----|------|---------|
| Sigma Nu | 7 | 0 | 1.000 |
| Delta Tau Delta | 4 | 1 | .800 |
| Commons Council | 2 | 1 | .667 |
| Kappa Sigma | 3 | 2 | .600 |
| Theta Chi | 3 | 3 | .500 |
| S. A. E. | 1 | 5 | .166 |
| Sigma Phi Sigma | 0 | 3 | .000 |
| Beta Theta Pi | 0 | 5 | .000 |

SOUTHERN LEAGUE

| | Won | Lost | Average |
|------------------|-----|------|---------|
| Sigma Chi | 3 | 0 | 1.000 |
| Phi Gamma Delta | 3 | 0 | 1.000 |
| Lambda Chi Alpha | 3 | 2 | .600 |
| Phi Eta Kappa | 2 | 2 | .500 |
| Alpha Tau Omega | 1 | 1 | .500 |
| Phi Kappa Sigma | 1 | 4 | .200 |
| Phi Epsilon Pi | 0 | 3 | .000 |

**Much Enthusiasm Shown
Over Winter Carnival**

Plans for the Winter Carnival are progressing rapidly. Various members of the Intra-Mural Association have been busy all through final week and the results of their labors are becoming evident. The hockey rink under the supervision of Chubby Holt, Nissen and Austin, has been completed and Monday should see the Maine Informal Hockey Team practicing under the temporary captainship of Johnny Norton. Colby is to be met and, we hope, conquered, but this won't be done without enthusiastic and loyal support from the student body. Hockey is in its embryo and as a winter sport is unexcelled. If the student body of Maine wants it, it is up to them to show their approval.

It is seldom that a publicity campaign among the Alumni meets with such a success as did the campaign of the publicity committee of the Intramural Association. Circular letters with the Carnival dope in various forms were sent out and the result is, to say the least, gratifying. All have voiced their enthusiasm and more than a few have indicated it by other means than words.

The trophies have been complimented highly and should be the cause of numerous entries. Entries close February 4 and to date (Jan. 28) not one has been received. Medals are due for second and third places and will be put on display shortly.

Don't forget the Maine "Hello."

We've just unpacked a lot of new College models for Spring 1922. Included in this shipment are the new Jazz and Sport Models which are so very popular in New York. Specially priced \$28.50. Look them over!
