BOWDOIN WINS M. 1. T. & Foot Ball MEET AT BATES

THREE RECORDS ARE BROKEN AND TWO ARE EQUALLED

Maine Takes Second Place

Bowdoin won the Y.I.T. & F.A. meet which was held on Gorham Field, Lewiston, Maine, Saturday. Maine placed second with 28 points. Bates had 23 points; Colby 18; and Unity 16 points. In the half mile, Foster of Bowdoin ran away with the race with a time of 1 minute 33.4 seconds. Charles of Bowdoin threw the discus 135.53 feet, breaking the old record made by Bailey of Bates at 135.25 feet. In the high hurdles, the morning of Maine equalled the State record of 16 seconds. In the field of Bowdoin equalled the old record of 491 seconds.

FINAL EVENTS

- Yard Dash—Won by Middletown, Colby, Bates, second; Bangor, third. Time, 10.8 seconds.
- Mile Dash—Won by Middletown, Bates, second; Bangor, third. Time, 2:22.2 minutes.
- Yard Run—Won by Foster, Bowdoin, second; Colby, third. Time, 50 seconds.
- Three Base Hits—Won by Dunham, Gruhn, Maine; Fish, Bates, second; Wentworth, Colby, third.
- Tight End—Won by Beaudette, 1926, (three poems).
- Library Student Work Selected—John E. Patch, 1927. (three poems).

Student Work Selected To Enter Competition

The following students were selected by the Department of English to represent the University in the Maine State collegiate Contests in Writing:

- Charles E. Johnson, 2027; Robert C. Connor.
- Women’s Short Story Contest, Jos L. Nevins, 1927; Martha H. Field, 1927; Sylvia M. Moran, 1927.
- Women’s Poetry Contest, Arlene Alden, 1927; Lucille Johnson, 1927.
- Women’s Prose Story Contest, Antonio Baker, 1927; George Johnson, 1927.

The following are the judges of the writing contests which are to be announced in a few days:

- The regular meeting of the Mathematics Club was held Wednesday evening at 5:30 at the home of Professor Lucas on "The Prediction of Ellipses of the Sun." The refreshments were enjoyed afterwards.

- The annual banquet of the Campus, attended by the annual bassquet which was held at the Banquet House, May 14 at 7:30 p.m., was a most enjoyable event. The toastmaster of the evening was H. A. Francis. The principal speaker of the evening was Dr. Francis Gun E. The recitation of the year will be made by the students of the class of 1927. The banquet will be held on the second floor of the library.

- The board of trustees of the University has authorized the construction of a new building for the library, to be completed by the autumn term of 1927. The new building will be of one story and will be located on the north side of the campus.

- The annual picnic of the Phi Gam fraternity was held on the campus grounds, May 1, 1927. ThePhi Gam may make it the world’s standard of length and pitch, replacing the

- Edward R. Berry '04 Invents Inexpensive Process Of Fusing Quartz; Scientists Predict Material Will Be of Great Value To Medical Profession

- Edward R. Berry of Lynn, Mass., a graduate of the University of Maine in the class of 1904, who has surprised eminent scientists, including Albert Einstein, by the discovery that the material may be of great value to the medical profession. The process of fusing quartz is as follows:

- The process of fusing quartz is as follows:

- First, the material is brought to a temperature of about 2000 degrees Fahrenheit, which is about the same temperature as the sun. Then, the material is allowed to cool slowly to a temperature of about 1000 degrees Fahrenheit. This process is repeated several times, until the material is completely fused. The fused quartz is then cut into pieces of the desired size and shape.

- The fused quartz is then cut into pieces of the desired size and shape. The pieces are then polished and cleaned, and are then ready for use.

- The fused quartz is then cut into pieces of the desired size and shape. The pieces are then polished and cleaned, and are then ready for use.

- The fused quartz is then cut into pieces of the desired size and shape. The pieces are then polished and cleaned, and are then ready for use.

- The fused quartz is then cut into pieces of the desired size and shape. The pieces are then polished and cleaned, and are then ready for use.

More Honor for Maine

With the announcement of the discovery of a new species of feeding baskets, Edward B. Bury '99, of Lynn, Massachusetts, takes his place in the Hall of Fame. What the discovery means to the world is too important for the scientific leaders to explain fully in this edition of the campus. It is gratifying to announce such an accomplishment on the part of a Maine man. It gives to the world the processes of modern education, as we know them, not entirely without purpose. Mr. Bury has achieved the bases of his scientific training here and his subsequent progress, but he was started on a wrong track.

There is a lesson for all of us in the story of the discovery. He is "not interested in its practical application." He is pleased chiefly because it opens up fascinating possibilities for the future. An altruistic statement to be sure, for a man with a mind like Mr. Bury's, at the time of his graduation, was generally characterized by a desire to show that ideals can thrive in any educational institution.

Mr. Vernon May Party

The annual Mount Vernon May Party will be held Friday evening, May 16. The decor of the upper dining room was transformed into a fully boisterous scene of entertainment for the guests. Branches arranged to give the desired effect of festivity, the table, and the dining room were transformed by the various colored streamers artistically arranged. The most impressive attraction was the arrangement of the tables. The dainty arrangement of the tables averaged in a letter "U," draped with streamers and colored tinsel, and with center pieces at various points, the effect was the very thing desired for a Mount Vernon event regardless of great skill.

After a very excellent dinner, dancing was added to the entertainment. The Mount Vernon May Party is the biggest party of its kind on campus by the college. Those who attended the affair, asserted that the party was an unusual success this year.

Much credit is due Mrs. Estabrook, for the exquisite dress of the women of the college. "Ma" has had much experience along this line, and it is felt that the success of the occasion is largely due to her supervision. Besides "Ma" Estabrook, Mrs. J. N. Hart acted as chaperon.

Student Publications

Have Profitable Year

The Maine and Maine Spring, publishers of the "Blanket tax," recently held the annual meeting of the coming year by ballot. Both publications have surmounted the difficulties of the management in which they were last fall, and on a budget of $250, the managing boards, they are both on a paying basis. The circulation of the Maine-Spring is a little above that of the Daily Bulletin among the students.

A future issue, the editor-in-chief of the Maine for the coming reports that these modifications, the next year, or Senior Number, will not be published this spring but that the first issue next fall. According to the statement of the editor-in-chief of the Maine-Spring, the opening number will be put on sale in the Book Store in the near future. The Poetry Number, largely made up of contributors from the English Department, gave rise to much favorable comment from the readers.

Tres the Honor System

The Honor System came into the University of Maine at the request of the majority of the students. It involved the adoption of a modification of the individual to be honest himself in examinations and not to aid or abet any other students. In the early days of the course, the students were divided into two classes. The second class, which had been divided into two classes, was the only one who were required to attend the examinations. The first class, which was divided into two classes, was the only one who were required to attend the examinations.

College Rules At Colby

Change in 100 Years

Colby College must have been a lively place in the old days, if some of the old stories of the college are to serve as an indication of the strict discipline that must have been enforced upon the stu-

dents...

In a copy of "Laws of Waterville Col-

lege" of the year 1823, in the Colby li-

brary, these rules are given. Every stu-

dent was required to attend chapel ser-

vice twice each day, and all undergrad-

uates were required to attend public

services on Sundays. On Sundays, the

text reads, "Each student shall avoid all

unnecessary business, walking abroad, re-

ceiving company, and playing on musical

instruments."

Other passages make interesting read-

ing:

"No student without permission shall be absent from his room after nine

o'clock at night."

"No student shall keep firearms or

any deadly weapons whatever. He shall

be held to damages upon the college

promises, nor shall cats or dogs be kept

by students for their private use or

pleasure."

"No student shall at any time smoke

a pipe or cigar in any of the entries or

public rooms of the college, or in or

near any of the outbuildings or on the

college premises; nor shall any student

keep any ardent spirits, wines, or intox-

icating liquors of any kind."

"No student shall enter the room of

another student at any time without his

permission."

"Any student shall be liable to be

fined for absence from college without

permission, and unexcused, to an amount

not exceeding twenty-five cents."

"No student without leave of the

President shall eat or drink in any tav-

ner in Waterville; nor shall be attend

any theatrical entertainment or idle

shows in Waterville."

"No student shall make any bonfire.

play off fireworks, or be in any way

concerned in the same, nor shall he,

without the permission of the President,

go to any shooting, bowling, or fishing,

under penalty of admonition or suspension."

The Colby Echo

A woman who looks in the mirror ex-

presses the worst; a man hopes for the

best.—Temple Univ.

The medicinal tie binds. The only

trouble is that it sometimes chokes.—

Temple Univ.

The fellow who takes care of the

furnace says the job suits him.—

Temple Univ.

The speaker waxed eloquent, and

after his peroration on women's rights,

he said, "When they take our girls, as

they threaten, away from the co-educa-

tional colleges, what will follow? What

will follow, I repeat?"

And a loud masculine voice in the

audience replied, "I shall—"—Brown U.

A man always wants to know why; a

woman always wants to know where.—

Temple Univ.

Those who start out to be frank al-

ways end by being untruthful.—
