REMARKS.

In reviewing the work of the past year it is evident that much good has been accomplished, although there is still a good chance for improvement in many ways.

We were fortunate enough to be able to keep several of our teachers in the same schools, although the resignation of Miss Wilton at the close of the fall term made one change inevitable.

The school committee found it necessary to make some repairs in the schoolhouses, particularly in District No. 6. All of the buildings are in fairly good condition now, and a small appropriation will be all that is necessary for the coming year.

The school in District No. 9 was discontinued, and the pupils conveyed to No. 2. Although this plan was objectionable to some of the parents, it has not only saved the town quite a large sum of money but has been beneficial to the pupils as well.

Special mention should be made of the progress made by the Lincoln League in District No. 2. This society has earned enough money for a weekly music lesson during the fall and winter terms. It is to be regretted that many of our teachers do not teach music, but this school has solved the difficulty in a very creditable manner.

As stated in last year's report, the geographies were in a very dilapidated condition, and it was decided to make a change. The Roddy Geography was substituted and is giving general satisfaction.

This year it will be necessary to make quite a large appropriation for text-books, as some of the arithmetics, readers and histories will have to be replaced.

The following appropriations will be needed for the ensuing year: \$1000 for schools; \$400 for tuition; \$200 for text-books; \$50 for repairs.

In closing we wish to thank all those who have aided us in the performance of our duties, particularly the parents who have shown unusual interest and have given us their hearty coöperation.
