## HOOPMEN PLAY TWO GAMES THIS WEEK AWAY FROM HOME

### NEW HAMPSHIRE AND PORTLAND A. C. ARE OPPONENTS

Hitting on only three cylinders, Maine's basketball machine has swung into its final week of preparation for the tilt with New Hampshire University at Durham Friday night. With Capt. "Mack" Lake, star right forward, practically shelved for the season due to the recurrence of his old knee injury, and "Swede" Olsson, right guard, also on the sick list, Coach Brice is losing sleep trying to piece together a team which will look somewhere near like the outfit which licked Dartmouth. Olsson was sick during the Christmas vacation and came back fifteen pounds underweight.

"Bill" Hanscom has been shifted from left guard, to Lake's position at right forward and "Cub" Bryant has stepped into Hanscom's number tens. The injection of Bryant, the Lincoln ace, into the lineup does not weaken the team materially, in fact the majority think that the blond star is better than Hanscom or Olsson. In the event that Olsson is unable to play, "Bobby" Durrell of Stratton will team up with Bryant at the other guard position. "Archie" Kamenkovitz of Bangor and "Speed" Branscom of Northeast Harbor will round out the team in their regular positions at left forward and center respectively.

The Bears will leave Orono Thursday and arrive in Durham Friday, spending the night Thursday in Portland or Manchester. In all probability, nine men will make the trip, since Lake's condition is so unsettled. The nine will be Lake, Kamenkovitz, Hanscom, and Stone or Gay, forwards; Branscom and Beatty, centers; Bryant, Olsson, and Durrell, backs. After playing New Hampshire Friday night, the team will hop to Portland, where they will play P.A.C. Saturday night.

Coach Wallace and his frosh outfit will also go along on the trip, playing the Durham yearlings Friday night and Westbrook High Saturday night.

## FRASER AGAIN HEADS CLASS

### Seniors Choose Ginger President for Fourth Term

Oren F. "Ginger" Fraser, captain of the 1925 Maine football team, has been elected president of the senior class. Fraser defeated Arthur S. Hillman, cross country runner and long distance star.

It is Fraser's fourth term as president of his class, he having held the position all during his college course. This record is believed to be without precedent in the annals of the University and is a testimonial of the high esteem in which "Ginger" is held by his fellow students.

Other elections were as follows: Vice-president, Willis M. Barrows; treasurer, Edward Stanton; and secretary, Cora Emery.

Fraser's record of holding the presidency of his class for four years, believed to be without precedent, is not apt to be equalled for some time in the future, if indeed, it ever is, as the tendency at the University seems to be against the reelection of class presidents to succeed themselves. It is an unusual event for a student to hold the presidency for more than one year, which makes "Ginger's" four terms in office still more noteworthy.

## Sophomore Owls Elect

A meeting of the Sophomore Owls was recently held and the following officers elected:

President, James S. Branscom; Vice-President, James Hale; Secretary, Robert Scott; Treasurer, Charles Stone; Executive Committee, Andre Cushing.

## SANDBURG TO LECTURE HERE

### Famous Poet Will be At University Saturday

Carl Sandburg, the famous poet is to give a lecture-recital in Alumni Hall on Saturday evening, January 16 at eight o'clock. The event will be under the auspices of the Contributor's Club.

Carl Sandburg is one of the most interesting contemporary poets and also one of the most important. Louis Untermeyer, in a recent lecture, called him "the poet laureate of Industrial America." Mr. Sandburg has given lecture-recitals in over fifty universities and colleges, and has been greeted everywhere by immense audiences.

When he lectured at Medill School of Journalism of Northwestern University, the following report appeared in the Chicago Tribune the next day: "They sat on radiators. They found places in window embrasures. They filled every available chair and eddied around the piano and on to the platform. It was one of the largest crowds in the history of the school, packed into the largest hall in Northwestern University, and it was there to see and hear—a poet."

William Allen White recently said, "The Carl Sandburg entertainment is a concert, grand opera, philosophic pabulum and dramatic entertainment all in one. I have never enjoyed an evening's entertainment more."

Tickets for the lecture-recital are only fifty cents and can be procured from members of the Contributor's Club or at the bookstore.

## RELAY TEAM TO RUN AT BOSTON MEETS

### B. C. AND U. OF N. H. OPPONENTS AT K. OF C. AND B. A. A. GAMES

Although there were no speeches delivered, the band did not play, and there was no display of fireworks, nevertheless, an important ceremony recently took place at the University of Maine. This was the unofficial opening of the new indoor field. The opening ceremony simply consisted of an extended workout by Coach Frank Kanaly's relay men, who galloped around the newly laid track for the first time on Wednesday afternoon of last week. The new edifice, imposing indeed to the observer from the outside, but even more impressive to one who goes inside and examines the building more thoroughly, is the acme of perfection, from the athlete's point of view especially, and Maines' track, relay, and baseball teams may now work on an equal basis with the other teams in the country. Kanaly's relay men are taking up most of the track mentor's time at present, and the new seven-lap track is already seeing plenty of service.

Maine's one-mile relay outfit will run its first race of the season at the K. of C. games at Mechanics Building, Boston, on January 30, against Boston College. The date with B.C. has just recently been definitely decided, and gives Maine an opportunity to get a thorough workout before the New Hampshire race at the B.A.A. games Feb. 4. These two dates give the Maine baton-passers two races within a week of each other, and the Kanaly men have plenty of work ahead of them to get in shape for these two important tilts.

Captain "Heinie" Eaton '26 of the one mile team has returned early from the forestry camp in the woods where he has been working all winter to get in shape. Eaton is now running every day with the rest of the team, and seems to have lost none of his old time speed. George Cahill of Bath, also a senior and a veteran, looks better than ever this year. His time so far has been better than any of the others, and he seems to have a job all salted away on the one mile outfit. Other veterans are "Bucky"

## WILLIAMS RECOGNIZES MAINE CLAIM IN GERO CROSS COUNTRY CASE

### SENDS THIRD PLACE MEDALS WITH LETTER STATING ATTITUDE

As a result of the recent controversy over the New England Cross Country Meet, the now famous Gero case has reached the eyes and ears of some of the reached the eyes and ears of some of the as was shown by one of the most sportsmanlike acts which it has been Maine's pleasure to encounter.

It will be remembered that the Maine runner, "Charlie" Gero, crossed the finish line at the New England Meet, held at Franklin Park, Boston on November 16, in thirtieth position, according to the contention of Coach Frank Kanaly and Manager Turner. Gero was checked at the last station before the finish, and was seen to finish by several of the judges. However, when the time came for reckoning, Gero was given no place. Maine, as a result was forced to be content with fourth position, whereas if Gero had been given any place up to 35th, Maine would have finished second. All this was brought up in a meeting held Dec. 13 at Boston, at which Maine's protest was considered and flatly turned down.

Williams College, whose team finished third, became convinced of the fact that Maine had been treated unjustly, sent a letter to Manager "Bob" Turner, and at the same time sent all the medals which had been awarded the Williams team, since it was the opinion of the Williams runners that Maine had been the victim of a rather raw deal.

This action by Williams is most commendable and shows that, after all, Maine's stand was not altogether unjustified. In proffering to Maine the medals fairly won by them, Williams showed an exceedingly fine spirit, and a spirit which we have every reason to believe is characteristic of Williams. The accompanying letter follows:

(Continued on Page Four)

## JUNIOR WEEK DATE IS SET

### Exercises to be Held Last Week in April

The committees for Junior Week and the Junior Prom held a joint meeting on Wednesday evening of last week to discuss plans for these events. The last week of April was chosen for Junior Week, since at this time the athletes and other members of the class will be best able to attend the exercises.

This year the programs for Junior Week and the Prom, instead of being separate, will be combined under one cover. The sale of these programs formerly has been quite small, and it is hoped that by combining them and making them more attractive, as well as smaller, the sale will be increased. The class roll will be omitted, since it will be contained in the *Prism* which comes off the press at about the same time.

This week is much looked forward to by the Juniors as well as the other classes. Juniors are allowed additional privileges and excused from classes on Friday and Saturday. The Prom, which is one of the big events of the year comes on Friday night, and the committee plans to make it one of the best ever. Novel ideas in decorations and lighting effects will be carried out. Any additional money will be added to the fund to be expended for the music, and especial efforts made to get the very best orchestra obtainable.

On the Saturday of Junior Week there will be a baseball game as well as a Freshman-Hebron track meet.

## S. F. A. BANQUET FRIDAY NIGHT

### Governor Brewster to Be Among Speakers

One of the most important events of the college year will take place on Friday evening of this week, when the annual Maine Student-Faculty-Alumni banquet will be held at the Bangor House under the auspices of the Senior Skulls. For the first time, this year's banquet will assume a state-wide interest, with the presence as speakers of Gov. Ralph O. Brewster and Ex-Mayor Louis J. Brann, '98, of Lewiston, Democratic candidate for governor. Politics, however, will be taboo as far as the evenings program is concerned, and the University is expected to furnish the subject for all the speeches of the evening.

Besides the two notable outside speakers, Acting President Harold S. Boardman, Dean James S. Stevens, and Kenneth W. MacGregory, '26, editor of the *Campus*, are on the program. President Boardman will speak for the University, Dean Stevens for the faculty, and MacGregory for the student body. Harry Sutton of Boston, president of the general Alumni Association, will act as toastmaster.

According to Chairman Edward F. Stanton of the Skull committee in charge of arrangements for the banquet, all the five principal speakers are expected to discuss the question of "The Ideal State University," and it seems altogether probable that some rather interesting discussions will result, with the remarks of Gov. Brewster, Mr. Brann and President Boardman attracting special attention.

(Continued on Page Four)

## FIRST MASQUE PLAY

### PROVED SUCCESSFUL

### "LOYALTIES" WAS PRESENTED BEFORE VACATION

The Maine Masque presented its first play of the year on December 17, in Alumni Hall. The play was "Loyalties" one of Galsworthy's plays of English life after the war. It required one of the largest casts which has been attempted for several years, and with such a condition, the cast was excellent. Practically every person in it was fitted for the part in physical characteristics alone. Such a choice is a great asset for any amateur attempt, and one not always attained.

One of the interesting features of the evening was the new stage which has been built by the Maine Masque. It has all the advantages of a regular stage at present, having dressing rooms, wings, and a curtain which does not require the attention of two stage hands to run back and forth. The whole is finished to harmonize with the Chapel proper, and is an addition both from the points of view of utility and decoration.

The play really includes no one who could justly be termed the leading man or lady. Alton Foster, playing the part of De Levis, was, however, the star of the evening. He has had experience on the stage, a fact which was easily recognized from his first appearance. For the women, Serena Wood in the role of Mabel Dancy, portrayed her part very convincingly. Anna Stinchfield as Margaret Orme made the most of a part which was essentially secondary. Florence Gushee, as Lady Adela, supported by Gordon Noyes as Winsor, were the not too concerned English married couple, at whose home the action of the first scenes took place.

Lynwood Betts with the part of General Canynge, carried off in a suave manner the retired old army officer, and added to the effectiveness of the presentation. Kenneth MacGregory in the role of Ronald Dancy, about whom the action of the play is built, was successful in putting the part across. Philip Gonyar as Inspector Dede, Hobart Pierce as Major Colford, Robert Parks as Gilman, and Samuel Goldsmith as Richardos proved effective in their different parts.

(Continued on Page Four)

## COMMITTEE REPORTS TO STUDENT MEETING ON "POINT SYSTEM"

### PROF. POLLARD EXPLAINS METHOD OF LIMITING ACTIVITIES

Last Thursday evening a meeting of representatives from the various organizations on the campus was held to discuss the "point system" of extra curricular University Extension Division explained that a committee from the faculty consisting of L. J. Pollard, chairman, Prof. J. H. Huddleston, Miss Esther McGinnis, Mr. Irving T. Richards and Prof. E. H. Sprague had been appointed some time ago to co-operate with a student committee consisting of Mrs. Anna J. Ashley, Miss Arlene D. Besse, Willis M. Barrows, Harry W. Candage, Stanley B. Hyde to draw up a plan limiting the extra-curricular activities of individual students.

This plan is to be presented to the various campus organizations by Prof. Pollard, in the near future. An opportunity for discussion will be given. If the point system is accepted, it will go into effect next fall.

The outline of this system follows, but some changes will probably be made before the plan is voted on. Changes may be made in the future whenever need arises.

Report of the Committee on the "Points System," January 12, 1925.

The Committee recommends the following:

First: That the number of activities in which a student may engage at any one time be limited in the following way:

First Class: One position in this class may be held at one time, and no other position listed under the second and third classes.

Second Class: Two such positions may be held at a given time, or one second class and two third class.

Third Class: Four such positions may be held at a given time.

Fourth Class: Any number of fourth class positions may be held, also fourth class positions may be held simultaneously.

(Continued on Page Four)

## EIGHT DEBATES FOR 1926 TEAM

### Season Opens With B. C. On February 11

Eight debates appear on the schedule for the 1926 season announced by Manager Robert F. Scott of Old Town of the debating team. The first of these is with Boston College at Orono on the evening of February 11. The schedule follows:

Feb. 11. Boston College at Orono.  
Feb. 18. New Hampshire and Maine Girls' teams at Orono.

Feb. 25. Massachusetts Aggies at Orono.

March 4. Triangular debate with Rhode Island State and University of New Hampshire. Affirmative teams traveling.

March 18. Vermont at Orono.  
March 25. Middlebury at Orono.

Boston College, the first opponent of the locals, is always represented by an able and well-trained team on the platform, and on its last visit to Orono, two years ago, gained a unanimous decision of the judges over the Maine team.

The University will be represented this year by a women's team for the first time. One debate, with the New Hampshire co-eds at Orono, Feb. 18, has already been scheduled, and others are being arranged by Manager Scott.

## Basketball Tourney Mar. 11

The annual Interscholastic Basketball Tournament will be held this year on March 11, 12, and 13. As in former years, selections from each district will be made, and eight teams from both the high and prep school class will compete.

### The New Point System

At first blush, the establishment of a system whereby the distribution of offices and positions of importance may be made a fairer proposition to the students and the organizations, does not seem at all complicated. It would only appear to entail approval and an apportionment of these campus positions to form a working basis.

But in reality there are many points to consider well, before the ultimate program can be put into effect. Naturally the first thing to consider is whether we need such a system. Is the present method unsatisfactory? It most decidedly is.

Sometime back an editorial appeared which deplored the lack of support of campus organizations which were not recognized as "the fashionable thing" to join. This very condition offers a splendid reason why there are a few men holding a great many offices. In a group which is small, the men who are fitted to be its executives are thrown into heavy relief, and are subsequently given the guidance of the group's affairs. Furthermore when the same men and women are members of several groups, the same conditions will occur, with the result that the duties of many are confided into the hands of a trusted few. This is the condition which the point system seeks to eliminate.

As with every new project, the stand-patters and the let-well-enough-alone advocates will frown and say that it isn't worth the trouble; and point out that in such a college as this, only a few are fitted to hold office, and that it will make for the impoverishment of campus activity if less competent men are installed. That may be true in a minor way. But "necessity is the mother of invention," and an emergency usually finds someone competent to occupy what roles are necessary to ward off failure. "Full many a flower is born to blush unseen, and waste its sweetness on the desert air." Full many a leader is a member of an organization, but all unseen, who might be sitting in the president's chair. It is unthinkable that any organization could be dealt a death blow through lack of executive material.

In every human there is just so much energy which he has to devote to his work; however concentrated or diffuse it may be. If through circumstance he is obliged to hold the reins of several varied organizations, it follows that no one of them can receive the full benefit of his powers without neglect of the others. Each organization has its special form of activity, unlike the rest, which needs attention. With the point system, no club can be ignored at the expense of any other. It opens the way for a decidedly more efficient group of campus organizations.

Granted that a point system is needed, an examination of the plan in its present stages naturally suggests itself. There are four classes in all. In the first are placed such positions as seem to necessitate every iota of time and attention that

are available to the office holder. Students in this class can hold but on such position and no other in the two following. In this class should be put every position which should demand full time as well as those which admittedly do. The second class includes positions whose obligations require a fair measure of attention but which are not so all engrossing as to prohibit a sensible division of energy into some one office of equal responsibility, or two others with minor duties attached.

The third class is composed of offices which are more in name than in responsibility. The offices require some work, but not of a very tedious or exclusive nature. Four such offices may be held at one time. The last class includes all offices which are not in the first three.

The division seems fair enough. That there are such positions with the four varying degrees of responsibility and time requirement is fact. The directions on the "point system" bottle read "at one time." That is, these classes and the restrictions which they impose, affect a student only insofar as he may feel inclined to occupy a host of offices at one time. During the year he may occupy a great many of these positions, but as long as they do not conflict in being in force simultaneously, there is no difficulty. That is a saving feature of the class system as opposed to the real point system where each office is allotted a certain number of points, and a limit set as to the number of points which an individual may acquire in a year. The latter method is too complicated and serves no better purpose.

Each organization or group of any description on the campus is requested to consider the division of the offices in the various classes. Especial attention should be given to those classifications with which they are directly concerned. A composite list of the decisions of the bodies involved will serve as the foundation for a re-classification on a permanent basis. This system will not take effect during the present college year.

The members of the committee who worked out the present class distributions, admit that it is not perfect and request comment of any nature concerning it. Mr. L. J. Pollard is the Chairman of this committee and will welcome any criticism which may be offered.

### University in Agreement With Seminary for Credit Exchange

At the regular meeting of the trustees of the university last week an arrangement with the Bangor Theological Seminary for cooperation in various courses in the two institutions was approved. Under the terms of this agreement, students in the College of Arts and Sciences of the university shall have the privilege of registering for courses at the Bangor Seminary not to exceed five credit hours a semester without payment of tuition charges, while seminary students shall have a similar privilege with reference to the university.

The courses for which students may register in either case shall be approved by the president of the seminary, the dean of the college, the student's major instructor and the instructors in the department concerned in both institutions. In order to avoid duplication of credit it is understood that all courses at the university which have been used by seminary students for graduation credit at the seminary shall be cancelled at the university in case the students are admitted to junior standing and as candidates for the Bachelor of Arts degree.

This agreement is to be in effect for three years, and may be extended at the expiration of that time by vote of the boards of trustees of the two institutions.

The university trustees also decided that four new scholarships which were recently established shall be awarded at the end of the present semester in February. These scholarships, each of which amounts to a year's tuition at the university, will be awarded on a basis of high scholastic standing, one at large and one to a student of each of the three colleges of the university. These last three are limited to residents of Maine. The award at this time will be for the amount of the tuition for the coming spring semester.

### Maine Represented by Four Men at Lake Placid Carnival

During the Christmas vacation the Intra-Mural Athletic Association accepted an invitation from the Snow Birds of the Lake Placid Club of New York to enter a team for the Annual National college competition held December 30 to January 3.

The team which went to New York was composed of Robert Turner, captain of winter sports, who entered the 100-yard snow shoe dash and the three mile snow shoe run; Irving Kelley, president of the Intra-Mural, who went principally to get some points for the University Carnival, and who entered the 100-yard snow shoe dash and speed skating events; Johan Lorenzen, of Norway, who entered the ski efficiency and ski jump for individual competition and honors; and Henry Trask, a member of the Intra-Mural, who entered the seven mile ski run.

Bates College and the University of Maine were the only Maine colleges to send representatives to the Lake Placid Carnival. Last year Bates was quite successful at the New York Carnival. This year, due to the fine showing of Turner, who placed second in the three mile snow shoe run, the University was able to beat the Bates team by two points. The Maine captain finished next to Fred Peaslee, New Hampshire cross country and winter sports star.

The last night of the Carnival the Maine team was one of three college teams to put on a stunt on the ice. This was a logging scene, taken from Holman Day's Kin O'Ktaadn, and was about Mike Corrigan, the Brave White Water Man.

### FROSH LOST OPENER TO MATTANAWCOOK

Maine's freshman basketball team opened their season last Saturday night in Lincoln by losing a hard game to the crack Mattanawcook Academy five by a score of 21-16. The Lincoln boys presented a fast, snappy aggregation, and looked to be the best team they have had in years. The game proved to be too tough an assignment for the first one on the frosh schedule, and the "twenty-niners" were forced to submit. "Sib" Bowker and Haynes were the leading lights on the M. A. team, while "Larry" Hobbs and Thurston shone for the yearlings.

Score:

MATTANAWCOOK ACAD-  
EMY (21) (16) MAINE 1929  
T. Bowker, rf. 3 (1) lb, Holmes  
Pinkham, rf. rb, Thurston (2)  
c, Wetherbee, (1)  
C. Whalen, lf. 1 (3) c, Folsom 1 (1)  
Whitten, lf, 1 lf, Bailey 1 (3)  
Haynes, c, 2 rf, Hobbs, 2 (1)  
J. Whalen, rb (3)  
N. Bowker, lb  
Referee: McKechnie, Bangor

The Lake Placid Club is located near the southern end of Lake Champlain in a beautiful, mountainous part of New York. This Club has done more to encourage winter sports than any other organization in the country. The hotel or club house itself is a fine huge structure. The thousands of members who usually go there at some time during the year are out doors every day that they are there, enjoying the healthy sports, such as skiing, snow shoeing, skating or tobogganing.

### TEN GAMES ON DIAMOND CARD

#### Baseball Team Opens Season April 19 With Colby

Ten games appear on the schedule for the 1926 Maine baseball team made public by Graduate Manager B. C. Kent. The season opens on April 19 with the annual exhibition game with Colby at Waterville, and closes June 12 with the same team as opponents.

The schedule:

April 19	Colby at Waterville (exhibition)
April 28	Brown at Providence
April 29	Open
April 30	Rhode Island State at Kingston
May 1	New Hampshire at Durham
May 5	Bates at Orono
May 8	Open
May 12	Bowdoin at Brunswick
May 14	Bates at Lewiston
May 19	Bowdoin at Orono
May 22	Colby at Waterville
May 26	Open
May 29	Open
June 2	Open
6, 7, 8, 9	Open
June 12	Colby at Orono

There will be an illustrated lecture under the management of the Civil Club Jan. 14, at 7 P.M. in 14 Wingate. Mr. F. H. Gilpin, engineer for the Texas Company, will speak on "General Asphalt Paving Construction" and "Asphalt Macadam and Kindred Pavements." Refreshments and smokes will be served.

Students who cannot take Pb 1 or Pb 3 as above may appear on Fri., Feb. 5 at 3.30 at 275 AS.

No change can be made in the above schedule.

## Scoop's CORNER

Well, the most embarrassing time of the year is over. We have sent "thank you" cards galore whether we meant it or not. The white lies we tell at this season turn gray with use. There are always people whom we forget until we receive something from them then we hurry up and thank them and ask if they got ours.

To avoid all embarrassment next year the writer advises that you purchase a rubber stamp with the word "sincerely" and your name then get your prep school annual, the college catalogue, and your address book and go down the list stamping greeting cards right and left.

How about gifts? We surely like to receive them but there is always a dear devoted aunt who sends you a collar bag when the only starched collars you have are a stray "Tuxara" or two. There are also garters, smoking jackets, hand made neckties, bridge and shaving sets that were not made for utility, and dozens of other things that were very lovingly sent but are not worth the powder to blow them to brilliance, neither do they always impress the receiver with the sender's goodwill. (Here is hoping that this column does not come under the surveillance of any of my few benefactors.)

Do you know of anything more lonely looking and more worthy of pity than a Christmas tree stripped of its tinsel and adornments and tossed into a backyard or alley. There is only one thing lonelier and that is a college campus during the holidays.

It is no joke. Scoop knows, he has been there with about a score of other unfortunates. Getting together gave no relief because all they would talk of would be home, places where they had wished to be and places where they had been during past Christmas vacations. Ever and anon they would curse their luck for being stranded here because of a thesis, some activity, or a job.

A few half frozen sparrows, some research-working profs, and the smoke from the power house stack were the only signs of animation. The silence thundered in your ears and you were startled by your own shadow. The first fourteen days were the hardest, after that we sort of resented the intrusion of the Boys' and Girls' Clubs that interrupted our perfect peace and quiet.

Someone may say: "What a splendid chance to study." Don't try a sagacious crevice like that on us. Once you have become accustomed to noise you can't study without it, you must have someone shouting around to keep your mind from wandering off. But who would think of

## BAND ON FOUR-DAY TRIP TO AROOSTOOK

The Maine R.O.T.C. band, composed of 40 picked men from the total membership of 70, left Tuesday morning for Aroostook on a four day trip. Tuesday night they played in Presque Isle and Wednesday in Caribou. Thursday night they are in Houlton and Friday in Millinocket.

The following is the program for the trip:

1. Welcome to Maine
2. Poet and Peasant
3. Friendly Rivals (featuring Gero and McLaughlin)
4. Thunderer
5. Song of the Pines  
(Composed by Lowell brothers, class of '29)
6. Commodore Polka  
(featuring Carl Larson '29, baritone)
7. Popular Group
8. Hungarian Comedy
9. Manhattan Beach
10. Stein Song

The band is conducted by First Lieutenant Willis R. Rollins, of Bangor, and is under the management of Hugh B. Huntley of Bangor. Warrant officer John Kidney, U.S.A., accompanied the band.

The men making the trip are:

Cornets and trumpets: Adams, Coltart, Drew, Gero, Lowell, MacLaughlin, Murdi, Newman.

Clarinets: Downing, Hackett, Medeiros, True, Ward, Williams.

Saxophones: Gartley, Libby, Littlefield, McGowan, Murphy, Whittier.

Alto horns: Coleman, Lowell, Wilkins.

Trombones: Ames, Moulton, Randall, Weed.

Piccolo: Lovejoy.

Drums and cymbals: Beeaker, bass drum; Furbush, cymbals; Stuart, small drum; Woodard, small drum.

Baritone: Larson.

Basses: Blackwell.

such prosaic thing as study, this was the merrie yuletide, the time for rejoicing and sleep.

Here is another thing that we encountered in our aimless wanderings: One day as the writer was strolling down one of Old Town's avenues he sighted a Junior toque ahead and he wetted his lips preparatory to sounding the traditional "Hello"; however, as the toque wearer approached he was revealed as a bona fide denizen of Indian Island. Later it was noticed that class toques are worn quite commonly by youngsters in the surrounding villages which perhaps will be instrumental in forcing this rather desirable class custom into disuse. The color combination or design of this "distinctive insignia" is too general to have it copyrighted or registered at Washington so we have no redress. If we were back in "the good old days" and the youngsters were men we could probably have many an interesting brawl in attempting to stop this practice, but as these are not the conditions we will probably stand by, be nice boys and have this class custom gradually pass into disuse.

A new system for the handling of articles lost and found about the campus has been inaugurated by the M.C.A., and the headquarters for these articles has been removed from the Registrar's office to the M.C.A. Building. When an article is brought into the office, a description of it and the name of the finder is registered, and if the article is not claimed, it will be returned to the finder. This arrangement is proving a more satisfactory one for the care of these numerous articles than previous ones.

## CORRESPONDENCE

To the Editor of the Campus:

The annual banquet of the Boston Alumni Association will be held this year in early February. We hope to have with us, President Boardman, Alumni Secretary "Bob" Clark, and a representative of the undergraduate student body.

The association would like to invite to this banquet the Fathers of Maine Men and Women who reside in Greater Bos-

ton. The names and addresses of such "Fathers" are not available except as students give that information.

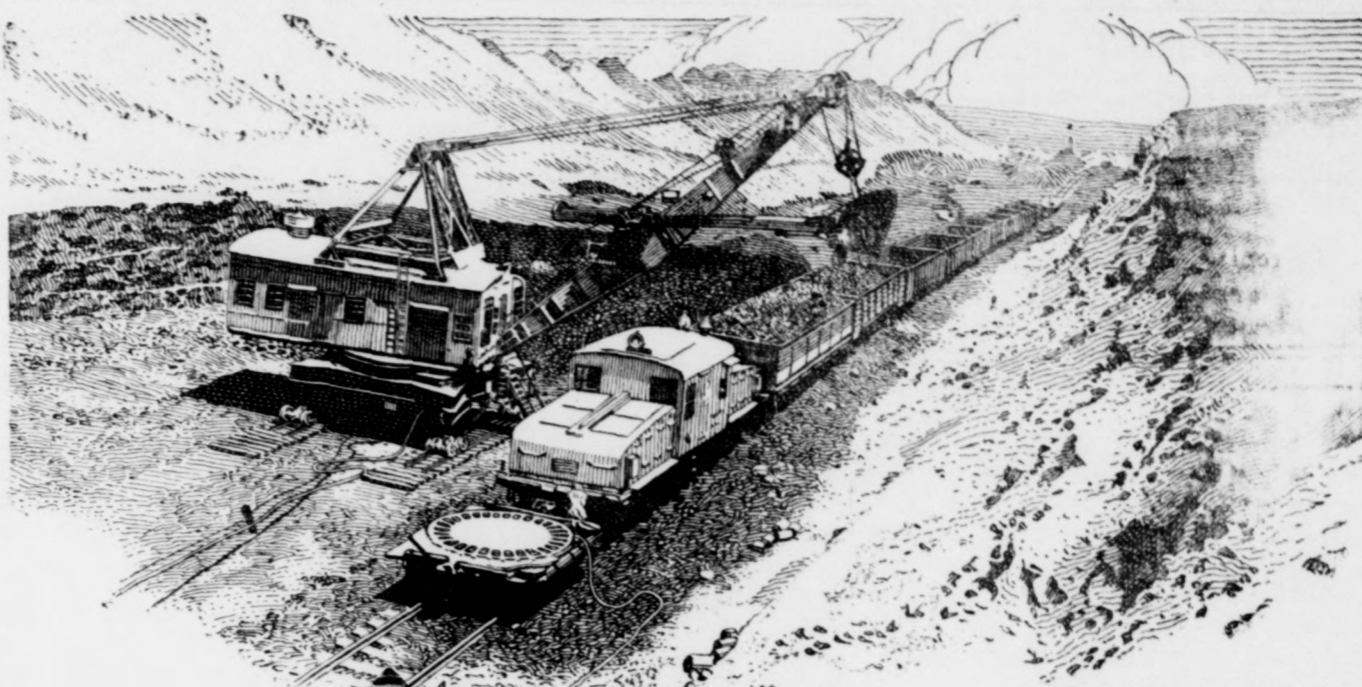

Would you through your paper, request students and such alumni as may subscribe thereto, to send to the above address, the names, addresses and telephone numbers of their Fathers, if living in or around Boston?

With the season's greetings, I am,

Very truly yours,

T. W. Monroe, '24

Chairman of the Banquet Committee  
Boston Alumni Association

Where motorized power is virtually unknown, men toil yet accomplish little. The United States has over one-quarter electrical horsepower installed per capita. Japan, leading country of the Orient, has but .04 horsepower. Electric shovel and storage battery locomotive are shown at a completely electrified open-pit coal mine, at Colstrip, Montana.

## Work without Toil

Ten or twelve hours a day toils the coolie. If he carries all he can, he moves *one ton one mile* in *one day*. For that he receives twenty cents.

Cheap labor! Yet compared with our American worker, receiving at least twenty-five times as much for an eight-hour day, the coolie is expensive labor. In America we move *one ton one mile* for less than *one cent*. The coolie, working by hand, accomplishes little; while the American, with electricity's aid, accomplishes much.

Plenty of electricity and cheap electricity—these are two great advantages which America enjoys over the rest of the world. While our present generating capacity is 20,600,000 kilowatts, new developments call for 3,000,000 kilowatts more per year.

To college men and women—potential leaders—will fall the duty of finding more and still more work for electricity, with less and still less toil for our workers. For the task is but begun!

# Tie a tin to trouble

A TIDY red tin of Prince Albert, to be exact. There's the greatest little trouble-chaser in the known world. Smoke P. A. and pipe-grouches choose the nearest exit.

Yes, Sir, P. A. is right there with the Pollyanna stuff. Sunshine, gladness, the light heart, the bright smile. Because Prince Albert is the cheeriest, chummiest tobacco that ever tumbled into a briar or corncob.

Smoke P. A.—and smile. Cool, comfortable P. A. Fragrant, friendly P. A. Not a tongue-bite or throat-parch in a ton of it. The Prince Albert process hung the "No Admittance" sign on Bite and Parch the day the factory opened.

Get a tidy red tin of P. A. today and give pipe-worries the gate.

# PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

### (Continued from Page One) Relay Team to Run at Boston Meets

Rounsville '27 and "Dan" Torrey '27. These four, all experienced men could make up a veteran team which would give the best of opposition something to think about. The makeup of the team is by no means decided, however, as there are several other speedsters who are making a strong bid for regular positions, chief among these being "Spot" Giddings '26, "Doug" Donovan '26, "Baldy" Williams '28, "Spec" Hale '28, John Caldwell '28, Elwood Folsom '28, and "Pret" Maxwell '28.

Coach Kanaly has also received invitations from the officials of the K. of C. games to send a two-miler, and both Taylor and Hillman will be entered, with the

### (Continued from Page One) S.F.A. Banquet Friday Night

tion in view of the different attitudes which have been adopted by the state

executives and presidents of the University in the past.

The Student-Faculty-Alumni banquet was instituted two years ago as a means of drawing together the three bodies which compose the University in order to bring about better cooperation and to create a "bigger and better Maine." While heretofore the banquet has been strictly an affair for the men students and alumni of the University, at the coming affair both women students and alumnae are to be represented. Each organization on the campus is to send two delegates.

Invitations to the banquet have been extended to several prominent alumni, and it is hoped by the committee in charge that a good representation from the graduates will be on hand.

### Williams Recognizes Maine Claim in Gero Cross Country Case

Manager Cross Country  
University of Maine  
Orono, Maine

My dear Mr. Turner:

As a result of the discussion and evidence which Maine presented at the meeting of the N.E.I.C.A.A. on Sunday, the entire Williams team realizes that, because of the unfortunate mistake which occurred at the finish, Maine has been unjustly deprived of her rightful position in the cross country run.

Although we were officially awarded third place in the meet, we feel that your protest was well established, and we are sure that Maine placed before us. Therefore, we are forwarding them to you with the hope that Maine will accept them since it was only an unfortunate circumstance which kept Maine from her just place in the scoring.

Very truly yours,

Stewart L. Crofts  
Captain of Cross Country

Allen H. Bacon, Jr.  
Manager, Cross Country

trays. The cast was as follows, in addition to those mentioned: Treasure, Oscar Burch; Robert, Harry Hartman; Constable, George Charles; Borring, Matthew Highlands; Lord St. Erth, Edward Merrill Jr.; Edward Gravier, Fred Thompson; Clerk, Murray Hamilton; and Jacob Twisden, Harold L. Ballou.

### (Continued from Page One) Committee Reports to Student Meeting on "Point System"

ously with positions in any other class. The following are examples of activities which might fall under the different classes:

First Class: Varsity Managers (in season).

Second Class: M.C.A. President.

Third Class: M.C.A. Cabinet members. Fourth Class: Members not holding offices in clubs and associations.

Second: That a joint committee composed of not less than three faculty members and not less than three students be appointed to work out the details of assigning activities to the various classes.

Third: That the administration of the system be in the hands of the student senate and girls' student government with a faculty committee as advisors.

The committee has gone over the reports of over four hundred institutions and the above seems to be the best plan.

L. J. Pollard,  
Chairman.

At a recent meeting of the Athletic Board, Alfred W. Hamner '26 of Wethersfield, Conn., was appointed manager of basketball for the remainder of the season to succeed Delmont Parsons '26, who had previously resigned.

## PRISM GROUP PICTURES

The taking of Prism group pictures will be resumed on Saturday of this week. It is hoped to finish taking all of the group pictures in the next three weeks.

The pictures are to be taken on a schedule allowing twenty minutes for each group, and any group must not expect us to delay the schedule for one, two or more delinquent members. Thus it is necessary that everyone be on time or not be in the picture. Every group must show up at the time it agrees to or it must make its own arrangements to have its picture taken.

The following groups are to be taken this week end:

SATURDAY, JANUARY 16, 1926

Pi Beta Phi	1:00 P.M.
Theta Phi Kappa	1:20 P.M.
Y.W.C.A. Cabinet	1:40 P.M.
Chi Omega	2:00 P.M.
Alpha Omicron Pi	2:20 P.M.
Women's Student Government	2:40 P.M.

All group pictures are being taken in the new Indoor Field.

(Signed) Cyril G. Cogswell  
Organizations Editor

## Girls Hoop Squad Picked

The girls' varsity basketball squad has been picked and is composed of nine members. They are as follows:

Guards: Hughes (Capt), Perkins, E. Sawyer.

Centers: Bennett, White, Eaton.

Forwards: Winslow, Hunt, Fuller.

An informal party was given by Omega Mu Chapter of Phi Gamma Delta fraternity, Friday evening, Jan. 8, at the chapter house.

Music was furnished by the Troubadours. Chaperones for the evening were Dean and Mrs. Hart, Mr. and Mrs. Hosea Buck, and Dr. and Mrs. Eyster.
