PREPARATIONS NEARLY COMPLETE FOR WINTER CARNIVAL NEXT WEEK

BOTH OUTDOOR AND INDOR ACTIVITIES ON THREE-DAY PROGRAM

The Intramural-Athletic Association is busy making elaborate preparations which will hold next week, February 18, 19 and 20. Under the capable guidance of Capt. H. H. Eder, athletic director of the college, the winter Carnival will surpass those of previous years in both variety and interest. There is no lack of snow or ice which are, of course, the outdoor part of the Carnival's activities.

The ski-jump and the skating rinks are in fine shape at the present time and are being patrolled by many students who plan to enter the skiing and skating events. The cups and medals offered to the winners are well worth trying for.

Entry blanks for the races are being circulated around the campus, and although there is not much of a demand for them, it is expected that many students will decide to enter before the Carnival opens on Tuesday. Members of the ski-jump and skating events have participated in several competitive events and are looking forward to show their skill, but they do not expect to meet much competition since many of the winners who turn up in each race.

Many alumni are expected to attend the Carnival and the weather will be held for them by every one of the four要素s. The weather is expected to be fairly cold.

The Intramural-Athletic Association has organized teams of Maine and New Hampshire which will attack the downstaters, and, because there has been a great deal of travel among the upstaters in the past few years in athletics, the four Maine colleges are expected to defeat the downstaters. The Maine group's play is the "Merry Wives of Windsor," which is to be given Saturday night at the annual meetings of the alumni at the college of arts and sciences. This play is one of the big events of the year. Should we, as Dartmouth, New Hampshire, and many other colleges now be beginning to realize the healthy value and the necessity for the establishment of hockey as a sport by the Intramural-Athletic Association is doing everything within its power to encourage winter sports here at the University, for it is not in business, but in trying to discourage the winter activities. Mahar and other college Alumni in the state have begun to realize the necessity for the encouragement of winter sports here at the University.
INTERCOLLEGIATE NEWS

The internet criticized college student was delivered at the annual meeting of the Association of American Colleges held recently in New York, as having exceeded the bounds of proper criticism. The student, a member of the faculty of the University of Maine, claimed that the student of any other generation, "College life," he said, "must necessarily be a little different from a life in the country, and the tendencies, both good and bad, of the student of the present day." The result of the world today will be found in a more scientific and intellectual understanding of the world today.

***

An opposite view was voiced by another member of the Dartmouth faculty. He said that there was an over-emphasis of the importance of business, taking of the minor and trivial subjects and a contempt for the older studies which is vitally necessary. An over-emphasis of the importance of business, taking of the minor and trivial subjects and a contempt for the older studies which is vitally necessary.

***

The program for Sunday, February 14, consisted of the following numbers: The "Tango," arranged by P. B. C. Beale, will be presented by the Phi Omega Delta fraternity. The "Waltz," arranged by P. B. C. Beale, will be presented by the Phi Omega Delta fraternity. The "Waltz," arranged by P. B. C. Beale, will be presented by the Phi Omega Delta fraternity.

***

The January number of the Maine Returned from last week, contains many points of interest. It is as large as an average for several years, and appears to be well written. The contents of the January number of the Maine are as follows:

***

The plans for their new building have already been approved by the trustees of the university. The Lambda Chi House will be located at 112 College Street, next to the student yachts. The Lambda Chi House will be located at 112 College Street, next to the student yachts.}

***

On the sixth of February, the members of the Lambda Chi House fraternity moved out of the house on College Avenue, which they had occupied for some years. They have made arrangements for a new building, and will occupy the old house, which is being used as a fraternity house.

***

The negotiations have been under way for several months, and have at last reached a conclusion. The Phi Omega Delta fraternity will take steps to renovate the house, and put it in its former class condition. The Lambda Chi House fraternity will be moved out of the old house, and the new house will be occupied by the Lambda Chi House fraternity.

***

The lectures have been attended by students from all parts of the country. Besides his work at Maine from 1926 to 1928, he has coached in track and field at Mahon and at the University of Maine. He was a member of the track team at Mahon, and got in the game of athletics and physical training in the last few years.

***

The program for Sunday, February 7, will be put on by the Public Speaking Department. The program will consist of a short address by Prof. W. W. Chadbourne, followed by a lecture on "The Boy Scouts." The lecture will be followed by a discussion on "The Boy Scouts," and the lecture will be followed by a discussion on "The Boy Scouts."

***

While the steel framework completed, work on the old house of the new University Community Club suggests that the building will be ready for occupancy during the summer, and will be occupied by the Public Speaking Department.

Maike and Little Spoke

Boardman and Little Spoke

dinner included Dr. Ralph H. McMillen of Columbia University, a former profes-
sor of engineering at Maine; Robert P. Clark, alumni secretary, who described
the university’s athletic and building pro-
gram, and P. W. Monohan, who was toastmaster.

A new ideal in state university educa-
tion was announced by Dr. Little, at the
annual dinner of the alumni of Michi-
gan Club, New York. It was the phil-
o sophy of kindliness and helpfulness.

"We think of Christ," said Dr. Little,
"as performing miracles. Yet for each
miracle he did many kindly acts that
brought joy to the recipients. In com-
memorating the miracles this kindly side
has been overlooked.

"We all can kindly bring a smile to
our fellows, do a helpful act even though
not outwardly performs a miracle. That is
a philosophy which I think we all will
to the boys and girls at Michigan, that
will solve many of our problems and
help to turn over social customs.

"The day is past when success can
be attained by climbing up on our weaker
brothers.

"I believe you alumni will agree that
it is preferable for Michigan to strive for
such an ideal as this, rather than to go
out as far as we can to erect in these
qualifications common to all educational
institutions.

"As performing miracles. Yet for each
miracle he did many kindly acts that
brought joy to the recipients. In com-
memorating the miracles this kindly side
has been overlooked.

Bigger Generators—Cheaper Electricity

A 70,000 horsepower hydro-electric unit recently installed at Niagara Falls uses the same amount of water as seven former 5,000-horsepower units, yet does the work of four times the number of such units. And it saves 700,000 tons of coal yearly for the nation.

As more and still more units are found for electricity, larger and more economical generators are installed. At the power plant, as well as at the consumer's end, important changes and startling developments have steadily reduced the cost of electricity for light, power, and heat.

And wherever electricity has blazed its trail—in towns, cities, industrial centers, and rural communities—comfort and progress have come to stay.

Generating and distributing electricity concern the technical student. But electricity's application in the betterment of industry, the professions, and home life concerns every educated person. Cheap electricity means many startling achievements.

**NEW YORK UNIVERSITY SCHOOL OF RETAILING's**

Experience in New York's, Newark's and Newberry's department stores. Store service and clerkship with leading institutions.

M.S. in Retailing granted on completion of one year of graduate work.

Full term opens September 16, 1926.

Summer School July 6 to August 13, 1926.

Illustrated booklet on application. For further information write Dr. Deans M. Bacon, Director, Washington Square East, New York City.
