WGBX USES FULL POWER

Permission Received
For Local Station
With 500 Watts

At last Station WGBX has been granted
its first operating license. This has been
obtained after a long delay due to the
permits which were required. At present,
the Washington office is not in the
farm area, which it will be useful in
the future. The station's offices have
been moved to the new building on
Main Street.

BANGOR AND HEBRON;
WIN CHAMPIONSHIP

CARRY OFF HONORS IN ANNUAL
SCHOOL BOO PRACTICE

BANGOR High and HEBRON
Academy are the winners of the
Annual School Boat Tournament
held last week and cleared in
the handicaps. The regatta consisted
of various classes, this displaying
Jesup High and Albert School, last year's champs,
and Eastern and northern Maine.

Both winners entered the tournament far
to the position of favorites, but the
race showed that the two teams were
in close competition, and the smashing
type of boat work performed in clear
days, proved too much for
gether, HEBRON, picked to drop its first
game to Kentsville, sailed on its way to favor.

HEBON also took over M.C.L. 29-7 in a
rarely witnessed victory over M. O. of the
Big of the Green. The HEBON crew
cleared the grounds and passed M.O. to
atter battle was one of the best of the
season. Both crews went all through the
season without defeat, and when
the final’s score was decided, HEBON
had the edge. The brilliant playing of W. t. and
Smith, and the powerful driving of C. M.
made a big hit with the
game, which was won by HEBON,
which had the toughest battle in its
against the new school. HEBON had
team, and were out for
and the result was won in the
struggles of the day for
in the favor. Turner and Hicks of Bangor and
HEBON, and of course, in every game. The
ego's final game with
that was won by "Heinie" Eaton, Maine's
first, and "Charlie" Major, national schoolboy
champion, were present.

The band program was as

MAINE REPRESENTED AT COLBY COLLEGE

The fourth Annual Missionary Conference of Maine students was held at Colby College, where the leaders gathered to discuss the future of missionary work. It was a day filled with enthusiasm and a strong commitment to the cause.

PROF. GREEN RETURNS FROM WASHINGTON

Professor Pearl Grande of the Home Economics Department returned Monday from Washington D.C., where she attended the National Board Conference of the Agricultural Extension Service of North Atlantic Region. Some of the foremost leaders in the subject were present, and the Home Economics work addressed the delegates on various topics.

DATE SET FOR MILITARY BALL

April 9 is the date set by the Military Ball Committee for the annual Military Ball, which is one of the big formal events of the college calendar. The gymnasium will be attractively decorated and the guests will be entertained by the band. The R.O.T.C. unit will have a ball. Guests will be given a ticket with the committee at the door. The dance will be held in the gymnasium, and the theme for the evening is a “retro” one.

PREP. GREEN RETURNS FROM WASHINGTON

The students of St. Stephen’s Episcopal College, in St. Stephen, New Hampshire, have already tried to arrange a fund to start such a movement, and they have so far secured a strong group of several in the university. The epidemic is now in full swing, and it is said to be more difficult to check. Safety tips is a slogan more pertinent than ordinary at present.

What is the value of extra-curricular work? It is to the student-activity—newspapers, magazines, clubs, etc.—that the forces are applied. There is no longer an edge. It has changed its purpose from a more moral benefit to a more social one. The universities have placed additional responsibilities on these spontaneous activities, others are flitting about from one to another, and it is difficult to say what the limits of the college might be made to really live up to what was secured.

It is rather dangerous to tell anyone publicly that they have broken their word. Hurt pride always trumps the actual facts of the situation. Yet here it is anywhere to tap one on the back and remind him of another case of the same sort, without saying nothing! Each time these words are repeated, it is truly difficult to say whether they will ever stop. It is the attitude of the man who is still standing by his word, but it does not mean that he is not afraid to tell others, even if they are his friends.

The subjects have been brought up by debate in the class. They might as well have been read a passage on the subject.

What the strikers aimed to secure was a better place to live. The president, in refusing this request, said that if, upon their return from the regular spring vacation, now in session, the students refused to be satisfied with the existing Student Council, they might adopt any similar form of government they might desire, with himself as the final authority. Should they be unable to agree, he would bring about the institution of a new form of governing the school.

A few students, who departed from the school during the beginning of the spring, swore that they would never return to the campus. The majority, however, are expected to come back, to continue the strike, to allow others to take their place.

The action is something similar to the case of President Mecklenburg of Amherst College. In 1920, thirty seniors refused to accept their degrees from an institution which had denied them the option of不去college. The Student Council, however, students are anxious, not to return, but to de-serve.-

Dr. James D. L. Mason, to discuss the topic of "What is the value of extra-curricular work to the student?" The discussion was held in the gymnasium, and the audience was comprised of students from various classes. A large number of students attended the meeting, and the discussion was lively and engaging.

The annual spring dance was held on Saturday night, with a large crowd of people attending. The dance was held in the gymnasium, and the students had a great time. The music was provided by the college band, and the students danced the night away.

The Orono fire department was called out on Saturday night for a slight blaze at the Alpha Tau Omega house. The fire was confined to the yard, and there were no injuries or damages. The boys were able to put out the fire before it did any serious damage.

The students of St. Stephen’s Episcopal College, in St. Stephen, New Hampshire, have already tried to arrange a fund to start such a movement, and they have so far secured a strong group of several in the university. The epidemic is now in full swing, and it is said to be more difficult to check. Safety tips is a slogan more pertinent than ordinary at present.
DELTA ZETA INITIATES

Initiation of Delta Zeta fraternity was held at the home of Mrs. W. J. Morse in Grove, Friday, March 5.

The initiates were:
- Bernice Wentworth '25, Bangor; Katherine Griffin '25, Saratoga; Rosella Chip 29, Sedgwick; Thelma Ham '25, Unity; Barbara Lafeber '25, Belgrade;
- Helen Moore '25, Greenville Junction; Mapel Perry '25, Deering; Callie Silcox '25, Jefferson; Lillian Varney '25, Moscow; Mildred White '25, Monmouth.

The initiation banquet took place in the Jr. High School auditorium on Friday night.

JUNIOR GIRLS WIN INTER-CLASS MATCH

The final inter-class match of the girls' rifle team was held last Tuesday afternoon.

The Sophomores were eliminated in the previous round. The contact was won by the Juniors with a score of 92. The Sophomores and Freshmen made a tie score of 88.5.

The Girls' Rifle Team has been receiving much publicity recently, their pictures having appeared in several of the leading Maine and Boston papers.

The five highest scorers for the year are as follows:
- Senior: Lydia Douglas, 412 points; Junior: F. Smith, 401 points; Sophomore: A. Myers, 394 points; Freshman: G. Preble, 390 points.

The winner and highest individual score was made by Miss Lena French, who also made 23 twice, and 21 twice.

The competition was

SOPH'S TRIMMED 1929 OUTFIT IN FINAL GAME

UPPER-CLASSMEN PROVE TOO MUCH FOR TEACHINGS

"Speed" Bramson's crew of "freshmen" easily defeated this year's team by a score of 49-39 last Saturday night. The game was fast and furious with the upperclassmen being a little in the lead throughout the game. The sophomores, without Thompson, their reliable center, and Terwiller, last year's sensational guard, presented a strong lineup, with Fitchingham and Osgood, backs, Hathaways, and Brooks and Stone, forwards. Led by Bramson and Fitchingham, the sophis staged an offensive which the well-trained yearlings were unable to stop.

Hohle and Fitchingham staged a merry battle, with the latter playing a brilliant game despite the opposition furnished by the fresh crew. "Charlie" Stone went straight with Bramson at the other forward. Bailey and Thurston starred for the frosh.

Summary:
- 1929 (39)
  - Stone, rf 4 (1)
  - Hohle, r 3 (1)
  - Fitzhingham, f 3 (1)
  - Brooks and Stone, f 3 (1)
  - Hohle, r 2 (1)
  - Bailey, (1)
  - Fitzhingham, rf 2 (1)
  - Hohle, r (1)
  - Fitchingham, f (1)

One dream come true

F or the man whose Castles in Spain are built in the laboratory, here is the promise of a dream come true. In communication research, men have seen a thousand great visions in little lost tubes, hundreds of new thoughts reflected in the mirrors of galvanometers. A life-time of this work is waiting for the man who loves it, and under conditions that he has always longed for—a wealth of apparatus and materials, an abundance of knotty problems, a group of associates who are helping in the great work—these are a natural part of this far-reaching industry.

The requirements of communication call for deeper, ever deeper inquiry, and not only along electric lines but in all channels of communication, as well as all science contributing the stuff of which the researcher's dream is woven.
Decorate yourself with the degree of P.A.

That means "Pipe Amoroso" in the Latin, or "pipe-lover" in plain campus P. A. pipe has certainly endeared a pipe to more men than any other letters in the smoke-alphabet. Because Prince Albert lets a fellow smoke all he wants to—and makes him want to!

Cool as the starb of marble Venus. Sweet as the approach of vacation. Fragrant as springtime. Delightful as the approach of vacation. Fragrant as springtime. Delightful as springtime.

P. A. pipe is sold everywhere in tobacco stores, and as a free gift with all orders for the C. S. A. pipe. It's the pipe that's just right.

Resists Corrosion

This picture, taken in the salt marshes near Keaney, N. J., shows two lines of 30-inch Cast Iron Pipe running parallel to each other. The alternate exposure to the action of salt water and air is a test of corrosion.

While the pipe shown in the picture is subjected to unusual corrosive influences, all underground pipe can be able to withstand corrosion to a greater or less degree. Cast Iron Pipe has this quality. It does not corrode in soil where rusting would result; the pipe itself is rust-resistant. The first Cast Iron Pipe ever made in this country, France, after two hundred and sixty years' service.

The Cast Iron Pipe Publicity Bureau, Peoples Gas Co., Chicago.
