## FRESHMAN WEEK PLAN FAVORED BY STUDENTS

### HAS PROVED SUCCESSFUL IN THREE YEAR TRIAL, FIGURES SHOW

Practically unanimous approval of the freshman week exercises was expressed by the students of the University at the time of registration for the spring semester in February, it is announced by Dr. Harold M. Ellis, head of the English department. Student opinion on the freshman week idea, which has been in force here for the last three years, was sought by means of a questionnaire, which members of the three lower classes were requested to fill out, while a separate blank was provided for the seniors, who are the only class in college at present which has not gone through the freshman week routine.

Five questions regarding the benefits derived from freshman week were included in the questionnaire for the three lower classes. On the first question, "Do you think that freshman week benefited you for your college life?" the vote was 603 yes, 27 no.

The second question was, "Do you feel that the value obtained justified the financial expenditure involved in coming a week earlier?" The answer again was overwhelmingly affirmative, the totals showing 573 ayes and only 49 nays, a proportion of practically 12 to 1. On the third query, regarding the advisability of shortening the period of the freshman week exercises, the totals were more than five to one against a change in the present length of time devoted, the vote being 530 to 92 in favor of the present system.

A much closer result is shown on the fourth question, which asked the students' opinions on the proposition of making the week's exercises less intensive. This showed a total of 336 in favor of the present plan, with 286 favoring a change. Approval of the evening exercises also was expressed in a decisive manner in reply to the fourth query, the vote being 449 to 94 in favor of the retention of these exercises.

#### SENIORS WISH THEY HAD HAD IT

The seniors, who have seen the freshman week in operation but who did not themselves have an opportunity to undergo it, apparently regret that they arrived at the university a year too soon. They were asked to reply to this question: "Do you feel that you would have been better prepared for college life if you had had the experience of freshman week at the beginning of your curriculum?" The vote was five to one in the affirmative, the totals showing 156 yeas to thirty-one nays.

The results of the balloting are perfectly satisfactory, according to Dr. Ellis, who had charge of the referendum. The number of students who assented to express their opinions on the questions was especially encouraging, the total vote of over 800 out of a total registration of approximately 1100 in the four classes being the biggest cast in any election at the university for many years. Many suggestions for the improvement of freshman week were made by the students who have experienced its benefits, and it is probable that some of these will be adopted for use next fall.

Freshman week was first instituted at the University of Maine by President Little, in the fall of 1923 as a means of "orienting" the entering class to the ways of college life before the arrival of the upperclassmen, and also to give the members of the faculty an estimate of the individual abilities of the new students. Its success here has led to its adoption by several other colleges throughout the country during the past two years. While from the point of view of the faculty the experiment has been satisfactory, no expression of student opinion has been available up to this time. The unqualified approval shown by the present balloting undoubtedly will result in the establishment of freshman week as a permanent institution at the university, its birthplace.

## 134 NAMES ON DEAN'S LIST

### 38 Freshmen Among Those Winning Honors at Mid-semester

The names of 134 students appear on the Dean's List for the last half of the spring semester made public at the re-opening of college Monday. Of these, 38 are members of the freshman class.

A secondary honor list made up of the freshmen who have attained C grades in all their subjects for the first half of the semester contains 93 names.

The following is the Dean's List for the last half of the spring semester, covering the period from April 5 to the end of the spring semester.

#### COLLEGE OF ARTS AND SCIENCES

Amy B. Adams, Patten; Pauline Aiken, Bangor; Alice E. Arnold, Portland; Harold Ballou, Greenfield, Mass.; Edith A. Beal, Bangor; Mary C. Belinian, Bangor; Hervey F. Bowden, Brooks; Ada Cohen, Bangor; Louis Cohen, Swampscott, Mass.; Blandena C. Couillard, Bangor; Merrill H. Doocy, Brewer; Joseph R. Dougherty, Bangor; Wilhelmina Dunning, Topsham; Evelyn A. Farris, Brewer; Abba C. Fernald, Winterport; Waldron E. Fernald, Boothbay; Hilda F. Ginsberg, Old Town; Ernest H. Grant, Washburn; Edward R. Hale, Castine; Carl M. Harmon, Buxton; Edith G. Hoyt, Yonkers, N. Y.; Sylvia M. Kurson, Bar Harbor; Jos. H. Lobley, Bangor; Marion E. Lord, Kezar Falls; Everett F. McCann, East Millinocket; Donald F. McGary, Bangor; Kenneth W. MacGregory, Brockton, Mass.; Mary A. McGuire, Stonington; Annette S. Matthews, Hampden; Harold A. Medeiros, Vanceboro; Edith C. Merchant, Walnut Hill; Walter P. Morse, Houlton; Fred H. Moulton, North Jay; Carroll P. Osgood, Orono; Helen Page, Lincoln; Clara W. Peabody, Portland; Emily Pendleton, Dark Harbor; Ada Peters, Bangor; Willis Rollins, Bangor; Clara E. Sawyer, Searsport; Florence L. Smith, Grand Manan, N. B.; Earle M. Spear, Warren; Harry Stern, Bangor; Dorothy Q. Taylor, Springvale; Esther L. Thompson, Bangor; Iva S. Waring, Orono; Wilbert E. Wentworth, Freedom; William J. Whited, Houlton; Carroll F. Wilder, (Continued on Page Four)

## MAINE RECOGNIZED BY NEW DEBATING LEAGUE

### MANAGER SCOTT ELECTED VICE- PRESIDENT OF NEW ENGLAND ORGANIZATION

With the election of Manager Robert F. Scott of the Maine Debating team as vice-president of the New England State College Debating League, recognition was given to the University at the first conference of the League held in Cambridge, Mass. on April 3. Manager Scott was the local delegate to the convention, which was attended by debating managers and coaches of the New England colleges and universities.

Other officers elected for the ensuing two years were: President, Prof. H. Churchill, Rhode Island State College; Secretary-Treasurer, Prof. Celian Ufford, New Hampshire University. The three officers also comprise the executive committee of the League.

A convention of the League is to be held biennially, and on alternate years the executive committee is to meet for the purpose of selecting questions to be debated the following season.

The convention of last Saturday was the first of its kind ever held in this part of the country, and resulted in the solving of several problems common to all the institutions represented. It marks another step in the strengthening of relations between the New England colleges, which are already closely bound in athletics by the State College Conference and in journalism by the New England Inter-collegiate Newspaper Association of which the Campus is a member.

## DEBATERS END SEASON, DEFEAT MIDDLEBURY

### LOST TO VERMONT PRECEDING WEEK 2-1 DECISION

The University of Vermont debating team won a two to one decision over the Maine team on Thursday evening, March 18. The question for discussion was: Resolved, that the federal government should own and operate the coal mines. Vermont supported the question.

The Vermont team was composed of William J. Herron of Saranac Lake, N. Y., Fred W. Guild of Lebanon, N. H., and Joseph J. O'Connell of Saranac. Robert C. Stewart '26 of Cambridge, Mass., Edward A. Merrill '29 of Old Town, and Horace S. Atwood '28 of Calais represented Maine.

The judges were Judge A. G. Averill and A. H. Brown, both of Old Town, and Rev. A. M. Little of Bangor. Prof. Mark Bailey presided.

Maine defeated Middlebury College in the last debate of the year on Thursday night, March 25, in the University chapel, the judges' decision being 2-1. The Maine negative team, Stewart, Merrill, and Atwood, supported the negative of the coal question, while Dana S. Hawthorne '26, E. Marion Reighard '27, and William T. Hade '26 represented Middlebury. Dean J. S. Stevens presided. The judges were James W. Sewall and Willard O. Chase of Old Town, and Prof. Marion F. Bradshaw of Bangor Seminary.

The Debating Society offered prizes of boxes of candy to the holders of the lucky seats at this debate. The crowd was slightly larger than has turned out for earlier debates.

## COACH BRICE AGAINST FORWARD PASS RULE

### FAVORS ALL OTHER NEW FOOT- BALL REGULATIONS

The changes in the football rules recently made will have little effect on the game from the viewpoint of the spectators, according to Coach Fred M. Brice in commenting on them.

The regulation regarding outside play which has been incorporated in the rules will not affect the university eleven in the least, Coach Brice said, since it has been enforced here as a ground rule for several years. This is the rule giving the ball after it has gone outside, to the team which touched it last on the field of play.

The forward pass rule, imposing a five-yard penalty on a team for each incomplete forward pass after the first does not meet with the approval of the Blue mentor. "If a team is fighting for a touchdown in the last few minutes of a game, and is penalized for failing to complete its second pass, the chances are that it will attempt to regain the lost ground with another pass, rather than that it will attempt to rush the ball," Coach Brice said. "I do not believe that the new rule will prevent a team from passing wildly in hopes that one of its throws will be completed for a long run. Also the crowd likes the desperate passing game, with the suspense that goes with it and the possibility of a long dash for a touchdown as a result of a completed pass."

The Maine coach gave his unqualified approval of the regulation aimed to prevent the intentional safety. He expressed disappointment, however, that the rules committee had not seen fit to enact a regulation that would declare a man down as soon as he was tackled and the ball was grounded. This, Brice claims, would prevent the pile-ups caused by the man carrying the ball trying to crawl on a few feet more toward his opponents' goal.

## BASEBALL MEN WORKING DAILY

### Squad Cut to 29--First Game With Colby, April 19

Maine's diamond artists have returned from their vacation and have again settled down to work in the new Indoor Field. Coach Fred Brice swung the axe Monday, and has cut the squad down to twenty-nine players, who are working in shifts as before, thirteen reporting on Monday, Wednesday, Friday, and Saturday, and the other sixteen on Tuesday, Thursday, and Saturday. Of these, four are catchers, eight pitchers, ten infielders, and seven outfielders.

With the opening game with Colby only two weeks in the offing, Brice is putting his charges through some stiff sessions these days, and the boys are getting plenty of real work in preparation for the not-so-distant opening of the season. The Monday-Wednesday squad consists of all the letter men and a few of the most promising recruits; in other words, Team A. These players are being worked particularly in hitting practice, with the twirlers now serving up a few hooks mixed in with the straight ones in order to get the hitters in as good form as possible until the squad is able to get outside, which event will not occur for at least two weeks yet, by the looks of snow-covered Alumni Field. It is highly probable that the Bears will go into their first game without having had any outside work at all, the new Indoor Field being a God-send in that infield work and hitting can be carried out inside.

The issuing of mid-semester ranks caused the loss of only one man due to ineligibility and the gain of one. Hammond, the big first-sacker, will be unable to play this year, but Hamilton, the leading candidate with Peakes for the catcher's position, was able to clear up his scholastic difficulties and will be in action without the cloud over his head from now on. The loss of Hammond leaves "Freddie" Newhall, Sanborn, and Ridley as the only contestants for the job at the initial sack, with the former having the edge due to his being the veteran of the trio.

Gay and Nanigan are still waging a hot scrap at second base, while Durrell (Continued on Page Three)

## FRESHMEN NINE TO FACE HARD SEASON

### 60 MEN REPORTING AT INDOOR FIELD AS CANDIDATES FOR TEAM

The freshman baseball squad is practicing daily in the cage under the direction of Physical Director Wallace. Sixty men are working out for positions on the team. The freshmen practice from 5.15 to 6.45, thus making it necessary to play under the electric lights. Owing to the varsity's use of the field in the early afternoon, this is the only way available.

The squad has been divided into two sections, each practicing every other night. There is about an equal number of candidates for each position, allowing all to get their chances at playing. The outfielders hold only batting and passing practice, while the infielders have ample opportunity to dodge hot grounders and to take their turn at bat also. No games have been played as yet, but one will probably be tried in the near future.

Schedule for the team is as follows:

Apr. 24 Coburn, Home  
Apr. 28 Brewer, Away  
May 1 Millinocket, Home (Pend.)  
May 5 Kent's Hill, Home  
May 8 Hebron, Home  
May 12 Higgins, Home  
May 14 Coburn, Away  
May 19 Brewer, Home  
May 22 Foxcroft, Home  
May 26 M.C.I., Home  
May 29 Higgins, Away  
June 5 M.C.I., Away  
June 7 New Hampshire, Away

## PROFESSOR POLLARD EXPLAINS WORKING OF POINT SYSTEM

### IS PLANNED TO PREVENT MONOP- OLY OF POSITIONS BY FEW STUDENTS, HE SAYS

#### ARGUMENTS FOR ADOPTION

### Will Give More Students Training In Leadership, Is Claimed

The Campus has received the following letter and communications from Prof. L. J. Pollard regarding the proposed Point System.

Editor of The Campus,  
University of Maine  
Campus.

Dear Sir:

In the March 11th issue of the Campus, under Scoop's Corner, there was reference made to the Point System. One of the statements made was that the Men's Student Senate and the Point System are evidently not on speaking terms with each other.

Shortly after the organization of the Men's Student Senate this year, delegates were called from different organizations upon the campus to meet at the M.C.A. building and there to discuss the proposed Point System. After some discussion the delegates moved that the Point System in general was a good thing but they felt it must be explained to each of their respective groups and they voted to have the chairman of the Point System Committee visit each group and explain the System. As chairman of the committee I have visited several fraternities, but very few questions were asked and there was no discussion, at that time. I am submitting to each organization on the campus a number of mimeographed copies of the proposed Point System. I am also submitting mimeographed copies of my talk which has been delivered and would be delivered to the different organizations.

It is impossible for me to get to every organization in time to have anything done constructively by the Student Senate and Girls' Student Government. I will be glad to meet with any group at any time should they wish special discussion upon this subject. I am enclosing a copy of the mimeographed talk and of the positions as we have them now in the Point System.

Yours very truly,  
(Signed) L. J. Pollard  
Chairman of the Point System  
Committee

#### THE POINT SYSTEM

The Point System is a method of administering extra-curricular activities to give a larger number of students an opportunity for training in leadership and to prevent an over-zealous student from taking more activities than is consistent with good scholastic standing.

A Point System properly administered will strengthen every organization on the campus in the fact that it increases the number of students taking part in activities and prevents to a large degree the duplication so evident where a few students control many activities. Some students are perfectly willing to take more activities than they can consistently handle, thus either injuring themselves from a scholastic standing or not fulfilling their duty to every organization in which they hold important positions. Some may argue that these men are more capable of doing the work of several men than is the average student on the campus of doing the work of one man. This may be true in some cases; but the cases are so few that the legislation on a matter of this kind should be for the average student and not for the genius, and especially not for the self-admitted genius.

Interest in any organization in the University itself increases when there is an opportunity to serve that organization of the University. If we increase the number of individuals who are serving any organization and divide the load of responsibility among a large number (Continued on Page Four)

## Just College

After having said so much against the way in which a college student conducts himself; and after having realized that the only thing accomplished was a filling of space and the drawing out of a gruff growl from unbelievers, it seems better to try something else—for variety.

For after all college is college. It never will be heaven, and yet there is little of our lives that will ever be more so. For now we are having the most carefree, enjoyable time we could hope for. Our restrictions are few, and even those are at the will of student to make or break. He may go to class, but he can stay away if he will, and not suffer arrest nor severe penalty. He is surrounded by congenial friends, and has ample opportunity to indulge himself in whatever fancy he will. But the point is that college can not be termed a mere interlude, devoid of all effect upon the future. For we are forming now the habits of a lifetime.

If we are now conscientious in our studies, so will we be industrious in our future works. If we are now honest with ourselves and others, we shall have laid firm a foundation for future dependableness. If we are now clean-minded, so will we be hereafter.

We cannot consider a college career as a mere lark, from which we may emerge without trace of what we have done here. In fact, in this respect, college is a proving fire, wherein the baser metals are either burned out and the pure ore rises to the surface, or there proves to be nought but the slag within the ingot. We none of us want failure. We all feel confident of a fair measure of success. Yet do we realize that we are paving the way for that success or failure right now.

So while we laugh at imposed tasks and worship the god of procrastination, secretly vowing to renounce him afterward, whom are we fooling? We are fooling him whose life we are living. Ourselves.

It is psychology that each deed that we do leaves its trace in the nerve systems of the body. We are all of us in a measure like phonograph records. Our deeds are recorded and remain in us to be recalled whenever the proper needle is put on. Thus when we mix truth with falseness we get the same mixture in return, when at some future time we wish only to have the good. It is too much part of us.

Yet it is also psychology, and less similar to the phonograph record, that each time we perform an act, the repetition of that act is in some degree facilitated. So it is undeniable that we are not idly throwing straws into the stream, to be carried away never to return. We are either throwing in rough stones which will hinder the progress of the stream, or are widening and dredging the channel with a view toward a more perfect flow.

## Home Again

The Kappa Sigma Fraternity have returned to a newly remodeled house in Fraternity Row. It has been a year since the fire which destroyed the top story and soaked the entire structure with water. Since then they have been living in the dormitory.

The house has been enlarged with wings on the south and north, and the whole interior has been redecorated. The house now is built after the Colonial style of architecture, the policy decided upon by the university architects for all buildings erected upon the campus. It is a distinct addition to the beauty of the college grounds. The Fraternity is to be congratulated.

## Rev. James F. Albion to Deliver Baccalaureate

Rev. James Francis Albion, pastor of the Brunswick Universalist church will be the baccalaureate speaker at the Commencement exercises in June, Acting President H. S. Boardman has announced.

Dr. Albion is a graduate of Tufts College in the class of 1887, and has degrees of Bachelor and Doctor of Divinity from the Divinity School of that institution, the latter degree having been awarded in 1903. He has been the minister of churches in Palmer, Fitchburg, and Malden, Mass., and also was pastor of the Congress Square Universalist Church of Portland.

The baccalaureate exercises will be held on Sunday, June 13.

## M.C.A. Elections

At the annual business meeting of the Maine Christian Association, which was held at the M.C.A. Building on Tuesday night of this week, the following officers were elected to head the work for the coming year: Henry O. Trask '27, president; Cyril G. Cogswell '27, vice-president; Maurice E. Leavitt '29, secretary; and Richard C. Dolloff '27, treasurer. Under the new constitution of the Association adopted last year, the president will appoint the chairmen of the various standing committees. The new officers and cabinet members will be installed on Tuesday night, April 13.

Chapel goes on March 18 were privileged speaker from the west is the person of Dean A. A. Potter of Purdue University, Indiana. Dr. Potter took as his keynote "Success." A college education is a tool to enable an individual to attain success but it is not enough, he said. Our real education lies before us in the work-a-day world. Dr. Potter advised the students to obtain the Master's degree before beginning their life work. He emphasized the value of real friendships in life. He declared the fraternities were open to criticism because the members did not always live according to the high ideals of the fraternity.

In conclusion Dr. Potter enumerated certain qualities necessary for success: courage, honesty, faithfulness and persistence.

Dr. Potter is president of the American Association for the Advancement of Engineering Education, and is one of the outstanding technological educators of the country.

## Tech Inspection Trip

Sixty-four seniors of the College of Technology took part in the annual inspection trip to Boston and vicinity during the week preceding the Easter recess. Engineering and industrial plants in greater Boston and Worcester were visited on the trip.

The party was accompanied by Professors Brautlecht, Kent, Sprague, Lyon, and Barrows of the Technology faculty. Eighteen chemicals, 16 civils, 15 electricals, and 15 mechanicals made the trip.

Word was received at the University recently of the death of Ruel A. Leavitt of Phillips, Maine, a member of the Class of 1929. Mr. Leavitt was obliged to leave college at the end of the Fall semester because of an operation. Complications set in and he died at home on March 22.

## ORGANIZATIONS

Θ X

An informal party was given by Theta Chi fraternity, Saturday evening, March 20, at the chapter house.

It was the annual St. Patrick's dance. Program for the evening included square and confetti dances. Refreshments of chicken patties, ice cream, cake, coffee, and punch were served. Music was furnished by Kane's orchestra.

The chaperones were the matron, Mrs. Moulton, and Prof. and Mrs. Smith.

Α X Α

Lambda Chi Alpha held an informal dancing party at the Penobscot Valley Country Club Friday, March 19. Mr. and Mrs. Paul D. Bray were chaperones and Lieut. McKee sponsored the party.

Saturday, March 20, the annual initiation banquet was held at the Penobscot Exchange Hotel, for the following initiates: Harold E. Brown, '29, Bath; Winfield S. Niles, '29, Rumford; S. Gordon Winch, '29, Sanford; Neil S. Bishop, '27, Bowdoinham; Reginald E. Darvil, '29, Sanford; Arthur L. Grindle, '29, Lincoln; Manning A. Worthley, '29, Auburn; Wendell E. Mosher, '29, North Jay; Nicholas G. Hodgman, '29, Portland; Garfield G. Young, '28, Stillwater.

Θ Φ K

Theta Phi Kappa held its initiation at the chapter house Monday, March 22. The initiates were: Francis G. Fitzpatrick, '28, Houlton; Louie Arioldi, '29, Lee, Mass.; John B. Lynch, '29, Bangor; Francis B. McCormick, '29, Pittston; Albert J. McGee, '29, Portland.

Φ Η K

Phi Eta Kappa fraternity held an informal party, Friday evening, March 19. Rice's orchestra furnished music for an order of fourteen dances.

Refreshments of fruit salad, toasted crackers, coffee and punch were served during the evening.

Chaperones for the party were: Mrs. Louise R. Verrill, Prof. Elmer R. Hitchner, and Prof. and Mrs. M. S. Douglass.

Σ Α Ε

Sigma Alpha Epsilon fraternity gave an informal dancing party Friday evening, March 19.

The house was attractively decorated, each room in a different color. Music for an order of dances, including a Paul Jones, was furnished by the Troubadours.

Refreshments of sandwiches, coffee, cake, ice cream and punch were served during the evening.

Chaperones were Mrs. McCollum and Professor and Mrs. Talbot.

At a meeting of the Phi Kappa Phi honorary society held Thursday evening, March 18, in Wingate Hall, three seniors and three members of the faculty were initiated according to the impressive ritual of the society. The members of the senior class were Cora Ellen Emery of Bar Harbor, Carl Milton Harmon of Buxton, and Emily Pendleton of Dark Harbor. Faculty initiates were Dwight B. Demeritt, assistant professor of forestry; William S. Taylor, professor of philosophy, and Albert M. Turner, associate professor of English.

Dean J. S. Stevens, Past President General of the national society, made a report on the Kansas City convention, which he attended as one of the delegates from the Maine chapter. This was followed by a lengthy business meeting and refreshments. Only ten members of this year's class have been able to meet the high standard of admission fixed by the society.

Phi Kappa Phi was founded at the University of Maine in 1897.

A regular meeting of the Contributors' Club was held Thursday, March 18, in the Arts and Science Building. The following contributions were read and discussed: *The Ballad of the King's Son*, by Dr. Ellis; *Dreams, a Ballad*, by Sylvia Kurson; *Misery*, a poem by Miss Buzzell; and an essay, *Florabelle*, by Prof. Zeitler.

A meeting of the "M" Club was held Wednesday evening, March 17, at Alpha Tau Omega. There were few members present, but ways were discussed in which they could bring back the spirit that formerly existed within the club. Finances were also considered.

JUNIOR WEEK PLANS  
PROGRESSING RAPIDLY

Junior Week plans are progressing rapidly. The committee plans to make this one the "best ever."

The play, Wilde's "The Importance of Being Earnest", to be given by the Masque April 29, promises to be a laugh from start to finish. It is built around a mysterious fellow called Ernest, with whom two of the women characters in the play fall in love. Later developments prove Ernest is a mythical character and thus other complications arise.

An experienced cast has been chosen.

John Worthey Kenneth McGregory  
Algernon Moncrieff Alton Foster  
Rev. Canon Chasuble J. Hobart Pierce  
Merriman Oscar Birch  
Lane Edward Merrill  
Lady Blacknell Serena Wood  
Hon. Gwendolyn Fairfax

Helen Peabody  
(Josephine Patterson, understudy)  
Cecily Cardew Anna Stinchfield  
Miss Prism Marion Lord  
Dean Stevens is to be the speaker at Junior chapel Friday. The committee hopes to have the periods shortened that day so that everyone may attend.

The Maine Instrumental Clubs will leave Tuesday, April 13, for a tour of Aroostook County. The schedule includes a series of concerts, the first of which will be given at Houlton Tuesday night, the second at Presque Isle Wednesday, and a third Thursday night at Caribou. There is a slight possibility that a concert may be given in Milo, though final arrangements have not been made. They plan to return Friday to the campus.

The Maine Outing Club is about to possess a camp of its own. At the last meeting, March 17, it was decided to purchase the Walker Lumber Camp on Chemo Stream, and to lease a suitable amount of land around the camp.

Professor Zeitler announced that he had leased a camp, also on Chemo Stream for his own use; but that groups of six or seven at a time would be welcome to use it week-ends, provided that he be notified three or four days beforehand. This camp is supplied with dishes and blankets and will be ready for use in April.

The club is now conducting a membership drive. Every member is expected to try to get four new ones.

There was a meeting and smoker of the A.S.M.E. Thursday night, March 18, in 305 Aubert Hall. Dr. A. A. Potter, Dean of the Schools of Engineering at Purdue University was the speaker of the occasion, the subject of his talk being "Engineering and Human Progress during the Past Fifty Years."

During the evening Sidney Coleman announced the election of nine new junior members to Tau Beta Pi, honorary engineering fraternity. They are:

Raymond E. Tobey, Kittery Point; Henry Welch, Portland; Joseph Wurafic, Portland; Louie H. Smith, Vinalhaven; Gaylon H. McGowan, Island Falls; Linwood S. Cotton, Cumberland Mills; Watson B. O'Connor, Bangor; Henry R. Beatty, Boston, Mass.; Milton H. Clapp, Bangor.

After the speaking refreshments of ice cream and cookies were served and smokes were enjoyed.

The M.C.A. considers itself unusually fortunate in being able to have for a speaker next Sunday evening, Mr. Harry S. Warner of Washington, D. C. Mr. Warner is a graduate of both Chicago and Columbia Universities, and is a keen student of undergraduate problems. His subject is "America's Greatest Social Problem." The meeting will start promptly at 6:45, in the M.C.A. Building.

The annual spring initiation of Pi Beta Phi sorority took place at the home of Dean and Mrs. James S. Stevens, Saturday morning, March 20. The initiates are: Catherine Buck, Bangor; Ruby Carlson, Monson; Marguerite Marston, East Brownfield; Alice Muzzy, Greenville; Carolyn Peasley, South Gouldsboro; and Hazel Sparrow, Gardiner.

The initiation banquet was served Saturday evening at the Penobscot Valley Country Club. Dorice Bennett, the president of the sorority, acted as toastmistress. Rena Campbell, Pearl Woodard, Lucille Smith and Flavia Richardson were back for the occasion. During the banquet a message was received from Delta Delta Delta sorority carrying greetings to the Pi Phi's at their banquet.

Easter and Christmas are the seasons at which even the irreligious are religious. If it should come to a showdown, leaving out the element of gift giving, Easter would probably take the honors for being the most religious of the two. The crowds of people filing off to church at this time, through mud and snow, make one realize that we must be essentially a God fearing people even if our protests to starting class work on Easter Monday are founded more on motives of indolence than religion.

Did you ever wonder what the other fellow's religion is like? Perhaps he was born in a religious home—if it was a hypocritically religious home and he was periodically hustled off to church and Sunday school as a matter of form then his religion today may be a minus quantity; however, if his was a Christian home, meaning fundamentally religious, then he may take his religion as a matter of course, never doubting the existence of a God or the story of the Resurrection; just somehow feels it and lets good enough alone as far as controversy over small details are concerned.

Perhaps the supposedly irreligious fellows reason something like this: "If we do not profess a Supreme Being and a Hereafter we cannot tell what might happen to us, to be safe we had better profess something. Anyway, by professing Christianity and making ourselves believe it we have nothing to lose and perhaps a lot to gain."

By way of summary, the other fellow's religion may fall under these three classifications: the Hypocrites, the Christians, the Religious Shylocks. Most likely the preachers know this and take it into account as they look down from their pulpits and formulate their Firstlys, Secondlys, and Thirdlys.

After all what does all of this preaching and pulpit pounding amount to outside of following the Apostles' example of teaching the Gospel and converting the heathen. Heathen excepted, "let every man for himself and the devil take the hindmost," as far as preaching is concerned. Group devotional service is another matter, it strengthens the faith of the individual.

Scrutinize this: This game of life is supposed to be the survival of the fittest. Then why not let the carousers carouse and be wiped from the face of the earth if carousing makes one unfit; let the disbelievers disbelieve and be damned. If the people who live the conservative lives are the stronger they will survive and become still stronger and better fitted to live and suppress the immoral people. Legislate only where the weaker person's conduct interferes with other peoples' affairs. Beyond that let him look to himself; if he wants to go to the dogs, let him and good riddance.

A good philosophy, that, and it would work if it could be applied generally, but it cannot. If all people were either strong or weak it could be applied but too many of us are intermediate. Therefore, if the weak were encouraged to go to the dogs they would drag too many of us intermediates with them. We could never keep the weak entirely to themselves. "There is too much good in the worst of us and too much bad in the best of us, et cetera."

To get back to religion of which we know so little and of which we can say so much. Perhaps we are not supposed to know anything about it and the future. If we did then there would be no reason for having Faith. All we would need would be common sense enough to grasp facts and that might lead to unendurable monotony and also terrible things. For

(Continued on Page Three)

## MAINE PROFESSOR TO TEACH AT HARVARD

Dr. William Sentman Taylor, Professor of Philosophy at the University, will teach at the Harvard University summer session this year and will give, in addition to other work, a course in Abnormal Psychology. The work in this course will be based upon a book of readings which he has recently prepared and is entitled "Readings in Abnormal Psychology and Mental Hygiene." It is expected that the text, which is being published by D. Appleton and Co. of New York, will be off the press in time for the summer session.

Dr. Taylor was graduated from Gettysburg College in 1916 and received his Doctor's degree from Harvard in 1921. Before coming to Maine, he was Lecturer in Psychology at Bryn Mawr College and Instructor in Philosophy at the University of Wisconsin.

This is the second time within two years that the local institution has been represented on the Harvard summer teaching staff. Last year, Dr. John W. Draper of the Department of English gave two courses at Harvard.

## Senior English Majors Won High Rank in Exams

Announcement of the high ranking students in the senior English major examinations which were held recently has been made by Dr. H. M. Ellis. The averages were attained by a combination of the marks in the three tests which made up the examination; an oral test, a written examination, and a composition test.

Emily Pendleton of Dark Harbor received the highest mark of the eleven seniors to take the examination. The next five, in order of rank, were: Pearl Roberta Graffam, Bangor; Eleanor Gertrude Ringdahl, New Sweden; Frances Mae Willets, Bangor; Marjorie Edna Johnson, Bailey Island; and Ivan Martelle Wood, North Anson.

The major examinations, although not affecting a student's chances of graduation, are planned to show his knowledge of the work which he has taken in the English department during his four year course.

## IMPORTANT NOTICES

The attention of students is called to the fact that they are expected, if possible, to present excuses in advance of the date on which they are obliged to be absent from classes. In case of sickness or when for any other reason this is not possible the excuse should be presented immediately upon return to college work. Excuses presented more than two weeks after the absence has occurred will not be considered by the Deans unless the circumstances are unusual.

There will be a meeting of the heads of all organizations on the campus at the M.C.A. building on Wednesday evening of next week at 7 o'clock. Several important matters of common interest are to be taken up, and it is essential for all to be in attendance.

Student speakers held the floor at Vesper Services Sunday evening, March 21. The subject was the Student Volunteer Conference held at Colby recently.

### SCOOP

instance, if we knew that there was a pleasant Hereafter and no Hell fire there would be self destruction everywhere at the slightest provocation. There would be no signs of ambition, life would be a listless existence. Draw on your imaginations for other absurd conditions.

Enough words have been written to fill a column and no definite conclusions have been drawn, but can you honestly say that you have ever drawn any definite conclusions in religious matters?

Admission, 35 cts.

## They call it the "Pierce Type"

R. T. PIERCE

When the class of '15 at Maine was being graduated, the name "Pierce" meant no more in the field of metering than Sweeney

or Jones. Today, however, if you'll talk to such companies as the Detroit Edison Company, The Southern California Edison Company, the Duquesne Light Company, or the United Verde Copper Company, you'll learn that "Pierce" means a type of remote metering, which enables a man in a central dispatcher's office to read the condition of a sub-station several miles away.

Superpower brought in the need for an improved method of remote metering, and R. T. Pierce, Maine '15, in the employ

*The question is sometimes asked: Where do young men get when they enter a large industrial organization? Have they opportunity to exercise creative talents? Or are they forced into narrow grooves?*

*This series of advertisements throws light on these questions. Each advertisement takes up the record of a college man who came with the Westinghouse Company within the last ten years or so, after graduation.*

of Westinghouse, devised it. He designed a system that operates on a new and different principle, and that has met with general acceptance in the Central Station field. He also was active in the recent re-designing of the entire Westinghouse instrument line.

It was only a few months after Pierce had completed the graduate student course at Westinghouse that he was given an assign-

ment in the instrument section of the engineering department. He took it merely as a "fill-in" job. Soon he saw that instruments play a vital part in every electrical operation. As an instrument engineer, Pierce spent several weeks on the U. S. S. Tennessee and the Colorado during their trial runs. He has ridden in the cabs of electric locomotives. He is in closer touch with radio than anyone not a radio engineer.

A design engineer comes continuously in contact with sales negotiations, and Pierce's contact with them proved so beneficial that he was lately made head of the Instrument Section of the Sales Department, which means that he really has charge of the sale of all instruments to Westinghouse customers.

## Are You Going Into the Bond Business?

There is a cycle of fashion not only for the hats college men wear but for the line of work into which they go.

But your job has to fit your head as well as your hat, for it has to fit your state of mind.

Like your hat also, your job needs to fit your purse.

Therefore, why not choose one that brings not only satisfaction in service but in financial return.

Selling life insurance is one of the few modern businesses that does just this.

It takes:

**Intelligence, Zest and Ability**

It gives:

Liberty of action, the philosophic satisfaction of selling future security and present serenity to living people, and a response, immediate and tangible, in monetary as well as mental reward.

Complete and confidential information, without any obligation on your part, can be obtained by writing to the Inquiry Bureau, John Hancock Mutual Life Insurance Company, 197 Clarendon Street, Boston, Massachusetts.

**Professor Pollard Explains Work-  
 ing of Point System**

of individuals the interest will be increased proportionally.

Some may argue that if a Point System is adopted it will mean that some students will be deprived of holding certain positions because they are prevented from holding more than a certain number of positions at any one time and that it is not right to deprive any student from being a candidate for election for any position when he is doing efficient work in any other activity. In life outside of the University we find this rule holds true. When a governor of a State becomes President of the United States, he resigns as governor. He is, therefore, deprived as President of the United States of holding the position of governor. The same holds true with senators, congressmen, and in fact all important offices. It is true that in some very small communities one man may be elected to and hold efficiently all the public offices. It also holds true that in some colleges one or two students may hold a great many important offices without injuring themselves or the activities. Such an institution, however, would have to be a rather small college. If the extra-curricular activities of the University of Maine are to develop to their fullest extent they should demand that some men and women give all of their time outside of class room work to that development. They should demand that these students shall not divide their attention and time among many activities and thus make the many activities mediocre in their ability to serve the University.

It has been argued by some students that politics make it impossible for a Point System to work efficiently. Politics will have no effect upon the Point System and the Point System will have very little effect upon politics. If the leaders of the University student body wish to wipe out undesirable politics they may do so by cooperating with each other for a cleaner and better political life.

It is not the object of the Point System to limit the service which can be rendered by any individual student but as has been before said to give more students the opportunity for training in leadership and to prevent the over-zealous student from taking part in more activities than is good for the activity or for his own personal self.

**PROPOSED CLASSIFICATION  
 FIRST CLASS POSITIONS**

One position in this class may be held at one time, and no other positions listed under the second and third classes.

Manager—In Season—Varsity, Baseball, Basketball, Cross Country, Football, Relay and Track teams.

Editor-in-Chief—Prism.

Managing Editor—Campus.

**SECOND CLASS POSITIONS**

Two such positions may be held at a given time, or one second class and two third class.

President—Girls' Student Government, Student Senate, Intra-Mural A. A., Senior Class, Junior Class, Senior Skulls and Sophomore Owl Societies, Athletic Association, Girls' Athletic Board, M.C.A., Y.W.C.A., Rifle Clubs, Track Club, Masque, Balentine, and Mt. Vernon.

Manager—Girls' Hockey, Girls' Basketball, Instrumental and Glee Clubs, Band, Rifle Clubs, Tennis, Freshman teams.

Editor-in-Chief—Mainiac, Maine-Spring, Campus.

Business Manager—Prism, Mainiac, Maine-Spring, Campus.

Members—Girls' Hockey, Girls' Basketball, Varsity Baseball, Basketball, Cross Country, Football, Relay, and Track teams. Freshman athletic teams, Debating teams, Head Cheer Leader, Casts for Plays.

Leader—Instrumental Club, Glee Club.

**THIRD CLASS POSITIONS**

Four such positions may be held at a given time.

President, Secretary, or Treasurer—Instrumental and Glee Clubs, Intra-Mural A. A., Sophomore Class, Freshman Class, Alpha Chi Sigma, Scabbard and Blade, Xi Sigma Pi, Kappa Gamma Phi, Phi Sigma, Kappa Phi Kappa, "Heck," Home "Ec," Latin, Mathematics, Mechanical and Spanish Clubs, Debating Council, North Hall.

Candidates for Manager—Varsity Athletic Teams, Freshman Teams, Girls' Athletic teams.

Cabinet Members—M.C.A., Y.W.C.A. Staff Members not Mentioned Above—Campus, Maine-Spring, Mainiac, Prism.

Officers other than President—Senior Skull and Sophomore Owl Societies,

Senior and Junior Classes, Balentine, Mount Vernon, Girls' Student Government.

Committee Members—Senior Class Day, Senior Ball, Senior Cane, Junior Prom, Junior Week, Sophomore Hop, Freshman Banquet, M.C.A. Hand Book.

Members—Rifle Clubs, Instrumental and Glee Clubs, Band, Asst. Cheer Leaders, Tennis Teams.

Fourth Class Positions—Any number of fourth class positions may be held, also fourth class positions may be held simultaneously with positions in any other class.

Officers and Members—Not listed in any other class.

**METHOD OF ADMINISTRATION**

The administration of the system shall be by the Student Senate and Girls' Student Government in cooperation with the Faculty Advisory Committee.

The classification of positions will have to be revised from time to time. To do this each organization affected by the system shall appoint two delegates. The delegates shall meet at a call of the Student Senate and the Girls' Student Government and have the suggested changes presented to the body of delegates. The delegates shall then return to their respective bodies and each organization shall by a vote instruct its delegates to vote for or against any suggested changes. A second meeting of the delegates shall take place one month after the first meeting and a vote of the delegates will be taken at this time on the suggested changes.

The committee at this time asks for the students to go over the classification of positions very carefully and recommends that each student make any changes that he or she believes would be beneficial to the system. The chairman of the committee will meet every group, as far as possible, to explain and discuss the system in general.
