CLASS FRICTION ENDS WITH RISING NIGHT

FRESHMEN REVEL IN NEW FOUND FREEDOM

The friction between the two lower classes of the University is now a past issue since the classes met in a decisive battle on the banks of the Stillwater last Thursday evening. It was rumored also that several wounds were opened and healed throughout the day at the various fraternity houses. However, the rope pull and fight began at 8:30 o'clock.

The participants took their positions early—the Sophomores up stream and the Freshmen down stream—and were eager to start. Large bonfires on each side half lighted the anxious groups. It was evident that '29 far out-numbered '28. Several co-eds, upper-classmen, and townspeople gathered on the lower side

NEW COACH IS ELECTED

"Bill" Kenyon Chosen By Trustees

William Kenyon was elected coach of freshman football, baseball, and basketball for the next three years by the board of trustees last Friday. "Bill" is well known to local athletic fans, having been player-manager of the Bangor baseball team during the past season and played on the Millinocket team for several years. His last season's average, which was better than .400, led the Maine League.

Kenyon played for three years under Coach Brice at Manchester and played with Coach Quinn at Georgetown University where they were both selected for all-southern positions. Three years ago he was one of the most talked of athletes in the East. Entering George-

MAINE GETS FIFTH IN NEW ENGLAND TRACK MEET LAST SATURDAY

M.I.T. WINS—BOWDOIN RUNNER UP

Hobson and "Sam" Thompson came through in their events in the New England Track Meet Saturday. With a heave of 42 feet 3 3/4 inches the husky sophomore overcame all competition. This is Sam's first season in Varsity track and with two more years to develop, he should reach the top notch list. Hobson tied with Sanford of Tech at 12 feet 2 3/4 inches for first place. Although he took a slump in the state meet he has proved what he can do.

Captain "Bump" Barrows succeeded in placing third in the discus throw and "Artie" Hillman fourth in the mile. Tech was the winner of this meet with Bowdoin the runner up. Maine finished fifth with a total of 12 points.

Sager and Wills of Bates were star performers in the meet and turned in good marks. There were many upsets in the meet, one of which was when Mostrom of Bowdoin pulled a tendon

Roy C. Hobson
Captain-elect of Track

and was forced to drop out.

Capt. Barrows, Hobson, Hillman and Thompson go to the National Meet held at the Harvard Stadium this next Friday and Saturday.

At the meeting of the letter men in track last Tuesday noon, Roy C. Hobson, who has brought much honor to Maine as a pole vaulter, was elected captain of track for next year.

CAMPUS BOARD BANQUET HELD AT COUNTRY CLUB

The annual Campus Board banquet was held Tuesday evening, May 25, at the Penobscot Valley Country Club. Dean Stevens, as toastmaster, introduced the following speakers: Professor Poilard, Professor Janzen, Professor Weston, Registrar Gannett, Kenneth MacGregory, Edward Engel, Pearl Graffam and Robert Turner.

Various new plans for the Campus were outlined and possible improvements discussed. It was announced that credit in the English department will be given next year to those doing journalistic work on the college paper and it is hoped that in time an instructor in journalism will be added to the faculty. The editors wish to make the *Campus* the best college weekly issued in New England and make the University activities more widely recognized.

Following the speeches, the members of the Board were awarded shingles in recognition of their year's work. Registrar Gannett was presented with a black leather brief case, in appreciation of his friendly services to the *Campus*. The evening concluded with the singing of the Stein Song.

Girls Make Good Showing In Triangular Archery Meet

Saturday afternoon the girls' archery team met defeat at the hands of both Mount Holyoke and Cornell.

Twenty-four arrows were shot at each distance of 30, 40, and 50 yards. Indoor practice had permitted only work at 30 yards, so the Maine team was at a disadvantage, having had but 6 days of outdoor practice.

The participants in the Cornell match

STATE TITLE LOOMS NEARER

Victory Over Colby Gives Maine Edge In State Series

MAINE LEAGUE STANDING

	Won	Lost	Percent
Maine	4	1	.800
Colby	2	1	.667
Bowdoin	2	2	.500
Bates	0	4	.000

The Maine ball club took a pleasant journey to the "city of cinders" last week-end, and took the white mule into camp. The Waterville boys rather expected a tame game and what a jolt they received! Maine, combining a few opportune hits and a couple of Colby's errors, soon put the game on ice.

CAPTAIN CROZIER

Cassista started things off with a double. Crozier lined a drive to Smart who promptly fumbled it. Hackett struck out but Nanigan drove out a deep sacrifice fly, scoring Cassista.

In the next inning Cassista, up again, was passed. Crozier hit to right and Cassista attempted to score. A beautiful peg to Keith was dropped by that person, and Cassista scored again.

Colby got their run in the sixth. Peabody got a scratch single and was passed around to third. Cassista then fooled with the ball awhile, and Peabody scored their lone tally.

When Anderson replaced Trainor in the ninth he took a nice beating. The hits began to roll around and a couple more scores showed up.

(Continued on Page Four)

1926 CROSS COUNTRY SCHEDULE ANNOUNCED

Last Tuesday noon, Coach Kanaly spoke to forty candidates for next fall's cross country team. To these men he outlined the schedule he wanted the aspirants to do in preparation for the coming season. Competition for the State Championship will be keener than ever next fall so the Maine team needs the support of every man that is able to run.

Anyone who was not at that meeting but wishes to run cross country, or wishes to train for the quarter-mile, half-mile, mile, or two mile events should see Captain "Grunt" Taylor before going home for vacation.

Next year the cross country team will have all of its meets away. The State meet will be at Lewiston. The schedule is as follows:

New Hampshire (Durham)	Oct. 15
State Meet (Bates)	Oct. 29
Open	Nov. 5
New England (Boston)	Nov. 15
I.C.A.A.A. (New York)	Nov. 22

BOARDMAN ELECTED PRESIDENT BY THE BOARD OF TRUSTEES

DR. BOARDMAN IS FIRST ALUMNUS TO BECOME PRESIDENT

INAUGURATION JUNE 12

Former Dean Has Been Prominent In Development of College

Harold S. Boardman, dean of the College of Technology and acting president, was unanimously elected as president of the University by the board of trustees last Friday.

Doctor Boardman is the first alumnus of the University to become its president and his election is the occasion for much rejoicing within the alumni body. His inauguration is to be held on June 12, the second day of Commencement.

DR. HAROLD S. BOARDMAN

President-elect Boardman was born in Bangor on March 31, 1874, the son of the late James Allen and Marilla Leighton Boardman, he attended Bangor High school and graduated from the Maine State College in 1895 with the degree of bachelor of civil engineering. After a year's study at Massachusetts Institute of Technology, he spent sometime in Pennsylvania in practical engineering work, returning to the University of Maine in 1901 as instructor of civil engineering. In 1903 he was made head of the department with the rank of professor.

He quickly began to develop his department and at the same time took such an active interest in the other engineering departments that he was made chairman of the faculty of engineering.

Early in his career he allied himself with various engineering enterprises and his summers were spent in the field. In 1910 the College of Technology, which included the courses in Civil, Electrical, and Mechanical Engineering and Chemistry, was officially organized and he was appointed its Dean. The development of the college was slow owing to the meagre funds which were available, but the progress was constant and a strong organization was built up and a high type of work was developed.

In 1913 he was one of a handful to organize the Deans of the Land Grant College into a group which has since become a recognized and influential section of the National Association of Land Grant Colleges and in 1923 he was its chairman. For many years he has been closely associated with the Society for Promoting of Engineering Education and in 1920 was instrumental in organizing the New England Section of which he is secretary.

When the State Highway Commission was formed in 1913 and the Public Utilities Commission in the same year, he offered the services of the College to each. This resulted in a close association with the former whereby both the University and the Highway Commission have benefited. He was consulting engineer on bridges to the Commission until

Graduates

In a few weeks you seniors will be "educated." To some of you it will be the beginning of graduate study, to others the beginning of your life work, and, to a few, the beginning of indolence and haphazard shifting.

As you have won laurels in academic and athletic fields, you will win laurels in the professions and industries. In a few weeks you will be Alumni. Keep in touch with "Bob" Clark at the Alumni office and return to us often. Good luck.

A Thought

Graduation is a period of intense retrospection. This can be seen by observing the faces of the cap and gown clad Seniors as they slowly wend their way, to orchestra music, into chapel on the day of Commencement Exercises. Men, ordinarily jovial, will have a far-away look in their eyes and a stern expression on their faces. Other men, ordinarily serious, may be carefree and happy. Here and there a girl will blink the mist from her eyes or apply a handkerchief and then quickly look about half-ashamed because of her display of emotion.

What a treasure we of the under classes would have if we could know and understand what they were thinking about. What encouragement these graduates could offer and what warnings they could sound! We would like to ask them: Did you get what you came for? Was there enough enjoyment in it all to balance the sacrifice and worry? Was it worth while?

Farewell

With this last issue of the year, the *Campus* bids you a sincere adieu and a good summer. The next issue will appear two days after registration of upper-classmen next fall. During the intervening months the board is going to plan a better paper for you, if a better paper is possible under existing conditions, and is going to adhere to these plans and not forget them after a short, hectic period of enthusiasm.

Metzner Places Religion Problem Before Cabinets

The ladies of the Methodist Church entertained the M.C.A. and the Y.W.C.A. Cabinets at a cafeteria supper in the vestry Tuesday evening. Rev. Mr. Metzner, Rev. Mr. Haven, and "Bill" Wilson also attended.

Rev. Metzner put before the joint cabinets a proposition similar to what is used in other colleges for bringing about more religious education on the campus for those who desire it. A college student's religious education should run parallel to and aid his other branches of education. We have no chapel to broaden the student's religious life and there is a large gap in the life of the campus that needs filling. This matter is to be discussed thoroughly by the cabinets and definite plans worked up so that a true essence of religion may be instilled in the student's curriculum.

Prof. Weston's Hobby is Being a Perfect Bachelor

The last issue of the *Campus* contained a story of Professor Kueny and his flower garden hobby. This week's article deals with Professor Weston, of the College of Technology, whose chief hobby consists in being a perfect bachelor.

A graduate of Maine, he received his C.E. degree here in 1899, and later, in 1902, his M.A. at Columbia University. Returning to Maine, he built a model home at one of the most picturesque spots on the banks of the Stillwater. The house is small, colonial in style, and painted white. It contains four rooms which show careful planning and which are most tastefully arranged. Every bit of available space is utilized, but so skillfully is everything placed that nothing looks crowded and the rooms do not appear small. Among the contents of this perfectly appointed house are several rare editions of mathematics and literature, in which Professor Weston is more than ordinarily interested.

Although the house stands near the main highway, it has an air of seclusion, for the front faces the river and the windows of the sun porch overlook the rapids. It is an ideal spot.

Professor Weston takes his meals at the University Inn, usually making the trip to and from the campus in his Buick coupé. He uses his summer vacations as an opportunity for extensive traveling. He makes occasional trips abroad, where he has obtained many of the valued possessions which help to complete the attractiveness of his home. The house is of his own construction and planning, and fortunate indeed is the woman who has ever been granted the privilege of a glance within.

Co-Eds Celebrate Rising Night With a Banquet

At the suggestion of the Student Government Organization, Rising Night was celebrated peacefully among the co-eds by a banquet held in Balentine Hall on Wednesday Night, May 20.

Before the banquet, a short ceremony was held in front of Balentine when Kathleen Hunt, President of All-Maine Women, presented the ivy to the freshman class, represented by Beatrice Bryenton.

Achsa Bean acted as toastmistress, and introduced the following speakers: Arline Robbins and Nan Surface from the freshman class, Mary Maguire and Erdine Besse from the Sophomore Class, Daphne Winslow, Serena Wood, Elnora Ringdahl, and Alma Perkins, representing the Junior and Senior classes, and lastly Dean Colvin.

It was suggested that in the future, instead of having hostilities on rising night, that they take place at the time of Freshman Class Banquet, as they did this year, and then finish the year peacefully with the Freshman-Sophomore Banquet.

The guests of the evening were Mrs. Munson, Mrs. Estabrooke, Mrs. Sullivan, and Dean Colvin.

Dr. Farnsworth Compiled Scientific Data for Book

The forthcoming International Critical Tables published by the National Academy of Sciences and the National Research Council, a publication of five volumes, will contain scientific data and research material compiled by Dr. Harry E. Farnsworth of the department of Physics. Dr. Farnsworth's articles will be included in the field of Electronic and Gas Conduction. Other scientists who have made contributions to the work are D. C. Miller, Harvey Fletcher, A. W. Smith, J. B. Whitehead, Saul Dushman, P. D. Foote, C. G. Barkla, H. Ives, J. Becquerel, P. W. Bridgman, N. E. Dorsey, and C. E. Mendenhall. This is a distinct honor for Dr. Farnsworth and indicates the position which he holds in the field of scientific research.

The honorary educational fraternity, Kappa Phi Kappa holds its spring initiation at the Phi Eta Kappa fraternity Saturday evening. The initiates are: Irvill Cheney, Marlin McLaughlin, Earl Spearce, Henry Bearse, Allen Burnham, Walter Morse, Frederick Moulton, Richard Dolloff, Charles Wixson, Ivan Wood, George Dow, John F. Chippendale.

ORGANIZATIONS

PHI GAMMA DELTA

Phi Gamma Delta held its annual spring house party, May 21 and 22.

The chapter house was made attractive with blue and amber lighting effects. A hedge of evergreen, rugs, soft-toned lights, sofas and chairs converted the terrace into an enjoyable place to spend the time between dances. The dance orders were pale lavender, engraved with the fraternity seal in gold. The third dance was the favor dance, and, at that time, the ladies were presented with silver pencils with small shields on them. The Troubadours furnished the music for the week-end.

The chaperones were Dean and Mrs. Hart, Mr. and Mrs. Hosea Buck, and Mrs. Kate Clark Estabrooke.

SIGMA NU

The annual spring house party of the Sigma Nu fraternity took place last week-end. The "Deke" orchestra of Colby furnished music for the formal dance. The chapter house was decorated with the fraternity colors, black, gold and white, and a large lighted image of the fraternity's badge added much to the effect. Brocaded pocketbooks with the Sigma Nu seal were given to guests as favors.

The informal dance on Saturday evening was carried out in the form of a cabaret. Small tables in the fraternity colors were set with lighted candlesticks. Refreshments were served cafeteria style, and the guests ate upon the veranda which was banked in fir boughs.

Mr. and Mrs. Kidney were the chaperones for the week-end.

PHI KAPPA SIGMA

Phi Kappa Sigma held its spring formal party Friday evening, May 21, at the chapter house. Very attractive and unusual favors of mesh bags with the fraternity crest on the clasp were presented.

Music was furnished by Tom Kane's orchestra.

Chaperones for the affair were Mrs. Adria M. Gannett, Mr. J. A. Gannett, and Mrs. Lura Nutter.

SIGMA CHI

Sigma Chi fraternity held its formal party May 21. The porch and trees at the front of the house were trimmed with varied colored electric lights. Evergreens added to the effectiveness of the decoration.

Favors of silver powder boxes, bearing the Sigma Chi seal were presented.

The chaperones were Mr. and Mrs. Pollard and Mr. and Mrs. Chadbourne. An informal dance was given on May 22.

PHI MU DELTA

On the evening of May 21, a formal dinner dance was given by Nu Epsilon Chapter of Phi Mu Delta at the Chapter house.

The house was decorated with evergreen. The orchestra was enclosed within a cluster of palm trees.

Chaperones were Prof. and Mrs. Corbett, and Mrs. Chase.

SIGMA PHI SIGMA

On Friday evening the Sigma Phi Sigma Fraternity held an informal house party at their chapter house. The Island City Orchestra furnished music for a program of sixteen dances.

Favors of silver perfume flasks mounted with the fraternity seal were presented to the guests.

The party was chaperoned by Professor and Mrs. Arthur Hill.

ALPHA TAU OMEGA

Alpha Tau Omega gave an informal party Saturday evening, May 22. The house was decorated in the fraternity colors, blue and gold. The chaperones were Professor and Mrs. Paul D. Bray. Guests for the evening were Mr. and Mrs. Robert Clark, and Mr. and Mrs. Robert Crowell.

DELTA TAU DELTA

Delta Tau Delta held their annual spring party Friday, May 21. "Hank" Nielson's Collegians furnished music for an order of twenty dances. The favors were "Crimoline Powder Dolls," ornamented with the fraternity seal. The guests present were James T. Blair, James Penell, Warren C. McCobb, and J. Homer Huddilston. The chaperones were Mr. and Mrs. C. W. Martin, and Mr. and Mrs. Demeritt.

CAN you realize that this is neither Detroit nor the yards of an auto wrecking company but the University of Maine campus?

Amendments to Athletic Association Accepted

At a mass meeting in Alumni Hall, Thursday noon, the following amendments to the constitution of the Athletic Association were accepted:

Article V of the constitution at present reads as follows: "There shall be an executive committee composed of the officers of the Association. It shall be the function of the Executive Committee to have charge of the election of the succeeding officers."

The proposed amendment to this article will make it read as follows:

ARTICLE V—EXECUTIVE COMMITTEE

There shall be an Executive Committee composed of the President and Secretary of the Association and two members at large, one of whom shall be chosen from the Women's Department of the Athletic Association and one from the Men's Department of the Athletic Association. It shall be the function of the Executive Committee to have charge of the election of succeeding officers.

ARTICLE VI—NOMINATION AND ELECTION OF OFFICERS

The following amendments are proposed. In the second line cross out the word "or" and insert in its place the word "and." On page 2 after the word "Secretary" in line 9 insert "two members at large of the Executive Committee" and on the same page after the word "Secretary" in line 13 insert the words "and two members at large of the Executive Committee," so that the complete article as amended will read:

A committee to be composed of one representative from each national fraternity and sorority chapter and one representative from each local society of similar character of at least two years' existence at the University, provided that they contain forty members or major fraction thereof, and representatives of the non-fraternity students in the ratio of one representative for each forty or major fraction thereof shall constitute a Nominating Committee whose duty it shall be to nominate four candidates for each office of President, Vice-President, Secretary and two members at large of the Executive Committee; said nominations to be made and posted on the athletic bulletin board at least two weeks prior to the date fixed for the election of said officers. The President, Vice-President, Secretary and two members at large of the Executive Committee shall be elected annually on the second Tuesday in May, by the members of the Association. This election shall be by the Australian ballot and the polls shall be opened and closed at such hours as the Executive Committee may designate. Article IX to be re-written as follows:

ARTICLE IX—ATHLETIC INSIGNIA

The Varsity athletic insignia awarded by the Men's Athletic Board and the Varsity athletic insignia awarded by the Women's Athletic Council shall be different in style and type.

PHILIP SPACE SAYS

The last week of classes brings with it a faint reminder that school is to close and before closing we must be subjected to that inquisition called "finals." This is a surprise to some whose idyllic existence must be interrupted. The peaceful current of life will be storm-shaken for a few days and then our intellectual labors will be at an end and the summer will be before us, filled with work or play as the case may be. The Seniors will be ejected into the outside world, not usually very receptive, where, whirled along with the rest of the atoms of the commercial life, they will float or sink unheeded except by their immediate circle. The Juniors will spend the summer getting clothes with which to uphold their prestige as seniors.

The Sophomores and Freshmen, however, have a delightful week of vacation before them after emerging, battered and weak, from finals. It is nothing more or less than a few days spent on the shores of the lovely Lake Wassaponooke (or some such euphonious name of aboriginal origin) where nature and man combine to provide satisfaction for the seeker after scenic beauty (See Maine Central folder on Newport and points north.) Here the released students frolic with their toys, dressed in their play suits, from morn till night, romping gaily over the grass and going through their drill games while the playground leaders look on and smile indulgently at their little wards. At night after their bread and milk they are tucked away in their cozy beds and even before the bedtime story is finished they are in the Land of Nod. Yes, gentle reader, this is our own military camp.

But the cruel awakening comes in the morning! The first shrill notes of the bugle cause the tents to erupt groups of embryonic soldiers in various stages of undress who tramp through the wet grass to the lake to wash. There is not much conversation until after breakfast when, under the warming influence of tobacco and promise of sunshine, they thaw gradually and become more sociable. The day is filled with drill, hot and sweaty under a fierce sun and when retreat comes, soon followed by supper, everyone is content to sit around for a while. There is no more peaceful scene than the camp presents when, at dusk, pipes are lighted and cigarettes glow in the growing darkness. Conversation is desultory, being limited to experiences and stories that require no onerous mental processes to understand. Down the line of tents a voice suddenly exclaims, "A full house beats a straight, gimme them chips." Someone laughs. Silence again. Over in the next company street someone starts a song eulogizing "his baby." In town the mild-mannered bespectacled student who was a nonentity in Orono has, by donning a uniform, undergone a complete metamorphosis. He and other kindred spirits are either holding revival services in the streets or doing strange exhibitions with the fire department. His hour is short but it is full, next week he will again be the quiet unobtrusive scholar.

The return to college is magnificent. No Roman legionary ever felt the pride that this incipient general feels as he again treads College Avenue with his comrades, swinging along with the band. Hot days, wet feet, dusty roads are all forgotten. He has been under military discipline and it has made a man of him. Look at that tan. See with what ease he carries his rifle, note the nonchalance of his attitude. He is a seasoned campaigner!

Camp is over again and it has done the boys good. Greater hardships are cheer-

1928 Prism Editor To Be Elected Soon

Next week, the exact date still undecided, the Sophomore class is to elect the Editor-in-Chief and Business Manager of the 1928 *Prism*. Since the editorship is in the first class of the Point System, there was some doubt until recently as to whether some of the men interested and capable of handling the position wished to have their names placed on the ballot.

In conference with the advisor of the Sophomore class, Mr. Youngs and *Prism* Advisor, Mr. Kelley; the editor and business manager of the 1927 *Prism* recommended the following men who have shown interest in the production of the yearbook and are capable of handling the work for next year.

For Editor-in-Chief: Earl F. Bennett, Robert F. Scott, Matthew Williams.

For Business Manager: William D. Hamlin, Hollis W. Garey, Orville T. Swift.

Bids are already being submitted for next year's printing and engraving. The Graphic Arts Engraving Company of

Boston will perhaps be strongly considered to do the engraving because of the good work they did on the cuts in the yearbook of recent issue. If the University Press has not taken on too much work in advance it will also make a bid for the printing and will have a decided advantage over competitors because of the good workmanship displayed in this same yearbook.

What Is A Life Underwriter?

One who executes and delivers a life insurance policy. In other words, a person whose business it is to offer the known benefits of life insurance to individuals, to corporations, to partnerships, etc.

But further, the life underwriter is one who must convince those clients of the benefits offered. This means stimulating contact with human character, and with large affairs. Some underwriters prefer the game of character and deal mainly with individuals. Others prefer affairs; to them is open the great field of business insurance.

Furthermore, the business of life underwriting pays highly for initiative and ability.

And still more, the life underwriter offers to his client a commodity which has no risk in it, does not deteriorate, and adds no burden of mental worry. The life underwriter sells absolute security, the foundation of serenity of mind.

It is worth while to think these things over now and to remember them when, perhaps, you find yourself wrongly placed in whatever business you may have chosen.

You can obtain confidential information from the Inquiry Bureau, John Hancock Mutual Life Insurance Co., 197 Clarendon St., Boston, Mass.

The Dawn of a Better Cigarette

Fifteen men on a Live Man's Quest Yo-ho - and a better CIGARETTE

HERE'S merry luck, Mates! Just as you were drifting along, aimless-like, in your smoking habits, with nary an adventure to tickle your smoke-taste, in the Seven Seas of Commonplace Tobacco—

along comes a rollicking breeze of good news that sends you bounding into a treasure-land of new smoking satisfaction.

A new cigarette—as welcome as a Port of Thrills after a dreary voyage. A relievingly different cigarette—with a new and teasing fragrance that anchors to your favor like a home-sick brig to its native harbor.

It remained for those veteran pilots of superior tobacco enjoyment—the P. Lorillard Company, 166 years at the wheel—to chart out the way to a better 15c cigarette—a smoother, cooler, more winsome cigarette.

Identified for generations with uncom-

monly fine cigarettes, they lay their course to find a still better cigarette, to retail at an uncommonly small price.

And they found it in OLD GOLD, the treasure of them all—20 white and brown cargos of golden cigarette enjoyment and satisfaction for 15 cents.

OLD GOLD offers three distinct improvements over old cigarette standards. It's cooler—because made from finer and lighter leaf, hand-selected. It's milder—because a new-day method takes out any hidden harshness in the tobacco. It's more fragrant—because it's made from the choicest of all Turkish and domestic tobaccos, chosen for their aromatic perfection and blended by old masters.

Stow your hold with your first treasure chest of OLD GOLDS today, men. Buy one package—that's all we ask. We're more than content to let that trial package make its own bid for your permanent patronage.

OLD GOLD

Bordman Elected President by the Board of Trustees

the time came when it was possible to have a bridge division with a permanent engineer.

In 1921 upon the resignation of Dr. Aley, the Trustees placed the administration of the University in the hands of the deans, and during that year many administrative problems were handled by them in close association with the executive committee of the Trustees. Dean Boardman being an active member of the former gained a valuable experience and the insight into the innermost affairs of the University. At Commencement time following that year the Trustees conferred honorary degrees upon the four deans as a mark of appreciation of their services. At the time Dean Boardman was awarded the degree of Doctor of Engineering.

State Title Looms Nearer

Cassista struck out, but Crozier, lining out his third hit, got on the initial sack. Aided by an error and a couple of singles by Nanigan and Newhall, Crozier and Nanigan scored.

Maine's chances for the state pennant took a big hop Saturday and by the evening of June the fifth, we will all be cheering our State Championship Ball Team.

Maine plays Connecticut Aggies here Saturday and Colby Wednesday, June fifth.

New Coach Is Elected

town University, he immediately won a regular position at end on the varsity eleven. After holding down this position for two years, he was shifted to fullback, where he was given honorable mention by Walter Camp in selecting his famous mythical All-American team. He also was picked for the All-Southern eleven for three years.

In the baseball line, Kenyon was equally as prominent. He was an outfielder and catcher for four years, captain his last two years, and in 1924 led his team through a season in which it won 24 straight games. He was one of the hardest sluggers in college baseball. In basketball, he was a guard.

Kenyon was given a try-out with the New York Yankees and was sent by them to Toronto of the International League. He left here to return to Georgetown as freshman coach, and has been at the southern institution for the last two years. Last fall, in addition to

his freshman coaching duties, he had charge of coaching the ends of the varsity.

Class Friction Ends with Rising Night

of the stream, a sure sign that they expected to see '29 come through with a victory. At 8 o'clock sharp, "Eddie" Stanton of the Senior Skulls stepped forward and fired one shot which was the signal for the rope pull to begin. Both classes scrambled for firm holds on the rope. The freshmen began to pull and had drawn the sophomores about one yard toward them, when the rope suddenly broke in the middle. Not to be cheated out of a chance to give their friendly enemies a ducking, several freshmen jumped into the stream and took the battle to camp on '28 territory. A general free-for-all occurred, and the river seethed with cold wet forms. Eggs took the place of aerial bombs, and the swish of the cold water sounded like spitting machine guns.

After everyone had given vent to his wrath on someone else, the party assembled in front of the Strand theatre and stormed the gate. The management willingly allowed them to pass in, and treated them to a show which was thoroughly enjoyed. All signs of bitterness disappeared, and when they came forth onto Main Street again friendship was once more restored.

Friday morning the campus welcomed countless strangers dressed in gaudy sport clothes.

Girls Make Good Showing in Triangular Meet

were P. Aiken, P. DeBeck, Lydia Douglas, and Louise Ayer; in the Mount Holyoke match: P. Aiken, P. DeBeck, Laura Tribou, and Louise Ayer.

Debating Society Elects Managers for Next Year

The Debating Society held its last meeting of the year last Thursday night. At that time Edward Merrill was elected manager and Cuyler Poor assistant manager for next year. Shingles were given to the following men who have taken part in Intercollegiate Debating during the past year: Robert Scott, Horace Atwood, Harold Ballou, Robert Stewart, Carroll Wilder, Ivan Wood, Garfield G. Young, and Edward Merrill.

The question to be debated next year

The score:

Cornell, 191 hits—849 points
Mount Holyoke, 182 hits—808 points
Maine, 158 hits—656 points

will be on some phase of the Prohibition Amendment and on the amount of stress that should be placed on college athletics. Any one who is interested in either of these questions is urged to support the debating team for next year by seeing Professor Bailey this spring.

Master of Icebergs

—a new kind of college degree

MASTER all the intellectual icebergs you sight at college, and your degree will mean something.

The cold facts you learn, like $a^2=b^2+c^2$, are but the visible tops of these icebergs. Underneath, as with floating ice, lie the other eight-ninths.

Facts are of little importance till you see them in relation to their great underlying principles. The facts of mathematics strike deep into the other sciences. The facts of history strike deep into sociology, ethnology, geography.

That is why an engineer who learned Ohm's Law can develop a great telephone exchange and control its fascinating forces.

Viewed thus, the endless array of dry facts and dull figures that seem to crowd the years brighten and beckon with a challenge—to look deeper, ever deeper.
