## PLANS FOR ANNUAL WINTER CARNIVAL NEARLY COMPLETED

### MASQUE TO PRESENT "CAPTAIN APPLEJACK"

At present there are fifteen men trying for the Winter Sports teams, with no one outstanding.

An attractive schedule with a number of splendid trips has been arranged. The schedule:

Jan. 21-22 Bangor (one team)  
Jan. 22 Mechanic Falls (one team)  
Feb. 4-5 University of Maine Winter Carnival  
Feb. 11 Bowdoin  
Feb. 12 Bates (Maine Intercollegiate)  
Feb. 14 State of Maine Meet at Rumford  
(Deciding who shall go to the New England)

The Winter Carnival programs are to be more attractive this year than they have been in past years. They will be compiled with the intention of making them a better souvenir of the big event.

The contents of the programs will be a list of the events with their competitors along with a score sheet; pictures of the varsity and freshman football and cross country teams and also pictures of the cast for the Maine Masque play, "Captain Applejack." There will be a write-up on winter sports and the activities of the Intra-mural A. A., which will be an added feature.

The cover of the programs will be of light blue. The book will be bound with a heavy white cord making it much more practical and durable. The cover design, which has not been exactly decided upon, will be somewhat the same as the design on the carnival posters.

On Thursday evening, February 3, the first night of the Carnival, the Maine Masque will present "Captain Applejack" by Walter Hackett, in the chapel. The cast has been announced as follows:

Lush Mr. Oscar Birch '29  
Poppy Fair Miss Thelma Shea '30  
Mrs. Agatha Whatcombe  
Miss Helen Peabody '27  
Ambrose Applejohn  
Mr. J. Hobart Pierce, '28  
Anna Valeska Miss Anna Stinchfield '27  
Mrs. Pengard Miss Etta Bailey '30  
Horace Pengard Mr. George Dudley '28  
Ivan Borolsky Mr. Robert Parks '29  
Palmer Miss Dorothy Mayo '30  
Dennet Mr. William Walkley '30  
Johnie Jason Mr. M. Beckwith '30  
Members of the crew

Messrs. Getchell, Bishop, Noyes, Highlands, and Leavitt  
(Continued on Page Four)

## GIRL SHARPSHOOTERS START WITH A BANG

John H. Kidney of the Military Department, coach of the girls' rifle team, is now on leave. Sergeant George Ogilvie of New York is at present the coach of this team. He is also coaching the men's rifle team. Sergeant Ogilvie is an expert marksman.

The rifle season is well started. One match has been shot with George Washington University, of Washington, D.C. This match was a tie. All matches are 'telegraph' matches.

Manager Winona Young has arranged for the following matches. Additional teams will probably be added to this list later.

Jan. 21 Cincinnati  
Jan. 22 West Virginia University  
Feb. 26 Cornell University  
Mar. 11 University of Nebraska  
Mar. 20 University of California  
Mar. 25 University of Maryland

A large number of girls are coming regularly to practice and are turning in good scores. Practice is held Wednesday afternoons for freshmen and Monday and Friday afternoons for varsity candidates.

## DR. SWAN GIVES HYGIENE TALK

### Lectures Are Well Attended

Dr. Eugene L. Swan of Brooklyn, N. Y., of the American Social Hygiene Association addressed a large assembly of men and women students in the gymnasium Monday morning.

In talks on social hygiene the word sex plays the most important part. In place of the common misconception of what the term really means, Dr. Swan urged that the idea of sex be placed on a higher plane and considered in a clean, broad-minded and wholesome way, as it should be.

"The acid test of civilization," said Dr. Swan, "is its ability to become a socially federated force, and those to be federated are men and women, not man or woman. The young man and woman of the future are not going blindly on through life and into marriage as they have in the past."

"One has but to look at the divorce statistics to realize the necessity of some saner and more wholesome organization of the understanding responsibilities of marriage. There are rapidly changing social conditions which make rapidly changing responsibilities. The young people of today have many more problems to meet than those of yesterday. The younger generation is more truthful, more fearless and more sincere than any generation the world has ever known. Let us have faith in them and believe in them, for without faith the world is lost. Faith took twelve very plain men, fishermen and farmers, and made them speak to the world in everlasting verity."

Another talk was given to a group of women students Monday afternoon in the chapel, after which the speaker answered and discussed special questions.

Dr. Swan is an authority on social hygiene and a very effective speaker. He is a childhood friend of President Boardman through whose efforts he was induced to lecture at Maine.

## GENERAL LECTURE IS OF GREAT INTEREST

### MODERN TOPICS TO BE DISCUSSED BY CHEMISTRY DEPARTMENT

In the Spring semester of 1927, the general lecture course of fifteen lectures will be given on the applications of chemistry. The course will begin Wednesday, February 9 at 4:15 P.M. in 305 Aubert Hall and continue through the semester at the same time and place.

Registration for this course is open to all students of the University and credit is given for its completion. The lectures are open to the public also and are without charge.

For this semester, they are under the auspices of the Department of Chemistry and Chemical Engineering, and are directed by Dr. Brautlecht. Everything has been done to make them as interesting as possible by men in the department of chemistry, other departments and people outside of the University who have consented to give their services.

The order in which the lectures are to be given is as follows:

CHEMISTRY  
Feb. 9 Bakelite and Its Uses Prof. Brautlecht  
Feb. 16 Chemistry in Manufacture of Gas I. S. Haddock, Vice Pres. Cambridge Gas Light Co., Cambridge, Mass.  
Feb. 23 Some Tools of the Chemist Prof. Brann  
Mar. 2 Chemical Warfare Mr. Reid  
Mar. 9 Cellulose Mr. Caulfield  
Mar. 16 Recent Ideas of Matter Dr. Eckert  
Mar. 23 Pulp and Paper Mill Chemistry Prof. Bray  
(Continued on Page Four)

## RELAY PROSPECTS LOOK RATHER FLAT

### MAINE MAY NOT BE REPRESENTED AT THE B. A. A. GAMES

The relay season at present looks flat. Whereas Maine had a meet scheduled last week with Boston and New York Universities it is now in the cold. The B.A.A. first asked the varsity to race the two aforementioned schools, after this was all taken care of satisfactorily. Bowdoin was found to be without a competitor. Maine was then asked to meet Bowdoin at Boston. As a meet had already been scheduled, Maine refused to run Bowdoin at Boston. A note was then received stating that Maine was without a race at these annual games where they have for the past few years taken such an active part.

The men have been training very diligently for this meet since the holidays. Time trials were held last Saturday and proved very gratifying to the men as well as the coach. Final trials in the quarter mile are to be held Wednesday of this week. Thursday afternoon trials for the half-mile team will be held. The half mile team has a prospective race in view at the American Legion games to be held in Portland in February. The freshmen have an offer to attend the B.A.A. Games and enter the free-for-all race where six teams start abreast on the board track. Dartmouth, Boston College, and Pennsylvania have already entered their teams. Maine will probably not enter any team this year although they are reputed to have one of the fastest teams in years.

As matters stand now, Maine has no meet for their quarter mile team, and only a prospective one for the half. Negotiations are in progress, however, for the replacement of Maine in the B.A.A. games to be held in Boston Saturday, Feb. 5.

(Continued on Page Four)

## TRACK STARS TRAIN IN GYM

### Harrington and Paul Kanaly Are Working Out

As few people visit the Indoor Field daily, they hardly ever know some of the athletes who are training there. Every day the candidates for athletic honors of the University may be seen jogging around, but there are always others. Last year, it will be remembered, Allen Helfrich, national half-mile champion, trained in the Indoor Field nearly all winter. Over the week-ends he ran at various meets in New England, winning several events.

This winter there are two quite well-known men training here, Paul Kanaly, son of Coach Kanaly, and Paul Harrington, national pole-vaulting champion.

Paul Kanaly is at present taking a two weeks' vacation from his work in Boston. Following his father, he has started upon a track career already. Last year, at the K. of C. Games held in Boston, Paul won the thousand yard run. It was his first real race. At present, he is training for the two-mile run that is to be run at the K. of C. Games in Boston January 22. Arriving here a week ago last Sunday he immediately started training for his event. For the past few weeks he has been doing a little work on the roads near his home.

Paul Harrington, who is taking a  
(Continued on Page Four)

Kappa Gamma Phi, journalistic fraternity, is to hold a dance in the gymnasium, Friday evening, January 21, immediately after the basketball game, which starts at 7:30. The purpose of this dance is to help in the clearing up of the Mainiac debt. The Troubadours will furnish music.

## HOT TIME AT GRINDSTONE

### Best Prevents Serious Fire

The quick wit and coolness of Alton C. Best, a senior forester, saved his own life and that of his seven sleeping campmates at the Forestry Camp last Tuesday night.

Two members of the camp, on retiring, smelled smoke but after a thorough investigation, they found no fire, and retired with some misgivings to await developments. Due to the strenuous day's work in the woods, they immediately went to sleep.

During the still, small hours of the night, when only the howl of a bobcat, or the bark of a fox broke the tranquility, Al Best awoke with a cough and a sneeze. The camp was full of smoke.

As he struggled to tear himself from the clutches of his sleeping bag, the floor under the sawdust filled box by the stove (not the cat's bed) burst into flame. Clad only in his pyjamas and fireman's hat, he found his way to a hatchet in the far corner of the cabin. With this weapon in his hand, Al fought his way to the heart of the flames and hurled the blazing box of sawdust through the window. He then madly attacked the burning floor boards with his axe, while his seven campmates still slumbered without a premonition of danger.

The fire rapidly gained headway, and the contents of the partially full water bucket on the stove was of no avail. In his bare feet and scanty attire, Al ran through the snow and cold to the water hole, a full hundred yards away. Racing back with a full bucket, he dashed the contents into the heart of the flame. This proved effective, and the danger to the sleepers was averted. Al then returned to his dreams.

Editor's Note: Why didn't Best wake the sleepers.

## MUSICAL CLUBS TO HAVE FINE PROGRAM TO GO ON ANNUAL TRIP IN THE SPRING

The Musical Clubs have been working diligently, since early fall, in the preparation of what is to be one of the finest programs ever presented by students of the University. Professor Adelbert Sprague of the department of music has again given his services to the utmost.

George Dudley is leading the Glee Club for the second year, and at the time of writing has the program nearly completed. There are about twenty-five voices which will make up the concert club, and which blend remarkably well. There is still an opportunity for one or more good second bass singers and any others who prove capable of the work will be gladly added at the discretion of the director and the leader. Rehearsals are held weekly on alternate Wednesday and Thursday evenings at 6:45 in 30 Coburn.

The orchestra has a capable leader in Carleton Hackett, who has selected seventeen experienced musicians for this branch. They consist of three violins, cello, bass, two trumpets, trombone, five saxophones, drum, piano, and banjo. They are endeavoring to handle modern symphonic orchestrations.

A quartet, solos, and other features are being prepared for the program.

Definite dates have not, as yet, been determined for the trips away from the campus. The first concert however, will probably be either at Lincoln or Old Town sometime in the near future, and will be followed by the annual Bangor concert. The three day Aroostook trip will come later in the year in March or April.

## PLEBES TRIM RICKER BUT LOSE TO STRONG HEBRON HOOP CREW

### PASSING GAME DOWNS RICKER 40-23

### HEBRON ACE STARS

### Bub Hines Scores 15 Points As Big Green Wins

Friday night saw the plebe cohorts of Bill Kenyon take Ricker into camp, 40-23. The frosh swung into action early behind Limey Abbott, the newly elected captain, and played a passing game the first half the score being 15-11.

In the second canto, the boys broke away and "Bill" Millington and "Ed" Kent fought it out for the evening's high point honors. Kent edged out the Huntington lad by scoring 13 points to Milly's 10; but both were on their feet all the time. "Specs" Dow played a stellar game at the pivot station and Levensaller came through as usual. Beatty stood out for the academicians with 12 counters to his credit; and Curtiss played a good game at guard. The final decree was 40-23.

#### MAINE

	G	F	T.P.
Kent, rf	6	1	13
Millington, lf	5	0	10
Dow, c	3	1	4

Stinson, c	2	1	5
Foster, rg	1	0	2
Curtiss, lg	2	1	5
			23

Referee, Durrell; Timers, Clark, Park-  
er; Time, 4-10 min. periods.

Last Saturday evening the plebes went down to defeat before a worthy opponent, the Big Green of Hebron. The yearlings, who had trimmed Ricker the night before, couldn't get started, and a certain gentleman called "Bub" Hinds rang up three double counters before the game was two minutes old. The frosh held a council of war but this selfsame "Bub" proceeded to send up two more rockets. Dow broke the ice for Maine and his teammates contributed enough to total 12 points at the end of the half. But Hebron had 23.

(Continued on Page Four)

## FROSH GIRLS LOSE TO WATERVILLE

Waterville High School defeated the freshman girls Saturday afternoon with a score of 34 to 19. The yearlings showed a lack of confidence, especially in the first quarter. The third quarter showed considerable improvement, and they kept the ball well away from the danger zone, but as the game neared its close, the superior cooperation of the fast high school team again gave them the advantage. Finks for the freshmen scored on numerous fouls, and Everett starred for Waterville.

The line-up:

#### FRESHMEN

#### WATERVILLE HIGH

Haskell, f (8)	f, Everett (24)
Finks, f (11)	f, Hilton (10)
Hussey, c	c, MacPhee
J. Hutchinson, c	c, Dignam
Ross, g	g, Murray
K. Hutchinson, g	g, Thomas

Subs: Gould for K. Hutchinson; Louis for Everett; Talberth; McGann for Dignam; Thyng for MacPhee.

### Why the Exodus?

Why are so many of the men students leaving the University? There is an epidemic of them going back to their homes with such casual explanations as "short of money," "rather walk out than flunk out," and "got a good job."

Are these the real reasons or do phrases like these merely serve to cover up some disappointment or disillusion that cannot be spoken of openly?

Money should be no real barrier against continuing at school. Many are borrowing the entire amount to pay their school expenses. Even so, if lack of money is the cause, why not stay for a few weeks more and be credited with a semester's study.

It is doubtful if anyone with nerve and spirit enough to start a four year University training should drop out just before the end of a semester because of fear of flunking, or because he was offered a job.

Perhaps it is the climate that discourages them; it may be within-fraternity friction; it may be the faculty.

Good students and athletes have left—men who were destined to become leaders if they had remained. If there is anything wrong that can be changed, it should be changed at once.

### Doctor Swan

This week the student assembly was addressed by a speaker as eloquent as has entered Alumni Hall in the past four years. His simple sounding but none the less difficult task of "taking sex out of the gutter" was handled in a manner which was at the same time dignified and charming. He approached none of the "indecent" that some hygiene lecturers approach with gain attention and approbation. His theme, in fact, was to make "indecent" decent.

On thinking his lecture over, it appears that he believes in the double standard, with reservations. Someone said, "He passed the buck to the girls but he did it so gracefully and tactfully that they exclaimed in glee, 'See the nice buck that has been passed to us. Isn't it lovely?'"

### Co-ed Criticizes Maine's Winter Spirit

Editor, Maine Campus:

How about the Outing Club? Maine has one, you know. Though it is of comparatively recent organization it should be receiving much more support from the student body than is given it at present. It seems to be because of mere indifference on the part of the majority of the students. One could scarcely attribute this indifference to lack of time because of too many social activities. Maine's social activities are generally limited to the movies and a few dances during the winter months. The Outing Club could fill in very acceptably during this season, provided one gave it half a chance.

Some people like Maine's climate; some don't. However you feel about it why not try to get the most out of it? Maine doesn't have to import snow for its Winter Carnival, and yet we place much less emphasis upon winter sports than do other colleges less amply provided with the basis for such sports. Maine of all

colleges should have a large and active Outing Club. It is ideally located for such an organization.

It is almost time for the Winter Carnival. How about having some enthusiasm for the Winter part this year instead of making just a "carnival"—one dance after another—out of it. Otherwise why not have it in the spring. If you won't participate in the Winter sports, then at least come out and watch them.

The Outing Club is conducting a membership drive from January 13 to January 20. If you haven't joined already, think it over. Both Bates and Bowdoin have good Outing Clubs. New Hampshire, a university of our size, won the national title in the winter sports meet at Lake Placid during the recent holidays.

—A Sophomore Co-ed

### Awards offered by Wilson Foundation

The Woodrow Wilson Foundation offers two awards of \$25,000.00 each. Each award will be given for the article which most intelligently carries out the title chosen for both awards: What Woodrow Wilson Means to Me. The article to be strictly confined to an exposition of Mr. Wilson's ideals and principles and what they mean to the writer.

One award is to be presented to the young man who has passed his twentieth birthday, and has not passed his thirty-fifth birthday, whose article, within the lines indicated above and hereafter, shall be considered best.

The other award is to be presented to the young woman who has passed her twentieth birthday, and has not passed her thirty-fifth birthday, whose article, within the lines indicated above and hereafter, shall be considered best.

The direct and sole purpose of these awards is to bring to the young people of the United States a closer knowledge of the ideals and principles of Woodrow Wilson: the ideals which, in his written and spoken words, he sought to express to the people of his own country and the world.

Few men have more caught the imagination of humanity, and sought after a higher achievement than did Woodrow Wilson. One of the most fascinating aspects of his life is the gradual growth and illumination of his ideals, under the buffeting of experience. The Woodrow Wilson Foundation wants every young man and woman in the country to become acquainted with them. That is the reason for the awards.

Each article intended for these awards must seek to appraise the ideals, standards and principles of Woodrow Wilson according to the personal standpoint of the writer.

Since the purpose is solely to induce young people to study and understand the ideals and principles of Woodrow Wilson it should be perfectly obvious to contestants that these awards neither call for articles of fulsome praise nor analytical criticism.

The awards are available to any resident of the United States who has reached his or her twentieth birthday, and who has not passed his or her thirty-fifth birthday.

An article may be submitted by an individual or jointly by a group or organization either existent or specially formed, provided the age limit of members is strictly observed. Such an article must be submitted in the name of the group or organization.

The total number of words of any article must not exceed twenty-five hundred (2500). This condition must be strictly observed.

An article must be typewritten, and written only on one side of the paper. No article must be sent rolled.

All articles must be received at the office of the Woodrow Wilson Foundation, in New York City, on or before October 1st, 1927. No articles received after that date will be eligible.

Further information can be secured from The Woodrow Wilson Foundation Award, 17 East Forty-second Street, New York City, New York.

It has been announced by graduate manager Kent that tennis will be dropped from the place in the University athletic program that it has been struggling hard to maintain for the past few years. The reason given for dropping this sport was that by so doing expense could be cut down and also because of its rather unsuccessful career, due to a lack of proper interest among the students.

Many a good time has been had on the road to ruin.—*Outlate.*

## ORGANIZATIONS

The Mathematics Club held its regular monthly meeting on Thursday afternoon, January 13, in the Arts and Science Building. Christine McLaughlin gave an interesting history of mathematics during the B.C. period in verse form. John Stewart presented in a very interesting manner the history of mathematics from 1 B.C. up to the present time. "Pat" Noble then gave out some problems which the Club worked.

Saturday afternoon, January 15, a tea was given at Mt. Vernon when the A.O. U. pledges entertained as guests about sixty pledges of the other sororities. Mrs. Buffum, Mrs. Shibles and Mrs. Sawyer were patronesses.

Pi Pi Kappa, honorary economics fraternity, was entertained at the home of Professor W. W. Chadbourne, on Thursday evening, January 13. Professors Janzen and Chadbourne acted as hosts. Professor R. M. Peterson addressed the chapter on "The Mexican Situation," which was followed with an open forum on the economic problems in that country. F. W. Meader was elected president, and D. F. McGary vice-president, to fill the unexpired terms of Harry Stern and Kenneth Hight, both of whom are leaving at the end of the present semester.

Thursday evening at 23 Lord Hall one of the most enjoyable meetings of the A.I.E.E. held this year was attended by some fifty or more interested students, members, and visitors.

Dean Cloke was the first speaker and recounted several outstanding incidents at the convention of the Am. Institute of Radio Engineers, which took place in New York City the past week.

The remainder of the time was turned over to Capt. Stannion, and the telephone company from Bangor, represented by Mr. Hopkins. Two instructive and entertaining films were shown touching on various phases of the telephone industry.

## Varsity Plays Rhode Island

### Game Here Friday

The University of Maine basketball team will swing into action on their own floor for the first home game of the season, Friday night, when they play Rhode Island.

The Kingston boys come here with an enviable record and promise to show Bill Hanscom and his men basketball. Although Maine has not played any but practice games since before Christmas, it plans to play basketball as it should be played. With Captain Hanscom recently returned from the wilds of Grindstone, the team's hopes have been soaring. His loss in the Norwich and Dartmouth games was keenly felt. Bill is a point winner as well as a strong guard—all of which contributes towards the varsity's success. Returning from the forestry camp after vacation he rounded into shape quickly and the team adapted itself to the change so it is now ready for the best of them. The game will probably be played in Alumni Hall as the new basketball floor in the Indoor Field is not yet completed.

### Pi Phi Log Cabin Nearing Completion

The new Pi Phi log cabin, which has been under construction since last fall, is slowly but surely nearing completion. In the last week the structure has commenced to take on a definite shape. At present shingles, windows, and doors are all that is left of the exterior part of the building to be completed.

In all probability it will be some little time before the cabin will be ready to have a bottle of the forbidden liquid smashed over its stern for the interior part has not been touched.

The cabin is a clever and novel structure and the Pi Phi's are to be congratulated for having almost within their grasp the first sorority building the University of Maine has ever boasted.

The date of the New Hampshire-Maine football game has been set for November 12, instead of Armistice Day as it was once thought it would be.

## INTERCOLLEGIATE NEWS

The enrollment in the leading universities and colleges of the country of this year compared with that of last year:

### Interfraternity Games Underway

The interfraternity basketball games are well under way. Thus far none of the teams have shown a very marked superiority over their respective opponents. In the fracas last week end the Phi Gams "pulled a sneak" and came thru with a win over Phi Eta Kappa, last year's champs, to the tune of 27-24. S. A. E. emerged from their combat with the Common Council victorious with a 23-20 win. Phi Kappa Sigma with their galaxy of meteorists managed to scrape a 24-22 win from the Lambda Chi Alpha outfit.

Two Intra-Mural basketball games were played in Alumni Hall Tuesday evening. The first one, between Sigma Nu and Beta Theta Pi, resulted in a win for the Beta quintet 23-18. There was not much good basketball displayed, the roughness of the game being quite conspicuous. Wass starred for Sigma Nu, while Abbott played a good offensive and defensive game, particularly in the second half. Osgood easily played the best game for the Betas. The lineup follows:

BETA THETA PI 23	SIGMA NU 18
Osgood, rf, 6.....1, rf, Taft	.....Wass
Ashworth, lf (1) 1.....1, lf, Bostrom	.....Thompson
.....Kinney, c, 1.....c, Kimball	.....1, DOLLIVER
Small, rg, 2.....5, rg, Wass	.....Furbush
Pratt, lg, 1.....1, lg, Abbott	

Referee: Fitzhugh  
Timer: Wallace  
The second game was between Alpha Gamma Rho and A. T. O. A. T. O. started off with a slight lead, the game remaining very even until the last quarter. A. T. O. then stepped ahead, scoring at will. The count at the whistle was 32 to 18, A. T. O. winning. Stone played a fast game for the losers, Ridley also sharing honors. For A. T. O., Folsom and Fitzhugh were the bright lights, although Fitzhugh missed many baskets. Following is the lineup:

A. T. O. 32	ALPHA GAMMA RHO 18
Gallagher, rf, 3.....3, rf, Bradford	.....Steenstra
Folsom, lf, 3.....3, lf, Stone	.....Shirley
.....Small	
Fitzhugh, c, (1) 4.....2, c, Ridley	
Bennett, rg, 1.....rg, Wikson	
Rowell, lg, 4.....1, lg, Allen	

Referee: Durrell

## Student Faculty Alumni Banquet Date Set

### Visiting Week and Dads' Day To be Held in Spring

The tentative date for the Student-Faculty-Alumni Banquet is Friday February 25. Arrangements are now being made to secure several well known outside speakers. President Boardman and Alumni Secretary Clark are working with the Senior Skulls to make this banquet the usual success.

The date has been set for February instead of January so as not to conflict with pre-final examination study.

Inter-fraternity Visiting Week will be held in April shortly after the spring recess.

Dads' Day, according to faculty committee chairman, Dorsey, will be held early in May after the roads are in good condition for the dads to drive here with their automobiles.

## GIRLS SOCIETY NAMED "SOPHOMORE EAGLES"

The new sophomore honorary society has been named "The Sophomore Eagles." The name was suggested by Professor Huddleston. Since the society is to be self-perpetuating and important in women's life on the campus, the name has been thought about long and earnestly. The following officers were elected: Arlene Robbins, president; Alice Webster, vice-president and chairman of the personnel system; Caroline Collins, secretary; Jessie Ashworth, treasurer.

It is the aim of the Sophomore Eagles to instill in freshmen a patriotism for their college so as to make them desire to make it better by going out for the various activities offered, also to develop a real interest in the welfare of the school.

## SWIPES

"Why all the pans of oil sitting around in the corners?"  
"I put 'em out for the mice. I hate to hear them squeak."—*Sun Dial.*

Scotch Gent: My lad, are you to be my caddie?  
Caddie: Yes, sir.  
Scotch G.: And how are you at finding lost balls?  
Caddie: Very good, sir.

S. Gent.: Well, look around and find one and we'll start the game.  
—*Ga. Tech. Yellow Jacket*

At last! A Greek, Greek-letter fraternity.

Only students of "Hellenic descent" are to be taken into the new fraternity which has just been established at the University of Illinois. The organization known as Delta Epsilon Pi is the first of its kind.

According to the petition of the founders, Delta Epsilon Pi will establish a chapter house at the beginning of the next semester.—*McGill Daily*

Silly: We have formed a club to preserve the virility of American poetry. What would you suggest for our motto?  
Cynic: "Save the Service and you save All."—*Carolina Buccaneer.*

Many a father has spent thousands of dollars to send his son to college and all he ever got was a quarterback.  
—*Chanticleer*

In order to find out how evenly distributed the final examinations occur, each student has been asked to fill out a blank similar to the following:

Please fill out and leave at the Registrar's office on or before Feb. 3.

### SCHEDULE OF FINALS

My examinations came as follows:

Date	Exam.
Wed. Jan. 26, 8:00 A.M.	(Ms 2, etc.)
Wed. Jan. 26, 1:30 P.M.	
Thurs. Jan. 27, 8:00 A.M.	
Thurs. Jan. 27, 1:30 P.M.	
Fri. Jan. 28, 8:00 A.M.	
Fri. Jan. 28, 1:30 P.M.	
Sat. Jan. 29, 8:00 A.M.

**Plans for Annual Winter Carnival Nearly Completed**

All those that saw the last production produced by the Masque are familiar with the high standard of work which they are doing this year, and judging by the present rehearsals, "Captain Applejack" will more than meet the expectations of those interested. The play was first produced in New York, December 30, 1921, at the Cort Theatre, and made a tremendous hit with New York theatre-goers. The play has just been released for amateur production, although the movies pictured it several seasons ago. The story reads like an Arabian Night's Adventure, and concerns a young man, who, bored with the strenuous activities of monotonous society, decides to go out into the world seeking adventure. But he did not have to go very far before he found himself involved in a most intricate adventure, all of which takes place within his own home. Hidden treasure, mystery, pirates, and all the appliances which go to make up a thrilling story are all used to make this a play worth seeing. Tickets for this performance were placed on sale at the bookstore Tuesday, January 18, and in view of the fact that seats to the Winter Carnival play are always in great demand, those who wish to attend are urged to make early reservations.

(Continued from Page One)  
**Plebes Trim Ricker but Lose to Strong Hebron Hoop Crew**

The third quarter saw the youngsters in a daze and the peppers were still cutting capers all over the floor. Capt. Lamb, Giant Conroy, Sam Brown, and the aforementioned Hinds were all up on the thirty-third green while the plebes were still on the twelfth at the end of the quarter.

Capt. Abbott's boys woke up in the final stanza and registered 13 points, Sylvester, Downing and Donahue doing their share of the work. "Bill" Millington and "Ed" Kent played a good game, but had tough luck in finding the steel circle. Dow, Kent and Lamb were taken out on

fouls but the game was cleanly fought. When the whistle blew the scoreboard said 38-25.

**Relay Prospects Look Rather Flat**

An offer to substitute a relay race between Maine and Bowdoin for the already scheduled Maine-New York University-Boston University event at the Boston A.A. Games Feb. 5 was received by Faculty Manager Benjamin C. Kent recently. The change of opponents will be declined by Maine, Professor Kent stated.

"If Bowdoin will not run us inside the state, we will not run them outside," Prof. Kent said, referring to yet unsuccessful attempts to arrange a dual indoor track meet with the Brunswick team during the winter season. An offer to hold such a meet between the two colleges was made some time ago by Professor Kent, the event to be staged on Washington's Birthday. While, according to the indoor track schedule released last week, a dual meet with Bates is set for this date, it is probable that the Bates meet will be postponed two weeks even if arrangements are not completed for a Bowdoin meet.

As far as the B.A.A. Games are concerned, the original program still holds, Professor Kent says, the Blue team facing B.U. and N.Y.U.

**"Speaking of fine tobaccos  
 —Have a Camel!"**

A NICETY of blending, a friendly cordiality of flavor, an inherent goodness that thrills from the first puff to the last — that's Camels. The warmth of golden sunlight on autumn fields gleams in their smoke. Camels are an expression of all that is the finest.

Camel quality and Camel excellence are recognized wherever smokers gather. The best of Turkish and Domestic tobaccos are

blended in this famous cigarette. For this reason Camels have consistent goodness. For this reason they never tire the taste, no matter how liberally you smoke them; never leave a cigarette after-taste.

And wherever experienced smokers gather, wherever the conversation turns to tobacco — to the world's best — someone is sure to say: "Speaking of fine tobaccos
