ORONO, MAINE, FEBRUARY 24, 1927

No. 20

THE LATE DECEASED BANANAS HAS LEAD AN EVENTFUL LIFE

CAREER AS MASCOT FULL OF STARTLING INCIDENTS

The most notorious female on the Campus died this last week. Queen Bananas VII of the bunch that have ruled here passed away due to some unknown ailment. It seems probable that some royal Bruin will be called to the throne in the spring in order that the imperial line of "Bananas" may be continued.

Bananas VII was the gift of a Maine alumnus of New Hampshire, but she transferred her affections to Maine. She arrived at the University in a weak and unsophisticated condition, and was kept at the Beta House for several days. Then she was handed over to the tender care of Mrs. Junkins who raised her from a cub.

At this period of her royal career, Queen Bananas was rather kittenish and ran about without the halting influence of collar and chain. She enjoyed swimming in the river, but if the truth is known she liked the Junkins bathtub much better. She became proficient in opening unlocked doors and was able to get to the porcelain pleasure giver several times. On one of these occasions she was in a temper and wrecked the bathroom considerably. Her first winter she passed enjoyably, sleeping in the attic of Mr. Junkins's shed.

Bananas must have been a suffragette for her second year she developed the uncoed like characteristic of man-hating. From then on she lavished her affections on Mrs. Junkins, whom she would obey quite consistently—for a royal personage. The rest of the world was forced to be on guard or get caught as one man did. He stopped his car and got out to get some water. In crossing by Bananas palace she rushed out for him and his life was

Maine Engineers Are Nationally Prominent

The last copy of "The Electrical Journal" contained an article by Donald F. Alexander, U. of M. '23 on "Accessories for Large Induction Motors." This is a very comprehensive article and gives valuable information on this phase of the subject. Mr. Alexander has made a remarkable record since graduation and is now in responsible charge of large induction motor design for the Westinghouse Electric & Manufacturing Company. One of his latest products being an 8,000 H.p. induction motor for the Ford Automobile Company.

At the recent annual meeting of the American Institute of Electrical Engineers a paper was presented by Arthur E. Silver, U. of M. '02, entitled "Standardization of Voltage Ratings for A. C. Power Systems and Equipment". This is a very timely subject along the lines of standardization as urged by Secretary Hoover. Mr. Silver is one of the chief engineers of the Electric Bond and Share Company located in New York City. When in college, Mr. Silver was a half mile runner and held the University record in that event.

In another paper on "The Losses in Synchronous Machines" by Messrs. Lafoon and Calvert, acknowledgement was made of the work last summer of P. E. Watson, a Senior in the department of Electrical Engineering. Mr. Watson spent last summer with the Westinghouse Electric & Manufacturing Company on research work with the above gentlemen. The results showed very creditable effort on the part of Mr. Watson.

At this same meeting, at which the University was represented by Dean Cloke and Professor Barrows, the following alumni were in attendance: A. E. Silver '02; C. A. Mayo ex-'09; H. H. Beverage '15; H. P. Sleeper '15; R. T. Pierce '15; L. G. Sawyer '15; Park Elliott '15; D. B. Perry '18; R. M. Kendall '19.

Several of these men have become nationally prominent in their respective lines, for instance, "The Beverage Antenna"; "Pierce Method of Measuring Power"; "Sleeper, Protection Engineer"; are terms often heard in the electrical industry.

Captains Hackett And Nanigian Sign Bond To Produce Champion Teams

Plan is to Bolster Up Student Interest

FREDDY CAN ALMOST SWIM!

Home Economics Girls Believe Their Ward Capable of Anything

Freddie is learning to swim! Yes, the North Hall girls are proud to state that the baby which the Home Economic instructors secured for them to take care of has two teeth, is trying to talk, and is learning to swim in his bath tub.

When Freddie came to the girls in October he weighed thirteen pounds and was what might be called just an uninteresting baby. He is now ten months old, weighs twenty-four pounds and is far from uninteresting. This gain in weight is due to the vitamin diet which the girls have kept him on consisting of spinach, milk, cod liver oil, orange juice and cream of wheat.

Like other young men, Freddie likes the company of the girls and often cries when no one is around to play with him. He is not an ugly baby, however, and has given the girls great amusement by trying to imitate the facial expression of one of the instructors when she laughs.

It won't be long now before Freddie will be a big boy for he has already outgrown baby clothes and now makes his appearance in rompers, overalls, coat and cap which the Junior Home Ec girls made for him in class. The girls are quite confident that in a short time Freddie will learn to walk and they are looking forward to the time when he does.

The above picture is not a movie contract picture, neither is it a Florida real estate picture. It is merely a picture of "Jiggs" Dressel having captains "Cocky" Hackett and "Mose" Nanigian sign a bond guaranteeing championship teams in baseball and football, respectively. Perhaps this bond signing has something to do with the recent discussion relative to abolishing either baseball or basketball. Perhaps a championship team in either baseball or basketball might serve to bolster up the waning student interest.

CALENDAR

- Feb. 25 Student-Faculty-Alumni Banquet at Bangor House, 8:30
- Feb. 25 Basketball, Freshmen vs. M.C.I.
- Feb. 26 Finals of Intra-mural Relay and Track and Field Events
- Feb. 26 Basketball, Freshmen vs. Mattanawcook Academy
- Basketball, Girls' Varsity vs. Posse Nissen
- Feb. 28, March 1 and 2 J. Stitt Wilson, speaker, in chapel
- Mar. 4 Dual Track and Field Meet, Freshmen vs. Bridgton
- Mar. 5 Dual Track and Field Meet, Maine vs. Bates
- Mar. 5 Math Club Dance, Alumni Hall
- Mar. 10, 11, and 12 Interscholastic Basketball Tournament
- Mar. 12 Basketball, Girls' Varsity vs. Alumni
- Mar. 18 Intercollegiate Debate, Maine vs. Colby
- Mar. 19 Basketball, Girls' Varsity vs. Conn. Aggies
- Mar. 25 to April 5 Spring Recess

NOTED SPEAKER TO BE HERE

J. Stitt Wilson Speaks in Chapel Feb. 28 to Marca 2nd

Mr. J. Stitt Wilson of Berkeley, California, is to speak in the chapel on the mornings of February 28, March 1st and 2nd, and each afternoon while here. The morning sessions will come at 9:40, with classes shortened, and the afternoon gatherings at 3:30. Each evening there will be open forums if enough interest is aroused to hold them, and Mr. Wilson will lead the discussion on problems of every day life.

J. Stitt Wilson is held throughout the country as one of America's great thinkers and speakers. For twenty years he has been a resident of Berkeley, California, and has for three years been mayor of that city. During the World War he was a tremendous factor in building public opinion and stimulating loyal cooperation of the people of California. Mr. Wilson has spent much of his time over other parts of the nation and abroad lecturing on social, industrial, international, and religious problems. His great interest in these problems goes back to his student days at Northwestern University, 25 years ago. There his broad and commanding view of humanity made a lasting impression on Henry Wade Rogers, then president of the University and on the faculty of the school. Mr. Wilson has twice resided in Great Britain and has taken a prominent part in the affairs of the British Labor Party. His prophetic insight into Christian implications of vast

BASKET BALL SEASON AT UNIVERSITY NOW REACHES ITS HEIGHT

INTRA-MURAL SEASON DRAWING TO A CLOSE

FROSH FACE TOUGH WEEK

Girls Defeated Nasson Last Week

The Granite State yearlings outshone the pebbles in a rather unexciting game at Durham last Saturday night. The frosh did not seem to be able to get started and trailed their opponents all through the game. The team is greatly weakened by the loss of Dow, who was a victim of the ineligibility bugaboo. Sylvester is a capable performer at the hub, but he does not have the speed and dash of the bespectacled pivot. Limsey Abbott did not play his usual game. Mink Kent and Bill Millington played good games altho the latter has been ill and did not play the full game. Donahue and Levensaller alternated at the left guard berth, but could not stop Patch, who sifted through and hooped the sphere seven times and then passed to Donnelly who had good luck in locating the ring. Kenyon is trying out a new combination and the yearling dribblers will probably be in better shape when they face their next opponent.

BOOKS ON MAINE'S PAST REVIEWED

"TALES OF BOLIVAR'S CHILDREN" AND "HISTORY OF UNIVERSITY OF MAINE" TELLS OF THE MAINE OF OTHER DAYS

"History of the University of Maine" by Dr. M. C. Fernald, is a book of interest to those wishing to know something of the history and growth of the University.

The author has traced its development from the time of the dedication of Coburn Hall in 1888 down to more recent additions and expansion. The book is well illustrated and the views of the young campus are extremely interesting, even though it closely resembles some of the farms which are seen across the river today. It is difficult to realize that the campus as it now appears did not always exist as such, and that the comparative "luxury" which we now enjoy only came about after years of struggle and courage. The high points of the university's development under its various presidents, the history and growth of the numerous fraternities, and the lives of the men for whom the campus halls have been named, are all recorded, and contribute much to a true and full appreciation of the spirit of Maine.

"Tales of Bolivar's Children," by Edward Everett Chase, is a collection of tales by a Maine man, about Maine men, and for Maine men. In it some of the traditions of Maine—traditions of Bolivar's children—are handed down to Maine men of the future.

And they are good tales. You'll like Mike Mahoney and his record in the twenty, the Dean-who-couldn't-add-fractions, and Mr. Spear's pig. Above all, you will like Bolivar. Bolivar the Great. Seldon, one of the men who discovered him and started him on his "mascotial" career, tells of his adventures and vicissitudes as Maine's beloved mascot.

Every Maine man should read "Tales of Bolivar's Children." It's invaluable for its definition of hazing if for no other reason. It is not all humorous. Some of

Intra-Mural Basketball

Intra-mural basketball will soon end one of its most successful seasons, if not the most successful season of its existence. The schedule was well arranged, the games were conducted according to standard rules and by competent officials. The intra-mural athletic association is to be congratulated.

The trophy, a large silver basketball mounted on a silver base, is an object that would add impetus to any sport and the organization winning it can be justly proud to have it grace its mantelpiece.

Intra-mural track and field events have already started. Judging by the enthusiasm with which the committee is starting the season, it shall also end successfully.

Praise for intra-mural athletics cannot be too loud. On a purely amateur basis, they provide recreation and amusement for the majority. Were it not for the gate receipts and the building up of school spirit, one could almost say that intra-mural sports were of more benefit than varsity sports.

As long as these distinctly amateur sports flourish we can rejoice for it shows that our athletic program does not over-emphasize any one sport, in spite of our championship football teams. Cranks and anti-everything's are fond of accusing victorious teams of being overemphasized.

DICKENS IMPERSONATOR READ LAST THURSDAY

Frank Speaight who is considered the greatest living Dickens impersonator read from the Pickwick papers last Thursday and his readings were enjoyed by one of the largest audiences that the chapel has seen for some time; composed not only of students but of residents of Orono, Old Town and Bangor, as well. Mr. Speaight read the scenes leading up to the trial scene. His rendering of the trial scene was one of the most enjoyable parts of the evening and his change from witness to judge by one slight action or change of voice was most amusing.

In closing Mr. Speaight asked to speak a few words in behalf of the classics. Mr. Speaight recommended reading the books that we associate with all our great men of letters, namely, Pilgrim's Progress, Robinson Crusoe and the Bible. He then recommended that we read the classics, and then if we must read modern books, wait. Wait until they are three years old. Those that survive this test will probably be worth reading.

Mr. Speaight impressed his audience with a sincere desire to show them the characters as Dickens knew them, and to bring to all an appreciation of Dickens' work.

S. F. A. Banquet tickets may be bought at the Bookstore not later than Friday noon at twelve o'clock. The banquet starts at 8:30. Special cars will be provided to bring the crowd back to the campus. Anyone connected with the University may attend.

Dumb: Which is the most important, a man's wife or his trousers?

Dumber: Well, a man is privileged to be on the street without his wife.—Log.

ARCHERY MATCHES ARE ARRANGED

Of all the sports in which a girl may take part in the University, only three: tennis, swimming, and archery are open to most after leaving school. Of these, archery is one of the best and is the newest in the United States, especially in the eastern colleges. It was introduced at the University of Maine in 1925 and is as yet considered only a minor sport. The points obtained by taking part in this sport are, however, counted in those necessary for a final athletic emblem, for which 1000 points are necessary.

Matches have been arranged with four eastern colleges, all of which consider archery a major sport.

Plans are underway to have Miss Cynthia Wesson, who is one of the champion women archers of the country, and also president of the National Hockey association, come to the University a few days this spring to give lectures and demonstrations. Miss Wesson will also introduce the game golf-archery. This is a game used very much on the Pacific Coast for recreation and is played on a field similar to a golf links. A target corresponds to the holes and the point is to see how many shots are required to cover a certain distance. This game will be tried out as soon as the weather is permissible.

Every year there are national archery matches held in New Hampshire or Massachusetts, open to both men and women. This year's champion is a school girl of Newton Center, Mass. It is hoped that very soon the University of Maine will be sending competitors to this meet, and that archery, instead of being a sport which few are familiar with, will be one of the major sports, ranking with tennis, hockey and basketball. The girls receiving "M's" for archery last year were Laura Scribon '28 and Phyllis DeBeck '29.

RIFLE TEAMS GOING STRONG

Girls Are Exceptionally Successful

The University of Maine Rifle Team has fired to date, eleven matches, of which they have won four and lost seven. They have defeated: Worcester, Conn. Aggies, Dennison.

They have lost to: C. C. of N. Y., Michigan, Penn. State, Rutgers, Culder, Nebraska, North Dakota.

The rifle range in the Indoor Field, is one of the best equipped in the country. It has 50 and 75 foot ranges. There are four targets, and these targets are on trolleys so that firing is never interrupted.

The varsity team uses the range Monday, Wednesday, and Friday afternoons, the freshmen team uses it on Tuesday and Thursday afternoons, and the freshman class in Rifle Marksmanship uses the range five mornings a week.

The firing members in the order of their standing for letters (RMr) at present are:

Cutting, C. A.; Rose, George; Baston, W. M.; Winch, E. C.; Kelso, E. G.; Balch, W. M.; Blackstone, E. A.; Davis, L. A.; Shirley, Noyes; Buckminster, P. H.; Libby, C. R.; Wooster, J.

Under the efficient coaching of Sergeant Ogilvie, the girls' rifle team is showing much improvement.

The results of the matches to date are as follows: George Washington Univ. 498, Maine 498; College of Washington, game cancelled because Washington's indoor gallery is still in the process of being built.

Cincinnati 497, Maine 496; West Virginia Univ. 486, Maine 496; Nevada 492, Maine 497.

The match this week is with Cornell University.

The average score for each girl is now 99.35 out of a possible 100.

On Friday evening, February 18, the girls of Balentine Hall gave a dance in the gymnasium.

The hall was decorated with red hearts and streamers and the dance orders were heart-shaped carrying out the idea of Valentine's Day.

The dance committee consisted of Frances Fuller who had charge of getting the orchestra and dance orders, Amy Adams, decorations, Ruth Hitchings, chaperones and Lillian Scott, refreshments.

The chaperones were Mrs. Delia Bird Sullivan, Mrs. Grace A. Neely, Dean Caroline Colvin and Professor and Mrs. Pollard. The Island City Five furnished music. About fifty couples were present.

RULES OF OWLS REVISED TO DATE

Below is printed a copy of the up to date rulings of the Sophomore Owls in regard to freshman behavior:

Conduct:
Say "Hello" to the students and "Good Morning," or "How do you do" to faculty members.

Carry matches for the upper classmen. Do not smoke on the campus. Leave ladies alone Always.

1. Do not take girls to or from gym dances.

2. You may take girls to house parties and to program dances open to freshmen.

Do not attend Sophomore Hop or Junior Prom.

Keep off the grass.

Dress:
Freshman caps or toques shall be worn except:

1. Sundays and campus holidays.
2. At formal dances and house parties.
3. When out for athletics with athletic suit in plain sight.

Freshmen must wear:

1. Coats at all times except at athletics or P. T.
2. May wear sweaters with numerals every Wednesday only.

Freshmen shall not wear:

1. Kid gloves, bow ties, sweaters, knickers, prep or high school insignia, hats (note above), sport jackets or sport wear of any kind as sailor pants, balloons (20 inches or over) and fur coats.

Miscellaneous:
The campus extends from Sigma Phi Sigma to the Orono bridge.

All rules are in force in Orono except the one concerned with smoking.

Permission may be obtained from the Senior Skulls in writing to accompany a lady on special occasions.

A freshman may be seen with a lady when accompanied by a senior provided there be no other lady present, that is, it must be a threesome not a foursome.

If sweaters are worn they must be covered at all times except as provided for numeral men.

Freshman caps shall be worn straight on the head.

DR. EYSTER GOES TO BUCKNELL

Dr. William H. Eyster of the University of Maine Biology department has been selected for the chair of Botany at Bucknell for next year, it has been announced by Dr. Emory Hunt, president. Under the present plan, Dr. Eyster will assume charge of the work in Botany at Bucknell at the opening of the fall semester.

Dr. Eyster was graduated from Bucknell with the class of 1904. He taught for several years at Mont Alto Academy, and in 1918 went to Cornell, where he later received the degree of Doctor of Philosophy. The next four years Dr. Eyster was assistant professor of Botany at the University of Missouri, and since 1924 professor of Botany at Maine. For several years Dr. Eyster has been making a special study of corn and its food value, and he expects to carry on his work on a larger scale after going to Bucknell.

FENCING CLASS MAY BE CANCELLED

Fencing is very liable to die out, according to Major Glover, who instructs the classes. Quite a lot of interest was shown the first part of the year and good sized classes resulted. Interest waned, however, and the classes became steadily smaller. Several professed their desire to continue the subject but were prevented by numerous conflicts. Only a few are attending class at the present time. Major Glover says that he will have to cancel it unless new interest is aroused and made manifest.

While fencing is not considered important by American students, it is really desirable in an institution where a military unit is maintained. One of the most important reasons is that it is desirable, or at least recommended, for students in advanced military to have a good knowledge of swordsmanship.

Waiter: How did you find your meat, sir?

Diner: Oh, I just turned my potato over and there it was!—Wet Hen.

Tillie: What would you call a man who hid behind a woman's skirts?

Willie: A magician.—Awgwan.

ORGANIZATIONS

"Where to Hike and Canoe Near the U. of M.," this pamphlet contains directions for hikes and canoe trips, and a large map of the university and the surrounding country. The directions are quite explicit and the number of miles, as well as the length of time required to take each trip, are given, with exact directions for the trip. Canoeing directions are included to such places as: Chemo Pond, Orson Island, Birch Stream, Sunkhaze Stream, Pushaw Pond, Holbrook Pond, and others. The exact condition of the current is stated. The mountain climbs include the trails to the following places: Chick Hill, Blackcap, Big Hill, Bald Mountain.

The Delta Tau Delta fraternity held its initiation this past week. The following men were made members: Harrison G. Bourne, Jr., Stephen H. Colby, John Gordon Fraser, Russell Vernard Lathrop, Arthur Hutchinson Lewis, Kenneth T. Merrill, Willis Millington, George A. Ramsdell, William F. Shea, Archibald V. Smith and William P. Walkley. The Portland Alumni Association was represented at the initiation banquet by Mr. Frank Snell and Mr. Warren Harmon.

On Saturday, Feb. 19, Chi Omega initiated the following girls: Edda Bailey, Wiscasset; Doris Beasley, Old Town; Lois Burr, Old Town; Winona Flint, East Hiram; Pauline Hall, Kennebunk; Helen MacLaughlin, Brewer; Zelda MacKenzie, Lincoln; Edna Rackliff, Sebago Lake.

The Phi Mu sorority held its annual Initiation Banquet Saturday evening, February 19, at the Penobscot Valley Country Club. Miss Priscilla Conant was the toastmistress. Several alumnae attended, among whom were Misses Marion and Dorothea Buzzell, Arline and Ada Wray, Ruth Coombs, Bee Palmer Libby, Betty Chase, Rachel Huddleston, Gladys Merrill, Frances Perry, Ruth Stevenson, Marjorie Willey, Mrs. Bowden, Mrs. Reid, Violet Boulter and Hilda Desmond.

The Phi Mu initiates are: Phyllis DeBeck, Franklin; Isabel O'Connor, Bangor; Dorothy Culley, Bangor; Barbara Johnson, Bangor; Frances White, Bangor; Doris LaPointe, Orono.

The winter meeting of the 4-H Club was held February 15 with Hope Craig and Virginia Smith, hostesses. The program was in charge of Neil Bishop and consisted of musical selections by Ermond Lewis at the piano, Wendell Mosher, mandolin, and reading by the chairman. Professor George E. Simmons was the speaker of the evening. He emphasized the need of all college people to be leaders in their communities when they go back home.

The following officers were elected for the coming year:

President: Omar Gibbs '28
Vice-president: Neil Bishop '28
Sec'y-Treas.: Barbara Pierce '28
Chairman of Spring Meeting: Mary Weimer '29

ICE CREAM BANDITS RAID PHI KAPPA SIGMA

The Phi Kappa Sigma Initiation Banquet was without ice cream last Saturday night. When the steward went to get it from the snow in the rear there was only a trail which led to the road by a roundabout way.

This recent raid recalls the depredations of the last two years. It became a recognized occurrence at the dormitory and some of the fraternity houses to go without the usual frozen delicacy on Sundays. Whoever the raiders were they were skillful enough to avoid detection and the missing ice cream has become one of the University's mysteries.

Glee Club Appeared At Bangor Chamber Of Commerce's Show

The Maine Glee Club was the first number on the program of the midnight show given under the direction of the Bangor Chamber of Commerce. The selections given were "Shadowland," "Mr. Boogaman," "Medley," and "The Stein Song," by the large audience. The next activity and all of them were favorably received of the Glee Club takes it upon a northern invasion sometime in the spring.

HI-LITES

The only Hi-Lite we saw this week was a lite-headed co-ed looking out the window at nothing.

The Intra-Mural relays started this week but all we can say at the present time is that some of the anchor men forgot to throw away their anchors before the race.

Last week was enlivened by several very exclusive ice cream festivals on the campus.

The studs who run around the campus with their mouths open must do so because:

They are imitating the Dickens impersonations of Mr. Speaight, or

They have a bad cold and can't breathe through their noses, or

They don't know any better.

If all the students who sleep in class Monday mornings were laid end to end in the Gym they would:

Reach around the track six times, and

Be a lot more comfortable.

A lot of those who registered for Co-Education seem to be taking excessive cuts already. Opportunity to make up these cuts will be afforded when Spring arrives.

The Phi Kappa Sigs must have been doing some heavy nite work Friday nite, when they left their flags out all nite.

The Phi Mu Deltas had a ritzy butler all last week to announce all callers and a uniformed sentinel in full pack patrolled the grounds and guarded the Pi Phi house with his life.

A certain division of a Spanish class last week thought that the Instructor was not feeling well and his conscientiousness prevented him from giving them a cut, so they very gallantly gave him one. The said Instructor was pleasantly surprised when he came to class and found no class.

The Balentine house party was a wow. All the favored were there, the girls went over large, the chaperones went to sleep and a good time was had by all.

Debaters Win From George Washington U.

Debating on the question of Resolved: That the Volstead Act should be modified to legalize the manufacture and sale of light beers and wines, the University of Maine won by a decision of 2 to 1 from the team of George Washington University. The debate was held in the chapel, Monday, February 21, with Maine upholding the negative side. The debaters were Robert Scott '28, William Reed '28 and Arthur Kelly '28. The opposing team was composed of W. A. McSwain, W. F. Williamson and J. T. Tremble. Professor Ashworth was the chairman of the evening, and the judges were Judge A. G. Averill and Principal E. B. Williams of Old Town and Mr. H. L. Bryant, coach of debating at Bangor High School.

The debate was broadcast and gave the patrons of WGBX another chance to hear a fine evening's program.

Maine may well feel proud of a team that is able to win from this college as it has been chosen to send a team to tour Europe this coming summer. Eighteen in the preliminary debates in various parts of the country. The men on this trip will debate also at Colby and Bates. It was felt that while the visitors had a finer delivery they did not have so much material to prove their point, nor did they show a definite plan of procedure whereby the country would be benefited by such a legislation.

On March 18 the Maine team has a dual debate with Colby and the following week a trip has been arranged with colleges near Boston. The president of Boston University has forbidden his students to debate on the affirmative side of the above question so the debate with that college will probably be on the war debts question.

HEARD IN ANY FRATERNITY HOUSE
"Is this dance formal, or can I wear my own clothes?"—Carnegie Puppet.

"What is this?" asked the professor in zoology, pointing to the picture of a zebra.

Enterprising Frosh: A horse in a bathing suit.—Bison.

CORRESPONDENCE

Editor "The Campus":

During this season of Winter Carnivals and Outing Sports, it seems advisable that we undertake the consideration of Winter Sports, both specialized and non-specialized, and the sponsoring of them on our own campus, with a view to their improvement in coming seasons. The "specialized" winter sports to which I refer are those of the Winter Carnival, sponsored by the Intra-Mural Association. The "non-specialized" winter sports are those of the Maine Outing Club. According to my understanding, the function of the Intra-Mural Association is to look after the various organized intra-mural activities, especially athletics.

The Winter Carnival is a high spot in our winter sports, but our winter outing activities neither begin nor end with that week of festivities, at least they need not and should not. If they do, it is usually because of a withdrawal of interest when the competition is past.

Because of the very informal, or as I have said, non-specialized nature of winter sports, an outing club should be the one to sponsor them, and since the Carnival is but an episode in the winter season's activities, the same club should have an important part in the staging of it. It is the thesis of these remarks then, that the Winter Carnival should be a function of the Outing Club, provided, however, that cooperation with the Intra-Mural Association be had where competition involves intra-mural interests.

I shall now show further why this appears to be the better policy and why the conditions seem favorable for its adoption.

The universally increasing activity of men and women in winter sports is noticeable on the campus. The founding of the Maine Outing Club last winter was an expression of this. Use of skis and snowshoes here during the past four years has doubled, yet there has not been a corresponding increase in the number of competitors or spectators at our Winter Carnivals. I mention spectators, for their presence contributes to the fun of the occasion quite as much as does that of the competitors. Leaving out considerations of weather, that "flatness" or lack of enthusiasm, of which we are more or less conscious, has been due in part to indifference of the student body and in part to the fatigued condition in which "mid-years" leave us. This suggests that, in the former case we need a live and active organization to enthuse and condition us for the occasion, and in the second case the event should be so placed in our calendar as to find us in the best frame of mind and physical condition. Witness, the Bates Carnival was held only last week.

The present function of the M. O. C. is to stimulate interest in and to provide facilities for hiking, camping, snowshoeing, skiing, and canoeing. Every week some feature, such as a bonfire snowshoe party or an overnight hike is providing real fun and recreation to its members, which now number nearly one hundred. Incidentally one develops proficiency, during these tramps, in the use of skis and snowshoes. This stands him in good stead when the Carnival comes along. These activities, when indulged in by a large number, are the basic preparation for the success of such an event. For an example of success, the Bates Outing Club staged their Winter Carnival, and their team won the meet.

A large percentage of Carnival partici-

pants have been influenced by the M.O.C. This is especially true of the co-eds. I cannot refrain from observing, however, that while the field in front of Balentine made an excellent stadium, the Hall itself made too good an amphitheater. Again, why not a crowd at a winter sports meet as well as at a football game?

When a large percent of the student body, men and women from all the houses, come out and make of themselves a strong Outing Club it is natural to expect that the individuals who are interested in either the competition in winter sports, "specialized," or in the fun of Outing, "non-specialized," or in both, will then be found within that club. We need all such persons, and with them the Outing Club of the future will be much stronger and more interesting than at present.

If then the staging of the Winter Carnival be made a function of such an outing club, cooperating with the Intra-Mural, if necessary, as suggested before, both large competition and an interested audience will be provided automatically.

The carnival committee, when a part of the Intra-Mural Association, is not a part of an organization with a membership capable of lending it active support. Within a strong, active outing club, the reverse would be true.

Furthermore, that committee is at present an instrument of which the majority of students know little, and with which they never meet as a body. On the other hand, the Carnival Committee of that Outing Club would be something more concrete and approachable in the eyes of the Club and the student body.

Therefore I believe that if all men who work for the success of the Carnival were doing so within an organization which makes winter sports its specialty, their efforts would net bigger results. Participation and support by competitors and spectators would be spontaneous and natural.

Very truly yours,
George W. C. Turner
President Maine Outing Club

Editor,
The Maine Campus.
My dear Mr. Editor:

I wish to correct the distinctly erroneous impression conveyed by the heading of your article in last week's Campus entitled EDUCATION MAJORS TO GET PRACTICE. As a matter of fact this work is not primarily for Education majors at all, as would seem to be quite clear from the content of the article. It is for any and all departments on the campus. When calls come for substitute teachers

Scoop's CORNER

By Scoop III

Percy Marks, in that exceptionally enlightening book "Which Way Parnassus?" states: "A college isn't only a collection of buildings, a board of trustees, a president, a dean, a faculty, and a student body; it is more, much more, and among other things it is a creator of a sentiment that is very precious. To ignore that sentiment is to ignore the soul of the college." This sentiment is sometimes called spirit, tradition, Alma Mater, and what not. That it exists is an undeniable fact, regardless how materialistic the present college generation wishes to classify itself. Much has been said about college spirit and its evolution into present day manifestations. It has even been broadly hinted that such a thing no longer exists.

Colleges of today have been commercialized, curriculums more hurried, complex, and less thorough; more on the plan of business and trade schools. Educators are now debating whether a college aims to teach the art of living or in making a living. If we are to believe that colleges, as generally interpreted, have become a thing of the past, then, in truth, we must bow to the decisions of the alarmists, and make the best of what we have. But it is difficult to accept such radicalism, without first making a thorough and truthful analysis. If, perchance, these lines come within the

choice of students to fill such calls is naturally first determined by the subjects required to be taught. The major instructors of these departments are always consulted. Those students who have gone out so far this year to fill temporary vacancies, and whose names appeared in your last issue, have happened to be majors in History, French, Latin and English, respectively.

Respectfully yours,
O. S. Lutes.

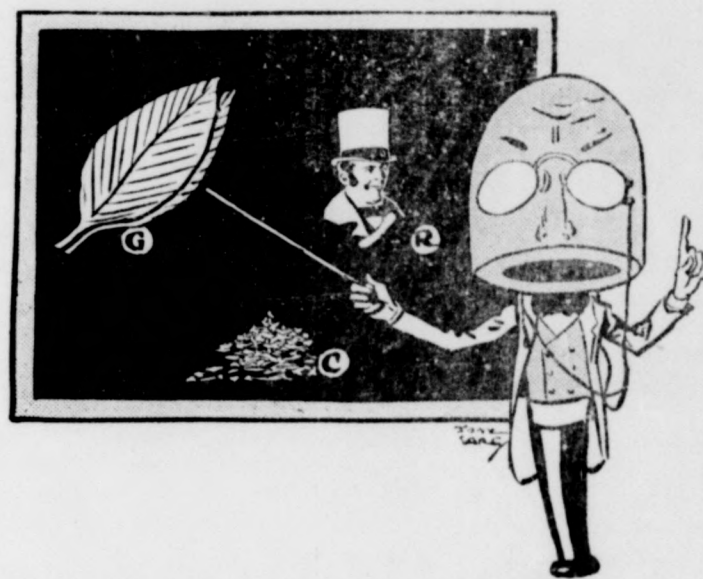

reach of any Maine alumnus, they might more readily admit some of its truth, since undergraduates, as a rule, do not like to admit the possession of any sentiment about their make-up, and truthfully so, as they are in no position to appreciate its full worth until the campus is no longer theirs. In the past few years there has been a tendency to hide individual laziness under the mantle of decaying college spirit, and Maine has been no exception to this. There are some in every university and college to whom their college work and Alma Mater mean nothing more than a more highly developed high school. These, fortunately, are in the minority. To others, and these we pity also, it means nothing more than text-books, laboratories, lectures, and the Dean's List. To the decreasing (?) majority it means something that can be hardly confined to mere descriptive words or phrases. It is something like life; stern, courageous, loving, and noble. Sentimental, all this? Yes, of course. All American colleges are extremely sentimental, and their value lies wholly within such precepts.

Who can talk wisely about Maine and

its spirit that has not walked under its elms and firs, in spring, fall, and winter? Who can hold back that wistful little tear, when coming back for Commencement, he first catches sight of Fernald's ivy-covered walls, or the belfry on Wingate, the melody of whose bell grows sweeter with the passing years? To many, June always brings back the memory of bygone years, when youth and opportunity stood hand in hand on University Oval and bade farewell to pleasant days and friendships. This is sentiment, Maine, and college! Maine will never fail so long as such sentiments remain visible, or so long as the sons of Maine seek life within its walls.

Sigma Nu fraternity held its initiation Thursday evening, eleven pledges becoming Sigma Nus. The initiates were: Lyman Abbott; Lester Chilman; Howard Donald; Harold Harding; Kingdon Harvey; Edmund Kimball; Vinton Savage; Russell Scribner; Wilson Seavey; Chester Smith; and Asa Wasgatt. After the ceremony a banquet was held at which "Bennie" Kent, chapter adviser, and G. H. Atwood, of Bangor, were the principal speakers.

Professor Pipe's popular illustrated lecture...

You can learn far more about TOBACCO from old Prof. Pipe, than you'll get by studying every treatise ever written on it. For Prof. Pipe is the world's most eminent authority on the subject... He knows tobacco from plant to pipe!

Experiments with every known species have convinced the Prof. that the one perfect pipe tobacco is Granger Rough Cut... He points out reasons for this conclusion: (G) the Granger-grade Burley, the choicest tobacco grown; (R) the Re-discovery of Wellman's mellowing method; and (C) the Cut of the large slow-burning flakes...

Prof. Pipe proves Granger, by practical demonstration—shows how it acts under fire... You never saw tobacco burn so slow, never tasted such cool, mild mellow-ness! The first pipeful is a liberal education! You'll put your Q. E. D. and capital O. K. on G. R. C. ... and all your pipe problems will be solved... forever!

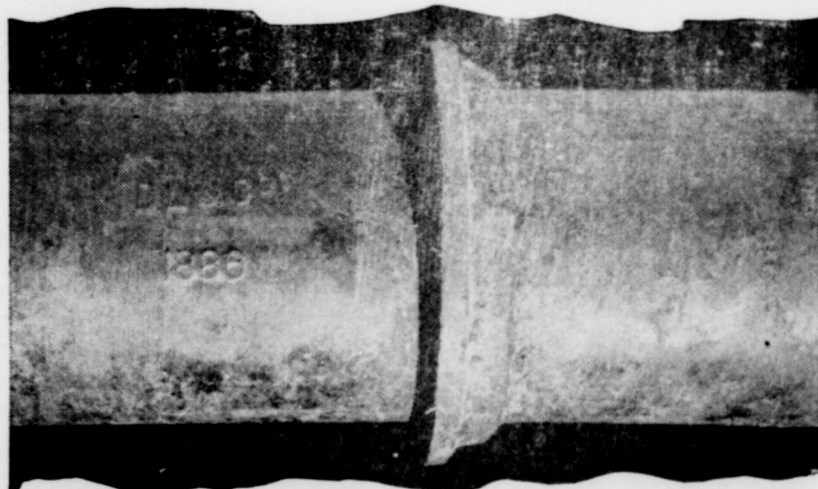

GRANGER ROUGH CUT

The half-pound vacuum tin is forty-five cents; the foil-pouch package, sealed in glassine, is ten cents.

Made for pipes only!

Granger Rough Cut is made by the Liggett & Myers Tobacco Company

Bell and Spigot Joint

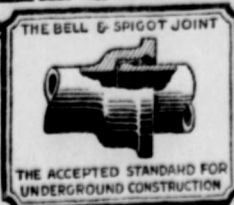

THE Bell and Spigot Joint for Cast Iron Pipe adopted over one hundred years ago, is the preferred joint today.

It is tight, flexible, easily made and non-corrodible—there are no bolts to rust out—it makes changes of alignment or insertion of special fittings a simple matter—it can be taken apart and the pipe used over again, without any injury—it is not subject to damage in transit—in fact, it embodies practically all of the desirable qualities in an underground joint.

The Deans' List

The following Dean's List is effective from Feb. 7 to Mar. 25, inclusive. Absences taken after Mar. 25 and previous to the posting of the new list revised by the mid-semester grades are taken at the student's own risk.

COLLEGE OF TECHNOLOGY

Sophomores: John B. Ames, Bridgton; Arthur R. Coggins, Malden, Mass.; George L. Coltart, Brewer; Harold E. Ellis, Augusta; Gerald C. Goudy, York Village; Elmer C. Horton, Fall River, Mass.; Abraham E. Ledder, Portland; Abram J. Libby, Bangor; Stanley O. McCarty, Eastport; Merton F. Morse, Gardiner; Roderic C. O'Connor, Bangor; Harold N. Powell, Orono; George W. Raye, Eastport; Archibald V. Smith, Steuben; Gordon Smith, Bangor; Carleton D. Staples, Eliot.

Juniors: George R. Chappell, Saco; Linwood S. Cotton, Cumberland Mills; Waldo W. Hill, Biddeford; Arthur J. Kelley, Jonesport; Philip H. Trickey, Bangor.

Seniors: Milton H. Clapp, Bangor; Henry G. Howard, South Paris; Selden J. Pearce, Hallowell; Charles A. Sherer, Rockland; Louie H. Smith, Vinalhaven; Raymond E. Tobey, Kittery Point; Paul E. Watson, Bangor; Joseph Wuraftic, Portland.

COLLEGE OF AGRICULTURE

Sophomores: Rutillus H. Allen, North Jay; Robert F. Chandler, New Gloucester; Vernon A. Gamage, Litchfield; Lyman S. Gray, Fryeburg; Clifford G. McIntire, Perham; Byron W. McPheters, Bangor; Delbert L. Moody, Waldoboro; Merton Parsons, South Paris; Myrtle M. Walker, Wiscasset.

Juniors: Gifford B. Adams, Boothbay Harbor; Fred C. Ames, Bridgton; Russell A. Bailey, Waterville; Neil S. Bishop, Bowdoinham; Allen W. Goodspeed, Upper Montclair, N. J.; Katherine W. Larchar, Old Town; Ardron B. Lewis, Springfield; Delmar B. Lovejoy, Mexico; James C. MacDonald, Newton, N. J.; Emma E. Thompson, Bangor; Andrew B. Welch, Bradley; Eldwin A. Wixson, Waterville.

Seniors: Vose L. Armstrong, Vanceboro; Thomas L. Dickson, Mexico; George F. Dow, Wayne; Elroy H. Gross, Waldoboro; Frederick S. Harris, Milo; Marada L. Johnson, Pittsfield; Elmer G. Kelso, Bar Mills; Ruth Leman, Liberty; Carlton H. Lewis, Old Orchard; Marguerite E. McQuaide, Bangor; Norman A. Meserve, Gorham, N. H.; Albert D. Nutting, Oxford; Edith H. O'Connor, Bangor; Lyndall K. Parker, Auburn; William Parsons, South Berwick; Joseph B. Pike, Bridgton; Margaret M. Preble, Brewer; Ralph J. Swift, Thomaston; Henry O. Trask, Mechanic Falls; George W. C. Turner, Hartford, Conn.; Henry C. Waldo, Randolph Center, Vt.; Alexander F. Waldron, Kittery Point; Eugene C. Winch, Bangor.

School Course: Leigh C. Plaisted, Camden; Leo M. Staples, South Penobscot.

COLLEGE OF ARTS AND SCIENCES

Sophomores: Jessie E. Ashworth, Orono; Edward A. Blank, Lowell, Mass.; Caroline E. Collins, Bangor; Barbara E. Damm, Belfast; Edward C. Kelley, Orono; Clayton T. Knox, South Rumford; Karl D. Larson, Bangor; Israel G. Luce, Old Orchard; Helen Moore, Greenville; Jet; Maple I. Percival, Dexter; Ramona F. Poley, Berlin, N. H.; Abraham L. Rubin, Bangor; Pauline J. Seavey, Greenfield, Mass.; Celia E. Sheriff, Portland; Evelyn C. Stalford, Bar Harbor; Roger C. Wilkins, Houlton.

Juniors: Helen F. Benner, Bangor; Adie M. Brown, Seawall; Louis Cohen, Swampscott, Mass.; Elizabeth M. Collins, Bangor; Elwood H. Gartley, Houlton; Hilda F. Ginsberg, Old Town; Carroll W. Johnson, Machias; Ernest H. Legere, Bangor; Elisabeth A. McGarrigle, Bangor; Mary A. McGuire, Stonington; Forrest W. Meader, Albion; Harold A. Medeiros, Vanceboro; Frederick C. Murphy, Van Buren; Carroll P. Osgood, Orono; Laura G. Pedder, Haverhill, Mass.; Thelma A. Perkins, Old Town; Clara E. Sawyer, Searsport; Marguerite J. Stanley, Berlin, N. H.; Elmer H. Ward, Hartland; Hollis H. Wooster, Rockport.

Seniors: Amy B. Adams, Patten; M. Pauline Aiken, Bangor; Edward M. Bayard, Orono; Mary B. Belinian, Bangor; Grace Bridges, Orono; Anna E. Clark, Bangor; Lawrence P. Cogswell, Old Town; Blandina C. Couillard, Bangor; Marion A. Farrington, Brewer; Waldron E. Fernald, E. Boothbay; Hilda L. Friedman, Bangor; Florence S. Gushee, Appleton; Margaret E. Johnson, Bangor; Florence M. Kirk, Bangor; Sylvia M. Kurson, Bar Harbor; Marion E. Lord, Kezar Falls; Donald F. McGary, Bangor; Martin V. MacLaughlin, Brewer; Howard S. McPhee, Bath; Annette S. Matthews, Hampden Highlands; Clara W. Peabody, Portland; Ada V. Peters, Bangor; Dorothy Q. Taylor, Springvale; Iva S. Waring, Orono; Daphne M. Winslow, Rockland; Serena Wood, Bangor.

FRESHMAN DEAN'S LIST

Charles K. Arey, South Portland; James P. Ashworth, Orono; Edna M. Bailey, Wiscasset; Doris L. Beasley, Old Town; James F. Booker, Gardiner; Dorothy M. Culley, Bangor; Robert Cutts, Kittery Point; Howard F. Donald, Uxbridge, Mass.; Albert S. Gates, Jr., Haverhill, Mass.; Edward A. Herrick, Charleston; Charles E. Hooper, Camden; Donaldson E. Horne, Belfast; Jenny R. Hutchinson, Orono; Harold H. Inman, Orono; Fred L. Lamoreau, Presque Isle; Frank W. McCann, Poughkeepsie, N. Y.; Lloyd McCollum, West Jonesport; Helen A. MacLaughlin, Brewer; Davis S. Marr, Millinocket; Elizabeth A. Mason, Bethel; Rachel Matthews, Hampden Highlands; Rebecca Matthews, Hampden Highlands; Harry R. Mayers, Hallowell; Richard T. Munce, Bangor; Timothy J. Ryan, Methuen, Mass.; Edward Stern, Bangor; Lee E. Wescott, Sebago Lake.

FIRST YEAR SPECIALS
Ruth T. Clough, Bangor; Herbert M. Worthley, Bangor.

SCHOOL COURSE

James E. Andrews, Lisbon Falls.
Following is a list of first year students who received all A or B grades for the Fall Semester 1926:

Books Compiled
For Outing Club

At the request of the Maine Outing Club, Mr. Walkley has compiled a list of books pertaining to camping, mountain climbing, and other open air pursuits. These books may be found in the stacks of the library by reference to the numbers appended. Other entertaining articles fill the pages of the bound volumes of such magazines as "Outing" and "The National Geographic," found in the basement stacks. The camera fiend will find here, too, worthy examples for emulation when he is free to take his weapon in hand and venture forth into the wilds.

LIST OF BOOKS FOR THE Outing Club
814.41 Burroughs, John. Essays.

796 Young, F. W. Mountain craft. Y86 1920.

Saturday afternoon nineteen members of the Maine Outing Club, chaperoned by Miss Green, snowshoed to the Chemo Camp and spent the night. The provisions hauled on a toboggan by two "Canadian-trailers" freshmen, arrived at an opportune time, and a supper of beans, rice pudding, bread, and coffee was eagerly devoured by the disreputable-looking crew.

After sufficient time had elapsed for recovery from this menu, the party adjourned to the forest living-room, where a huge bonfire, songs, and a snow-fight

furnished entertainment. Following the return to camp came a heated discussion as to who should "keep the home fires burning" during the weary watches. A card-party on a plank was squelched by the sleepy contingent, and soon the silence was punctuated only by snores of infinite variety of key.

"The morning broke without a sun." The fastidious ones, upon arising made use of snow dentrifice and snow massage cream. One lazy gentleman, on account of a peevish demand for a bathtub, was cast bodily into a snowbank, where his arrow collar was sadly wrecked.

Bacon, coffee, bread and butter, cereal, and chicken soup supplied a "light" breakfast. This was accompanied by demands from the upper bunk for a Sunday paper.

About ten A.M. began the return trek to civilization, with everyone, including the chaperone, packing his own blankets.

The last lap, from the Country Club, was lightened by the humane driver of a seven passenger Packard who smilingly cried: "Get right in, girls, packs and all, and let the weaker sex walk!"

Difficulties are things that show what men are.—Epictetus.

H A V E A C A M E L

[Upper classmen in smoke-shop, buying Camels]

Top in quality—first in popularity

EXPERIENCED smokers have proved it. Discriminating tobacco lovers by the million rediscover it each day and every evening as the friendly Camels are lighted. There simply is no better cigarette made. The choicest Turkish and Domestic tobaccos grown are bought for Camels—and such blending for taste and fragrance! Only the largest tobacco organization in the world could produce a cigarette like Camel.

In terms of popularity, Camel quality has reflected itself in the greatest preference ever given a cigarette. There

never was a tobacco word so famous, or a cigarette so good. First in popularity, because the best—that is the story of Camel, the biggest cigarette success ever known.

If you want such smoking enjoyment as you never hoped to find, just try Camels. Smooth, fragrant and mellow mild, from the first touch of the flame to the final puff, Camel will mean a revelation to you of tobacco goodness. For pleasure unalloyed, for the best that's made regardless of price, "Have a Camel!"

The Maine varsity took a two day trip to Portland and Durham last weekend. During their stay in the Forest City they played the So. Portland Independents and after a closely contested game lost by a score of 33-27. It was a rather listless game neither side appearing to have an edge on the other. Hinds appeared to be the outstanding man for the Indies while Kamenkovitch played the better game

Coach Kenyon's hoop artists have a very busy week ahead of them. With the sting of two defeats still fresh in their minds they are out to avenge the losses of last week end.

Tuesday night they journey to Bar Harbor to take on the seacoast lads. The frosh team defeated Bar Harbor in the first game of the season but both teams have developed since then, and the game in all probability will be a close one.

Thursday night the team will go to Bangor and take on the high school team. Bangor has lost only one game on their home floor this year so this game promises to be hard fought also.

Friday, in the indoor field, they will swap blows with Coach Cogan's crew of specialists. M.C.I. is the school, and can boast of one of the fastest prep school teams in the state. The following evening they will wind up this week's schedule of games by playing Mattanawcook Academy here.

The team is in good condition after their trip last weekend and ought to make a good showing in the games scheduled.

SWIPES

First Freshman: Who's the fellow with the big pipe?

Second Moron: That must be the sophomore smoker that we have been hearing about.—*Jack O' Lantern.*

"I'm raising a mustache; what color do you think it will be?"

"Gray at the rate it's growing now." —*Skiumah*

Hellas: And at the end of his letter he put a couple of X's. What does that mean?

Jealous: Simple girl, it means he's double-crossing you.—*Ategwau.*

Our own definition of a careful man is the one who drinks wood-alcohol out of a sanitary cup.—*Gargyle.*

Mr. Ford: Do you use tooth paste?
Mr. Fordson: Mercy, no; none of my teeth are loose.—*Purple Cow.*

"How did you know I was here?"
"I heard you wringing your hands." —*Whirlwind.*

That same night the boys of Westbrook Seminary avenged themselves of a defeat suffered at the hands of the Maine Frosh by beating them 30-20. The yearlings were handicapped by the small floor but led at the half 12-9. Westbrook came back in the second half and soon eased their way by the Frosh for a win.

Millington, Abbott and Downing were Maine's luminaries while Captain Young and Clamond outshone for the Paper City team, scoring 21 of the 30 points.

At Durham, N. Hampshire, last Saturday night the Maine basketball team suffered their second defeat at the hands of the Granite Staters. The game was not an exciting one and New Hampshire was never headed after the first few minutes of play.

Bangor Library Extends Privileges
To Outsiders

Last month the Bangor Public Library extended its privileges to out-of-town residents, charging only the nominal sum of \$1.00 per year. Anyone connected with the University of Maine may take advantage of this rate, which allows the borrower to take two novels and a reasonable number of books of non-fiction at one time. All except recent novels and books in great demand may be kept four weeks.

Because of its large endowment, the Bangor Library spends more than twice as much as the University Library for books and periodicals. Most of the University Library appropriation must be spent for books connected with the work of the different teaching departments, so that for current fiction and general reading the Bangor Library offers more than we can afford to have here.

Faculty members using the Bangor Library may choose between the dollar-a-year plan and a \$3.00 deposit, which gives the same privileges, and which is returned at any time when the borrower wishes to turn in his (or her) card.

The borrower may return by mail any books he has borrowed from Bangor, thus saving a trip or a fine for overdue books.

These are the days of record-breaking stunts. Kids are dashing across Catalina Channel. Mothers are swimming the English Channel. Golf scores are shaved down to 65. And the Prince of Wales has ridden a horse without being thrown.

But the greatest stunt of all has been put over in the tobacco field. A manufacturer has actually succeeded in making a cigarette that hasn't a cough in a carload. It's as smooth as cream to the throat... yet thrills like a soft kiss in the moonlight.

O.G....short for OLD GOLD.... that's the name of the new cigarette. It's being whispered from room to room.... from frat to frat.... from college to college. In fact, O.G.'s are now as popular as banjos, raccoon coats, vacations and junior proms. And the slogan, "Not a Cough in a Carload," has become as famous as, "So's Your Ol' Man."

You can smoke O.G.'s until one o'clock in the morning and not a throat tickle will mar your extemporaneous dissertation on religion, philosophy, old wines or royal flushes. And no after-taste will linger to remind you that you smoked three packs that day.—*Adv.*

"That's a new one on me," said the monkey as he scratched his back.—*Widow*

THIS HERD WON A \$1,000 AWARD FOR GOOD FEEDING

"We fed the right feed liberally"
And Mr. Schimmelpfenig's profit went up 43%

When W. J. Schimmelpfenig got a new manager for his dairy farm at Marshfield, Wis., last March, his herd of 19 Holsteins got a new ration.

Peter Bushman, the new manager, talked enthusiastically about Corn Gluten Feed. He had fed it for 17 years. So, the next day after he came, a load of it arrived at the Schimmelpfenig barn.

The records of the Marshfield Cow Testing Association take up the story here. From April 1 to October 1, 1926, six high cows produced 53,732 pounds of milk. They ate a grain ration of which 39% was Corn Gluten Feed (see ration).

Compare the two years

Now look at 1925. Five of the same cows were in the herd. A sixth, the high cow of that year, is added to make a fair comparison. These six cows produced 38,638 pounds of milk. They ate home grown grains largely, with small amounts of concen-

trates. "Stump" pasture both years. Thirty-nine per cent more milk in 1926; 43% more profit! For this record, certified by the official tester of the association, Mr. Schimmelpfenig was awarded first prize of \$1,000 in the contest conducted by the Associated Corn Products Manufacturers to encourage better feeding.

Good feed, good feeding

"We fed the right feed liberally," says Mr. Bushman.

There is much meaning in those words. This herd was not superior in productive capacity to thousands of others. It was fed

Corn Gluten Feed liberally—before pasture came and with pasture.

In the great dairy sections of the United States liberal feeding of Corn Gluten Feed is paying high returns. Test Corn Gluten Feed, for results, in your herd. Your dealer can supply you.

THE RATION

Average ration for 6 months of 1926
Corn Gluten Feed (39%) . . . 3.0 lbs.
Oats 17.0 lbs.
Oil Meal 10.0 lbs.
Corn 10.0 lbs.
Barley and Oats 10.0 lbs.

THE RESULT

(the six cows)
1925 1926
Apr.—Oct. Apr.—Oct. Increase
Milk 38,638 lbs. 53,732 lbs. 15,094 lbs.
Profit over feed cost \$524.23 \$751.36 47%
