## VARSITY PASTIMERS ARE WORKING DAILY FOR COMING SEASON

### BRICE EXPECTS TO DEVELOP STRONG TEAM FROM MATERIAL

### EIGHT VETERANS OUT

The proteges of Coach Brice are daily going through the preliminary exercises for the coming baseball season. On alternate days the infielders and outfielders practice in the Indoor Field in preparation for the heavy schedule drawn up by Faculty Manager Kent.

The prospects for the coming season are not so bad as several people try to believe. In a recent statement Coach Brice said that the outlook was as good this Spring as it was last year when Maine tied with Colby for first place in the State Series. On paper the other State colleges look better than Maine, they all having practically veteran teams. Maine was the hardest hit of all the Maine colleges by graduation. Bates appears to have about the best team at the present time but the other teams are far from being underrated.

Maine's weak point is admittedly in the pitching staff. Crozier, Captain of last year's winning aggregation, seems to be the man around whom the pitching activities will be laid. To help him Brice has several of last year's Freshman team; Goudy and Taft outstanding, and substitutes of the varsity, including Wass, Kelso, and others. At a scrub game last Saturday, Wass and Kelso bore the brunt of the pitching. As the men haven't had any severe workouts yet it is practically impossible to pick out any one man better than the rest.

The other positions, altho closely contested, are not so much of a problem as the pitching staff. Hamilton, who caught most of last season with a nearly perfect record, will in all probability be the dependent behind the bat. Peakes, Race, and Coltart are all pushing him to the place though. At first base, Hammy Hammond, who will probably divide his time between baseball and track, seems to be the most logical contender. Other contestants for this position are Peakes and Mose Nani-gian, the latter of which played a stellar game in the outfield last Spring. Undoubtedly he will be moved into second base to replace Joie Gay who transferred late in the winter. At shortstop there will probably be Bobby Durrell, erstwhile infielder of last year's team. Cassy Cassista, versatile third baseman, will in all likelihood play the same position again this year. Bill Reid and others will furnish plenty of competition for this position.

The outfield, somewhat weakened by the loss of Freddie Newhall through graduation.

## MILITARY HOP DATE SET FOR APRIL 8

The Military Hop committee has completed the arrangements for what promises to be one of the most successful social events of the year. As usual, the Hop is sponsored by the Scabbard and Blade Society, and comes on the first Friday after the Easter recess—this year, April 8th.

Lee Waring's Orchestra of Waterville has been secured for the evening and there will be dancing from 8 to 1. The gymnasium will be suitably decorated for the occasion.

The affair is to be strictly formal, but all military students will be expected to appear in uniform. Those military students who do not plan to attend should inform Sergeant Ashley not later than Friday, March 25th.

The Hop is going to feature a new attraction this year—the star fencers of Major Glover's team will contest in the finals of a tournament to determine the champion of the campus. Preliminaries are to be run off during the week and it is expected that the contestants for the crown will be at fever pitch in the final bouts.

## KAPPA SIGMA WINS TITLE

### Cops Intra-Mural Cup By Defeating Beta 20-17

In a hotly contested basketball game Saturday afternoon Kappa Sigma won the Intra-mural basketball tournament title from Beta Theta Pi. It was a close game most of the time with neither team far ahead of the other. Kappa Sig led at the half 7-6 and at the end of the third quarter 15-9. Betas showed their strength in the last period and began climbing up on the Kappas. With only 40 seconds to play the Betas started playing the stalling game as they were leading 17-16. A bad pass gave Bancroft the ball whereupon the youth gladly caged it. The ball was tossed up center again and this self-same Bancroft getting the tip from his teammate McCarthy took another shot at the basket and it was Kappa Sig's game—snatched from the Betas. After the Betas had made a unhindered finish, in 40 seconds. The trophy for the basketball championship is a silver basketball mounted on a small base, making it very unique and attractive—a trophy worth winning.

The summary:

#### KAPPA SIGMA (20)

BETA THETA PI (17)  
Sylvester, rf, 8.....rf, Osgood, 2  
Wilkins, lf.....lf, Ashworth  
McCarthy, c, 2.....c, Small, 5  
Bates, rb, 1.....rb, Kinney 10  
Noble, lb.....lb, Dickson  
Bancroft, lf, 9

## Technology Seniors Make Annual Trip

The four departments of the College of Technology are minus all seniors this week. These men, accompanied by various instructors are making their annual inspection trip, visiting plants and factories around Boston. In the department of Electrical Engineering, Professor W. E. Barrows in charge, those making the trip are: Berg, F. T.; Carpenter, L. J.; Clark, R. G.; Field, K. S.; Fifield, S. H.; Guilfoyle, P. J.; Lamoreau, P. D.; Lavorgna, M. L.; Moore, J. P.; O'Connor, W. B.; Otis, C. E.; Poor, B. T.; Sennet, H.; Tarr, J. E.; Tobey, R. E.; Turner, O. C.; Watson, P. E.; Webster, E. R.; Welch, H.; Wood, R. E.

The party from the Civil Engineering Department is in charge of Professor E. H. Sprague. Those in the party are: Atherton, C. R.; Blackwell, E. E.; Day, C. S.; Getchel, W. B.; Hartley, H. A.; Hodgins, E. B.; Howard, H. G.; Milliken, H. E.; Norton, H. R.; Pannoni, A. J.; Parker, C. F.; Poor, C. S.; Porter, A. B.; Redlon, J. A.; Robinson, P. S.; Sawyer, S. F.; Staples, E. L. F.; Webster, D.; Wurafic, J.

Professor C. A. Brautlecht is in charge of the party from the department of Chemistry and Chemical Engineering. It consists of: Bockus, C. T.; Brown, C. H.; Cha, S. H.; Clapp, M. H.; Copeland, E. W.; Engel, E. M.; Huestes, C. S.; Lyden, J. A.; Mitchell, A. B.; Pearce, S. J.; Proctor, K. L.; Sullivan, A. D.

From the department of Mechanical Engineering, Professor W. J. Sweetser is in charge. Those making the trip are: Armes, F. D.; Aronson, A. E.; Beatty, H. R.; Cassista, A. J.; Chapman, S. H.; Crawford, E. D.; Culbertson, H. F.; Hobson, R. C.; McGowan, G. H.; Nutting, P. L.; Scribner, E. D.; Sherer, C. A.; Smith, L. H.; Staples, A. J.; Stickney, W. C.; Templeton, S. J.; Whitehouse, P. A.

Candidates desiring to try out for the Service Rifle Team to participate in the National Match at Annapolis this May, are requested to report to the Armory Gallery Range. Friday is the last day for tryouts.

## ATTEMPT TO AROUSE STUDENT ENTHUSIASM FOR COMMENCEMENT

### WILL MAKE EXERCISES APPEAL MORE TO UNDERGRADUATES

"Let's Stay for Commencement" bids fair to become a well defined slogan among the entire student body within the next few weeks. It is the outcome of a movement to make the Commencement exercises appeal more strongly to the Juniors, Sophomores and Freshmen. Seniors are naturally planning to be on hand.

A committee on Commencement representing the faculty, recently appointed by President Boardman, together with representatives of the General Alumni organization have held a preliminary meeting in connection with the arrangement of a program differing in some respects from those held in previous years. The fact that so many of the undergraduate student body are absent from the campus at the time of our Commencement Exercises has been noted by visitors on the campus, particularly the members of the alumni. This absence is noted especially at the fraternity reunions where in many instances not more than the Senior members and a few resident under-graduates are in evidence at this important gathering.

In former days the freshman considered it part of his duty to the institution to attend the various exercises of the week and particularly his fraternity reunion. Sophomores and Juniors appreciating these interesting features, were more inclined to stay after their first year's experience.

For several years past, however, Military camp has been scheduled for the period immediately following finals and this arrangement has permitted upper-classmen to leave considerably earlier than was possible under the old schedule of military camp at another period of the year. As the Military camp will not be held this year, the schedule of final examinations brings the time up to Wednesday, June 8, only two days previous to the beginning of the Commencement Exercises.

It is now proposed to have at least one prominent baseball game on June 10th or 11th and other features are also being worked out which it is expected will be of interest not only to the Alumni but to the general student body.

The fact that the University of Maine has one of the largest and best bands in its history has led to a demand from those interested in arranging for Commencement, that they arrange to hold as many of the members as possible for Commencement exercises, with the idea that it takes the place of outside musical organizations hired for the occasion.

## R.O.T.C. CORPS HEARS LIEUT.-COL. MCENTEE

The entire R.O.T.C. corps was assembled in chapel Tuesday evening and heard Lieut.-Col. Girard L. McEntee give an illustrated lecture on the World War. As the lecturer himself had been overseas he was fully able to give a vivid and true account of everything which took place "over there."

The lecture started with a picture of a notice in the papers to the effect that Germany had placed various restrictions on ships sailing within certain zones. The effect of the sinking of the Lusitania on the American public was notable. President Wilson finally severed connections with Germany. Lieut.-Col. McEntee had various documents and papers reproduced on the screen. In addition to these papers were many maps, showing the various movements, month by month, on the battle field. Statistics were shown by diagrams, relating to the number of men each country had in the war. The lecture was closed with a picture thrown on the screen of the officials coming out of a railroad car just after having signed the armistice.

Lieut.-Col. McEntee is giving this same lecture in all the largest colleges and universities, going from here to Harvard.

## TWO MAINE PROFESSORS WIN FELLOWSHIP FOR ADVANCED STUDY ABROAD

### Drs. Eyster and Draper to Carry On Research Work in European Countries Next Fall

Announcement has been made that Dr. William H. Eyster, Professor of Botany, and Dr. John W. Draper, Associate Professor of English, have been awarded Fellowships for advanced study abroad, by the John Simon Guggenheim Memorial Foundation.

These fellowships were founded by Senator and Mrs. Guggenheim as a memorial to their son, who died in 1922. They are awarded for the purpose of carrying on research work abroad in any field of knowledge and for creative work in the fine arts. They are awarded to men and women of high intellectual qualifications who have demonstrated unusual capacity

## BRICE FAVORS RULE CHANGES

### Is Opposed to Plan of Dr. Hopkins

Fred Brice, coach of the Maine varsity football team, State Champions and tied for the championship of the New England Conference, recently expressed his views on the new changes made in collegiate football. Coach Brice's beliefs correspond with those of the leading football authorities in the East. Regarding the plan suggested by Ernest M. Hopkins, President of Dartmouth College, Mr. Brice says: "Let the game alone; it is good as it is." He continues: "Hopkins' theory is all right on paper, but not practical. In any college using that scheme, the result would be veritable civil war. The college spirit would be divided between the two teams."

(Continued on Page Four)

## 21 st. Farmers' Week Commences Monday

Next week the 21st Annual Farmers' Week is to be held on the Campus beginning Tuesday morning and ending Friday noon. The program includes many prominent speakers on both agricultural and home economics subjects. It is expected that the registration this year will exceed that of previous years.

It is only during recent years that Farmers' Week has been held during the college spring vacation. Formerly the program was carried out while college was in session and the week was one to which all agricultural students looked forward to with pleasure. It gave them an opportunity to hear many lectures and to make contact with prominent farmers and speakers.

A feature too, at that time which was one of the important events of the year was the annual agricultural club banquet, held at one of the hotels in Bangor as a climax to the week's program. All Farmers' Week visitors were entitled to attend and many of the agricultural alumni were on hand each year.

Two features are included in the home economics program this year. First the handicraft school. Two periods will be devoted each of the three days to giving instructions on the various kinds of handicraft and assisting those who desire to learn one or more of the operations. How to Increase the Cash Income is the other subject of importance. The discussion will be led by Professor Pearl S. Greene and several women who have been successful in making and selling articles are to give the Farmers' Week visitors the benefit of their experience.

In the agricultural program special emphasis is being placed upon poultry keeping, vegetable growing, economics and marketing, livestock, orcharding and seed improvement.

Ten associations or groups are to hold their annual or special meetings during the week. This includes the Bangor-Brewer Kiwanis club which is to hold its weekly luncheon on the campus and attend one or more of the lectures.

In the speakers list are seventy-eight names. These people are to give a total of 115 lectures and demonstrations. Prominent among the list of out of state speakers are the following: Professor J. R. Hepler, New Hampshire University, Roy E. Jones, Connecticut Agricultural College; Ray M. Koon, Massachusetts.

for productive scholarship, and who have their plans for future work definitely outlined. The purpose of the Foundation can well be summarized in the following statement made by Henry A. Moe, secretary, "The ideal application of a Fellowship on the Guggenheim Foundation discloses a definite and specific research or creative project already undertaken and in progress, which the applicant has carried to the point where he finds it necessary to have the benefit of the advice of a certain authority in his field. The Fellowships are not in the same category as the usual fellowships for graduate study. We

## ZOELLNER CONCERT PLEASES AUDIENCE

Wotan Zoellner, the young and much acclaimed violinist, played at chapel Thursday evening, March 17, before a most appreciative audience. Having been heralded by very favorable press comments the young artist was received with much enthusiasm and the hearty applause which followed each selection indicated more than all else the extent to which he had won the approval of his audience.

In addition to the formal program, a replica of which appeared in last week's Campus, the artist generously played several encore selections to fill the enthusiastic demands of the assembly.

The remarkable clearness of tone and the many techniques of music which the young Zoellner has so well mastered show his talent and the teachings of such an artist as Leopold Auer, whose pupil he has been for the past five years. After completing a concert tour of Europe Zoellner will make his debut in New York soon.

During his stay on the campus, which was extended to include a house party and visits to certain of the fraternity houses, he made many friends who recognized his ability and earnestly wish for him the brilliant future which is certain to be his.

### Dr. William H. Eyster

It is with deep regret that we learn of the resignation of Professor Eyster from the faculty, to take effect at the close of the present academic year. Dr. Eyster came to Maine in 1924 as Associate Professor of Botany, and in 1925 was appointed Professor of Botany. Speaking in terms of college years, Dr. Eyster has not been with us very long, hardly long enough, one might say, to become one of the "grand old men" of the university, and yet he has endeared himself to many, so much so that his loss will be deeply felt by both members of the faculty and student body. Dr. Eyster has always impressed us with his quiet dignity, courteous manner, and unfailing willingness to assist in any project which he thought himself capable of assisting. His ability as an inspiring teacher is unquestionable, and his remarkable personality such that it commanded lasting respect and effort. He had the happy faculty of giving you that impression that he was working WITH you, that your problems were his, and that scholarship was the means to an end, and not the end. Dr. Eyster has left a place that will be difficult to fill. The best wishes of the faculty and students are with him in the opportunity which is his and in the success which will crown his future work and efforts.

The University may well be proud of the distinction which it has been shown, through the Fellowships received by two of its faculty. Dr. Draper, we understand, will return to Maine after completing his studies abroad, having been granted a leave of absence for one year. His value as a member of the faculty has always been of the highest, and we hope to extend a very hearty welcome to him upon his return.

It was indeed gratifying to learn, through the statements of a recent visitor to the campus, that there was such a feeling of sincere co-operation evident among the fraternal groups. The importance of such feeling cannot be emphasized too strongly. Because of daily and intimate contacts, there is always the danger of the careless tendency to become cynical and mistrusting. It is very refreshing and encouraging to think that at Maine this feeling of mutual cooperation is so pronounced as to receive such whole-hearted commendation.

The *Campus* sincerely regrets the seeming inference made in the article "Prospective Teachers Met Last Week" appearing in last week's issue. Needless to cast any reflections upon the past performance, there was no intention whatsoever to ane of the bureau in question; rather, to inform interested students, that such a medium still exists, whose purpose is to assist any students interested in the teaching profession, as it has in the past.

Due to the absence of E. M. Engel and E. W. Copeland on the Senior Inspection Trip, this issue of the *Campus* was edited by O. A. Swickert as Acting Editor-in-chief, and George F. Mahoney as Acting Managing Editor.

## ORGANIZATIONS

An informal dance was given at Lambda Chi House, Saturday evening, March eighteenth. Music was furnished by the Island City Orchestra. Mr. and Mrs. B. C. Kent and Mrs. McDonough acted as chaperones.

The Sigma Chi fraternity gave an informal houseparty at their chapter house on Saturday evening, March 19.

Dean and Mrs. Paul Cloke and Professor and Mrs. Chadbourne acted as chaperones.

Starr's orchestra of Old Town played for the dancing.

An informal dance was held at the Phi Eta Kappa house on Friday evening, March 18.

The fraternity had as its house guest, Wotan Zoellner, the violinist, who attended the dance.

Mr. and Mrs. Stanley Wallace and Mrs. Verrill chaperoned.

Music was furnished by Rice's orchestra.

On Friday evening, March 18, Beta Theta Pi held an informal houseparty at their chapter house.

The committee in charge of the dance was Edward Palmer, Harold Ingalls, Everett Waltz and Arthur Russell Coggins. Bunny Russell's orchestra played. The chaperones were Mr. and Mrs. Youngs.

The annual formal initiation dance of the Pi Beta Phi was given Friday evening, March eighteenth at the Penobscot Valley Country Club. The snappy Troubadour quartet furnished music; Professor and Mrs. L. H. Pollard, Dean and Mrs. James S. Stevens and President and Mrs. Harold S. Boardman were the patrons and patronesses.

The Phi Kappa Sigma fraternity held an informal dance in the chapter house Saturday evening, March nineteenth. Mr. and Mrs. Luther J. Pollard were the chaperones, and Mrs. Abbot the matron. "Cy" Woodard and the Troubadour crew furnished the music.

A meeting of "El Circulo Espanol" was held Tuesday afternoon, March 15, at 22 Fernald Hall. After the business meeting, initiation was held at which several new members were taken into the club.

The following program was then presented:

Jokes.....D. Winslow  
Riddles.....C. Pillsbury  
Reading.....M. Levine  
Flower Novelty  
Music  
Play.....H. Wood, C. MacLaughlin,  
C. Sylvester, D. Files

At a meeting of the Debating Society Monday evening, the pledges to Delta Sigma Mu were announced.

Eligibility to this honorary debating fraternity consists in participation in intercollegiate debate. Freshmen are eligible for this honor, and from a choice of five pledges two are freshmen.

The pledges are:  
Arthur J. Kelly '28; William S. Reed '28, James P. Ashworth '30, Charles E. O'Connor '30, and in consideration of his earnest efforts to promote debating at the University of Maine, Professor Mark Bailey.

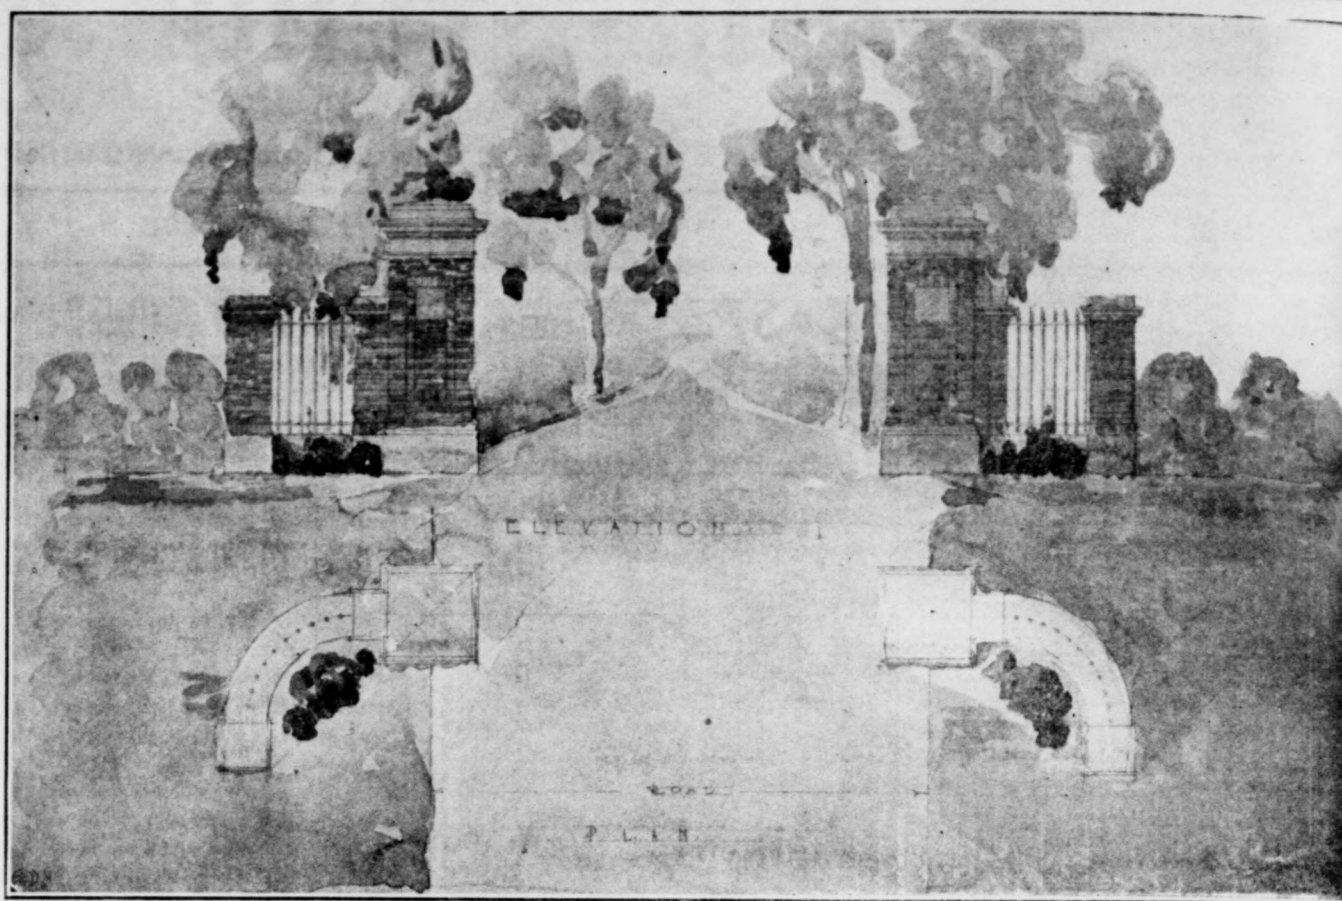

The present organization consists of the following: H. L. Ballou '26, President; Robert Scott '28, Secretary; G. G. Young '28, Edward Merrill '29, J. Hobart Pierce '28.

Signed  
H. L. Ballou

### DEAN HART VISITS SECONDARY SCHOOLS

Several years ago Maine instituted the system of "Personnel Records" which has received many favorable comments from other universities. Probably the most noteworthy feature of the system is the personal interview which is carried on, through Dean Hart, with every applicant before admission to the University is granted. These records are kept on file and are of valuable assistance to both members of the faculty and prospective employers. Dean Hart has already made a number of trips to the high schools and academies throughout the state, among the most notable being Bangor, Brewer, Old Town, M.C.I., Waterville, Coburn, Augusta, Gardiner, Kent's Hill, Jordan

(Continued on Page Three)

Proposed Gateway to be placed across the roadway leading into the campus at the Waiting Room.—Under consideration at present as a gift to the University by the Senior Class.

### Y.W.C.A. BEGINS INTEREST GROUPS

The Y.W.C.A. is now in the process of reorganization on the basis of interest groups. Girls who are interested in a particular question will band together under the leadership of a student, and will discuss the different phases of the subject under consideration, until they feel that no further discussion or investigation will be of benefit to them. Some of the subjects which will be considered are: "How to spend money," "How to be a good conversationalist," "What is going on in the world," "Campus problems, such as fraternities," "Prayer," or "Relation of Science to God."

These groups will not be permanent. As soon as one subject is exhausted, the members may join another group, or may form together to discuss an entirely new question. One or two members of the faculty, and some interested residents of Orono and Bangor will be asked to advise the groups, and to start them on the right channels of thought. The leader of each group will automatically become a member of Y.W.C.A. cabinet. The cabinet officers, about three in number, will be fixed, while the leaders will be continually changing as the groups change.

Two experimental groups will be started after vacation. One, on the subject of "Better relationship between fraternities," will be under the leadership of Arline Robbins. The other under the leadership of Nan Surface, will consider the question, "What attitude shall we take on the question of smoking."

It will take some time to reorganize according to the plan which has been formed. Marion Lord, Alice Webster, and Dorothy Taylor are working together with Miss Buchan on the formation of a questionnaire which will give information as to where the interests of the girls lie. Faculty members are being interviewed to discover their opinion of the plan, and to see if they are willing to cooperate with the students in carrying it out. The two groups which will start after vacation are merely an experiment. The groups will begin next fall under the perfected plan.

## INTERCOLLEGIATE NEWS

The athletic world is all agog at the football changes suggested by Dr. Hopkins, President of Dartmouth College, in a recent statement made public. Limitation of eligibility to members of the sophomore and junior classes, maintenance of two teams, and elimination of all coaching except as done by the students are the suggestions offered by President Hopkins as a means of freeing the game from the "dangers" that are besetting it.

Dr. Hopkins himself, an ardent football fan and a great follower of the game, seems to think that unless stopped soon, the game will fall of its own weight and stifle from within by its exasperated forces. It is his idea to make the game a game as it should be, and not an ordeal as it has grown to be in the past few years, to "liberate from its grip those who wish to gather up the threads of their academic career in their final undergraduate year, and to make the game one of self-expression of the students." It is his idea to get several prominent colleges to adopt the plan individually, the others to be governed by their actions.

The proposals are:

First, eligibility for participation in intercollegiate football teams to be limited to men in their sophomore and junior years in college.

Second, the games to be played on a reciprocal basis, by which each college would develop from the varsity squad two major teams, one to play at home and one at the rival's grounds.

Third, all coaching to be done by undergraduates, presumably by seniors who had acquired knowledge and experience during their participation in intercollegiate athletics.

The Associated Press made a hasty inquiry and compiled several opinions of different college heads and coaches. President Marsh of Boston University is heartily in favor of the plan and wishes to see it adopted. Most of the men though dislike to change their "status quo" and prefer to follow the old game for a few years longer to see if it will not cure itself of its so-called evils. "Tuss" McLaughry coach of famed "Iron Men" is in favor of the two team idea but is opposed to removing the professional coaching, saying that it would be like taking the teacher from the classroom. "Navy Bill" Ingraham thinks it an injustice to limit football to two classes because the schools might lose the football game, its money feature, and the rest of the program would fail.

Louis Andreas, head coach of Syracuse University, says that the time is not ripe for such changes and they are much too radical. The Graduate Manager of Athletics, Ernest B. Cozens, at University of Pennsylvania says that these changes are a rank injustice to the individual and because of injuries the game would probably go back to where it was when President Roosevelt had the rules changed to prevent injuries.

Fashion dispatches from London indicate that the world-renowned, correctly-dressed Englishman will appear, this spring, in suits of tomato red, sunshine yellow, raisin purple, and sunrise pink.

This, in a measure, means that the college student must surrender the last of his many former liberties, and suffer the sight of the worldly, parading about in rainbow hues indicative of minds in the making.

"It" is that super-human quality that enables a man to wear a red necktie to a formal dance, and be asked to another.

Rifle work is fun—if you like it.

May the engineers survive in Boston.

## FRESHMAN SEXTET Loses To M.C.I.

While the varsity defeated the "Connecticut Aggies," the freshmen, playing between the halves, lost to the more experienced and faster M.C.I. team by a score of 21 to 16.

The first half ended with the one-sided score 12 to 3 in favor of M.C.I. In the second half the freshmen rallied, and while holding their opponents to nine points, scored thirteen.

Sally Finks of the freshman team featured by shooting six consecutive fouls. Captain Huzzy, with her accurate shooting, scored the other ten points.

In the M.C.I. lineup, the tall center, Simms, got the tap for her team on every toss-up, thereby giving her team a decided advantage.

## Dean Hart Visits Secondary Schools (Continued from Page Two)

High, Edward Little, Hebron, Leavitt, Lisbon Falls, Livermore, Belfast, Gould, Bridgton, and many others. Dean Hart states that he has received many expressions of intention to register next fall, with the usual large delegations from Bangor, Brewer, Old Town, and Hebron. There are numerous schools still to be visited, and Dean Hart, accompanied by several other members of the faculty, are planning to complete their visits before the close of the present school year. The schools still to be visited are those located in Aroostook and Washington Counties, as well as those between Camden and Portland. As usual there is an unusually large demand on the part of women for admission. Since the innovation of this system it has been possible to determine the personal factors of a student as well as his scholastic abilities, and has assisted in maintaining the high standards now required by the University for admission.

## VARSITY GIRLS WIN FROM CONN. AGGIES

The girls' varsity basketball team defeated the Connecticut Aggies Saturday night by a score of 32 to 11.

Captain Winslow and "Lib" Sawyer, playing their last game for Maine, starred in their respective positions. Winslow scored 18 out of 32 points, while Sawyer, through her clever guarding, held her opponent to only one basket.

Stalford, in center, tapped the ball on every toss-up, and broke up most of the "Aggie's" passes.

"THE KID BROTHER"

Everything's going to be all right

THAT'S the way P. A. talks to you in the bowl of a pipe. This great national gloom-chaser stabs the darkest clouds with a ray of sunshine. Buy a tidy red tin of Prince Albert today and see. Tamp a load of this friendly tobacco into your jimmy-pipe and light up.

Cool as a sub-cellar. Sweet as the breath of fresh-cut violets. Fragrant in the tin and fragrant as you smoke it. Never a tongue-bite or a throat-parch. So mild you can hit it up from sun-up to sun-down, yet with a body that satisfies completely.

There's more philosophy in a pipe-load of P. A. than in the average Doctor's thesis. No matter what brand you are smoking now, you don't know how much your jimmy-pipe can mean to you until you pack it with good old Prince Albert. Get started now.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

—no other tobacco is like it!

### Varsity Pastimers Are Working Daily for Coming Season

(Continued from Page One)

ation and through the transfer of Nanigan to the infield is to be built around Captain Cocky Hackett. Duffy Lewis and Norm Meserve, both of whom have had previous experience in the outfield, appeared to be good bets. Crozier plays the outfield to some extent when not pitching as does Goudy, so Brice will not lack material.

The schedule is a tough one, including Harvard, who won the now non-existent Big Three Championship, and Tufts, rated among the better New England college teams, besides the State Series teams which, as has been previously stated, are nearly all veteran teams. Yet with all this heavy schedule Coach Brice is entirely confident of putting as good a team on the market as in previous successful seasons at the University.

### Brice Favors Rule Changes

(Continued from Page One)

The idea would not appeal to the students—there would be a howl. Only the big colleges would be able to employ this scheme successfully. How would it affect Maine? We have trouble enough getting together one team, to say nothing of two teams. The smaller colleges and universities would have no use whatsoever for the plan. Hopkins' idea is to get more boys playing the game, and to get away from the commercial aspect of the game. Football is popular—very popular with the public and the students. It is the best it has ever been. Hopkins' proposed scheme would not help the game, it would hurt it. I say, Let the game alone."

When asked his opinions on the new rulings concerning the goal posts, the huddle system, and the lateral pass, Coach Brice replied: "These new changes will not affect the Maine varsity any. All the new rules tend to speed up the game. The goal post change will be most noticeable to the public. This change will eliminate much goal kicking, and more passing or rushing the ball will be the result; there will be less goals from the field. This will make a tendency toward lateral passing. Another new rule is that a fumble on a lateral pass results in a dead ball. This lateral pass has practically won games for Maine. It worked in the Colby game last fall. It won for us in a game with Bowdoin three years ago. It will result in a more interesting and versatile game. Concerning the new time limit for huddles: "I heartily approve of the fifteen second limit. It will speed the game up and make it much more interesting to the spectators. Maine's huddle is a fast shift instead of a slow get-back. Every step in the huddle is taken with precision. So this new rule will not effect us any. All the new rules will not make any radical change in Maine's game."

### Two Maine Professors Win Fellowships for Advanced Study Abroad

(Continued from Page One)

are not financing Ph.D. research."

These Fellowships are awarded annually and there are usually over a thousand applicants. Of this, awards were made to only 63 persons, for the year 1927-28. The Fellows named from the New England colleges and universities include two from Maine, two from Massachusetts Institute of Technology, two from Harvard, one from Wellesley, and one from Trinity.

The work to be undertaken by Dr. Eyster is to determine the particular part of the photosynthetic process that is performed by each of the four chloroplastid pigments and the related problems attended to it. He will conduct his studies in the laboratories of Richard Wilstaetter, Berlin, and in other German Universities.

Dr. Eyster was born in 1889, at Fishers

Ferry, Pennsylvania, and was graduated from Bucknell University, A.B., summa cum laude, and M.A., 1914, and Cornell University, Ph.D., 1920.

Instructor in Biology, Pennsylvania State Forest Academy, 1914-1916; Head of the Department of Science, Cortland New York State Normal School, 1916-1918; Assistant in Genetics, 1918-1919, Instructor in Botany, 1919-1920, Cornell University; Assistant Professor of Botany, University of Missouri, 1920-1924; Associate Professor of Botany, 1924-1925, Professor of Botany, 1925-1927, University of Maine; Professor of Botany, Bucknell University, 1928----

Publications: Articles in the Journal of Heredity, Genetics, University of Missouri Research Bulletin, Science, American Journal of Botany, Journal of General Physiology, American Naturalist, Botanical Gazette, and Proceedings of the Fourth International Botanical Congress.

He is a member of Sigma Xi, Phi Kappa Phi, Phi Sigma, Phi Gamma Delta, American Botanical Society, American Genetic Society, American Association of University Professors, Fellow, American Association for the Advancement of Science, and Fellow, John Simon Guggenheim Memorial Foundation. Following the completion of his study abroad, Dr. Eyster will return to this country and assume the duties of Professor of Botany at Bucknell University. During his absence a large greenhouse is to be constructed there for his use.

The work to be undertaken by Dr. Draper is the production of a bibliography of eighteenth century works on Esthetics, and for research into the origin of the "Graveyard School" of eighteenth century poetry. He will conduct his work chiefly at the British Museum. Dr. Draper was born at Hastings-on-the-Hudson, New York, 1893. He received his B.A. and M.A. from New York University and his Ph.D. from Harvard.

He has been an instructor in English in New York University and University of Minnesota; a lecturer in Bryn Mawr College, and associate and professor at the University of Maine. In the summer of 1925 he was visiting professor at Harvard. He is the author of several volumes of prose and verse of which the most notable is "William Mason," a study of eighteenth century English culture. This has been favorably received both in this country and abroad. He has edited two University of Maine Studies in the English Department, and has contributed about 20 articles to philological periodicals and reviews in England, Holland, and Germany as well as America. It is understood that the recipients of these fellowships shall embody the results of their investigations in the form of a book which will contribute to the sum of human knowledge. Dr. Draper will be given leave of absence from the University during the next academic year, and will assume his professorial duties in September 1928.

At the Agricultural Club meeting Wednesday, March 23, 1927, the following pledges were announced to become members of Alpha Zeta, the honorary Agricultural fraternity:

Eldwin A. Wixon '28, Omar Gibbs '28, Merton S. Parsons '29, Rutillus H. Allen '29.

### LAW STUDENTS THE BOSTON UNIVERSITY LAW SCHOOL

Trains students in principles of the law and the technique of the profession and prepares them for active practice wherever the English system of law prevails. Course for LL.B., fitting for admission to the bar, requires three school years.

Post graduate course of one year leads to degree of LL.M. Two years of college instruction is required for admission.

Limited Special Scholarships, \$75 per year to needy college graduates.

### Attempt to Arouse Student Enthusiasm for Commencement

(Continued from Page One)

Another student organization that has particularly come to the front is the combined Musical and Glee clubs of the male and female students and it is hoped also that arrangements may be made to hold these for an entertainment sometime during the early part of the Commencement Program.

Arrangements are also under way to have one of the most beloved and respected former presidents of the University present for one of the Commencement addresses and if so, a rare opportunity will be afforded for the undergraduate body to listen to a man who so successfully directed the affairs of the institution in its earlier days.

Altogether the Commencement Program gives promise of being one of the most interesting ever worked out and its success will hinge, to a great degree, not only upon a large attendance of the Alumni and friends of the graduating class but upon the number of undergraduates who will remain for the event. "Let's Stay for Commencement."

### 21st Farmers' Week Commences Tuesday

(Continued from Page One)

setts Agricultural College Experiment Station; J. C. McDowell, U. S. Department of Agriculture, Washington; Willard A. Munson, Director of Extension Service, Massachusetts Agricultural College; H. W. Riley, Head of the Department of Agricultural Engineering, Cornell University; H. R. Tolley, Head of the Department of Agriculture, Washington; Dr. C. E. Woodward, Head of the Forestry Department, University of New Hampshire; Mrs. Annette Dimock, former Home Economics teacher from East Corinth, Vermont and Mrs. Ida Harrington of Providence, Rhode Island.

Last year the registration was the largest on record, being 472. If inquiries for programs and room reservations are any indication of interest, this year the registration should be larger than at any time heretofore.

The highest lite of the week was the lecture to the R.O.T.C. Did you flunk your prelims the following day?

### What, Ho!

A class at George Washington University recently waited fifteen minutes for an instructor and then dispersed. The next day the instructor claimed to have been in the class because he had left his hat on the desk. On the following day upon entering the classroom he was greeted with rows of chairs occupied only by hats, but not one student. Our informant does not state whether or not the instructor left his hat and went home.

Illustrated booklet on application. For further information write to Dr. Norris A. Briscoe, Director School of Retailing, Washington Square East, New York City.

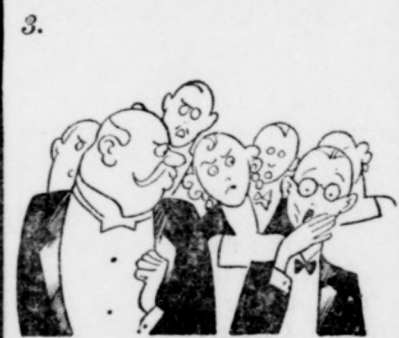

### IT HAPPENED IN THE SECOND ACT! A TRAGIC SCENE . . . BUT IT HAD A HAPPY ENDING

1. It was the "big moment" in the play. The suspense was terrific. "At last, my proud beauty, I have you in my power" . . . the villain snarled. "I am going to . . ."

2. Just then Clarence started to cough. Great Guns! How he coughed. He couldn't stop; his throat tickled so.

3. "Put him out!" . . . someone yelled. If looks could kill, Clarence would have been murdered by fifty people around him.

4. The curses of the villain were drowned by the "cussing" of Clarence. But what could the poor fellow do! When a man's throat tickles . . . he's gotta cough!

5. The next morning Clarence switched to Old Gold Cigarettes. "No more sandpaper smokes for me," he said. "From now on, I'll smoke the blend that soothes the throat while it thrills the taste."
