PRES. BOARDMAN EXPLAINS CHANGES IN NEW CALENDAR

Majority of New England Colleges and Universities Have Longer School Year Than Maine

PETITIONS WILL RECEIVE NO CONSIDERATION

The desire to make the length of the college year of this University conform with those of other colleges and universities of New England, was the principal reason given by President Boardman when questioned concerning the recent change made in the school calendar by the administration. "I had hoped," President Boardman said, "to add one week to the school year, but we were successful in adding only three days. These three days have been taken off the Christmas vacation, which has been 17 days, but in the future will be just two weeks."

"It was felt that our school year should be lengthened," President Boardman continued, "and it was a question whether college should be started earlier in the fall, or last longer in the spring. We submitted our plans to the Student Senate, and were surprised when it did not favor adding time on to the beginning of the year. The faculty took the same stand also. We inquired and found that it would be agreeable to the College of Technology to start a week earlier in the fall. But this idea did not meet with favor with the summer school people, who thought that they should have a longer vacation after their six weeks of school during the summer. So three days have been subtracted from the Christmas vacation. Personal consideration will be given by the deans to those who wish to work during the holidays."

"A few days off for winter carnival have been refused because too many students have regarded this as an ordinary holiday, having gone home and helped make our carnivals of the past failures." Washington's birthday will be a University holiday next year. The Christmas recess will start on a Tuesday afternoon, Dec. 18, and will end Wed. morning, Jan. 2.

A chart showing the lengths of the college years of the New England colleges and universities, their holidays, vacations, etc., was shown to the Campus. The average of these proved to be exactly one week longer than the college year of this institution, but the addition of our Freshman Week made the terms equal.

President Boardman said that petitions of the usual variety which are broadcast over the campus will receive no consideration, although the board of administration will be glad to listen to any constructive criticism.

Undergraduate Committee To Submit Questionnaire

The Undergraduate Research Committee, the group of students who make up the mouthpiece of student opinion for the President, announces that their latest project is at last completed. This is a questionnaire by means of which every student will be able to express his candid opinion on many matters pertaining to college without danger of getting "in Dutch", in case his opinion does not coincide with that of the authorities.

This questionnaire is the result of several months of careful and thoughtful work, and is being put into the best possible order by Prof. Dickinson of the Psychology department. Questions included will cover University Administration, Faculty, Athletics, Curricula, and Activities. Opportunity will be afforded to comment on the present and proposed calendar.

The only remaining problem in this case is the best method of circulating these questionnaires among the students. It is obviously useless to have only a small portion of the student body express themselves. A very large percent of both men and women must respond, or all the work

(Continued on Page Four)

STUDENTS ARE SHOWN LIFE SAVING METHODS

On Monday, Tuesday, and Wednesday, Mr. E. P. Noyes of the Central Maine Power Company gave demonstrations in the Schaeffer method of artificial respiration.

He made the point clear that this method was used on people who could not breathe for themselves, caused from drowning, gas, smoke, carbon monoxide fumes, and electrical shock. Mr. Noyes in speaking, emphasized the following: "The person appears dead, his skin is somewhat blue in color, and no trace of heartbeats can be detected by the stethoscope. It is necessary that the rescuer begin work upon the patient at once. The victim must be kept warm and the limbs should be rubbed toward the heart. If you hear no air coming from his lungs when you apply pressure, it is evident that his throat is clogged with foreign matter, and this must be cleared out immediately. If you hear air coming from the lungs when pressure is applied, you are helping the victim to breathe. You must not give up applying pressure, but keep at it until he shows signs of coming to. You can generally tell if a person is regaining consciousness if he gives a sigh or by slight movement of his body. At this stage, it is best to apply the pressure easily, and in time with his breathing."

In an electric shock the blood goes to the head, and sometimes the victim becomes violent and gives much resistance to treatment. The shock paralyzes the muscles of the diaphragm.

In the case of electrocution, the current goes through the blood stream and disintegrates the blood. Nothing can be done in this case as the person is dead. You cannot tell if a person has a shock or is

(Continued on Page Four)

NOTED AUTHOR TO GIVE LECTURE IN CHAPEL

Dr. Mary Ellen Chase, who is to be on the campus from March 21 to 23 inclusive as a guest of her mother at the Phi Mu Delta house, has been asked to speak at a special chapel next Friday. She has taken as her subject "The Imagination in College Life."

Dr. Chase received the B. A. degree in History under Dr. Caroline Colvin at the University of Maine in 1909. From 1909 to 1914 she taught in private schools in the Middle West, following which she took graduate work in English at the University of Minnesota with degrees of M. A. in 1917, and Ph.D. in 1922. She was Assistant Professor at Minnesota in English Literature until 1926 and since that time she has held the position of Associate Professor of English at Smith College.

For some years she has lectured on English Literature and also on the Modern Novel. On March 10th she spoke in Boston before the New England Association of Teachers of English.

From 1918 to the present time Dr. Chase has had essays published in the Atlantic Monthly and stories in Harper's and Scribner's Magazines. She has written two books about Maine and Maine people, "Mary Christmas," 1926 and "Uplands," 1927, both published by the Atlantic Monthly Press. A new book, published by the University of Minnesota Press a few weeks ago, and called "Thomas Hardy from Serial to Novel", deals with the literary methods of the late novelist.

This is Dr. Chase's first visit to her Alma Mater since she graduated in 1909.

INTERESTING ANTICS PERFORMED AT CIRCUS

The Circus has come and gone, leaving behind it pleasant recollections of an evening spent in watching the antics, performances, and demonstrations of a group of talented performers brought here by Messrs. Bingling and Bungling.

Mary, Queen of Scot(ch) was one of the first performers. She and her partner, held the audience spellbound by their performances on a tight-rope (sic!). The rope was kept taut by the combined efforts of a constable of police and an obstreperous personage who would not be suppressed, subdued, controlled or ejected.

Then there were exhibitions of tumbling by athletic students of both sexes. Marked ability characterized this act.

Another act that was relished by the audience was that of the "Whattizis" a ferocious animal, unafraid of anything. He even disregarded cartridges until he happened to get in front of a loaded one. His interest in proceedings ceased then and there. His visitors were apparently closer to his heart than was his audience. He roared his disapproval of the proceedings, and the spectators roared their approval of his proceedings.

Clowns, too, were present and added their full share of fun. Near the close of the circus they staged a drinking bout. Some of the clowns exhibited the effects of hard liquor in a very realistic manner.

The fencing and saber matches were enjoyed by the audience. Real skill and technique were displayed by the contestants in these two difficult sports.

Another feature which was well received was the fast and furious air-tearing encounter between "Bossy" Gillis and "Big Bill" Thompson. Bossy because of his diminutive size, succeeded in dodging his opponent so much that "Big" Bill wore himself out in his efforts to hit his elusive opponent. Then Bossy stepped in and scored an easy knockout over the Chicagoan.

Thanks are due the M.C.A. for inducing the proprietor of this world-famed circus to come to Maine. The Committee consisted of Bob Parks, Chairman, Bill Bixby, Doc Moulton, Archie Smith, Dot Ross and Sylvia Gould.

BASKETBALL TOURNAMENT ATTRACTS MANY TEAMS

Fort Fairfield, Old Town, Waterville, and Dexter High Schools Win in Play-offs For Entrance

KEEN COMPETITION EXPECTED IN BOTH CLASSES

BETA THETA PI WINS INTRA-MURAL TROPHY

The finals of the Intra-Mural basketball tournament were played last week with Beta Theta Pi winning the silver basketball offered by the Intra-Mural A.A. for the champion team. Kappa Sigma, fresh from a two point victory over Phi Kappa, winner of the Southern League, entered the finals the under team. The end of the half found the Betas far in the lead with a score of 21-6. But in the second half the Kappa Sigs, led on by the sterling playing of Lee Stevens, matched point for point with the Betas, and the game ended 37-22 in favor of the Betas, who has not lost a game this season.

Osgood and Packard were the leading scorers of the game, and the leading players for the Betas. Stevens and Bancroft played the better ball for the Kappa Sigs, although the scoring was more distributed among the players.

MAINE DEBATERS WILL MEET COLBY MARCH 19

On Monday, March 19, the Maine Intercollegiate debaters will take part in a dual debate with Colby.

The negative teams of both institutions are scheduled to travel—Maine sending its negative team to Colby to debate against the Colby affirmative and Colby sending its negative team here to debate against our affirmative.

The question that has been discussed during the current season will be debated *Resolved, that the United States should condemn the foreign policy as administered under President Coolidge with special reference to Nicaragua.*

As yet the teams that are to represent Maine, have not been chosen for this dual debate. However, the teams will be chosen from the following groups:

Negative: George Ankeles, Asa Wasgatt, Charles Coughlin, James Ashworth, and David Fuller.

Affirmative: Edward Stern, George McGillicuddy, Clayton Knox, Charles O'Connor, and Edward Greeley.

Of these groups the following have already participated in debate this year:

For the negative: George Ankeles, David Fuller, and Asa Wasgatt debated against the University of New Hampshire winning the decision after a keenly contested debate.

For the affirmative: Charles O'Connor, Edward Stern, and Edward Greeley debated on the Boston trip.

Monday's debate will be held in the Chapel beginning at 3.30 P.M.

Old Town, Fort Fairfield, Waterville, and Dexter complete the list of high school entries for the Eighth Annual Intercollegiate Basketball Tournament, which is being held here today, Friday, and Saturday. Old Town won over Bangor at Bangor 27-18, yesterday afternoon. Fort Fairfield defeated Stearns High of Millinocket, 21-18, in a fast and exciting game in the indoor field, yesterday. Waterville beat Newport, 30-19, at Hartland Tuesday evening, and Dexter got the better of Crosby High of Belfast in a close game in the indoor field Tuesday evening, 24-22. Winslow, Bar Harbor, Brownville Junction, and Presque Isle are the other four high schools which were selected to compete in the tournament.

For prep schools, E.M.C.S., Hebron, M.C.I., Kents Hill, Aroostook Central Institute, Lee Academy, and Higgins Classical Institute are entered.

There doesn't seem to be much doubt as to which teams will fight it out in the finals of the prep school division, as Kents Hill and Hebron loom as the "big two." The outcome of this game, however, isn't so generally prophesied, as these two teams appear to be very even, although Hebron has beaten Kents Hill two games out of three. Still, M.C.I., or possibly E.M.C.S., may reach the finals. A.C.I., Higgins, and Lee Academy are not reckoned on to give their opponents much opposition.

The high schools offer much more speculation as to the winner, Winslow, Presque Isle, and Bar Harbor appearing to be the strongest teams. Bar Harbor, winner of the tournament last year, has three all-tournament men on their present team, and seems to look like the strongest quintet. But, again, one cannot tell how a game of basketball will turn out.

The prep school schedule follows: E.M.C.S. versus bye; Hebron versus A.C.I., Thursday, 3:30 P.M.; M.C.I. versus Lee Academy, Thursday, 7:30 P.M.; Kents Hill versus Higgins, Thursday, 8:30 P.M.; E.M.C.S. versus winner of Hebron-A.C.I., Friday, 4:30 P.M.; winner of M.C.I.-Lee Academy versus winner of Kents Hill-Higgins, Friday, 7:30 P.M.; finals, Saturday, 2:30 P.M.

The high school schedule: Fort Fairfield versus Winslow, Friday, 10:00 A.M.; Bar Harbor versus Waterville, Friday, 11:00 A.M.; Brownville Junction versus Old Town, Friday, 2:30 P.M.; Presque Isle versus Dexter, Friday, 3:30 P.M.; winner of Fort Fairfield-Winslow versus winner of Bar Harbor-Waterville, Friday, 8:30 P.M.; winner of Brownville Junction-Old Town versus winner of Presque Isle-Dexter, Friday, 9:30 P.M.; finals, Saturday, 3:30 P.M.

A committee of three has been chosen to pick an all-tournament team in each division, but this committee will not be made public until after the tournament.

Following is a list of the teams and the fraternity houses at which they are staying: Dexter, A.T.O.; Waterville, Beta Theta Pi; Bar Harbor, S.A.E.; Bangor, Phi Kappa; Fort Fairfield, Sigma Chi; Winslow, Phi Kappa Sigma; Presque Isle, Phi Eta Kappa; Brownville Junction, Alpha Gamma Rho; A.C.I., Lambda Chi Alpha; Hebron, Phi Gamma Delta; Kents Hill, Kappa Sigma; Lee Academy, Delta Tau Delta; M.C.I., Theta Chi; E.M.C.S., Sigma Phi Sigma; and Higgins Classical, Phi Mu Delta.

The officials of the tournament are Brice, Wallace, and Kenyon, of Maine, and Thompson of Bates.

The tournament is causing quite a little talk around the campus and will occupy the spotlight at the University for several days.

UNLOADING THE DEADWOOD

A post mortem examination is always a gruesome and disagreeable business. The body is so stark, so hopelessly dead. Especially is this true when the examination is conducted by the physician who had charge of the case during the patient's last illness, the poignancy of whose regret and disappointment is commensurate with his former hope and confidence in his ability to pull the patient through. And moreover, there is always in such cases the dread that he may discover some error of treatment or some point wherein a higher degree of skill and efficiency on his own part might possibly have avoided the calamity. Nevertheless, such examinations are necessary for future guidance, and should be undertaken with perfect candor and a determination not to shirk or avoid any responsibility, however onerous, and to accept and abide by the inexorable results of the investigation. It is in this spirit that we support the decision of the Student Senate to conduct an investigation into the over-organization of student activities on this campus.

All over the country, students in colleges are beginning to question the condition of their affairs with respect to the activities which they themselves gave birth to, nursed, and developed. It is becoming clearly evident that many of their "children" are half-wits, and that in the interests of twentieth-century efficiency, a smaller, but more highly developed "family" would be more desirable. An actual count reveals that there are fifty-five recognized and officially sanctioned organizations on the campus, not including the fraternities or sororities. Further study shows that the leadership of practically all of the major activities rests with a small group, regardless of the point system which was so elaborately designed a short time ago. This would seem to indicate the lack of a general, or diversified interest on the part of the student body at large, in the many existing outlets for their social instincts.

Each organization, before it is recognized, must obtain official sanction from the university, through a committee appointed for that purpose. For this reason, in all fairness, we insist that our present lack of stimulating organization is to be equally shared by those who dispense such recognition and the students whose zeal outruns their reason.

The present investigation, if carried to the extremes of its purpose, will, without any question of doubt, reveal many dead bodies, to whom this study will be nothing more or less than a post mortem. Their only task will be to see that they are buried! Its results will be far-reaching, illuminating, and a step toward a more tangible contributing force known as Maine spirit.

"STEP ON IT" FEVER

With the coming of spring, the traffic problem on the concrete strip which runs by the campus, is becoming serious again. During the past three weeks we have witnessed no less than two collisions, three narrow escapes, and the running over of one of the numerous stray canines that roam the campus. Considering that the season is still in its first stages, it would seem that a fairly lively time is ahead for all careless drivers.

A letter, containing a five-dollar bill, was recently received by President Boardman, with the request that the money be used for whom it would most benefit. The letter bears this postmark: Bangor, Me., March 1, and is signed "In Memoriam." Suggestions as to the disposal of the money will be welcome, President Boardman announces.

The following matches will be bowled in the U. of M. bowling league before vacation.

Friday, March 16—Delta Tau vs. Kappa Sigma.

Monday, March 19—Phi Gam vs. Beta Theta Pi

Wednesday, March 21—Kappa Sigma vs. Phi Eta

Dorm vs. Sigma Nu

LYMAN ABBOTT TO LEAD VARSITY COURT TEAM

Lyman Abbott, Jr. of Old Orchard, was elected captain of the varsity basketball team Friday noon. "Lymie" is a sophomore and has played a guard position on the varsity for the past season. He was captain of the freshman basketball team last year. Besides being captain of basketball, Abbott is president of his class, president of the Sophomore Owls, treasurer of the Athletic Association, and a letter man in football, earning his M as quarterback last fall. He is a member of Sigma Nu fraternity.

College education is worth \$72,000. This is a profit of 1,200 per cent on an original investment of \$6,000, which is the average total cost of a four years' course in college.

Deducting the cost of the education itself, the student adds to his future income at the rate of approximately \$15,000 a year during the time he is in college.

As classes are held only five days a week, this means potential earnings of \$70 a day to the student for each day spent in the class room.

These statements were made by Otto Y. Schnering, President of the Baby Ruth Candy Company, who is an alumnus of the University of Chicago, in an address.

"A college education is not only very essential in modern business but highly profitable, if the student spends his time in real study," Mr. Schnering said. "The annual average income of a high school graduate is \$2,200 and that of a college graduate \$6,000. Total earnings of the two classes of men up to the age of 60 are approximately placed at \$78,000 and \$150,000. This gives the college graduate a lead of \$72,000 over the high school youth.

"This is the age of specialization and scientific management in business, in which a college education is becoming almost an absolute necessity."

TAU BETA PI PLEDGES

The following pledges have been announced by Tau Beta Pi: John B. Ames '29, George L. Coltart '29, Harry D. Crandon '29, Harold E. Ellis '29, Stanley O. McCart '29, Merton Morse '29, Roderic C. O'Connor '29, Harold N. Powell '29, Frank E. Pressey '02, George W. Raye '29, Archibald V. Smith '29, and Gordon Smith '29.

The present officers and members are: Clarence M. Flint, Pres.; George R. Chappell, Treasurer; Arthur J. Kelley, Secretary; Linwood S. Cotton, Harry R. Hartman, Whitcomb Haynes, Waldo W. Hill, Donald J. Huot, Clarence R. Libby, George E. Power, William S. Reed, Robert F. Scott, and Philip H. Trickey.

 13. Postlude—Vesper Recessional Schyler
- (Bring to Vesper Service as a program)
- There will be a meeting of the Track Club at Theta Chi tonight at 7 o'clock.

NILES IS CAPTAIN OF 1928-29 RELAY TEAM

Winfield S. Niles of Rumford, has been elected captain of the varsity relay team for the season of 1928-1929. The election held a few weeks ago was declared void, but at a meeting of the team the earlier part of the week, the nomination and election was repeated.

Niles, is one of the most promising track men at the University in recent years. The latest performance was the taking of the scalp of Max Wakely, one of Bates's best, in a fast three hundred. The coming season will see Niles at his best. Coach Kanaly has not definitely decided the distance Win will run this spring, but will put him in the distance most fitted for his capabilities. However, one would not go far amiss in feeling that he will garner a few points for Maine in the coming meets.

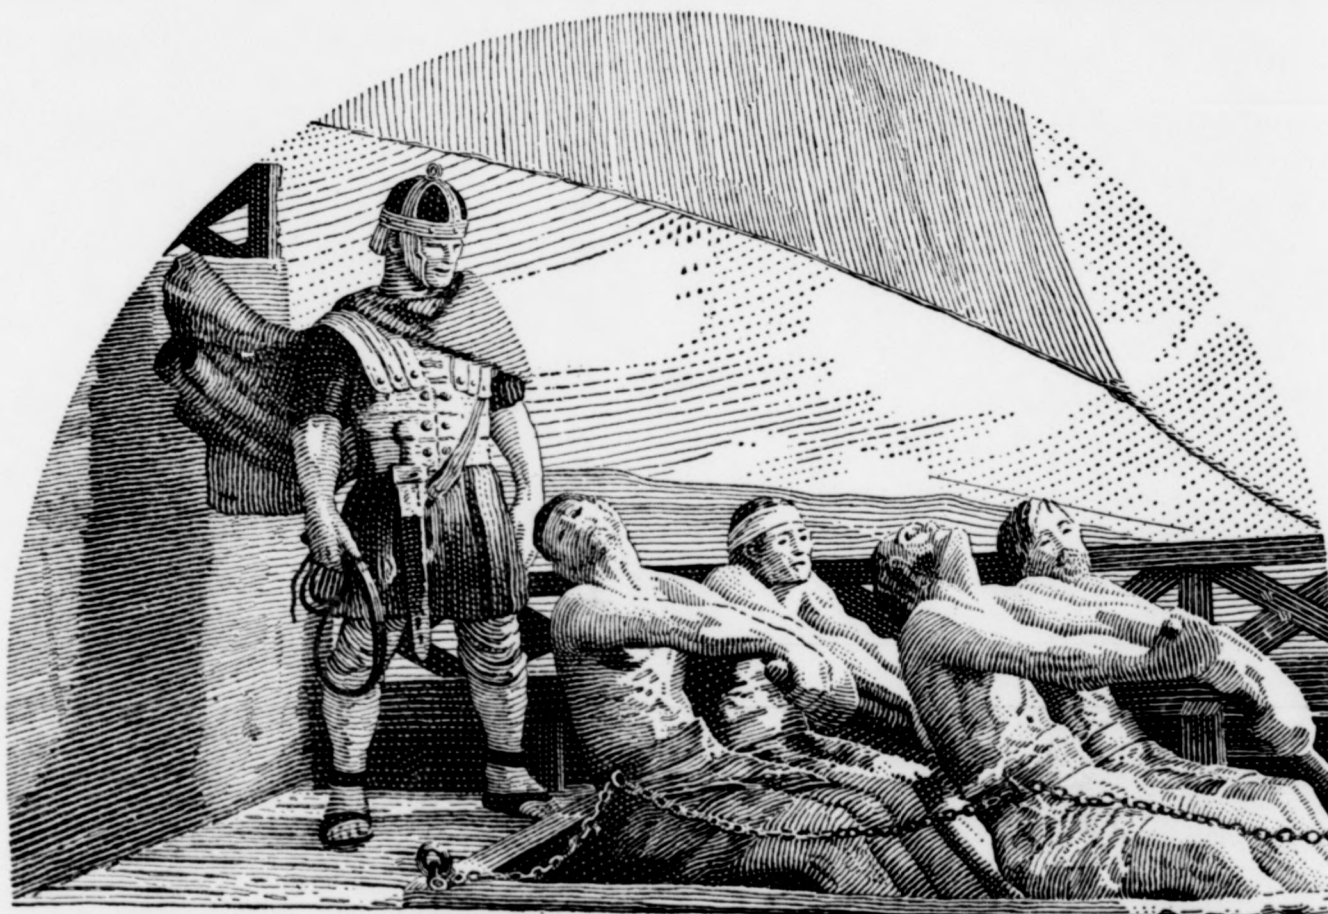

The New England reserve officers' training corps rifle championship for 1928 has been won by Norwich University, it was learned here today when compilation of the tournament returns was received from first corps area headquarters at Boston. Norwich riflemen made a total of 7546 points of a possible 8000.

The winners will compete with the champions of the eight other corps areas of the country for the national title, which was won by Norwich three years ago.

Vermont finished second with 7355 and other New England colleges stood as follows: Massachusetts Institute of Technology 7313; Rhode Island State 7145; Maine 7076; Boston University 7055; Conn. Aggies 7028; Mass. Aggies 6966.

The individual high scorer was Harbeck of Massachusetts Institute of Technology with 771 points.

There will be a meeting of the Civil Club in 14 Wingate tonight at 7 o'clock. Mr. E. E. Chase will speak on "The Economics of Maine Railroads."

Galley Slaves

Chained to their seats, cringing under the lash, the galley slaves slowly propelled the heavy hull of a Roman warship.

Today, the electric motors of an American battleship have the energy of a million men, and drive thousands of tons of steel through the water at amazing speed.

Man is more than a source of power in civilized countries. Electricity has made him master of power. In coming years, the measure

of your success will depend largely on your ability to make electricity work for you. Competition everywhere grows keener, and electricity cuts costs and does work better wherever it is applied.

In industry, transportation, the professions, the arts, and in the home, you will find General

Electric equipment helping men and women towards better economies and greater accomplishments.

GENERAL ELECTRIC 176-5DH
GENERAL ELECTRIC COMPANY, SCHENECTADY, NEW YORK

EXTENSION DIVISION IS BUSY DEPARTMENT

The University Extension Division at the University of Maine was created by Trustees on recommendation of Dr. C. C. Little in the spring of 1925. Professor L. J. Pollard was relieved of his work as head of the department of Education and placed in charge of the new work as Director of Extension and Professor of Educational Extension.

The work of organizing the division began with the opening of college in September, 1925. The head of every department on the campus was consulted as to the advisability of offering courses with or without credit, by correspondence or extension classes. As a result of these conferences two bulletins were published in April, 1926, one covering the work offered through correspondence and the other explaining courses offered by extension class instruction. Twelve departments with a total of thirty-nine courses were listed in the correspondence bulletin and twenty-one departments with a total of fifty courses were listed in the bulletin on extension through class instruction.

Two classes were organized in Belfast by the department of Psychology. Two classes were organized in Bangor by the department of English. One of the latter was a group in the Bangor Theological Seminary. A total of seventy-eight pupils were registered in class instruction and a total of thirty-one were registered in correspondence for the year 1926-27.

New bulletins describing courses were published September, 1927. The correspondence bulletin for 1927-28 lists twenty-three departments with seventy-nine courses and the bulletin on extension class instruction lists twenty-one departments with sixty-four courses.

Classes in Education are being conducted in Orono, Old Town, Brewer, Ellsworth and Belfast. Classes in English are being conducted in Bangor. One of the groups in English is being conducted at the Bangor Theological Seminary. There are at present a total of one hundred twenty in class instruction and sixty-three in correspondence.

Since the organization of the University Extension Division the General Extension Lecture Bureau has been placed in this department, and over a hundred addresses were given before clubs and other organizations during the past year. In September, 1927, the Division issued a Drama Loan bulletin cataloging plays, pageants, operas, operettas and cantatas which the Division has for loan purposes. In connection with the Drama Loan Service the Samuel French publishers of plays have made the University of Maine Extension Division a depository for all their new publications. This bureau has met a great demand, as there have been sent from the University Extension Division office over one hundred packages of plays since September.

The Canadian Government has made the University of Maine a distributing center for motion picture reels. The loan of

Swickert's Cane Design Accepted by Committee

The Senior Cane committee announces that the cane for the class as designed by O. A. Swickert '28 has been accepted and samples ordered. As soon as these arrive they will be posted in the glass bulletin board at Alumni. Orders can be given to any member of the committee, and it is expected that the canes will be here soon after vacation. To facilitate matters and make the distribution of the canes easier each member of the committee has been assigned four groups to canvass. The price of the canes this year will be the same as last. A one dollar deposit is to be paid with the order and the balance of \$2.25 will be payable on the delivery of the cane. The cane committee has been divided thus: Chairman Harry Hartmann has Lambda Chi, Phi Eta, Kappa Sigma and Phi Kappa Sigma. Larry Wooster has Sigma Chi, Phi Kappa, Alpha Gamma Rho, and A. T. O. Buck Foster has Theta Chi, Sigma Phi Sigma, Sigma Nu and Hannibal Hamlin. Rip Bell has Phi Mu Delta, S. A. E. and Oak Hall. Baldy Williams has Phi Gamma Delta, Delta Tau, Beta Kappa, and off campus men.

Thomas Riley, football coach of the University of Maine varsity teams from 1910-13 inclusive, died last night at Escanaba, Michigan, where he was a well known lawyer. While at Maine Mr. Riley produced three championship teams. He was about 48 years of age.

these reels comes under the supervision of the University Extension Division. In December a special four-day course was organized and directed by the department of Electrical Engineering for electric metermen with marked success. In June a Plumber's Conference will be held on the campus under the direction of the department of Civil Engineering. Other special courses will be arranged for in the future as this is one of the many ways in which the University may serve the people of the state.

THE CODE OF SPORTSMANSHIP

(for the Tournament players)

Keep the rules.

Keep faith with your comrade.

Keep your temper.

Keep yourself fit.

Keep a stout heart in defeat.

Keep your pride under in Victory.

Keep a sound soul, a clean mind and a healthy body.

Play the game.

Undergraduate Committee to Submit Questionnaire

(Continued from Page One)

will have been futile. It may be thought useful to have the answering of the questionnaire compulsory. This will eliminate the excuse of lack of opportunity and neglect and should prove useful to the students as well as to those desirous of the information to be derived from them.

This questionnaire is and should be considered as the student's opportunity to express himself. It is a splendid chance to criticize to some effect anything concerning our University. The work on this questionnaire has been entirely by students; no supervision of any kind has taken place. The men who compose this Committee are not merely "yes-men" for the President—they quite frequently disagree with him. And the fact that no comeback upon the writer is possible, should induce frank, candid opinions, useful for the adjustment of college problems.

Pi Pi Kappa, honorary economics society, held its spring initiation and banquet at the Sigma Chi house Wednesday evening. The following were initiated: Edward Stern, Hector Lopaus, George Dudley, Helen McLaughlin, and Herbert Worthley.

Miss Mary Robinson, Miss Jeanette Roney, Mr. Linwood Cheney spoke at the Grace Church in Bangor at the Sunday evening meeting. George Hargreaves played two trombone solos accompanied by Charles Patch.

Students Are Shown Life-Saving Methods

(Continued from Page One)

electrocuted, so apply artificial respiration just the same.

In drowning, the man becomes suffocated.

In smoke, the danger comes from carbon monoxide which is odorless and tasteless. It makes one feel sleepy, and usually the head feels tight across the eyes. It is very deadly.

A few of the "don'ts" in life saving are: Never touch a man on the wires but take a board or rope and pull him off. Never touch wire that is lying on the ground. Never swim to a drowning person, only as a last resort. Go with a boat if it is at hand.

Mr. Noyes was very pleased with the different groups, as they gave their undivided attention to him. If any of the students ever save a life by this means, Mr. Noyes would like very much to hear from them.

Miss Erdine Besse '28 and Mr. Frank Brown '30, went to Millinocket over the past week-end. They spoke at the Sunday morning and evening service in the First Congo Church. Rev. A. M. Thompson, father of Fred Thompson, introduced them on Sunday morning. On Saturday evening they led the young people in group games. Clifford Simpson of M. C.A. accompanied the team.

Maine Debating League Holds Fourth Meeting

Today marks the fourth annual meeting of the teams of the University of Maine Debating League. A group of ten teams representing five schools are participating in the tournament. This group indicates a decided growth in interest and numbers. Last year a total of eight teams competed for the honors.

The question that will be debated today is: *Resolved, that there should be a Federal Department of Education with a Secretary in the President's Cabinet.* The various groups competing today have worked on this issue for the past several months and as a consequence considerable interesting discussion was assured.

A beautiful silver cup was awarded to the winning team. To the members of the first and second place teams respectively, medals appropriately engraved, were presented.

Today's tournament is in decided contrast with the first one that was held in 1925. At that date and even at the one the following year only final debates were held, the teams having previously engaged in preliminary and semi-final debates. From that date to the present the tournament has grown steadily, until we now have all the representative teams competing here in the semi-final and final debates.

These annual debating tournaments are held under the auspices of the Public Speaking Department, and directed by Mr. Herbert E. Rahe of that department, to whom the distinctive and far reaching success of the tournament has largely been due. Arrangement of schedules, communications, choice of officials, and various other concurrent activities have called for a large expenditure of energy and time on the part of Mr. Rahe and his assistant.

The Public Speaking Department expresses its appreciation of the aid rendered by members of the faculty who have kindly assisted by acting as judges. Particular credit is also due to Miss Margaret Grover, C. Loring Puffer, Jr., and the members of the debating society who have assisted in many ways. Miss Grover has done considerable work in the making of arrangements, and particularly in the handling of communications.

As indicated in the schedule the first debates were held at three o'clock. The announcements regarding the teams that are to participate in the final debates will be withheld till after the dual debate at which time they will be made known.

The Public Speaking Department cordially invites all to attend these debates which give every indication of being not only interesting, but also educational as the phraseology of the question to be discussed indicates.

Final debates—time: 7:00 p.m.

Winner No. I (Aff.)—Winner No. II (Neg.), 275 A.S.; Chairman, Prof. H. E. Rahe; Timer, H. E. Ellis; Judges, Dr. H. C. Mitchell, Miss Zaidee Green and F. G. Fassett.

Winner No. II (Aff.)—Winner No. I (Neg.), 275 A.S.; Chairman, A. J. Kelley; Timer, A. V. Smith; Judges, Dr. O. L. Lutes, Prof. W. Chadbourne, Miss Linnehan.

Three of the seven games in the bowling league have been played off and finds Kappa Sigma leading, with the Dorm and Phi Gamma Delta a close second. Interest is running high and plenty of competition is forthcoming.

The summary:

Team	Games Played	Pts. Won	Pts. Lost	%
Kappa Sigma	3	10	2	.833
Phi Gamma Delta	3	9	3	.750
Dormitory	3	9	3	.750
Phi Eta Kappa	3	8	4	.667
Sigma Nu	3	5	7	.417
Delta Tau Delta	3	3	9	.250
Sigma Chi	3	2	10	.167
Beta Theta Pi	3	2	10	.167
