Freshmen Girls Hold

Party at Balentine

Yes, Thirty-one: "United we stand,

divided we fall" has been the motto of the

freshmen class.

To uphold this maxim, the freshmen girls

of the class of 1930 have arranged a

party for dance in Balentine, and held it
too! For a week they worked in long,

impatient hours to make the party a

success.

To make this fact even more apparent,

the freshmen girls have arranged a num-

ber of dances and parties for the fresh-

men. One of these was held recently in

the Union Hall.

The party was a big success, and it is

expected that the freshmen girls will

continue to have many more parties in the

future.

Who will scout this electrical frontier?

W HETHER in the Bell Telephone Laboratories, in the Western Electric Works, in the various operat-
ing companies or in the American Tele-
phone and Telegraph Company, tele-
phone work is becoming more and
more a science as well as an art.

It is significant that your true tele-
phone man never speaks of having
"perfected the art of communication."
And this in spite of the fact that America, in fifty years, has telephones everywhere and talks beyond its borders.

Work in the Bell System demands the host curiosity of the pioneers and the infinite pains of pioneers who, like Columbus, Lincoln and Lindbergh, prepared "and when their chance came they were ready."
