SCHOOL REPORT

North Yarmouth has been exceedingly fortunate in its choice of teachers the past year. Before the opening of the schools in September your committee had elected four teachers who were those of experience and they have proved their worth. Three of these teachers are residents of North Yarmouth. The Hicks being a large rather difficult school we felt it to be the wiser plan to continue a male teacher in that school, for at least, another year and Mr. Roy Berry of Woodfords was chosen for that position. Because of my illness I was able to visit the schools only twice, when I was advised by my physician to go easy and if possible have some one to help me. The members of the school board and the selectmen of the union came to my relief and Mr. F. W. Norton of Cumberland was employed to assist me for three months. His labors began Oct. 20, 1924 and ended Jan. 20, 1925. The field work was given over to him while the clerical work was retained by myself. Mr. Norton proved an efficient helper and I am sure the schools were well looked after. In his report to me after he had completed his term of service he spoke well of the North Yarmouth schools. His report included all the schools of the union with the exception of Chebeague island, which I visited myself, so I am unable to give his report verbatim. It was a source of satisfaction to have a stranger come into the union, one who was unacquainted with the teachers and our school system in general and give such a fine report of his impressions.

TEXT BOOKS

Several new text books have been purchased for the schools as they were needed. The Long Histories have been provided for the seventh and eighth grades; supplementary readers for the lower grades, new physiologies to replace those worn out were sent to Miss Baston of the Buxton school and a few of the New Lewis Spellers, introduced last year, and adopted, were furnished Miss Hayes of the Walnut Hill school. Mr. Berry of the Hicks school considered that the time had arrived for his fourth grade to have a text book in geography and Emerson's Geography of New England, a new up-to-date book, published in 1924, for fourth and fifth grade pupils was selected. We hope all the schools can have this book another year.

REPAIRS

The school buildings have had the necessary repairs made and the improvements suggested last year have been attended to by your committee. It was not necessary to purchase new desks for the Hicks school as the attendance is not as large as last year. I consider it economy to paint one of our school buildings each year. The Buxton needs painting the most of anyone of our school buildings. Nearby towns often refer to North Yarmouth and comment on the interest shown in this town in the care of its school buildings. A worthy example for other towns to follow. But few towns in the State, of its size, have more up-to-date schoolhouses than this town. Let us keep up our reputation in this respect.

CONCLUSION

We feel that from every view-point the work of the schools has been a success. Fortunately no serious in-

terruption has occurred on account of sickness or for other reasons. The discipline in our schools has been maintained without severity or friction. Progress in studies has been uniform and thorough. I am unable to make any definite report in relation to music. Two of our teachers have had music as a part of their daily program and we hope that after the annual town meetings in the three towns composing the union some arrangements can be made for its continuance in all our schools. We have those on our list of teachers who are qualified to act as music supervisor having taken a musical training course that amply fits them for this work.
