REPORT OF THE SUPERINTENDENT OF SCHOOLS

It is our desire to make you acquainted with the work that has been done in your schools during the past year. From the financal report you will see how the money that you have appropriated has been spent. We feel that the schools have been run efficiently and that the funds were spent wisely.

There has been no departure from the policies that have been established in the past. We like to feel that our schools are progressive and at the same time are not fostering any radical changes either in methods or materials taught. The main objective of the public school program is to prepare pupils to become good, useful citizens with well rounded individual personalities.

The transportation of students was increased this year in order to relieve the crowded conditions in the Buxton School and to reduce the number of grades. The removal of two grades from this school seemed to be more desirable and more economical than hiring a helping teacher. The plan has worked well in giving the scholars more time for recitation in all of their subjects and has made the work more interesting because of the larger numbers in the combined classes.

A hot lunch program was started in the Dunn School and has been quite successful. The schools have received some of the surplus commodities from the Federal Government to supplement the school lunch program.

The Town continued with the dental clinic as has been the custom in recent years. For the sum of \$46.00.

37 pupils received dental treatment that would have cost \$171.00 if the regular dental rates had been charged. This work included:

35 Cleanings 27 Fillings

25 Extractions
