HENRY H. YORK,
Town Clerk.

REPORT OF SUPERINTENDENT OF SCHOOLS

There have been few changes in the schools this year. The Committee continued the policy of transporting pupils between the Dunn School and the Hicks School in order to reduce the number of grades in each school. If the situation remains unchanged next year and few new pupils come into the district most of the transportation can be discontinued.

There were no new textbooks adopted for use as basic texts this year. A copy of the book, "A HISTORY OF NORTH YARMOUTH", was put in each school and other books to stimulate interest in reading were bought.

Many schools are introducing courses to supplement the training for National Defense Program. Courses of this type cannot be introduced into small rural communities because of the lack of equipment and facilities. Our schools can do their part by teaching the importance of observing the rights of individuals as guaranteed by the Constitution of the United States. A strong united people who have faith in their government and their fellow citizens is one of our strongest pillars of defense.

Each year, during the summer vacation, the school buildings are given a thorough inspection and all necessary repairs are made. We feel that it is more economical to keep buildings in good repair at all times rather than to allow them to become run-down so that a large expenditure would be necessary to put them in shape again.

The schools will receive surplus commodities to supplement school lunches during the months of February, March and April.

The school health nurse examined 83 pupils. 59 of these were found to have defects of various natures. The largest percentage of pupils had defective teeth which has been corrected for the most part, through the services of the Dental Clinic. Parents were notified of defective vision, hearing, large tonsils and so forth. Parents should put forth every effort to make corrections inasmuch as it is possible for them to do it. The health program is effective only to the extent that corrections are made.

The Town continued with the dental clinic as has been the custom in recent years. For the sum of \$46.00, 46 pupils received dental treatment that would have cost \$171.00 if the regular dental rates had been charged. This work included:

43 Cleanings 28 Fillings 17 Extractions

REPORT OF THE DENTAL CLINIC

School	No. of Children	Cleaning	Filling	Extractions	Cost
Buxton	11	9	8	4	\$40.00
Hicks	9	11	2	8	39.00
Dunn	14	11	11	1	44.00
Walnut Hill	12	12	7	4	48.00

Value of work at normal fee \$171.00

The school nurse recommends that additional funds be provided to continue the Dental Clinic another day so that all children in the Town who need attention can be treated.

MISCELLANEOUS

The school financial records are closed twice a year. The accounts are balanced and closed in February for the Annual Town Meeting and also in June for the State Reports.

In order that the school costs published in the Town Report may correspond with State Report figures, the following school costs cover the school year beginning July, 1939 and ending June, 1940.

In the Town of North Yarmouth the children are being housed, educated, and in some cases transported at the following per pupil costs:

	Yearly Cost	Daily Cost	Hourly Cost
Elementary	\$36.81	\$0.192	\$0.027

The school buildings in this town have been kept in repair at a cost per pupil of \$2.57.

The number of pupils per elementary teacher is 25.

AUDITOR'S REPORT

To the Inhabitants of the Town of North Yarmouth, Me.:

We have audited the accounts of the Selectmen, Treasurer and Tax Collector for the municipal year ended February 10, 1941.

All money shown to have been received and disbursed is fully accounted for. According to the best of our knowledge and belief the accompanying Town Report states correctly the financial standing of the Town and the result of administering its business affairs.

Respectfully submitted,

GEORGE M. GRAFFAM, C.P.A.,
Auditor of the Town of North Yarmouth.

Portland, Maine
