To choose Tything men. 16th.

To choose Health Committee. 17th.

To choose an Auditor of Accounts. 18th.

19th. To choose a Sexton.

To choose one or more Fire Wardens. 20th.

To choose Highway Surveyors. 21st.

To choose Truant Officers, and see what instruction the Town 22ud. will give them in relation to habitual truants.

To see how much money the Town will raise for making and 23rd. repairing Highways, and determine by whom it shall be expended. 24th. To see how much money the Town will raise for the support of

Common Schools.

To see how much money the Town will raise for the support of 25th. a Free High School.

26th. To see how much money the Town will raise for Incidental Expenses.

27th. To see how much money the Town will raise for the support of the Poor.

28th. To see how much money the Town will raise for the Fire Department and determine by whom it shall be expended.

29th. To see how much money the Town will raise to pay town debts. 30th. To see how much money the Town will raise to pay interest on town debt.

31st. To see how much money the Town will raise to maintain street lamps and determine by whom it shall be expended.

32nd. To see how much money the Town will raise to improve town cemeteries and determine by whom it shall be expended.

33rd. To see how much money the Town will raise to procure a new hearse, and determine by whom it shall be expended.

34th. To see how much money the town will raise to build a culvert on Forest street at Bennoch bridge (so called) and determine by whom it shall be expended.

35th. To see how much money the town will raise to build an addition to the Poor House, and determine by whom it shall be expended.

36th. To see how much money the Town will raise to rebuild the approaches to sidewalk on railroad bridge, and determine by whom it shall be expended.

37th. To see how much money the Town will raise to build a cistern on Broadway and determine by whom it shall be expended.

38th. To see how much money the Town will raise to build a cistern near the junction of Penobscot and North Water Sts., and determine by whom it shall be expended.

39th. To see how much money the Town will raise to lay a birch floor in Town Hall, and determine by whom it shall be expended.

40th. To see how much money the Town will raise to build a sidewalk from G. H. Hamlin's residence on Main Street to Island Avenue, and determine by whom it shall be expended.

41st. To see how much money the Town will raise for ringing the bell and determine by whom it shall be expended.

42nd. To see if the Town will vote to tax dogs.

43rd. To see if the Town will accept lease of the shore of Town farm. 44th. To see if the Town will authorize the Selectmen to sell and convey, by deed of quit-claim. to E. Manstield, so much of Mill Street as is occupied by his shop on the south side of said Street. adjoining the canal.

45th. To see if the Town will adopt Standard Time.

46th. To see if the Town will vote to release its claim on Real Estate forfeited to the Town for non-payment of taxes, on payment by the owner of the amount of taxes, costs, and interest.

47th. To see if the Town will authorize the Selectmen and Treasurer to compromise and settle any unpaid taxes on Real Estate, when, in their judgment, any sufficient reason exists.

48th. To see if the town will authorize and instruct the Selectmen to enforce the settlement of taxes on Real Estate forfeited to the town for non-payment of taxes.

49th. To see if the town will instruct the Overseers of the Poor to contract with resident physicians to attend to the town poor.

50th. To see if the town will authorize the expending a portion of the school fund for instruction in music in the public schools, under the direction of the Superintending School Committee.

51st. To see if the town will vote to abate taxes for a term of five years

for any new manufacturing enterprise located in town and investing not less than five thousand dollars in said manufacturing enterprise.

52d. To see if the town will vote to make a discount on all taxes paid to the Collector, on or before the first day of August next, and if so, to fix the rate of discount.

53rd. To agree upon the compensation for collecting taxes. 54th. To choose a Collector of Taxes.

The Selectmen hereby give notice that they will be in session at their office for the purpose of correcting the list of voters, at nine o'clock in the forenoon on the day of said meeting.

Hereof fail not. and make due return of this Warrant, with your doings thereon, unto the Clerk of said Town, on or before the time of said meeting.

Given under our hand at Orono, this seventh day of March, A. D., 1887.

We hauled gravel for the Highway and Sidewalk on the snow, and when we made the Sidewalk, divided it, using enough to come as near that appropriation as possible. When the snow went off in the Spring we found the Bangor road almost impassable in several places. The Glenburn road we were obliged to close up for several weeks as it was unsafe for travel. The highway needs a large amount of work and we would advise buying a new improved road machine. thinking the cost of one would be saved in one or two years.

The pump which supplies air for gas in the Town Hall gave out, and we had a man from the factory come to repair it; the bill for which has not been received. In Bartlett vs. Orono, in looking the case over, we could not see that the Town was in any way liable for damages; but found that we could settle cheaper than we could defend the case in court, and therefore paid Mr. Bartlett. \$35 00.

CR.

There are other amounts due, but the collection of them is doubtful. We do not, therefore, report them. The Town owes about \$5 to Portland, and about \$60 to the Insane Hospital. We know of no other bills against the Town on pauper account. We recommend the building an addition to the Poor House, so that we may keep some of our insane there and save the large expense of keeping them at the Insane Hospital.

# REPORT OF FIRE WARDS.

#### TO THE INHABITANTS OF ORONO.

Your Fire Wards for the year ending March 1st, 1887, report as follows:

Amount raised by town for fire department	\$300 00
Amount expended	649 77
Amount overdrawn	\$349 77

The amount overdrawn may be explained as follows: At the fire caused by the burning of Charles Better's dwelling house, in Nov. 1886, it was found that the fire department was not provided with sufficient good hose to reach a fire at a distance of 500 feet from water, as was shown by our inability to get a stream of water to said building. After which, by the advice of many of our citizens, we purchased 500 feet of first class hose, which was evenly divided between the Monitor and Eagle engines. This, with the supply we had on hand at the time of the purchase, puts our fire department in better condition to fight fire than ever before.

Agreeable to a vote of the town, we have procured runners for Eagle engine, but fortunately have not seen the necessity of using them as yet. The Eagle engine being greatly in need of repairs, your Fire Wards communicated with the Manager of the Button Manufacturing Company, where the engine was built, who sent a first class mechanic to look it over. He overhauled and put the engine in a thorough condition. The whole expense of said repairs being \$60 99. This, with expense of purchasing the extra hose and runners for the Eagle, will explain the overdraft.

Agreeable to a vote at your last annual meeting, we procured 700 feet of first class hose for use at the Basin Mills, James Walker & Co. of that place agreeing to furnish suitable housing for the same, which they have done and are now doing in a satisfactory manner to us.

Amount raised for hose	\$400 00
Amount expended	388 00

#### Amount unexpended ..... \$12 00

Also by vote of town at said meeting, it was voted to raise \$300 to build a cistern on the Square opposite the Bank building, to be expended by the Fire Wards. According to said instructions we advertised for proposals for the same. Mr. Patrick Wall, being the lowest bidder, was awarded the contract. We are pleased to say that he built us a first class cistern, doing all the work in a thorough manner. Capacity of cistern, 182 hhds.

Amount appropriatedAmount expended	$300 \ 00 \ 245 \ 03$
Amount unexpended	\$54 87

The fires in town during the year have been as follows:

March 24th., house of Steward Inman, Kelley road; total loss.

July 22d., house of Phillip Shine: total loss. Oct. 4th., buildings of John Conley at Basin Mills; totally consumed. Nov. 12th., house of Charles Betters on Webster side; loss about \$200.

In conclusion, we congratulate you on our remarkable escape from fires the past year. Only one fire, that of Chas. Betters, occurring in our village. The other buildings, being so far from the fire department, rendered it impossible to get the alarm to the citizens in time to save them.

We recommend raising for the Fire Department for the ensuing year, \$400.

E. E. RING,	) Fire Wards
WM. THOMPSON,	> of
C. M. VINAL.	) Orono.

# TREASURER'S REPORT.

SAMUEL LIBBEY, Auditor of Accounts.

# ANNUAL REPORT

#### OF THE

# SUPERINTENDING SCHOOL COMMITTEE

# TOWN OF ORONO,

For the Year 1886-87.

To the Inhabitants of Orono:

Pursuant to the requirements of our school law, your committee present their report.

Our corps of teachers is the same as last year with two exceptions. Experience has taught us that the retaining of teachers as long as they give satisfaction in the same school goes a great way toward maintaining a high standard. Our High and Select Schools under the same teachers still continue successful in a high degree, and they are cited by other towns and cities as models of efficacy.

The course of study as adopted two years ago, we think should be changed somewhat. It is too hard for some of the scholars and not enough for others. The chief trouble is, that our pupils are hurried into the Select school before they have arrived at an age when they appreciate the advantages of thorough study, and when they are passed into the High School they are obliged to study so hard and confine themselves so closely in order to keep up that some are injured in their health, and have been obliged to leave school for a time. While it is not fair or right that age or *physique* should determine whether a pupil should or should not enter the Select school, yet they do enter into the consideration and your committee think that while there may be and are many scholars that are capable of passing the required examination, yet their age and health should keep them out for a while at least. Nothing is gained by this crowding the education and cramming children with facts and figures which to them seem meaningless. Better keep them out of school entirely for one year at least after they are prepared for the Select school and build them up physically, than have them beccme mental and bodily wrecks before they graduate or leave school, too feeble to enter life's work. The graduation exercises in June, were above the average and did honor to the graduates, the teachers and the town.

The system of giving badges to those not absent for each term was continued during the spring and fall terms and was productive of much good. 257 badges were distributed, being the largest number of "not absent," we believe, in the history of our schools.

We have taken pains to have all truants looked up by our efficient officer, Mr. Kenney, and he has faithfully attended to his duty. It is impossible to keep all the scholars in school, as long as the parents of some manifest the disposition they do. Having no education themselves, they seem bound their children shall follow in their footsteps. We trust the present Legislature will enact such a law as the necessity demands, and that it will be enforced rigidly.

During the past term "Miss Wiggins Lessons on Manners" was introduced into the Intermediate schools and already we see the beneficial results. The teachers have worked faithfully and we are not disappointed with it. The school property is in fair condition; some repairs will be necessary. We would recommend that a privy be constructed connected with the High school building. Of its necessity we think nothing need be said.

We also advise that the partition in the rear of the Select school room be taken out and the room thereby made larger by some ten feet, and thus relieve the crowded condition of the present room; and that a coal furnace be placed in the basement of the building so that both rooms may be made comfortable in severe weather. Situated as the building is, exposed on all sides to the winds, a target for every cold blast that comes, getting old and cracked, it is impossible to sufficiently heat the building with ths one furnace there now. Of course it would not be necessary to run both furnaces all winter, only in the severest season. The cost of a new furnace would be small compared to the amount of comfort and saving of the health of our scholars.

The increasing interest and proficiency in music has made its instruction a necessity in our schools and we trust the amount needed for its continuance will not be withheld.

The past year has been a prosperous one in this department, and you may well be proud of Orono schools.
