BASEBALL

Maine Defeated in First Game of State Series

In the first game in the championship series, Maine was forced to bite the dust against Bowdoin college at Brunswick by the score of 7 to 6. Although Bowdoin piled up three runs in the first inning, Maine scored in the third and again in the sixth on a wild throw by Daniels which netted two runs. The fourth run came in this inning when Abbott scored on Ryan's double. In the seventh inning a three-base hit by Scales and a sacrifice by Fulton added another run and it began to look like Maine's game. Bowdoin, however, took a brace in the eighth and got three runs. Maine tied the score in the ninth, but Bowdoin in her turn succeeded in getting a man to third and Frank Smith scored him, knocking a grounder to Abbott. Daniels, who was on third, beat the throw to the plate and scored the winning tally.

Maine outhit Bowdoin, but was unable to prevent the home team from scoring at critical times. All of Bowdoin's hits came at times when there were men on bases. Frank Purington, center fielder for Bowdoin, was the star of the game and succeeded in pulling off two long hits that counted for runs. The score was as follows:

MAINE MASQUE

Played At Bar Harbor and Ellsworth

Last Thursday morning, the Masque started on its final trip of the season—Bar Harbor and Ellsworth. The boys arrived in Bar Harbor Thursday noon, and after dinner went immediately to the Casino where they set the stage and held a short rehearsal. The rest of the afternoon was spent in "doing the town." The audience was slow in gathering, but at a quarter of nine the curtain rose upon a well-filled house, and "Twelfth Night" started with a snap that lasted to the end. The two Bar Harbor boys, Joseph L. Brown and John E. Ash, made a great hit among their friends. After the performance, the young ladies entertained the fellows by a dance such as only Bar Harbor can offer. Friday morning, before leaving for Ellsworth, the club took a buckboard ride around the famous shore road. The morning was beautiful, and the drive, together with the boat ride back to the ferry, was greatly enjoyed by the boys.

The Masque arrived in Ellsworth at twelve o'clock and here, as at Bar Harbor, the fellows were entertained at different houses. The actors realized that this was the last performance of the season, excepting Junior Week, and they entered into the spirit of the play more than ever before. Although the audience was not as large as had been expected, it was most appreciative, and everyone thoroughly enjoyed the play. After the boys had scraped the paint from their faces, they danced till about two o'clock. Saturday morning the fellows spent in Ellsworth, most of them visiting the big power plant and dam of the Bar Harbor and Union River Electric Co. The Masque returned to Bangor at noon.

Dr. Lewis of the Experiment Station and Mr. Palmer of the Horticultural Department were spraying trees at a large orchard near Hermon Pond, Friday, May 5.

BANGOR FIRE

\$3,000,000 Loss With \$2,000,000 Insurance

The City of Bangor experienced one of the worst fires in the history of the state, Sunday, April 30th.

The fire started about 4 o'clock that afternoon in a hay shed on Broad St. It appeared at first to be under control, but in a short time sparks were carried from this blaze by a heavy wind.

At midnight, the fire was under control at Hammond and Franklin streets on the west, at South Park and at Haynes Court in its progress up Harlow St.

The loss has been roughly estimated at \$3,000,000 which is partly covered by an insurance of about \$2,000,000.

The entire law library and furnishings of the College of Law were destroyed, valued at over \$10,000 on which there was \$8,300 insurance in the Boston and Old Colony Insurance Companies.

The offer of the Faculty of the Bangor Theological Seminary to allow the sessions of the College of Law to be held at the Seminary for the remainder of the term was accepted, but when the first sessions were held Tuesday, it developed that practically all the law men had lost nearly all their books and notes.

After careful consideration of the conditions, the law faculty voted that the official year should close on May 3, 1911. The ranks of the law students for the term will be passed on the work of the men to the time of the fire. Fortunately these are in the possession of the various instructors. The advance work for the term had been practically covered, and the review was about to begin.

The CAMPUS has been unable to learn the names of the law students who worked heroically to rescue the law library and succeeded in placing two sets of Maine Reports, the Massachusetts Records and Cyc, in the vault of H. J. Preble, Esq. on the first floor of the Exchange Building, in which the College of Law was situated. Several of them were obliged finally to jump from the windows of Mr. Preble's office to the ground.

Dean Walz's personal loss was considerable, as was that of Mr. L. S. Harvey, his stenographer. Mr. D. I. Gould, who handled the text book business for the College of Law is understood to have lost over \$2,000. The Maine Law Review is also a sufferer.

About 10 o'clock Sunday night, during the height of the fire, a call was issued here at the University for Cadets to go on patrol about the fire. The call was well responded to, and about 100 men were sworn in for guard duty. The

work done by the Cadets that night speaks the highest praise for them and the University. Practically every street in the burnt section was guarded. The guard was relieved of duty at seven the next morning and reported for duty that night at five o'clock. Monday night's guard was much better than that of Sunday night for there were many more cadets. The guard under command of Capt. Reid was divided into two reliefs that night. One relief was on four hours and off four so that the Cadets were in much better condition to do their duty. The burnt district and sections where there were no lights were well posted. Capt. Ballou with his detail patrolled the western section while Capt. Kent's detail patrolled the eastern section.

The National Guard patrolled the business section. Wednesday, the Cadets were, as a majority, relieved from duty, some being detained as special police for Wednesday night. About 150 Cadets were on duty during the required time and to them it was a great experience, and their work was a credit to the University.

Among the Maine Alumni who were burned out are: Dr. A. I. Harvey, '77, Freeland Jones, Law 1900, C. P. Crowell, '98, and J. F. Gould, '82.

VERMONT MEET

Maine Won: Score 73 1-2-52 1-2

Offsetting any disappointment in the work of the baseball team, the track men defeated Vermont at Burlington, last Saturday afternoon, by the good score of 73½ to 52½ points. Although Vermont may rejoice because their showing was better than ever before, their score would have been considerably lessened if Maine's individual champion for two successive years, G. A. Phillips, had not been compelled to remain at college because of illness. Another thing which put Maine at a disadvantage was the fact that it was possible to take but ten men on the trip. Out of these ten, it is impossible to say that one did better work than another, for Maine has rarely had so consistently fast a team as that handful of men who went to Burlington. Gutterson of Vermont, easily carried off individual honors with six firsts and one second to his credit, a total of 33 points.

Those making the trip were: Smith (captain), Walker, Deering, Schrumpf, Hammond, Shepard, Houghton, Power, Rogers, Morris.

Shortly after the news of victory reached the Campus, there were enacted some scenes which, to a visitor would have been picturesque indeed.

THE MAINE-COLBY MEET

Colby Won by 6 Points

The first dual meet between University of Maine and Colby resulted in a victory for Colby by a score of 66-60. Maine won 8 of the 14 events, and in two cases state records were broken. Shepard sprung the surprise of the day when he threw the discus 121.09 ft., breaking the state discus record. Rogers kept up his reputation at the pole vault when he cleared the bar at 11 ft. 7 1/4 in., thus breaking the state record by almost one foot. Powers and Houghton showed their old form by winning the two mile and the mile in a manner which is characteristic of them. In the quarter mile Walker ran a pretty race, passing Bowen of Colby on the home stretch. Although being spiked and jostled by the crowd which pressed up around the track, Walker recovered himself, passed Colby's runner

T. D. SHEPARD, '13, Who Broke N. E. Discus Record Last Saturday.

easily winning. Towner made a spectacular run in the mile and came out third. St. Onge, the only Maine man entered in the high jump, made a fine showing and finished second, this event being won by Herrick of Colby. Thomas made a good appearance in the pole vault. In the half mile, Morris showed good form, getting second place. Herrick and Nardini of Colby deserve credit for their good work.

Shepard's being disqualified in the hammer throw, and Capt. Smith in the low hurdles made a big difference in the final score. Were it not for these disqualifications, Maine's record would have been better.

Much interest was shown throughout the entire meet, but the odds were against Maine, leaving Colby to win the first track meet in the history of her athletics.

Results of meet:

Mile run—Won by Houghton, Maine; Whitney, Maine, second; Towner, Maine, third. Time 4 min. 37 2-5 sec.

440 yd. dash—Won by Walker, Maine; Bowen, Colby, second; Small, Colby, third. Time 53 1-5 sec.

120 yd. hurdles—Won by Smith, Maine; Vail, Colby, second; Sharpe, Colby, third. Time 16 3-5 sec.

880 yd. run—Won by Cates, Colby; Morris, Maine, second; Walker, Maine, third. Time 2 min. 4 4-5 sec.

220 yd. dash—Won by Nardini, Colby; Schrupf, Maine, second; third, Hart, Maine. Time 23 sec.

Two mile run—Won by Power, Maine; Keyes, Colby, second; Houghton, Maine, third. Time 10 min. 9 3-5 sec.

220 yd. hurdles—Won by Hammond, Maine; Vail, Colby, second; Hill, Colby, third. Time 27 3-5 sec.

Running high jump—Won by Herrick, Colby; St. Onge, Maine, second; Wood, Pratt, Soule, Colby, third. Height 5.22 feet.

Throwing Hammer—Won by Welch, Colby, 118.71 feet; Tibbits, Colby, second, 101.34 feet; Bisbie, Colby, third, 99.70 feet.

Throwing Discus—Won by Shepard, Maine, 121.09 feet; Tibbits, Colby, second, 107.43 feet; Bisbie, Colby, third, 101.70 feet.

Putting shot—Won by Shepard, Maine, 38.95 feet; Welch, Colby, second, 34.10 feet; Sullivan, Maine, third, 33.21 feet.

Running Broad Jump—Won by Kimball, Colby; Nardini, Colby, second; Morse, Colby, third. Distance 20.2 ft.

Pole vault—Won by Rogers, Maine; Herrick, Colby, second; Thomas, Maine, third. Height 11 ft. 7 1-4 in.

ATHLETIC MONEY

Still Slow in Coming In

Although some of the dollar assessments for the repair of the athletic field have been paid up since a notice was last printed in the CAMPUS, quite a number are still due, and it is very necessary that these be paid in at once as all the money that was on hand was deposited with Tyler & Fogg in Bangor. As that place was burned no money can be obtained until the safe is opened and matters straightened out. The following shows the number of assessments in each class that are still unpaid. Class of 1911, there are 16 unpaid; 1912, 18 unpaid; 1913, 20 unpaid; and 1914, 35 unpaid. Out of 395 students that are to pay for their athletic tickets only 186 have paid. This makes a total of \$1,135 approximately, that is owed the Athletic Association by the students, and that means that the Association cannot possibly run their athletic teams properly until some of this money if not all of it is paid up at once.

BANGOR CO-OPERATIVE PRINTING COMPANY

EDITORIAL.

The word of thanks which President Aley gave at chapel last week to the students who rendered aid to Bangor during its great fire was most appropriate. The work of the hundreds of students who rushed to the fire was of material assistance in fighting the flames, in saving household property, and in guarding the city after the disaster. Many students spent hours holding the nozzle of a hose alongside the regular firemen, many manned the roofs of houses and heedless of the thick shower of cinders prevented the flames from gaining footholds there, many labored untiringly to remove the household effects of old friends, and friends made upon the spur of the moment, to places of safety, and then

after the excitement had passed, many still gave their services cheerfully and faithfully, for day and night with only snatches of sleep now and then, in patrolling the streets of the city.

And what will the University gain in return for the aid which her students gave? It would not matter if she gained nothing; not one of the men could have thought of any reward that would come to the University, and far less to himself. Yet the University and her students will have their reward. The institution will be requited in the appreciation by the people of Bangor for the work that the students did individually and as a whole during and after the fire. Although the guard duty of the cadet battalion was not spectacular for its thwarting of criminal attempts, there is no doubt that the presence of so many uniformed young men, with bayoneted rifles on their shoulders, had a very wholesome effect upon the general order of the city. Therefore, this service will be appreciated by the citizens of Bangor, and it will receive, too, the sympathetic appreciation of the whole state of Maine.

The news that Maine had suffered two athletic defeats Saturday was astounding. It is no use to deny that. But *never mind!* **Never Mind** though we met defeat in both contests and give full credit to the victors, each of our teams did creditable work; we lost by one run the baseball game, the outcome of which was uncertain up to the last moment, and we fell short by only a few points in the track meet.

So never mind the final score. The nine showed an all-round strength that should still retain the confidence of every student, and there is not the slightest reason for fearing that this first game of the championship series is an ill omen for the rest of the season. Likewise, the work that several of the men on the track team did in the Colby meet augured well for their chances in the M. I. A. A. meet next Saturday. The meet this week will involve four colleges instead of two, and the result of each event will be settled by the men of four colleges instead of

two. because contest may have a week

Never team h the ch team g State going t be far studen you th make, and fo but ba you ca ville S interes will se than y that y a man he stay

Another comple Board wonde ard of never editors it ever Warre D. Ha Scales be in have p THE C our co Dur himself unnec ment charac and t

two. Therefore, Maine men, don't think that because of this defeat Maine's chances in the contest to come will not be just as good as you may have thought them on account of the victory a week ago.

Never mind the two defeats! The baseball team has not placed itself at a disadvantage in the championship race; neither has the track team gambled away its opportunity to win the State meet. *Remember that.* Both teams are going to work the harder. But their work will be far more zealous and whole-hearted if the student body is back of them. Even though you think you have some justifiable criticism to make, save it until after the season. This week, and for the remainder of the spring, do nothing but back those teams. Back them in every way you can and for all you are worth. Go to Waterville Saturday. You will see one of the most interesting meets ever held in the State. You will see Maine win some points, perhaps more than you will expect. You will feel, moreover, that you are doing your part, because if it is not a man's duty to go to Waterville why will he, if he stays at home, feel grumpy and ugly all day?

Another era in the history of THE CAMPUS is completed and a new year begun. The old Board of Editors has retired after a period of wonderfully successful work in which the standard of THE CAMPUS has been raised to a mark never before reached. With the change of editors the paper loses nine of the best workers it ever had—eight men graduate in June (B. O. Warren, R. W. Davis, E. O. Whittier, A. H. Hart, D. Hamlin, S. Waite, G. R. Sweetser, and N. N. Scales), and one member (H. E. Winn) will not be in college next year. It is to these men, who have put three and four years of hard work into THE CAMPUS, that we owe the high position of our college paper.

During the past year Mr. Warren has proved himself a most efficient editor-in-chief. It is unnecessary to point out each and every improvement which he has made, for one of his striking characteristics has been his ability to see faults and to correct them. Under Mr. Warren's

management, the Board has worked together as a unit in everything, and it is to this fact that the success of the past year is largely due.

As managing editor, Mr. Davis together with his assistant, Mr. Winn, has earned his share of the laurels. He has overcome the obstacle—lack of interesting material, and produced a CAMPUS each week which has been bubbling over with news, and which has created a big interest in the student body.

Without plenty of money a first class paper cannot be published, and Mr. Scales realized the fact. And what is more—he worked till he got the money. Mr. Scales has been an ideal business manager; he is a business man through and through, as the results of his work prove conclusively.

Mr. Whittier has shown himself to be most capable in handling the alumni notes. It is these notes, to a large extent, which make THE CAMPUS an interesting factor to the Maine Alumni, and for that reason, it is essential that the Alumni notes should play a prominent part in THE CAMPUS. During the time that he has edited these notes, Mr. Whittier has more than succeeded in making them fulfil their part in the paper.

Although perhaps a little less prominent than the other editors, the associate editors are nevertheless just as important. It is up to them to gather the material and to write it up in an interesting manner. Mr. Waite, Mr. Hamlin, Mr. Hart, and Mr. Sweetser have proven their worth as associates, and their loss will be keenly felt by the new Board of Editors.

The new CAMPUS Board begins its year's work with a clean slate—a perfect financial condition, and the highest standing ever yet reached by the paper. It is to the retiring officers that this strong position of THE CAMPUS is due, and the editors wish to express their most sincere appreciation of the work accomplished by these officers during the past year.

A. S. Moore, '10, was on the Campus last week. He has a position in Sydney, Nova Scotia, under Stone and Webster's Cape Breton management.

MILITARY HOP

Exhibition Drill and Hop Held Last Friday Evening

The military drill and hop held in the University Gymnasium, Friday, April 28, passed off very successfully. The night was clear and warm. This was a feature which the Senior Assembly and the Sophomore Hop did not have.

The decorations were very simple. Broad streamers of white and Maine blue were alternately draped from the centre of the gymnasium to the running track. The lighting effect was also very good. Blue and white lights were strung across the gymnasium and around the track. These lights were arranged so that either the white or blue lights or both could be turned on at a time. The walls beneath the running track were tastefully decorated with draperies and banners.

The military drill was exceptionally well done. All four companies did very well, executing the most difficult commands with precision and accuracy. The cadets first formed companies in the gymnasium, answered to the roll call and were marched out. Company B was the first to drill. They did the platoon drill. Company A followed them and did company drill. Next came Company C which did the firing. Company D came last and went through Butt's Manual.

The committee to whom the success of the affair is due consisted of Captain B. C. Kent, Captain W. R. Ballou, Captain H. C. Faulkner, Captain R. H. Reid, Private H. P. Adams, Sergeant F. J. Lewis, Private C. A. Whitney, Private F. S. Jones, and Private P. W. Thomas.

After the military drill an order of twenty-four dances was held. The floor was in excellent condition and the University of Maine Orchestra furnished most excellent music. The dance orders were very neat and attractive. In the upper left hand corner of the cover was a Maine seal, in the lower right hand corner was a stack of guns and between were the words Military Hop written in gold script.

The patronesses were Mrs. Albert C. Varnum, Mrs. Robert J. Aley, Mrs. James N. Hart, Mrs. Elizabeth A. Balentine, Mrs. Garrett W. Thompson, Mrs. Edgar R. Wingard, Mrs. Jeanette A. Harrington, Mrs. Harriet A. Lord, Mrs. Mary J. Parcher, Mrs. Bertha H. Moulton, Mrs. Ella J. Mason, Mrs. Carrie A. Belcher, Mrs. Winnifred W. Haggett, and Miss Mary E. Sweatte. The floor director was Captain B. C. Kent. His aids were Lieutenant Sumner Waite, Private A. W. Abbott, Private P. E. Murray, Lieutenant F. B. Ames, Private L. A. Leach, Jr., Private Mark

Pendleton, Lieutenant R. W. Wetherbee, Sergeant W. B. Pickard, Private W. E. Kimball, Lieutenant J. W. Hart, Private R. H. Boothby and Private H. R. Leavitt.

The list of girls present as nearly as could be found out were: the Misses Wood, Lunt, Knight, Danforth, O'Hara, Waite, Nason, Leighton, Heiskel, Dorothy Thompson, Hook, Wadsworth, Frohock, Boynton, Coffin, Buzwell, Richardson, Webb, Sawyer, Robinson, Chilcot, Lowell, Bailey, Treat, Flint, Wadleigh, York, May Kent, Jellison, Pearl Kent, Pooler, Worcester, Ring, Arnold, Stinchfield, Harvey, Hutchins, Hamilton, Cobell, Lebarence, Thomas, Beverly, McMillan, Meaber, Schneiber, Adams, Pooler, Manock, Wake, Muggett, Gladys Thompson, Crosby, Lewis, Lord, Wood, Kelley, Strickland, Savage, McClure, Shea, Townsend, Oak, Chaplin, Clark, Hackey, Moholland, Avalon Briscoe, Louise Briscoe, Morton, Zelma Oak, Brann, Gertrude Oak, Gilkey.

TENNIS SEASON

Candidates for Team Should Report at Once

With the opening of the tennis season such a short distance away, Maine men should be thinking of the prospects of winning the state championship this year. The state tournament will come in a very few weeks, and Maine should be as well represented this year as in the past.

Of our last year's team, only two men, Peckham and Bird, are left. But, with these as a nucleus, the new material about the Campus should fast round into a good team. Though we have only these two men, we are as well off as the other Maine colleges for Bates has two, Colby one, and Bowdoin one of last year's teams. This leaves the colleges upon an equal footing as far as old material is concerned, and the matches should be made doubly interesting because of the new men participating.

There will be a Round Robin Tournament in a week or ten days in order to give the management an opportunity to size up new material. This tournament will be open to all, and every man who has any tennis ability should make it a point to compete. The Southard tournament for the Southard medal, will be held in a short time. On May 25, 26 and 27 the State Intercollegiate Tournament will be held in Brunswick and each college will be represented by four men. The next meet of importance which we have is that with Colby during Junior Week.

All men who are interested in the Round Robin Tournament should hand their names in to Manager E. W. McKeen at once.

MASSACHUSETTS TRIP

Maine Defeated in Three Games

Handicapped by lack of practice and travelling day and night on the railroad, the varsity baseball team journeyed to Massachusetts, Wednesday evening and faced Harvard Thursday, April 27, at Soldiers' Field, Cambridge. The game resulted in a victory for Harvard after a great eighth inning rally, Maine having lead with the score of 3 to 1 up to then.

Potter, second baseman for Harvard connected with one of Ryan's curves and with three men on bases hit it out for a home run. Ryan, except for the last inning, pitched wonderful ball and was in his best form.

Friday morning the team journeyed to Kingston and there put up a good game against Rhode Island State, but were obliged to come away the losers by the score of 5 to 4. Libby was in the box for Maine and succeeded in fanning ten men. Smith, Abbott and Ryan were the mainstays for Maine in the batting.

On Saturday, Wakefield was the scene of another defeat by Boston College. The score was 2 to 1. Scales and Abbott showed their ability to hit in this game and Ryan struck out eleven men. Low for the Boston College team kept the hits well scattered and Mahoney and Murphy hit the ball for long hits. A large delegation of Maine alumni witnessed this game.

BOSTON ALUMNI DINE

Sixty Present at Bromfield Inn Last Saturday

On last Saturday evening the baseball team was entertained by the Maine alumni of Boston at their monthly dinner. Besides the team there were about fifty alumni present, and the grand old Maine spirit filled the dining room. Several enthusiastic speeches were made by the members of the club while Captain Smith and Coach Wingard were called upon to speak for the visitors. Captain Smith spoke a few words about the baseball team and its prospects for the season. Coach Wingard discussed the Athletics at Maine and explained the new plan of the Athletic Association in controlling the University Store. The alumni were very much interested in this plan, and after the meeting many of them subscribed for shares in this new company.

The dinner was one of the most spirited and successful affairs which the Boston alumni have ever had.

CIVIL LECTURE

Prof. Porter Spoke on Sewage and Water Conditions in Boston

Professor Porter, of the hydraulic department at Massachusetts Institute of Technology, gave two illustrated lectures to the Senior and Junior Civil Engineering students last Wednesday in the lecture room on the first floor of Wingate Hall.

The morning lecture was on the Problems arising in the Metropolitan Sewage System of Boston. Professor Porter, discussed the old sewage system and compared it with the present one. The lecture was illustrated with fine views.

The afternoon lecture was on the Metropolitan Water System of Boston. He spoke of the problems arising in providing pure water for the city of Boston, and discussed in detail the Wachusett Reservoir.

COLLEGE SING

Held on Library Steps Sunday Evening

The first Sing of the Spring was held on the steps of the Library, Sunday evening. There were about 75 present and a large number of religious and Maine songs were sung. The Sing started at 6.30 and lasted about an hour. Professor Bell led the singing. A short talk was also given by Dr. Aley. He took for his subject, "The Permanence of Moral Law." During his speech he compared the moral laws with those of the intellectual and physical order. He told how the permanence of these laws had been regarded and said that a change was being rapidly affected in the old idea of men that their morals could be changed at any time and that they were coming to believe that the laws governing these morals were as permanent in their nature as those concerning the intellectual and physical being. After his speech, a few more songs were had and the meeting broke up with the singing of the University Hymn.

W. H. Hilton, '11, spent a few days of last week at Good Will Farm.

C. A. Whitney, '14, was at his home in Portland over the week end.

Loyd Brean, '13, is ill with pneumonia at Paine's Private Hospital in Bangor.

W. F. Wilson, '11, was in Portland recently.

FORESTRY CLUB

Members Given Illustrated Lecture on the "Corbin Game Preserve"

Mr. Blaine S. Viles of Augusta, Me., gave a fine illustrated lecture before the Forestry Club Wednesday evening. His topic was the "Corbin Park Game Preserve" of New Hampshire. During the lecture about two hundred lantern slides were shown of views about this wonderful park. His lecture is as follows:

About 30 years ago Augustus Corbin, a retired financier, bought up sixty-six old farms in the mountainous regions of western New Hampshire and established what is now the best game preserve in the world. The park contains twenty-five thousand acres and is entirely surrounded by a high, strong, wire fence, twenty-eight miles in length. This fence serves two purposes, one in keeping the animals in the preserve from breaking free, another in preventing the wild, carnivorous animals from entering the preserve.

Mr. Corbin stocked this great preserve with a large variety of animals both domestic and wild. The wild animals predominate over the domestic in numbers. The domestic are used more for special breeding purposes. Perhaps one of his best breeds of domestic animals is the world-famed Vermont Morgan horse. The other domestic animals are also of the best breeding and include many heads of sheep, cows and the like. For wild animals there are great herds of buffalo, fine deer and elk, Rocky Mountain and Angora Goats, and a large number of wild boar.

This preserve has many beautiful roads which are well kept and lead everywhere about the park. All the roads are closed to the public except on certain days, and then the people are allowed to drive through the park at their leisure. About three thousand people visit this park during the summer months.

The preserve more than pays running expenses. Of course the expenses are great, but they are met in various ways. The sale of timber and of live and dead stock seem to reap the biggest profits. About six million feet of timber are cut and sawed each year. The preserve boasts of two well equipped sawmills. The animals are shipped to all parts of the world, mostly to amusement parks. The heads of many of these animals are mounted and bring fancy prices.

At a meeting of the Junior Class on Thursday, G. R. Woodberry was elected class historian to fill the place of A. W. Benson.

TRACK MEET

Mass Meeting and Special Train

The annual meet of the Maine Intercollegiate Athletic Association will be held on the Colby grounds in Waterville, Saturday, May 14. The meet this year will probably be one of the most closely contested ones ever held in the State. The track teams of the four colleges appear to be so evenly matched that it would be nearly impossible to predict the winner. At present, the "dope" on the meet is that out of the 126 points, the winning team will not have more than 40. The Maine team is going to Waterville, Friday night while the student body will go over Saturday on a special train. The number of men entered from the different colleges is: Maine 29, Bowdoin 44, Bates 30, Colby 40. The Maine entries are:

100 Yard Dash—Deering, Waite, Schrumpf, Ingham, Hart, Lancaster.

220 Yard Dash—Deering, Waite, Schrumpf, Ingham, Hart, McAlary.

440 Yard Dash—Walker, Morris, Schrumpf, Ingham, Hart, Lancaster.

Half Mile—Morris, Walker, Towner, Wardwell.

Mile Run—Houghton, Philbrook, Whitney, Towner, Morris, Wardwell.

Two Mile Run—Whitney, Power, Houghton, Philbrook, Towner.

120 Yard Hurdles—Smith, Hammond, Phillips.

220 Yard Hurdles—Smith, Hammond, Phillips.

High Jump—Phillips, St. Onge, Washburn, Rogers.

Broad Jump—Phillips, Rogers, Hall, Hammond.

Pole Vault—Rogers, Thomas.

Shot Put—Shepard, Bearce, Cavanaugh, Sullivan.

Hammer Throw—Bearce, Sullivan, Shepard.

Discus Throw—Shepard, Strout, Smiley, Thomas.

In connection with the track meet, a mass meeting will be held this week. It will most likely take place instead of the Chapel Exercises, Thursday morning. The band will be in attendance and will render a number of selections. Songs will be sung, speeches made, and the regular procedure gone through. Papers to be signed by those desiring a special train have been distributed about the Campus and enough names will probably be secured so that it will not be necessary to pass them around in chapel. If enough names are secured, which certainly will be, it is intended to have the train leave Orono shortly after 6 o'clock, Saturday morning so as to get out of Bangor ahead of the regular 7 o'clock train and arrive in Waterville in time for the trials which will be held in the forenoon.

CAMPUS BOARD ELECTION AND BANQUET**Held Last Tuesday, April 25**

On Tuesday, April 25, the Board of Editors of the CAMPUS held its annual election to fill the offices of the nine retiring members. The meeting was called to order shortly after seven o'clock at the Phi Gamma Delta House,

B. O. WARREN, '11, Retiring Editor of CAMPUS.

and immediately after a short business meeting, the election was held. The following officers were chosen: W. McDonald, Editor-in-Chief; J. C. Wallace, Managing Editor; O. W. Mountfort, Business Manager; R. W. Wetherbee, Assistant Business Manager; P. Garland, Alumni

N. N. SCALES, Retiring Business Manager of CAMPUS.

Editor. In addition, F. W. Ames, 1913, P. W. Monohon, 1914, F. T. Norcross, 1914, A. B. Ferguson, 1914, and A. N. Harris, 1914, were elected associate editors.

After the election a banquet was given the retiring board by Mr. Scales. It was a complete success in every detail and thoroughly appreciated by every member of the board, as well as by

President Aleý, who was the guest of the evening.

After the banquet the party retired to the parlor where a brief discussion of college affairs occurred, and the meeting of the past year's CAMPUS Board adjourned for the last time.

MUSICAL CLUB TRIP

The Musical Clubs returned April 29 from a most successful trip to Camden, Rockland and Warren. At each of these towns they were greeted by large audiences, the hall in Warren being filled to its limit. The program everywhere was greatly appreciated, and the men were everywhere treated most hospitably.

The clubs left Bangor early Wednesday afternoon on the Boston boat, arriving in Camden in time for supper. Here the concert was given in the Opera House under the auspices of the senior class of the high school. After the concert there was a dance, the music being furnished by the U. of M. orchestra. The men were entertained at private houses as usual.

Thursday, the clubs went to Rockland by electric and played in the evening in the Masonic Hall. Here, as at Camden, a dance was enjoyed. The men stopped at the Thorndike Hotel till Friday afternoon.

From Rockland, the clubs, without the orchestra, went by trolley to Warren where they gave an excellent concert in the K. of P. Hall.

A dance followed the concert at Warren, and immediately after the dance, a special car carried the clubs to Rockland where they spent the night.

Saturday morning at five-thirty, the men left Rockland on the boat for Bangor. It was a perfect morning, and the sail up the river was most delightful; many of the fellows say that the return was the best feature of the entire trip. It certainly added the finishing touches to the three days of good time.

STEAM TURBINES**Lecture on Steam Turbines Before the Mechanical Society**

Mr. Winslow Herschef, technical correspondent for the Allis Chalmers Company of Zurich, gave a very interesting lecture before the University of Maine Branch of Mechanical Engineers. His subject, which he treated in a thorough and comprehensive manner, and with which he was entirely familiar, was "Steam Turbines and Prime Movers as a Whole."

MILITARY INSPECTION

Captain Simmons Will Arrive on May 24

May twenty-fifth is the date set for the inspection of the University of Maine by the War Department. Captain Benjamin I. Simmons, general staff, accompanied by five officers, will arrive on May twenty-fourth, and the inspection will take place the following day.

Captain Simmons, commenced his inspection of all the colleges along the Atlantic Seaboard at the University of Florida. After inspecting that college he is to visit the following institutions in the order named:

Citadel, Charlestown, S. C.; Clemson Agricultural College; North Carolina College of Agriculture and Mechanic Arts; Fort Union Military Academy; Virginia Military Institute; Virginia Polytechnic Institute; St. John's College; Maryland Agricultural College; West Virginia University; Delaware College; Rutgers Scientific School; New York Military Academy; Riverdale Academy; De La Salle Institute; College of St. Francis Xavier; Cornell University; St. John's School, Maulius; Massachusetts Institute of Technology; Norwich University; University of Vermont; New Hampshire College of Agriculture and Mechanic Arts; University of Maine.

AGRICULTURAL CLUB

Lecture by Prof. Bartlett

The regular meeting of the Agricultural Club was held last Wednesday evening, in Winslow Hall. Prof. Bartlett of the Experiment Station was present and gave an interesting and practical talk on "Feeds and Feeding." He took this subject up from a chemical standpoint and showed the chemical value of the different feeds for various animals.

DEAN BOARDMAN'S TRIP

Visited the Reclamation Work and Many of the Larger Engineering Schools

Professor Boardman has returned from his trip of four weeks through the western states, visiting the leading engineering schools of the country and the government reclamation work in the northwestern portion of the United States.

In its reclamation work, the government is making fit for farming a portion of its public lands which comprise nearly one-third of the

total area of the country. Two-fifths of the U. S. is arid land and unfit for farming, due to the lack of a sufficient rainfall to bring the humidity necessary for successful farming, and it is in irrigating these lands that the government has spent over one hundred millions of dollars in the past ten years. As soon as the land is fit for settlement it is taken up on the homestead plan by private owners who receive titles after payment has been made for ten years. 900,000 acres have been opened to irrigation already, and nearly three million acres will have been opened when the work is completed. After all the land has been settled and the payments made the cost of all the reclamation work will have been paid.

It was in the construction of the engineering work that Professor Boardman was interested. On his trip west he went through Montreal, visiting McGill University, one of the highest engineering schools of Canada. He then went to Chicago and St. Paul. At the University of Illinois, he met two Maine graduates who are teaching there, and at Washington University he was met by two former Maine instructors. The trip carried him through nearly half the states of the Union, and in almost every state he met University of Maine graduates, being royally entertained by them and finding it difficult to get away from them. Many took the engineering courses under him and have become promising engineers. In the reclamation service alone, he found about twenty U. of M. graduates who have made good through hard work and the splendid chance for good engineers found there. On his way through Montana and Nevada he visited the University of Nevada and the Montana School of Mines which rank high with the leading engineering colleges.

The work is divided into six divisions, and it was in the northern division that Professor Boardman traveled. He was accompanied and entertained in Montana by Division Superintendent H. N. Savage, whose headquarters are in Helena, and viewed the huge dams under construction, the canals and pipe-lines for conveying the water, and the general engineering construction of the irrigation work throughout the whole state. Mr. Savage, who lectured here before the Junior and Senior civils in the early spring, came for the express purpose of obtaining more Maine engineers for the work in the West which is a high recommendation for the department.

Professor Boardman was given the opportunity to visit the Butte mines in Nevada before continuing on to California. On the return trip his path lay through Denver and St. Louis to Washington, D. C. After a short stay in that

city, he ca

city, he came to New York where he was tendered a dinner by the Civil Engineer Alumni of Maine. There he was confronted with the idea which the alumni proposed of establishing an extensive engineering employment bureau for University of Maine graduates with at least Chicago, New York and Orono as headquarters.

THE UNIVERSITY STORE

All the preliminary steps in the organization of the University Store Company have been completed. The stock is now on sale. Old graduates are showing their interest in the new enterprise by buying blocks of 20 shares. The outlook is good for the sale of stock sufficient to start the store on a cash basis. Inasmuch as the enterprise is to be carried on in the interests of the students themselves, it is very fitting that every student should buy at least one share of stock. The Board of Directors propose to see that the store is managed in a business-like way. Frequent, full, and complete reports will be made. Every student ought to feel a personal interest in helping to make the store fill its proper place, and contribute a considerable amount to the athletic interests of the institution.

SHORT AGGIE MEN

Nine Completed Course and Five Have Accepted Positions

The second year men in the Two Year Agricultural Course completed their work Friday. There were nine men who finished the course and five have already accepted positions. They are: M. A. Peabody, superintendent of the farm of the School for Boys in South Portland; P. L. Pingree, butter maker in Dow's Creamery, Scarborough; J. Dean and M. F. Wilbur on Hermon Byer's farm, Portland; A. C. Hall, manager of a creamery at North Castine. The other four men to complete the course were: S. A. Piper, H. G. McDougal, E. H. Beckler, and H. B. Wadsworth.

NEW SUMMER SCHOOL COURSE

To Be Given For the Benefit of Country Pastors

A new course is to be given at Summer School this year for the first time. It has been especially designed to meet the recognized needs of social

and religious workers, and pastors of country churches, of a better knowledge of social and economic questions pertaining to rural life. Also, instruction will be given in the principles and practice of modern scientific agriculture. In connection with this course demonstrations in the greenhouse, dairy, laboratories, and farms will be given.

ALUMNI NOTES

The lumber business of J. F. Gerrity & Co. has been incorporated under the name of the J. F. Gerrity Company. The new corporation is capitalized at \$50,000 and has offices at Room 11, Kenduskeag Block, 11 State St., Bangor and also at 95 Milk St., Boston, Mass.

James F. Gerrity is president of the new company, Joseph W. Gerrity, Treasurer and General Manager and Harry E. Sutton, Secretary. Both of the latter are graduates of the University of Maine, of the class of 1909 and are to be congratulated on their splendid success. It is expected that under their vigorous efforts and up-to-date methods the new company will far surpass the old one from which it was incorporated.

The announcement has been received of the marriage of Elmer L. Morey, '09, and Miss Marie Calista Stover, formerly of Bucksport. The wedding took place on Wednesday, April 19, at 58 Bayswater St., East Boston, at the home of a cousin of the bride, and the ceremony was performed by the Rev. William H. Van Allan, rector of the Church of the Advent, Boston.

Mr. and Mrs. Morey are now residing at 196 Botolph St., Boston, and their many friends all wish them every success in their future life.

The marriage of R. B. Josselyn, ex-'13, of So. Hanson, Mass., to Miss Flora Durland of Bangor, has been announced. The marriage took place in Boston, on Saturday evening, May 6.

Wilkie C. Clark, '00, has recently been secured as coach of the baseball team of the University of Minnesota. The "Gopher" College always turns out a fine team and secures the best possible coaches. Hence their choice of Clark as coach is good evidence of his ability in this line.

The marriage of Miss Jeannette Greeley to George V. Nauman, '09, took place in Woodfords, Maine, last week. The ushers, who were classmates of the groom at this University, were: Harold Haggett, Ray Duran, Clifton Spaulding, and Irving Rich. Mr. and Mrs. Nauman, after a short wedding tour, will reside at their new home on Bowdoin street, Medford.

ATHLETIC ASSOCIATION

At a recent meeting of the nominating committee of the Athletic Association the following nominations were made for the spring election.

President, K. D. Woodward, '12, W. R. Ballou, '12.

Vice President, G. A. Woodberry, '12, W. McDonald, '12.

Secretary, J. C. Wallace, '13, G. V. Dyer, '13.

Senior Members of Athletic Board, W. E. Parker, '12, W. McDonald, '12, G. L. Parker, '12, K. D. Woodward, '12.

Junior Members of Athletic Board, G. G. Tilley, '13, C. W. Wescott, '13,

Manager Baseball, C. W. Wescott, '13, J. C. Wallace, '13.

Manager Track, L. E. Seekins, '13, J. W. Hart, '13.

LOCALS

O. A. Wakefield, ex-'11, was a visitor on the Campus last week.

E. A. Rand, '14, has left college because of sickness.

F. S. Adams of Bowdoinham was the guest of his son at the Phi Kappa Sigma house last Wednesday.

R. M. Holmes, '11, has just returned from a business trip in Massachusetts, Connecticut and New York.

E. E. Towner of Somerville was the guest of his son at the Sigma Chi House last week.

G. H. Batchelder, '14, is ill.

H. Towle, ex-'14, was on the campus last Wednesday night.

A. M. Goodwin, '14, returned late from the Easter recess because of illness.

H. P. Adams, '04, is recovering from an attack of pleurisy of the lungs.

S. H. Winchester, ex-'11, was a visitor on the Campus recently.

The Empire State Club met at the Kappa Sigma House last Wednesday evening.

L. A. McKenney, '12, and E. W. Jennison, '13 have just returned from a tour of the state, collecting fertilizer samples for the Experiment Station.

C. H. Steele, '13, and M. S. Gould, '12, were in Boston last week. During their stay they witnessed the Maine-Harvard game.

Many of the two year Agricultural men finished their courses the latter part of last week and have left college. They will return in June to graduate.

Mrs. Stearns and Mrs. Butters of Millinockett visited Miss Stearns at the Mt. Vernon House last week.

At a meeting of the Senior Class, held last Wednesday, it was voted to wear the caps and gowns for the first time, to the Ivy Day Exercises, Junior Week. It was also decided at that time to hold the class banquet at the Gerald Hotel, Fairfield on the evening of the State Track Meet.

Harold MacDougal, '13 has left college to accept a position in Farmington. He will return to college next fall.

J. W. Edgerly, '89, was a recent visitor on the Campus.

O. W. Dwinal, '11, has been confined to the house for the last week with bronchitis.

A. C. Messenger, Dartmouth, '14, visited friends on the Campus last week.

N. B. Whitcomb, ex-'12, recently visited the Campus while in Bangor attending to fire losses.

G. E. York, '13, entertained his sister a few days last week.

FACULTY NOTES

Dr. Aley delivered an address before the Piscataquis Teachers Association at Milo, Friday evening, May 5th.

Prof. Hitchings has been in Waterville for a few days during the past week.

Prof. Bell was in Monmouth, Wednesday, May 3.

Dr. L. S. Merrill was in Portland, Wednesday, May 3.

Prof. Edmunston, who has been taking Prof. Huddilston's place while he has been abroad, left Thursday to sail for Italy.

Dr. Aley spoke before the Masons in Bangor, Thursday afternoon. Monday evening he was in Charleston and gave an address at the Higgins Classical Institute.

Dean Boardman has returned from his trip West.

Mr. E. W. Davee is building a house on College Avenue.

Prof. Chrysler was away recently visiting fitting schools at Kennebunk, Sanford, Berwick, and other places in the south end of the state. He attended a banquet of the American Academy of Arts and Sciences held at Cambridge, Mass. A feature of the occasion was the presentation of a medal to Mr. C. G. Curtis in recognition of his improvements to the steam turbine.

The Experiment Station has recently issued four new special bulletins, "Suggestions for Wood Lot Owners in Maine," by Prof. J. H. Briscoe.

At the last meeting of the Research Club, Dr. Bryant of Bangor and Dr. Humbert of the Experiment Station were invited to become members of the club. Dr. Bryant is doing some important work along Medico-Chemical lines, and Dr. Humbert is interested in plant breeding.

EXCHANGES

Corbin Park, a famous game preserve, has been offered as a training ground for the Harvard Forestry students.

Washington University has offered three prizes for the three best yells submitted to the student council.

The Dartmouth alumni who served in the Civil War are to be given a special recognition in the commencement exercises in June.

Thirty-five students at the University of Iowa were suspended for increasing their Christmas vacation three days.

It is estimated that the Johns Hopkins year book "The Hullabaloo" will cost \$1,200.

The average age of graduation at Dartmouth is 22.5 years.

Membership of the Aero Club at Harvard has reached 250.

In a recent kicking contest, a Nebraska student kicked a dish held nine feet above the floor.

One hundred students at Kansas recently signed an agreement to take a course in table manners.

Dartmouth will offer over fifty courses in its summer school this year.

The Michigan Law School has an enrollment of seven hundred and twenty-seven students.

The trustees of Oberlin College have voted to drop mathematics as a Freshman requirement. Either Latin or Greek may be substituted in its place.

Chicago University plans to build a \$600,000 library in memory of the late President Harper.

Columbia has made arrangements with the University of Paris for the exchange of professors.

Beginning with next fall, Brown University will have the two semester system instead of the present three-term division.

A lake costing \$3,200 and covering two acres is to be constructed at the University of Kansas.

One hundred and seventy-five students at the University of Wisconsin are taking journalism.

The Seniors at Tufts have a class assessment of \$25.

University of Maine Headquarters in Boston:

COPLEY SQUARE HOTEL

HUNTINGTON AVE., EXETER AND BLAGDEN STREETS

A high class modern house, most centrally located. Only one block from Huntington Avenue Station of Boston and Albany Railroad, and from Back Bay Station of N. Y., New Haven and H. R. R. Electric cars pass the door for North Station of Boston and Maine Railroad and connect with "L" and surface lines running throughout New England. Moderate prices, superior cuisine, attentive service, attractive rooms, each connected with long distance telephone. Courteous attention assured to ladies traveling alone. 360 rooms, 200 with private baths.

AMOS H. WHIPPLE, Proprietor

IN EVERY COLLEGE CHAP'S ROOM

there should be an ample amount and appropriate quality of typical College Furniture—good, solid, sensible effects, which will stand hard and long usage. We make a specialty of furniture for college rooms; can supply everything needed in YOUR room, at moderate cost. Special discount given to U. of M. students.

BOYS!

But you ought to take care of your teeth. Keep them clean and you prevent them from decaying to a large extent.

DR. HOLT, Bangor

gives special attention to Oral Prophylaxis, and welcomes U. of M. students at all times.

Music—popular; classical; every kind—at Andrews', Bangor.

A TYPEWRITER TEST THAT MEANS SOMETHING

Blindfold yourself. Have ten typewriters, of different make, placed in a row—a Monarch somewhere among them. Try each keyboard in turn. The machine with the lightest touch will be the

Monarch Light Touch

and you can locate it every time, no matter how its position be changed.

Just as the proper tools produce the best work, so does a responsive key action increase the efficiency of a stenographer. It saves her strength. Therefore, she has a better grip on her work, is more accurate, more rapid, gets a greater quantity of work done. There is no "three-o'clock fatigue" where the Monarch is used, and a few days' trial will convince you of this fact.

Send for Monarch Literature

Learn the reasons for Monarch superiority. Then try the Monarch, to the end that you may know that Monarch merit rests in the machine itself, not merely in what we tell you about it.

MONTHLY PAYMENTS

Monarch Machines may be purchased on the Monthly Payment Plan. A post card will bring full information.

"CLOTHING THAT'S FIT"

must be made to fit—and that means made for YOUR individual measurement from the very beginning. Discerning men have found that decent ready-made clothing costs about the same as decent custom-made—a fact which puts the made-to-measure clothing decidedly at the head. I have a particularly fine showing of the choicest Spring goods, and am prepared to produce faultless clothing at moderate cost. Every particular dresser—yes, YOU—should be interested. Step in!
