BANGOR, MAINE, MAY 9, 1913

No. 25

BASEBALL TEAM WINS BIG VICTORY

Maine 9, Bowdoin 1

Maine defeated Bowdoin at Brunswick 9 to 1 Wednesday in a rather one sided game. A characteristic of the game was the great batting of the Maine team and the rather loose fielding of Bowdoin. Bowdoin used three pitchers all of whom were hit freely. For Maine, Driscoll pitched fine and was given good support. The feature of the game was a double play pulled off by the Maine team: Driscoll to Chase, to Gilman. In the fifth inning Tilton also made a fine double play unassisted when Maine had the bases full and only one out. Maine started in at the very first to get runs, three being secured in the first inning. The team showed much improvement over the work of last Saturday and as one of the men expressed it "they played ball."

JUNIOR-FRESHMAN DEBATE

Freshmen Win

The Freshmen defeated the Juniors on Wednesday evening in the last of the series of Interclass competitive debates, for the cup offered by the Sophomore Owls. The question for debate was, Resolved: That the Act of Congress Exempting American Vessels Engaged in the Coastwise Trade from Toll in Passing through the Panama Canal Should be Repealed.

The Freshmen had the affirmative and the Juniors the negative side of the question. The Freshmen were ably represented by S. C. Clement, H. E. Rollins, and G. H. Garrison; the Juniors, by A. A. St. Onge, R. S. Ferguson, and A. B. Ferguson. Ten minutes were taken for the main argument and five minutes for rebuttal. Dean J. S. Stevens, Prof. G. W. Stephens, and Prof. R. K. Jones were Judges and R. H. Varney '15, was timekeeper.

MUSICAL CLUBS HOLD ELECTION

At a meeting of the Musical Clubs held Tuesday noon in Alumni Hall the following officers were elected for next year: President, Philip W. Thomas, '14, of Portland; Secretary, R. Hampden Bryant, '15, of Biddeford; Manager of Clubs, Frederick S. Youngs, '14, of New York City; assistant managers, Robert F. Thurrell, '15, of Portland and Philip B. Sheridan, '15, of Salem, Mass.; Leader of Glee Club, Ross H. Varney, '15, of Haverhill, Mass.; Leader of Mandolin Club, R. Hampden Bryant, '15, of Biddeford; Leader of Banjo Club, Harold C. White, '15, of Bangor.

STUDENT BODY TO MARCH TO FIELD SATURDAY

All roads lead to Alumni Field to-morrow afternoon. Bowdoin and Maine will meet in their last championship ball game for this year. Maine men and requested to assemble in front of Alumni Hall before the game. A column will be formed and preceded by the band the student body will march to the field. It is hoped that every Maine Man will be in line.

CALENDAR

FRIDAY, MAY 9

- 9.50 A. M. Junior Chapel Exercise
- 2-4 P. M. Open House at Fraternities
- 4.00 P. M. Law School vs. CVarsity—Baseball
- 8.00 P. M. Junior Promenade

SATURDAY, MAY 10

- 10.00 A. M. Battalion Drill
- 3.00 P. M. Bowdoin vs. Maine—Baseball
- 8.00 P. M. Junior Prize Speaking

SUNDAY, MAY 11

- 3.00 P. M. Vesper Service, Chapel
- 4.00 P. M. Track and Baseball Practice
- 7.00 P. M. Fraternity Meetings

TUESDAY, MAY 13

- 4.00 P. M. Track and Baseball Practice

ATHLETIC ASSOCIATION NOMINATIONS

Election Next Tuesday

The nominating Committee of the Athletic Association has made the following nominations. The election by the association will be held Tuesday, May 13, in the afternoon, at the gymnasium.

For President, of the Athletic Association. Paul W. Monohan, '14; E. L. Getchell, '14. For Vice-President, Mark Pendelton, T. W. Haskell, '14.

For Secretary, R. F. Thurrell, H. C. White, '15. For Senior Members of the Board (two to be elected)—R. S. Ferguson, '14, W. D. Towner, '14, C. H. Tipping, '14, H. P. Adams, '14.

For Junior Member, W. H. Martin, '15, D. S. Baker, '15.

For Manager of Varsity Baseball, 1914, E. C. Goodwin, '15, M. F. Banks, '15.

For Manager of Track 1913-1914, F. D. Freese, '15, P. A. Warren, '15.

FORESTRY NURSERY

Plans for the new nursery which is to be connected with the forestry course here at the University are now well under way.

The strip of land in the rear of the Mt. Vernon House, extending to Dean Merrill's will probably be the site of the new enterprise. Grading and cultivating will begin immediately and Prof. Briscoe is in hopes to have the land in condition so as to plant the seeds next spring. White Pine, Norway Spruce, and a few of the hard woods species, for shade purposes, will comprise the greater part of the nursery.

An appropriation of \$1,000 annually for at least two years has been obtained and the new instructor in Forestry, who will be appointed soon, will have active charge of the work.

The idea of this new nursery is to provide planting stock for those who may desire it at low cost, and in this way new plantations of forests will be greatly encouraged among the farmers of the state.

PHI ETA KAPPA HOUSE PARTY

A house party was held at the Phi Eta Kappa fraternity house Saturday evening, May 3, 1913. Cochran's Orchestra of Bangor furnished music for dancing. Those present were: the Misses Ethel Harrigan, Frances Dugan, Rosemary Brennan, Gladys Perkins, of Bangor; Minnie Parks, Pauline Bayard, Margaret Jones, of Orono. The guests of the evening were Mrs. Mason and O. B. Higgins, '14, of the Kappa Sigma fraternity.

SATURDAY EXERCISES

To-morrows Junior Week program will include an exhibition drill of the Military Battalion at 10 o'clock on the athletic field. At 3 o'clock there will be a base-ball game between Maine and Bowdoin, also on the Athletic Field. In the evening at 8 o'clock the Junior Prize Speaking Contest will be held in the Chapel. The University Orchestra will be there and it is hoped that a good crowd will turn out to hear the speakers.

Ernest Lisherness, '07, who is one of the bidders in the contract for the new Maine buildings was on the Campus Thursday.

THE 1914 PRISM HERE

Contents of the Junior Class Annual

At last the 1914 *Prism* is here, actually in Orono, and ready to make its first public appearance.

We have fortunately been allowed a view of the book, and it is *SOME BOOK*. The cover is the best we have seen in years, but it is the contents that make us repeat, that the 1914 *Prism* is *SOME BOOK*.

First comes a beautifully engraved photo-gravure of President Aley, to whom the volume is dedicated, and by the way, this also has his signature. The Faculty section as stated before has been greatly abridged, giving only the record and picture of the heads of each department, and listing the rest of the faculty under their respective departments. With the exception of a few changes, the section devoted to the classes, is similar to that used in previous volumes. The Class Histories have been replaced by Class Editorials. Outside help was called in to furnish the material for these editorials, and there is no question but that this change will meet the approbation of every student in the University. A decided change was made in arranging the Junior Class pictures. Four photographs were mounted on a gray cardboard, and a cut made of this: the effect is striking and distinctive. The Junior Grinds are a big part of the book, over thirty pages being devoted to the Juniors, and the write-ups on some of them will be sure to furnish a great deal of amusement, provided that the reader is not reading his own grind. We may state here, however, that none of these are of such a nature as to either offend or hurt the feelings of the mark at which they are aimed.

Following the Class Section, is the section voted to the various fraternities. This is very similar to those in past *Prisms*, giving the seal of the fraternity, the list of chapters, a picture of the house, and a group picture of the members. The section devoted to Clubs is distinctively arranged, and each organization is forcibly brought out by its cartoon title. Dramatics are treated next in order, giving a picture of the Masque, and a review of the past season. This section is followed by the one devoted to music, and at this point is brought out all the musical talent at the University; pictures of the Musical Clubs, of the Orchestra, and of the Band, being included.

Next in order is the section on athletics. This section takes up nearly seventy pages. The section devoted to Football at Maine, is sure to win favorable comment from every student in the University. Here are included articles by Ralph K. Jones, by Harry Smith, manager of the first football team at this institution; by A. L. Bird, captain of the team in 1899; and by "Pete" Bean, who played on four teams, three of which won championships; and by H. W. Wright, 1910. This section is illustrated by the pictures of fourteen teams, and some of these teams present a strange "front." The first team pictured, that of 1893, having no two suits alike and the team of 1896 and 1897 with their striped sweaters, and MSC across the chest. Scores of all the college games are next given in order, and it is interesting to review Maine's rise in football by means of these scores. Pictures of last year's athletic teams are given next. Teams in football, baseball, tennis, and the various track teams, each accompanied by a review of the season, the picture of the captain, then the results, and at the end of each form of sport a page of snap shots of games and events. Pictures of all class teams are included, and a record of all the class contests.

The section devoted to military includes the picture of the commissioned officers, of the military band, and the pictures of the five companies. The section treating the Publications includes the picture of each Board, a picture of the publication, and a list of the students who issue it. Passing briefly over the section devoted to social events, such as Commencement Week, Junior Week, and the other functions we next come to the section which probably interests the student body more than all the rest of the book; The

Grind Section. In order to be able to offer some inducements to merchants to advertise in the *Prism*, it was thought advisable by the *Prism* Board to do in the 1914 *Prism* what is done in a great many other annuals, that is to run the advertising section with the section devoted to grinds, having a page of grinds facing a page of advertising. It is an acknowledged fact that such a book is impossible without the advertisements, and as the Faculty forbade any class assessment, and ruled that the book must be sold for two dollars, it was apparent to the Board that something must be done to get more advertising that was ever gotten before. It has been entirely due to this arrangement that it has been possible to get many of these advertisements, and thus make it possible for them to get out such a book, and to also present page after page of grinds, photographs and drawings, forty pages in all, a larger grind section than was ever attempted in any other volume.

PHI MU DANCE

A Very Pleasant Evening at Mt. Vernon House

Pi chapter of Phi Mu gave an informal summer dance at the Mount Vernon House, on Friday, May second. The house and verandas were prettily decorated with Japanese lanterns, banners, cushions, etc. Richmond's orchestra of Bangor furnished music. The patronesses were Mrs. J. H. Huddilston and Mrs. Hart of Orono. Mrs. H. M. Estabrooke, Dr. Huddilston and Mrs. N. C. Cunningham were guests of the chapter. Among those present were: C. E. Chandler, '13, H. W. Hall, '14, H. D. Williams, G. H. Bernheisel, '15, P. E. Jackman, '13, E. C. Goodwin, '15, Irvin Park of Orono, C. H. Goldsmith, '15, N. B. Woodbury, '15, D. V. Atwater, '16, B. B. Anthony, '13, L. S. Jones, '14, A. F. Brackett, '16, Mr. Pierce of Bangor, R. D. Douglass, '15, H. R. Baldwin, '15, and H. R. Barrows of the English department. Miss Ethel Foster of Bar Harbor was a guest of the chapter.

KAPPA SIGMA HOUSE PARTY

Psi Chapter of Kappa Sigma gave an informal house party on Friday evening. The evening was pleasantly spent in dancing. White's orchestra of Bangor furnished music. The guest included, Mrs. Charles D. Woods, Mrs. Percy Campbell, Mr. and Mrs. Walter Farnum, Miss Helen Ring, the Misses Gladys and Dorothy Thompson of Orono; Mr. and Mrs. Lawrence Jones, Miss Mildred Varnum, Miss Frances Dugan, Ethel Harrigan, Estelle Beaupre, Frances Mulvaney, and Frances Townsend of Bangor; Misses Mildred Dow of Portland, Jennie Martin of Houlton, Marian Pooler of Stillwater, Helen Norris of Lewiston and Rachel Winship of Auburn.

M. C. R. R. DISCONTINUES SPECIAL RATES

Fare Doubled Between Orono and Bangor

Conforming to the long established practice on other roads, the Maine Central R. R. Co. on May 1st, discontinued the sale of all special rate round trip tickets between stations on its lines. The result is that the fare between Bangor and Orono, now 10 cents each way, will be 20 cents each way, the fare between Bangor and Oldtown, now 15 cents, will be 30 cents. The special rate for conventions, etc., is increased from one and a third cents a mile to one and three-fifths cents a mile. There will be no charge in the prices of tickets now sold from points on the Maine Central to other roads, or to points outside the state.

Russell Smith, '11, who is State Dairy Inspector will catch for the Portland Independent Baseball Club this season.

OUR idea of a satisfied customer is one who feels he could not have purchased a more becoming or better valued suit.

In order to live up to our ideas we sell a man only the clothes which reaches the highest standard of quality and which suit his personality. They make satisfied customers.

OBITUARY

A pall of gloom was cast over the campus last week, when the news of the death of Arthur Freeman Varney 1915, of Eastport was received. The end came after a severe attack of pneumonia, which lasted but a short week. Varney, who graduated from the Boynton High school of Eastport in 1911, entered the University in the fall of 1911 and made a place for himself on his class track team in the Pumpkin meet, winning a second place in the broad jump and running on his class relay team. His popularity was later evinced when he was chosen as the manager of his class base-ball team. He returned to college this fall but on account of ill health, he was obliged to leave, shortly after the Thanksgiving recess. He was a member of Theta Chi Fraternity and had recently passed his twentieth birthday.

RESOLUTIONS

WHEREAS, It has been the divine will of Almighty God to remove from our midst our beloved classmate, Arthur Freeman Varney, and
WHEREAS, We, the members of the Class of 1915 desire to express our deep sorrow and feeling of great loss at the death of our classmate and friend, be it therefore

RESOLVED That we extend to his family in their bereavement, our heartfelt sympathy; and be it also

RESOLVED, That a copy of these resolutions be incorporated and made a part of our class records, printed in the college publications, and sent to his family.

(Signed for the class)

JOHN H. McDONOUGH,

MALCOLM H. OAK,

ROBERT F. THURRELL.

WHEREAS it has pleased the Almighty God in his infinite wisdom to take from us our beloved Brother, Arthur Freeman Varney, and

WHEREAS we, members of the Gamma Chapter of Theta Chi, desire to express our deep grief and sorrow in the loss of our brother;

RESOLVED, that we extend to his family, in their bereavement, our deepest heartfelt sympathy; and be it further

RESOLVED, that our badge and charter be draped in mourning in respect to his memory; and be it finally

RESOLVED, that a copy of these resolutions be made a part of our chapter records and printed in the publications of the University, and that a copy be sent to his mourning family.

CHESTER H. NORTON,

HENRY W. FOWLER,

HAROLD F. AYER,

Committee on Resolutions.

PRACTICAL HUSBANDRY ELECTS NEW EDITORIAL BOARD

At a meeting of the "Practical Husbandry" board March 24th, the following editorial board was elected: R. F. Croker, '14, editor-in-chief; J. B. Parker, '15, assistant editor; R. H. Varney, '15, Animal Industry editor; C. A. Lyons, '15, Agronomy editor; P. M. Wilbur, '15, Horticulture editor; Miss Emma Genhardt, '15, Home Economics editor; R. H. Fogler, '15, Business Manager; R. E. Bartlett, '16, H. E. Rollins, '16, assistant Business Managers.

The purpose of the "Practical Husbandry" is to deal with Agricultural problems, both from the student editor's standpoint and from that of its numerous outside contributors. It contains information in different branches of agriculture that is invaluable to students in that department, and to people whose business is agriculture.

Agricultural students of the University should be in sympathy with the purpose of such a Magazine and give it their hearty support.

"Practical Husbandry" is published each Month of the College year, with a subscription price of only 50 cents.

BANGOR CO-OPERATIVE PRINTING COMPANY

EDITORIAL.

An office for the CAMPUS has been a long felt want. At last a small beginning has been made.

An office has been established in the College Journalism Room of Estabrooke Hall. In this office there are two desks for the use of the Business and Editorial staff respectively. There is also a telephone which will be used in the collection of news and the transaction of business. It is in this office that the board will have a place of meeting all its own and a place where some member of the board can be found during the stated office hours. It is hoped that all who have news to communicate to the paper will utilize their opportunity either by a call at the office or by telephone.

By thus establishing an office for one student organization it is hoped that others may follow. What we are aiming at is a separate building wherein all student organizations may meet and transact their business. Such a place takes the name of a College Union at many other colleges and universities throughout the country. This is not out of the question at Maine but it will doubtless take some time to accomplish the definite result mentioned. If every organization should attempt to establish an office, the need of a College Union would soon become apparent, and it would not be long before one was formed. The business of our college activities at present is scattered about the various fraternity houses and in some of the college buildings. This condition is obviously detrimental and tends to develop decidedly unbusiness like methods among our student managers. As the Faculty at the present time is taking great interest in the financial side, at least, of our activities, does it

not seem as though the students ought to make some systematic effort to centralize their business? Let two or three more organizations obtain an office and the demand for something better will be created. Then and not until then will a College Union be possible.

The present editorial staff of the CAMPUS does not believe that the paper should be the organ of the Athletic Board, of Athletics, of the Faculty, or of any one department of the University. The college newspaper should be the champion of the student body who publish it, and should attempt to treat equally all departments and organizations in the college. It is the duty of the college newspaper to report to the students an unbiased statement of things as they have occurred and will occur. If there is any news to publish on a given subject the students have a right to see it in their college newspaper. Therefore, the news that will be published in each issue of the Campus will be open to the censorship of no one. If there is any criticism to be made on the way things are printed in the CAMPUS, the right place to make such criticisms is in the columns of that paper. As the paper is the students they have a right to hear these objections against their newspaper. Therefore any criticism that is heard will be published in the editorial columns and thus give the students an opportunity to judge the merit of their paper for themselves. About censorship we would say that it seems entirely unnecessary and will therefore be dispensed with. If there is any news which should not be published it should not be given to a CAMPUS reporter. The CAMPUS will try to avoid making any gross errors or mis-statements and attempt to give the college only that which is true and which really represents the student opinion on any and every subject.

NEW SIDEWALKS

To be Put in During Summer

As we all know, the crying need of the University is better sidewalks. In the Spring the conditions on some parts of our campus have been such, that one could not walk between buildings without getting wet feet. At last the proper authorities have looked into the matter and have decided to replace some of the old sidewalks with about one thousand feet of new cement walks during the summer. It is the plan to build a walk from the front of Alumni Hall to Estabrooke Hall with branches to each of the intervening buildings. This walk will be placed on the east side of the road and will pass the proposed new chemistry building. Another stretch will connect the walk in front of Alumni Hall with the walk that passes to the College Waiting Room. It had been planned to build a walk from Winslow Hall to Alumni Hall and to build also in several other places, but on account of a lack of funds, this cannot be accomplished this summer. The Engineering Department will work out the plans for the walks under the direction of Prof. Kaulfuss. The walks will be laid on a cinder foundation and will be raised somewhat in order to avoid being flooded with water. Especial attention will be given to the mixing of the cement on account of the extensive freezing and thawing that occurs in the Spring. It is also understood that the Experiment Station will build a cement walk from the Station to the walk that connects with the Waiting Room. This walk will pass on the south side of Coburn Hall.

LOCALS

R. D. Long, '13, visited his home in North Raymond the first of the week.

Carl Cleaves, '12, was on the campus this week.

F. D. Ames, '13, has returned to college after a short leave of absence.

C. W. Wescott, '13, spent the week-end at his home in Patten.

A. M. Goodwin, '15, and W. B. Hill, '15, recently caught a string of nine salmon weighing in the neighborhood of 30 pounds, at Coldstream Pond.

P. R. Hussey, '12, was a visitor at the Phi Kappa Sigma Wouse, Wednesday.

R. H. Fiske, '13, has returned to college after a brief sickness.

H. W. Wentworth, '10, and "Cupe" Wright, '10, were at the Sigma Chi house last Sunday.

O. K. Edes, '16, spent the week-end at his home in Dexter, Maine.

R. S. Hopkinson, '13, was in Portland Monday on business.

F. A. Morris, '14, spent the week-end in Gardiner, Maine.

A. L. Foster, '16, has been in his room for a few days with rheumatism.

R. C. Hackett, '16, returned to college Monday after a few days illness at his home in Pittsfield.

Mr. W. B. Pickard, '14, has returned to college after an absence of about a week spent in his home in Hopedale, Mass., where he was called by the sudden illness of his father who is employed as a salesman by the Draper Co.

JUNIOR PRIZE SPEAKING

The Annual Junior Prize Speaking is to come tomorrow night and the program is sure to be interesting as all of the students contesting have before shown their ability in the speaking line. The event should be well attended by the student body. This year there will be the usual prize of fifteen dollars for the winner but besides this there will be a second prize which the new honorary speaker's club, Sigma Psi, will offer. The prize will be five dollars this year with the hopes and expectation to raise the prize to a larger amount next year. Of the students appointed to contest, the following out of those who handed in their essays are to compete.

A. B. Ferguson on "Morals in College Education."

Carolyn Imogen Wormwood "Seven Lamps for Students Ways."

W. C. Monahan "Ideals."

P. W. Monohon "A Revolution in Government."

Aileene Browne Hobart "The Mission of Evangelism."

E. B. Harvey, "Is Honest and Sane Journalism Possible?"

The judges will be Dean Leah S. Merrill; Rev. Willard Pratt, Brewer; Mrs. Joseph Lyman. Orono.

SIGMA PSI OFFERS PRIZE

The new honorary speaking society, known as Sigma Psi, has offered a prize of five dollars for the second best essay delivered at the Junior Prize Speaking Contest, which takes place next Saturday evening in the chapel. It is the custom of the faculty to give a prize of ten dollars each year for the best essay delivered at this contest, and Sigma Psi has offered an additional prize this year with the idea of arousing more interest in public speaking exhibitions. Sigma Psi has already pointed out to the student body its ideas of promoting interest at such occasions and undoubtedly this additional prize will stimulate an increased amount of interest at the Junior contest next Saturday evening.

DR. WINSHIP LECTURES IN CHAPEL

Gives a Most Interesting Talk

Dr. Winship editor of The Journal of Education, and a loyal friend of the University, gave a most interesting talk at Chapel Tuesday morning. Dr. Winship said that he had watched with much interest, the efforts of the University of Maine to provide opportunities to secure a vocational education. In her poultry course Maine has no rival. The Dean of the University of Utah was quoted as saying that he would not die happy until the poultry department at that University was superior to the department here. But Dr. Winship expressed his opinion that Maine had little to fear.

It is a comparatively modern idea, his doctrine of specialization. The truest and highest mission of education is to give the student a love for his subject, a "relish" for it. The word "relish" was used significantly, and was cleverly illustrated. The older ideas of education taught that there were fundamental studies which must be mastered before the student could progress. Nowadays we realize that there are fundamentals beyond each study. It is what we get beyond, that places each institute where it must specialize. Even old institutions have begun to specialize. It was at a meeting of delegates from the secondary schools of the state that Maine took a most advanced step. Maine had a vision of the fundamentals beyond.

In connection with this idea of the vision beyond the present, Dr. Winship described the new policies adopted by various banking associations in the West. This plan provides adequate aid and suggestions for farmers needing such help. By working along these lines much land that was formerly desert has been reclaimed and made profitable. In our own state such men as Mr. Eastman of Dexter and Mr. Pope of Manchester have shown what can be done through specialization. From his thirty-seven cows Mr. Pope sold last year nine thousand dollars' worth of cream. Because he claimed his cream to remain sweet for twenty-one days the Pure Food Commission made an investigation which completely justified his claim.

In closing, Dr. Winship gave a vivid account of a celebration which preceded the Harvard-Yale game in 1898. But there were eleven men who took no part in the rejoicing which preceded the game. A sacrifice was required of them, and they made it. Likewise a sacrifice is often required of the college man today in order that he may merit the world's applause after his period of preparation is finished and his goal accomplished.

ALUMNI NOTES

Robie L. Mitchell, '07, Law, '10, is now located in Savage, Montana, where he is practising law and also acting ass manager of the Richland Real Estate Company.

Philip Garland, '12, has accepted a position in Seattle, Washington.

W. R. Witham, '12, is employed by the City Engineer of Bangor.

C. E. Taylor, '91, is the promotor of a new Water Company being formed in Brewer.

J. E. Battles, '10, of Wilkesburg, Pa., where he is employed by the Westinghouse Electric and Mfg. Co., was a recent visitor on the campus.

Clifford Martin, '94, of Ft. Fairfield, has been promoted from a Resident Engineer of the New York Central and Hudson River Railroad to Assistant District Engineer of the same company.

F. H. Bacon, '76, is the senior member of the firm of F. H. Bacon and Co., of Boston, interior decorators. This firm recently furnished plans and designs for the Halls of Congress at Washington.

Dana Washburn, '11, who has been employed in the Merchants Trust and Banking Company of Presque Isle, has accepted a new position with the Merrill Trust Company of Bangor.

University of Maine Headquarters in Boston:

COPLEY SQUARE HOTEL

HUNTINGTON AVE., EXETER AND BLAGDEN STREETS

A high class modern house, most centrally located. Only one block from Huntington Avenue Station of Boston and Albany Railroad, and from Back Bay Station of N. Y., New Haven and H. R. R. Electric cars pass the door for North Station of Boston and Maine Railroad and connect with "L" and surface lines running throughout New England. Moderate prices, superior cuisine, attentive service, attractive rooms, each connected with long distance telephone. Courteous attention assured to ladies traveling alone. 360 rooms, 200 with private baths.

AMOS H. WHIPPLE, Proprietor

"CLOTHING THAT'S FIT"

must be made to fit—and that means made for YOUR individual measurement from the very beginning. Discerning men have found that decent ready-made clothing costs about the same as decent custom-made—a fact which puts the made-to-measure clothing decidedly at the head. I have a particularly fine showing of the choicest Spring goods, and am prepared to produce faultless clothing at moderate cost. Every particular dresser—yes, YOU—should be interested. Step in!

C. R. RICHARDSON

HEAD AGENT,

HANNIBAL HAMLIN HALL

DEUTSCHER VEREIN

Prof. R. H. McKee delivered a most interesting lecture upon the "Life and Work of Justin Von Liebig" before members of the Deutscher Verein and students majoring in the chemistry department in the Library, Thursday evening. Dr. McKee referred to Liebig as the great pioneer of modern chemistry. He took up in detail the life, training and associations of the great German scientist and showed that he was important for the following reasons: Liebig placed organic chemistry on a firm and sure basis, he was the first to devise and teach the laboratory method in science, the first to apply chemistry to agriculture and on the laws of everyday life.

Liebig was a great educator as well as a wonderful scientist. In 1824, he became Professor of Chemistry at the University of Giessen and soon afterwards opened a school of chemistry which made Giessen the most important chemical center of the world. The idea of teaching science according to laboratory methods was first applied here and was a wonderful success from its inception. The application of the principle is the foundation of our present laboratory system of instruction. It did great good in Liebig's day in that it stimulated interest in science and led to the building of many other and better laboratories.

Agriculture was a subject which early engaged Liebig's attention and one in which he spared no pains in order to become thoroughly conversant with its problems. Modern agriculture owes him a great debt for his genuine interest gave us many of our fertilizers and he was one of the promoters of the Experiment Station system.

In 1852, Liebig accepted the chemistry professorship at the University of Munich. Here some of his best work was done. The literature that such a busy man as Liebig has left us is very voluminous. The first work which won recognition for him was an article on "The Composition of Mercury Fulminate." He was the author of no less than 318 scientific papers as well as 12 important books; other things which he has given us are the Liebig condenser, analysis of many organic substances, and the knowledge of isomerism, polymerization and radicals in organic chemistry.

BETA THETA PI RECEPTION

Beta Eta Chapter of Beta Theta Pi gave their annual reception on Friday evening, last. The chapter house was beautifully decorated for the occasion. The reception was followed by dancing which was enjoyed until a late hour.

Among those present were the Misses Louise Briscoe, Isabel White of Orono; Pauline Savage, Mildred Beverly, Margaret Wood, Marion White, Harriet Jones, Edna Crowell, C. Imogene Wormwood, Ruth Lowell, Margaret Dole, Elva Williamson and Hortense Harding of Bangor; Dorothy Tubbs and Edith Pattangall of Waterville; Maybelle Haines of Dexter; Martha Sheldon of Pittsburgh; Beatrice Locke of Boothbay Harbor; Marion Brown of Moose Jaw, Saskatchewan, Can.; Catherine MacLeod, Old Town; Marjorie Barnard, Concord, N. H.; Charlotte Webber, Lewiston; Mildred Fields, Rockland; Mona Martyn, Bethel; Margaret Phinney, Lynn, Mass.

Among the alumni back for the occasion were: D. P. Washburn, '12, Bangor; W. Peckham, '11, Bangor; S. M. Jones, '11, Bangor; F. W. Harris, ex-'13, Dexter; Harold S. Boardman, '95, B. P. Weston, '96, Ralph K. Jones, '86, W. I. Parsons, '11, F. J. Gould, '96, W. E. Barrows, George Ware Stephens of Orono. Mrs. R. P. Pendleton, of Islesboro; Mrs. H. S. Boardman, and Mrs. W. E. Barrows, of Orono, chaperoned the party.

Lieut. Glass says that there will be no special drill on Saturday of this week owing to the fact that he has no time to prepare for it. However, the entire battalion with band will drill at 10.45 as on last Saturday.

SNYDER-CURE HAMS AND BACON

are the product of four years of experimentation to determine if meats could be cured with such a minimum of salt and other curing ingredients that the highest degree of flavor could be obtained, and the toughening properties of the ordinary curing method eliminated. The delicious flavor of the cure is the answer — this supplemented by the

FRAGRANT SMOKE OF CORNCOBS.

The result is the most delicious ham and bacon now offered to discriminating people.

Only salt enough to flavor.

PLANS NOW READY FOR NEW CHEMISTRY-PHYSICS BUILDING

A \$75,000 Structure is to be Erected

The new Chemistry-Physics building which is to be situated north of Lord Hall will be a model of its kind. With its 40,000 feet of floor space, modern equipment and the latest apparatus it is expected that the fast increasing number of students who are choosing these sciences for a major subject will have the best possible facilities. The building will be of red brick, three stories in height and the two departments will be separated from one another by a brick partition running the whole length of the structure. Several architects are working on the plans at the present time and it is expected that the plans will be approved by the latter part of June so that work will commence on July first. The building will cost \$75,000 and will be ready for occupancy at the opening of college in September 1914.

Dean Stevens of the College of Arts and Sciences and head of the Physics department has made arrangements for his department rooms as follows: On the first floor there will be both the electrical and optical laboratories, two large apparatus rooms, a Photometric room, toilet conveniences, two offices and an elevator.

The large lecture room, which will accommodate one hundred and fifty will be situated on the second floor together with the library, which will be a feature of the new building. An office, a small recitation room, an apparatus room, and a Mechanics and Heat laboratory will also be located on this floor.

On the third floor will be located the laboratory where accommodations will be made for one hundred students. Besides this laboratory, on the third floor will be another apparatus room, a recitation room and a special room for the use of the Meteorology department. This latter department will also have accommodations for observations by apparatus which will be constructed on the roof.

The basement will be unusually high and besides the storage battery room and the Photographic room, will contain a shop and two private laboratories.

Arrangements for the Chemistry department will be completed in a few days by Professor McKee and this department also will be equipped with the latest appliances.

TENNIS COURT AT MT. VERNON HOUSE

A Long Felt Want is Supplied

A tennis court has recently been fitted up just below the Mt. Vernon House for the use of the young ladies. A court has been badly needed and has been contemplated for some time, but no suitable location could be found.

Through the efforts of Professor Wingard, a part of the funds from the Blanket Tax was used to grade, roll and equip it in the most thorough manner. Good drainage is assured by one end of the court being on made land; the other end is cut into a bank. It is surrounded by a high wire fence. This court is assuredly welcomed by the women students, who have needed a chance for athletics a long time.

NEW COURSE IN PULP AND PAPER CHEMISTRY

Two new courses in pulp and paper chemistry have been announced for next fall by the chemistry department. It is the intention of the department to expand and specialize somewhat along this branch. The courses mentioned are probably the only ones of the kind offered in New England and will be of great assistance not only to the students majoring in chemistry but also to the engineers as well.
