ANOTHER CHAMPIONSHIP.

Maine Wins State Title in the Best Meet Ever Nine Records Broken

The University of Maine won the 19th annual Maine Intercollegiate Track Meet held on Alumni Field, Saturday. Notwithstanding the cold and cloudy weather before and after the meet, Saturday was a fair, warm day and favorable for breaking records. In all nine state records were broken and one tied. It is public opinion that if the timers had caught the pistol flash in the low light, that Colby would have had a record there.

Maine won the meet by being strong in the distance runs, by having stars in the hammer and pole vault and by being well represented in the dashes, weights, pole vault and high jump. A great deal of the credit for winning should go to Captain Power, who won third place in the mile and first in two mile. He has proved himself to be a steady leader and has inspired his men with his fighting spirit, determination, and obedience to coaching.

One of the two largest point winners and the bright star of the meet was Meanix of Colby who Maine was second with 111 feet, 4 inches; Lead- better of Bowdoin was third with 110 feet, 11 inches; Lewis of Bowdoin made fourth place with a throw of 105 feet, 5 inches and Purinton of Maine was fifth with 101 feet, 11 inches.

In the Hammer throw, Bailey of Maine won first place and broke the record with a throw of 145 feet, 7 inches; Shepherd of Maine was second with 125 feet, 6 inches; Leadbetter of Bow- doin was third with 121 feet, 2 inches; Lewis of Bowdoin, fourth with 114 feet, 41 inches; and Parkhurst of Bowdoin, fifth with 92 feet 112 inches.

In the 16 pound shot, Shepherd of Bates, first, 43 feet, 44 inches; breaking the State record; Gore of Bates, second, 40 feet, 41 inches; Shepherd of Maine, third, with 39 feet, 35 inches; Faulkner of Bowdoin, fourth, 36 feet, 8 inches; Sunnwood of Colby, fifth, 32 feet, 5 inches.

In the Running High Jump—First Wood of Colby broke the record in the quarter. He took the lead at the start and held it all the way. Several times he looked over his shoulder and slowed down to save himself for the hurdlers. Fox of Maine might bravely to place but weakened on the last turn and was passed by Merrill and Bowen of Colby, and Haskell of Bowdoin.

In the 120 yard dash, McLaughlin of Bates broke the record in the high hurdles, with Royal of Colby second and Thompson of Bates third. Time 16.6 sec.

The two-twenty yard dash was one of the features of the meet. The runners came through the gate with Nevers of Bates slightly in the lead closely followed by Ashton of Maine and Nardini of Colby. Within 30 yards of the finish Ashton began to leave Nardini and to overtake Nevers; but the race finished with the men in this order. The state record of 22 and one fifth seconds was equaled.

The half mile was the most exciting race of the day. Morris of Maine took the lead on the first turn and sat a fast pace for the first lap. On the first turn of the second lap Reynolds of Colby passed Morris. On the back stretch Bell of Maine and Deering of Bates began to pass the other runners. Bell taking the lead and Deering running behind Reynolds. Bell led from there in as the pace was beginning to tell on the other runners. On the home stretch Deering sprinted and passed Reynolds. The time was two minutes.

Maine walked away with the two mile. Capt- tain Power of Maine took the lead and at the end of the first lap led the field by 40 yards. Tarbox of Bowdoin started out after Power, followed by Towne of Maine. Brooks and Burgess of Maine were directly behind Towne. On the fourth lap Tarbox passed Turbox. Power had increased his lead to over 100 yards when Brooks and Bur- gess passed Tarbox on the sixth lap. At the beginning of the last lap Power started to increase

A. N. Surrin
Coach of Championship Track Team

Perry Bailey
State Record Holder of Hammer Throw

Colby with 5 feet, 41 inches; second, Worden of Maine; Kempten of Bates third; Green of Bowdoin fourth, Drake of Bates, fifth.

In the Running Broad Jump, Faulkner of Bow- doin was first with 21 feet 35 inches; second, Smith of Bowdoin, 20 feet 103 inches; third, Mc- Farland of Bowdoin, 20 feet 95 inches; fourth, Nardini of Colby 20 feet 34 inches; fifth, Floyd of Bowdoin, 20 feet 25 inches.

On account of the few entries, the trials in the pole vault were not run off.

THE FINALS IN THE TRACK EVENTS.

The hundred proved to be a very exciting event. Nardini of Colby winner of this race for the last two years was said to be in poor condition but was picked to win to the surprise of Nevers of Bates, who took third last year, Ash- ton of Maine and Smith of Bowdoin were also doped by some to win. All of these men with the exception of Smith who failed to qualify won their heats in ten and one fifth seconds. Lord and Lowney of Colby and Lueck of Maine won the second places. In the final heat, Nevers, Nardini and Ashto were abreast 30 yards when Nevers began to pull away. Nardini and Ash- ton attempted to catch him but were unsuccessful and crossed the finish line hardly a foot behind him being separated from each other only by in- ches. So close were they that Nardini conceded second place to Ashton but the judges decided that Nardini had taken second place.

Maine captured all three places in the mile easily. McLaughlin who was sent in to set the pace led the first two laps at a good pace. At the end of these two laps Towne, Brooks and Power of Maine passed him with the other contestants hopelessly distanced. From here on the runners took their time and finished in the slow time of 4 min. 48 4-5 sec.

Aubin of Colby broke the record in the quar- ter. He took the lead at the start and held it all the way. Several times he looked over his shoulder and slowed down to save himself for the hurdlers. Fox of Maine might bravely to place but weakened on the last turn and was passed by Merrill and Bowen of Colby, and Haskell of Bowdoin passed Bowen and Merrill on the home stretch and they fought it out for third place, Merrill barely passing his team mate at the finish.

H. P. Adams
Manager of Championship Track Team

Woodman of Bates broke the record in the high hurdles, with Royal of Colby second and Thompson of Bates third. Time 16 sec. flat.

The two-twenty yard dash was one of the features of the meet. The runners came through the gate with Nevers of Bates slightly in the lead closely followed by Ashton of Maine and Nardini of Colby. Within 30 yards of the finish Ashton began to leave Nardini and to overtake Nevers; but the race finished with the men in this order. The state record of 22 and one fifth seconds was equaled.

The half mile was the most exciting race of the day. Morris of Maine took the lead on the first turn and sat a fast pace for the first lap. On the first turn of the second lap Reynolds of Colby passed Morris. On the back stretch Bell of Maine and Deering of Bates began to pass the other runners. Bell taking the lead and Deering running behind Reynolds. Bell led from there in as the pace was beginning to tell on the other runners. On the home stretch Deering sprinted and passed Reynolds. The time was two minutes.

Maine walked away with the two mile. Capt- tain Power of Maine took the lead and at the end of the first lap led the field by 40 yards. Tarbox of Bowdoin started out after Power, followed by Towne of Maine. Brooks and Burgess of Maine were directly behind Towne. On the fourth lap Tarbox passed Turbox. Power had increased his lead to over 100 yards when Brooks and Bur- gess passed Tarbox on the sixth lap. At the beginning of the last lap Power started to increase

The Maine Campus

Important Meeting of Athletic Board

"Ms"s and Numerals are Awarded

A very important meeting of the Athletic Board was held Wednesday evening, May 15. The cancellation of the game with Tufts was one of the things taken up with the baseball management. The board did not favor the game and appointed G. G. Tilley to prepare a statement for the Campus giving the reasons for cancelling. It was voted that all final action of the Athletic Board be drawn up by the secretary and given to the Campus for publication, and that the number of men to be sent to the New England Intercolligate Meets should be decided by Prof. Wingard.

The "Ms" was awarded to the following:

Intercollegiate Track Meet

Entire Student Body Should Aid in Entertaining Prospective Maine Men

An intercollegiate meet between the different preparatory schools in the State will be held at Orono next Saturday. The entries are not in yet but among those that will come in are Hebron Academy, Westbrook Seminary, Portland and Bangor High School, Old Town and Orono High Schools. Between twenty and twenty-five schools will be represented.

An entertainment will be held for the students from these schools Friday night in Alumni Hall. Not only will the representatives of track athletics be entertained but also the prize speaking and debating contestants.

President Aley will speak and the band will play several selections. Much depends upon the entire student body being present to give these college preparatory students an idea of what college spirit really is.

The "Harvard Crimson," recently celebrated its fortieth anniversary by a banquet.

Rousing Mass Meeting in Alumni Hall

Enthusiastic Crowd Meets for the Last Time This Year

A rousing, spirited mass meeting was held Thursday evening, May 15th in preparation for the State Meet Saturday. There was by no means the whole student body present, but there was "Maine Spirit" enough for twice the number. The speakers were greeted with such applause that it was several minutes before they could make themselves heard. The speeches were interwoven with selections by the band, including "Our Director" and the "Stein Song." G. G. Tilley, '13, introduced P. W. Monohon, '13, as the first speaker, then came Capt. Power. Both expressed the importance of backing the team in the meet with the same fighting spirit that was prevalent at the mass meeting. Capt. Power extended his thanks to the team that has worked so faithfully under his direction. Next came Professor Thompson; his talk carried the enthusiasm that only Prof. Thompson can give. He said that it was folly for us to expect to win all the championships every year but that our duty is to back our teams with all we have.

After the speaking the student body headed by the band marched around the campus stopping at Dr. Aley's for speeches, and from there they marched to the Mt. Vernon House, where several speeches by the co-eds were heard, wishing for a Maine victory on Saturday.

++

Finals of Interscholastic Debate

Bangor and Bar Harbor High School to Contest for Cup

The final debate in the Interscholastic Debating Series, which occurs next Thursday evening in the University chapel, will be between Bangor High School and Bar Harbor High School. The subject of the discussion is: Resolved, That the United States should gradually increase its naval armament.

The Bangor team will argue for the affirmative and the Bar Harbor team will argue for the negative side of the question.

This is the final of a series of debates for the possession of the Interscholastic Debating cup, which is to be held by the team winning the debate each year, and is to be permanent to the team winning it three times in succession. Bangor High now has the cup in its possession, having won the final debate for the last two years, and should that team win next Thursday evening the cup will be theirs permanently. The "Speaker's Club" will entertain the debaters and assume the management of the exercises.

In addition to the cup, a University Scholarship is offered to the best individual debater; this additional prize should make the debate a hotly contested one and also should develop some able speakers for Maine.

The following men make up the teams:

++

A. N. Smith to Coach Hebron

Coach Smith has given his consent to coach the Hebron Academy track team again this year. He leaves for Hebron, on Monday, following the State Meet. Last year he coached the Academy and obtained very good results, since they won both the University of Maine and the Bowdoin Interscholastic Meets.
All water is wet; and all clothes are clothes; but some water you wouldn’t drink, and some clothing you wouldn’t think of wearing. Some clothes make you well-dressed—our clothes make you BEST dressed.

UNIVERSITY OF MAINE

A PUBLIC INSTITUTION MAINTAINED BY THE STATE AND GENERAL GOVERNMENT

ORGANIZATION

College of Arts and Sciences, College of Law, College of Technology Electrical, Mechanical, Civil and Chemical Engineering, Pharmacy, Short Course in Pharmacy, College of Agriculture (Forestry), Domestic Science, School Course in Agriculture (two years), Winter Courses and Correspondence Courses in Agriculture; Summer Term. Graduate Courses leading to the appropriate Master’s degree are offered by the various colleges.

EXPENSES

Tuition $60 a year for residents of Maine, $70 a year for non-residents of Maine, except in the Engineering courses where the charge is $100 per year.

COLLEGE OF LAW

at Bangor, offers a course of three years. The tuition charge is $70. Eight resident, and five non-resident instructors.

FACULTY

includes 106 names; students number 1000.

EQUIPMENT

includes 31 buildings large and small, 16 well-equipped laboratories the museum, the herbarium, and library.

For catalog, and circulars, address ROBERT J. ALEY, President, Orono, Maine.

THE SUMMER TERM

Changes and Courses Offered

The Summer Term of the University of Maine for the year 1913 will open on July 7, and continue to August 15. In the bulletin published on this important branch of the work of the University may be found complete information regarding the faculty, courses offered, etc.

Professors Segall and R. P. Gray will not be here this summer. Their courses will be given by Professor John Heenan, professor of Romance languages at Colby, and Professor John R. Slater, professor of English at the University of Rochester, respectively. In all other cases the work will be given by the regular heads of departments.

“The Summer term of the University of Maine was established in 1903. It has had a gradual and encouraging growth and has enrolled among its members a large number of teachers and others from Maine and other states. The courses are for the most part given by heads of departments of the College of Arts and Sciences of the University of Maine. In the cases where it has been necessary to go outside the faculty, an effort has been made to maintain an equally high standard of efficiency. The majority of the courses offered are of college grade, but there are a few courses which are designed to meet the wants of students in preparatory schools who have not quite completed their collegiate preparation.

Beginning this year work done in certain approved courses which will be offered may count toward the degree of Master of Arts which may be obtained by attendance through a number of summers.

LOCALS

P. H. Martin, '14, left last Saturday to begin his summer work of demonstrating the use of iron sulphate for spraying machines.

C. A. Chase, '13, visited his home in Sebec Station last week.

Luther Leach, Jr., ex '14, was on the campus recently.

The engagement of Dexter S. J. Smith, '09, to Miss Louisa Wood of Bangor was recently announced.

F. E. Holmes, '02, of Bangor, was on the campus last week.

Park Elliot, '15, visited his home in Dover recently to witness an inspection of Co. F, N. G. S. M.

Lewis Blood, '16, and Charles Eldridge, '16, visited their homes in Foxcroft last week.

Brooks Brown, '16, paid a visit to his home in Dover the first of the week.

Professor A. J. Jones is to give a lecture at Madison on May 16, and at Northeast Harbor, May 23. He will speak on the "Opportunity of the Rural Teacher."

FROM HERE AND THERE

George Magoon to Manage Bangor Team

The magnates who are financing the Bangor team of the new Maine and New Brunswick league have engaged George Magoon, the present University of Maine coach to manage the Bangor team this summer. The University of Maine athletic management has tendered the use of Alumni Field to Mr. Magoon as a place to work out his men.

EDITORIAL

Victory is a very pleasant thing to most members of the student body. They accept it as a matter of course and do not stop to think how they got it. Victory is the result of hard work by those who worked to bring them credit. Likewise when defeat is how we are long at the men in the various teams. The Coach and members of the track team deserve some little consideration for their work in bringing another championship to Maine. Lack of appreciation and thought of others has, for the past three years at least, been a great fault with the student body at Maine.

Coach Smith has turned out two championship teams this year. Think that over! What does it mean? It means a long experience in the handling of men on his part, and it means a year of hard training on the part of Capt. Power and his men. What student in college can appreciate what a year of training means unless he has been through it?

The least we can do is to offer our congratulations and say:—"Thank You," to the Coach and every member of our Championship Track Team!

There are many different kinds of celebrations, some are harmless but spirited and others are foolish and dangerous. One could celebrate when most Maine celebrations under the former type. The one, however, that took place last Saturday at midnight could neither be called spirited nor harmless.

True the property destroyed by fire may have been worthless, but at the same time the property that was endangered by the fire was very valuable.

Whoever started the fire can not be called thoughtful or spirited. Sparks from the old barn blew up to three different forces and if it had not been for the prompt action of a few who were not "celebrating" and who saw danger, there might have been serious loss of property.

One thing which could be noted with profit by any witness was the absence of the so-called "organized" fire department of the University. The student council has been assured several times by the faculty, that in case of fire the "organized" fire department would take prompt and sufficient action to control the flames and prevent any undue loss of property.

This fire department was not seen at the fire and if it had not been for the students, as stated before, who took measures to prevent the spread of the flames, there might have been considerable damage done before the fire department appeared.

Of course it might have been thought that it was only a harmless celebration, but at the same time that is a very poor excuse for the neglected action of the fire department. No matter what the cause or extent of the fire the fact remains that the University fire department should have been there.

Did you notice how many of our band men were at the mass meeting last Thursday? Did you notice the band at the ball game a week ago Saturday? Compare this with the number which made up the band at the State Meet. Do you see anything wrong? No Maine man would acknowledge that we did not have the best band in the State at the track meet and on the football trips last fall. On the other hand, the band usually turn on it every time but one has to talk to the State Meet, the men and then disappear when the call is issued to play for a mass meeting or a ball game. It would seem as though all the members do not have the real Maine Spirit. The student body have a right to demand that all members of the band appear when called upon, or if the students pay to make the band on trips, and to the State Meet, the men do not deserve these trips unless they turn out every time the band is to play. The fault seems to lie with the upperclassmen. The freshmen in the band usually turn out every time but one has to wait until a trip comes along before many upperclassmen are seen playing. Why don't we have spirit in a band as well as in cheering, and in athletics? Let's not have any more free rides or admissions for men that only play on trips.

EDITOR, MAINE CAMPUS:

Dear Sir:

In the University Catalog, on page 47, is the following announcement:

Junior Exhibition Prize, fifteen dollars, is awarded to that member of the Junior class who presents the best oration at the junior exhibition.

Junior Exhibition Prize and the delivery of the oration will be considered.

The Campus of May 13th refers, on page 4, to these orations or speeches as "essays."

The same mistake has been made elsewhere on several occasions by others. There is no fundamental one; and the two kinds of literary productions should not be confused.

The Father Harrington Essay Prize has been recently awarded. The essay is entitled "King Lear," and is deposited with the Librarian for public inspection.

Very truly,

ROBERT P. GRAY.

REGULAR MEETING OF AGRICULTURAL CLUB

Was the Best of the Year

The subject for discussion at the regular meeting of the Agricultural Club last Wednesday night was “Cooperation in Agriculture.” The first speaker was Dr. L. H. Lewis, ’15, of Hebron, and continued after finishing college course.

There was never so much interest in planting our good. Territory being reserved for next summer’s work.

Mr. O. P. Hall of the Bangor Commercial will lecture before the board, Monday evening, May twenty-sixth.

SIGMA PSI TO ENTERTAIN HIGH SCHOOL DEBATERS

On Thursday evening, May 22, Bar Harbor High School will debate with Bangor High School. The new honorary speaking society, Sigma Psi, is working hard to make that night as pleasant as possible for the debaters. They have offered to undertake the advertising of the debate and will endeavor to arouse enough interest in it among college to insure a good sized crowd. Together with Bangor High they also hope to have some special cars run before and after the debate.

CORRECTION

The Campus wishes to rectify an error made in its last issue in regard to Junior Declamations. Second place was almost a tie between Mr. and not Mr. Paul Wheeler Monahan, as originally given in Tuesday’s issue.

GENERAL LECTURE

Lowell J. Reed, instructor in Mathematics, gave the fourteenth in the series of weekly lectures on Physics, Mathematics, and Astronomy at the library Wednesday afternoon. His discussion was on “Mechanics as Applied to Calculus.” Mr. Reed said that there is much mechanical labor in arithmetic, and that since earliest times people have been looking for an instrument to lessen it. The Chinese were the first people to devise anything for calculation, this being a framework of wires over which they would slide beads to add or subtract. The Romans had slide rings and rings which they used for a like purpose.

Gerbert in the tenth century made a reed organ to be played by water power. His students carried to a Benedictine monk who started him on the road to education. He later became famous for having introduced the Arabic number system into Europe. He looked about for an instrument for calculation but it was not until the latter part of the sixteenth century that Napier brought out a set of ivory rods corresponding to numbers which could be arranged in such a way as to perform the processes of arithmetic.

A number of scientists then took up the work. Pascal had the right idea but could not make his machine work. Grillet constructed a machine which worked on this principle. His machine disappeared and Leibnitz shortly afterward appeared with a machine which nearly duplicated it. It performed operations but could not be relied upon for accuracy.

In 1622 Thomas De&w invented a computer which is the same in principle as that used today. Mr. Reed explained the working of the machine by means of a diagram. The computer which attempted the most was that of Baboige, an Englishman in 1830 which attempted to compute and tabulate, his machine building up the cubes from given differences.

The most important computer to the engineer is the slide which multiplies and divides; working on the principle of logarithms. There are several kinds of slides, their accuracy being dependent upon the number of divisions corresponding to the decimal places to which a number can be carried out.

The planimeter was spoken of by Mr. Reed as being used for measuring irregular surfaces.

LAW SCHOOL NOTES

Henry B. Montague of Southbridge, Mass., has finished his series of articles on Civil Law for students of the College of Law. The three lectures were well attended by the students, who found what Mr. Montague had to say both interesting and profitable.

At a meeting of the Maine Law Review Association held Tuesday May 4th, the following officers were elected: Frank E. Snow, editor-in-chief; James R. Towle, Assistant editor-in-chief; Carl A. Wrick, Franklin Fisher, Associate editors; Lester E. Brown, business manager; Clark H. Frost, Edward I. Glesser, assistant business managers. The reports of the outgoing officers showed that their tireless efforts had placed the Review on the most prosperous basis ever known.

FRESHMAN NOMINATIONS

Nominations were made for the freshmen poet and cap committees for next year at a meeting of the nominating committee of the freshmen class last Tuesday evening. Five men will serve on each committee. The members nominated for the poet committee were: W. S. Jack, O. C. Lawry, C. E. Purington, R. G. Smith, L. H. Blood, J. M. Dodge, K. M. Currier, and G. E. Kirk. Those nominated for the cap committee were: D. J. Machina, Whittier, R. E. L. Silva, R. W. Bell, and B. E. Barrett. The election will be held sometime next week.
