BANGOR, MAINE, MARCH 17, 1914

No. 28

MUSICAL CLUBS TRIP THE BEST EVER

Well Attended and Much Applauded Everywhere

It was some trip! That's what they all said when they got back and they looked it.

Probably the best trip ever taken by any musical organization of the University was taken by the combined Musical Clubs last month when they gave their final concert near the "Lights of Gay Broadway." The only trouble with the clubs, as everyone said, was the cold weather that they dragged along with them everywhere they went. The Clubs were the escort of one of the coldest days Portland has ever seen and fairly tied New York up with snow until cars couldn't run.

Leaving here at noon, Portland was reached at night and a concert given in the Pythian Temple. On account of the cold weather and the smallpox scare in Portland the audience did not equal that of former years but the ardour was there just the same and things went off with a good swing and snap. A dance followed the concert and there were plenty of the "fairer sex" for all. The Portland Club very courteously extended an invitation to the clubs to dine at the Club House. The invitation was accepted and all had a good time. After the meal some of the fellows entertained the members of the club with readings, songs and other performances.

Boston was the next on the program and was reached the next noon. The concert was in the hands of the Alumni Association who turned out a good sized crowd in the Jordan Hall. The numbers on the program were liberally applauded, especially Hanson who struck the funny spot of the audience with his solos and had to pay the penalty with an extra encore. The Boston Alumni were there in force and it seemed good to see so many "old" Maine men there. The Association deserves a lot of credit for the interest that they take in having the clubs play in Boston year after year.

We left Boston the next morning in a snowstorm and landed in New York that afternoon, Saturday, about one o'clock. Several Maine men met us at the station and well they did, too, for some of those landing in N. Y. for the first time had quite a time straightening out which way was which, which door to enter, which door to go out from and about a thousand other usual troubles. New York was piled high with snow and everyone was about an hour late in reaching the hall for the concert that evening.

When everyone did finally land in Erasmus Hall, in Brooklyn about four or five hundred people were waiting as patiently as they could and commenced the applause at the beginning of the concert and kept it up throughout. W. J. Hancock, '88, was at the handle and gave the fellows a royal reception, including hot coffee and sandwiches (on the side).

Monday night, the concert was given in Hotel Plaza. The audience nearly filled the ball room and included many of Maine's Maine's oldest Alumni. The concert here was perhaps the best on the whole trip. Everything went off smoothly and snappy. After the concert a dance order of 18 dances was played by an excellent orchestra.

The Clubs returned to college Thursday morning. The trip was a success both financially and otherwise.

MUSICAL CLUBS GIVE FINE CONCERT IN ORONO

Large Crowd Attends Entertainment and Dance

The Musical Clubs held a very successful concert in Orono Town Hall last Friday evening under the auspices of the Orono Lodge of the Knights of Pythias. This was the fifth concert they have given thus far this season and was by far the most successful.

The season opened as usual with a try-out at the State Hospital in Bangor. Then the clubs took a trip to New York. This was the first time that the clubs had ever gone beyond Boston. On this trip they played in Portland, Boston, Brooklyn, and New York.

After this Orono concert they will play in Bangor, give a joint concert with Colby at Waterville, and end with a concert during Commencement Week here. The date for this concert is set for June 8. Up to the present time this year has been the most successful one the clubs have ever had if all things are taken into consideration. The future concerts should be as successful.

SOME FURTHER HISTORY OF MAINE MASQUE

On November 13, 1907, preparations for the second season of the Dramatic Club began with the selection of Henry Esmond's comedy "When We Were Twenty-One" as the play for the year. There was a general sentiment that, Shakespeare having set the precedent, it would be well to alternate with modern plays which would be more apt to interest a college audience. To present such a play it was necessary to acquire some scenery. Through the efforts of W. O. Smith, as scene painter, and C. Stickney, as stage carpenter, in conjunction with other members of the club, a box set was made. This set has remained as the nucleus of the stage property of the club. The club also made its own costumes this year.

The play itself was well presented, the cast of characters being admirably fitted for the parts, and a long series of rehearsals giving a perfection and finish which would have done credit to a troupe of professionals. The play was presented on the Aroostook trip at Houlton, April 2; Presque Isle, Apr. 3; and at Bridgewater, Apr. 14. Financially this trip was a success but the audiences to which it was played were not prepared for such a drama and in many cases were even repellent. After the Aroostook tour the club played at Waterville, Apr. 20th; Pittsfield, Apr. 23d; Skowhegan, Apr. 24th; Ellsworth, May 8th. The final performance was given in the gymnasium Junior Week and was a fitting finale for the acting was faultless and the scenery in the third act was a marvel for an amateur club.

With perhaps the best cast in its history the Dramatic Club started the season of 1908 with Shakespeare's Much Ado About Nothing. Trials for the parts were not held until after the Christmas recess and the season started late. The Club was limited to one long trip which began Apr. 14th with a performance at the Bangor State Hospital. This was followed by productions at Brewer, Apr. 15; Dover, Apr. 16; Guilford, Apr. 17; Waterville, Apr. 19; Portland, Apr. 20. The Campus of Apr. 27, 1909 states in commendation of the trip. "The performances were uniformly smooth. In Brewer, Guilford and Portland, where the halls have little scenery, the club used its own effective draperies for a background, which brought out the beauty of the costumes and added much to the artistic effect of the play. On the whole the club has probably never been more cordially received.—The play seems to have given satisfaction to everyone." The comedy was given in Old Town, Apr. 24th and then the club took a short week-end trip playing at Belfast, May 6th and at Camden the next night. May 12th, "Much Ado" was used to close the season of the Bangor Opera House and the following Wednesday it was presented to a large audience at Ellsworth. This extract from the Campus is a fitting summary for the season. "For the past three years the Dramatic Club has furnished one of the most delightful and entertaining events of Junior Week. The presentation of "Much Ado About Nothing" Thursday evening, (May 20th), was the best of the three which is saying a good deal. It could not fail to please even the most particular admirers and critics of Shakespeare.

An article dealing with the establishing of the Masque appeared in an earlier issue.

NEW PRIZE SPEAKING CONTEST ARRANGED FOR COMMENCEMENT

Secured Through Prof. G. W. Thompson

Although Commencement Week this year will be much more interesting than ever before, it will have another attraction besides those yet enumerated. This is the prize-speaking contest open to juniors and seniors which Mr. C. P. King of Washington, D. C., has recently established. The prize is \$25 to the junior or senior who shall deliver the best original essay within the space of twelve or fifteen minutes. There must not be less than four contestants. On May 16, are the written essays due and not later than May 20 will the final choice be made. The contest will be held on June 6. This was attained through the efforts of Professor G. W. Thompson who is a personal friend of Mr. King and is also much interested in the success of the new plans for Commencement Week. Further information may be obtained by consulting Professor Daggett.

Mr. William Gray '12, spent the week end at the Phi Kappa Sigma house.

ABOLISHMENT OF FROG POND SCRAP IN DOUBT

Sophomores Wish to Have It Retained

The report that the Frog Pond Scrap was to be abolished as printed in the last Campus was somewhat in error. From what can be concluded from the talk about college, the fate of the scrap is in the balance. It is considered by the faculty and trustees to be of too rough a nature, and although it has not been abolished as yet unless it can be seen in a different light it is probable that it will be.

At a recent meeting of the Sophomore class the question of its abolishment was brought up. The class however decided that it should remonstrate against any such action. In its opinion the scrap was not dangerous and that a substitute, that would not be an imitation and that would tend to increase class spirit, could not be found.

The class voted to take the matter up with the proper authorities and to try in every way to have the scrap retained. A great deal of interest is being taken in the outcome of the question. The upper classmen are also for the most part of the opinion that the scrap is not too rough. Many of them say that the scrap that was held three springs ago on the bank of the river, the pond being too low, was the one that has given the faculty their opinion. In this scrap several were hurt on the ledges in the stream.

MILITARY HOP

Final Arrangement Made

The final arrangements for the annual Military Hop, to be held on April 17, have been completed. It has been decided to make this a formal affair this year and this will add greatly to the spirit of the occasion. The event will be featured by a somedril which have never been performed at any previous Hops. The program consists of a Single Rifle and Shuttle Drill by Co. A, Manual of Arms by Co. B, Company Drill by Co. C, Bayonet Exercises by Co. D, and a Double Rifle Drill by Co. E. A picked squad from each company will compete in a wall scaling contest. All these drill are being prepared under the strict surveillance of Lieut. Ralph R. Glass, Instructor in Military Science and Tactics.

An order of twenty dances has been prepared and the music will be furnished by Pullen's Orchestra of Bangor.

The committee in charge is composed of M. L. Hill, chairman, W. E. Nash, W. T. Hanly, N. F. Mank, and E. J. Dempsey.

ALPHA CHI SIGMA ELECTION ALPHA CHI SIGMA ELECTIONS

Eight New Men Chosen

The following men have been chosen for Alpha Chi Sigma, the honorary Chemical Fraternity. Walter J. Dolan, Worcester, Mass., Preston M. Hall, Taunton, Mass., Forrest C. Gordon, Auburn, Me., from 1915, L. O. Barrows, Newport, Me., W. W. Webber, Auburn, Me., O. F. Farr, Auburn, Me., E. G. Ham, Foxcroft, Me., L. M. Hunt, Oldtown, Me., from 1916. The initiation and banquet will occur sometime in the near future.

LOCALS

Roger Eveleth, '12, and R. L. Smith, '12, spent Farmers' Week at the S. A. E. house.

Sec. Daniel Lovelace of the Biddeford Business Man's Association, spent Thursday night at the S. A. E. in the interest of the York County Demonstrator.

G. M. Thomas visited at the Phi Gamma Delta house last week.

H. R. Lovely spent the week end at Gardiner.

Hale Sawtelle ex-'12, was at the Phi Kappa Sigma house, Friday.

Olin C. Brown spent Sunday, March 8 in Portland.

G. A. Rounds spent Sunday, March 8, in Portland.

Merton F. Banks spent the week end of March 7 in Biddeford.

H. V. Cobb was in Boston Saturday, March 7.

ALL OUT FOR THE SMOKER

"M" Club Plans Novel Affair

Next Friday evening in the gymnasium, the "M" Club will give a college smoker. This is a new departure in the university but one which should meet with the approbation of the student body. The object of this smoker is to revive the old "Maine Spirit" which has been dormant during the past winter months. As everybody knows we have scarcely any activities during these months and as a result college spirit lags a bit. This smoker is in a sense a "reunion" and will give everyone a chance to get together and prepare themselves for action again. The band will be there and it is planned to have a few speeches to start the thing going. With the track meets coming in the near future we shall need all the spirit we have to encourage the team and this smoker is a good step in the right direction. Remember The Time—Friday, March 20th, The Place—Gymnasium, The Event—College Smoker.

Serving in a way as a rehearsal for the coming Smoker there will be a Student Chapel on Tuesday, March 17th, conducted by the "M" Club. The entire chapel hour will be given over to speeches and singing. The band will furnish the music. Everybody should be there and practice little for the Smoker. Definite plans regarding the Smoker will be discussed at this meeting.

ALUMNI NOTICE

Last fall, in an effort to get more of the Alumni interested in the Campus a list of names of those who had graduated during last six or seven years was made up, and this list used as our mailing list. We are still using this list, but are to discontinue doing so after this issue. The response from the Alumni has been very weak and a very small per cent of the subscription blanks have been returned. On the other hand there has been only five or six who have written us telling us frankly that they did not care to subscribe. From the rest we have heard nothing. They have been receiving the Campus, and whether they care for it or not we do not know. The recent stop in the issuing of the paper was due to the fact there had been too much extravagance in the past. With the present income it is impossible to print twice a week, so we have increased the amount of matter in each issue, and are to print one issue a week until Commencement. After that we may be able to make other plans.

But we surely can do nothing without Alumni support. In order to reduce expense we are compelled to eliminate all names from our mailing list except those of subscribers. So if you care to receive the Campus from now on, please notify the Business Manager at once.

We realize that there has been a very decided lack of Alumni notes in our paper, and also realize that a paper without Alumni notes is of very little interest to the Alumni. But the new board is collecting as many of these notes as it can each week and expects to be able to have a half page of them in a short while. It is very hard for a bunch of fellows in the midst of a very active college life to gather all the happenings of among Maine's Alumni, because her sons are scattered over quite a large area. We wish that every Alumnus would consider himself an Alumni correspondent and send in from time to time the events which are of interest to others. We cannot get too many. The more we get, the more Alumni we get, and the more money we get. This will enable us to print a better paper. So you see, by a very small amount of work on your part, a great amount can be accomplished here. We are very much indebted to those who have sent in their subscriptions; and hope to receive the support of many more, as we believe that we are going to publish a paper for the Alumni as well as undergraduates.

Remember, we need your support, both in the way of subscription and interesting bits of Alumni news. Alumni associations are especially asked to contribute the latter.

Harvard relay quartet established a new world's record in the 1,500 yard relay when they won from the B. A. A. in 3 minutes, 3 seconds. The former record previously held by the B. A. A. team was bettered by two and three-fifths seconds. The race was at Boston, on Feb. 28.

At the same games Phillips Exeter won in indoor championship of the New England schools, totalling 25½ points. Worcester Academy was second with 17.

JUNIOR WEEK TO BE BETTER THAN EVER

Several New Attractions Added to the Program

The committee on the program for Junior Week which comes May 6, 7, 8, 9, 10, have made out the following program which has been sent to the printers. It will follow in most respects those held in previous years. One change which will be of much interest to the student is the arrangement for a dual meet with Bates College to be held on the athletic field in place of the usual baseball game. The program made out is as follows:

On Wednesday, May 6, a Junior Prize speaking contest will be given at 8 o'clock P. M. Thursday, May 7, the Maine Masks will present in the gymnasium at 8 o'clock P. M., Moliere's famous play "The Learned Ladies." Junior Class Chapel will be held Friday May 8, at 9.50 A. M. In the evening of the same day comes the Junior Promenade in the gymnasium. Saturday morning, May 9, the military companies will give an exhibition drill and in the afternoon there is the dual meet with Bates on the athletic field. Also in the evening a minstrel show will be given in the gymnasium. The Week will conclude with a Vesper Service held in Chapel at 3 o'clock Sunday afternoon.

PRES. HYDE OF BOWDOIN FAVORS FRATERNITIES

Last Thursday at a meeting of the convention of the Religious Education Association held at New Haven, President Hyde was called upon to defend the college fraternity. The subject of his speech was: "The Socializing Value of Fraternity Life" and his treatment of it brought out clearly his attitude towards fraternities. He said in part: "The remedy for the evils of irresponsible fraternities is more fraternities and more responsibility. Have enough fraternities or clubs like them to include practically the entire student body, publish their relative rank and stimulate a wholesome rivalry in scholarship, in character, in contribution to the social, artistic, athletic and dramatic and literary life of the institution; admit freshmen early for better or for worse, and hold upper classmen to account for their influence over them; weed out upper classmen who fail to realize this responsibility for lower classmen in their group; and thus fraternities become a mighty influence for the intellectual, social and moral uplift of their members, far more potent than any force presidents and deans and faculties can bring to bear. Living happily with and working heartily for others as loyal members of a beloved group is the essence of righteousness, whether in the chapter-house or city-hall; whether in the home or the Kingdom of Heaven."—Bowdoin Orient.

AGGIE NOTES

A school in Soil Fertility will be held at Windsor this week. This will be under the direction of R. W. Redman, Assistant Director of the Agricultural Extension; A. L. Deering, Director of Farm Demonstrations in Kennebec County; and Earl Jones, Instructor in Agronomy in the college of agriculture.

A representative of the Horticultural Department will give a lecture this week on "The Home Garden" before a night school of mill men at Dexter. This is part of a general education movement instituted by the Superintendent of Schools.

On Saturday, March 21, Prof. Simmons will lecture on Seed Improvement before the Grange at North Anson.

On Friday, March 19, Prof. Briscoe of the Forestry Department will speak to the Horticultural Club of Bar Harbor on Selection and Care of Shade Trees.

Last Thursday night a delegation of fourteen petitioned for farm demonstration work in York County. This delegation represented the Biddeford, Saco and Sanford Boards of Trade; the York County Pomona Grange; the Kennebunk Farmers' Club; and local granges. The petition is under consideration and will be decided on when the Lever Agricultural Extension Bill passes.

On Friday, March 19, G. A. Yeaton, Director of Farm Demonstrations in Oxford County will speak before the Turner Center Grange on Orchardring.

BANGOR CO-OPERATIVE PRINTING COMPANY

EDITORIALS

For the last issue of the CAMPUS we prepared a careful and complete explanation of the non-publication of the "Campus" of many recent issues. The Printer and of the CAMPUS. The A Weekly Issue package containing this and much other copy was lost on its way to the printers. It is rather late now for explanations but perhaps a brief summary of the situation will not be inappropriate.

A large "back bill" has been carried on our books for several years. Each recent business manager has handed over a larger deficit to his successor. When the present board took over the management of the paper, the printer thinking that his bill had run long enough, refused to print any more issues until a definite arrangement were made to balance accounts.

Here he had us in a corner and until last week we were unable to publish the CAMPUS. We are now forced, temporarily, at least, because of our financial standing to return to the old plan of a once-a-week issue. For the same reason we are compelled to again change the form of the paper.

We ask you to bear with us for a time. We assure you that we are doing everything possible to place the paper where it should be—on a sound financial foundation. We have encountered a very stubborn obstacle and can only do our best to remove it.

We are pleased to note that the Military Ball, which is to be given in the gymnasium, April 17, by the The Military freshman class will be Ball formal this year. This dance, until last year, had been considered one of the big dances of the season. Last year by faculty ruling it was made informal. At this time the student body was little pleased with the decision and nearly all will be glad to hear that this year the Ball will be formal.

There is very little real social life at Maine. At least there is none too much. The Sophomore Hop, Junior Prom, Military Ball, and Commencement Ball constituting our quota of big college dances. These from their nature should be formal. There are enough minor dances for those who merely want to dance. A real first class Ball adds much to both student life and college reputation.

Much criticism is current as to the wretched condition in which the walks on the campus are kept. Grant-Sidewalks ing that we have had a severe winter and much snow, it is hard to see any excuse, now that warmer weather has come, for allowing worse than "Bingville" conditions to exist here.

The student body enjoy the appreciated option of walking in the roads or gamely fighting their way, in Indian file, along the narrow and in some places, more than

narrow strip of walk which the sun has managed to clear of snow. On the walk from the waiting room to the library and Winslow Hall the pedestrian must either wear rubber boots or perform successfully circus stunts of the highest order on banks of slippery ice and slush. This is only a mild example of conditions in other places.

The college supports a good sized corps of janitors. Current opinion has it that they are never overworked. A little energy applied to shovel handles would certainly do much towards improvement and would give the student body dry footing when it is needed. Of course the sun will clear the walks in time but we are interested in the present. We understand that man made sidewalks for use when the forces of nature were in league against him. It looks to us as though nature had been quiet busy lately and that it was full time for man to get in his work.

The back bone of winter is slowly breaking. Spring will soon be here. With spring come two of our major Baseball sports and an opportunity for and Track The track and baseball seasons are rapidly approaching.

If Maine is to hold her high position in the athletic world it is now time to prepare for the meets and games of next spring.

Does Maine need to ask her sons to come out and work for her? We hope not. We hope that every man with either track or baseball ability or prospect will come out and work for the light blue of old Maine.

The time for action is at hand. The call for candidates has been given. Duty calls. Will you answer?

We want two more Championships this year. We want teams of which we can justly be proud. We want to see you on one of these teams. Come out and show us that you are made of the material which for years has brought the laurels of the victor so often to Maine.

The University of Maine Musical Clubs desire to take this opportunity of thanking the Alumni of the University for the enthusiastic way in which they supported and received the Clubs on their New York trip.

To E. J. Wilson '09 and Harry Sutton of the Boston Alumni Association, Mr. Hancock '88, of Erasmus Hall High School in Brooklyn, N. Y., Mr. R. E. Lord '05, Mr. Webb '02, Mr. A. W. Stephens '99, Dr. J. S. Ferguson, the Maine Men's Club, Maine Women's Club and the New York Alumni Association in New York is certainly due the thanks of the Musical Clubs for the successful trip they have had.

LECTURE ON THE CADADIAN ALPS

Mr. Herbert W. Gleason Pleases A Large Audience

Saturday evening, March 14th, in the lecture room of Coburn Hall, Mr. Herbert W. Gleason of Boston delivered an interesting lecture on the "Canadian Alps" under the auspices of the Arts Club. The speaker was introduced by Prof. G. W. Stephens.

The lecture was a description of a pictorial journey thru these mountains, and was illustrated by colored lantern slides from photographs taken by the lecturer. The author's wide acquaintance gained from ten summers exploring and traveling the beautiful region occupied by a strip of the Rocky Mountains lying in British Columbia and including from three to five hundred miles of the famous Columbia River valley, made this journey seem almost a reality. Mr. Gleason described the beauties of the Lake Louise region, Victoria glacier, Yo Ho valley, and other places of interest. Besides a description of these famous spots, his lecture included an account of the plants and flowers which grow in these picturesque mountains.

The audience was a large and appreciative one, and the speaker's vivacious personality and original humor won much applause. The next lecture to be given by the Arts Club will be one by Mrs. Eekstrom of Brewer. The subject and date will be announced later.

ALUMNI

See special notice on page 1

WHY

Feeling that something is needed to make the Student body and the Faculty convinced that the Campus is their paper it is planned to run a column each week under the heading "Why". In this column will be placed articles dealing with topics of vital interest to everyone but which at the same time are not news articles.

Questions that the student body want answered and any answers sent in will be printed in this Column. Hoping that this column will be accepted as the voice of those wishing to see improvement we are taking this step.

WHY?

does the "M" club believe that "Maine Spirit" is becoming latent in the student body. The coming smoker planned by the "M" Club is for the purpose of arousing spirit. In the club's opinion every organization on the Campus is lapsing into a period of inactivity. Affairs class and college wide are run at least slovenly. Why?

A senior when asked this question stated that in his mind some of the restrictions placed upon student activities were unnecessary. That a student's initiative was suppressed by them. Is this so, Why?

Another was of the opinion that as one reaches his Junior and Senior years, the time when his interest and ability should be greatest, he begins to have no interest in his work. That the most of those who have attained many honors have attained them for the honor alone. That most of the men with honors have too many. Is this true.

Another has stated that everywhere in the student body there is a "let George do it spirit." A man says "I guess I won't go, one man won't make any difference. Is this true? Is this your case? Think it over and see that you are at the smoker Tuesday. Why won't you go?

GENERAL LECTURE

Professor McKee Gives Intetesting Lecture on Cellulose Products

That the most of the necessities of the home would soon be secured from cellulose products was the opinion given by Prof. McKee in the general lecture on Wednesday.

The following were a few of the facts given: One-third of the substances of the world is made up of cellulose. Cotton is nearly pure cellulose and wood is largely so. Cellulose from wood is cotton hydrolizes and forms glucose, this in turn yields alcohol on fermentation.

Chaisin patented a process by which cellulose could be obtained from sawdust. There are but few solvents for cellulose. Zinc chloride is largely used for this. Cellulose treated with nitric acid gives cellulose nitrates, from various forms of this gun powder is made. Cotton cloth soaked in caustic soda becomes 50% stronger, hence mercerized cotton. More lately a process has been worked out which gives a product much like silk.

In a decade or so we shall be living in an age with many of the necessities of a modern household made from cellulose products.

LAMBDA CHI ALPHA BANQUET

On Saturday evening, March 14, Lambda Chi Alpha held its second annual banquet at the Colonial House. Many of the Alumni were back, some of them spending Friday and Saturday on the Campus.

Among those present were:—E. C. Houdlett, ex-'10, H. W. Hadlock, ex-'10; A. S. Adams, '11, Harry Homans, '11; L. B. Thompson, '12; Harry E. Thompson, ex-'12; N. H. Small, '13; W. H. Dwyer, '13; J. O. Olson, ex-'14; I. E. Baker, ex-'14, Ormer G. Daviau, ex-'14, J. M. Sawyer, ex-'16.

F. B. Hatch acted as toastmaster, toasts being given by Ansel A. Packard, '16; Alfred D. Hayden, '17, William H. Dwyer, '13, Warren Coile, Brown '12, and Elmer C. Houdlette, ex-'10.

LOCALS

Mr. Robbins an alumnus from Dartmouth visited the Sigma Chi House for a few days last week.

Mr. Frank O. Alley and Mr. Johnson Spratt spent Saturday at the Sigma Chi House.

Ben Whitney '11, spent a day at the Sigma Chi House last week.

Edwin Sawyer '08, stayed at the Sigma Chi House over Farmers' Week.

Frank Kilburn spent the week end of March 7 at the S. A. E. house.

SOMETHING MORE ON FARMER'S WEEK

Friday, the last day but one of the eighth annual Farmers' Week of the University of Maine, College of Agriculture, was marked with many lecturing features and saw a total registration of 360, which is somewhat larger than that of this time last year. In all 100 lectures have been given by 43 different men, including members of the college faculty, representatives of the state department of agriculture, farmers and farmers' wives, making the best rounded program ever before presented.

During the past five days there has been at every regular recitation hour, some subject both instructive and of interest to each and every man and woman in attendance. The week so far has been in every way a success, doing much to bring the farmers of the state in closer relation with the College of Agriculture and the work that it is doing. Since this course was first instituted seven years ago there has been a marked healthy growth and it is hoped that such will continue to be the case in years to come.

Friday afternoon came the third annual meeting of the Maine Association of Agricultural Students. The program was as follows:

3.00 P. M.

PROGRAM

Friday, March 13th, 1914

(Room 12, Winslow Hall)

Business Meeting—

3.30 P. M. General Discussion
8.00 P. M. Agricultural Club Banquet, Bangor House, Bangor.
Tickets should be secured in advance from Mr. P. R. Warren, Orono, Me.

WORK ON GRAND STAND STARTED IN EARNEST

Old Stand Moved

Work has been started on getting ready to build the new grand stand. The old one has been moved to the new diamond, for which the dirt has already been mostly hauled. Teams are now at work hauling a fine grade of clay that is to be used as the final covering.

It is hoped to have the diamond ready for the opening of the season but it will depend upon the way the frost comes out of the ground and weather that will enable it to settle early.

Work on the new grand stand will be begun the first of May and will be finished by the middle of August. A mistake was made in an article in the last CAMPUS concerning the seating capacity of the new stand. It will be 2400; instead of 1200 as previously stated.

TECHNOLOGY DEPARTMENT BEGINS EXTENSION WORK

Two Classes Already Formed

Extension work is now being done by the technology department in Bangor. This work consists in organizing classes in technical subjects in any town in the state where six men will enroll for the course. This work is one that will serve to bring the University in closer touch with the people of the state and is one that will help in the development of its resources. Men of different degrees of education will be able to take the courses and thus will minds now untrained for technical work that requires a combination of practical and theoretical knowledge be available.

The cost of the courses is small. A fee of five dollars is charged. Text books and instruments must be purchased by the student.

Bangor as yet is the only city to have organized classes but it is expected that there will soon be classes organized in other cities. The department plans to organize a class in any city where the required six men will register for the course. It plans to put Maine graduates in charge of these classes if they are available, if not graduates of other technical colleges will be secured if possible.

In Bangor two classes have been formed. One class with Mr. Walter Farnham as instructor meets on Tuesday and Friday evenings. This class is in mechanical drawing and is made up of eight men, who have different degrees of preparation. This has made it necessary to have an advanced and an elementary course. This course is taught in the Y. M. C. A. building.

The other class is in Electrical Engineering. This is also made up of eight men and is taught by Professor Barrows. It meets every Monday and Thursday evening in the Chamber of Commerce rooms in City Hall.

The courses in which now classes have been organized as yet are: Steam Engineering, Shop Mathematics, and Highway Engineering. The course in highway engineering will be given by Professor Kaulfuss and it is possible that it will be given as a series of illustrated lectures open to the general public. Professor Lekberg will teach the class in shop mathematics and Professor Chapman the course in steam engineering.

The entire work is in the charge of Professor Jewett. Aside from this work Professor Jewett also has charge of another line of extension work or industrial service. This work consists in teaching foreigners who work in the nearby mills the elements of an English education.

GERMAN PLAYS

To be Given by Deutscher Verein

The Deutscher Verein will produce two one act German comedies this spring under the direction of Professor G. W. Thompson. The first, entitled "Einer Muss Heiraten," was written by Alexander Wilhelm. The other entitled Eigensinn was written by Roderick Benedix. Both authors are well known as authors of short comedies and enjoy a well deserved popularity.

The playlets offer good opportunity for clever acting and contain many good lines which are being well studied by the students chosen for the different roles. The cast for the first playlet "Einer Muss Heiraten" is as follows:

Gertrude.....Miss Gerhartz
Luise.....Miss Winship
Jakob.....Mr. Sinkinson
Wilhelm.....Mr. Curtis
The cast for the second playlet "Eigensinn" is as follows:
Ausstorf.....Mr. Clement
Alfred.....Mr. Coffin
Heinrich.....Mr. Goldsmith
Katharina.....Miss Hutchins
Emma.....Miss Beaupre
Lisbeth.....Miss Brennan

ALUMNI NOTES

P. R. Keller '01, was at the Alpha House for two days last week. Mr. Keller is employed by John Scott & Co., Detroit, Michigan.

McCarthy of Portland on the campus over Sunday.

COACHES ARE BARRED

Hereafter No One Will Be Permitted on Sidelines at Football Games

At its meeting in New York on Saturday, the intercollegiate football rules committee made several important changes in the old rules. The most radical of these was the decision that hereafter coaches should be barred from the side lines.

The changes were of a corrective rather than of a radical nature.

Other changes were as follows:

2. Intentional grounding of a forward pass will be penalized by the loss of ten yards from the point of scrimmage.

3. When the ball from a free kick hits a goal post and bounds back into the field, the play is counted as a touch back.

4. After the teams line up, the team having the ball shall not enter the neutral zone in shift formation.

5. A player out of bounds when the ball is put in play, penalizes his team by the loss of five yards. Under the old rule there was no penalty for this offense the first time it was committed.

6. A kick-off after a touchdown is eliminated.

7. The committee left it optional with teams to decide whether they shall have a fourth official, to be known as the field judge, who shall have no specific duties of his own, but act as assistant to the referee and umpire.

The committee reached no decision regarding the question of distinguishing players in games by numbers. The members concluded to observe how this plan works out next season before making any recommendations.

INTEREST BEING TAKEN IN INDUSTRIAL SERVICE

Two Classes Formed Among Italians in Orono

The students here at the University are taking an active interest in industrial service. This work consists in teaching the Italian workers in the nearby mills the beginnings of an English education.

Already two classes have been formed at the Orono Pulp and Paper Co's plant at Basin Mills. The members of the classes are Italians and they are very appreciative and are taking a very active interest in the work. The two classes are in English, one elementary and one advanced. The methods employed are very simple. If the men are unable to speak English at all, they are first taught by signs accompanied by the words that express the actions.

It is thought by Professor Jewett that next year as interest in this work increases that this work and the extension work carried on by the technology department may be placed in the hands of a student committee.

CUP OFFERED FOR BEST DROP KICKER

Mr. Tom Bragg of Bangor, has recently offered a cup to be awarded to the best drop kicker at the University. This cup will probably be contested for and awarded at the same time that the Junior Masks' kicking contest is held this spring.

Mr. Bragg has taken a great interest in football throughout the state. He is a member of the Official Board. He has followed the games in the state for several years and last fall assisted coach McCann at Bowdoin.

Dr. Percival Barton of St. Paul, Minn., who recently died at the age of 91 years was the oldest graduate of the University of Pennsylvania. Dr. Barton was graduated in the class of '49.

Harvard Dental School

A Department of Harvard University
A graduate of the four year course in this school admitted without examinations.
New buildings. Modern equipment. Large clinic gives each student unusual opportunities for practical work. Degree of D. M. D.

Rolling His Own

America is the land of self-made men. It is characteristic of Americans to rely on their own efforts—to do things for themselves. The millions of "Bull" Durham smokers are of this energetic, self-reliant, American type in all walks of life. These men like to make their own cigarettes, to their liking, from ripe, mellow, "Bull" Durham tobacco—prefer these cigarettes, made by their own hands, to any ready-made kind they can buy.

GENUINE "BULL" DURHAM SMOKING TOBACCO

(Enough for forty hand-made cigarettes in each 5-cent sack)

Particularly notice the unique and pleasant aroma of "Bull" Durham. It is as distinctive to "Bull" Durham as the cocked hat is to Napoleon.

The "Bull" Durham aroma is produced by a secret process known only to the makers of this tobacco. You get this delightful fragrance only in "Bull" Durham.

FREE An Illustrated Booklet, showing how to "Roll Your Own," and a Book of cigarette papers, will both be mailed free, to any address in U. S. on postal request. Address "Bull" Durham, Durham, N. C.

MR. SAMRA, FORMER MAINE INSTRUCTOR, PROFESSOR OF ROMANCE LANGUAGE AT COLBY

Emille Samra has lately been appointed
to take the course in French formerly
taught by Professor John Hedman. Mr.
Samra was born in Beynorth, Syria.
Nearly all of his education was obtained
in the schools and colleges of France,
where after eight years of special study
in French, he received his degree from
the College O'Antoura.

Mr. Samra has had extensive experience
as an instructor and teacher in this
country as well as abroad. In 1906, he was
placed at the head of the French depart-
ment of Dickinson Seminary, Williams-
burg, Penn., where he remained until 1911.
In September of that year, he went to
University of Maine, where he was in-
structor in French. In 1913, he took
charge of the Seminary in Utica, N. Y.,
which position he resigned to come here.

Mr. Samra begins his work at once.
He will continue along the lines which
Professor Hedman had mapped out.—
Colby Echo.

LARGE COLLEGES HOLDING INTERCOLLEGIATE MUSI- CLUB CONCERTS

The date of the intercollegiate glee club
contest has been set for May 9. This is
the first competition of its kind ever to be
held in this country, and will take place at
Carnegie Hall, New York.

Dartmouth, Harvard, Columbia, and
Pennsylvania will compete this year.
Yale, Cornell and Princeton have been
prevented from entering owing to faculty
opposition.

A permanent organization has been
established, which is to be known as the
Intercollegiate Musical Council, and is
composed of the glee clubs of these seven
universities. The officers are: President,
A. F. Pickernell, leader of the Harvard
Glee Club; secretary, F. W. Mathewson,
Columbia; treasurer, L. Howell Davis,
Pennsylvania. The council is so organ-
ized as to include the mandolin or banjo
clubs if desired. This year will only see
the appearance of the glee clubs.

The selections which each club will offer
will be: one college song, one classical and
one humorous. The judges of the com-
petition will be three of the prominent
musical men of the country, and they will
award a first prize and an honorable
mention.

ANNUAL MEETING OF THE COLLEGIATE REGISTRARS

Forty-six colleges and universities were
represented at the fifth annual meeting
of the American Association of Collegiate
Registrars held last week in Richmond,
Virginia, along with sessions of the
National Education Association.

A feature was the address of Dr. S. P.
Capen, of the United States Bureau of
Education, who outlined ways in which
the Bureau may co-operate with colleges
and universities.

The program of the Registrars' meeting
included papers by George W. Cram,
Recorder of Harvard University, Pro-
fessor Rudolph Tombo, of Columbia Uni-
versity, Walter Humphreys, Registrar of
the Massachusetts Institute of Tech-
nology, A. H. Espenshade, Registrar of
Pennsylvania State College, A. A. Mann,
Registrar of New York State College of
Agriculture, Cornell University, A. W.
Tarbell, Registrar of Carnegie Institute
of Technology, and G. O. Foster, Registrar
of the University of Kansas.

Sectional meetings were held of the
groups representing state universities,
technological schools, small colleges, agri-
cultural colleges and endowed institutions.

The convention was in charge of Presi-
dent E. J. Mathews, of the University of
Texas, and the Secretary, Mary Scott,
of Knox College.

The following officers were elected for
the coming year:—President, George O.
Foster, University of Kansas, First Vice-
President, Walter Humphreys, Massachu-
setts Institute of Technology, Second Vice-
President, F. A. Diekey, Columbia, Secre-
tary and Treasurer, E. L. Gillis, Univer-
sity of Kentucky, R. W. Walters, Registrar
of Lehigh University, was made Director
of Publicity of the Association.

Miss Bertha Dennison and Miss Ethel
Pierce of Portland, attended the Track
Club Dance March 6, and the Delta Tau
Delta Party, Saturday night, Mar. 7.

Freshmen and Sophomores are wanted
to work out for the position of Business
Manager of the CAMPUS. Much depends
upon getting a start, and now is the time,
as much new advertising is needed.

EXCHANGES

Wisconsin track candidates will repre-
sent thirteen sororities in the annual indoor
relay carnival to be held tonight.

Assistant Manager Gerry of the Bates
baseball team has announced a schedule
of nine games for the second team.

Dr. Lewis F. Anderson of Illinois has
been appointed head of the course in
History of Education at Ohio State.

The football schedule for the Class of
1918 at Yale has been announced and a
series of seven games will be played.

Students at Pacific University have
organized a prohibition club. The motto
is "No Booze in the Country in 1920."

Wisconsin still holds her lead in the
Western Conference Basketball with ten
games won and no defeats. Her nearest
competitor has won five and lost one.

The Bowdoin Freshmen defeated the
Sophomores in an informal meet Satur-
day by a score of 39-33. The 19th annual
interclass meet will be held March 20.

There were fourteen contestants in the
preliminaries of the Peace Prize Contest
at Colby last Wednesday afternoon.
Forty eight men took part in the pre-
liminaries for the Purinton Temperance
Prizes last Saturday. Colby is con-
siderably smaller than Maine at that.

Colby is to have a Prohibition club.
Mr. Neil D. Crammer, Ph. M., of Syracuse
University, Intercollegiate Secretary of
the Intercollegiate Prohibition Association
has been about the college and has so far
signed up over seventy men as being in-
terested in the prohibition movement in the
colleges. A Prohibition club is to be or-
ganized in a few days, and it is expected
that there will be at that time at least
one hundred members to join.

The Harvard Stadium will be the scene
of two big intercollegiate games this year.
The New England Intercollegiate Track
meet comes on Friday and Saturday, May
22 and 23. The big annual games of the
Intercollegiate Association of Amateur
Athletes of America will also take place
at the stadium again this year. Cornell
and Pennsylvania both have four legs on
the cup and a victory by either means
permanent ownership of the trophy.
The games take place on May 29 and 30.
About 21 Colleges will enter, including
California.

With the completion of the chimes fund
at the Ohio State University, freshmen
next year will probably have the oppor-
tunity of being called to class by the
booming notes of bells across the fields.
The chimes fund has been growing for
eight years, each graduating class leaving
its contribution to swell the total. It is
estimated that the chimes will cost ap-
proximately \$10,000. The present difficul-
ty is to find a tower to house the bells.
Orton Hall has been talked of, also a
campanile built by the board of trustees of
the University.

E. S. Thompson '14, manager of the
musical clubs, has made arrangements
with the New York alumni to give a con-
cert at Delmonico's on the evening of
March 30. This concert completes the
circuit which starts March 25 with a
concert at Saco, Me.; Thursday a per-
formance will be given at Peabody, Mass.;
Friday the club appears at Reading, while
on Saturday a concert will be given in
Boston at Steinert Hall. On Monday,
March 23, a joint concert will be given
with Bates, at Lewiston, in the Lewiston
City Hall.—Bowdoin Orient.

A new feature in intercollegiate de-
bating at Bates was introduced at the
beginning of this week. This departure
was the starting of a training table at the
College Commons for the varsity teams.
Its purpose is the same as that of a train-
ing table for an athletic team, that is to
turn out a better team. It is thought that
physical fitness is as necessary in a de-
bating team as in any other team, but in
addition to this, it is believed that a great-
er advantage will be derived from the
association and the close fellowship that
naturally springs up among table com-
panions.

"The German folk song was once a com-
mon tie between high and low, young and
old," declared Prof. Blakemore Evans, of
the department of German, in the course
of one of the University lectures delivered
at the Ohio State University recently.
He said that this national bond was
strongest during the late middle ages, but
in modern times the folk song has shown
signs of extinction, until now it is making
a last struggle for existence among the
students and in the army. The lecture
dealt at some length on the main character-
istics of this unpretentious, but significant
literary form. It was happily illustrated
by numerous medieval songs excellently
sung by Mrs. Blakemore Evans, accom-
panied by Dr. H. K. Kibel of the department
of German.

Between 350 and 400 were registered for
Farmers' Week and it was in every re-
spect the most successful yet conducted
by the University. Of these the greater
part were bona fide farmers.

The Unseen Nine-Tenths

Bright, shiny utensils with a sweet, wholesome smell is but a small part of the
real proof of the cleaning properties of

Wyandotte
Dairyman's
Cleaner and Cleanser

So thorough are the cleaning properties of this unusual washing agent that it
cleans far beyond what the eye can see, removing thousands, yes millions of
bacteria, the deadly destroyers of milk and butter quality.

It is because of this extra cleaning, doing what other washing agents cannot
do, that has given Wyandotte Dairyman's Cleaner and Cleanser the unanimous
support of Dairy Colleges and scientific Dairy experts.

In estimating the value of a dairy cleaner they do not forget the "Unseen
nine tenths."

Ask your dealer for "Wyandotte," or write your
dairy supply house.

The J. B. Ford Co., Sole
Mfrs.
WYANDOTTE, MICH.

This Cleanser has been awarded the highest prize wherever exhibited.

There is a Great Difference in Tobaccos

**Tuxedo is the Mildest, Sweetest, Most
Pleasant Smoke in the World, Because—**

First—No one but the makers of
Tuxedo is willing to spend the
money necessary to buy the mildest,
choicest, most thoroughly aged,
selected Burley tobacco.

Second—No one but the makers of
Tuxedo knows how to treat this Bur-
ley tobacco so that every bit of pleas-
antness and goodness remains in the
tobacco and every bit of unpleasant-
ness and harshness is taken out.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Tuxedo was born in 1904. Its
first imitator appeared two years
later. Since then a host of imita-
tions have been born and are clam-
oring for your patronage.

**No imitation is ever as good as the
original.** No amount of advertising,
no amount of bluster and bluff, can
ever make an imitation tobacco as
good as Tuxedo.

If you are not a pipe smoker, you
are denying yourself the greatest
smoking pleasure known to man.
Try Tuxedo in your pipe this week.
