No. 9

DARTMOUTH TO BE PLAYED NEXT FALL

Tentative Schedule Also Has Games with Yale, and the Army

COACH NOT YET ENGAGED

Although the football season has barely come to a close, Professor Wingard and the Athletic Board have negotiations pending with several colleges for games for next fall's eleven and lines are also out for a coach to fill the place of E. B. Cochems, the coach of this year. Mr. Cochems was hired under a one season contract and it is understood that no attempt is to be made to retain Cochems. Many of the student body and a goodly number of the representative alumni are in favor of obtaining a man from Harvard who is well versed in the Houghton system and it is no secret that the Athletic Board is investigating along these lines although no arrangement has as yet been effected whereby a Harvard man is to guide the football destiny of the University next fall. Among the arguments offered, especially by the alumni the success of Coach J. Wells "Mike" Farley whose Harvard system turned out winning elevens both for Maine and for the Crimson. Farley himself has been quoted as saying that the Harvard system is particularly adapted to University of Maine teams as the majority of the men who represent the University on the gridiron are men of "height and weight" and are especially suited for the so-called "steam roller" tactics as pursued by Houghton's elevens.

Other systems are also being considered and Dartmouth's whirlwind scoring machine of this fall, and in fact, all the Cavanaugh teams of the last few years, together with the success of Dartmouth coaches throughout the country brings the "big Green" system to the fore.

As for the schedule for Capt. Ruffner's team, the following is to be placed before the Athletic Board for the final ratification before the games are assured. It is practically certain that games will be arranged with Yale, Dartmouth, the University of Vermont, Bowdoin, Bates, Colby, the usual curtain raiser with Fort McKinley and possibly Massachusetts A. C. and Springfield Y. M. C. A. college. The Army will also be played after the State games.

The Yale and Dartmouth games will be played at New Haven and Hanover respectively and the Bowdoin game will be played at Brunswick, the latter being the only "special train" trip of the year. The eleven will make the trip to West Point for the Army game as was the arrangement this fall, after the State games. The attitude of the Bowdoin Alumni toward the so called State series may affect the final makeup of the schedule but it is not expected that the powers at Brunswick will sacrifice the state series for games with other colleges where the rivalry and the attendance is not so great.

The schedule as proposed and not as yet ratified by the Athletic Board:

September 18—Fort McKinley
September 25—Yale at New Haven
October 2—Dartmouth at Hanover
October 9—Univ. of Vermont
October 16—Massachusetts Agricultural College or Springfield Y. M. C. A. College.
October 23—Bates
October 24—Colby
November 6—Bowdoin at Brunswick
November 13—Army at West Point

Sophomore Calendars Out

The sophomore calendars which have just been placed before the student body form the topic for much favorable comment about the Campus. 1,000 calendars were made up and this supply is already nearly exhausted although they have been on sale less than a week. Persons wishing the calendar can obtain the same at the college store or from sophomores in the various fraternity houses.

Omer Daviau, '16, went to Augusta, Wednesday to take State Board examination for druggist.

PROF. GARRETT W. THOMPSON HONORED

Junior Class to Dedicate "Prism" To Head of German Department

BOOK PROGRESSING WELL

The 1916 *Prism* is to be dedicated to Professor G. W. Thompson, who is at the head of the German Department. During the time he has been connected with the institution he has directed and led the Musical Clubs. His devotion to this work has been of great value to the University, for through these clubs many people came in contact with the University itself. Besides the active interest in the Musical Clubs he also has taken more than a general interest in the student body as a whole. Because of his valuable assistance to the college the 1916 *Prism* board deemed it very fitting to dedicate their book to him.

In general the work is progressing remarkably well. The assignments were made by the committee at the first of the semester, so the work will be done earlier than usual. This gives more time for revision, and the book will no doubt show the advantage of early preparation. The book is to be issued Junior week as usual.

The space formerly occupied by the history of football and track is to be devoted to the history of dramatics in the University of Maine.

The cover which is being designed by Professor Weston, is sure to be novel and attractive.

OFFICERS ELECTED

"M" Club Meets First Time This Year

The University of Maine "M" club was entertained at the Theta Chi House last Tuesday evening, where after a good dinner, a good smoke, and a social talk, the fellows got together in a short business meeting, electing the following officers for the coming year:—

Otis C. Lawry, '16, President; Michael C. Driscoll, '16, Vice President; Lewis H. Kriger, '16, Secretary; Guy C. Palmer, '16, Treasurer.

After the election of officers the meeting was open to general discussion, and it was decided to recommend to the Athletic Board of the University, several new features two of which were: First. To recommend that the University Rifle Team on condition of it being entered to Class "A" of the Intercollegiate League of the Rifle Association be given an "M R T" to be worn on the sweater with the "M" in the center between the two smaller letters "R" and "T". The second recommendation was, that the sweaters which are customarily awarded athletes in the senior year be given them directly after the close of the season in which they earn their "M".

Among other plans and arrangements discussed at the meeting, was the appointment of a Committee for the Poverty Ball, which will be announced in a later edition of the Campus; and a plan to make the "TAG DAY" which was so successful last year in the raising of money for the entertainment of interscholastic athletes at the Spring Meet, a permanent University custom.

Bible Class Discusses Problems

"Natural resources and public utilities", is the December topic for discussion at the Maine Students Bible Class of the Orono Congregational Church. The subject for Dec. 13 is, "Conservation of water rights and all natural resources for the nation with due regard to the interests of the actual settler. National development and control of irrigation, and reclamation of land; Federal supervision of mines."

Through the Minister of the Argentine Republic in Washington, official recognition of Worcester Polytechnic Institute has been given in several of the leading newspapers of that country.

MAINE TO COMPETE IN BIG MEET

Application Made for Admission to American Intercollegiate Asso.

DUAL MEET PLANNED

It is practically certain that the University of Maine will be competitors in the American Intercollegiate Track Meet next spring as the authorities have applied for admission into the American Association and the application will be acted upon at the annual meeting of the association which will take place in New York early in February. It is expected that Maine will be received into membership and this will mean national prominence to the athletes representing the University. With men of the calibre of Rice, Bailey, Allen and several others it is hoped that Maine under Art Smith will make a good showing. Colby is the only other college in the state that holds membership in the National Association.

This will make an additional track meet for the University team in the spring and Manager Philbrook is attempting to make negotiations with either Trinity or Brown for a dual meet. Already arrangements have been perfected for a dual meet with Bates to take place the Saturday before the State Meet. This dual meet will be held on Alumni Field. The Maine Intercollegiate Track Meet will be held at Waterville this year although an attempt will be undoubtedly to transfer the State meet to either Whittier Field, Brunswick or Alumni Field, Orono, because of the poor facilities at Waterville. There is no 220 yard straightaway at Waterville and this necessitates running both the long dash and the 220 yard hurdle race around a curve.

M. C. A. GROWING

Freshmen Taking Great Interest In Work of Association

With the largest membership in the history of M. C. A. there is great enthusiasm in the work among the members of the Freshman class this year. In the dormitories about 300 men are active members, and they are divided into eight classes for study. At the present time the men are studying a very interesting book entitled "Students Standing Activities."

The meetings are held once a month in the clubroom of the college library. These meetings are a very important factor in the college life at Maine as in this manner the Freshmen become better acquainted with the upperclassmen. An entertainment and light refreshments are provided and they serve as an excellent attraction.

"Bob" Thurrell, the president, is in touch with several interesting speakers who are scheduled to appear in a short time. The record established at the beginning of the year will be continued, and the M. C. A. plans the most successful season in its history.

TO SPEAK TONIGHT

James Tryon To Discuss "One Hundred Years of Peace"

At 8 o'clock this evening the Women's Club of Orono will hold its regular monthly meeting in Coburn Hall. James Tryon of Boston, a member of the board of directors of the New England Peace league will give an illustrated lecture on, "One Hundred Years of Peace." After the lecture, the club members and their guests will adjourn to the home of President Aley, where a reception will be held in honor of the speaker.

Students at Bowdoin who desire to keep clippings from the newspapers in the Library are allowed to do so if they write their initials over the article and call for it at the desk after the paper has been removed from the racks.

MASSACHUSETTS CLUB AGAIN ORGANIZED

Over Seventy Bay State Men and Women Present At First Meeting

OFFICERS ELECTED

"There is no question but that the recently organized Massachusetts Club will prove a great success, unparalleled in the history of the University of Maine." The impetus which the above mentioned organization has already obtained well substantiates the quoted statement which has been made by a member of the executive committee of the Club.

At the first meeting, which was held December 2, about seventy Massachusetts men and women were on hand to arouse interest in the matter. At that time officers for the year were elected, and an entertainment committee chosen. A meeting in the Library Sunday afternoon of the executive committee settled a discussion of several important issues pertaining to the organization. Meanwhile the entertainment committee has been working upon the elaborate program for the year, which includes the probable presentation before the Club of Dadmun's moving pictures of Boston In Motion, and the bringing of various prominent Massachusetts men to Maine for discussions before the monthly meetings. Also dances and various entertainments are planned for the year.

It is noteworthy that the Club seeks the membership of all University women from Massachusetts, as well as men. Also the Bay State members of the Faculty have been elected as honorary members. Thursday evening, December 10, the first regular meeting was held in the Club Room of the Library. President Aley gave the first scheduled talk of the year, in a discussion of the growth of Massachusetts, and the effective influence which the Bay State has had upon the development of the country. Walter J. Dolan, '15, rendered a song solo. The meeting was concluded by a discussion on the question of making the organization more cosmopolitan by admitting all students from the states outside of Maine.

The advantages of such an organization are many. The most prominent benefits might be summed up in the facts that the same can be carried on without dues, except for necessary taxations from time to time; that members, in traveling, are assured of congenial welcome by members of the Club; and that interstate familiarity and interest in the University cannot help but be promoted by the circulation of members among their home people. Likewise such a collective organization has various possibilities in the way of obtaining special travel rates to and from home at vacation times.

The officers of the Club are:
President.....W. W. Redmond, '15
Vice President.....F. Z. Phelps, '16
Secretary.....Miss M. Fredrika Foster, '16
Treasurer.....L. H. Haskell, '15

EXECUTIVE COMMITTEE

Executive Committee—R. W. Bell, chairman, '16, R. M. Carter, '17, F. T. McCabe, '16, Miss V. L. Mersereau, '18.
Entertainment Committee: J. E. Doyle, '15, C. H. Goldsmith, '15, Miss Cornelia Phelps, '17.

In commenting upon the founding of the Massachusetts Club, President Aley voiced the opinion that in his mind the important phase of student social life and Maine interest in the University would be much strengthened by the organization of various State county clubs in Maine. It is probable that the assured success of the Massachusetts Club will have a great tendency to promote the fulfillment of this wish of the President.

To Speak In Chapel

James Tryon, of Boston, a member of the New England Peace league will address the student body at chapel, Monday morning, Dec. 14. Mr. Tryon is well known in this vicinity being a former resident of Bangor.

Tufts, new president, Dr. Herman C. Bumpus, has lately arrived from the University of Wisconsin.

TWO NEW GAMES FOR BASEBALL TEAM

Chinese University and Portland N. E. League on Schedule

SOUTHERN TRIP GIVEN UP

In the baseball schedule of next spring an innovation will be seen in the arrangement of the Maine State Intercollegiate championship series, when nine games will be played, three games with each other college in the state making a somewhat longer schedule than that of last year. The usual trip to Massachusetts in the spring will be taken but the proposed Southern trip could not be considered because of pecuniary difficulties in the Athletic Department. The Massachusetts trip will start the fourteenth of April and will close with a game with Colby at Waterville, the nineteenth, the teams that will be played on the trip being, Brown, Harvard, Boston College and possibly Wesleyan. Trinity, Amherst and Williams may also be included in the final list of contests for the spring.

The schedule that is partially completed and that has not as yet received the ratification of the Faculty committee and the Athletic Board includes the following proposed games—

April 14. Brown at Providence, R. I.
April 15. Harvard at Soldiers' Field, Cambridge, Mass.
April 16. Boston College at Fenway Park, Boston.
April 19. Open.
April 20. Colby at Waterville.
April 14. Portland (New England League) at Bayside Park, Portland.
All above games are not as yet approved.
May 1. Bowdoin at Brunswick.
May 5. Colby at Orono.
May 8. Bates at Orono.
May 12. Bates at Lewiston.
May 19. Bowdoin at Brunswick.
May 22. Colby at Waterville.
May 26. Bates at Orono.
May 29. Bowdoin at Orono.
June 4. Chinese University of Hawaii at Orono.
June 5. Colby at Orono.

Two teams appear on the University of Maine schedule for the first time when the names of Hugh Duffy's Portland New England League team and of the Chinese University of Hawaii are noted. Portland attempted to play Maine last year but matters could not be arranged and this year Duffy went to work early to land the University nine as an attraction at Bayside Park in Portland. Artie Abbott who captained the team of the University two seasons past is with the Portland aggregation and it is hoped that he will be signed up for another year.

The Chinese University of Hawaii is making a transcontinental tour and will play all the colleges in the New England States. It is expected that this game will prove a big attraction.

DEPARTMENT MOVES

Chemistry Classes Transfer To Aubert Hall

Transfer of the laboratory classes in chemistry to Aubert Hall is nearly completed. Students in qualitative, organic, and quantitative chemistry have been placed in three large laboratories on the second and third floors of Aubert Hall. The temporary annex which was joined to Fernald Hall over a year ago has been moved to the rear of Lord Hall, where it will be utilized for a carpenter shop. Freshmen formerly in the annex have been assigned desks on the first floor of Fernald Hall. The new offices and several of the class rooms in Aubert Hall are not yet completed but the work is being pushed so that they can be occupied very soon. The building which is now being used for a carpenter shop will be made over as a residence for the head janitor of the University.

The 1915 Edition of Tufts Songs comprising 400 pages of music with 225 individual numbers is ready.

EDITORIALS

Many men and many nations have met
with death that was undeserved. The
world has gone on without them but it
would have been better with their
presence.

Not many years ago, there were, at
the University of Maine, a wealth of
sectional clubs and or-
ganizations. Each state,
of Clubs which had a good repre-
sentation in the Univer-
sity, had its organization. Also the
different counties in Maine had their clubs.

These were live organizations. They
were a credit and a benefit to the institu-
tion. They died an unnatural and un-
deserved death because student attention
was temporarily needed in other directions.

Today the old need for these clubs is
felt again. In such a large and growing
institution everything which tends to
closer relations among the students is to
be given every encouragement.

On page one of this issue may be found
some first hand information on this sub-
ject. The men from Massachusetts are
the first to re-organize. They are making
every effort to do this in a complete and
perfect manner. If you are from the Bay
State you owe it to your fellows, to your
state, and to your college, to support this
club.

It is to be hoped that the students from
other states will not be slow in realizing
the value of such clubs and that they will
take immediate steps towards organiza-
tion.

Not only will these clubs be of benefit to
the students individually but they can
materially help Maine. The clubs could
become powerful instruments in reaching
prospective college men and convincing
them that Maine was the college for them
to attend.

Think this over and then if you are con-
vinced get behind the movement and push
your club to the limit. *Do it now!*

PROF. FILES TO SPEAK

Bowdoin Professor Here Under
Auspices of Deutscher Verein

Professor George Files of the German
department of Bowdoin College is to
lecture at the University soon after the
Christmas recess. Professor Files comes
here at the invitation of the Deutscher
Verein which society entertains Dr. Walz
of Harvard on December seventeenth in
the Chapel. Faculty and students are
cordially invited to hear both speakers.

Prof. and Mrs. A. J. Jones Enter-
tain Phi Kappa Phi Members

The members of Phi Kappa Phi were
entertained Thursday evening, December
tenth, by Prof. and Mrs. A. J. Jones at
their home on North Main Street. The
social hour was preceded by a business
meeting for the discussion of a proposed
new constitution.

NEW MATERIAL NEEDED

Prospects None Too Bright For
Relay Team

Coach Arthur N. Smith has issued his
first call for candidates for the relay team
which is to represent the University of
Maine in the annual Boston Athletic
Association Indoor Track meet which is
to be held at Mechanics building, Boston
Saturday evening February 6. The
opponent of Maine in the 390 yard run
has not been chosen as yet but at present
Wesleyan seems to be the choice. The
prospects for a winning quartet can not
be said to be any too bright and it is ex-
pected that one or possibly two freshmen
will be on the relay team. Of last year's
aggregation, but two men Donohue and
Dempsey are left and it is doubtful
whether or not the latter will be a candi-
date this year. King, who made the trip
as a sub will be on hand as well as Leacock,
French, Totman, McKowan, and a num-
ber of others who were candidates last
year will try for places. The freshmen it
is expected, will enlarge the squad and it
is hoped that the entering class will offer
Smith some sort of material so that an-
other B. A. A. Relay victory may be re-
corded.

TO GIVE CABARET

Ladies of Round Table Plan Un-
usual Entertainment

The Ladies of the Round Table are to
give a genuine Cabaret Show in the gym-
nasium on the evening of Friday, January
15, 1915. Mrs. E. J. Mason is chairman
of the committee from the Round Table
which is in charge of the affair. Mrs.
Mason is to be assisted by a committee
of students, one from each fraternity
house and dormitory.

The best talent in the University will
be included in the program which will be
announced later. Those in charge of the
affair say that the entertainment will be
far above the ordinary run of such events.

Tables for parties of four may be re-
served in advance. Seats in the gallery
will be on sale later. Further details will
be announced later.

HOLD RECEPTION

Delta Tau Delta Entertains Fac-
ulty and Friends

On the evening of Dec. 4 Delta Tau
Delta Fraternity held a reception to
members of the faculty, which was well
attended. The receiving line was made
up of Dr. and Mrs. R. J. Aley, Dr. and
Mrs. L. S. Merrill, Mrs. Sarah H. Currier,
and Mr. R. D. Douglass.

After the reception there was dancing.
Music was furnished by a five piece
orchestra. Among those present were:
Miss Madeline Wheeler of Reading, Mass.,
Miss Dorothy S. Sharp and Miss Lilian
Sharp of Williamsport, Pa., Miss Madeline
Winter of Kingfield, Me., Miss Madeleine
Rolle of Portland, Me., Miss Eleanor G.
Conroy of Portland, Me., Miss Celestia
Hayford of Dover, Me., Miss Leontine
Glidden of Brewer, Me., Miss Mary
Beckett of Calais, Me., Miss Cornelia
PHELPS of Orono, Me., Miss Avis Lethieq
and Miss Arline Lethieq of Brewer, Me.,
Miss Howard of Orono, Me., Miss Soucci
of Great Works, Me., Miss Mae Went-
worth of Pittsfield, Me., Miss Ruth
Chalmers of Bangor, Me., Miss Fila
Lawrence of North Lubec, Me., Miss
Geneva Reed of Orono, Me., Miss Marion
Rodden of Reading, Mass., Miss Pauline
Bayard of Orono, Me., and Miss Jellison,
of Orono, Me.

NOTICE

To Students in College of Arts and
Sciences

If you want to feel completely "at home"
in college come to the Old Home Night
in the Gym Saturday at 7.30 P. M.
Only B. A. sons and daughters are invited
but they are expected. No pains will be
spared for their entertainment for each
member of the family can mount his own
particular hobby and ride to his heart's
content. Surprises are in store.

The follies of the Faculty, the champion
checker-player, the favors of fickle For-
tune. These will be revealed to the wise
B. A. students on Saturday night.

The evening of the fifth the girls of the
Colburn House gave a little party. The
guests were Mrs. Parcher, Mark L. Hill,
Howard Jenkins, Harrie Williams, "Bill"
Gray, "Mac" Oak and Chester Goldsmith.

AUBERT HALL OPENED

Physics Department Give "At
Home"

On last Thursday evening Aubert Hall,
the home of the physics department was
opened for inspection, and a general home
gathering. There were many present
both from the University and out of town,
and everyone enjoyed a very pleasant
evening. Dean and Mrs. Stevens re-
ceived in the Dean's office on the second
floor. Here the visitors received a guide
to all the rooms. At different parts of
the building, various members of the
faculty of this department were stationed
in order to give information to those who
wished it. The third floor gave the most
attraction, for it was here that refresh-
ments were served. After the inspection
and refreshments many gathered in the
lecture room and conversed, and had a
general "hand shake."

PRESIDENT IS ELECTED

W. E. Decker, 1879, is President of
Civic and Commerce Association

W. F. Decker, 1879, has recently been
elected President of the Minneapolis
Civic and Commerce Association.

Some comprehension of the magnitude
of the work of this organization may be
obtained from the following items taken
from its record for the year ending De-
cember 13, 1914:

"Six hundred and forty new members
secured; several new industries located;
18,240 inches of newspaper space secured;
regional bank obtained for Minneapolis
all material entering into road improve-
ments in the country tested; 114 con-
ventions held in the city; economy and
efficiency promoted by cooperation with
the heads of city departments; fortnightly
luncheons or dinners; clean-up cam-
paign formulated and administered; mun-
icipal Christmas celebration; three trade
tours to 63 towns in Minneapolis and
North Dakota; railroad rate cases initia-
ted; new offices occupied; studies made
upon the harvest hand shortage, sign
removals, bill boards, public health legis-
lation, smoke prevention, child welfare,
public power rights, industrial survey in-
cluding the 1431 manufacturing estab-
lishments in the city, and housing
conditions in Minneapolis.

Coburn Mystery Solved

Why was the word 'Coburn' engraved
on a rough stone and the words 'Hall
1887' engraved on a stone with a smooth
face? This question has been asked a
countless number of times by visitors to
our University and by many of our stu-
dents when they have noticed these two
peculiar stones on the front of Coburn
Hall.

There has always been something
mysterious about this which no one has
seemed able to clear up, but like all
mysteries there is a solution, which
when found is often very simple. This
is true of the case in question.

Coburn Hall was erected in 1887 dur-
ing the time when Dr. Merritt C. Fernald
was president of this University, and was
dedicated in 1888. It was built for the
purpose of providing a building for the
Natural History department and for the
Agricultural department. A portion of
the building was set apart for the Physics
department, also.

The building was practically completed
when the two stones, the one rough and
the other smooth, were observed. They
had been cut and erected before anyone
except the workmen had noticed the
difference. A meeting of the trustees
the problem was discussed. Some said
they liked the rough stones as well as the
smooth, although some preferred the
smooth. The result was, however, that
the two stones, which had been cut
differently through an error, were allowed
to stand as they were, since it was con-
sidered an unnecessary trouble and ex-
pense to remove one of these stones and
have another put in its place so that both
would be alike. Thus this incongruity
in the construction of Coburn Hall is ex-
plained.

College of Arts and Sciences

At a lecture course to be held at Steuben,
Maine, Thursday, Dec. 10, Dean Stevens
will give an address. The subject will be,
"Familiar Sciences."

There will be a social and business meet-
ing of Phi Kappa Phi, at Prof. A. J.
Jones, Thursday night, Dec. 17.

Dean Stevens will speak to the teachers
Dec. 17th. The subject of his address
will be given out later.

HAS BEEN RE-ORGANIZED

Cercle Francais Held First Meeting To Make Plans

Considerable interest is exhibited in the re-organization of the Cercle Francais. Students of the three upper classes and the faculty members of the French department under the direction of Dr. J. B. Segall have already determined upon its fundamental aims and needs. The organization held its first regular meeting Thursday, December 10, in the Library. Requirements for eligibility have not as yet been decided but will be published shortly.

DISCUSSION LEAGUE TO BE FORMED

Prize Equivalent to Four Years Tuition Offered

NEW PLAN FOLLOWED

"The board of trustees has granted a prize, equivalent to tuition for four years, to the winner of the State discussion contest. This will be paid yearly in credit on the University books to the winner, provided he becomes a student in the University."

By the above statement President Alely plainly sets forth the appreciation which is manifested toward the "State Inter-scholastic Discussion League," an organization but recently instigated by the English Department of the University of Maine. Instructor Keyes is the principal factor in the movement, and has drawn his active conclusions from a similar league now being upheld in Indiana.

This Discussion League is in no wise relative to the debating leagues which are now run by the Maine colleges. The debating league as a competition practically excludes the small school. However, by the regulations of the Discussion League, the small school stands on equal footing with its larger rival.

In this new League the "school team" idea is eliminated. The units for the preliminary contest are school, county and congressional district. Each school will select one representative for the county contest, each county will select one or two representatives for the district contest. Thus, gathered from the four districts of Maine, eight students will participate in the final discussion, which will be held at the University on the third Thursday of May, 1915.

It is noteworthy that the boy and girl student are equally eligible for the contest.

Why the word "discussion" is used in place of "debate" will bear some explanation. A debate must necessarily be offered according to certain cut and dried rules of custom—a discussion, as is evident, requires more of good thought and presentation. The speaker may attack any side of the subject he may prefer, any phase which seems to him most cardinal. Thus, in attacking "The Recall," which is the wide scoping subject to be discussed this year, one has before him a vast number of methods of presentation.

The present list of institutions which have signified their entrance into the Discussion numbers the most prominent High and Preparatory Schools in the State. Undoubtedly by the next year the number of competitors will very nearly reach the hundred mark. This arrival into closer contact with the State preparatory schools should mean much to the University.

New Drawing Room Second to None

The Physics Department has moved from the second floor of Wingate Hall and now one of the best drawing rooms in the country is located there. This Senior Drawing Room was occupied by the Senior Civil Engineering Classes immediately after Thanksgiving. The room is not quite completed but when it is furnished Maine will have a drawing room which is second to none in the country.

King Gustavus of Sweden has granted a silver medal to Dr. R. Tait McKenzie, physical director of the University of Pennsylvania in recognition of his work as an athletic sculptor. This medal was awarded for a medallion executed by Doctor McKenzie for the Olympic Stadium at Stockholm, Sweden, for the 1912 games. It is a bronze medallion it has relief representing three athletes going over hurdles, and is entitled, "The Joy of Effort."

Wisconsin claims to have more women taking agriculture than any other institution. There are six women who registered for the short course in its agricultural college, who come from the following states: Illinois, Michigan, Missouri, New York, Pennsylvania, and Wisconsin.

PLAY REHEARSALS BEGUN

Deutscher Verein To Give Two Plays

The Deutscher Verein is to present two plays, "Er Ist Nicht Eifersuechtig" and "Der Dritte." Rehearsals have already begun, and prospects for good plays are very bright. The plays are being coached by Professor Thompson and Mr. Bain.

It is hoped that the plays will begin before the college during February or March. Plans are being made to give the plays in Bangor, Waterville, Lewiston, Augusta and Portland.

The casts are as follows:

"ER IST NICHT EFERSUECHTIG"

Dr. August Holienelof, a physician,

Elmer D. Potter

Cecilia, his wife Miss Helen Danforth

Baumann, a capitalist her uncle

Stephen C. Clement

Hermann, Holienelof's servant,

Fred L. Dameren

"DER DRITTE"

Apollonia Miss Emma Gerhardt

Hausenau, her husband H. W. Coffin

Adelherd, their daughter

Miss G. B. Bristol

Klotilde, her cousin,

Miss Elizabeth Bright

Technology Notes

The College of Technology is giving a series of lectures before the Bailey School of Industries, which is located at Bath, Me., On Nov. 24, Dean Boardman gave an illustrated lecture on Irrigation in the West. On Dec. 11 Professor Barrows gave an illustrated lecture on Industrial Electricity. Other lectures will follow during the winter and spring by Dr. Alely, Mr. Chapman, Professor Durgin, and Professor Kaulfuss.

The College of Technology is looking forward to the installment of an engineering Experiment Station. This will be patterned somewhat after the present Agricultural Experiment Station. Its organization, however, will be considerably different. This College has been doing such work on a small scale for some years. If Maine gets the new Mechanical Laboratory which she is seeking, the College of Technology will be in a much better position to go ahead. The subjects of Engineering Extension work and of Engineering Experiment Stations have been agitated to a considerable extent in the last three years by all the Land Grant Colleges. The Engineering Divisions of all the Land Grant Colleges met three years ago and formed an organization known as the Land Grant College Engineering Association. Dean Boardman has attended all of the meetings of this body. At the last meeting, which was held in November, representatives from thirty-eight institutions met to discuss questions of engineering education. It is a noteworthy fact that the colleges represented extend from Maine to Texas.

Professor Boardman and Mr. Farnum are going to Derby this week in connection with the extension work.

CO-ED NOTES

Miss Helen McGinnis spent the week-end with Miss Frances Dugan, at her home in Bangor.

On Saturday afternoon, December 5th, the women of the University were delightedly entertained at a thimble party, by Mrs. Robert Alely.

Friends of Miss Muriel Colbath, '15, will regret to learn of her serious illness at her home in Hampden.

Miss Louise Bartlett '14, is at her home in Orono, convalescing from an attack of typhoid fever.

Considerable interest is being taken by the women in the Y. W. C. A. meetings, held alternately at Balentine Hall and Mt. Vernon house. There have been several interesting speakers, among them Prof. Colvin, Miss Boring, Dean Stevens and Mrs. Lyman. The women have also been working for the Red Cross in the interests of the Belgian sufferers.

Recently the undergraduates of Princeton voted overwhelmingly against the continuance of compulsory daily chapel and voted somewhat less decisively for the continuance of compulsory Sunday chapel. Altogether 960 votes were cast against the continuance of daily chapel and 199 votes were cast for it, while 578 votes were cast for the continuance of Sunday Schapel and 572 votes were cast against it.

A tournament is being planned during the winter months by the Dartmouth Chess Club.

MRS. ALEY ENTERTAINS

Women Of The University Enjoy Thimble Party

Mrs. Robert Judson Alely entertained the women of the faculty, Mrs. Harrington, Mrs. Estabrooke, Miss Hopkins and the women students of the University at a thimble party on Saturday afternoon, December fifth. The virola and Angelus operated by Miss Ruth Brown '17, furnished music. Dainty refreshments were served.

Phi Kappa Sigma Reception

The Phi Kappa Sigma reception which took place last Friday evening from eight until ten o'clock was attended by a large number of people. In the receiving line were R. H. Varney, '15, Mrs. Tower, and Dean and Mrs. Hart. The house was very prettily decorated, both without and within. Refreshments were served. Music was furnished by Ringwall's orchestra. After the reception there was dancing. At three a. m. the dance broke up and a special car carried a party to Bangor. The following young ladies were present: Miss Madeline Robinson, Bangor, Miss Rena E. Bringer, Hancock, Miss Lucile G. Clark, Miss Frances M. Lougee, Winterport, Miss Helen Stinchfield, Danforth, Miss Mary A. Phillips, Selinsgrove, Pa., Miss Anna W. Brown, Portland, Miss Vera Mersereau, Somerville, Mass., Miss Madeline Holyoke, Brewer, Miss Alice Gallagher, Bangor, Miss Margaret Gallagher, Bangor, Miss Florance Savage, Brewer, Miss Helen M. Greely, Bar Harbor, Miss Marie Foster, Malden, Mass., Miss Helen L. Danforth, Bangor, Miss Marjorie Holyoke, Brewer, Miss Alice Merrill, Brewer, Miss Marjorie Westcott, Bangor, Miss Helen Day, Bangor, Miss Hilda Osborne, Bangor, Miss Hazel Delano, Bangor, Miss Margaret Holyoke, Brewer, Max Alely, J. Strot-hard Brooks, ex '14, and Frank B. Holden ex '16, were also present.

Theta Chi

The members of the "M" Club were the guests of the Theta Chi Fraternity at the chapter house Tuesday evening, Dec. 8.

Clyde Benson '17, is at his home in Lewiston on account of illness.

Nathan Thompson, U. of M. College of Law, '16, spent the week-end with his parents in Portland.

Arno Nickerson '16, has returned from a trip to Katahdin Iron Works in the interests of the Everwear Aluminum Co. Dr. Hall of Bangor dined at the Theta Chi house Sunday.

Raymond Thompson, '14, was a recent caller at the Theta Chi house.

Coach C. S. Erswell, '15, of the Orono High School football team, was tendered a banquet by the team at the town-hall in Orono, Saturday evening, December 5th. Mr. Erswell's team was a strong contestant for the state championship. During the evening Mr. Erswell made a speech on, "The Qualifications of a Good High School Football Team."

The Committee on the reception to be given by Gamma Chapter of Theta Chi Fraternity on Friday evening, December 18th, is hard at work and plans are being made for a most brilliant function.

Phi Eta Kappa

William A. Keyte ex-'16, who has a position with the Waterville Sentinel, was on the campus recently.

J. E. Brewster, ex-'15, is attending the Virginia Military College.

H. C. Prescott '07, has a position as Principal of Keekar Falls High School.

Delta Tau Delta

Archeleus Hamlen, who was with the fruit judging team at Worcester, Mass., secured two second prizes, one offered for barrel packing, the other for judging of fruit.

"Joek" Chase '14, and "Dod" Worden '13, were on the campus for several days this week.

Lloyd F. Breen ex-'13, who is with the Engineering Department of the Maine Central Railroad, stopped at the Phi Kappa Sigma house last Sunday.

Blynn Allen ex-'12, stopped at the Phi Kappa Sigma house last Sunday.

Bates is organizing a dramatic society, the intended purpose of which is to discuss modern plays, the lives of actors, and to present a series of short plays, and at least one drama during the college year.

Why Should I Smoke TUXEDO?

TUXEDO is the logical smoke for millionaires because it is impossible to buy a better tobacco.

Tuxedo is the logical smoke for the economical man because there are 40 pipefuls in a ten-cent tin—making the average cost per pipeful only one-fourth of a cent!

To buy cheaper tobacco means to get less pleasure out of smoking, because it is impossible to make a tobacco as good as Tuxedo at less than the Tuxedo price!

Tuxedo
 The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made of only the finest, choicest selected leaves of perfectly aged Burley tobacco. It is made by the original "Tuxedo Process" which takes all the unpleasantness out of tobacco and leaves all the pleasantness in!

Tuxedo has a deliciously mild, fragrant aroma that is pleasant to all. It is the only tobacco you can smoke in a room full of lace curtains without leaving even a trace of odor.

A trial will convince you that Tuxedo is superior to every other tobacco you have ever smoked. Buy a tin—today.

YOU CAN BUY TUXEDO EVERYWHERE

Convenient pouch, inner-lined with moisture-proof paper 5c Famous green tin, with gold lettering, curved to fit pocket 10c

In Glass Humidors, 50c and 90c

FREE Send us 2 cents in stamps for postage and we will mail you a souvenir tin of TUXEDO tobacco to any point in the United States. Address

GEO. CURRY
 ex-Governor, New Mexico
 "Tuxedo appeals to me strongly on a count of its cool, mild, pleasant flavor. There is a superiority to all other tobacco."

Geo Curry

STANTON WARRBURTON
 Congressman
 State of Washington
 "My own experience leads me to believe that every desirable quality is present in Tuxedo tobacco. It is the best smoke I ever had."

St. Warrburton

IRVIN S. COBB
 humorist and novelist
 "I can't think of any reason why I shouldn't say I like Tuxedo—because I do like it, very much."

Irvin S. Cobb

CHEMICAL NOTES

The Maine Branch of the American Chemical Society will hold an important meeting in Aubert Hall, Saturday evening, Dec. 12. After the annual election of officers, Prof. R. H. McKee and Instructor C. E. Andrews of the chemistry department will present original papers.

Mr. J. J. N. Stevenson of the department of chemistry has been giving a series of lectures on Paper Making before the students of Orono High School and residents of Basin Mills. The meetings have been very well attended.

The Heller Mertz Company, thru their expert, Dr. Julius Hahn, presented to the Department of Chemistry, of the University of Maine, a complete and valuable set of aniline dyes, particularly applicable to the dyeing of paper. As soon as business conditions become more settled, the company expects to send Dr. Hahn to the University to give several days of practical demonstration work.

The Portland Company of Portland, Maine, has furnished to the University an experimental digester for the use of the Pulp and Paper Department. This digester has a capacity of a little over one and one-half cords and is adapted for the manufacture of sulphite pulp. The Portland Company, because of its interest in the Pulp and Paper Department of the University, furnished this digester at about one-third the regular price.

For the second time, the Pulp and Paper Department of the University, with the cooperation of several of the pulp mills in the state, has conducted work of practical value. During the Thanksgiving recess the Eastern Manufacturing Company at South Brewer, the Penobscot Chemical Fiber Company at Great Works, and one or two other plants permitted the students to work in the mills as spare hands. The men proportioned their time in the various departments of the mills. At the plant of the Eastern Manufacturing Company, the men worked in the digester room, wet room, and bleaching room. In the Penobscot Chemical Fibre Company's plant, where soda pulp is made, the students worked around the incinerator, the digester and in the liquor room. Several other mills in the state have evidenced interest in the matter, and it is probable that in the future they will cooperate with the University in furnishing opportunity for the students, studying the manufacture of paper pulp, to gain actual will experience.

Mr. Barker, inventor of the Barker Acid Sulphite System has designed, for the experimental pulp and paper laboratory, a miniature acid system, which has arrived and is now being installed. This system was made by the Chadwick Lead Company of Boston. It is composed of four compartments with a total height of thirty feet, and will be housed in a small building and piped directly to the laboratory. The Barker system has been installed in many of the leading paper mills in the country.

ALUMNI NOTES

F. Harold Bickford, a graduate of the school course in agriculture in 1906 has entered the Christian ministry and is at present engaged in evangelistic work at Blaine.

Rev. G. L. Hanscom, '85, is spending the winter at Pine Ridge Inn, Hobe Sound, Florida.

Sigma Nu

Delta Nu Chapter of Sigma Nu Fraternity were the hosts at a most enjoyable house party at the chapter house Saturday evening, December 5. Larson and O'Hara of Bangor furnished the music for the occasion. The following guests were present: Prof. and Mrs. L. S. Corbett, Francis Lougee, Geneva Reed, Corinna White, Helen Taylor, Edith Clark, Mildred Morrison, Helen Stinchfield, Jessie M. Sturtevant, Ethel Gray, Natalie A. Vaughan, Elizabeth C. Phelps, Geneva Haley, Ethel Sawyer, Doris Wilkins and Mildred W. Flower, Orono; Louise Garland, Marjorie King, Faye Harvey, Bangor; Marguerite Littlefield, Marion Emery, Orono; Ellen Garman, Mae Secourt, Pauline Derby, Bangor; Goldie Byther, and Blanche Pooler of Stillwater.

Faculty Note

Dean Hart is visiting the following schools this week, Westbrook High, Standish High, Bridgton High, Fryeburg Academy, Bridgton Academy.

Exchanges

Daniel M. Coogan, who coached Bowdoin's baseball team in 1913, is to coach her baseball team again this year.

As principals of high schools in this state there are twenty-eight Bowdoin graduates according to statistics recently published by that college.

Colby was the sole representative of the cross-country teams of this state at the National Meet held recently at New Haven. Her team finished seventh.

The Women's Division of Colby is co-operating with the University of Maine girls in sending relief to the Belgians.

Wagner's Siegfried is to be produced in the Harvard Stadium the first week in June, 1915, under the auspices of Harvard University. The cast for this production will include Mr. Rudolph Berger, Mme. Galski, Mme. Schumann Heink, Mme. Gluck, Mr. Albert Reiss, Mr. Otto Goritz, Mr. Clarence Whitehill, and Mr. Basil Ryssdael.

An Hawaiian Quartet playing on ukuleles and tonoharps will be the novelty introduced this year, at the annual winter concert and dance of Massachusetts Institute of Technology.

Frequently there appears in The Tech, the student paper of M. I. T., an article stating that certain things have been found and may be obtained if their owners will call at a certain designated case.

It is the custom of W. P. I. for the president and his wife to be 'at home' to students and members of the faculty from four to six every Sunday afternoon.

Rennselaer holds a smoker at the end of the football season which every student attends and witnesses the presentation of letters to those men who have earned them.

One hundred dollars has been offered by the Lake Mohonk Conference on International Arbitration as a prize for the best essay on "International Arbitration" written by an undergraduate man-student of any college in the United States of Canada. The essays should not exceed 5,000 words in length, should be written on plain paper of the ordinary letter size, and should be submitted to the secretary not later than March 15, 1915.—Exchange.

Relief for the suffering Belgians is to be sent by the students and faculty of the Kansas State Agricultural College in the form of a earload of Kansas wheat grown on the college farm and milled in the college mill.

Four hundred seventy-five farmers in ninety-one counties in Kansas are co-operating with the Kansas State Agricultural College in making farm experiments.

An oscillograph has recently been acquired by the electrical department of the Kansas State Agricultural College. This machine is used in investigating phenomena of extremely short duration, one-thousandth of a second being a not unusual period.

Improvement in written work is claimed by Mr. F. C. Winship, instructor in English at Kansas State Agricultural College, as a result of the study of well-known news magazines and the discarding of the study of literature such as that relating to London in the sixteenth century.

Smoke talks by such men as Dr. Toyokichi Iyenaga, John Kendrick Bangs, Paul G. Redington, Will Hutchins, Senator W. P. Dillingham, Phidelah Rice, Charles W. Furlong, Strickland Gillilan, and Henry J. Hadfield are to be given this winter at Dartmouth under the auspices of the College Club.

There has been recently discovered in the vaults of Parkhurst Hall a famous jewel representing one of the famous Aesop's fables, which was presented by John Flude, broker, Grace Church Street, London on April 5, 1785, to the President of Dartmouth College, who was to wear it on occasions of state. President Nichols will probably resume this ancient custom.

In a conspicuous place in Dartmouth's Library there has been collected all the available data in the form of papers, pamphlets, and books concerning the present European war.

Twenty names more than those necessary to double last years membership in the Christian Association at Dartmouth was the result of the recent campaign. The largest number of new members secured in one day was 102. The total is now 900.

Bowdoin is to receive \$10,000 as a beneficiary of the will of Dr. George S. Lynde, a graduate of Yale in 1883. This gift is made in memory of his brother, who graduated from Bowdoin in 1877.

The students of Worcester Academy, Worcester, Massachusetts, publish an eight-page weekly paper entitled *The Vigorina*.

The Daily Cardinal, the official paper of the University of Wisconsin, is an eight-page paper published in the State Journal Building.

Sigma Chi Locals

Fred'k Grabner, the executive secretary of the Sigma Chi Fraternity, was a guest at the house over Saturday and Sunday. This was Mr. Grabner's first visit to the state and he was very well pleased by the campus and the buildings. Mr. Grabner is making a tour of the New England chapters.

Norman F. French and Ralph M. Holmes of the department of physics were guests at the house on Monday.

Glen R. Cheney, ex-'15, was guest at the Sigma Chi House at dinner on Sunday.

Erwin B. Newcomb ex-'15, announces that he is the father of a boy.

George E. Sinkinson who was operated on at the Mass. State Hospital in Boston is improving so well that he has returned to his home.

Kappa Sigma

Mr. W. Barlow Hill made a short business trip to Portland over the week end.

Mr. Frank Ferguson recently attended the funeral of his grandmother in Brewer. Mr. Frank Savage spent Sunday with Donald Mayo, in Hampden.

Mr. Shepard, of Melrose Highlands, an inspector in the Bureau of Entomology, U. S. Dept. of Ag. spent the week end with Mr. Charles Ruffner.

Old Clothing Wanted

Clothing will be received by Mr. Wing and will be sent to the Belgians by the Thursday Club. Some has already been sent, and another lot is being packed for shipment. Similar work is being done by other colleges all over the country. Bowdoin and Princeton are examples.

Colleges in Kansas, although they may not be supported by the state, are to co-operate with the state institutions in the survey which is now being made of Kansas high-schools.

A recent census of Northwestern shows that the average co-ed there spends \$775.90 a year, which amount is divided up as follows: room and board, \$250; clothes, \$2.50; missions, \$40; society and moving picture shows, \$110; ice cream, \$5.50; tuition, \$120; and books, \$40. The 900 women altogether spend \$99,000 a year for society and moving picture shows, \$5,000 for ice cream, and nearly \$250,000 for clothes according to items recently published in the Chicago Tribune.
