Please join the Office of Strategic Partnerships, Innovation, Resources, and Engagement for **MIRTA Accelerator 7.0 Demo Day** on **Tuesday, November 19th**.

This event celebrates four faculty- and staff-led innovation teams who are advancing lab discoveries into public and commercial use through an intensive program focused on market research, intellectual property analysis, and business model development.

The 2024 projects involve developing research innovations in environmentally-friendly advanced manufacturing, web privacy protections, water filtration for a group of chemicals known as PFAS, and accelerated soil carbonation to reduce carbon emissions from construction. Read more about the teams here.

You can register for Demo Day by clicking the link below:
https://mirta7.eventbrite.com

Date: Tuesday, November 19, 2024

Time: 4:30 p.m. - 7:30 p.m.
