Junior Prom a Delight—Inf Affair

The big event of Junior Week, in the opinion of many, was the Junior Prom, which was held last Saturday night. This year the Prom was much more elaborate than in the past, and the officials were greatly complimented on the success of their work.

The Prom was held at the Orono Elks' Club, and was opened by President George A. B. Smith, who introduced the toasts. The toasts were given by the four house presidents—W. H. Smith, E. H. Miller, C. S. Deane, and W. G. Smith. The club was decorated with streamers and balloons, and the floor was carpeted with a soft red rug. The music was furnished by the Orono High School orchestra, and the dancing was interspersed with songs and dances. The atmosphere was gay and cheerful, and everyone seemed to be enjoying themselves.

The music was furnished by Mr. Public, and the orchestra was the best of the best as Mr. Public's music is the best.

The order consisted of twenty-four dancers, and the order of the dances was as follows: one from each house. The order was: Alpha, Beta, Delta, Eta, Phi, and Theta. The music was furnished by the Orono High School orchestra, and the dancing was interspersed with songs and dances. The atmosphere was gay and cheerful, and everyone seemed to be enjoying themselves.

The Prom was held at night, and the dance continued until late. The refreshments were served in the chapel at intermission, consisting of sandwiches, milk, and coffee. The coffee was served in a green and white cup, and the milk was served in a green and white bottle.

The Prom was held on the night of Saturday, May 3, and the doors were opened at 9 o'clock. The dance continued until 11 o'clock, and the refreshments were served in the chapel at intermission, consisting of sandwiches, milk, and coffee. The coffee was served in a green and white cup, and the milk was served in a green and white bottle.

Changes in Tobacco.

With this issue of the CAMPUS coming out on the eve of the fall term, and in view of the fact that tobacco is one of the leading college problems, the本报记者 is going to make an effort to acquaint our readers with the facts of the problem, and to give some suggestions for solving it.

The problem is one that has been studied by many authorities, and it is a problem that has been recognized by the college authorities as one that needs to be faced.

The problem is one that has been studied by many authorities, and it is a problem that has been recognized by the college authorities as one that needs to be faced.

One of the most important facts that has been established in the study of the problem is that there is a great deal of difference in the way different people react to tobacco.

For example, some people are able to enjoy the effects of tobacco without becoming addicted to it, while others are not.

It is also true that the effects of tobacco are different in different people.

Some people may be able to smoke a large amount of tobacco without feeling any ill effects, while others may be affected by smoking even a small amount of tobacco.

In view of this, it is clear that the problem of tobacco must be approached from a scientific standpoint, and that the solution of the problem must be found by studying the effects of tobacco on the individual.

The本报记者 is going to try to give our readers some information about the effects of tobacco on the individual, and to give some suggestions for solving the problem.

Fine Appearance of 1917 Prism

Several Changes Made in Staff Arrangements

The 1917 Prism, the annual book published by the Junior Class, was issued for the first time this year, with a complete change of style and plan with the student body and others.

Several changes were made in the staff arrangements of the 1917 Prism. The following are some of the more important changes in the organization of the 1917 Prism.

- A more efficient method of distribution of the book was adopted, including the use of special mailing lists and the establishment of a sales office in the office of the Junior Class president.
- The staff was increased to include more contributors and editors.
- The book was divided into sections, each with a specific theme and a separate editor.
- The book was published in a larger format with more pages.
- The use of advertisements was increased to support the costs of production.

The 1917 Prism is the annual book published by the Junior Class of 1917, which is the class of students that graduated from the University of Maine in 1917.

The fine appearance of the 1917 Prism is due to the hard work and dedication of the Junior Class, who have striven to make it an impressive and enjoyable product for both the members of the class and the University community.
