MAINE TRIMS LINCOLN A. A. 68-37

The Lincoln A. A. proved no match for
Maine's powerful team in the opening game
last Wednesday. At no time during the
game was there a doubt in anyone's
mind as to the ultimate result.

BATES LOSES THREE BASEBALL MEN

Bates baseball chances were bumped when
the announcement was made that
Bates baseball president, M. D. H. Parks, had
been called up for duty in the national
service. The Bates baseball team was
scheduled for the spring season.

committee of the Freshman class it was
decided that the class dues were

CLASS BASKETBALL
SCHEDULED SATURDAY

Two good basketball games are
scheduled for Saturday, February 22.
They are as follows:

Seniors vs Sophomores

Juniors vs Freshmen

The Athletic Association will give a
dance after the games. Show your
class spirit—get out and yell.
LETTERS OF A FRESHMAN

H. H. Hall
Feb. 16, 1919

Dear Wildella:

What's the matter you don't write? Are you lame or sick? Just cuz I went to see that girl in Vezie is no reason why you shouldn't write. I'll always remember how "America" was sung in chapel on Lincoln's birthday. If it had been the national hymn of Montenegro, we couldn't have been less enthusiastic. Think it over! The next time that we are asked to sing "America" remember that we are Americans.

M.

MECHANICAL CLUB

MEETS WEDNESDAY

M.

The University of Maine student branch of the Society of Mechanical Engineers held their monthly meeting Wednesday evening, Feb. 12, in Lord Hall. Mr. Noyes, president of the organization, called the meeting to order, and introduced several student members who talked on their experiences during the war.

Mr. Swift, 1921, talked on the manufacturing of watches at the Waltham Watch Company. He described many mechanical processes in an interesting way, and made clear to his audience some of the facts about watch-making.

Mr. Worth, 1929, told about his work as a draughtsman in a tool-making shop. He emphasized the value of accuracy in gauges and told many interesting things about the making of tools.

Mr. Mitchell, 1920, spoke on his experience while in the Army. He was commissioned a Second Lieutenant at Camp Zachary Taylor, Ky., where he received valuable training in the artillery. He talked principally on the construction and working of the three-inch gun, and also about the machine guns.

Following the speakers, peanuts and cigars were passed around. The meeting proved very successful, and it is hoped that future meetings will be better attended, especially by the Freshmen engineering students.

M.

GIRLS BASKETBALL

MANAGER ELECTED

M.

The Girls Athletic Association is holding basketball practice every afternoon. Last week Leona Gilman '20 was elected manager of the Junior and Senior team.

These University of Maine Men won our Intercollegiate Salesmanship Contest in 1916, winning out over thirteen other eastern colleges. Why again? Because they made several hundred dollars apiece in their summer vacation.

Next summer will be the greatest season in history to sell maps. Positions are open only to men who really need to earn a large sum of money. Willingness to work hard is the chief requirement. With our system ability as a talker is not a requisite.

SEE E. C. HOBBS (Class of 1910, A.T.O.) who is the second from the left in the above picture.

JUNIOR CHEMISTS ENTERTAINED MONDAY

M.

The chemists of the Junior class were pleasantly entertained Monday afternoon at 302 Hamilfal Hamlin by L. C. Chen '20 and T. C. Wang '20.

Those present were William H. 

But we had coffee after dinner served in a drawing room. But the only thing every man and woman should think. Unless that we are asked to sing "America". I'm mighty sorry it was all over before I got across; that was the thought of every man who did not get to France. Many of us, in college have a feeling of disappointment. A great event took place and we did not play an important part in it as we should have liked.

That feeling is natural. But every college student should think: "When we won the war, did we finish the job?" To this every thinking person would answer, "No." The destructive and speedy part of the task is behind us. We have finished the first chapter. And lots of us did not do much to make that first chapter end. We have a feeling of disappointment. A person will answer, "No." The destruction of the world's ideals is going to spring up. Great aspects of the reconstruction are seen. To us it will go again. They have funny customs here, Willella. People talk about losing their lives would be of real value to the world.
