Delta Tau Delta Takes Lead in Meets

Wins Saturday Scoring 31 Points

FAST GAME TO END FIRST B. B. SEASON

On Friday evening of this week, the fast basketball aggregation from Dean Academy will be seen in action on the floor of the gym. Manager Friend has obtained this game for his team as a wind-up of their first regular season and a more than snappy performance is expected by all who know the work of these two teams. Dean Academy, tho a prep school, sends a team here with a fine reputation and would like nothing better than to score a possible victory over the fast Maine five.

A game will be played during the halves by the Maine Second team and another five and there will be a dance following the athletic exhibition. Better come and see that last game.

LECTURES AND DEDICATION ON F. W. PROGRAM

The Thirteenth annual Farmers' Week given by the College of Agriculture of the University of Maine was held March 4th to 8th.

The program consisted of lectures, conferences, discussions, demonstrations and exhibits. Special programs were offered by the Maine Department of Agriculture, Bureau of Markets, Maine Seed Improvement Association, Maine Pomological Society, Maine Association of Agricultural Students and the Maine Federation of Agricultural Associations.

On Wednesday afternoon March 5th at 2.30 P. M. a tablet was dedicated to the memory of Gilbert Gowell, formerly professor of Animal Industry at the University of Maine.

Lectures were given by the teachers in the various departments of the College of Agriculture, members of the Experiment Station Staff, representatives of State Department of Agriculture, the State Grange and many successful farmers from all parts of the State.

Coach French has issued the first call for track candidates to work out for spring track. If you have any track ability, show a little "pep" and report to the coach.

ATTENTION

University of Maine stickers are now for sale by the Sophomore Owls. All FRESHMEN should have these for their traveling bags, and trunks. Have one on your bag and show where you came from. Ask any Owl for some. Houses will be canvassed soon.

The second inter-fraternity meet was held Saturday afternoon. At the close of the meet, $\Delta T \Delta$ was leading with 31 points, ΣN coming second with 24 points. Only $3\frac{1}{2}$ points separate $\Delta T \Delta$ and ΣN so far. The third meet will decide who will obtain possession of the cup.

Some mighty good work was done during the afternoon, especially in the half and mile. Hustin showed up well in the pole vault and should develop into varsity timber.

The third and final inter-fraternity meet will be held next Saturday.

The following is the result of Saturday's meet:

SHOT PUT

First, Quinn, ΣN ; Second, Purington, ΣN ; Third, Hegarty, $\Delta T \Delta$.

BROAD JUMP

First, Sewall, ΣN ; Second, Wansker, $\Delta T \Delta$; Third, Pratt, $\Delta T \Delta$.

HIGH JUMP

First, Allen, $K \Sigma$; Second, Hegarty, $\Delta T \Delta$; Third, Fenderson, $H H H$.

40 YARD LOW HURDLES

First, Waite, $\Theta \Gamma \Delta$; Second, Pomeroy, ΣX ; Third, Purington, ΣN .

MILE RUN

First, Herrick, $\Theta \Gamma \Delta$; Second, Steadman, $H H H$; Third, Laughlin, $H H H$.

FAT MAN'S RACE

First, Dow, ΣN ; Second, Butler, ΘX ; Third, Murphy, $\Theta \Gamma \Delta$.

390 YARD RUN

First, Allen, $K \Sigma$; Second, Castle, $\Delta T \Delta$; Third, Burns, $\Phi \Gamma \Delta$.

POLE VAULT

First, Hustin, $\Delta T \Delta$; Second, O'Connor, $K \Sigma$; Third, Pratt, $\Delta T \Delta$.

(Continued on Page Four)

BIG IMPROVEMENT IN RUBBING-ROOM SPACE

What has long been a need in Maine's athletic arrangements has now been obtained. All rubbing room material and lockers for athletics have been moved from the old quarters on the basement floor of Alumni Hall to the large airy room in rear of the gym. A very few times a year this room is used to serve refreshments from, while the remainder of the time it is simply there.

The manager of athletics, therefore, has obtained its use as the new rubbing quarters. It is an ideal place, being very light, and airy and supplied with steam heat and hot and cold water. Ready access is given to the board track and field thru a side door opening directly to the outside. Along the north side of the room are the rubbing tables and about the range in the middle are the steel lockers. In the rear of the room the two corners are partitioned off, one of these spaces

Maine Wins Close Contest 28-20

SEVEN VETERANS START MAINE BASEBALL SEASON

The time is drawing near when Maine spirit will center around the baseball diamond. Altho baseball suffered greatly during the war, it should come back strong and be the rival of track as a college sport.

Maine baseball fans are looking for a winning nine this year and if the early dope holds good, they will not be disappointed. Battery practice has already begun in the cage with twenty-five or thirty candidates working out daily.

The University is exceedingly lucky in again obtaining the services of Monte Cross as coach. Monte has been with us for the last three seasons and has turned out some winning teams. He will be with the team by the fifteenth of April and get the boys in shape for the practice game with Colby on April 19.

The men that are turning out thus far are showing great stuff. Jerry Reardon and Lawry look good for the backstop position. DeRocher, last year's varsity twirler, is already rounding into shape. "Red" had a good record on the baseball diamond last summer and if he shows the same stuff he will be a valuable man for Maine this coming season. It is quite probable that Zeigler, Frost and Small will return to college next semester. These men are all experts in the pitcher's box and there will no doubt be stern competition for the pitching job.

There will be a wealth of material from which to pick the Maine nine. Among the veterans who look good for a berth on the team are Waterman, Faulkner, Reardon, Willard, DeRocher, Thompson and Sargent.

OUTLOOK FOR STATE BASE BALL SEASON

The Maine colleges will this spring renew their rivalries with a season of fast baseball. All of the colleges have got the makings of excellent teams by the present outlook and without a doubt baseball will now take its stand beside the wonderful ball shown in Maine before the war.

At Bowdoin when the baseball season opens much material will be found on hand and Coach Ben Houser will from this material develop a team of no mean ability. All of last year's team is back at college with several other former varsity men who have returned from service.

The battery candidates started work in the gym last week getting their arms in trim for the coming season. P. V. Mason '20, varsity pitcher for the squad last season and R. W. Pendleton '18, last year's captain before he left for service, assisted by W. J. Finn '22, are working out for the bat-

(Continued on page four)

Before the largest audience of fans that basketball has called out this season, the Maine quintet romped home with the bacon from the Hingham Naval Base Five. The game was a stiff fight from start to finish, Maine started with a rush and scored the first basket. The sailors were not long in coming across with a score. At the close of the first period the score was 8 to 8. From that time on it was a toss up as to who would come away with the larger score. Maine finally came across with a score of 28 to 20.

In this game the wonderful passing and team work of the sailors proved a hard combination and had they been at home on the Maine floor, the result of the game would doubtless have been different. When the whistle blew at the end of the game a great shout of relief went up from the sidelines. Reardon and Perro displayed some wonderfully fast basketball. Beverly and Cross played a hard steady game throughout. Walker was not in form and played in hard luck throughout although he was game to the last. The Naval Team displayed the better team work but were not able to keep the ball away from the Maine Five nor find the basket so easily.

The summary:

Maine	Hingham
Perro rf.....lb	McCarthy
Beverly lf.....rb	Cutler
Walker c.....c	Lynch
Cross rb.....lf	Winstein
Reardon lb.....rf	Flynn
Referee, Young '21	

Between the periods of the big game the Second Team mixed it up with the Houlton High School Team to the tune of 34 to 14. The game was rather slow the Maine boys proving a little too heavy and fast for the champions of Aroostook. The high school lads did not get started until the second period when the lead of the second team was a little too great handicap for them to overcome.

The summary:

Maine Second	Houlton High
Needham rf.....lb	McCluskey
Dolloff lf.....rb	Whitehead
Woodman c.....c	Smith
Feeney rb.....lf	Niles
C. Reardon lb.....rf	O'Donnell
Referee Young '21	
Substitutes: D. Cross for C. Reardon	

SOPHOMORE HOP ELECTION

An election of the Sophomore Hop Committee was held on Thursday with the following results: N. H. Young, chairman, H. C. Crandall, E. J. Bowley, D. E. Stuart and K. E. Vaughn.

L. K. Carey was elected manager of the class track team.

EDITORIAL

A college custom after all is a pretty important factor in the college life. They are formed as the result of the work of the best of the college's men or from momentous happenings in the career of the institution. Through long association with the student body comes to regard them as almost sacred. It is almost inconceivable that the present freshman class even with their somewhat brief presence at Maine should not know about the custom regarding the painting of class numerals on the Orono standpipe. It must be either a case of lack of instruction or of disregard for a custom about which they had knowledge. A number of years ago there was always a great rivalry between classes over the painting of class numerals on the standpipe. The structure was constantly disfigured with numerals of all colors so that it was an eyesore. Happily however, through agreement, it was decided and agreed upon to paint a large M upon the standpipe and forever discontinue the painting of numerals. The result was the distinctive letter which is now on the structure. One would be surprised to learn how favorably visitors are impressed with the appearance of this letter, and what a good advertisement it is for the university.

Another point which it would be well to mention in connection with this incident is that in the old days when the classes painted their numerals upon this structure they put them in a place which was not reached without considerable risk and in a conspicuous position and not within a few feet from the ground.

Education underlies Democracy. Without it the rule of the masses becomes mob-ocracy. In 1789 France tried to set up a republic, and failed because education was not widespread. The terrors under that government until Napoleon got the power were directly the result of a lack of education. And the last decade has seen three separate attempts toward democracy fail more or less completely for the same reason. In 1908 the Turkish Constitution was proclaimed. Other elements caused its overthrow, but its success was foredoomed by the

ignorance of the people concerned. A few years later the Chinese Empire was replaced by the Chinese Republic, only to have chaos develop because the people were not educated enough to govern themselves. Mexico present precisely the same conditions. And Russia, whatever we shall say of her, shows the futility of democracy without education.

The problem of educating a nation has always been overwhelmingly difficult. But in the case of China the difficulty has been increased a thousand fold by the Chinese characters. When a typewriter for China was attempted twenty years ago it was found that 600 characters were the minimum, for the Chinese have a different character for each word. Their words are all of one syllable, so to be able to read an ordinary newspaper one must know at least 3000 characters. To read what would be the equivalent of an English literary work means that one must know from five to ten thousand characters. This has meant that reading, the most elemental thing in education, has always been a question of years. And so the reduction of illiteracy in China has stood as the greatest obstacle in the way of progress and in the way of democracy.

But within the last year there has been worked out a new alphabet in the real sense of the word. 39 characters, a phonetic alphabet, will replace fifty to sixty thousand characters of the old system. There are 12 initial letters, 24 final letters and three connectives. In actual experiment with coolies convalescing in missionary hospitals it is possible for a man to learn the entire system in less than three weeks. A trained student has done it in three hours.

The actual characters look weird enough to an occidental. But acquaintance makes them natural enough. They look like some cabalistic signs, for alchemy of witchcraft. And such indeed they are, for thru their magic it will be possible to spread primary school education and secondary school education thruout the nation. The new system means that China can become educated enough to become democratic within our generation. In its way the new Chinese alphabet will prove fully as significant in democratizing the world as will the League of Nations.

March 11, 1919

Dear Ma:

Just thought I would write you and let you know that again I have not got anything to say. I have not been down to Veazie to see my regular girl this week so life has run along about normal. The only thing I am living for now Ma is to get that \$60.00 from the army. Do you know what I am going to do with it Ma? I am going to build an addition on the library so that the fellows that are in love with the koeds can have a place to spend their spare time. You ought to see that place Ma it is just lined with koeds, all looking for a fello. I guess they spend their spare time in there making believe they are working. I was up in a room there and I heard someone say,

"Edward, do you forget what day this is?"

"Why no, this is Tuesday, I had Mechanical Lab. on today."

Soft crying and then, "But don't you remember?"

"No."

Loud wails and then, "Why it is

just a year ago today that we became engaged."

"Oh, yes."

"Don't you remember, dear, how you asked me four times to take your pin before I said I would. And don't you remember how you asked me not to tell any koed and don't you remember how happy you said you was, and how happy we would be?"

"Sure, I remember all that stuff now."

That's the kind of stuff you hear all the time, and then they expect you to get some studies. I guess Ma the college ought to get a Matron over there because they can't expect the young girls at the desk to look out for the koeds and get books to.

We had a speech by Prexie Aley the other day Ma and he said not to complain. I hate to complain about the library but I am going to turn over my \$60.00 so's we can have a place to study and we won't have to complain to the lady at the desk. Abiding, that's the way you brought me up, Ma. Another thing I would like to say is the way they feed us here at the dorm Ma. I don't want to complain Ma but I think the man that's feeding us thinks the war is still on and he can't get any sugar because they make the bottom of the cup rough to make us think we have got some sugar there when we stir our cofe.

I went to a basketball game last Saturday night Ma. You auto seen that game Ma. There was one fello there, his name was Jerry and I guess he must have been like Silas Marner and had an atheletick fit because there wasn't anybody that could stop him when he started. Maine won Ma and then they danced and celebrated. That same fello was there chaperoning the Matrons Ma. Chaperoning means butting into somebody's good time. I should think those ladies are old enough to know better Ma. They say that he gets paid for taking up the attention of the ladies Ma but I would not go so far as to say that.

Well Ma I guess I will study now.

Your loving Sun,

Afeelus.

CIVIL ENGINEERS
HOLD MEETING

A regular meeting of the Civil Engineers Club was held on last Thursday evening, March 6th at Wingate Hall. There were about forty present.

A few of the older members told how important the work of the engineers was in the world war and also related many unique experiences. Then various matters of business importance were taken up and later followed the election of officers for the coming year.

Following is the result of the election: President, Niles; Vice President B. R. Waterman; Secretary, Currier; Treasurer, Boynton; Executive Committee, Faculty Members, Profs. Lyons and Leavitt, Senior Members, Poor and Chillis; Junior Member, Thompson.

Rumor has it that Carl A. Anderson '19 is engaged to be married. No other details are available at this date.

The Mechanical Engineering Society will hold a meeting in Lord Hall Wednesday evening, March 12. A prominent engineer from the Bath Iron Works will speak on "Ship Propulsion and Propellers."

FRESHMAN PARADE
OVER TO STANDPIPE

Farmers' Week ended successfully with a parade of the freshman class conducted under the auspices of the sophomores, their superiors. The route of march led by the way of Orono to the standpipe, the freshmen band furnishing the music.

The freshman numerals '22, were seen painted on the standpipe Saturday morning and after the government inspection of the R. O. T. C. was over, the freshmen were lined up with the freshmen members of the band at the head. They were marched to the standpipe and the numerals eradicated with the use of black paint. The procession returned to Orono where a paddle line quickly dispersed the lower class.

The sophomores have without a doubt shown more life than has been shown for some time and it is a strong indication that a pre-war basis is fast coming back to the university.

TURNOUT ON SATURDAY
DUE TO STUDENT CHAPEL

The cause for the splendid turnout of the college at the basketball game on Saturday night can easily be traced to the student chapel that was held on Friday. "Jit" Faulkner led the cheering and spirit ran high.

"Jerry" Reardon was at the chair and introduced the several speakers in snappy style.

The speakers were "Taxi" Cross, one of the guards on the basketball team; "Johnny" Walker, the center on the team; Coach Muller and Hiram Donahue, a former star on championship football teams at Maine.

The band played several selections and the chapel closed after the band rendered the Stein Song.

"ART" SMITH GOES
TO TUFTS

"Art" Smith, for several years Maine's track coach, has been engaged to coach the track team at Tufts College according to announcement made by the Tufts College Athletic Association. "Art" needs no introduction to Maine men. His work as coach of track and trainer for all sports helped very materially in the production of many of Maine's championship teams during his stay at Maine. He developed many well known athletes.

Smith was an understudy of the late Mike Murphy, and his home was formerly in Buffalo. He coached at Williston Seminary before coming to Maine and after leaving Maine went to Colby. During the war, he was identified with Y. M. C. A. activities across the water.

"Art" will begin his work at Tufts on March 17. Dual Meets are being arranged between the Medford collegians and Boston College and New Hampshire State College. Tufts will also send a team to the new Eastern Intercollegiate Athletic Association's initial Meet at Springfield as well as to the New England Intercollegiate games in May.

GIRLS PLAY BALL

A snappy practice was held Saturday afternoon in the gym from one until three. About 18 girls were out for practice and the teams have begun to organize. There will be one more practice before vacation; after vacation the teams will be chosen and games played off between the classes.

ding genius will be gladly ac-
cepted. Deposit them in the box
in the Registrar's office and
make the Grind section of the
1920 Prism what it ought to be.**LIVELY STUDENT
CHAPEL THURSDAY**Thursday morning the chapel was
filled with an eager student body.We had come back to chapel after
a "let-up" from the usual assembly,
anticipating something interesting and
we found it.President Aley was there himself,
and so was "Peanut." We had some
regular singing—the best we've had
this year and Maine spirit asserted it-
self not only in the singing, but in
the cheering, led by "Sammy" Collins.President Aley called upon "Pat"
French, and the four men on the
Maine basket ball team to rise and
he reminded us of our recent athletic
victory over Bowdoin. Then he told
us to think of the good things going
on about us—to get together and en-
joy the sunshine, and cut out the crab-
bing. He read a little poem which
gives the proper spirit:The University is a melting pot,
Where a man puts in the best he's
got,Much or little or big or small
The University can use it all.It's a wonderful thing this pot will do
To change things up for me and
you.We put in grit and find success,
And love will find a friend to bless.We put in honor and find a name,
And good hard work will grow to
fame.A little knowledge will lead to more
And peace will come to the heart
that's sore.So bear in mind it's a melting pot;
Each man throws in the best he's
got.And as he gives so does he grow
As life runs on with its ebb and
flow.Put in friendship—the helping hand,
Courage and love, or only "sand,"
The University is a common pool,
But you have to stir with 'The Gol-
den Rule.'It is team work that brings results.
There is not going to be much happi-
ness gained in this world by kicking,
unless we're kicking toward the goal.Due to lack of power on Monday
the University printing office could do
no work, which accounts for the ap-
pearance of the Campus one day late.Harry Watson '17, Phi Eta Kappa,
was a recent guest on the campus.
Watson is just back from France.**University Store Company**

(Continued from Page One)
OUTLOOK FOR STATE
BASEBALL SEASON

tery. All three of these men have already built up quite a reputation and it can easily be seen that there will be keen competition between them for a place on the mound. Working out with the pitchers are two promising backstops; F. P. Hall '19, varsity catcher for two seasons and K. C. Coombs '20.

Bowdoin has for infielders plenty of good men. O. S. Donnell '19, third baseman and former captain is back and assume his old position; R. T. Small '19, varsity third baseman of last year will probably be shifted to short; A. R. Caspar '19, letter man of last year and D. A. Clifford '21, last year's first baseman at Bates, will compete for honors on the initial bag; W. M. Cook '20, varsity second baseman for two years will hold down his position very easily.

The three varsity outfielders of last year, M. R. Grover '19, W. P. Racine '19, and A. W. Hill '20, are back and expect to hold their positions against all new comers. Freshman material also looks very promising and the veterans will have to show a lot of life so as to hold their places on the team.

The baseball squad at Bates College has completed nearly three weeks of preliminary training. Coach Purington has had plenty of chance to size up the squad which shows plenty of good men. There are six letter men back to fill their old positions and with the influx of recruits a very good team will no doubt be the final outcome.

For battery men there are two veteran pitchers, C. A. Elwell '19, and R. J. Garrett '20, and for backstops P. J. Tierny '22, and A. F. Stone '22, both new men but very promising; the battery being weakened by the suspension of J. Van Vloten '21, varsity catcher for last year and L. S. Spiller '21, veteran pitcher of last year, due to the illegal hazing of freshmen.

There are a number of men out for positions in the infield including veterans and prep-school stars. W. J. Davidson '19, will no doubt hook in the initial bag again for his position with R. A. Smith '22, and T. E. Hinds '22, fighting to take it from him. L. H. Dillion '22, looks good for second base. Captain P. J. Talbot '19, will defend his old position at short stop. A. R. Rice '20, E. E. Trask '20 and F. J. Kelly '22, are all out for a place on the third sack.

There are outfielders a plenty with two letter men and several other veterans of last year; H. C. Maxim '19, F. C. Stone '19, R. I. Woodbury '21, R. J. P. LaCouse '22 are the main-stays. A. Elmer '21, J. E. Mosher '20 and of the team in the outfield positions.

The chief deficiency of Colby lies in the pitching staff, but that same difficulty confronted Colby last year. Seven of her last year's players have returned.

N. V. Driscoll '19, the star Colby backstop recently received his discharge from the army and has resumed his college work. He will fill his old position as catcher as it is the general consensus of opinion in baseball circles that he is one of the cleverest catchers in Maine. Ex-captain L. C. Heyes '19, will play his old position at third base; A. S. Fraus '20, will play his old position at short stop. N. L. Nouise '19, can easily cover the second bag; E. L. Marshall '19, will, without doubt, well held down the initial sack; and J. E. Taylor '21, and

BIG IMPROVEMENT IN
RUBBING-ROOM SPACE

being used by the athletic board for storage on board shelves, of athletic equipment, of which even now, there is an imposing array.

The old quarters have been taken over by the military department for storage of R. O. T. C. equipment, which has been assigned to Maine and is daily expected here.

ORIENTAL STUDENTS
FORM ASSOCIATION

The Chinese students at the University of Maine have formed an association which has the following objects: (1) to promote common interests of Chinese students and (2) to cultivate friendship of the American peoples. The following officers have been elected: President, Y. C. Hsu; Secretary and Treasurer, T. C. Wang.

While in Boston, the members of the relay squad met Charlie Ziegler. He has just returned from France and hopes to return to college for spring semester. If Charlie does return, he will be eligible for track this spring. He should make a strong bid for a place on the relay team if Maine sends a team to the Penn. Relay Carnival, April 24-25.

Rho Rho Chapter of Sigma Chi held an informal house party at the chapter house on Friday evening, March 7. There were 25 couples present. Madame Parcher and Mrs. L. S. Merrill were among the guests. Rice's Orchestra furnished music for an order of twelve dances.

L. K. Pulsifer '21, will be back on the job in the outfield. E. S. Buckman '20, is the only pitcher back to college but there is plenty of promising material in the freshman class among which is J. J. Sullivan '22, all-Massachusetts interscholastic baseball player from Winthrop.

With the good outlook in the line of baseball there is no doubt that the Maine colleges will hold up their reputations in the playing of fast baseball and the Maine State series will be of lively interest and of close competition.
