Maine Scores at N. E. I. A. A.

Shot Put Won by Capt. Allen

Maine scored six points in the New England track meet held in Boston, Saturday, with one first and one fourth. Bill Allen won the shot put over a field of good men with a distance of 42 ft. 9½ inches. Herrick placed fourth in the two mile run after a hard fight.

The meet was fast and showed that athletics are recovering from the war and will soon be back on their old footing.

"Bill" Allen is conceded by sporting writers to be the best in the country and if he performs due to form he should win the shot put in the inter-collegiate this week.

U. OF M. R. O. T. C. MARCHES IN BANGOR PARADE

The University of Maine, R. O. T. C. unit paraded last Thursday to help Bangor welcome home her soldiers and sailors of the big war. The remainder of the college turned out to show their appreciation. Lieut. Harry M. Smith was the Chief of the Division. The parade surpassed any demonstration known in Bangor since the close of the Civil War. The business houses and buildings were lavishly decorated. Immediately after the parade, all uniformed men were entertained at a banquet in City Hall. Then a dance followed. All the theaters were open to boys and afterwards special cars conveyed them home.

MUSICAL CLUB ELECTS FOR NEXT YEAR

The Maine Musical Clubs held their annual election of officers Tuesday, May 20. The following officers were elected. President and Manager of Musical Clubs, Paul Armstrong; Assistant Managers of Musical Clubs, Donald Cross and Donald Daniels; Leader of Glee Club, Stanley Currier. We are sure of having a successful Musical Club next year. Plans are now under way for a trip to Portland and Boston next season.

STUDENT HURT IN CHEMICAL LABORATORY

While working in the chemical laboratory at the U. of M. Tuesday of last week, Stephen W. Brown sustained severe burns on his face, especially about his eyes, the effects of an explosion of some chemical substance. His eyesight, which was at first affected, is believed to be not seriously injured.

DEAN HART ENTERTAINED BY ALUMNI

Dean Hart was entertained at lunch in Boston recently by a group of the Alumni. The affair was held at Young's Hotel with about fifteen present.

MAINE WINS FROM BATES

Fast Game by Maine Helps Cinch State Championship

INTERSCHOLASTIC TRACK MEET A SUCCESS

In the Sixteenth Annual Inter-Scholastic Track Meet last Saturday only five prep schools competed. Maine Central Institute won the meet with 45½ points, Wilton Academy 2nd with 31½ points, Gardiner High 3rd with 20 points, Bangor High 4th with 14 points and Turner Center High with 12 points.

M. C. I. was strong in the field events, Emery winning 6 first places, in the shot put, discus, 100 yard dash, broad jump and hammer throw. Emery beat Bill Allen's prep school record of putting 12 lb. shot by throwing it 45.95 ft. He also broke the former record of Damm of Hebron in throwing the hammer 147 ft. 5½ in. He also tied for the second time the record for the 100 yard dash with a time of 10 2-5 sec.

Wilton Academy was very strong in track events, taking the majority of points in these events.

Both the mile and 2 mile were won by Philbrook of Wilton Academy.

Lawrence of Gardiner High ran a pretty race in the 440 yard dash and was an easy winner.

SUMMARY OF EVENTS

100 yard dash: 1st Emery M. C. I., 2nd Lawrence, Gardiner High, 3rd Simmonds, G. H., Time 10 2-5.

440 Yard dash: 1st, Lawrence, Gardiner High, 2nd Scott, Gardiner High, 3rd Clyde Emery, M. C. I., Time 56-4.

120 Yard Hurdles: 1st, Moore, T. C. H., 2nd Philbrook, W. A., Time 21 s. 220 Yard Hurdles, Emery, M. C. I., 2nd Moore, T. C. H., Time 29.4

½ Mile Run, Day M. C. I., 2nd, Philbrook, W. A., 3rd, Raymond, W. A., Time, 2 min. 12 sec.

1 Mile Run: F. Philbrook, W. A., 2nd, Raymond, W. A., 3rd Walton, T. C. H., Time 4 59 3-5.

COMMENCEMENT PLANS ANNOUNCED BY SENIORS

Every Maine man who is in any way connected with the formulation of plans for Commencement is working hard to make this occasion the big time of this year and the best of all commencements.

Commencement may seem to some to be of interest only to the graduating seniors who wear the cap and gown and to some of the alumni. Plans this year are being made to make Commencement interesting to every Maine man and woman so that they will stay over and help to make it a success.

Alumni reunions and entertainments are designed to interest the alumni. The class of 1909 plans to hold a regular reunion and a baseball game planned between 1909 and 1908. A real alumni banquet which is planned in the interests of all Maine men both alumni and undergraduates. It is planned to provide accommodations for all visitors in Oak Hall instead of in Orono and in the fraternity houses as formerly. It is thought that this plan will aid in acquainting all the alumni and give greater convenience.

Fine speakers have been secured for the exercises on Sunday and Monday including Bishop Edwin H. Hughes who spoke here two years ago, Governor Carl Milliken and ex-Governor M. G. Brumbaugh of Pennsylvania.

Fine programs are being prepared. They will be leather covered and filled

COMING EVENTS

- May 31—Baseball—open
- June 4—Baseball—Maine vs. Colby at Orono
- June 5-7—Junior Week Exercises
- June 6—Junior Prom
- June 7—Baseball—Maine vs. Bowdoin at Orono
- June 21-23—Commencement
- June 21—Alumni Day
- June 23—Commencement exercises Commencement Ball

MEN ELECTED TO ALPHA CHI SIGMA

Alpha Chi Sigma, of which XI of Maine is a chapter, is an honorary chemical fraternity. Members are elected from the three upper classes.

At a recent election the following members of the Junior and Sophomore classes were elected to membership: William H. Anderson '20, Alfred Lingley '20, Paul Armstrong '21, Stephen Beeaker '21, Alden Berry '21.

In a fast and interesting game Saturday on Alumni Field Maine shut out Bates by a score of 6 to 0. The first six innings were scoreless and each pitcher allowed but one hit. In the first of the seventh, however, Davidson of Bates singled and was advanced to second by Stone's bunt, both men being safe. Then Wood made a pretty catch in left field and a quick peg to second completed a double play. In Maine's half of the seventh, Cusick, the Bates pitcher blew up and walked two men. Two singles by Young and Waterman resulted in two runs for Maine. In the eighth inning Maine again rallied and with the aid of errors and clever base running they scored four more runs putting the game on ice.

Johnson pitched a steady game for Maine and received fine support all the way thru. The fielding of the Maine team was by far the best witnessed this year on Alumni Field.

The score:

	AB	R	BH	PO	A	E
Wood, lf	3	1	1	5	1	0
Sargent, 3b	3	1	1	1	1	0
Young cf	4	1	1	1	0	0
Waterman 1b	4	0	1	8	0	1
Faulkner 2b	3	2	1	2	4	1
Slattery ss	3	0	0	3	2	0
Lawry rf	3	1	1	2	0	0
Reardon c	2	0	1	5	0	0

INSPECTION OF R. O. T. C. SUCCESSFUL

The annual Government inspection of the Reserve Officer's Training Corps Unit at the University took place Friday, May 23. The inspection was scheduled for Thursday, May 22, but owing to the parade in Bangor the inspection was postponed one day.

The battalion was formed in the gymnasium of Alumni Hall at nine o'clock. On the arrival of Lt. Col. S. J. Bayardshind the formal inspection of the battalion took place. The inspection was held in the gymnasium on account of the wet weather. On completing the inspection the Colonel said that we had the most completely equipped and organized unit that he had visited.

After the inspection the different companies gave an exhibition of the manual of arms and close order drill.

The Business Manager with his assistants is directly responsible for all the business and finances of the paper.

EDITORIAL

EDITORIAL

What becomes of the trophies, cups, shields, baseballs, footballs, etc which Maine has won? And the average answer is, "they are around somewhere." And that is just where they are, somewhere and everywhere. You will find some in the college store, some in the athletic office, a few in the chapel, a few in the library and some more in the case in the dark hallway in Alumni Hall. Others are concealed in dark corners.

The proper care and preservation of these articles is a most important matter. They are representative of big episodes in the past history of the university, they are a link connecting past and present. Alumni return and wonder where the trophies of their day are. Visitors notice the absence of a real collection of trophies and the freshman is deprived of a valuable lesson in Maine ideals and what Maine means.

The proper collection and preservation of these relics would not be by any means a hard task. This brings up the need of a student union building for such a building would be the best possible location for a trophy room. A student union and a trophy room are two important needs of Maine.

Bowdoin won the State Meet. That is past but the State Baseball League is in full swing. The championship of the state in baseball would offset the track meet. The Maine baseball team is going strong; and last Saturday's game was of professional calibre. Think of what the State Baseball championship means and get behind the team to get it.

1909 REUNION NOTES

Jesse Mason writes from Norton, Conn., that he plans to attend the reunion and that at the New York Alumni dinner in February the conversation pointed to a goodly crowd from the metropolis.

John W. Parkin is in France, other address unknown.

Eddie Ben Hinckley is in Germany and as far as we can learn, has a suite

in the Kaiserhof. Joe Gerrity says Eddie has been offered the editorship of the Fliegende Blaetter.

W. A. Kimball ("Spin") has just returned to New Bedford from New York where he signed up with the Scientific American for a series of articles on "light and cast shadows." We understand that the articles will not include Shadows that Spin cast in Bangor about a decade ago.

Harry Sutton sends word that the following committee will take care of activities when we arrive on the campus: registration, Harold A. Rich; accommodations and class lunch, E. W. Morton; cheer leader, Elton L. Towle; Chief songster, Fred D. Knight; Captain Baseball team, Louis F. Pike; Sunday outing, Guy E. Torrey.

In view of the fact that many of the class are going to be "real clubby" and take "Friend Wife" along, the chairman of the Accommodations committee Eddie Morton, has made arrangements with the Faculty to have rooms at Balentine Hall so that our crowd may keep together. This will add a great deal to the enjoyment of all as anyone will affirm who has met the '09 ladies.

Harry Sutton wishes to have the names at once of those who desire reservations. Don't telegraph, a letter will do.

The following letter from our Class President will be interesting and present indications of a wide spread interest in the Tenth Reunion:

"Since seeing you I have left Springfield and am taking a little vacation on the old home farm. Am enjoying it greatly. However, anyone who is seeking peace and restfulness should not go to the farm when help is scarce. There is peace of mind aplenty but physical rest impossible and under the circumstances undesirable. Judging from the sore muscles and aching joints, I needed the exercises and really I take revenge three times a day at the table.

"There is a great deal of enthusiasm over our reunion and I would not be surprised if two thirds of our members return. I have corresponded or talked with quite a number, probably twenty-five, and almost to a man they are planning to attend. The spirit of co-operation and renewing of friendships seems to be in the atmosphere and we are sure to have a reunion that will be classed as a "Humdinger."

"Aside from our class the interest of the alumni body in general is most extraordinary. The Alumni Day plan which was first suggested by Howard Philbrook of our class, seems to meet with the approval of all and from present indications is going to be the most successful alumni arrangement in the history of the University. I hope it will be such a success that it may become a fixed institution, held annually and featured by the reunion of the fifth year classes.

"I am enclosing several letters from '09 men which Harry Sutton has received and forwarded me. They indicate the trend of feeling and it is suggested that you publish in the ENTERPRISE, extracts from them.

"I would also suggest that you publish the list of addresses of our class as it now stands and ask that corrections be forwarded by anyone who notes errors or omissions.

"I shall probably be in Portland in a few days and will look you up. In the meantime if I can help you in any way let me know. What an enjoyable luncheon we had with Harry, Spike and Lew Pike in Boston the other day. Perhaps we can round up a sim-

ilar party in Portland some day."

One of the most enjoyable features of the Reunion will be the Sunday outing. Guy Torrey's suggestion of an auto trip from Bangor to Bar Harbor, returning to Bangor in the late afternoon or early evening was adopted by the Committee as being like the Fourteen Points, beyond criticism.

RECORD CROWD OF '09 AT COMMENCEMENT

As the June Commencement time draws near, the interest of the class of 1909 is being rapidly awakened and the many letters which are being received by the committee show that the tenth anniversary reunion of the best class of the finest college of the greatest state in the Union will be an unqualified success. Any member of the class who stays away when it would be humanly possible for him to attend is laying the foundation for a life long regret. And those who are married bring their wives. It is probable that any member who has a wife and doesn't take her along would be furnishing ample reason for divorce on the grounds of cruel and abusive treatment. There will be something doing every minute and the committee has so planned events that the cost will be not a great drain upon the pocketbook.

As proof that all the interest is not being shown by those located in New England, we are offering the following personals:

A. B. ("Nan") Patterson writes from Tulsa, Okla., that he is not sure that he can get back but that he will try to but as they are right in the midst of an oil boom, it is a hard time to get away. Patterson is a mechanical engineer making a specialty of oil and gasoline plant construction.

Harold Godfrey writes from Chicago that he will surely try to be on deck. He was home for a few days in March in Litchfield, Maine, after several years of civil engineering thru the Middle West.

Carl Holton wrote such an interesting letter of Freddie Knight from Worcester, Mass., that we are quoting it almost verbatim as follows:

"I came here the first of December, last, and am now with the New England Power Company. Have been working thus far on their steam plant extension down to Uxbridge. Would sure like to see you and if you ever get this way would appreciate being looked up again.

"I knew you were with Stone & Webster and heard you reported down South at one time but was surprised to hear you were in Springfield. We liked that town fine.

"Have been something of a rolling stone myself. First I put in one week with the Maine Central, then two years with the N. Y. C. at Jersey Shore, then five years with Uncle Sam on irrigation in Montana, two years with Springfield City, etc. Sounds like lots of years but what truly does get me is that we have been out to sea ten (10) years. It has gone quickly with me sure enough and I am sure I haven't always made the best use of my time. Have a fine little wife and a little home though, so I should worry.

"I ran across "Tubby" Gilbert who was teaching in Gilbertsville while I was in Springfield, also "Red" Keating who, you probably know, is with the Turners Fall Power Company. While in Penn. I was with Godfrey for a while and was with Allen Oak

in Montana a long time. "Judge" Parker was on the same Project but I only saw him once. Cram and one or two other 'niners" were out there for a while but did not stick.

"Would enjoy getting back for the '09 celebration but doubt if I make it. I suppose a fellow should plan on it anyhow. I appreciate your efforts in looking me up and hope to see you sometime."

The matter of a Class Gate is to be taken up at the reunion and it is hoped that something definite will be planned. It will be remembered that such a move was begun five years ago but it seems to have a natural death. The following letter from Harold Rich who is at present with Thomas, Parker Rice, Architects, Boston, gives some good suggestions along this line.

"About a week ago I had the pleasure of lunching with Harry Sutton. Of course the conversation turned to the coming Reunion of 1909 and Harry asked me to write you a letter about the proposed class gate, in order that you might have some dope to use in your propaganda. Do not feel obliged to use anything which appears to you to be superfluous, for I am almost certain to write a good deal more than you will care to use in explaining present conditions.

"I was not present at the reunion five years ago and did not learn of the proposed gate until about a year later, when I came to Boston. At that time Howard Philbrook asked me to make some sort of sketch to use in arousing interest in the matter. In order to know what I was doing, I tried to get a survey from the University, showing the conditions around the main entrance to the campus. There was nothing of the sort available but I obtained from the civil engineering department the promise that one would be made. Last winter I inquired about the promised survey, and found that the man who made the promise had left the University and that nothing had been done. In trying once more to find something that I could use, I learned that a plan had been made by a landscape architect for the future development of the campus, which would entirely change the main entrance. As nobody knows just now whether this plan is to be followed, either in whole or in part, it seems rather a waste of time to make studies for a gateway.

"Many people who know of our intention to build a gate have criticised the idea, on the grounds that such a thing has no practical use, especially as there is at present no enclosure around the campus. I might content myself by saying that this is the same old story that we hear so often from so-called practical men. If they ran things to suit themselves, there would be few beautiful things in this world. However, it is not necessary to fall back on this, for I believe we can work out a plan which will serve a real practical purpose. Do you remember the old shack which serves as a waiting room at the entrance to the campus? Why shouldn't we design a combination gateway and waiting-room? We could certainly improve on present accommodations.

"Of course the question of cost is going to enter into this matter. There is a minimum, though I am not prepared to name it, and we might as well say that there is no maximum. One 1910 man says our class cannot raise enough for the purpose. I should hate to admit it, but if it seems to be true after a reasonable time, we

INSPECTION OF
R. O. T. C. SUCCESSFUL

The exhibition was closed with a formal guard mount. The battalion was excused and no drills were held in the afternoon due to the weather. After inspecting the battalion, Lt. Col. Bayardshindel inspected the stock-rooms of the Ordnance and Quartermaster. Lt. Merry was congratulated on the condition and appearance of the facilities and equipment. A formal report has not been received as yet.

RECORD CROWD OF
'09 AT COMMENCEMENT

might ask 1910 to help us out.
"As it is time to get some dinner, and my appetite is as good as it was in the good old days, you will be relieved from reading any more of my ideas on this subject just at present. There may be more later. In the meantime, you have my best wishes, both for yourself and for your labors in behalf of the reunion."

HISTORIES OF U. OF M.
ARE FOR SALE

It was thought that all of the "History of the University of Maine" books written by ex-president Dr. Fernald had been sold, but it has been found that there are a few copies left. They will be held for Commencement in order that the Alumni can have the first opportunity to purchase them. This is the only authentic history of the University, and can never be duplicated. Applications for the books should be made early as the number is limited.

MT. VERNON HOUSE NOTES

The girls of Mt. Vernon House have converted their front porch into a sun parlor, where they bask in the sun between classes in the forenoon. In the afternoon the two long settees lined with cushions furnish most comfortable places where they sit and study or sew or entertain their friends and some people have found it a comfortable place to take a nap. Now that the afternoons are longer and the days are warmer supper is served on the veranda à la buffet.

Mrs. Lawrence Hunt '11, who has been visiting her mother Mrs. K. C. Estabrook at the Mt. Vernon House left Tuesday noon for Manatonoc, Wisconsin where her husband is engaged as chemical engineer of the Manatonoc ship building company.

During the war Mrs. Hunt was engaged in War Service; first in Food Conservation for the Federal Government, and later in the ordinance department as inspector of reports in N. Y. City.

"M" CLUB STARTS LAUNDRY PLAN

The "M" Club has secured the services of a laundry in Old Town that is willing to give 25% of all receipts for the benefit of athletics. All those willing to aid the University in this way will please leave their laundry at the Beta Theta Pi House before noon on Mondays. The "M" Club takes it to and from Old Town. It is hoped that many will take advantage of this offer and aid the University. Each fraternity will please appoint a man to take it to and from the Beta House.

RECEPTION HELD BY DEAN STEVENS

Dean and Mrs. James S. Stevens held a very pleasant reception at their home on Main St. Saturday afternoon in honor of their son's wife. Mr. and Mrs. Edwin H. Stevens have come to Orono to make their home. During the reception most delicious refreshments were served. Lieut. Stevens has recently purchased the "Dillingham" one of Bangor's oldest business places and oldest bookstore.

ALUMNI NEWS

Montelle C. Smith '12, formerly of Plymouth, Mass. has been transferred to Lowell, Mass. by the Stone & Webster Co. by whom he is employed.

Mr. A. C. Hammond who is a graduate of the University of Maine, class of 1911; will be manager of the Mechanical goods department of the Goodyear Tire and Rubber Co. in New Zealand.

Mrs. Hamond and daughter, Helen Southard Hammond, who now are in Bangor, will leave in a few days for Vancouver, B. C., where they will join Mr. Hammond for the voyage to Wellington, New Zealand, where they will be located for several years.

AGRICULTURAL CLUB TO HOLD MEETING

The "Heck" Club will hold their last meeting, Wednesday evening, May 28. All members should plan to attend.

The Maine chapter of Sigma Alpha Epsilon entertained at Clark's Bungalow, Hampden, Friday afternoon and evening, May 23.

NOTE

The Maine "Campus" wishes to express its indebtedness to the "Enterprise" for a portion of the alumni news appearing in this issue.

Among Alumni who were back for the track meet were Chas. B. Clark ex '19, James L. Gulliver '15, Thomas Malloy '07, Guy L. Palmer '16.

TRUSTEES OF FUTURE TO BE ALUMNI

The graduates of colleges are to take the place of trustees in the future management of these institutions, says President Meiklejohn, of Amherst College. In other words he believes that the alumni are to decide the policies rather than the boards of management as at present and the latter will merely be instruments to carry out their wishes. Another case which shows the trend in some circles toward popular government.

A wedding of interest to Maine friends took place on Tuesday, May 6th in the Chapel of the Knights of Columbus building No. 4, at Camp Dix when Miss Hannah Moran of Bar Harbor was united in marriage to Lieut. Edwin D. O'Leary of Bangor, by the Rev. Fr. McDermott, army chaplain. They were attended by Miss Mabel McGuire and Lieut. E. Fitz Harris. The wedding party all wore the service uniforms of the U. S. Army. The bride and her maid were in the uniform of the army nurses corps and the bridegroom and his best man wore the uniform of their rank in the army.

Lieut. O'Leary is the son of Thomas A. O'Leary of Bangor. He is a graduate of Bangor High school and attended University of Maine. He left Bangor with Company G, at the beginning of the war and was promoted to a lieutenant while in France. Since his return to this country he has been stationed at Camp Dix.

The bride is the youngest daughter of Mr. and Mrs. John Moran of Bar Harbor. She is a graduate of the Bar Harbor schools and the nurse's school at New Rochelle Hospital, New Rochelle, N. J. She has been stationed at the Army Nurses' Corps at Camp Dix for nearly a year.

Colby-Bowdoin Football Game Off Next Fall

Bowdoin and Colby will not meet in foot ball next fall and the football lovers of Maine will be without this annual fall classic. The fact is that Bowdoin and Colby are at odds regarding whether Bowdoin should play at Waterville or Colby should come to Brunswick. The two colleges have been squabbling over the matter for about four months now. Neither side will give in. Colby, the other day, asked Bowdoin for a final decision in the matter regarding coming to Waterville. Bowdoin refused, so Graduate Manager R. L. Ervin has finally called the game off. The date of the game between the two colleges was Oct. 25 and now Colby is in negotiations with two other colleges that want the date.

Colby's issue of the story is that Colby as an S. A. T. C., played at Brunswick last year, and that Bowdoin should come to Waterville as is the custom of alternating each year. Bowdoin claims that the S. A. T. C. foot ball season does not count. Maine and Bates and Colby, according to Manager Erwin have all agreed to count it and as Colby played Maine at Waterville last season in the S. A. T. C., she will go to Maine this year. Bowdoin claims the faculty made a ruling calling for three home games and therefore Bowdoin cannot go.

SUNSET LEAGUE NEARING FINISH

Phi Eta Kappa defeated Phi Kappa Sigma at baseball last Tuesday—score 5 to 3.

WHEN you buy a pipe bearing the W D C trade-mark, you have the satisfaction of knowing that your money could not have bought a better pipe. The W D C is strictly American made. You can choose among a multitude of styles, sizes and grades at the best shops—\$6 down to 75 cents.

WM. DEMUTH & CO., New York
World's Largest Pipe Manufacturer

Look at the lines of this one. They flow, a delight to the eye, from the rich brown of the genuine French Briar bowl, through the sterling sheen of the ring, to the jet black lustre of the vulcanite bit.

University of Maine

The State University Maintained by
the State and General Government
