Colby Trimmed by Maine

Baseball Slowed Up by Hot Weather. Puts Maine Nearer Championship of State. Bowdoin Loses to Bates.

MAINE COLLEGE				
STANDING				
	Won	Lost	Pc	Won
Maine	4	1	.800	
Bowdoin	3	2	.666	
Bates	2	3	.333	
Colby	1	4	.200	

Maine won the baseball game at Alumni Field, Wednesday afternoon, beating Colby 5 to 4 but it came about thru a fluke. It was along in the 8th inning when Colby pulled a bone that cost them the game. After seven nearly hitless innings the Colby swatters finally got to Watson and with the aid of a couple of errors they secured a lead of 4 to 2, which looked good enough for a win. Bucknam pitching for Colby didn't have much stuff but good support had saved him in the critical stages. Wood the first man up for Maine in the eighth was put out but Sargent made first on an error. Then started the fireworks. Young started things by lining out a clean single but hopes wilted when Waterman forced him at second. With two men down and Sargent on third it looked good for Waterman to steal second and so he did. Then came the star bone. The Colby catcher hoping to nip Waterman at second for the third out shot a fast peg over second base where the second baseman or shortstop should have been but there was no one there to take the throw. The ball went on a line to center field while Sargent ambled home. Water-

ADDRESS BY PRES. ALEY AT JUNIOR CHAPEL

The annual Junior Chapel conducted by the Junior class as a part of Junior Week exercises was held in the assembly hall last Friday. Periods were shortened giving a full hour for the exercises. All the parts of the program were well carried out and Dr. Aley's address was the best heard at such an occasion for a long time.

Music by the University orchestra opened the program. Then followed a bible reading by Cecil C. Sweatt, class chaplain. Miles F. Ham, president of the class of 1920 gave the salutatory address welcoming the guests. He then introduced Dr. Aley as the speaker of the day.

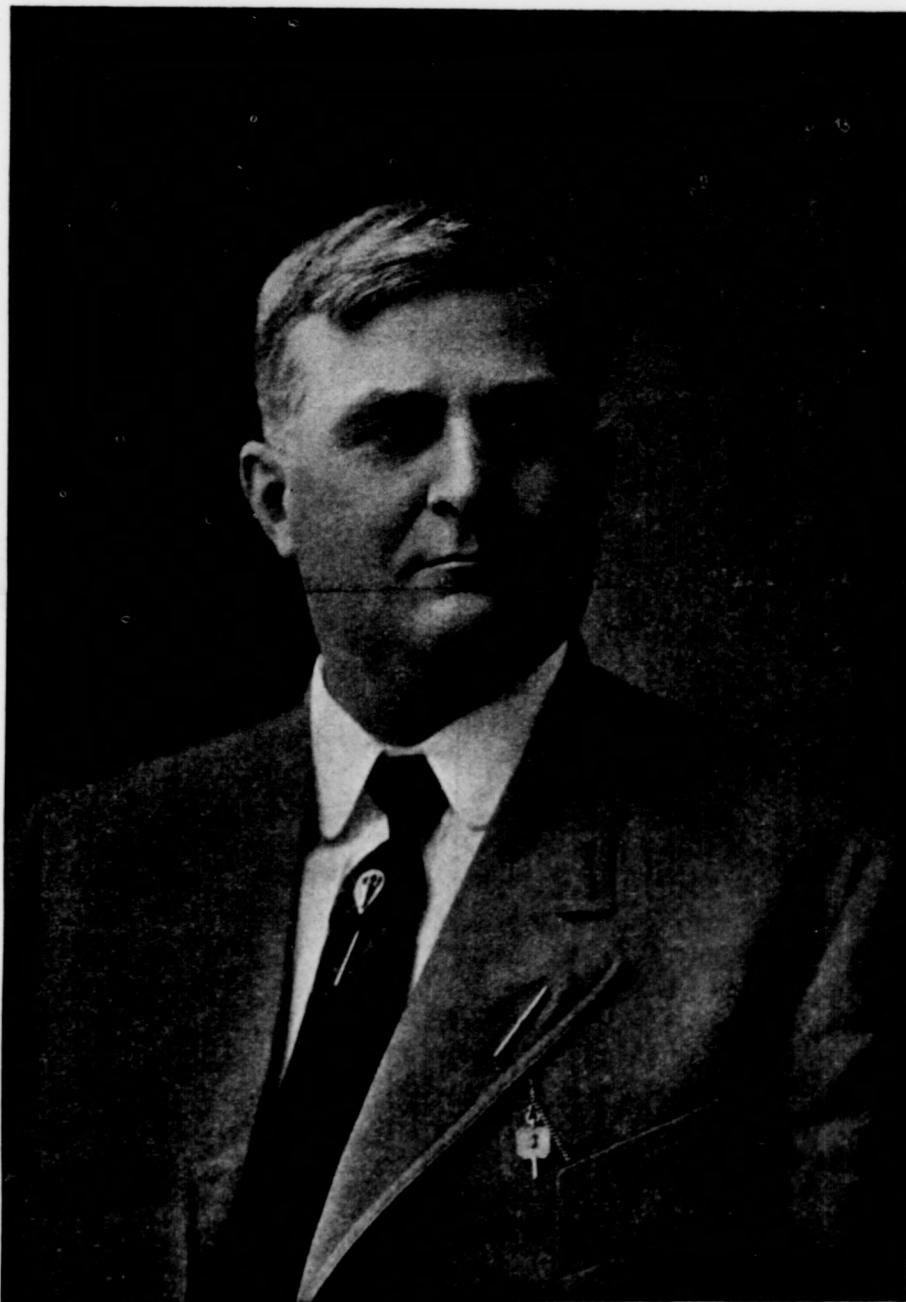

Dr. Aley's talk was especially valuable as it was the clearest and most forceful talk on Maine's condition and needs as has been heard since war retarded Maine's growth. He said in part after a formal introduction:

"The class of 1920 should be congratulated for having successfully passed thru three quarters of its career in spite of handicaps. Three most disturbing years have held the class together.

(Continued on Page Three)

Junior Week Successful

Junior Chapel, Promenade, Cabaret Show gave Pleasing Week-end to Students and Visitors.

DR. ROBERT J. ALEY

Junior Week events began Wednesday afternoon with a baseball game, Maine vs. Colby. Although the weather was scorching, everyone was there to cheer the team on, with the resulting score of 6-4 in favor of Maine.

Junior Chapel was held Friday morning at 11.05. The Seniors exchanged places with the Juniors on this occasion so that the latter might occupy the seats on the stage. Cecil Sweatt officiated as class chaplain, and Miles Ham gave the Salutatory Address. Then President Aley presented one of his interesting addresses, containing words of commendation and advice to the Juniors. As always, his remarks were extremely forceful and to the point.

On Friday evening the annual Junior Prom was given in the gym which was attractively and profusely decorated with fir boughs and many Japanese lanterns. There was a very good crowd in attendance; the music by

Pullen's six-piece orchestra was fine; dancing lasted until two o'clock; and everyone had a good time.

Saturday afternoon at 1.30 there was a track meet—Maine vs. Holy Cross. Maine won with a score of 66-60. Several of our men won their letters at this meet.

The baseball game scheduled for the same afternoon, Maine vs. Bowdoin was cancelled because of the rain.

In the evening the 5th annual Cabaret Show was given by the Track Club. A novel and snappy program given by local and professional talent was enthusiastically received by the audience. Great credit for this successful performance is due Mrs. Mason who directed the entertainment.

In spite of extremely hot weather, some rain, and the tragic accident was Thursday afternoon, Junior Week was a decided success for the class of 1920.

Maine Wins from Holy Cross

Track Meet Won by Close Score---Pratt Heaviest Scorer for Maine---Rain Prevented Large Attendance.

In a driving rain that made both track and field events a hardship, Maine defeated Holy Cross in the Dual Meet Saturday. Because of the heavy track, times were rather slow. Varsity track this year seems to be under the rain jinx for sure. No meet is complete without a flood.

C. E. Allen of Maine ran a fine race in the 440 yard dash with Pratt of Maine a close second. Barnard ran a great race in the two mile, being an easy winner.

Salmon of Holy Cross defeated Pratt in the 220 yard dash much to the surprise of the observers. Herrick easily won the mile.

Zip Waite came across in the low hurdles with Wood second.

Capt. Bill Allen easily capped first place in the shot put and took second in throwing the discus.

Houston won the pole vault with Wood second. With the outcome of the pole vault Maine won the meet.

SUMMARY OF TRACK EVENTS

100 Yard Dash—Foley, H. C., 2nd Salmon, H. C., 3rd Sewall, M. Time, 10 2-5 sec.

120 Yard Hurdles—Won by Cummings, H. C.; 2nd, Castle, M.; 3rd, Quinn, M. Time 18 sec.

1 Mile Run—Won by Herrick, M.; 2nd, Sullivan, H. C.; 3rd, White, H. C. Time 4 min. 45 4-5 sec.

440 Yard Dash—Won by Allen, M.; 2nd, Pratt, M.; 3rd, Maher, H. C. Time 55 2-5 sec.

2 Mile Run—Won by Barnard, M.; 2nd, Sullivan, H. C.; 3rd, Laughlin, (Continued on Page Four)

U. OF M. SADDENED BY DROWNING TRAGEDY

In the midst of Junior Week Festivities, the student body of the University was greatly saddened by the death of Charles Albert Ward, a Sophomore from Hartland.

Ward was swimming with several other students in the rear of the Kappa Sigma house when he suddenly went down. The boys did their best to help but it was too late. Nearly half an hour passed before the body was located. Clarke Perry, Jack Green and Dewey Couri did all in their power to revive him until the pulmotor arrived from Old Town. Dr. Tomlinson worked over Ward for an hour but all efforts were useless.

The cause of Ward's collapse is not known. According to reports from the other swimmers, Ward did not seem overheated when he went into the river. It is thought his heart might have been affected.

Mr. Ward was the son of Mr. and Mrs. Albert Ward of Hartland. He was a student of exceptional ability, a member of the Kappa Sigma and Alpha Zeta fraternities. He was ex-

The Editor-in-Chief is responsible for the editorial columns and the general policy of the paper.

The Managing Editors have charge of the news columns and general make-up of the paper.

The Business Manager with his assistants is directly responsible for all the business and finances of the paper.

EDITORIAL

This is the time of year when the personnel of student organizations is taken into perpetuate the life and activities of societies next year when present members will not return. Moreover, new officers are succeeding the old in the various groups and are assuming responsibility for the success of the body next year.

In view of the "turnover" that is taking place, a word directed to the outgoing officers should not be amiss. Give your successors all the aid you can before stepping out entirely. First of all, turn over the properties of the office in such shape that there need be no waste of time nor mistakes made deciphering records. Moreover, give the new leaders the benefit of your experience during the year in the shape of advice or explanation.

These may seem to be simple requests, too trivial to be stressed. If the suggestions were generally carried out, the caution would be needless; but only too frequently they are not observed. Officers are anxious to free themselves from the responsibility they have been under, and permit their successors to flounder around for a time "learning the ropes," when a word now and then would aid materially.

The outgoing men are always willing to render assistance when asked, but often they will not be asked about some subjects which they should make clear. They should take it upon themselves to point out a few matters of unfinished business which should receive immediate attention in the fall, and in general see that the new machinery gets to moving smoothly before their responsibility as retiring officers ceases.

Within a few weeks the present seniors will be alumni, the juniors will become dignified seniors, the sophomores will enter the ranks of upperclassmen and the freshmen will become rulers of underclass affairs. The members of the three upper classes can feel certain that their places will be well filled by those who succeed them. But who will carry on the activities of the freshmen?

The character and size of the class of 1923 depends to a large extent upon the efforts of the old students. There are many desirable high school students who would come to Maine if they only knew of her advantages. These opportunities may best be presented by the students of Maine. Write to some high school student; let him know you are interested in him and get him interested in Maine.

The "Campus" feels that it is expressing the sentiment of the entire student body and faculty of Maine when it tenders to the parents of Chester A. Ward '21 this expression of Maine's sorrow at the untimely death of a true son of Maine.

May 15, 1919

On Board the A.E.F. Press
Special
Breste, France.

Dear Friend Ed:

In view of the fact that I was one of the few members of the A. E. F. who were lucky enough to tie up as passengers on a special fourteen passenger train which is to tour the S. O. S., the American battlefields and the occupied territory on the Rhine during the next two weeks, I am sending you such stuff as I think might interest you.

The idea of this trip was conceived by the "Stars and Stripes" our A. E. F. newspaper, in order that in future years, would be journalists would not be fighting the Chateau Thierry battle on the Meuse Argonne sector. My associations with "Les Beaux Jours," the journal published by the students at the University of Poitiers, got me the trip.

We slipped noiselessly from the Gare Montparnasse station in Paris last night at 6:45 P. M. in the A. E. F. Press Special carrying two hundred newspaper men, men representing all ranks in the army from buck private to full Colonel, and every part of the country as well as all creeds and parties, and started on our 3000 mile journey. After an evening spent in swapping stories and playing poker, we all kicked in and slept the sleep of the happy. Upon awakening we looked out our windows and saw the beautiful harbor of Breste, with the two monster passenger ships, the "Lurawaiting to take home their human carthan" and "Imperator" in the distance go of the best soldiers in the world.

We were met at the station by 30 White Reconnaissance trucks, a tour of the city, spending some time on the docks and seeing the manner in which 1,000,000 men were disembarked so efficiently. We went thru Camp President Lincoln where the negro stevedores who played such an important part in the war lived, and also thru Camp Kerhuon, the Evacuation Hospital of 14,000 beds.

Our itinerary work took us then to the world famous "Pontanezau" of which you have heard so much. It is an immense camp over one and three quarters miles long and is composed of 16 areas, each area capable of housing practically 5000 men. Some idea of the size of the camp may be gleaned from the facts that over 21 million board feet of lumber, and 12,000 tons of sheet iron were used in the construction work. There is a narrow gauge railroad which connects all the kitchens with the central warehouses and supplies are easily available at all times. These kitchens feed

4,000 men in an hour and on one hour's notice their normal capacity of 5000 can be increased to 8000. There are three types of housing for the men, the wooden barracks, the steel buildings, and the tents, each one of which has a floor and a stove in it, and as the Colonel who accompanied us told us, "beaucoup wood" to burn. The men are very contented and happy there and at the present time have one of the best camps in the A. E. F.

The great difficulty caused by the mud has been overcome by the construction of 84 miles of duck boards by the engineers of the camp. A white duck board on a red field is the insignia worn by the permanent personnel. Camp Pontanazan is sure famous for its duck boards, so famous in fact that a Brigadier General of the U. S. Marine Corps, who commands the camp is called "Duckboard Butler."

We are leaving tonight for St. Nazaire where I spent a great deal of time with the Railroad Engineers the first of the war.

Bill Nash
1st Lieut. Engineer

CABARET SHOW DECIDED SUCCESS

A most successful cabaret show was given by the Track Club, Saturday night. The gym was prettily decorated with evergreen boughs and many Japanese lanterns. Tables were set for two and for four, and a novelty menu, consisting of such items as "Snake's Hips," "Boiled Seal," Mosquitoes Eyebrows," and "Ant's Breath," was served.

The program which was under the direction of Mrs. Mason, assisted by Miss Bird is as follows:

1. Orchestra—Whitehouse '19, leader
 2. Sketch—Miss Thompson '22, Purinton '22
 3. Costume Dance—Miss Bean '21
 4. Dance Grotesque—The McGuinty's—Girls of Mt. Vernon
 5. Dance—Miss Margaret Burns and Miss Bianca Farrar
 6. Solo Dance—Miss Virginia Odiorne
- Intermission
1. Jazz Babies—Miss Josephine Shanley and Miss Charlotte Odiorne
 2. Base Ball Sketch—Monte Cross '19 and Red De Rocher '21
 3. Specialty Singing and Dancing—The Bubbles Family—Girls of Balentine Hall
 4. Exhibition of Modern Dancing by Miss Virginia Odiorne and J. Harold Carr
 5. "M" Club Quartette
 6. Stein Song

Every act was so attractive that no special commendation can be given to any particular one.

After the performance the floor was cleared for dancing, which continued until midnight.

UNIVERSITY NOTES

Among former Maine men back for Junior Week were Voyle Abbott '18, John Ramsey '19, Raymond Chaplin, '20.

Ethel Packard and Nerita Willey were guests at Balentine during Junior Week.

Miss Bertha Langstroth was the guest of her aunt, Mrs. Kate C. Estabrook during Junior Week. Miss Langstroth is a graduate of Deering High School and has many friends here at the University.

Away down underneath you can bet Germany is mighty glad to get off as easily as she does.

AMERICAN UNIVERSITY CREATED IN FRANCE

The world has just seen the creation of an immense university, the A. E. F. University at Beaune in the Department of Cote d'Or, southeast of Paris, in the vicinity of Dijon. This university is headed by Colonel Ira L. Reeves, ex-President of Norwich University. The site is a former large base hospital, covering an area of over two square miles. Few of the buildings in the ten sections into which the campus is divided are of a permanent construction. A library of 40,000 books has been secured, and large, appropriate reading rooms built. The citizens of Beaune have furnished a set of club rooms, so that with the Y. M. C. A. and K. of C. canteens, the social life, and moral welfare of the students will be adequately looked after. Already 15,000 students have been enrolled, and it is expected that before long there will be at least 20,000 men. The college year is divided up into terms of three months each. Registration for the college is not compulsory, but once a man has registered he must finish his course. Every student is required to take at least three hours of lecture or recitation, and four and a half of study periods daily except Saturday and Sunday, when he is at liberty.

The University is divided into many colleges, some of which are the College of Medical Sciences, Music, Letters, Journalism, Education, Business, Law, Arts, and Engineering, Industry, and Trade. This enumeration gives some idea of the immense activity and complexity of this wonderful school. In the College of Agriculture are given courses enough for single good-sized colleges. The College of Science gives courses in astronomy, chemistry, biology, physics, geography, geology, botany, higher and lower mathematics, zoology and bacteriology. The College of Engineering, Industry and Trade, with which Professor Kenson of Brown is connected, has departments of every conceivable sort. The College of Letters is also large, taking up modern and ancient languages, English philosophy, history, political science, economics, etc.

There are many civilians connected with the University. Most of these men are educational experts, former teachers or professors, or Y. M. C. A. secretaries. These men serve as heads of departments or as administrative officers. The courses of study have been mostly drawn up by these men. Many of the actual teachers have been drawn from the army itself. It has been discovered that about 3000 officers of the A. E. F. had been college professors, and that thus almost every collegiate subject could be placed in the curriculum of the new university.

The privilege of attending the A. E. F. University is open to all who have had a secondary education. But for those men who have two years of college training other opportunities are offered. The French and British universities have opened their courses to these specially trained officers and men. Already about 7000 men have entered the French universities alone, while nearly 2000 have gone to the English universities. Certainly the men who go to world-famous institutions like Oxford, Cambridge and the University of Paris will have a rich addition to their college training and experiences. The suggestions these men will make when they return to their American Alma Maters will be

JUNIOR PROMENADE WELL ATTENDED

The Junior Promenade held Friday
evening in Alumni Hall was the most
successful social event of the year.
The whole affair showed that Maine
is beginning to get back to normal for
the dance was most like those held
three years ago. The gymnasium was
at its best, being attractively decorated
with boughs, Japanese lanterns, and
red and blue lights. The reception be-
gan about 8. In the receiving line
were President and Mrs. Alely, Dean
and Mrs. Stevens, Professor and Mrs.
G. W. Stephens, Mr. Miles Ham—the
president of the Junior Class.

Dancing began at 9. Pullen's or-
chestra of six pieces furnished excel-
lent music for the twenty-eight dances.
During the evening punch was served
and at intermission the freshmen
served ice cream at the various fra-
ternity booths.

The dance orders were gray leather
card cases and very well arranged.
The dance was well attended by all
three classes and there were many
visitors present.

A great deal of credit is due to the
committee and aids for their fine work
in decorating and in the success of the
whole affair.

(Continued from Page Two)

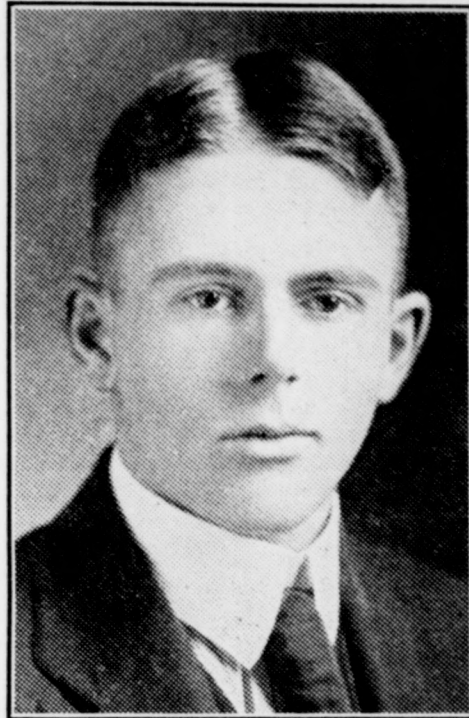

**AMERICAN UNIVERSITY
CREATED IN FRANCE**

both valuable and interesting. Some
of the institutions that have opened
their doors to our men besides the
three before mentioned are the Uni-
versity of Bordeaux, Trenoble, Dijon,
London, Glasgow, Edinburg, Marseilles,
Bristol, Manchester, Birmingham and
Warwick. The men have gone into
their new life with characteristic
American pep, and they are maintain-
ing college papers, sports, and all other
typical Yankee college institutions.

The German Chancellor says that
the peace terms will turn his country
into an enormous jail. If that is true,
litera land exact justice will be done
for the first time in human history.

(Continued from Page One)
**ADDRESS BY PRES. ALEY
AT JUNIOR CHAPEL**

"Every institution now faces new
problems and new conditions. It is a
period of unrest in the colleges as well

MILES F. HAM

as in the rest of the world. It is a
period of disturbance. We have been
compelled to depart from our highest
ideals—we would win the war first.
Great needs of the institution have
come up. A few of these needs are:

"First, the need of a return to stan-
dards. They have been partially for-
gotten in the past few years and should
be firmly re-established. Among these
is the standard of scholarship. The
main purpose of the university is the
training of scholars. In the past two
years results have been obtained by
short, direct routes and the student
has not known the route. The stan-
dards of behavior have weakened. The
war is in general followed by a period
of disrespect to law. Evidences of this
are all about us. It is the duty of the
college to bring back standards.

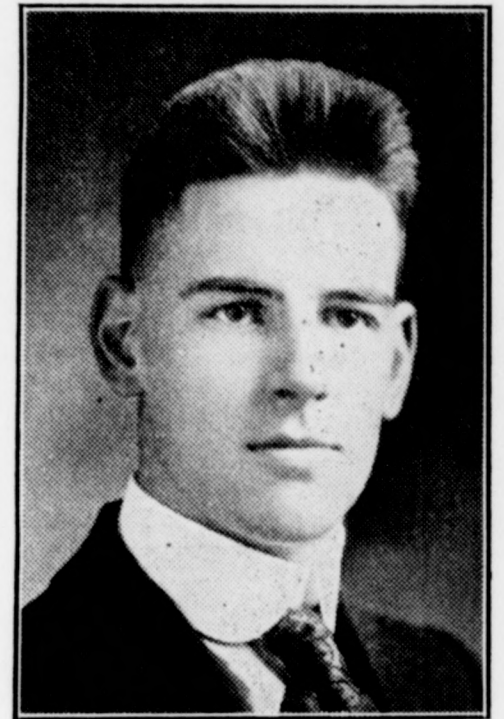

"Second, the need of the re-es-
tablishment of the standard of ideals and
the spirit of loyalty. There has been a
general disregard of loyalty by some
during the war. It has tended perhaps

to break down the loyalty of Maine.
People outside look only for places of
weakness. They have centered their
attention in negative and not positive
evidences. A greater spirit of coop-
eration is needed. The world war has
in general brought cooperation and it
should likewise be made an element in
the life of the institution. There should
be closer cooperation between the parts
of the university especially between
students and faculty. The attitude of
antagonism should be overcome.

"The duties of 1920 are (1) to un-
derstand present conditions—the world
is as the college. Straight thinking is
imperative, (2) to look courageously
into the future, help make Maine bet-
ter for you will be leaders in the life
of the institution, (3) be positive in
influence, not negative so as to retard
progress. Assure responsibility. The
two upper classes hold a great respon-
sibility and can do much to mold the
student body.

"Make Maine an institution to be
proud of."

The University Hymn was then
sung followed by prayer by Chaplain

CECIL C. SWEATT

Sweatt. Notices were read and the
Stein Song closed a most successful
chapel.

LARGE CLASS TO ENTER NEXT YEAR

Prospects of having a large enter-
ing class next fall are very good. At
present, indications from the large
preparatory schools show that a larger
majority than usual are planning to
enter college next fall. Maine will un-
doubtedly get her share of these stu-
dents.

There are a large majority of the
men returning from the service that
will resume their studies at Maine.
Men returning from the service this
year state that nearly all the former
students who have been in service are
coming back in large numbers.

Every indication points to a bright
out look for the University of Maine
in the future. With a large entering
class and a large number returning,
Maine will soon be back on a real
pre-war basis. Alumni and undergrad-
uates as well can render valuable aid
by interesting prospective students in
the institution.

MAINE TRIMS COLBY

man made home by a fast sprint evening up the score. With Small now pitching airtight ball for Maine it remained only for Maine to land the knockout blow on poor old Colby and it happened in the ninth. After Lawry had fanned, Jerry Reardon smashed out his third clean single of the day, stole second, and finally made third on an error by Heyes who dropped the throw. Then Johnny Walker did the hero act by placing a single in right field where nobody was handy to stop it and that busted up the old ball game and drove the Maine supporters frantic.

In the first seven innings Watson pitched airtight ball, fanning ten men, but then Colby jumped on him for a couple of hits and he yielded to Small who finished the game.

The feature of the game was the hitting of Reardon for Maine and Taylor for Colby, each placing three clean hits out of four trips to the plate. Heyes the thirdsacker for Colby was the star in the field, with five fast assists to his credit and no errors. There was considerable wrangling over the umpiring, but on the whole Tommy McCann showed good decision considering the intense heat.

The summary:

MAINE

	AB	R	BH	PO	A	E
Wood, lf	4	0	0	2	0	0
Sargent, 3b	4	1	0	1	0	2

U. OF M. SADDENED BY
DROWNING TRAGEDY

tremely popular with his fraternity brothers.

The remains were taken to Hartland accompanied by members of his fraternity, after a simple funeral service in Orono.

Joanna C. Colcord, Maine 1906, has recently written a book entitled "Broken Homes." The book review says the following concerning the volume:

"This new volume in the Social Work Series, edited by Mary E. Richmond, will be of the greatest service to probation officers, child protective agents, family social workers, and all others who are interested in a discussion of the more constructive side of the treatment of family desertion. It is original, readable, and above all, practical.

The Russian doesn't care what happens now. He knows it will be an improvement.
