## MAINE TIED FOR SECOND PLACE IN N. E. I. C. A. A. MEET

**Philbrook First Maine Man to Finish---  
Raymond Unable to Run Be-  
cause of Sickness**

**New Hampshire State Won Meet With Williams Tied with  
Maine for Second Place Much Credit Due  
To Grit of the Local Team**

The annual New England Intercollegiate cross-country run, which was held Saturday over the Franklin Park Course in Boston, was won with ease by New Hampshire State. Williams and Maine tied for second place, each team scoring 79 points. New Hampshire scored 30 points. The other teams in order of finish were: M. I. T., Worcester Polytechnic, M. A. C., University of Vermont, and Holy Cross. The following teams were entered but did not start: Bowdoin, Bates, Colby, and Brown.

Maine's little "flying midget," Raymond was unable to run on account of cramps, and his team-mate Philbrook finished in eighth place. Barnard and Capt. Emery, although they both had game legs, finished in fourteenth and fifteenth places respectively. Herrick finished in twelfth position.

Nightingale and his running mate, Leathe, both of New Hampshire State, crossed the tape in first and second places respectively. Nightingale's time being 30 minutes, 14 2-5 seconds, Leathe's 30 minutes, 21 seconds. Philbrook's time was 31 minutes, 25 seconds.

Nightingale and Leathe ran a well planned race. They took the lead at the start and held it throughout. Brown of Williams, who was considered their closest rival, finished in fourth position.

Maine ran a gritty race with all odds against her. If Raymond had been on the course and Emery and Barnard in better condition, Maine's score would have changed considerably and a second place would have been easily assured to them.

## University Minstrels Scheduled for Dec. 4

Coach Nolan has arrived and committees begin work

On Thursday night, December 4, the first annual minstrel show will be given by the University of Maine at Bangor City Hall. The primary reason of this show is to raise money to pay for the board track that has been nearly completed.

John J. Nolan has been hired as coach for this show. He has had 45 years experience in minstrel show work both as an actor and as a coach. Mr. Nolan comes recommended by the United Booking offices and the Keith's Circuit.

Mr. Nolan has arrived and the first rehearsal will be held Tuesday evening in the chapel. The show has been all planned out including music, dances, and jokes as well as costumes. There will be 30 girls, 8 endmen and a large number of men with about 50 different costumes. The coach will teach the

(Continued on Page Four)

## Successful Season is Ahead of Orchestra

Under the guidance of Professor Sprague, a successful season is predicted for the orchestra. A fine schedule, which will probably include trips to various towns, has been arranged. There have been but two rehearsals and the selection of players has not been made. To make this year's orchestra the greatest and best, Maine has ever had, more musicians are needed.

## Senior Skull Scholarship Cup has one Year to Run

**Has Been Won Twice by Phi  
Gamma Delta, Sigma Nu and  
Phi Eta Kappa Fraternities**

The scholarship cup which was presented to the college by the 1910 Senior Skulls has only one more year to run, according to the conditions under which the cup was given. The rules governing its award are:

"This cup shall be awarded at Commencement to the fraternity having the highest standing in scholarship during the two semesters which are previous to the spring semester preceding the award of the cup.

"The cup shall be awarded for eleven years, 1910-1920 inclusive. The fraternity to which the cup is awarded the greatest number of times shall be the permanent owner."

This cup may be held by the following fraternities:—Sigma Alpha Epsilon, Alpha Tau Omega, Beta Theta Pi, Sigma Chi, Phi Gamma Delta, Phi Kappa Sigma, Kappa Sigma, Theta Chi, Sigma Nu, Phi Eta Kappa, and Delta Tau Delta.

It was first won in 1910 by Beta Theta Pi and since that time it has been won successively by Alpha Tau Omega, Phi Gamma Delta (twice), Sigma Chi, Phi Kappa Sigma, Sigma Nu (twice), and Phi Eta Kappa (twice). If Phi Gamma Delta, Sigma Nu, or Phi Eta Kappa wins the cup this coming year, it will become the permanent property of that fraternity. In case a fraternity other than one of these three wins the cup next year, the cup will then go to the one of the four tying fraternities which has the highest standing in 1921.

## Freshmen in Technology Take Intelligence Tests

On Oct. 26 and 27 a new type of examination was inaugurated, when, in the College of Technology, 220 freshmen took intelligence tests. There were six tests, covering arithmetic, algebra, geometrical construction, physics, technical information, and psychology, each requiring thirty minutes.

These tests are beginning an experiment conducted by a committee of the Society for the Promotion of Engineering Education. The motive is to find out by actual statistics, whether the present mode of entrance examination is entirely successful, or whether the new plan will bring more satisfactory results.

The idea of the new type of examinations is to give them to the entire freshmen class in technology as soon as possible in the autumn. A large number of colleges are trying this plan, and it is estimated that 20,000 freshmen took the exams this year. The results are sent to a central bureau, where they are tabulated. During the four college years, each man's rank is sent at the end of a semester to this bureau. Eventually the statistics will prove whether the men's ranks would justify the abolition of the present type of entrance examination and the establishment of intelligence tests.

# Maine--New Hampshire Game Ended in Protest

**Decision Made by Referee in Favor of Maine by Score  
of 7-3---Protest Goes Before Rules Committee**

**Rule VI, Section 13, Article D in Rule Book Protects Decision of  
Referee---Coach Baldwin Says that New Hampshire  
Has Not Even a Prayer**

## Bangor Commercial Lauds Maine Football Team

This editorial comment in the Bangor Commercial on the Maine-Bowdoin game, is in keeping with the general sentiment of the newspapers throughout the state:

"Maine college football is over for the season, the University of Maine eleven clearly demonstrating its right to the championship title by winning from Bowdoin Saturday in a game in which the University players outplayed their opponents from the start. The Bowdoin team played gamely against a superior eleven, indeed against one of the best college elevens that the state has ever produced. The Maine team has had a fine season and we regret that its schedule has not permitted it to meet more of the big teams of the country for its showing against West Point, while but in the early stages of its development, demonstrated that Maine could give any eleven a good argument.

"Much credit is due to the Maine coaches who have succeeded in placing on a gridiron a team that knows football, is on its toes every minute and that plays hard but clean football."

## Rev. Clinton W. Wilson Gives Address in Chapel

Rev. Clinton W. Wilson, of the United Parish of Orono, spoke in chapel Wednesday on "Armistice Day." In part, he said: "We as Americans are accustomed to exaggerate, but it is no exaggeration to say that the day the armistice was signed was one of the greatest in the history of the world. Yesterday, in the British Empire, the people stopped for two minutes in a prayer of thankfulness for peace.

"We must remember the things which occurred in the war. We must remember the advance of the Germans on Paris, the anxious days following, how the Americans came and turned the tide, the surrender of Turkey, Austria, and finally Germany. The hearts of free peoples all over the world were made glad. Humanity might feel that God had reached out his hand to guide this deed. We had a revelation in the Armistice of the providence of God.

"Man-power alone did not win. The man who cannot find the providence of God in this belongs to the kindergarten class of reasoners. When you study nature, you find that the natural world science of causations is backed by God.

"To the question, Who won the war? the answer must be, Little Belgium, magnificent France, noble England, but under, above, and beneath, the hand of Almighty God.

"July 20, 1917, the Secretary of the Treasury reached his hand into glass container and drew out a cube with a number from the draft which would call men from all parts of the union.

(Continued on Page Four)

## COACH BALDWIN'S ACCOUNT OF GAME

The New Hampshire team was composed of the heaviest players which we have had to face this year and exhibited a fast, slashing style of play which was not hard to diagnose but was hard to stop on account of such tremendous strength and weight. However, Maine took advantage of New Hampshire's weaknesses and held at crucial periods of the game, finally winning 7-3. Four times, Connors, the New Hampshire fullback, tried for

a field goal. Three times the ball was either blocked or deflected by the Maine forwards but the one effort in the third period, made from the 15-yard line went true. Great credit for the showing New Hampshire made is due to Connors at fullback, Gadbois at left tackle, Graham at right guard and Bell at left guard. The bulk of prize should go to Connors who carried the ball about four out of five rushes in New Hampshire's offense.

With eight minutes to play in the final quarter and the score 3-0 for New Hampshire, Maine obtained possession of the ball at midfield and on a series of rushes carried it to New Hampshire's 12-yard line where Ginsberg threw a forward pass to Beverly, who caught the ball in the end zone, scoring a touchdown. Neavling kicked the goal, making the score, Maine 7, New Hampshire 3. There was still five minutes left to play. The play continued around midfield and with 12 seconds left New Hampshire kicked the ball over the Maine goal line and a New Hampshire player fell on it. Time was up at this juncture. Referee Ingalls declared a touchback and announced Maine a winner, 7-3.

Coach Cowell of New Hampshire and assistant coach Howe who is a member of the Central Board of Officials, protested Referee Ingalls' ruling

(Continued on Page Three)

## Hannibal Hamlin Wins From Oak Hall in Football

**Oak Hall Falls to Hannibal by  
Score of 3-0; Noyes's Kicking  
and Passes from Perkins to  
Dunn were Features of the  
Game**

Oak Hall lost to Hannibal Hamlin Saturday afternoon by a score of three to zero. In spite of the fact that it was a cold day and that two prominent prep schools were battling in Bangor, a fairly sizable crowd was gathered in the bleachers.

This game was the result of a recent discussion regarding the relative merits of the men from Oak and Hannibal Hamlin Halls. In less than twenty-four hours, eleven men from Hannibal were assembled under "Dick"

(Continued on Page Four)

## Maine to Have Candidates for the Rhodes Scholarships

Cecil Rhodes, the empire builder of South Africa, died and left a considerable part of his immense personal fortune to found scholarships at Oxford University for students of promise from the English colonies and the United States. His purpose was to create a better mutual understanding throughout the English-speaking world. He expressed in his will the desire that the recipients of these scholarships should be men of strong physique, intellectual power, and natural leadership.

These scholarships are apportioned among forty-eight states of the Union in such a way that thirty-two scholars are chosen each year. The scholarship is held for three years and draws a stipend of three hundred pounds or approximately fifteen hundred dollars a year.

The selection is made from the upper class students of the colleges and universities of the state. For the State of Maine the state superintendent of Education is the chairman of the appointing board. The choice is made on the college record of the candidates and such evidence as will convince the board that the candidate fulfills most completely the qualifications

(Continued on Page Three)

## Mr. Libby and Mr. Holstag Speak on Ark Welding

Mr. Libby, a member of the class of '98, now connected with the Electrical Arc Welding Company, of Newark, N. J., spoke before the Electrical Department of the University on the principles of the arc-welding machine.

Mr. Libby presented the University with one of these machines a while ago, but he was unable to speak about it until the present time.

He spoke at length on the history of the machine and the great advancement made in it in the last few years. At first it was not of much value, but now it is one of the most important electrical machines on the market.

At the conclusion of his speech, Mr. Libby introduced Mr. Holstag, the inventor of the machine.

Mr. Holstag went more into the details of the machine, explaining in length the principles of the outfit.

He also did some practical work with the machine so as to prove the

(Continued on Page Four)

## Bright Outlook for Men's Mandolin Club

Unusual interest is being manifested this year in the Men's Mandolin Club, and plans for a successful season are in full swing. As yet, no selections have been made as a result of the trials held during the past week, and Leader W. C. Avery is at present awaiting the arrival of music before further developments.

## Editorial

### MAINE AND THE PRESS

Maine Alumni are constantly asking why the University is not better represented in the columns of the New England newspapers. They see live news of happenings in other colleges and wonder where Maine is. They see athletic contests written up in distorted account unfair to Maine and are forced to take what they read as true. Take Saturday's football game for example. It afforded a great chance for our opponents to unfairly discredit us all over New England. Those who read the Boston and Portland papers know how this was done.

It is not so much a lack of correspondents at Maine as it is a lack of cooperation and interest beyond the "almighty dollar." The Press Club is the best solution to this problem. It is an organization composed of newspaper correspondents at Maine who meet at regular intervals and exchange information of advantage to the members and to Maine. In this way all Maine news is covered and each correspondent is benefited. Mr. A. L. T. Cummings, Agricultural Publicity Director, attempted to organize this club at the beginning of college this fall. When he called a meeting of correspondents, his earnest efforts were rewarded by an attendance of one man, a pretty poor showing. When another attempt is made to reorganize this club, show your interest in Maine by coming half way and show you deserve to secure the right publicity for Maine.

## Intercepted Letters

Tri Cupric Chloride House  
(Silicon Chapter)  
November 11, 1919

Dear Ma,

I suppose you have by this time seen in the Hermon Center Dispatch that the U. of M. is the whole works, in this, our rich and fertile state. Capt. Emery's real estate covers knocking Bowdones and the other academy teams for a Gould. Our fellows were quite peeved becuz they had no pool rooms along the course, so they could have enjoyed a little game and then would have time to win and change their clothes to see the invalids finish. Also Maine Nite and the championship game with Bowdones have happened since I last writ you. No need to tell you about those cuz their in every ones mind in the state. Only I mite say that I never saw so many people in two days since the Pendsytus County Grange met & celebrated at No. Hermon. We also had a bear mascot by the name of Apricots or some other fruit. He had insomina Fri. night over the coming game and Oakey O'Connor had to sleep with him. Oakey will be the bears trainer as soon as he recuperates.

Gee Ma I am in a Greak letter fraternity as you probably wood guess by

the heading. Osty and I had bids from all the fraternities here except ten and I guess where we bord downtown the other didn't see us. They took Osty too. We decided on this in favor of the other becuz of the grub and the made. Osty and I room together and it is a very pretty room except that we have a softmore from Squeedunkport in with us by the name of Axel P. Grease. He thinks he is Big King although he has only been here 1 yr. he can tell you more about anything or anybody (especially the inmates of the Female Dorms) than "Benny" Kirk can tell you about what to do when you find a little snow on your bed. Anyway he is just a fair example of what a bunch of Gaffers the class of 22 is. Honest Ma they are, for example an Editorial came out in the Campus (That's the Univ. weekly that I sent you) and suggested somebody paint the athletic field fence before the Bowsdone massacre. What did the softmores do but to get three or four FRESHMEN and brushes to match and make them apply the paint. In the past week they also bot a lot of caps made of a material which resembles a cross between Bull's Wool and Oakum. They must have cost them at .013¢ per gross and we were persuaded to buy them for 1 simoleon per each. We wodn't have bot them but "Hopkins" (he has a whole new suit now) said that Knuxated Iron had to be paid for and we were moved to tears because the softmores must have gone and eaten this dope without any apparent effect when it did wonder for Dempsey, Willard, Ciskey Craig, etc.

Well Ma we had a grate time at the Bijou Sat. night. Ken Coldbath bot the theatre so we paid our way in. The acts were all dry and sendimental except one with a woman all alone. She sang funny little songs about being lonesome and wanting someone to love her. She was (all bull to one side Ma) a peach. There was a lot of loud criticism of the show by those present. One Dizzy in a checkered suit and trick shoes got along fine until some softmore conked him with a nickels worth of penny goods which he had been feeding to his girl. He come out again and explained that he was really good if they wood only give him the chance. The only good thing he did was to throw away his excuse for a straw hat and the best thing he did was to exit. among loud calls of "Ice-Pack" etc.

Saw Aggie down there and took her into a Shop Soocy restaurant she hadn't ever been in one before so I ordered her a Bologna Chop Soocy with onions. I'd never had one before and never will again as after you pick all the little squirmy things and fagots in them all there is left is the bred & Oleo. Ma you shuld have seen the waitdress in there. She had hair just like Adenoids and tried to make eyes at a freshman who had his best girl in there. Ma it must have taken more cloth to make her an apron than it did to make little Herman's tent or Irving's sail for his boat. The freshman made a date with her when his girl was bending over to pick up a piece of chop-suey that she dropped out of

## Electric Self-Starters Used on Areoplanes

Electric Starters Enabled NC Flying Boats to Cross the Atlantic. Starters are Being Installed in all Aeroplanes

It is not generally known that the N.C. flying boats which not long ago accomplished the successful trans-Atlantic flight, were the first heavier-than-air machines in this country to be equipped with electric self-starters for each of their big Liberty engine motors.

The result of the Navy Department's decision to so equip its seaplanes undoubtedly aided the success of the enterprise, for the NC-3, lost in the sea and fog near the Azores, all her engines stalled, wet and cold, would never have been able to taxi into Ponta del Gada, under her own power without the assistance of mechanical means for starting her propellers.

This little device, the work of the Bijou Motor Appliance Company of Hoboken, N. J., consists of a small 12-volt electric motor operated by a storage battery connected through a geared reduction to a Bijou automatic screw drive. On the end of the screw shaft is cut an 8-tooth pinion which meshes with a larger gear on the propeller shaft. The starter will turn over the engine at 40 to 50 r.m.p. with a consumption of 100 to 110 amperes and a maximum of 1300 foot-pounds is available on the engine crank shaft, for breaking loose a cold engine. When the engine begins firing the screw drive automatically demeshes from the crank shaft gearing. The storage battery weighs 26 lbs. and has a rating of 24 ampere-hours—or sufficient to supply enough current to make 150 starts on one charging.

An interesting incident of the American trans-Atlantic flight was that all three planes carried extra propellers, intending if one should break to descend to the water, change propellers, and start off again. They depended on the starter to make this possible.

It is also said that the C-5 (Blimp) met such strong headwinds on her trip from Montauk Point, Long Island, to New Foundland, that the force of the wind stopped her propellers, and it was necessary to ascend to a higher level to avoid them, the starter with which she was equipped starting the engines while in mid-air.

Aeronautical navigation has undoubtedly received a progressive impetus by the development of devices capable of turning over the engine while in flight.

In the days before aeronautical starters were developed—which is to look back scarcely two years—it took three men to start an airplane. One man turned over the propeller while two others, grasping him by his extended hand, stood ready to pull him away from the tremendous sucking power of the fast revolving blades.

Airplanes of the future will no longer be forced to glide to doubtful safety when engines stall high up above the clouds.

A new aircraft engine starter, which fits on the non-driving end of the engine has just been developed. It operates substantially the same as the propeller end starter (described above) except that the gearing is fully enclosed and the starter projects less than five inches from the crank case.

The starter is entirely disconnected from the engine except during the time of starting. The gears cannot be meshed while the engine is running and a safety device is provided which prevents damage in case of backfire.

This starter is being built to fit the Liberty, Curtis, Thomas-Morse, and other prominent makes of engines.

the corner of her mouth. There was another man from college in there but I ain't going to tell his name cuz he had a college girl there and he missed the last car, and he also made a date with her. I had to give the man Osty's overcoat as I only had 57¢ to start with and Aggie said she guess'd she wodn't walk to Veezy that night, as she had on her mother's shoes and they hurt. If it hadn't bin for that we cood also have indulged in a sody on the car fare money.

Well Ma I must close and study my Physical Trainin lesen for to-morrer. Please send me another pr. of stockings, this pr. is all worn out.

Your loving son,

Tonsils.

P. S. Am sending Adneoids a bottle of Herpercide as you said her hair was geting short. T.

Twin engine dirigibles of the "C" and "D" classes, U. S. Navy, have adopted the Bijou starting system. The equipment has also been in use for some time in Blimps, using Hispano-Luna engines and has more lately been applied to nacelles fitted with the "all-American" Union engine.

## Alumni Notes

C. L. Perkins, U. of M. '18, of Newburyport, Mass., is at present employed in the government forestry service at Athens, Tenn.

Many University friends will be interested to learn of the approaching marriage of Miss Ella Wheeler to Mr. Frank Harmon on November 20. They are both graduates of the University of Maine.

E. A. Wilkins, U. of M. '19, has recently accepted a position as color chemist in the Technical Research Dept. of the Eastern Mfg. Co., at Brewer, Maine. With him is G. A. Cheney, U. of M. '19.

The engagement is announced of Miss Gertrude R. Bristol, of Foxboro, to former Lieutenant P. Bradford Crocker, University of Maine '19 also of Foxboro. Miss Bristol is a graduate of Wellesley, class of 1918. During her senior year she was a member of the house presidents' council and the Alpha Kappa Chi.

—Portland Argus.

E. C. Frost of New York, has purchased the celebrated Nickerson Farm in Readfield formerly owned by President Nickerson of the Mexican Central Railroad.

Mr. Frost's farm will be managed by Walter Willey, a former Kent's Hill boy and a graduate of the University of Maine, College of Agriculture. Mr. Willey has had considerable experience in farming in Aroostook county and comes to this position with splendid qualifications.

Mr. and Mrs. Allen W. Stephens '99 are visiting his parents, ex-mayor and Mrs. Stephens, Old Town. Mr. Stephens is our live-wire president of the General Alumni Association and is doing big work for his Alma Mater. He has designs on a deer out back of Milford.

'82 is getting to be quite cocky since Commencement, when they broke the record for attendance. They are making the other classes sit up and take notice. They say, "Wait until next commencement and we will show you something."

We are in receipt of the wedding announcement by Mrs. Richard Watson, Argue Independence, Kansas, of her daughter, Ethel Louise, to Donald Prescott Oak '11, of Tulsa, Oklahoma, a very successful oil promoter and son of Mr. and Mrs. Charles E. Oak '76 of Bangor. The Oak family is very strongly represented in our alumni body, and their friends extend many cordial and sincere congratulations to Mr. and Mrs. Donald Prescott Oak, of Tulsa, Oklahoma.

About 25 class secretaries met in Room 3, Alumni, last Saturday morning to meet President Stevens and Alumni Secretary Towner and discuss ways and means to promote the getting together of a large attendance of the alumnae and alumni at next commencement and all other commencements. Various devices were suggested and much useful information was given that will have a very beneficial effect in the near future. Our alumni are now fully alive to the necessity of getting and pulling together for the benefit and renown of our alma mater.

## Correspondence

Dear Editor,

The band is good this year; there is no doubt about it. They were right there when it came to putting the winning Maine fight and pep into the football team at Bates and Colby. All Maine men are proud of their band this year, but withal many Maine men have asked the question, Why doesn't the band have a few popular songs in its kit this year, as the old Maine

## It Is Said

THAT the Maine team should be congratulated on the showing that it made at Durham last Saturday.

THAT it takes a good man to put anything over on Coach Baldwin.

THAT the talk about there being six members of the rules committee at the game last Saturday is a mistake.

THAT New Hampshire's one man team was taken down a peg by the result of the game.

THAT Maine's green cross country team should receive a lot of credit by its showing in Boston last Saturday.

THAT Basketball is on the fence. Do we want it or not?

THAT the ineligibility rules are even cutting into the Campus Board.

THAT Freshman-Sophomore football game will be held Wednesday afternoon.

THAT plans are being worked out for a "Des Moines dance" in the gymnasium on the afternoon (2.30 p. m. to 6 p. m.) of Thanksgiving Day. A college orchestra will furnish the music while the jazzing will be made perfect by having the gym floor washed and waxed.

THAT while Ex-President Taft has written stating he will be unable to lecture at Orono this fall the M.C.A. announces that J. Stitt Wilson of Berkeley, California will speak here early in 1920.

## Casts For Y. W. C. A. Plays Chosen

The final tryouts have been held for the Y. W. C. A. plays that are to be given not far in the future. So many girls tried out that Professor Harriman found it hard to select the girls that would best suit the parts. The rehearsals have already begun, with Professor Harriman as coach. The cast of characters for the two plays is as follows:

### SET OF TURQUOISE

Count.....Avis Strout '23  
Beatrice.....Mabel Peabody '23  
Page (Miriam).....Marjorie Mercier '23

### SARAH'S YOUNG MAN

Mr. Moggridge.....Clara Whalen '23  
Miss Fielding.....Anna Harden '21  
Sam Sloleaf.....Ruth Sullivan '21  
Mrs. Moggridge.....Virginia Averill '23  
Araminta.....Bernice Nicoll '23  
Sarah Tibbs.....Virginia Chase '23

## The Week of Prayer is Observed by Girls

The week of prayer appointed by the national Y. W. C. A. was observed by the girls on the campus from November 9 to 15. The Balentine girls were divided into several groups, which met every night at ten o'clock for short services. The scripture was read. This was followed by a short service of prayer for the extension of the work of the Y. W. C. A. and Y. M. C. A. throughout the world. The leaders of the groups in Balentine Hall were Mrs. Hills, Rena Campbell, Doris Twitchell, Margaret Harding, Clara Whalen and Elsie Perry. At Mount Vernon the girls met each night in Mrs. Estabrooke's room for their services.

The Y. W. feels that these meetings have been of great benefit to the girls for they have caused them to set aside a few minutes each night for the serious and spiritual things of life.

The majority of the dorm men marched to the station at Orono Friday noon to see the football players off to New Hampshire.

Band of by-gone years used to have? Every Maine man loves to hear the old Maine songs that the band now plays, but it would be greatly appreciated by many if the band would add a few snappy, new, popular songs to its already appreciable supply of songs.  
B. W. D.

(Continued from Page One)

Maine-New Hampshire Game  
Ended in Protest

on the touchback, claiming a touchdown for N.H., as Reardon of N. H., who had fallen on the ball behind the goal line, was behind the New Hampshire kicker when the ball was kicked. Coach Greene of Bowdoin, who had been sitting on the N. H. bench throughout the game also assented that a touchdown had been made by New Hampshire. Referee Ingalls would not change his decision and at a meeting later on, at which the three officials, Coach Cowell of N. H. and myself were present the whole affair was talked over. We all admitted that Reardon was behind the N. H. kicker when the ball was kicked that the ball rolled over the goal line without having touched any player and that then Reardon fell on the ball. The following rules were then read: Rule 6, Sec. 15. "It is a touchback when a kicked ball (other than one from kick-off, free kick, or one scoring a goal from the field) goes over the goal line before being touched by a player of either side." Rule 6, Sec. 13. "A free kick is any kick when the opponents are restrained by rule from advancing beyond a certain point before the ball is put in play and includes kick-off, punt-out, kick from a fair catch, and place-kick for goal after a touch-down."

Coach Cowell said he would not be satisfied until the Football Rules Committee passed judgment on the play, as he had been working hard all the week coaching his team on just that play and that the play had been allowed in the big college games of the middle west on several occasions. The U. of M. stands for honest sport and will return the ball to N. H. and concede the victory to her, if the Rules Committee agrees that the play should score a touchdown. In conjecture I might state possibilities which such a decision would allow it: A team has the ball on the opponents one yard line and kicks the ball across the goal line and beyond the end line. A player, who was behind the ball when it was kicked falls on the ball. A touchdown would result. This would necessitate the opponents taking their position on defense very differently from what they do now. One man, at least, would have to play far back of the end line in order to recover such a kicked ball before an attacking on-side player might fall on it.

How absurd that would be!

Should the football rules committee report an adverse finding, the football will be returned to New Hampshire, and I shall be pleased to have notice put in the newspapers, for my players played a defense for this play exactly as I have coached them, and if my quarterback was wrong in allowing the ball to roll across the goal line when he could have fallen on it in the field of play, then I am wrong also, and assume all blame. On the other hand, I shall not concede a score to a team coached to score on an illegal play.

In closing, I want to state that Maine defeated a good team in New Hampshire State college, and I want to extend praise to that college for the fine game it put up; but our boys deserve even more praise for coming from behind, and by exhibiting wonderful team work, winning by the score of 7 to 3. One player on the Maine eleven who loomed up in an extraordinary manner, was Beverly at left end, who really was the hero of the game. Great credit goes to Ginsberg, who made an accurate pass under such trying circumstances.

The win is the result of the wonderful spirit of the whole Maine eleven who gave all they had for Maine.

JAMES BALDWIN, Coach.  
University of Maine Football Team.

Summary of game:

New Hampshire State	University of Maine
Leavitt, le.....re, Small	
Gadbois, lt.....rt, Quinn	
Bell, lg.....rg, Hussey	
Harvell, c.....c, R. Greene	
Graham (Capt.).....lg, Lunge

Maine to Have Candidates for the Rhodes Scholarships

set forth in the will of Cecil Rhodes. For some years past the University of Maine has not been represented among the candidates for the Rhodes scholarships. The reasons for this no longer exist and from now on a select number of the leading men at the university should try for these appointments. It is an honor to be a candidate even if one fails of appointment. The honor men of each year should give careful consideration to these scholarships and follow the best available advice in becoming candidates. It is a duty which they owe not only to themselves but to their state and to the cause for which the scholarship was established.

(Continued from Page One)  
Bright Outlook for Men's Mandolin Club

At the recent trials a great deal of excellent material has manifested itself. Nevertheless, more men are needed and all men who play the mandolin are urged to report at the trials, which are to take place in the near future. If this call is heeded, a club that will rival any other organization of its kind in the state will doubtless be produced.

## M. C. A. STARTS ITS BIG MOVIE PROGRAM

On Thursday evening, Nov. 20th, the M. C. A. will begin its all winter weekly movie nights by showing in Alumni Hall the feature film "Bill Apperson's Boy" with Jack Pickford as the star. The program will start at 6.30 p. m. (sharp) and the reels will be run off by eight o'clock. An orchestra under the lead of "Doc" Turner will furnish music while the movie machine will be in charge of Thurston '20. There will be no charge as admission—so follow the crowd.

Round Table Holds  
Gymnasium Dance

The college gymnasium was the scene of a very informal but enjoyable social dance Tuesday from 3 to 5:30. As Tuesday was a holiday, there was a good crowd in attendance for there were no classes to prevent people from enjoying themselves and at the same time helping the Round Table. Music was furnished by "Opie" Turgeon's orchestra. The proceeds of the dance will go to swell the treasury of the Round Table, which is always being depleted because of the aid that it is always willing to give the girls in all their enterprises.

Army Victory Button is  
Ready for Distribution

The United States Army Victory Button is ready for distribution this week. It is designed for use as a lapel button to be worn on civilian clothing, and one will be issued to each man upon discharge and to those who have already been discharged.

"Application for the button should be made to the nearest army station—either camp, post or recruiting office," says a War Department statement. "The applicant should bring with him his discharge in order that proper notation may be made thereon. If application is made by mail, the discharge should be sent or a true copy thereof certified as such by any officer authorized to administer oaths. The button will be oxidized silver for all men who were wounded in action and bronze for all others."

Miss Colvin Speaks  
at Mt. Vernon House

A large meeting of the Y. W. was held at Mount Vernon House and about fifty women were present. Mrs. Estabrooke presided and introduced as speaker one who needed no introduction, Miss Colvin of the history department.

Miss Colvin spoke for a time on the convention that she recently attended in New York. This convention was held for six weeks and was composed of carefully selected women doctors from nearly all the countries of Europe except the Central Powers. Miss Colvin attended the last ten days of the conference, when it was opened up to the women that were not doctors. These women from Europe and also from South America and Asia met in New York to discuss ways by which better health could be brought to the women of the world, for they consider that physical health is the basis of moral health. Besides discussing these questions they formed a congress that is to be composed of delegates from all the women's societies that are national. This congress is to carry on the good work that the convention has mapped out. Miss Colvin considered that this convention was one of the greatest things that has ever been done for the women of the world, for as a result of it great things are being planned for the future.

Many Maine Alumni  
Back to Bowdoin Game

Among the well known alumni who were on the campus Saturday the eighth for the Bowdoin-Maine game, and who were as young and noisy (enthusiastic we mean) as in the old days, were John M. Oak '73, Bangor; Geo. H. Hamlin '73, Orono; James M. Bartlett '80, Orono; Mrs. C. J. Dunn '81, Orono; S. J. Bussell '82, Old Town; C. C. Garland '82, Old Town; Mayor A. J. Keith '82, Old Town; Dr. J. H. Patten '82, Ellsworth; Leslie A. Cutter '84, Bangor; Judge B. E. Clark '87, Bar Harbor; Major E. J. Kelley '90, Bangor; Hosea B. Buck '93, Bangor; Lieut. H. M. Smith '93, Bangor; J. A. Gray '94, Old Town; Albion D. T. Libby '97, New York City; Allen W. Stephens '99, New York City; Allan L. Bird '00 Rockland; Wilkie C. Clark '00, Waterville.

The class secretary of 1915 reports thus early that 58 of its members will be back next commencement to celebrate their fifth anniversary. That is a good start for 1920. What is the next class to report?

Lapsed War Risk  
Insurance Reinstated

Discharged soldiers, sailors, and marines who have dropped or cancelled their insurance may reinstate it within eighteen months after discharge without paying the back premiums. All they will be asked to pay will be the premium on the amount of insurance to be reinstated for the month of grace in which they were covered and for the current month.

For example, if a man dropped \$10,000 of insurance in January, 1919, and applies for reinstatement the 1st of October for \$5,000, all he will have to pay will be the premium for January (the month of grace) on \$5,000 and the premium for October on \$5,000. In case he desires to reinstate the entire amount that he formerly carried, \$10,000, his premium payments will be the January and October premiums upon \$10,000. He will not have to pay premiums in either case for the intervening months.

If application for reinstatement is made promptly, the certificate of the insured concerning his state of health (which must be as good as at the date of discharge or at the expiration of the grace period, whichever is the latter date) will be accepted. If the application is not made within the prescribed time limit, however, the formal report of examination made by a reputable physician must accompany the statement of the insured concerning his health.

Conversion of the reinstated term insurance into permanent United States Government Life Insurance is also provided for in the new ruling, under advantageous conditions.

Full particulars, application blanks, etc., may be had by corresponding with the Insurance Officer, Headquarters Northeastern Department, Room 718, 99 Chauncy Street, Boston, Mass.

## Campus Notes

Miss Nina Lovell of Eastport is spending the week-end with Miss Lucy Kilby.

Miss Eleanor McCusker entertained her brother, Joseph A. McCusker Sunday evening. Mr. McCusker came down from Boston for the Maine-Bowdoin game.

Miss Leona De Beck entertained her father, Dr. De Beck of Franklin at dinner Thursday.

The Misses "Joe" McCusker and "Polly" Smith were entertained at dinner last Tuesday at the Bangor House.

A meeting of the sophomores of Hannibal Hamlin and Oak Halls was held in the recreation room of H. H. on Thursday evening. The ancient order of the "Yellow Dogs" was revived by a few of the charter members of that organization Friday evening. The headquarters for this organization was on the first floor of the south section. A large number of freshmen went through the impressive ceremony of the first degree; some even took the second degree. This was really a "get together" affair, which served to bring a lot of dorm men together and to get them acquainted with each other. The fact that every one seemed to enjoy himself proved it to be a success.

A novelty in chapel exercises was introduced Thursday when the quartet consisting of Alice Duncan, Minerva French, George Renwick and Leon Orcutt rendered a selection.

The marriage of E. Milton True '19 of Litchfield, Maine, and Miss Helen A. Ring, of Orono, will take place Wednesday, Dec. 3, 1919. Mr. True is a member of the Delta Tau Delta fraternity. He left college at the declaration of war with Germany with other of our students to go overseas.

Mid-semester ranks will be ready on or about November 26. Notice as to the exact date will be given in chapel. Ranks are not to be obtained from the instructors, or from the University office, but from the deans of the respective colleges. The freshmen should secure their ranks from Dean Hart.

The Spectator Club met on Tuesday evening, Nov. 11, with Royden L. Hammond, Main St.

The Annual Member Convention of the Y. W. C. A. was held last week in New York City. Miss Gertrude Peabody was present and will give a report of her trip at an early date. This convention is attended by student representatives from the different fields of the United States.

AMERICA is fast becoming a pipe smoking country. Every year more and more men are realizing the comfort, the satisfaction, and the economy of the pipe. And by natural selection, more and more men are smoking W D C Pipes. This is not chance. It is because W D C Pipes offer the utmost in pipe value. Honest French briar, seasoned by our own special process make W D C Pipes break in sweet and mellow. Coupled with that is a self-governed body of pipe makers whose sole object is to fashion pipes which are without peers in all the world. And it has been accomplished. Ask any good dealer.

#### Hannibal Hamlin Wins from Oak Hall in Football

Harriman to clash with eleven of sturdy Oak's finest specimens of manhood. As a direct result of this grid-iron skirmish, there are twenty-two men in the dormitories who walk with a pronounced limp, and the H. H. men are entitled to carry their heads a trifle higher than their neighbors because of the fact that their left tackle, Noyes, kicked a field goal from the twenty-five yard line following a brilliant forward pass from Perkins to Dunn. This flashing display of team work and individual ability took place in the second period and completed the scoring for the game.

Oak Hall won the toss-up and the game began promptly at two o'clock, when Noyes kicked off to Oak's right end, Maxim. Hannibal's speedy center, Sherman, nailed the runner on the thirty yard line and the play began in earnest. The Hannibal men had a slight advantage over the Oak players in weight but this condition was removed by the fact that Oak had more men in condition who had been aspiring for varsity honors. Hannibal's backfield was very heavy, having Harriman as full-back. But the line was slightly lighter than the line of the opponents, the center weighing scarcely more than one hundred and twenty pounds. The weight on Oak's side was evenly distributed on its line and

backfield.

The features of the game, besides Noyes's superb kicking, were two forward passes from Perkins to Dunn. Other men who featured were Noah, Hannibal's quarter back, McMullen, O'Connor, and Pease. Hannibal's backfield showed more team work than the opposing team but Oak seemed to be more successful in gaining ground by line plunges. Oak hall was penalized four times for off side plays.

The line up:

HANNIBAL HAMLIN	OAK HALL
Bragdon, re	le Duffy
Bishop, rt	lt Weir
Craig, rg	lg, McNamara
Sherman, c	c, R. O'Connor
Wood, lg	rg, Rogge
Noyes, lt	rt, Synan (Capt.)
Dunn, le	re, Maxim
Noah, qb	qb E. O'Connor
Perkins, lhb	rhb, Williams
Powitt, rhb	lhb, Pease
Harriman (Capt.)	fb, McMullen

Hannibal Hamlin 3, Oak Hall 0.  
Goal from field, Noyes. Referee and

umpire, Purington. Time four ten minute periods. Head linesman, Emery.

Substitutes: Hannibal, Varney for Bragdon, Malnereka for Bishop, Lico for Craig, Harriman for Sherman, Husted for Harriman; Oak, Carucci for Maxim, Bonchard for Williams.
