THE CAMPUS

The University of Maine

.....
A Public Institution Maintained by the State and
General Government
.....

Undergraduate Courses

are: Classical, Latin-Scientific, Scientific, Chemical, Agricultural, Preparatory Medical; Civil, Mechanical and Electrical Engineering; Pharmacy (4 years), Pharmacy (2 years); Short and special Courses in Agriculture; Military Drill.

Expenses

for university fees, board and rooms, \$176.50. Loans covering tuition, are provided for needy students. A new dormitory for women. Rooms in the dormitories are free.

The School of Law,

at Bangor, offers a course of three years. The tuition charge is \$60. Three resident, and six other instructors.

The Faculty

includes 52 names; students number 355.

The Equipment

includes 18 buildings large and small, 9 well equipped laboratories, the museum the herbarium, the shops, and library.

For illustrated catalogue, and circulars, address

A. W. HARRIS, President, Orono, Me.

For Students' Rooms

Need a Toilet Set? Need a Slop Jar?
Need a Cuspidor? Need a Lamp to
study by? You'll find the right thing
here at the price you want to pay.

EDITORIALS.

IT is to be regretted that there is no effort being made at this university to develop the literary talent which certainly must exist among the more than three hundred students gathered here. There is hardly another college of this class in New England which does not either publish a regular literary magazine, or brighten the pages of the college newspaper by inserting stories and sketches written by students. The time is not far distant when the growth in the Classical and English departments and the desire not to be behind similar institutions on this point will

necessitate the establishment of a literary periodical at the University of Maine. To make such a venture a success, means should be devised at once to bring out the latent literary talent which surely must exist here. How this may best be done, we cannot say,—we simply point out the need. But we can suggest something which would certainly tend towards this end, and that is the contribution of short stories, written by U. of M. students, for publication in THE CAMPUS. We are confident that we are not overthrowing the purpose of the founders of the paper, or detracting from its usefulness, when we make such a request. THE CAMPUS is, and always should be, the news medium of the students of this institution, yet we doubt not that both students and alumni would be pleased to see our news columns brightened with stories and sketches by home talent. We hope that any student who has ever written articles of this nature for high school or academy papers, and even those who have never tested their abilities yet have an inclination for such work, will not hesitate to contribute at once to the editors of THE CAMPUS any literary work which might be of interest to the readers of its pages.

THE baseball season is upon us, and every pleasant afternoon finds a large number of enthusiastic students gathered on the athletic field to see the team practice. There seems to be a bright and a dark side to about everything in this world, and certainly the 1900 baseball season at this university is not likely to establish an exception. So far as the quality of the team is concerned, we have every reason to congratulate ourselves, for in spite of the fact that the athletic field was

exceptionally late in getting into shape for outdoor practice, the men have shown up remarkably well in the two games which have been played and won. Judging from the work of the team up to the present time, it is certain that their work this year may reasonably be expected to equal if not excel the brilliant record made by Capt. Palmer's men last spring. But the two victories already won, and our hopes for the future, are but the silver lining to the black cloud of financial embarrassment which is hampering the management of the team, and which bids fair to ruin its chances of success. It takes money to run a successful baseball team,—a statement as old as the game itself, yet one, the truth of which it seems remarkably difficult for college students to grasp,—especially U. of M. students, this spring.

There are but two sources of income for the support of the team, the gate receipts from the games and the assessment upon the students. It is not worth our while at this time to enter into any argument as to the necessity for college athletics, the present fact is that we have two athletic teams which are in need of support. Both are teams which every U. of M. man should be proud of, and towards the support of which every loyal student should do his share.

So far this season the gate receipts from the ball games played on the campus have not paid expenses. Adverse weather conditions have necessitated the cancelling of two games and the postponement of a third, thus making the financial problem confronting the management at this time an exceedingly difficult one. But as bad as the present condition is, there is still a way to relieve it, and that is for the large number of students, who, not because it was necessary but for selfish reasons, have failed to pay the spring assessment, to come forward at once and do their share in supporting an enterprise which does just as much towards raising the status of U. of M. graduates as

excellence in scholarship ever did, or ever can do.

And there's another side to the question other than as to whether athletics are worth supporting. At a college meeting held on Friday morning, May 4, the manager of the baseball team made the statement that unless better financial support was given at once by the student body, all games scheduled for Orono would be moved to Bangor, where the increase in gate receipts would help the present difficulty. Now just stop for one instant and note what this means. It means that because some forty per cent. of the students of this university have not seen fit to pay an assessment which should be considered just as much a part of one's expenses as the tuition fee, the other sixty per cent., who have paid this assessment, must be deprived of attendance at the games, or go to the inconvenience and expense of attending them in Bangor. We ask those who have made this decision a necessity, if this is right? Is it not rather a positive wrong, that they who have perhaps denied themselves in their loyalty to their college, should suffer thus because of your selfishness, or lack of college spirit, call it which you will?

WE meet on all sides expressions of dissatisfaction among the students that there is to be no Farmer's Field this spring. This holiday has in the past been one of the pleasantest of the year. Its observance has not only brought large numbers of the farmers of Maine into touch with the institution which they help to support, but it has furnished the best opportunity of the year for friends of the students and university to visit the college and spend a day in inspecting the buildings and equipment of the institution, and in social enjoyment. For a number of years the committee of arrangements have very considerably fixed the Field Day on the date of a baseball game, with the result that the

gate receipts from this game have been the largest of the season. The wisdom of the change to be made this year is not to be questioned, when one considers the original purpose of the day, yet for both financial and social reasons, it is most undesirable from the standpoint of the student. It is to be hoped, therefore, that unless the Farmers' Institutes of this year are clearly more helpful to the farmers than the field day of the past, the experiment may be abandoned at once.

SPECIAL NOTICE.

Students and alumni, all who are not now subscribers to THE CAMPUS will do well to take advantage of the following special offer. THE CAMPUS will be sent for the remainder of this school year and next year for one year's subscription, \$1.50. This will include the special Commencement number.

Send your name and address to W. R. Bartlett, Bus. Mgr.

The date of Ivy Day has been changed from May 18 to May 25.

A committee of the faculty has been appointed to arrange for appropriate exercises for

Memorial Day.

Roy E. Strickland, '03, has returned to his home at South Paris.

Katherine P. Cram, metropolitan secretary of the Student's Young Woman's Christian Association, has been visiting the campus recently.

Prof. K. P. Harrington will lecture in the Universalist church, Oldtown, on May 20.

L. B. Russell and C. W. Margeson are employed in the construction of a railroad siding at Frankfort.

C. A. Mitchell has received the appointment as census enumerator at Newfield.

E. I. Davis, '01, is road man for E. B. Clark, who is in charge of the Bangor division of the Maine Topographical Survey.

E. M. Wharff, '03, was confined to the house with a severe cold last week.

Prof. A. E. Rogers was in Lincoln, April 27, where he acted as judge in a debate between Lee Normal Academy and Mattanawcook Academy of Lincoln. Lee Normal Academy won.

F. C. Mitchell, '00, has accepted an invitation to deliver a memorial address at Newfield, Me., May 30.

H. W. Sewall, '02, has returned to college after a several weeks' absence.

A number of the students attended the lecture given by Dr. Nathaniel Butler, of Colby college, at Oldtown, April 29.

S. P. Shaw, '01, was a visitor on the campus a few days last week.

The society of Iota Phi was recently photographed at Heath's. Phi Kappa Sigma went to Ramsdell's for their likeness.

George P. Larrabee, '02, recently passed in a satisfactory manner the examination before state board of pharmacy and is now a registered drug clerk.

Arthur Towle, '02, has left college and gone to Ripley, Maine, where he has obtained employment.

C. A. Stilphen, '01, has returned to college, having been at work since the beginning of the term.

At a business meeting of the Glee and Instrumental clubs, held last week, it was voted that the clubs should not give the Commencement concert. This action was deemed necessary owing to the fact that the instructor of the Glee club and the leader of the Instrumental club have both left college and with these men absent it would be a particularly difficult task to work up an entirely new programme which it would be necessary to prepare. W. N. Cargill, chairman of the concert committee, has received applications from a number of sources, desirous of giving the concert.

H. J. Hinchliffe, '02, of Worcester, Mass., is officiating as chapel organist, which position he will probably hold next year. Mr. Hinchliffe is a young pianist of much promise, and he will doubtless fill the position in a satisfactory manner.

At a recent meeting of the senior class it was voted that the senior banquet be held this year in Castine. The idea was suggested some time last winter that it would be a good idea to charter a steamer and go down Penobscot

bay to some resort and hold the banquet. The idea was worked up and resulted in the above action. The members of the class hope to make it a very brilliant event and it may result in an established custom at U. of M.

Prof. G. M. Gowell and Prof. W. M. Munson were at Northport last week where a special school of horticulture was held. Prof. Gowell spoke on Roots, Tillage and Drainage; the Use and Abuse of Fertilizers. Prof. Munson's remarks were on Flowers and Fertilization; Injurious Insects and Fungi. Prof. Munson also gave a special talk on Insects.

G. W. Stickney, '00, F. W. Kallom, '02, and W. G. Jones, '00, were on the cast of characters in the operetta "At 6's and 7's," given in Orono town hall last week by the High school.

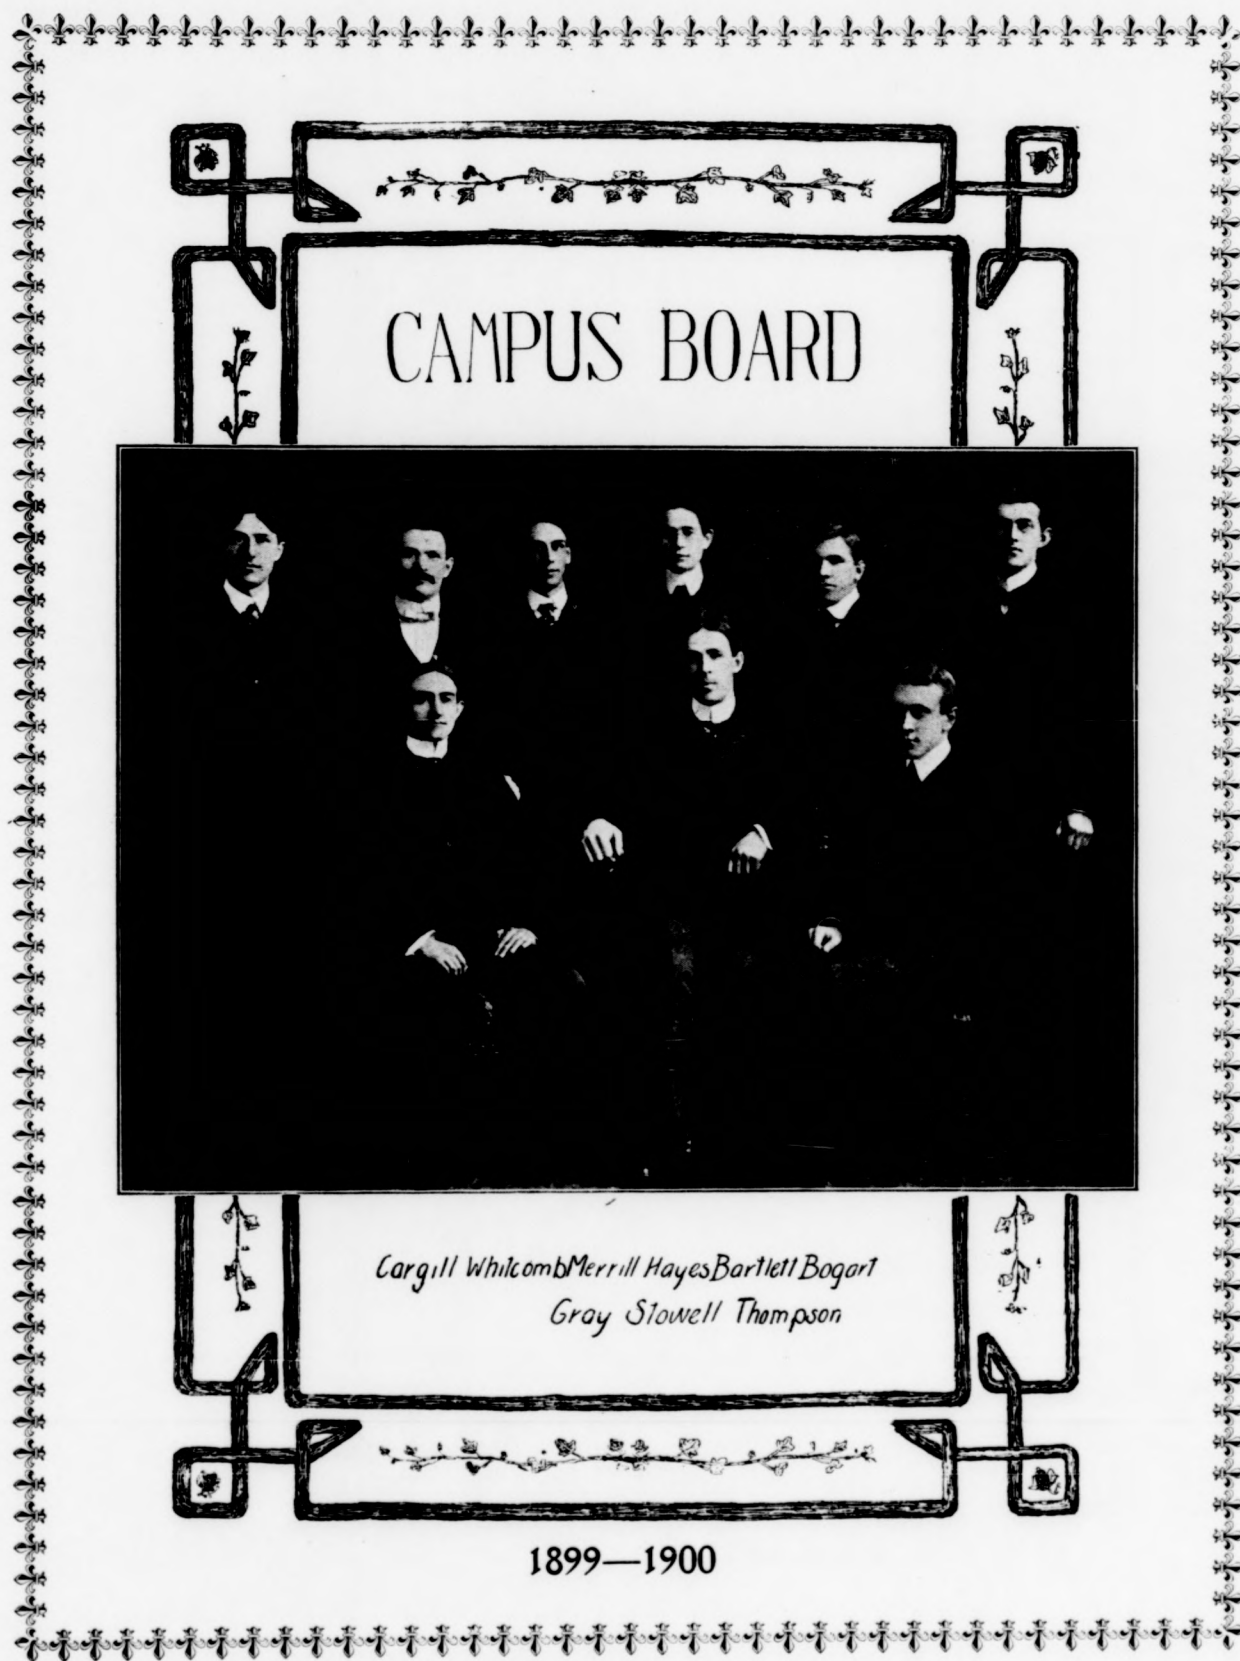

President Harris has been in Chicago ever since the first of the month, having been in attendance at the Methodist general conference to which he was elected a delegate by the Maine conference recently held in Gardiner.

A. W. Price of the law school has filed his intentions of applying for admission at the York county bar at the June term of the supreme court at Alfred.

F. A. Noyes and J. S. Dunn, who have been doing as their thesis work an examination for signs of electrolysis on the pipes of the Bangor Gas Lighting Co. in Bangor, have completed their work and with results highly satisfactory to all concerned.

It has been discovered through the inspection of Messrs. Noyes and Dunn that the two leading danger points in Bangor are on Cumberland street below Center, on the line of the B. O. & O. road, and at the head of Exchange street, foot of State street hill.

A definite map of the city is to be made showing the spots where danger is, and this will be used by the municipal and gas company officers in arranging their lines in the future.

Work has at last begun on the new drill hall and gymnasium. On May 7 ground was broken for the foundation. The contract for this work has been awarded to Davis & Grady of Bangor. It is expected that the foundation will be completed by the end of May, in time for the laying of the corner stone at Commencement. Bids for the erection of the superstructure will be open May 28.

At the meeting of the Philological club, held May 2, the following papers were read:

Study of Greek Religion in the Light of the Vases.....Prof. Huddilston
A 4th Century Latin Comedy.....

Prof. Harrington

Three publications have been recently issued by the university in pamphlet form. The School of Law Bulletin, announcing the state and progress of the Law School at Bangor; a list of Student Regulations, giving in detail the rules which apply to students; and an estimate of Student Expenses, giving the average cost of attending college for a year, and the ways by which students may earn money to meet their expenses.

Dr. Harris will attend the centennial of the University of New Brunswick, to be held at Fredericton, N. B., May 29, 30, 31. The university has offered to confer upon him the degree of LL. D.

At the meeting of the Scientific Association, held May 9, an interesting programme was carried out which was in charge of the Physical Section. At the completion of the programme came the annual election of officers. On recommendation of a committee the following officers were elected: President, Prof. Stevens; Vice President, Prof. Grover; Secretary, P. L. Ricker; Treasurer, O. W. Knight.

The Beta Theta Pi fraternity gave an informal dance at their chapter house on Wednesday evening, May 9, a large number of their Orono, Oldtown and Bangor friends be-

ing present. The house was beautifully decorated with potted plants and ferns. Pullen and Ringwall of Bangor furnished music for the occasion. The committee of arrangements was, Samuel D. Thompson, Edwin S. True and Sanford C. Dinsmore.

U. of M. has lost one of the best musicians which have ever been enrolled on the list of students. James Parker Coombs, '01, who has for the past two years been instructor and soloist for the Glee club, has accepted an offer with the Castle Square Opera Co. of New York and is now in that city. To say that Mr. Coombs will be greatly missed from the institution would be putting the matter very mildly. It is with the Glee club, however, that his loss will be most severely felt, since it was largely due to his efforts that this organization was able to attain the excellent reputation which has been established by their work during the past two years. Mr. Coombs has the best wishes of his many friends and acquaintances in the work he has chosen. He is now singing in "The Bohemian Girl" in New York and will later be sent to Chicago.

AGRICULTURAL INSTITUTES.

The directors of the experiment station have decided not to hold a Farmers' Field Day this year, but to supercede it by agricultural institutes to be held during the summer vacation. The cause leading to this move is that the observance of the day has gradually drifted away from the original object, until it is felt that the purpose for which the day was set apart is no longer being accomplished. It was expected at the first, that it might be found practical to give agricultural instruction in connection with the field day, and for this purpose lectures were arranged, but with the whole plant of the university on exhibition, and the students in attendance, it was found that practi-

cally every one spent the time in looking about and did not care to attend the lectures.

In order to bring Field Day back to its original purpose, that of education along agricultural lines, it has been decided to try the experiment this year of devoting four days to agricultural institutes at the College of Agriculture and Experiment Station. These will be held the week after Commencement, beginning Tuesday, June 19, and extending through Friday, June 22. One day of the four will be devoted to each of the following subjects:

Orcharding and Spraying,
Crops and Crop Production,
Management of the Dairy Herd,
Sheep and Poultry.

There will be lectures and demonstrations each day from about 10 a. m. to 3 p. m. Preceding and following these hours, tools and machinery will be exhibited and the whole agricultural plant of the university will be open to inspection.

ROY HASTINGS CARLETON.

Death has again entered our midst and taken from us a most bright and promising character, Roy Hastings Carlton. He passed away at the home of Mrs. Robinson, on Forest avenue, Orono, at 5 p. m., Sunday, May 6, after an illness of only four days. He had been in poor health for some weeks but was thought to have recovered, and the news of his sudden death came as a severe blow to his friends and classmates.

Roy Carlton was born in Fryeburg, Oxford Co., Me., May 16, 1881, and was the only son of Daniel D. and Laura H. Carlton of that place. He was educated in the public schools of Fryeburg and was a graduate of the Fryeburg academy. He entered this university last September as a student in engineering. During the short time that he was among us he endeared himself to all by his true and strong

character and the exhibition of those virtues which are the marks of true manhood.

His body was taken to Fryeburg for interment. Two of his classmates, E. F. Wellman and T. E. Leary, attended the funeral services as representatives of the class of 1903.

RESOLUTIONS.

University of Maine, May 6, 1900.

Whereas, Almighty God, in His infinite wisdom, has seen fit to remove from this life into a better and happier one in the world to come, Roy Hastings Carlton, our most loyal friend and classmate;

Resolved, That we, the members of the class of 1903, and his constant friends, hereby manifest our sorrow and grief at the loss of our departed brother, which we sustain;

Resolved, That this class has lost a most honored, faithful and beloved member, and the world one who has been an example of uprightness, integrity, and a true type of manhood;

Resolved, That we extend to his family our heartfelt sympathies;

Resolved, That a copy of these resolutions be entered upon the records of the class, one be sent to his family, and also that one be published in THE CAMPUS.

L. B. Crabtree,
G. H. Hadlock,
E. A. Porter.

NEWS OF THE FIELD AND TRACK.

The executive committee of the New England Intercollegiate Athletic association met at Worcester last week to arrange plans for the annual spring athletic meet. Representatives were present from Brown, Wesleyan, M. I. T., Amherst, Dartmouth and Bowdoin. The annual meet will be held May 19. The bicycle races will be run off in the morning at Charles River Park, Boston, and the rest of the events will take place on the Worcester Oval, in the

afternoon. The usual medals in all events will be awarded, and a special gold medal will go to all winners who break association records.

The advisability of changing the design of the medals for the winners at the Maine intercollegiate field meet is being considered by the executive committee of the Maine Association. The new design which has been submitted is a very handsome one, having a winged foot of Mercury in the center, beneath which is a pine tree, the whole surrounded by a laurel wreath. The words "Maine Intercollegiate Athletic Association" are inscribed around the edge.

J. Arthur Hayes has recently received two special gold medals which were won by A. L. Grover for breaking two N. E. I. A. A. records at the Maine meet at Waterville last year. These records were made in the shot put and in throwing the discus. In the former event Mr. Grover established the record of 39 ft. 4½ in. In the discus throw the distance was 108 ft. ½ in., which exceeded the New England Association record, although it was not up to his previous unofficial record of 115 ft. 6¼ in., made at Brunswick in 1898.

A NEW PUBLICATION.

There has been a feeling for some time among the heads of the science and engineering departments that some step should be taken towards the publication in magazine form of the results of the various experiments in scientific research which have been performed in the laboratories of the university during the past year or two, and which doubtless will be continued in the future. With this thought in mind a committee of the faculty met recently and discussed the subject at length. It was decided at that meeting to undertake the publication of such a magazine, its subject matter to be made up of the results of original research in any department of the university either by

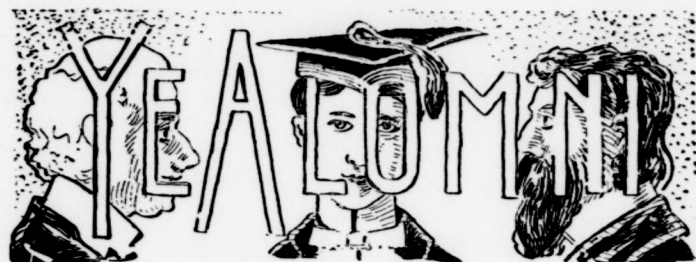

a professor or student. No name for the new publication was definitely chosen, although there is little doubt but that it will be called "The University of Maine Studies." There will be no regular date of publication, but issues will appear in print as material is presented which the editors shall consider suited to the purposes and scope of the paper. A board of editors was appointed consisting of Prof. J. S. Stevens, Prof. K. P. Harrington and Mr. R. K. Jones. The first issue will not go to press until the beginning of the fall term in September.

ADDITIONS TO THE LIBRARY.

The following are some of the books that have recently been added to the library:

Spectrum Analysis, Landaner.
 Weather, Abercromby.
 Stalky & Co., Kipling.
 Writings in Prose and Verse, Kipling.
 Complete set of Poe's Works, six vols.
 Pride of Jennico, Castle.
 The Life of Our Lord in Art, Hurl.
 The French Revolution, two vols., Von Holst.
 Life of Nelson, Mahan.
 Northward Over the Great Ice, two vols., Peary.
 Pompeii; Its Life and Art, Man.
 Cyclopedia of Political Science, three vols., Lalor.
 Facing the Twentieth Century, King.
 Elements of Physics, Crew.
 Treatise on Meteorology, Loomis.
 Richard Carvel, Churchill.
 Education of Mr. Pipp, Gibson.
 Complete set of Cooper's Works, 16 vols.
 Complete set of Lytton's Works, 15 vols.
 The Mycenæan Age, Tsoyantes and Manatt.
 Child Life in Colonial Days, Earle.
 The Science of Political Economy, George.
 Political Works, four vols., Rossetti.

'75

A. E. Mitchell, superintendent of rolling stock for the Erie railroad system, will serve as a member of the international jury at the Paris Exposition.

'76

Herbert A. Long and Roscoe Johnson, the keeper of the Libby Island light, have recently purchased Big Libby Island and propose to stock it with a large number of sheep. Mr. Long is one of the few men in Maine who have made the raising of sheep on a large scale a profitable business.

'83.

J. V. Cilley, who has been general manager of the Ferro Carril Argentino del Norte, is now in this country. At present his address is 1001 Real Estate Trust Building, Philadelphia. Mr. Cilley expects to be present at Commencement.

Miss Janie C. Michaels, who has been spending a short vacation at her former home in Stillwater, returned last week to her school in Quincy, Mass.

'84.

It is expected that the most exciting political contest in Maine will take place in Cumberland county, over the Republican nomination for county attorney. There are two candidates, George H. Allan and Robert T. Whitehouse. Mr. Allan, though still a young man, has been prominent in local politics for several years and is at present the chairman of the Republican city committee.

Mr. Allan was born in Pembroke in 1861, attended the schools of that town until he was prepared for college. After his graduation he

went to Portland, read law in the office of Hon. George M. Seiders, and was admitted to the Cumberland bar in 1888. He began practice in 1889 but during the following year served as a special agent of the census department in Maine. He has been in continuous practice since the fall of 1890. He was a member of the superintending school committee from 1892 till 1896, has served on the Republican city committee since 1892 and been chairman of the board four years. He is now completing his second term as assistant to County Attorney George Libby.

One of Mr. Allan's strongest cards is the record of his services, and he is sure to have the leaders of his party behind him.

'85.

E. O. Goodridge, who for several years has been in the employ of the Lowell, Lawrence & Haverhill R. R., has removed from Bradford to Lowell, Mass., his present address being 82 Centre St.

The Lowell, Lawrence and Haverhill now forms a part of the system of electric roads in eastern Massachusetts, comprising over thirty different roads. Mr. Goodridge has charge of their power stations at Lowell, Lawrence and Haverhill.

Ex-'85.

A. H. Keyes resigned his position as principal of the Auburn, R. I., high school at the close of the last school year in order to devote his time to graduate study in Brown University.

'87.

James D. Lazell has accepted a position as sales agent for the Passaic Rolling Mills Co. Address 1001 Real Estate Trust Building, Philadelphia.

'88.

Rev. John R. Boardman of Hallowell, graduate of the Hartford Theological Seminary, has been called to the pastorate of the West

End Congregational church in Portland, and will accept, having read his resignation in the pulpit of the South Congregational church in Hallowell. Mr. Boardman has been in Hallowell about two years, going there after the completion of his theological studies at Bangor and Hartford, Conn. That the West End church in Portland is able to secure his services is a piece of good fortune which will doubtless be fully appreciated by the members of that parish.

'89.

J. W. Edgerly has been engaged as engineer by the Maine Topographical Survey commission. The work will be done in the neighborhood of Bangor, this year.

Nellie W. Reed, whose home is in Massachusetts, has been visiting friends in Stillwater for the past two weeks.

'90.

Frank Wade Sawyer and wife have moved from Everett, Mass., to Bangor, Me., where he will enter upon the practice of medicine. Their home will be at 242 State St. Mr. Sawyer is a graduate of the medical department of the University of New York, having achieved there the highest honors. He has been located for the past five years in Everett, where he built up a large practice. He has been connected with the leading hospitals in and around Boston. Last summer he had charge of the treatment of the hundreds of children on the famous floating hospital. During the past six months Dr. Sawyer has been attending the Vanderbilt Clinic and New York Post Graduate college in New York city.

'91.

W.M. Bailey has entered the employ of the Eastern Expanded Metal Co., and is attached to their Boston office at 39 Court St.

'92.

Robert H. Fernald, who has been teaching for the past few years at the Case School of Applied Science, at Cleveland, Ohio, recently

received an appointment as university fellow at Columbia University, N. Y.

'94.

E. H. Cowan is assistant engineer on the Union Pacific R. R., with headquarters at Omaha.

'97.

W. T. Brastow is working in the office of the city engineer at Worcester, Mass. His address is 89 Pleasant St.

'98.

Dana T. Merrill has been appointed first lieutenant, and transferred to the 7th infantry, but with orders to remain on duty with the 12th. He has been ill for two months with malarial fever, and at present is travelling in Japan for his health.

'99.

J. H. Swain is training the athletic team of the Skowhegan High school. Under his efficient training many of the former records of the school have already been broken, and there is every reason to hope that they will make a good showing at the meet at Brunswick.

W. J. Morrill, principal of the high school at Meredith, N. H., has been spending a short vacation with his parents at Madison, Me.

Frank S. Batchelder, who is employed by the Keystone Bridge Co., is now taking a course in steam engineering with the Scranton Correspondence Schools.

Eben P. Bassett has changed his former address, which was Brooklyn, N. Y., to Field avenue, New Rochelle, N. Y., care of J. W. Booth. Mr. Bassett is at present employed in the office of the Iron-Clad Resistance Co., manufacturing all kinds of resistance boxes.

Ex-1901.

W. A. Armes is now employed as a draughtsman by the Bath Iron Works. Address, 12 Liberty St.

W. F. Hussey has secured a position as draughtsman with the Eastern Shipbuilding Co., New London, Conn.

AMONG THE COLLEGES.

Bits of News Picked Up From Our Exchanges.

Oxford and Cambridge intend to send a team of track athletes to compete with Harvard and Yale this year.

The faculty of a western college have adopted a novel rule in regard to themes. Hereafter every theme must be handed in on time. If this is not done, five per cent. is deducted from the theme rank the first day and one per cent. for each succeeding day until it is delivered.

A petition for a summer school in engineering has just been granted to Lafayette college. Cornell was the first to inaugurate one, and similar schools have since been established at Massachusetts Institute of Technology, Pennsylvania, and Lehigh.

A fine opportunity is given to young men interested in forestry, both to receive excellent instruction in this new profession and to earn good wages during the summer vacation, by becoming a student-assistant in the Division of Forestry, U. S. Government. Last summer a large number of young men, most of them college students, were employed by this department, the salary being seventy-five dollars per month and all expenses paid. This year the same plan will be pursued and already there have been over one hundred and sixty applicants for positions, although the work does not begin until the first of July.

A new bill to establish a University of the United States has recently been introduced into the Senate by Sen. Chauncey M. Depew. The bill provides that the institution shall be strictly confined to post graduate work.

President Patton of Princeton University announced Wednesday that the Board of Trustees had appointed a furniture appraiser to set a value on furniture sold by students in exchanging or giving up rooms. This will

abolish the old practice of upper-class students in charging exorbitant prices. Freshmen and sophomores were the sufferers.

The lack of definite purpose is the cause of many a student's failure. Many are satisfied with simply getting a general idea of a subject, a smattering of many things, but a clear, definite view of none. Such study cannot produce the best results. When compared with the years of active life to which he looks forward, the student's period of preparation is very short. It is far too short to be wasted by aimlessness.

At Tufts, the college corporation donates ten dollars out of every paid tuition for the support of athletics, in this way raising about \$3,000.

At the annual meeting of the commission of New England colleges, held in Boston, April 27 and 28, the University of Maine, together with Mt. Holyoke college, was admitted to membership in the commission, bringing the total membership up to seventeen. The special topic for consideration at the meeting was that of admission to colleges by certificate. It was decided that for the present this system of admission should remain unchanged, but a committee was appointed to secure information in regard to methods of administering the system, and to work for the advancement of efficient and uniform methods.

ATHLETICS.

To judge from the two games that the baseball team have played, it seems to be impossible to make any correct criticisms. There is no doubt but that the team has played to the best of their ability but there seems to be a lack of team work and snap that is so essential to a winning team. Perhaps this is due to the number of new men on the team who are new to the game and do not understand the signals and do not use any headwork in their playing. Some new men think that all there is to base-

ball is to hit the ball as hard as they can and run as hard as they can and the best man is the one that scores a run. This is not so. The man who receives the signals of his captain and follows them correctly, is the best ball-player. It is disgusting to the on-lookers to see a player disobey the words of the coach and captain, and perhaps lose a run or even the game. A number of times this season we have lost runs on account of this very reason.

U. OF M., 20; C. C. I., 4.

Our first game was with Coburn Classical Institute. It was uninteresting from start to finish and full of listless playing. Harris started in to pitch for the home team but had no control of the ball and after the first inning he was substituted by Ross. He seemed to have full control of the ball and the visitors were not allowed to score while he was in the box. Carr and Davis fielded in fine shape and were in the game from beginning to end.

Following is the summary:

U. OF M.

Runs—U. of M. 20; C. C. I. 4. Base hits—U. of M. 16; C. C. I. 6. Two base hits—Lurvey, Davis, Chase. Three base hit—Carr. Struck out—by Ross 3; by Cushman 5; by Witham 5. Base on balls—by Harris 4; by Ross 3; by Cushman 3; by Witham 6. Passed balls—Clark. Sproul 2. Umpire—Rudderham.

U. OF M., 13; P. A. C., 10.

The baseball team played their second game of the season on the campus Wednesday afternoon, May 2. The Portland Athletic club were the opponents and it was a great satisfaction to everybody to see the team win, from this club of ex-professional players. Error after error was made by both teams nearly all of which could have been prevented. The fielders of the home team were weak in backing up the basemen and this caused runs two or three times. R. P. Plaisted of Bangor, an old Bowdoin pitcher, umpired the game and there was much kicking over his decisions especially from the Portland men.

THE GAME.

The Portland team was first at the bat and Gorham on the second ball pitched, hit for two bases, and scored on Edgar's hit, the only one he made during the game. All three of the outs were strike-outs, the last two men fanning the air in all kinds of shapes in an endeavor to connect with Cushman's curves.

Lurvey was the first man up for U. of M. and he struck out. Davis made a single and Carr was hit by a pitched ball. Edgar tried to catch Carr napping at first, and he threw so wild that when the dust had cleared away around the initial bag, it was found that Davis had crossed the rubber and Carr was at third. Clark hit to left and Carr scored. Edgar tried to head off Clark at second, but the ball went by Gorham and Clark kept right on towards home, which he reached safely. Chase was out Gorham to Woodbury, and "Finn" Webb struck out.

Portland went out in one, two, three order in the second. U. of M. made four runs. Holmes drew a base on balls, and Cushman received a like gift. Holmes tried to steal third, but was an easy out. Davis hit just over second base and Cushman scored on the throw-in. While the second baseman was juggling with

the ball Davis worked his way around to third. Carr reached first on an error by Jenney and Davis scored while the ball was coming back. Clark hit safe and scored Carr. Chase was hit by a pitched ball and on Dorticos' hit to left Clark scored, Chase getting caught at third.

Each team made one run in the third. Schneider scored on a sacrifice by Welch and error by Carr. Webb hit safely and scored on Lurvey's hit.

Both teams drew blanks in the fourth. Portland made two runs in the fifth, Gorham and Welch each making a hit and scoring on Carr's error and Clark's passed ball. U. of M. failed to score in this inning.

Portland made no runs in the sixth but U. of M. made five, this inning being the last in which the team scored during the game.

Davis made a hit and went to third, Robinson letting the ball roll by him, Carr drew a

base on balls and on Edgar's passed ball both men scored. Welch played hop-sotch with a grounder from Clark's bat and the latter was safe on the first bag. Chase was hit by a pitched ball and Dorticos was presented with a base on balls. Webb hit to left field and Clark, Chase and Dorticos scored on Robinson's failure to stop the ball. Schneider then closed the inning by striking Holmes, Cushman and Lurvey out.

P. A. C. made one run in the seventh, Schneider scoring on errors by Holmes and Dorticos and Welch's out at first. The score was now 13 to 5 in favor of the Orono team. The latter seemed to go to pieces in the eighth, and on three hits by Jenney, Woodbury and Kelley, a base on balls and Dorticos' error the Portland team scored five runs and the game ended, 13 to 10.

The feature of the game was the pitching of Schneider. He struck out 12 men. Cush-

TRACK ATHLETICS.

The candidates have showed a marked improvement during the last few weeks considering the unfavorable weather and condition of the track. Mr. Grover did good work with the men from the time that they started to train to the end of last week. Coach O'Brien arrived last Friday and immediately took charge of the team. He seemed to be very much encouraged and thinks the prospects for a good track team are very favorable.

The local field meet will be held Wednesday, May 24. This will really present the first opportunity for sizing up the men that are training with any certainty. The team for the Brunswick meet will be chosen from the winners of the various events on that day.

The Worcester meet is to be held May 19, and we will probably be represented by at least three men. Capt. Grover of last year's team will probably be one of the members of the Worcester team. We made a very creditable showing last year and everybody hopes for even more points this season.

THE CAMPUS

U. OF P. GAMES.

One of the most interesting and successful athletic meets of years was held at the University of Pennsylvania last Saturday. Over one hundred of the large colleges, academies and preparatory schools of the east were represented in the events, and over four hundred and fifty athletes were entered. Prinstein of Syracuse University broke the world's record in the broad jump, making 24 feet 7¼ inches. The former record, 24 feet 4½ inches, was held by Kranzlein of Pennsylvania. Duffy of Georgetown again equaled his former record as well as the world's record of 9 4-5 seconds for the hundred yards dash. The one mile college championship relay race was hard fought and won by Chicago University in one second less than the world's record time, 3 minutes 22 3-5 seconds. Princeton easily won the two-mile relay from U. of P. in 8 minutes, 5 seconds, five seconds faster than any two mile relay race ever run on Franklin field.

The field events did not bring forth any particularly striking results. The shot put was won by Sheldon, formerly of Yale, with 44 feet, 1½ inches and the discus won by him with 120 feet, 5¾ inches. Boyden of Cornell won the hammer throw with 144 feet, 7½ inches. Baxter of Pennsylvania won the high jump, making 6 feet, and Coleman of Princeton won the pole vault at 10 feet 10 inches.
