STUDENTS' DIRECTORY.

TRAINS—Leave Orono for Bangor at 6.46, 8.57, 9.57, 10.52, A.M.; 12.45, 1.42, 2.52, 4.02, 7.12 P.M.

Leave Orono for points north of Old Town at 7.21 A.M.; 2.28, 5.04, 6.53 P.M.

Leave Bangor for Orono at 4.35, 7.00, 8.30, 11.30 A.M.; 1.15, 2.05, 2.50, 3.10, 4.45, 5.30, 6.30, 11.05 P.M.

Leave Bangor for the south and west at 7.15 A.M.; 1.35, 8.09, 11.45 P.M.

Leave Bangor for Bar Harbor at 6.00, 9.30 A.M.; 4.50 P.M.

ELECTRICS—Cars leave Bangor at 5.30 A.M. and each half hour thereafter until 9.00 P.M.; after 9.00 P.M. on

even hours until 11.00 P.M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10 m. past the hour.

MAILS—Leave Orono for points south and west at 6.30 A.M.; 12.40, 6.40 P.M. For points north at 6.30 A.M.; 2.10 P.M. Arrive at Orono from points south and west at 7.40 A.M.; 3.30, 7.10 P.M. From points north at 1.10, 7.10 P.M.

The boats of the Boston & Bangor S. S. Co. leave Bangor for Boston, stopping at Rockland and intermediate landings, on Tuesdays, Thursdays and Saturdays at 2.00 P.M.

The college library is open from 8.00 to 12.00 A.M. and from 1.30 to 5.30 P.M.

The college office is open from 8.00 to 12.00 A.M., also from 1.30 to 5.00 P.M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS.

THE CAMPUS has again changed hands and with the present issue the new board of editors begin their labors. Hopefully we take up the burden of the various departments which are necessary to a paper like THE CAMPUS that it may be a true representative of the sentiments of the student body. As we look forward into the future, and see the labor which will be involved in conducting THE CAMPUS in a satisfactory manner, we better realize the care and thought that has been expanded on the paper in the preceding years.

The condition of THE CAMPUS at present is very much better than its condition a year ago. From a mere experiment it has grown to its present firm basis. This growth has been gradual, but sound, and is due to the hard work of the retiring editors. We can hardly say too much in praise of these men, who have

devoted their best efforts to the interests of their college.

It is as difficult to obtain perfection in a college paper as in anything else, and undoubtedly some changes might be made with profit, but for a while at least we shall be content if we can maintain its present high standard. We hope to make THE CAMPUS meet the demands of its readers, but our success can be achieved only in their satisfaction. As our college broadens and increases in importance and influence from year to year, so must THE CAMPUS expand in every department to keep pace with the growing demands. With this expansion will come an increased call for interesting news and notes of the college and its alumni. It is right here reader, that we wish to ask for your support. Your contributions were of great assistance to the editorial staff of last year and we shall be grateful for their continuance. We expect to put much time and hard work in the publication of our paper, and with your assistance and suggestions, we aim to make its pages fresh and interesting and its name to occupy an honorable position in our college history.

ONCE more the tennis season has rolled around. The courts have been put in good condition and nearly everyone has gotten over his first lameness. Almost any pleasant afternoon players may be seen, racket in hand, wending their way to the campus for a quiet game. After the day's work is completed the courts are then the centers of throngs of festive students and the misleading shouts of "love" are heard until darkness puts a stop to the fun.

There has not been as much interest in tennis for the last few years as there should be. This year, however, the outlook is very bright. A tennis tournament will be held and medals

given to the winners in singles and doubles. More than the ordinary number have signified their intentions of competing. Two of our best players have left college, so it is by no means easy to place the probable winners. It is expected this fact will make the competition unusually sharp for there are a number of good men whose chances as winners are about even.

IT is gratifying to note the large percentage of base ball games that are to be played on our own diamond this season. Up to last year considerable fault had been found that not enough games were played where students could have the advantage of them, and some based their excuses for not paying their athletic dues on this fact. The base ball manager of last year arranged for six games out of the entire thirteen, to be played either here or at Bangor, and this was called by all a most generous arrangement. This year Manager Davis has arranged for more home games than ever before. Out of the fifteen games, which the team is to play this season, nine are scheduled at Orono. This should be a strong inducement for all to pay their athletic dues, for of course, we want to see our team win. Our manager has been generous to us. Is it any more than fair that we help support his team?

THE organization of a Golf Club seems to have taken a firm hold on the boys of Oak Hall. The reason for this is not difficult to find, in fact, it is more difficult to explain why the idea was not started before. In as large an institution as this there must necessarily be a wide diversity of taste, and what is sport for one is no enjoyment for another. Golf seems to fit into a niche of its own and, while not interfering in the least in college athletics, presents special attractions. It attracts a class of students not interested in base ball or track team practice and, while requiring

less exertion and agility than tennis, is far more fascinating. It is a quiet, interesting, harmless game and may be played by few or many. It requires but little outfit and the fact that over one-half the people who were engaged in sports during last summer, were playing golf, is good evidence of its popularity. We have a very good situation for a golf-link here. The cost of laying out and maintaining a link would be trifling, and if enough students become interested in the movement, no doubt its permanent establishment is in the near future.

IT seems that some of the students of our university do not fully appreciate the responsibility that rests on them in upholding the character and reputation of their college to the outside world. This realization is of especial importance when we stop to consider our present good name and our hopes and ambitions for the future. We have now a reputation of which any college might well be proud, our buildings and equipments are growing year by year and each entering class is larger than its predecessor. Every man in the college wants these conditions to continue and should work to bring them about. He who works to retard them is certainly doing an incalculable harm to the institution and to the students, as a whole and individually. But a few mornings ago, situated in conspicuous spots on our campus, were images and signs which, if their meaning was known, would never give strangers a good impression of us. Since these were no mushroom growth, we suppose they were erected by students in a spirit of mischief, but besides being a childish trick, there is this to be remembered, each act helps to make or mar the reputation of the college. The lesson then to be learned by us all is, to be careful about our actions that represent the institution, and first of all things in our consideration should be the welfare and good name of our college.

Play ball!

P. L. Nickerson, '01, spent last week at his home in Swanville.

J. H. Quimby, '04, has left college for the remainder of the

year.

T. E. Leary has been elected chairman of Ivy Day arrangements.

At a meeting of the freshman class, April 18, E. A. Parker was elected captain and A. G. Taylor manager of the class track team.

A. E. Davenport, '03, has returned to college.

Several students took a prominent part in the minstrel show given at Oldtown for the benefit of the Oldtown Baseball association.

O. W. Knight, assistant chemist at the Experiment Station, is rapidly recovering from his long sickness and will soon be able to resume his duties.

The *Prism* will soon be out.

Some of the sophomores, hearing that "April showers bring forth May flowers" have been testing the freshmen to see if these green buds would burst forth into fragrant blossoms.

W. L. Cole, '03, has accepted a job at civil engineering in Rumford Falls, and has left college for the remainder of the term.

The campus has been raked and cleaned of all refuse matter and it behooves the student body to aid in keeping it neat in appearance.

L. A. Chesley, '03, has left college for the remainder of the term.

Mr. P. Spaulding, assistant in horticulture in the Experiment Station, was obliged to return home recently on account of the sickness of his parents.

All the grinds on a certain professor have been omitted in the 1902 *Prism*.

The members of the Sigma Alpha Epsilon fraternity have come out in new caps. The caps are purple with gold letters across the front.

S. H. Soule, '04, who left college on account of sickness, is much improved in health but will not return to his studies this year.

The Belfast correspondent of the Bangor News spoke very highly of the concert given in that city by the Glee and Mandolin clubs. Although the night was stormy they were greeted by a large and enthusiastic audience and were obliged to respond to an encore after each selection.

At a meeting of the Scientific association, held April 17, it was voted to use the society's funds toward establishing a prize for the best special examination in entrance mathematics.

A party of students attended the private dance given by the young ladies of Orono in Odd Fellows' Hall at Hampden, April 19.

The B. O. & O. conductors have received notice that the name of "Spearin's Inn" has been changed to "Spearin's Hall."

The new catalogue for 1900-1901 is now ready for distribution and copies may be obtained at the college office.

The sophomores have decided upon their canes and are expecting them soon. The canes are plain with a straight handle at right angle with the stick.

T. R. Geary, of the law school, visited friends on the campus recently.

Oak Hall has not had many freshmen visitors lately; wonder why?

At a meeting of the sophomore class, held recently, it was voted to challenge the freshman class for an athletic meet. P. H. Harris was chosen captain of the track team and B. W. Goodwin manager.

H. W. Mansfield, '02, who has been confined to his room for the past two weeks with typhoid fever, is able to be out again.

During the Stillwater freshet the culvert between the waiting rooms on the main road was washed away. This was the cause of so many teams passing through the campus.

A large party of students attended the minstrel show at Oldtown, April 19.

A large piece of the Stillwater bridge, which was carried away during the freshet, is on the opposite side of the river and may be plainly seen from Wingate Hall.

A general meeting of the Scientific association was held April 17 and the following program given:

Scientific Notes.....Prof. Merrill
The Nature of Animal Intelligence.....

Dr. Fernald.

G. W. Durgan, '02, attended the Chapman concert in Houlton recently.

What came near being a disastrous fire occurred in Coburn Hall recently. A triplex burner in the biological laboratory was left burning and the great heat caused the surrounding woodwork to catch fire. Fortunately it was discovered and extinguished before much damage was done.

Prof. Rogers gave an illustrated lecture on England and Scotland in the chapel on April 24. A very good number was present.

In looking over the new catalogues we notice an increase of seventeen students over the number listed last year.

Dr. Fernald was absent from his classes last week on a business trip.

A meeting of the Mathematical and Physical Section of the Scientific association was held April 24 in Wingate Hall and the following papers presented:

Path of a Body Moving Under the Action
of a Central Force.....Mr. Packard
A Proof of the Modern Theory of Light,
Miss Knowles.
On a Theorem in Linear Differential
Equations.....Mr. Siff

A meeting of the sophomore class was held recently at which R. M. Connor was elected editor-in-chief and B. W. Goodwin business manager of the 1903 *Prism*.

F. T. Dow gave an interesting lecture to the senior and junior electricals on April 16. His subject was Drawing Rooms and Their Equipments.

The Experiment Station has recently issued an extensive bulletin on fertilizers. The station is also making a careful analysis of canned foods, the results of which will be made public at a later date.

The dedication of the new gymnasium and drill hall will take place in the near future. The exact date is not known. President Harris is using every effort to make the occasion a notable one and doubtless the exercises will be memorable.

An informal dance was given by the Delta Rho fraternity to their friends at Orono Town Hall, April 26. All report a very pleasant evening.

Electricians have been making a few changes in the lighting station during the past week. They have arranged to run the two dynamos in parallel so as to get more current to be used in lighting the new drill hall.

F. H. Mitchell, assistant in the chemical laboratory, recently received a bad burn while working with an alcohol lamp. He has left college for a few days.

Several of the Pittsfield boys, who came up with the ball team Fast Day, visited friends on the campus before returning.

The running track has received a new coating of cinders.

Herbert G. Dorsey, former tutor in physics, was on the campus last week. Mr. Dorsey is at present studying at Harvard. Prof. Edwin B. Nichols of the modern language department, who is at present on a leave of absence, is also studying at Harvard, where he expects to obtain his doctor's degree in June.

Wm. P. Beck, tutor in physics, left for Boston Saturday, returning Tuesday night.

All the students of the university will be glad to learn of the good fortune of C. F. Weston, instructor in Civil engineering, in obtaining a valuable fellowship at Columbia University for next year. Mr. Weston will be greatly missed by all the students, especially those in his department.

We notice the engagement announcement of Herbert G. Dorsey and Miss Elsie Fitzgerald. Congratulations.

The regular monthly meeting of the Art Guild was held at the Mt. Vernon House, April 17. A very enjoyable programme was carried out, consisting of:

Vocal Solo

Mrs. J. H. Huddilston.

Some Representative Types of Roman

Art, illustrated by the stereopticon..

Prof. K. P. Harrington.

At the May meeting, which will be the last meeting of the year, the election of officers will take place. Great interest has been taken in the Guild this year, it now having a membership of over two hundred. Among the recent additions to the collection of the University Guild are two valuable chromolithographs, one "The Transfiguration" after the fresco by Pietro Perugino; the other, "The Madonna Del

Sacco," from the fresco of Andrea Del Sarto. These pictures are reproductions from the plates of the famous Arundel Society of London. This Arundel Society, which died out in 1882, occupied itself with making careful reproductions of the famous masterpieces. Its reproductions in this country are very few and exceedingly valuable. After the dying out of the Arundel Society, its plates were obtained by a German society, from which the pictures of the Art Guild were obtained.

MUSICAL CLUB CONCERTS.

On April 22, our Musical Clubs started on their down river trip. From Bangor they took the steamer Castine, which was chartered especially for this purpose, to Belfast where their first concert was given that evening. Although the weather was very unfavorable, a large and enthusiastic crowd assembled in the Opera House and gave our boys a hearty welcome. The concert was given under the auspices of the High School for the benefit of the Base Ball Association, and went off with the usual good success. After the concert a dance was given at Odd Fellows' Hall which proved to be an enjoyable occasion. The boys were much pleased with their Belfast experiences, and apparently the concert was entirely satisfactory to the Belfast people. The next evening a concert was given at Castine. In spite of the bad weather a very good crowd was present and the concert was highly successful.

College musical clubs are entirely new features to the down river cities and towns, and undoubtedly many people of Belfast and Castine were surprised at the excellence of the entertainments. Such cordial support was given the clubs and so much satisfaction was expressed by the people, that Manager Silver thinks a new field has been opened and arrangements will be made to give a more extended trip next year.

The Bangor concert, to be given May 3, is expected to be the best of the season. Considerable new music will be used on that occasion and every effort is being made to make it a notable event. Excellent music will be furnished for the dance by Pullen's orchestra of seven pieces. A large number of students have signified their intentions of attending. Special cars will run to college after the dance.

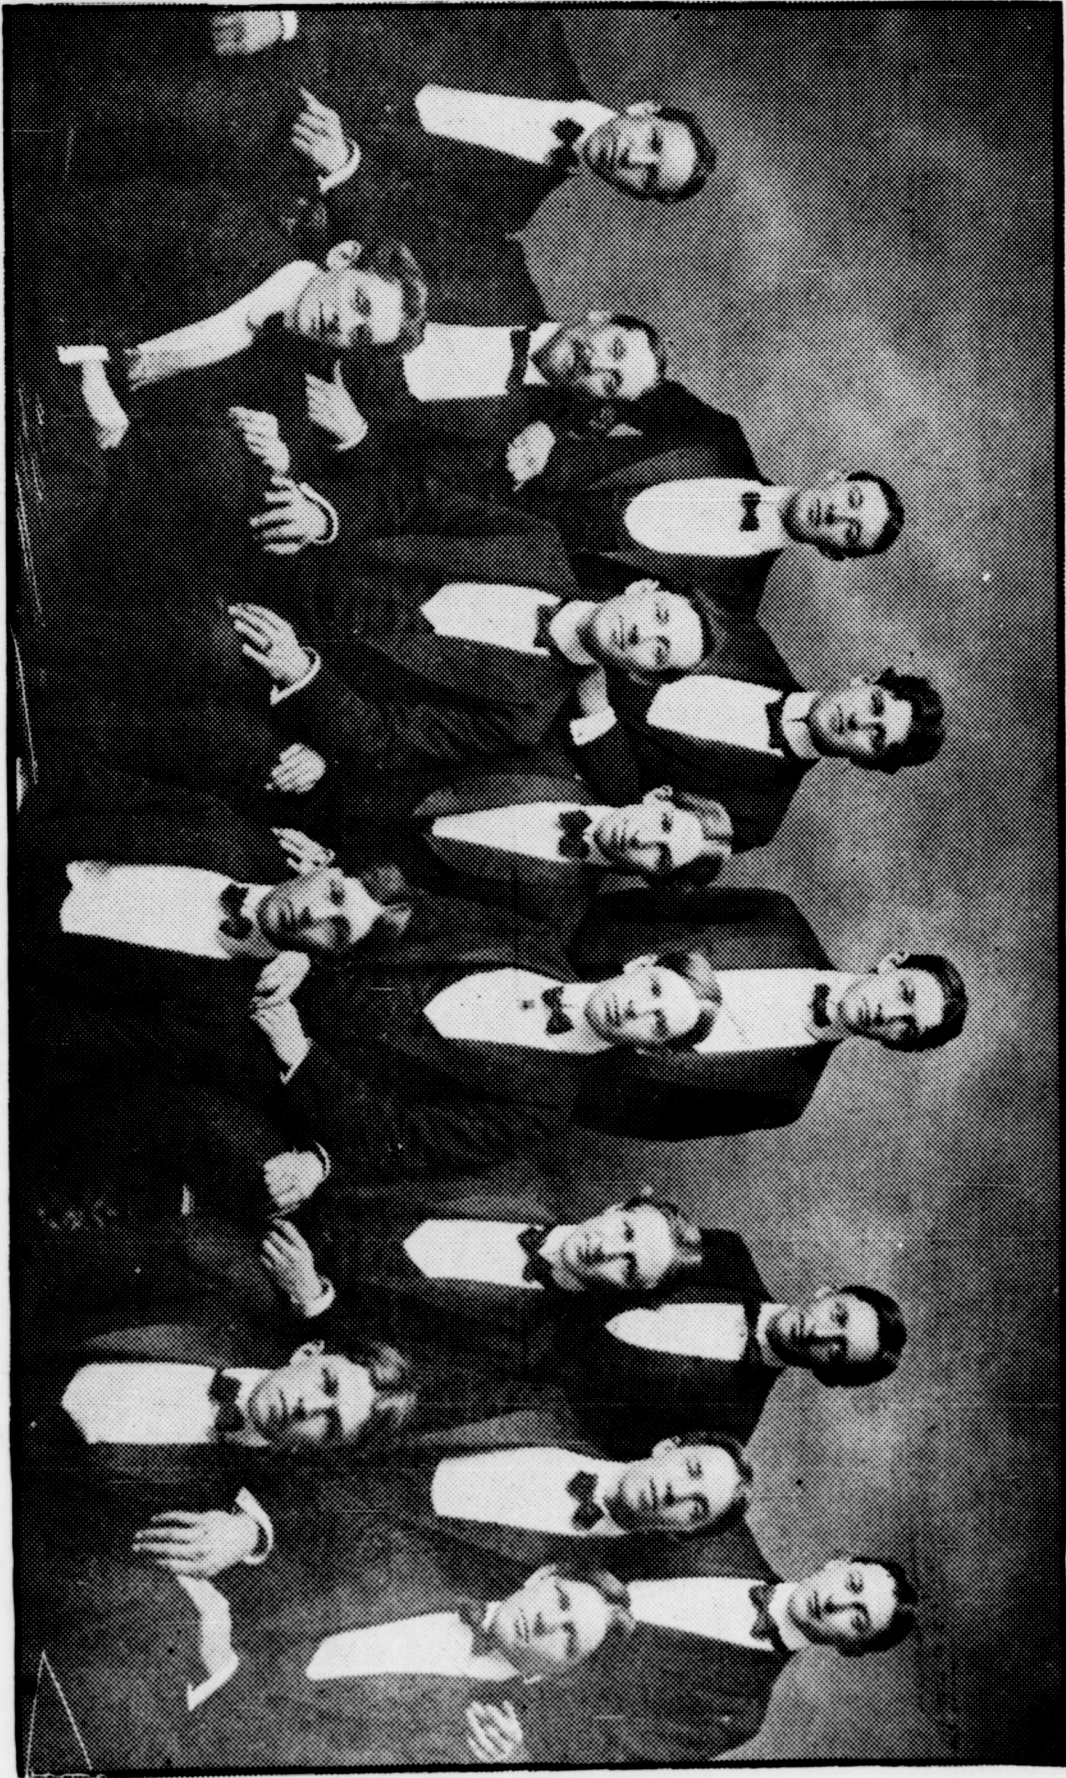

THE PRISM.

"Wonder when the *Prism* will be out?" "What do you suppose there is in it this year?" "Do you suppose I am roasted?" These are some of the questions heard daily about the campus and as the time draws nearer for the *Prism's* appearance our interest increases.

Through the long winter months the editors were busy preparing the material for the coming book and no pains have been spared to make it an interesting volume. Of course it would be impossible to write a review of the 1902 *Prism* in our limited space, but a few of its characteristics may be considered. Naturally the point which first claims your attention is the odd design of its covers. It is neatly and durably bound in gray linen covers which are illustrated in a manner which is pleasing and certainly original. Don't be surprised when you see them.

One of the finest points of the book is its dedication. It is dedicated to a man dear to every student of the university and on the first page is a splendid full page reproduction of him taken from his latest photograph. This picture will appeal to every student and alumni and make a pleasing addition to the book.

Of course the general structure must be the same as *Prisms* of former years. New cuts are of course provided for all the headings and without exception they are bound to please. A few stories that treat of college life are woven in with the usual subjects. There are full page

UNIVERSITY OF MAINE GLEE CLUB.

illustrations of the athletic teams and also each fraternity's picture. The individual pictures are round instead of oval as last year. The full page pictures are arranged lengthwise of the page. At last we come to the "Jolly Joker" which is a veritable puss in boots. This quaint illustration heads the grinds. These grinds are a happy collection of jokes, apparently but few have been missed in the yearly roast. An improvement over last year is the illustrated drawings, of which there are many. Another noticeable feature is the entire absence of jokes on a certain professor. The grind editor assured us it was hard to neglect him so but he thought the "change would do him good." We noticed that the gentlemen who were fortunate enough to have young lady friends were roasted. Does that mean you? We noticed but few grinds on the co-eds. At length we reached the finis and paused a moment to gaze at the familiar scene. Then closed the book.

LIGHTS FOR THE NEW GYM.

The work of installing the lighting fixtures in the new gymnasium is now practically completed. The building is to be lighted from the university power station. On the first floor is the main switch board which governs five circuits. Three of these light the second floor while the other two light the ell and main part of the first floor. On the second floor the drill hall will be lighted with two reflectors with sixteen lamps each, and about twenty single lamps all running on one of the main circuits. The second circuit has four handsome enclosed arc lamps which will be used only on special occasions. The remaining circuit is divided by an auxiliary switch board into eight smaller circuits which are used in lighting the chapel. The chapel lights will consist of a large number of wall lamps and three reflectors each carrying thirty-six lamps. The wall lamps are arranged on two circuits and each reflector on one. Of the remaining three circuits, one lights the organ loft, one the switch-board room and one runs the small motor to be used in pumping the bellows to the pipe organ.

This issue of THE CAMPUS is gotten out by the new editorial staff. The alumni department has passed into the hands of another and the retired editor goes on his way rejoicing. We wonder sometimes if he hasn't got the best of it, and if he doesn't feel care free and happy. The alumni department for the past year has been an interesting feature of the paper. We hardly hope to keep it as good for the first few issues, at least. Gathering alumni notes is an art which can only be perfected by practice. We realize there is a vast difference between the theoretical alumni department and the possible. Among the seven or eight hundred alumni there must be many interesting items each week if they could be gathered to a common head. Many of these items would prove a guide and incentive to the other alumni could they but reach them. The example set by one man may be the making of another, yet these men drift farther and farther apart and year by year lose their interest in their Alma Mater. If the alumni department of THE CAMPUS was perfected it would be a powerful bond, uniting the fortunes of alumni by a common interest. We feel that the department is weak and of course hardly expect to make it perfect but an improvement could easily be made. This improvement lies with the alumni themselves. It is impossible for the editor to keep in view even a few of the men who have graduated before his time. He can simply get such stray notes as come his way. If every alumni who reads these lines would send us a few notes of himself and college friends we could make this department of interest and benefit to all.

'76.

Among the bright young men of Maine who have made their mark in distant states is Fred M. Bisbee, brother of Superintendent Bisbee of the Auburn water works.

Mr. Bisbee was born in that part of Brunswick known as New Meadows. He received his education in the Livermore, Lewiston and Westbrook schools and finally took a full course and graduated at the Maine State University, Orono. His studies at that institution ran largely in the direction of civil engineering, and in this line he became recognized as an expert.

Shortly after finishing his education, Mr. Bisbee was married to Miss Addie Hamilton of Dexter and in 1877 the couple went to Kansas City. Here he tried to get employment as a civil engineer. He at once secured a position on the city water works, and rendered most excellent service. The mayor of the city, a Col. Jones, had been a rebel officer and was a very strong Democrat, while young Bisbee was equally strong and outspoken as a Republican. The frankness with which he expressed his opinions pleased Mayor Jones and that official succeeded in getting him an excellent position on the Topeka and Santa Fe railroad as assistant civil engineer.

Mr. Bisbee remained in the service of this road for five years, and then he went on the Central Mexico and El Paso railroad as superintendent of construction on the Mexican end. The distance from El Paso to the city of Mexico is twelve hundred miles and he had charge of its construction the entire length.

For six years Mr. Bisbee remained in Mexico, learning the language and becoming thoroughly familiar with the habits of the people. He then went into the employ of the Texas, Gulf & Rio Grande road, where he remained for one year.

From there Mr. Bisbee went to Springfield, Mo., as assistant general manager of the Frisco

road, where he has remained until a few weeks ago, when he resigned to accept the position of chief engineer and general manager of construction on the Tennessee Central, one of the largest and wealthiest railroad corporations in the South. He receives \$8000 per year for his services, which is almost a princely salary for these times.

It has been by his own energy and ambition that he has gone on, step by step, to the important position which he now holds. Such men are an honor to the state of their birth and a credit to the state of their adoption.

Ex-'78.

It was announced in an issue of "Engineering News" of recent date that Chas. E. Elwell had been promoted to the assistant superintendency of the Shore Line Division of the New York, New Haven and Hartford railroad.

'79.

F. D. Potter may now be found at 43 Cortlandt St., New York city, and is manager of the F. D. Potter Separator Co.

'81.

George W. Sturtevant, Jr., of Chicago, who is largely interested in mining properties in the southwest, recently passed a few days in Bangor, having his headquarters at the Windsor Hotel. Mr. Sturtevant is a hydraulic and mining engineer and upon leaving college he took a position on the Mexican Central railroad, where he remained for several years. He afterward established himself in Chicago and for the past seven years he has been interested in Arizona mining property.

"Arizona is in better condition today than ever before in her history," said Mr. Sturtevant. "The mining outlook was never so bright before and large amounts of eastern capital are being put in there every year. A large percentage of the property is paying remarkably well and there is plenty more in an undeveloped state which offers equal advantages."

'82.

Frank H. Todd is superintendent of construction work at El Paso, Texas, and may be addressed at P. O. Box 376 of that city.

C. W. H. Browne, who was formerly employed on the U. S. Geological Survey, has accepted a position on the faculty of the National Correspondence Institute.

'83.

F. E. Emery, who was formerly connected with the North Carolina agricultural experiment station, has been detailed by the secretary of agriculture to visit China, Japan, the Philippines and other eastern countries, with a view to extending the markets for American dairy products.

'86.

Arthur D. Page is now bridge engineer to the Great Northern railroad, St. Paul, Minn.

'88.

Geo. E. Seabury has accepted a position with the Edison Electric Co. at Easton, Penn.

'91.

Robert W. Lord may be addressed at 21 Linden St., Bath, Me.

'92.

Roscoe Clark has secured a position as draughtsman in the Saco department of the Saco & Peetee Machine Co.

'93.

Orren J. Shaw may now be addressed at Claremont, N. H. Mr. Shaw is a dentist by profession.

'94.

Herbert Murray of 131 Montgomery St., San Francisco, Cal., may be addressed at Nome City, Alaska, after June 1st of this year.

Frank G. Gould of Orono, who for the past year and a half has been assistant engineer for the Algoma Central Railway Co. of Ontario, Canada, has secured an excellent position with the Lake Superior Power company of Sault

Ste. Marie, Ontario, and will be assistant engineer on construction of the immense power canals which are being built in the American Sault and the Canadian Sault.

'95.

Gerardus A. de Haseth, formerly in the engineering department of the Boston & Albany railroad, is now employed as engineer with the Seattle Electric Light Co., Seattle, Washington.

Ex-'96.

The engagement is announced of N. E. Goodridge of Orono to Miss Josephine Blake of Boston. The wedding is to take place in Boston May 8th.

'98.

Warner E. Welch, recently of 24 Wilton Ave., Dorchester, Mass., is now located in Dunbar, Penn.

Clarence M. Hayes has accepted a position as draughtsman with the Kidder Press Co. at 43 Ham St., Dover, New Hampshire.

'00.

Harold E. Cook and Frank J. Small, graduates of the School of Law, announce that they have formed a co-partnership for the practice of general law at Waterville, Me.

H. L. Maddocks is engaged in lumbering operations at Cole Hill, Ontario, Canada.

Ex-'00.

Frank O. Johnson is employed with the General Electric Co. at Lynn, Mass. His address is 368 Summer St.

Ex-'01.

F. A. Willard is with the General Electric company, at Lynn.

PAN-AMERICAN.

Before this reaches you the mighty wheels of the Pan-American Exhibition have begun to revolve. A large part of the attractions at Buffalo this summer must necessarily be of a

technical character if the industries of the nation are justly represented. At this time we would all of us like to take a trip to Buffalo and see the many sights in that grand collection. Some of the more fortunate of the students intend going, in fact, quite a good number are talking of the trip and laying plans. Now those who go would undoubtedly have a much more pleasant trip if among the sea of strange faces they could find the familiar features of a former collegemate or even a U. of M. alumni. Arrangements have been made in some of the colleges to form a sort of club for the purpose of closer fellowship with undergraduates and graduates. If, in the course of the exhibition, a week could be appointed, called Maine week, and a place of meeting designed for U. of M. men it would add much to the pleasure of the trip. If any such arrangement is to be made it is time something was done. Some emblem might be agreed upon for each U. of M. man to wear. Entertainment of some form could be provided, say a dinner at one of Buffalo's representative hotels, at which all men connected with the university could attend. It seems as though something of this nature would be very helpful to the visitors and to the promotion of Maine spirit. Sufficient enthusiasm could be brought forward to make this movement prominent even among the many other demonstrations which will be at Buffalo at that time.

MILITARY.

In the last issue of THE CAMPUS it was stated that General Runkle, the new military instructor, would be here about July 1. Word has been received recently, however, that he will be obliged to come earlier. The exact date is not known but he is expected at any time. It is so late that there will probably be no regular drill this spring. The coming of General Runkle will doubtless mean several changes for us. Regular military drill will assist our athletics quite materially.

ATHLETICS.

THE DUAL MEET.

The first of the track events to engross our attention will be the meet between the freshman and sophomore track teams, May 4. This is the first dual meet between the freshman and sophomore classes and an exciting time is expected. Judging from the base ball and foot ball games between the classes, this event will be as interesting as some of the more important meets. The freshmen have probably the strongest entering team of either the four classes, but the sophomores have the advantage of a year's training and experience. There are good men in each class and both the teams are doing some hard work. The teams will be in good condition at the time of the meet and a lively competition will doubtless result.

CLASS MEET.

The next thing in the order of events will be the inter-class meet. This takes place May 11, and is the yearly meet between the four classes. Probably before the classes meet in the afternoon there will be held a meet between the High School teams of Old Town, Orono, Bangor and Brewer. This, taking place in the forenoon, will make a day's sport in track athletics. There are some good men in these high school teams and it is hoped by this method to get them more interested in college track events.

The meet in the afternoon will doubtless be the most interesting for the students, for the pennant given yearly to the class winning the largest number of points, is always a hard prize to win. A few of the best men have left college for the remainder of the year which will weaken some of the classes quite materially. Much interest is being shown and all four classes are looking for a hard-fought meet.

THE WORCESTER TEAM.

Of all our track events, perhaps the most important is the Worcester Meet which takes

place May 18. Sending a team to Worcester to compete with teams from colleges situated out of the state is comparatively a new thing for us, but it is an important event. We advertise our college beyond its little circle, in doing this, perhaps more efficiently than in any other way. The team for Worcester is not yet picked. Manager McCarthy thinks that about the same number of men will be taken this year as last. There are several men who will make a good showing but nothing definite can be decided until later.

THE INVITATION MEET.

The arrangements for the interscholastic meet to be held May 18 are nearly completed. Full better interest is being shown by the fitting schools than was at first expected. It is thought that this meet will arouse enthusiasm in field athletics and at the same time bring many strangers to our campus. These events will be conducted under the rules of the New England and the Maine Intercollegiate Athletic Association. The events to be contested for are as follows:

100 yards dash, 220 yards dash, 440 yards dash, 1-2 mile run, 1 mile run, 2 mile run, 120 yards hurdle race, 220 yards hurdle race, running broad jump, running high jump, pole vault, putting 16 pound shot, throwing 16 lb. hammer, throwing the discus.

The school winning the greatest number of points will be presented with a banner bearing an appropriate inscription. Each individual contestant winning first place in any event will be awarded a medal, and those winning second or third place will be awarded ribbons bearing appropriate inscriptions.

INTERCOLLEGIATE.

The intercollegiate meet occurs June 1 and will finish the track events of the season. This year the meet will be held on the U. of M. field. The running track has been newly cindered and the field will be in excellent condition for the contest.

A large number of men are showing interest in practice and Coach Mack feels sure the team will make a good showing. The freshmen are showing up in especially fine shape and some good men will be developed. A. L. Grover, captain of track team in '99, is expected May 3 and will pay special attention to coaching the

men in the weight events. It is hard to say any thing very definite of the team at present, but it is expected a strong team will be put on the field at the meet of the Maine colleges.

FRESHMAN BASE BALL.

The base-ball team, representing Old Town, found an easy victory in a team composed of members of the freshman class, April 20, defeating them by a score of 11 to 2. This game was the first played on the campus this season and the playing of the teams showed a lack of practice all round. The Old Town club was much superior in team work while the loose playing and lack of team work on the part of the freshmen were noticeable. Webber was captain of the freshmen team and put up a good game in the box. He has good speed and curves and is a heady player. His judgment at critical points was good. With more experience and practice he will be an able man. Russell backed the plate in a creditable manner considering it was his first experience this season.

There is abundant material for a good base ball team in the freshman class, but such a team can be brought to light only by the men turning out and putting in some good solid practice. This they have been loathe to do up to the present time. If the freshman team expect to do anything with the preparatory schools this season, it has got to get down to hard work.

A game was to be played with the Bucksport Academy nine, but was cancelled on account of the unfavorable weather. Chase, the manager of the freshman team, has arranged for a number of games to be played with the preparatory schools in the immediate vicinity. The freshman line up was as follows:

Webber, p
Russel, c
Chase, 1 b
Noyes, 2 b
Smith, s s
Flynt, 3 b
Hopkins, 1 f
Leighton, c f
Terry, r f

'VARSITY BASE BALL.

The 'varsity base ball team played their first practice game April 25 with a team from the Maine Central Institute. The game occurred on the campus and in spite of the strong wind

and the unfavorable weather for base ball, a large crowd witnessed the game. It was a victory for U. of M. with a score of 14 to 6. The hard clay of which the diamond is composed had absorbed more moisture than it could hold and the field was in wretched condition. The air was raw and unfavorable for warming up the men.

As seen by the scores, the home team found an easy victory in the visitors and the game was decidedly one-sided. This was not so much due to the good playing of the home team as it was to the bad playing of the M. C. I. boys. The game was decidedly loose from start to finish and both teams sadly lacked team work. This was no more than would be expected however, for it was the first game for each team.

Ross '01, pitched a heady game and was cool at critical points. After more practice he will doubtless steady down and good results are expected of him in the following games.

Chase '02, caught the most of the game and did fairly well. Towse '03, caught a part of the game until receiving an injury of the thumb, which stopped his playing. Chase will probably be the regular catcher and can doubtless catch a good game after more practice.

Putnam, who played on Colby last year, covered the ground between second and third. He is a fast man as was shown by his work and as he has not been out for practice before, made a good showing.

Russell '04, covered first base in good shape showing ability as a cool man. Dorticos took Russell's place in the seventh inning. It is doubtful at this writing who will play first on the regular team. It will depend largely on the batting qualities of the man.

Whitney '03, played in right field and put up a good game considering his inexperience. His work at the bat was very good.

Webber '04, was not tried in the box but covered left field. He is a good man at the bat and will prove a valuable addition to the team.

This game was just what the team needed, for it gave them valuable practice in team work and batting. Coach McGill will be with the team soon to aid Coach Rudderham. The team at present is working hard and will shortly get down to business. The results of the game are as follows:

U. OF M.

	B H	P O	A	E
Holmes, c f	2	2	0	0
Carr, 2 b	2	1	1	1
Chase, c	0	12	1	0

Total number of runs, 6.

THE BATES GAME.

That the University of Maine has got a winning team this year, is an assured fact, as the results of Saturday's game with Bates were ahead even of our highest hopes. Our boys gave an exhibition of ball playing that deserves our highest praise and support. The team work was of a high order and the men fielded, batted and played together in every respect in an almost perfect manner. The day was an ideal one for the game and a large crowd was in attendance.

Webber pitched superb ball and deserves all the praise that he got during the game. It would be useless to enumerate all the fine points in the individual players, for everyone played almost perfect ball. Following is the score:

U. OF M.

	H	P O	A	E	R
Holmes, c f	1	2	0	1	1
Carr, 2 b	3	2	4	0	1
Chase, c	1	8	1	0	1
Davis, 3 b	1	2	0	1	0
Webber, p	0	0	6	0	0
Russell, i b	0	10	1	0	0
Whitney, r f	0	0	0	0	1

Towne, p	1	0	2	0	0

Total number of runs, U. of M., 7; Bates, 4.

THE WASHBURN BOOK ABOUT MANDOLINS AND GUITARS.

Any one interested in the subject of mandolins and guitars can obtain a beautiful book about them free by writing to Lyon & Healy, Chicago. It contains portraits of over 100 leading artists including Abt and Siegel, together with frank expressions of their opinion of the new model Washburn Instruments. Descriptions and prices of all grades of Washburns, from the cheapest (\$15.00) upwards, are given, together with a succinct account of the points of excellence which every music lover should see that his mandolin or guitar possesses. Lyon & Healy, 20-40 Adams Street, Chicago.

A CHARMING BOOK ABOUT OLD VIOLINS.

Violinists everywhere will hail with delight the beautifully printed book about Old Violins, just published by Lyon & Healy. It contains a list of solo violins offered for sale at prices ranging from \$35 to \$10,000 and also sketches of the great violin makers. Sent free upon application to Lyon & Healy, 20-40 Adams Street, Chicago.

We also publish
Webster's Collegiate Dictionary
with Glossary of Scottish Words and Phrases.
"First class in quality, second class in size."
NICHOLAS MURRAY BUTLER.

Specimen pages, etc. of both books
sent on application.

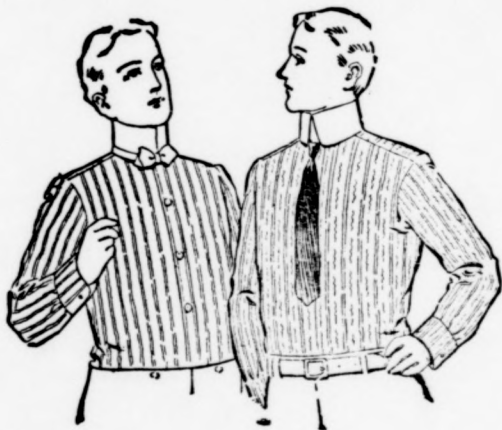

G. & C. MERRIAM CO.,
Publishers,
Springfield, Mass.

A Men's Wear Store.

If we had to live off men's wear alone, we couldn't sell men's furnishings at the prices we do. We keep a men's wear store, however governed by the dry goods store idea. In Men's Underwear, Hosiery, Neckwear, Dress and Fancy Shirts, etc., we carry those sensible lines that men appreciate, and we sell them at economical dry goods prices.

Men's Suit Cases at About Half.

Comfort and Coolness.

Comfortable Summer Underwear, Men's Suits and drawers to keep cool in. We have a word to say about that sort. One can't keep cool when crawling underwear plays ragtime with his nerves. We have a special make of balbriggan for hot weather wear. You can keep cool in it with comfort.

Our Laundered and Unlaundered White Shirts

at 50c and 75c each, are marvelous values, the full equal of those sold in "men's" stores at 75c and \$1.00.

A Discount of Ten Per Cent. From Our Lowest Prices to Students.

Cowhide or Bridle Leather Suit Cases, with double steel frames, double straps, sole leather corners, patent lock; regular price \$5.50 and \$6.00, at

\$3.98 Each.

Leather Finish Pedroid Suit Cases.

22 inch size, \$1.39 24 inch size, \$1.49.

Regular prices above are \$2.00 and \$2.50.

Are you acquainted with our Book Department? If not you ought to be.

Nothing is Just as Good

For you as what you want. Perhaps you've discovered that the offer of something you don't ask for often covers a small stock. Our stock is large enough to give you just what you want. In variety it is representative of the best, whether in medicines, soaps, perfumes or drugs. When you can't get what you want elsewhere, try at
