THE CAMPUS

Vol. III.

ORONO, ME., NOVEMBER 1, 1901.

No. 3

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

EDITORIAL STAFF.

MANAGING EDITOR.

ENOCH J. BARTLETT, 1902.

ASSOCIATE EDITORS.

M. GENEVIEVE BOLAND, 1902.

FRANK W. KALLOM, 1902.

ALVIN M. WATSON, 1902.

RALPH M. CONNOR, 1903.

SANFORD C. DINSMORE, 1903.

JOHN H. HILLIARD, 1903.

THOMAS E. LEARY, 1903.

CLIFFORD G. CHASE, 1904.

ROY H. FLINT, 1904.

BUSINESS STAFF.

P. EDWARD MCCARTHY, 1902,

Business Mgr.

ISAAC E. TREWORY, 1903,

Asst. Business Mgr.

Terms: \$1.50 per year, strictly in advance; single copies 10 cents.

Address all business communications and make all checks payable to P. E. McCarthy, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

Entered at the Post Office at Orono, Me., as second-class mail matter.

PRINTED BY J. P. BASS & Co.

STUDENTS' DIRECTORY.

TRAINS—Leave Orono for Bangor at 6.46, 8.57, 9.57, 10.52, A.M.; 12.45, 1.42, 2.52, 4.02, 7.12 P.M.

Leave Orono for points north of Old Town at 7.21 A.M.; 2.28, 5.04, 6.53 P.M.

Leave Bangor for Orono at 4.35, 7.00, 8.30, 11.30 A.M.; 1.15, 2.05, 2.50, 3.10, 4.45, 5.30, 6.30, 11.05 P.M.

Leave Bangor for the south and west at 7.15 A.M.; 1.35, 8.09, 11.45 P.M.

Leave Bangor for Bar Harbor at 6.00, 9.30 A.M.; 4.50 P.M.

ELECTRICS—Cars leave Bangor at 5.30 A.M. and each half hour thereafter until 9.00 P.M.; after 9.00 P.M. on

even hours until 11.00 P.M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10 m. past the hour.

MAILS—From Bangor and the west, 7.06 A. M., 3.29 and 6.53 P. M. From Vanceboro and the Provinces, 7.06 A. M. and 1.00 P. M. From Aroostook and Piscataquis Cos., 3.29 and 7.00 P. M. Mails will close at the post office for trains: To Bangor and the West, 6.30 A.M., 12.40 and 6.40 P. M. To Vanceboro and the Provinces, 3.10 and 6.40 P. M. To Aroostook and Piscataquis Cos., 6.30 A. M. and 12.40 P. M. Mails from Stillwater, 6.00 A. M., 5 P. M. To Stillwater, 7.45 A. M., 5.15 P. M.

The boats of the Boston & Bangor S. S. Co. leave Bangor for Boston, stopping at Rockland and intermediate landings, on Mondays, Wednesdays, Thursdays and Saturdays at 12 M.

The college library is open from 8.00 to 12.00 A.M. and from 1.30 to 5.30 P.M.

The college office is open from 8.00 to 12.00 A.M., also from 1.30 to 5.00 P.M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS.

AS a report has been circulated in the university that one man who played with Colby against the University of Maine, Oct. 12, was a student in Hebron Academy and not at Colby, a correct statement is only fair to Colby. At the time of the game the man was duly matriculated and in regular standing at Colby, doing his class work every day, but his work was not of a satisfactory grade and upon the recommendation of his instructors he returned to Hebron for further preparatory work.

WHILE football is the one important topic of conversation it may not be out of place to note a few of the results which have come from the football season thus far. One of these results is the implicit confidence which the student body has in the team. It takes a long time to get any organization of great importance on a good, sound basis and it has taken a long time to

get our football team to its present position. In former years, though the team has won an occasional game, it seemed to be the general deep rooted feeling that our team had no reserved strength and that its victories, glorious while they lasted, would be well paid for in defeats. This feeling naturally did not give a steady enthusiastic support. The enthusiasm was in spurts and the financial aid a matter of duty.

Last season it was recognized that there was good material for this year's team and steps were taken to give the team the best coaching that could be procured. At the beginning of this year there was considerable interest shown in football and the best financial support there has ever been was given. Every one was eagerly watching the team, but its strength was of watching the team, but its strength was of course not known.

Of course we were joyous over Colby's defeat but realized she was hampered in several ways and really our victory was to be expected. The first Bates game was a big surprise to the student body as a whole and we awoke to the fact that "Maine" had a strong team. What had been lacking in confidence before was surely made up now and every student in college believed away down deep that the same thing was possible again. It was possible and it was done, equal to the hopes of the most sanguine and now the confidence in the team is such that one defeat or two or even more cannot shake the belief that the team is playing good football, and will win more honors yet. This confidence is really an important thing. It is something you can't drive men to have. It must be won and once won it will assure the best support of all in defeat as well as in victory.

Another noticeable result is the increase in enthusiasm which is everywhere prevalent. In looking over the exchange and file of college papers one finds throughout the football sea-

son the general cry "lack of enthusiasm." This institution was this way last year but not this. We have enthusiasm, lots of it. Of course there could be more but there is really quite an improvement. This improvement is noticeable in the faculty also, though it is very doubtful if the percentage of increase is as great as in the case of the students.

Football this year has also given our college greater prominence than it has ever before enjoyed. The fact of its winning three of the Maine college games without a single defeat and that one of the defeated teams had scored on Harvard previous to the game with us, has made our name better known to the New England colleges than ever before. The fact that we have played a game with Harvard and have a game of baseball scheduled with her for next spring proves that at least one of the large colleges is regarding us of a little importance. Whatever the remainder of the season has in store for us we feel that we may safely say that the season's work has been a success, for it has given the college a new confidence in athletics, an increased interest in her organizations, and has brought the college itself more forcibly to the notice of many.

ONE of the features of the game with Bates on Oct. 15 was the hearty support the Bowdoin students gave our team. A large delegation from Bowdoin came up to see the game and promptly bunched in the grandstand together with a few of our alumni and students who were present. All through the game they applauded the good plays and if a poor play was made encouraged the team in every way possible. In fact their support was all that could be desired and often the cheers of the Bates students were drowned out by our own familiar yell of "Maine" issuing from the end of the grandstand occupied by the Bowdoin students.

This little incident, while of slight importance in itself, is really representative of something which is of the greatest importance, the friendly feelings which are apparently mutual between the University of Maine and the other Maine colleges. That this friendly condition of affairs continues to exist is much to be desired for no one of the four Maine colleges can afford to lose her friendly relations with the others.

ON Nov. 16 at Brunswick occurs our final game of football for this season. Although it is some little time before that date it is not too early to think about going down with the team and doing our part toward winning. Special rates have been secured for the round trip at less than the usual fare one way and a large delegation is expected to go with the team. After the defeat of both Bowdoin and Maine last Saturday it would seem that the strength of the two teams is about equal and that we may look for the game of the season to be fought out on the Bowdoin gridiron. With round trip tickets at two dollars we can't afford to miss this opportunity of witnessing what will probably be the best game of football played in the state this season and of giving our team the support which it has so honestly earned. Let "On to Brunswick" be our cry and every man and woman in college respond.

RESIGNATION ACCEPTED. DR. HARRIS LEAVES ORONO DEC. 15.

At a meeting of the trustees of the University of Maine, Oct. 21, the resignation of Dr. Harris was formally accepted. The trustees used all the influence in their power to persuade Dr. Harris to remain with us but to no avail and so his resignation was at length accepted. Dr. Harris' departure means a great loss to the institution and it is with sor-

row that we see time drawing near when he is to leave us. He intended to take his departure some time in November but has finally consented to extend his stay until Dec. 15.

At the meeting of the trustees a committee consisting of the following members were elected to select a new president: Henry Lord, E. B. Winslow, A. J. Durgan and W. T. Haines.

There have already been several applicants for the position but the committee intend to take plenty of time and make their selection with the greatest of care.

The position Dr. Harris is to hold is director of Jacob Tome Institute. Its president is the widow of the Hon. Jacob Tome, its founder.

Through the courtesy of Dr. Harris we give the following sketch of the institution:

The Jacob Tome Institute, situated at Port Deposit, Md., upon the Susquehanna river, about midway between the cities of Baltimore and Philadelphia, was founded by Hon. Jacob Tome, who gave it the bulk of his great fortune.

It is a system of schools, including a kindergarten, primary school, middle and high schools.

The first building was erected at a cost of \$100,000 in 1893. The next buildings provided were a gymnasium and a special building for the Junior School.

The endowment has been variously estimated, but cannot be stated accurately as much of the property is undeveloped. At present the institute enjoys the income on a capital of between two and three million dollars.

Until recently the institute received only day pupils, and though the attendance was nearly six hundred, and the institute paid most liberal salaries and furnished the best of all facilities, the income always exceeded largely the expenses, and occasioned the accumulation of a large surplus.

In 1900 the trustees determined to use this

surplus in developing a boarding school for boys. They bought a large tract of land on the top of an abrupt bluff, more than two hundred feet high, overlooking the town of Port Deposit, affording a magnificent view of the Susquehanna river, Chesapeake bay, and a beautiful hilly country; and there began the construction of a plant which promises to surpass anything yet provided for any similar school in this country.

It is the purpose of the trustees to build a secondary school of the highest grade. The magnificent location and the great endowment, many times that possessed by any other secondary school in the country, furnish a good opportunity for carrying out their plans.

The site and all the equipment furnish the best physical conditions. The campus has been beautifully laid out by landscape gardeners at an expense of \$50,000. A great supply of water has been obtained, and a water system sufficient for a small town constructed. A complete sewer system has been installed. The buildings are the most durable and most beautiful, constructed of granite, heated by steam, lighted by electricity, furnished with artificial ventilation. The main building cost more than dence for the director, an inn for the accommodation of faculty and visitors, a dining hall to accommodate two hundred boarders, a dormitory, an infirmary for sick students including a residence for a physician and two wards for patients, a power house to supply heat, power and electricity, and including a large steam laundry, the Middle School building, the Junior School building, the gymnasium, and a number of residences for the teachers. Of the school buildings all but three are upon the campus of the Senior school.

The provisions for sports include baseball, football, tennis, golf, skating, etc., all under the careful oversight of a physical director.

The dormitory is beautifully, but not extrav-

agantly furnished. It is under the immediate supervision of two resident instructors and in charge of a housekeeper, who will care for the boys' clothing.

The work of the Senior School is planned to give the best result in three directions: (a) In a preparation for literary or scientific courses in college; (b) In preparation for technical schools; (c) In preparation for business life without college training.

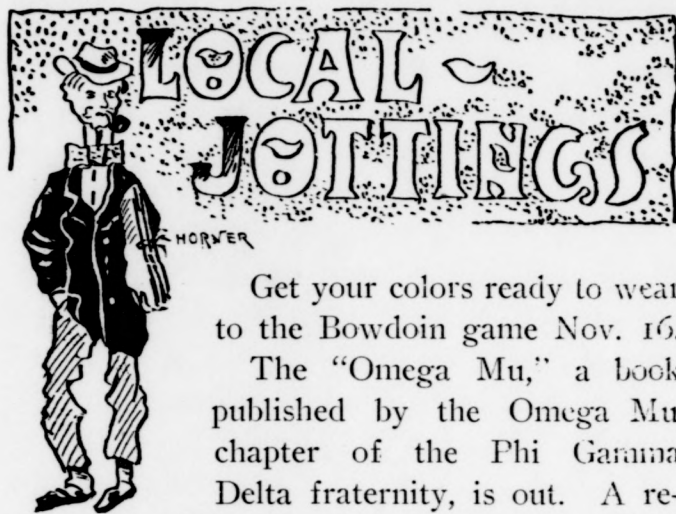

Every attempt will be made to obtain the best teachers, and give them every reasonable facility. Manual training, music, art, commercial training, and other special studies will be offered without extra charge, and under the best conditions, to such an extent as they may be deemed useful for the best training without displacing the substantial of a liberal education.

The controlling ideal of the Institute is to give its pupils the best environments and the best opportunities, and to make them available to both rich and poor. This is made possible only by the liberal endowment. The annual charge is \$400 for tuition, furnished room, board, lodging, care of clothing, laundry, text books and stationery, and for residents of Maryland, scholarships reduce this charge to \$300.

Bates has erected a new grand stand which has cost over \$1000. It is said to be the finest building of its kind in Maine.

CLASS OFFICERS.

Seniors, juniors and sophomores in the Civil Engineering Course, Prof. Grover; in the Mechanical Engineering Course, Prof. Flint; in the Electrical Engineering Course, Prof. Webb; in the Scientific, Latin Scientific and Classical Courses, Prof. Harrington; in the Pharmacy, Chemical, Preparatory Medical and Agricultural Courses, Prof. Jackman. Class officers of the first half of the freshman class, C. L. Cole; last half, Prof. Lewis,

Get your colors ready to wear to the Bowdoin game Nov. 16. The "Omega Mu," a book published by the Omega Mu chapter of the Phi Gamma Delta fraternity, is out. A review of it will be given in an early issue of THE CAMPUS.

It is understood that at the last meeting of the board of trustees steps were taken which will insure a beginning on the new fraternity house for the Phi Kappa Sigma fraternity. This house when completed will doubtless be a great addition to the appearance of our campus.

Quite a number of the faculty attended the meeting of the Maine Association of Colleges and College Preparatory schools in Augusta last Saturday. Prof. Estabrooke was elected president of the English and History department and Prof. Stevens president of the Mathematical and Physical department.

C. W. Lewis, '03, has been confined to his room several days with an attack of bronchitis.

The Penobscot Valley Alumni Association will give a dinner to Dr. Harris before his departure. It is expected this will be one of the best dinners ever given in this vicinity. E. H. Kelley, '90, has been elected president of the association and C. A. Dillingham, ex-'90, secretary.

Dr. Harris has been attending the Bicentennial at Yale at which he gave an address.

Prof. Lewis went to Tufts last week to see the football game.

Dr. Harris makes a trip this week to Ft. Deposit, Maryland, the scene of his future labors.

The seniors are selecting subjects for their theses. The heads of the departments have requested that the subjects be decided upon by the end of the Thanksgiving recess.

The seniors in the engineering courses are talking of taking a trip to Millinocket to see the machinery.

Quite a large force of men under the direction of Prof. Munson have been at work improving the appearance of the campus.

The new boiler is being placed in position but will not be ready for use for some time yet.

The college band has begun its rehearsals and from present indications will soon be able to dispense music of a high order.

It is rumored that the B. O. & O. cars are to change time and will after cold weather begins run only once an hour.

Manson, '04, has been sick for a few days.

R. H. White, '03, spent a few days at his home during the past week.

F. L. Baker of Portland is visiting his brother, E. L. Baker, '03.

The following men have returned to college during the past week. R. C. Davis, R. M. Connor and S. G. Small, all of the class of 1903.

Mrs. Priscilla Douglass, matron at the Alpha Tau Omega fraternity house, is at the Eastern Maine General hospital undergoing treatment for the ill effects following the breaking off of a needle in the palm of her hand.

Sanford C. Dinsmore, '03, of Dover has been elected manager of the track team for next year at a recent meeting of the executive committee of the athletic association.

Rules have been posted governing the use of the bowling alleys. On Monday, Tuesday, Wednesday and Thursday the alleys will be open for use from 12 to 5.30 o'clock; on Friday from 12 to 9, and on Saturday from 8 in the forenoon to 9 in the evening. Regulations governing the men who are bowling have also been posted.

Gen. B. P. Runkle, commandant of the Coburn corps of cadets, has issued general orders No. 2, stating the dates of the drills for October and November. The battalion is divided into three companies which drill in turn.

The first meeting of the year of the Mathematical and Physical Section of the Scientific Association was held Oct. 23. Mr. Burbank was elected president and Mr. Coffin secretary for the coming year. A paper entitled the Continuity of Irrational Numbers was given by Mr. Siff.

E. W. Delano, '02, spent Sunday at his home in Abbot Village. Scott P. Livermore, '04, accompanied him.

E. B. Ross, '02, and R. H. Flynt returned Sunday from a few days' hunting and canoeing trip to Pushaw lake.

Philip H. Harris, '03, went to Portland Saturday to witness the Dartmouth-Bowdoin football game, remaining over Sunday at his home in that city.

The military uniforms are expected very soon and it is hoped one of those military dances will be held at once.

P. D. Simpson, '03, has been obliged to return home on account of sickness.

The seniors held a meeting recently and elected the following officers: President, P. Edward McCarthy, Lewiston; first vice president, Fred E. Holmes, Machias; second vice president, Henry C. French, Rumford Center; secretary, Allen F. Wheeler, Brunswick; treasurer, Henry E. Cole, Pleasantdale; executive committee, Clinton E. Rackliffe, Easton, Harry M. Carr, Sangerville, Arthur W. Bacheldor, North Sebago, Edward W. Delano, Abbot, Enoch J. Bartlett, Monroe.

Although no regular classes in the gymnasium work have as yet been started there are some who work in the gym regularly each day. An agent for Wright & Ditson, dealers in sporting goods, was on the campus last week taking orders for gymnasium supplies.

At a recent meeting of the freshman class the following class officers were elected: President, Alphonso Wood, Belfast; first vice president, Edward F. Bearce, Auburn; second vice president, Miss Florence Balentine, Orono; secretary, Miss Mabel F. Powell, Orono; treasurer, Lester F. Mitchell, West Newfield. The executive committee is to be appointed by the class president. A committee consisting of H. D. T. Thatcher and five members to be appointed by him was elected to receive the peanuts that the class won from the sophomores in the baseball game this fall.

The second annual meeting of the Maine Association of Colleges and Preparatory Schools was held in the state house, Augusta, on Friday evening and Saturday morning, Oct. 25 and 26.

The Maine association is not a gathering simply of the heads of schools and colleges in the state but of *all teachers* engaged in college preparatory and college work. It is hoped that the membership may be largely extended and that school principals and others will do their utmost to advance this movement. The proposal of candidates for membership should be made to the executive committee or secretary.

The officers of the association are: President, H. E. Trefethen; vice president, F. E. Woodruff; secretary and treasurer, J. W. Black. The membership was 110 last year and has increased 41 since then.

Following is the program:

FRIDAY EVENING.

Report of the Committee on Legislation, by Prof. H. M. Estabrooke, University of Maine.

Discussion: Opened by President Charles Lincoln White, Colby college, and followed by others.

Report on the Organization of the Maine Modern Language Association, by Prof. Arthur N. Leonard, Bates college.

Informal reception in the corridor of the

State House, where refreshments were served.

SATURDAY MORNING.

Business meeting.

Report of secretary and treasurer.

Report of the executive committee and election of new members.

Report of the nominating committee and election of officers.

Report on the organization of special departmental conferences.

Report of the committee on college entrance requirements, by Principal Albro E. Chase, Portland High school.

Discussion: Opened by Prof. Frank E. Woodruff of Bowdoin college, and continued by Principal O. H. Perry of Westbrook seminary, and others.

"Admission Examinations by a Joint Examination Board," by Prof. Karl P. Harrington, University of Maine.

The discussion of this topic was continued by Principal H. K. White, of Bangor High school, and others.

MAINE NIGHT.

The first annual celebration of Maine Night will go on record as a great success.

The crowd which began to come long before the beginning of the exercises filled the large chapel in Alumni Hall to its utmost capacity. Many chairs were placed in the aisles for the accommodation of the visitors, yet many were compelled to stand.

From the walls of the room hung long, huge streamers of blue bunting, while nearly everyone wore blue ribbon; the effect under the brilliant light of the electric chandeliers overhead was beautiful, one not soon to be forgotten. The stage was also very prettily decorated with ferns and potted plants and to the rear was a football with a large M on it and

decorated with Maine flags and ribbons. On the front of the stage was a festoon of blue bunting and the space in front was occupied by several pieces of Pullen's orchestra.

A few minutes after 8 o'clock the orchestra struck up a march familiar to us all and then the large doors next to the stage were thrown open and the football team headed by Captain Dorticos and closely followed by Coach Farley marched in amid the cheers of the students and their friends.

On the stage were Pres. A. W. Harris and Prof. O. F. Lewis, chairman of the meeting, who, after the cheering had subsided, came forward and in a few well chosen words told of the Maine Night celebration, its purposes and how it was hoped that it would be observed in the future. The Maine Campus Song was sung by the Glee club and the entire audience who had been furnished with copies joined in the choruses.

Chairman Lewis then introduced Hon. L. S. Southard, president of the Boston Alumni association of the University of Maine. Mr. Southard is a man whose name stands high in the hearts of the students as a strong supporter of athletics in this university. He told how pleased he and the Boston Alumni were when they heard of the two victories of the season and at the end of his speech was greeted with much applause.

Prof. Lewis then made the announcement that Mr. Southard had already given a check for \$25 and had another one if the team won the game the next day; this we did with ease.

Will R. Howard, '82, was the next speaker to be introduced by Chairman Lewis, who told of some of his experiences in his college days and cited the growth of athletics from that time to the present day.

Dr. W. H. Jordan, an alumnus of the university and at present director of the New York experiment station, was the next speaker and as he ascended the steps to the platform

was greeted with tremendous applause. Dr. Jordan told of his first trip to Orono when he was a freshman and humorously cited a number of events of those days, all of which were received with much pleasure.

At the conclusion of Dr. Jordan's speech, Chairman Lewis announced that Col. I. K. Stetson, who had planned to be present to say a few words, was obliged to stay away on account of business affairs, but when he sent his regrets enclosed a check for \$25, which he knew would be much better than a speech.

Prof. Lewis then called on Prof. George E. Gardner, dean of the school of law. Prof. Gardner was very humorous throughout his speech and was interrupted many times by laughter and applause.

Coach Farley was the next speaker. He spoke on the science of the game and told of how the team should be supported by the faculty as well as the student body.

Capt. Dorticós also made a few remarks and presented the two footballs used in the games already won to Physical Director Grover. These are to be hung in the trophy room in the gymnasium.

P. Edward McCarthy spoke for the undergraduates with words of praise for the spirit and enthusiasm shown by the students in the university towards athletics.

Dr. Harris was the next speaker and was greeted with great applause by the students.

At the conclusion of Pres. Harris' speech the Maine yell was given and the meeting closed with the singing of America.

An informal reception, complimentary to Dr. Harris and the alumni of the university, who had returned for Friday night's celebration, was held in the gymnasium, immediately following the exercises in the chapel. Many alumni met each other and everybody enjoyed themselves while Dr. O. E. Wascatt led the orchestra for a number of selections.

At the close of the reception in the gymnasium, a number of the visitors were entertained by the members of the Beta Theta Pi fraternity at their house on the campus. Refreshments were served during the evening and college and fraternity songs were sung. Among those present besides the members of the chapter were: Hon. L. C. Southard, Prof. George E. Gardner, Prof. O. F. Lewis, Will R. Howard, Harry M. Smith, Librarian R. K. Jones, Coach Frank W. Farley, Edward H. Kelley, S. D. Thompson, Harry S. Boardman, Harry M. Prentiss, Harry W. Lunt and Frank S. Benson.

Fully 700 people, including students, faculty, alumni and friends of the institution, were present. A large party of women occupied seats among the audience. Among the alumni present, besides members of the faculty, were the following:

George H. Hamlin, '73, Hon. L. C. Southard, '75, Dr. W. H. Jordan, '75, A. H. Brown, '75, Dr. W. H. Jordan, '75, A. H. Brown, B. E. Clark, '87, Charles A. Dillingham, '90, Edward H. Kelley, '90, Dr. F. W. Sawyer, '90, George E. Thompson, '91, Alden P. Webster, '91, Clarence Scott, '91, Harry M. Prentiss, '92, Harry M. Smith, '93, H. B. Buck, '93, Vernon K. Gould, '97, Stanley J. Heath, '97, Guy A. Hersey, 1900, Frank S. Benson, 1901, S. D. Thompson, 1901.

THE BATTALION BAND.

The latest college organization is the Battalion Band. A band is much needed here for it will be very useful on quite a number of occasions throughout the year. There are lots of men with good musical ability and a very creditable band can doubtless be picked. The work of selecting the men has already begun and the preliminary rehearsals are well attended. The band will consist of sixteen pieces and is under the instruction of Mr. Adams of Bangor, who is well known as a cornetist in this vicinity, having played in Pullen's orchestra for several years.

'76.

Rodney D. Hunter may be addressed at Nome, Alaska.

'86.

Ralph K. Jones, librarian of the university, attended a meeting of the Eastern Maine Library club in Corinna, Oct. 25, and was re-elected president for the ensuing year. He also attended the meeting of the Maine Library association at Brunswick in September and was re-elected first vice president.

'88.

Fred L. Eastman has left his position as foreman of special motor work in drafting room of the General Electric Co. at Lynn, Mass., to accept a position as assistant to the U. S. inspector of equipment at the Foss River Ship and Engine Co., Quincy, Mass. Mr. Eastman is at present residing in Weymouth, Mass.

'90.

The Alumni Department of THE CAMPUS has heretofore unintentionally omitted to print a notice of the death by heart disease of Alphonse J. Coffin. Mr. Coffin was in the employ of the Joseph Dixon Crucible Co. of Newark, N. J., representing the company in the sale of railroad supplies in New York state and New England. He stood high in the opinion of the officials of the concern and had been suggested as the manager of the Pittsburgh office after the first of next January. For a time previous to going with this company Mr. Coffin was located in Boston and New York and previously was one of the colony of University of Maine men at Roanoke, Va., engaged in various enterprises in the early '90s.

Mr. Coffin was born in Harrington and was about 33 years of age.

'94.

Herbert Murray may hereafter be addressed at Nome, Alaska, in care of Rodney D. Hunter. Notice was given above of Mr. Hunter's residence in Nome.

'96.

Ralph B. Manter is supervisor of the province of Zambolis, Philippine islands.

Gilbert Tolman received the degree of M. A. at Columbia University last June, and was appointed assistant in physics for one year.

'97.

Charles H. Farnham has an appointment as an engineering supervisor in the province of Bulacan, Philippine islands.

'98.

Wilson D. Barron has entered the Tufts College Dental school at Boston for a three years' course in dentistry.

Edward H. Davis is in the employ of the Walworth M'f'g. Co. of Boston. His address is No. 11 Blackwood St., Boston, Mass.

Leon E. Ryther has entered upon his second year as principal of the Orleans, Mass., High school.

Lieut. Alfred A. Starbird of the Sixth U. S. artillery, after two years' service in the Philippines, has returned to the United States and is stationed at Fortress Munroe.

Horace L. White has been appointed professor of chemistry in the Medical Department of the University of Vermont and will be in Burlington after Jan. 1, 1902.

'99.

Mrs. Pearl Clayton Swain is teaching in Corinna, Me.

'00.

F. H. Mitchell, principal of the Ft. Fairfield High school was on the campus recently.

Shortly after Commencement last summer came the sad news of the death of Mr. C. H. Rollins, who graduated from the University of

Maine in the Electrical Engineering course. Since his graduation he had been taking the student course at the General Electric Company at Lynn, Mass. On June 21 he was engaged in putting a belt on a small motor pulley. He could have adjusted the belt from above but in his hurry climbed upon a platform beneath the pulley though he had been cautioned against the danger several times. When coming down he slipped and fell across a cluster of wires carrying from 2,000 to 8,000 volts each and received the whole charge. He was killed instantly. Mr. Rollins was 21 years of age and prepared for college at Veazie High School.

OF.

J. H. Bixby may be addressed at 309 Mills St., Braddock, Pa.

C. A. Mitchell is organizing an alumni association at Chicago. A meeting will be called some time in November. Mr. Mitchell's address is University of Chicago Power Station, Chicago, Ill.

ATHLETICS.

U. OF M. 6; BATES 0.

On Oct. 15 the University of Maine team played its second game for the season against a college team. The opponent was Bates and the game was played at Lewiston. The day was perfect for the game but the field was in a muddy, sticky condition owing to the recent rain. Bates won the toss and Allen kicked off to Dorticos, who advanced the ball to Maine's 25 yard line. Webber gained five but fumbled the ball and lost it. It is now the hour of Bates' rejoicing for the Garnet line sweeps into the Blue, skirts the end and gains seven yards. Allen loses ground, the second down makes no gain and then Bates punts almost into the goal and down comes Frisky. Poor interference and superb running and he gains 5, 10, 15, 23

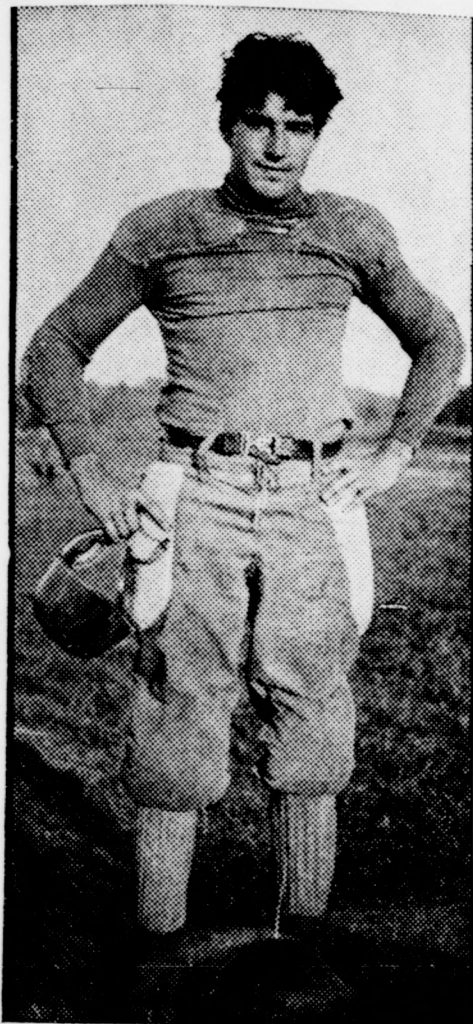

good yards before he falls and the ball is on Maine's 30 yard line.

Little by little the Maine team gained on Bates but it was slow work for Bates displayed remarkable holding strength. Maine kicked on the third down to Allen who advanced 15 yards before being tackled by Bailey. Here Bates held and made the try of her life; slowly she advanced. Moody, Finn and Babcock worked heroically but no man's strength could stand that sort of thing long. Finally the slippery ball fell from a Bates man's arms and went to Maine not far from the center of the field.

With long gains Maine sweeps around Bates' ends and breaks through her line. Webber is hurt and retires from the game and Dorticos takes his place and at the first rush carries the ball ten yards through Bates' center toward the goal. Around right end for a gain and a straight plunge through the center carries the ball across the goal line. It is Dorticos' touchdown and the goal is easy. The score: Maine, 6; Bates, 0.

Only eight minutes remained. Allen kicked to Davis, who made a beautiful run and came back 40 yards before he could be stopped. Davis went out at this point and Taylor took his place. Up and down the teams fought until the whistle blew. The first half ended with the ball in Maine's possession near the center of the field.

The second half was half over before any decided gain was made for either team, then Bates advanced the ball within five yards of Maine's goal but right here where the score could have been tied Bates lost the ball and by a series of good gains Maine carried it to the center of the field. Here the Bates line held fast. Back and forth over the center of the field the ball was carried. At length Bates advanced the ball within 20 yards of the Maine goal posts but here she was stopped. End runs were useless. Time was called and the victory was Maine's.

CAPTAIN DORTICOS.

U. OF M. 17; BATES 0.

The outcome of Saturday's game, Oct. 19, whereby the University of Maine defeated Bates on Alumni field at Orono by a score of 17 to 0, decided for good and all the superiority of Coach Farley's eleven over the boys of Garnet. After the defeat of the Bates team on their own gridiron at Lewiston, last Tuesday, by the U. of M., sharper contention was anticipated on their part than was exhibited Saturday. The Bates team was wretchedly weak in their line. Not once in the game did they hold Maine for downs, and only three times did they force their opponents to punt. The ball was in their possession for only about five minutes of actual play during the whole game. The field was in a bad condition as the clayey soil of which it is composed had absorbed the rain of the day previous, making the ground slippery, though this was relieved to some extent by the application of sawdust to the extremely bad places.

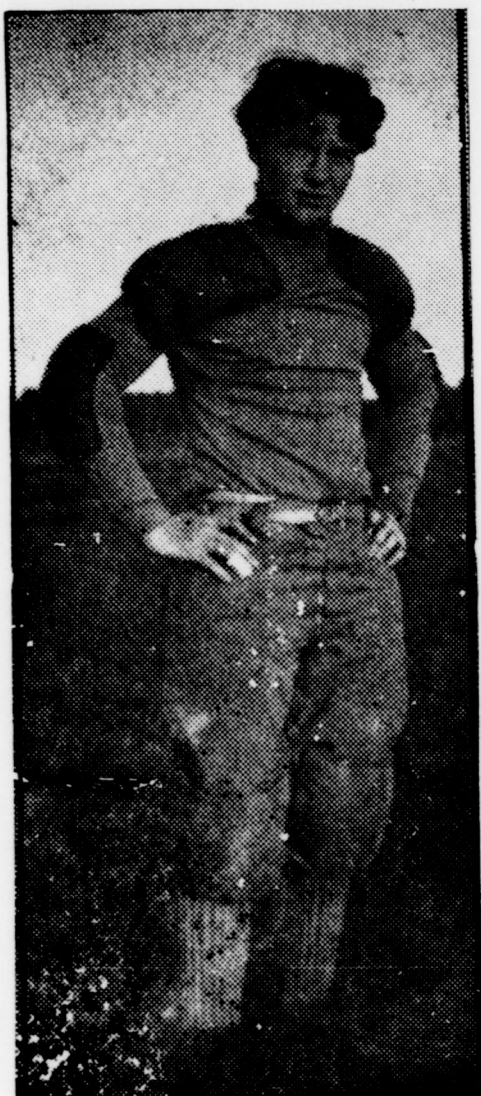

By reason of the excessive weight, which averaged about 15 pounds to the man heavier than their opponents, the university team had easily the advantage. The game was played in a thoroughly clean manner and but very few fumbles were noted. Within three minutes from the time the referee's whistle sounded to play in the first half, Davis went through Bates' tackle for a touchdown. The feature of the game was also in this half, when Dorticos broke through Bates' right tackle and sprinted down the field 55 yards for another touchdown. For Maine, Bean at end proved a strong find and repeatedly tackled the Bates half for big losses. Davis at left half made wonderful gains around Bates' end, never failing to gain his distance. Dorticos played his usual strong game at left tackle.

Taylor, who played right halfback during the second half, showed up particularly well and seldom failed to gain his distance. Brad-

The line up:

U. of M.		Bates.
McFarlane	r. e.	Piper
Towse	r. t.	Cole

 halves.

BRADFORD, HALF BACK.

ford at left halfback played the game from start to finish and his long gains were a feature. Webber, the big fullback, waded through Bates' line at will. His bucking was of a high order. In the line every man played his position and was a wall through which the Garnet could not break. On the other hand, they opened big holes in their opponents' line. For Bates, Finn at full and Moody at right half played the strongest game.

Maine won the toss and chose the west. goal. Bates kicked to Maine's 30-yard line to Bean, who was downed without a gain. Bradford took the ball around right end for a gain. Davis circled right end and shot down the field

for 30 yards. The ball was now on Bates' 30-yard line. Webber rushed it through right guards for six yards; Bradford around the right end for one more; Webber then went through the line for three and was followed by Bradford who, by a skin tackle play, gained 12 good yards. The ball was on Bates' 5-yard line but they could not hold back the fierce onslaughts of the university lads, and Webber bucked the line, placing the ball within half a yard of their goal line. Davis was then given the ball and went around left end for a touchdown. Time, three minutes, 11 seconds.

Dorticos kicked a goal and the score was 6 to 0 in Maine's favor.

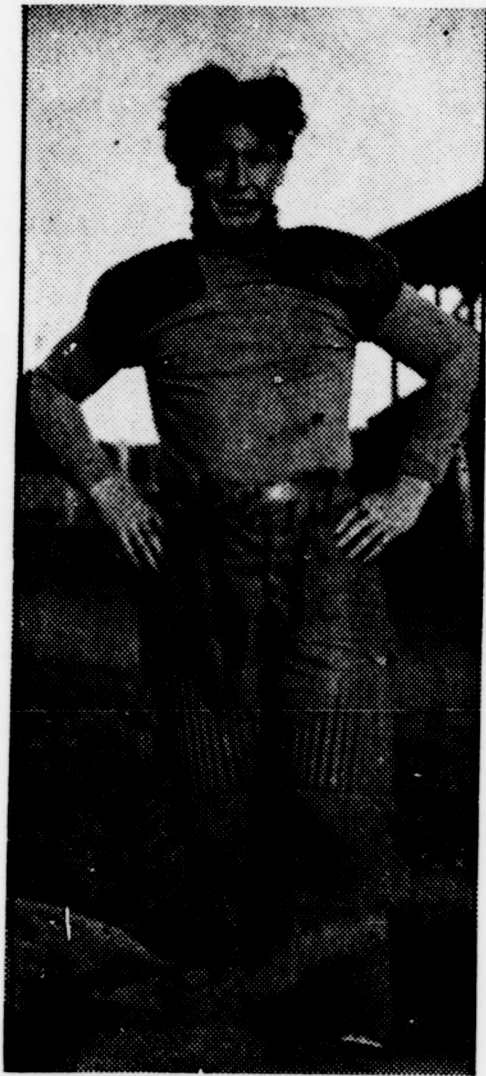

The teams faced each other again and the ball sailed to Maine's 25-yard line, where Bradford gained three yards before being downed. Three gains by Webber advanced the ball six yards further. Bradford took it through left guard for four yards and a gain of $2\frac{1}{2}$ yards by Dorticos placed the ball in the middle of the field. On the next play Dorticos went through right tackle and sprinted down the field 55 yards for a touchdown. Time, three minutes. Dorticos kicked a goal and Maine had 12 points to the good.

Bates kicked to Maine's 40-yard line to Bean, who was downed without a gain. Webber tried left end for 14 yards, Bradford took it around right end for three more and Webber bucked the line for first down. Gains by Davis, Dorticos and Bradford netted Maine 12 good yards. In the next four plays Webber got three yards on a tackle play, Bradford got five yards through the same place, Davis circled the end for six yards and Webber bucked the line for $3\frac{1}{2}$ more. On the very next play Maine gained 14 yards on a pretty double pass of Bradford to Bean. A gain of three yards more by Dorticos placed the ball on Bates' 15-yard line. Webber tried a goal from the field but failed and the ball was in Bates' possession. Bates could not gain and punted to Davis, who

advanced it 15 yards. After a loss of five yards Webber punted to Bates' 5-yard line. Finn bucked Maine's line for five yards, but they got on the next two plays only small gains and time was called with the ball in Bates' possession on their 15-yard line.

GUARD SAWYER.

In the second half Webber kicked to Bates' 15-yard line to Moody, who returned it five yards before being downed. The ball went to Maine on a fumble and Bradford tried right tackle for eight yards. Webber went around the end for five yards and followed this up by two more gains of five and one yard. On the next play Webber went through tackle for a touchdown. Time, 2.50. Dorticos failed at a goal. Score 17 to 0.

Bates kicked to Webber on the 5-yard line, who advanced it 20 yards. Taylor gained five yards through tackle and Webber sent it along five more through the line. Maine on the next two plays failed to get five yards and Webber punted to Moody, who dropped it but quickly recovered it, however, with no gain. Gains by Reed and Finn gave Bates five yards. Piper went through left tackle for a gain of four yards but Moody was unable to advance it further. Pugsley got six yards, however, on the next play and an attempt at a trick play lost ground for Bates. The next play was also a loss. Bates got 10 yards for Maine's coaching from the field and the ball was now on the U. of M.'s 35-yard line. Bates was unable to gain her distance and the ball went to Maine on downs. Maine got 10 yards on off-side play by Bates. Webber went through tackle for 4½ yards and followed this up with a gain of nine more through right tackle. Taylor gained three and Bradford made a fine end run of 20 yards. The ball was now on the 35-yard line. Webber fumbled and Bates fell on it. They got only small gains and then returned a punt, the ball being caught by Bradford who gained five yards. Time was called with the ball in Maine's possession on Bates' 40-yard line. Score, 17 to 0. The lineup:

U. of M.	Bates.
Cole, l. e.	r. e., Piper
Dorticos, l. t.	r. t., Cole
Elliott, l. g.	r. g., Ramsdell
Rackliffe, c.	c., Cutter
Sawyer, r. g.	l. g., Childs
Towse, r. t.	l. t., Reed
Bean, r. e.	l. e., Pugsley
Bailey, q. b.	q. b., Hayes
Davis, l. h. b.	r. h. b., Moody
Bradford, r. h. b.	l. h. b., Babcock
Webber, f. b.	f. b., Finn

Score—University of Maine, 17; Bates, 0. Touchdowns, Davis, Dorticos, Webber. Goals from touchdowns, Dorticos, 2. Umpire, W. C. Mutty. Referee, Dr. Angus Frew. Linesmen, Ross and Hamlin. Timers, Halliday and Davis. Time, 20 and 15-minute periods. Attendance, 800.

THE CAMPUS

TUFTS 18; U. OF M. 5.✚

Our football team met defeat for the first time this season last Saturday afternoon when we were downed by Tufts college in Medford, Mass., by a score of 18 to 5.

Spectacular play preceded Maine's touchdown. Davis made a run of 35 yards and a series of short gains brought it to Tufts' one-yard line and Maine lost the ball on a fumble.

Knight punted to Davis on the 45-yard line who made a brilliant run through the whole Tufts team and scored the only touchdown. The try at goal was unsuccessful, the ball being blocked by Tufts.

The lineup:

Maine.	Tufts
Bean, r. e.	l. e., Plunkett
Towse, r. t.	l. t., Danforth
Sawyer, r. g.	l. g., Galarneau
Rackliffe, c.	c., Gage
Elliott, l. g.	r. g., MacMahon
Dorticos, l. t.	r. e., Dunham
Cole, l. e.	r. e., Connell
Bailey, q. b.	q. b., Flagg
Davis, r. h. b.	l. h. b., Clement
Bradford, l. h. b.	r. h. b., Chapman
Webber, f. b.	f. b., Knight

Score, Tufts, 18; Maine, 5. Touchdowns, Chapman, Knight, Davis, Clement. Goals from touchdowns, Clement, 3. Umpire, Metcalf. Referee, Crane. Linesmen, Moores of Tufts and Macfarlane of Maine. Time, 20m. halves.

There has been much discussion as to the weights of the members of the football team. Following is a list which is very nearly correct of the weights of the several players:

	Pounds.
Bean, end	165
Cole, end	159
Dorticos, tackle	184
Towse, tackle	180
Duran, guard	173
Sawyer, guard	214

Students, patronize those who patronize us.

Rackliffe, center	176
Bailey, quarterback	133
Bradford, halfback	157
Davis, halfback	174
Webber, fullback	189
Elliott, sub tackle	175
Taylor, sub halfback	159
Parker, sub halfback	158
Beattie, sub end	140
McFarlane, sub end	155
Average weight of regular team....	173
