THE CAMPUS

Vol. III.

ORONO, ME., APRIL 15, 1902.

No. 13

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

EDITORIAL STAFF.

MANAGING EDITOR.

ENOCH J. BARTLETT, 1902.

ASSOCIATE EDITORS.

M. GENEVIEVE BOLAND, 1902.

FRANK W. KALLOM, 1902.

ALVIN M. WATSON, 1902.

RALPH M. CONNOR, 1903.

SANFORD C. DINSMORE, 1903.

JOHN H. HILLIARD, 1903.

THOMAS E. LEARY, 1903.

CLIFFORD G. CHASE, 1904.

ROY H. FLINT, 1904.

BUSINESS STAFF.

P. EDWARD MCCARTHY, 1902, Business Mgr.
ISAAC E. TREWORGY, 1903, Asst. Business Mgr.

Terms: \$1.50 per year, strictly in advance; single copies 10 cents.

Address all business communications and make all checks payable to P. E. McCarthy, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

Entered at the Post Office at Orono, Me., as second-class mail matter.

PRINTED BY J. P. BASS & CO.

STUDENTS' DIRECTORY.

TRAINS—Leave Orono for Bangor at 6.46, 8.57, 9.57, 10.52, A.M.; 12.45, 1.42, 2.52, 4.02, 7.12 P.M.

Leave Orono for points north of Old Town at 7.21 A.M.; 2.28, 5.04, 6.53 P.M.

Leave Bangor for Orono at 4.35, 7.00, 8.30, 11.30 A.M.; 1.15, 2.05, 2.50, 3.10, 4.45, 5.30, 6.30, 11.05 P.M.

Leave Bangor for the south and west at 7.15 A.M.; 1.35, 8.09, 11.45 P.M.

Leave Bangor for Bar Harbor at 6.00, 9.30 A.M.; 4.50 P.M.

ELECTRICS—Cars leave Bangor at 5.30 A.M. and each hour thereafter until 11.30 A.M.; after 11.30 P.M. on

the half hour until 8.00 P.M.; after 8.00 P.M. until 11.00 P.M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10 m. past the hour.

MAILS—From Bangor and the west, 7.06 A.M., 3.29 and 6.53 P.M. From Vanceboro and the Provinces, 7.06 A.M. and 1.00 P.M. From Aroostook and Piscataquis Cos., 3.29 and 7.00 P.M. Mails will close at the post office for trains: To Bangor and the West, 6.30 A.M., 12.40 and 6.40 P.M. To Vanceboro and the Provinces, 3.10 and 6.40 P.M. To Aroostook and Piscataquis Cos., 6.30 A.M. and 12.40 P.M. Mails from Stillwater, 6.00 A.M., 5 P.M. To Stillwater, 7.45 A.M., 5.15 P.M.

The college library is open from 8.00 to 12.00 A.M. and from 1.30 to 5.30 P.M.

The college office is open from 8.00 to 12.00 A.M., also from 1.30 to 5.00 P.M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS.

THIS number completes the work of the present board of editors. During the past year the paper has been enlarged four pages and its circulation increased. So far as possible THE CAMPUS has endeavored to promote the best interests of the college and represent every branch and line of work connected with the institution. We have had failures and successes, but on a comparison of this year's paper with the paper of other years, we feel that perhaps the year just past has been a successful one for THE CAMPUS.

To our successors we extend a hearty welcome and wish them the very best of success. May the growth of THE CAMPUS be upward and onward until it is a better representative of the college than we have been able to make it.

WE sincerely regret that the Bowdoin students have voted not to accept the recommendation of the Waterville conference that "no student going from one college to another shall represent the college to

which he goes, in any athletic contest, until one year after leaving the other college."

It is stated that at the meeting held to consider the recommendations, the sentiment was almost unanimous that this would be detrimental to Bowdoin's interests. It seems to us that in the long run this rule would not be likely to shut out any more men from Bowdoin's teams than from those of the University of Maine, but the question should not have been considered at all from this standpoint. The proposition was certainly in the interest of fair sport, and its adoption would have done much to prevent the bitterness of feeling between the colleges of this state that is certain to arise without it.

If Bowdoin is willing to stand before the public as opposed to this rule, one less stringent than that which prevails at Brown, Dartmouth, Amherst, Wesleyan or Williams, we can afford to wait philosophically until the spirit of fair play shall triumph over apparent self-interest. Bowdoin's action in this case certainly has set back the cause of clean athletics in the State of Maine for several years.

THE burning of the upper waiting room in celebration of the victory over Wesleyan occasioned two talks to the student body by Dr. Fellows. In these talks Dr. Fellows defined his position as being in hearty sympathy with the students in the celebration of victories so long as no property was destroyed or the rights of others infringed upon.

This seems to be only a fair view of the situation and although the building referred to was hardly worth removing and added nothing to the appearance of the Campus, the principle of burning it was certainly not right. It would seem wise to look a little farther for a bonfire next time and heed Dr. Fellows' suggestion, that the line be drawn at the destruction of property.

IT may not be out of place to say a few words in regard to the items which appear in one of the leading Bangor dailies under the head of "University of Maine News. Now a large part of these items are almost anything but news, they are founded on little or no truth and seem to answer their purpose when so much space is filled. It is not that this is a new condition of affairs why attention is called to these items but they are steadily growing worse. From causing an occasional joke they have become the laughing stock of the college. Another noticeable feature of these "news" is that they to a great extent, relate to a few men who by no means constitute the whole college. Day after day, week after week these few men are mentioned by the name and title which will fill the most space as the hero or principal of some trifling act, and many times the act itself is known to no one but the enterprising reporter of this paper. From the paper's standpoint it seems as though it would be advisable to have a different kind of news and it must certainly be annoying to the students who are mentioned and to those who should be.

ELECTION OF EDITORS.

At a meeting of THE CAMPUS board held April 11, it was voted to change the number of the editorial staff from ten to six. The new board consists of R. M. Conner, J. H. Hilliard, T. E. Leary, from the Junior class; C. G. Chase, R. H. Flynt, from the Sophomore class; C. L. Lang from the Freshman class.

April 14, a meeting of the new board was held and John H. Hilliard elected managing editor, I. E. Treworgy, business manager, and R. M. Snell, assistant business manager.

Ten hours of study, eight hours of sleep, two of exercise, and four devoted to meals is what President Eliot of Harvard recommends to students.

Several of the students are taking advantage of the attractions the Stillwater offers to canoeists. Judging from the frequent mishaps a bath tub would be a more suitable place

for some of the beginners.

The cadets have decided not to go into camp this spring as so much would have to be done to get in any kind of shape.

Prof. Drew has moved into the house formerly occupied by Prof. Flint.

Herman Mansur, '05, has been out of college during the past week on account of illness.

The annual catalogue of the university will be ready for distribution in a few days. Several improvements have been made in this year's catalogue.

C. W. Scribner, '05, has returned to college for the remainder of the year.

R. M. Conner, '03, spent a few days recently visiting friends in Hampden.

Several of the students took part in the vaudeville performance given at Orono, April 9.

S. P. Davis, '02, was one of the actors in Nicolette, which was given with great success in Bangor last week.

On Saturday evening the Phi Kappa Sigma fraternity gave a very pleasant dance in Orono Town Hall. About fifty couples were present and an enjoyable evening passed.

A charter has been granted to the Delta Rho society for a chapter in Sigma Chi fraternity.

Instruction in military tactics closed April 11 and battalion drill began the following week. The battalion will drill two nights each week for the remainder of the season and should make a very respectable showing by

May 30. It is said that Gen. Miles and Admiral Schley will be in Bangor on that date and pay the college a visit.

While the baseball team was away it was a little dull on the campus but there is lots going on at present. The track team and baseball team are out every night and keep things lively.

S. G. Small, '03, was elected captain of the second nine. He kept the men at work while the 'varsity team was on its New York trip.

Miss Lottie Small, '01, has left college to teach.

A. L. Huot, manager of the musical clubs, has left college in order to take up the study of law.

The dates for the interclass debates have not yet been arranged.

The date for the interclass field meet has been set for May 10.

The cadet band rendered several pleasing selections at the concert given in Town Hall on Wednesday evening, April 9.

Battalion drill will begin on April 15.

At a meeting of the Junior class held last week, W. L. Cole was elected treasurer in place of E. G. Hartford.

Hartford and Goodridge of the Junior class have left college and are at work on the B. & A. railroad.

S. P. Davis has received a large leather medal in recognition of his services in saving I. E. Treworgy from a watery grave.

Irving Pease, '02, has left college. He will not return to finish his course this year.

C. I. Giles, '04, has returned to college.

Sumner S. Lowe, '02, has so far recovered from his recent illness as to be able to leave the hospital. He is now stopping with his uncle, in Bangor.

Prof. Aubert spent the Easter recess with his brother, in New York.

E. S. Broadwell has recovered from his recent illness and has returned to college.

Invitations have been issued for an informal dance to be given by the Sigma Alpha

Epsilon fraternity in Town Hall, Orono, on Saturday evening, April 19.

Prof. Flint was in Orono during the past week but has now returned to Port Deposit.

After a long siege of A. C., the Seniors are now convalescing.

Golf links have been laid out in the fields back of Oak Hall and the number of players is rapidly increasing.

The Seniors of the Electrical and Mechanical Engineering courses presented Prof. Flint with a beautiful silver card receiver on his departure from Orono.

The Seniors from the engineering courses are planning a trip to Millinocket, May 5. The committee having the arrangements in charge is A. E. Silver, F. E. Pressey and A. F. Wheeler.

In the last CAMPUS we omitted to state that Prof. Munson was elected fence viewer at the Orono town meeting. Which member of the faculty will be eligible next year?

Lots of sport and little study is the order of exercises for the rest of the year. A few of the Oak Hall underclassmen got a bit too sporty recently and it was necessary to call a meeting of the Oak Hall Seniors to establish order.

New rules governing the Commons have been formed. Their aim is to make a fairer distribution of the board bill among the boarders.

Applications for entrance for the coming year are daily increasing. The prospect of more lady students is very good. Already a number have applied for rooms at the Mount Vernon House.

On account of the universal interest in athletics, the faculty have decided to excuse the students from further work in the gymnasium.

O. F. Terry, '04, has received the appointment for cadetship to West Point from the Fourth Congressional District of Connecticut.

The Maine Bulletin for March 1 has been received and is ready for distribution. It is

devoted to the interest of the Classical and Latin--Scientific courses.

Prof. Lewis has just returned from a visit to several of the fitting schools. While he was away he visited Biddeford High school, Haverhill High school and Thornton Academy.

A regular meeting of the Philological club was held on Monday evening in Wingate Hall. There was a large number there and much interest was taken. The subjects before the meeting were: Notes on the American Revised Bible, Rev. George M. Woodwell; Report on Modern Language Instruction in Maine, Prof. O. F. Lewis.

During the meeting of the Philological club the report of the Maine--Wesleyan baseball game was received and some of the members of the Spearin's Loan and Building association received news of more fires among their buildings. A meeting of the board is to be held soon. It is recommended by some that an assessment should be levied; others think they had better recapitalize. What next?

The tennis court owned by the Delta Rho society has been sold to the Sigma Alpha Epsilon fraternity.

The Beta Theta Pi fraternity house is receiving a coat of paint.

L. E. Fessenden, '02, and one of his intimate friends spent the Easter recess in Olamon. Mr. Fessenden improved his time working on his thesis.

By vote of the faculty gymnasium, work will be omitted for the rest of the term.

The election of the Y. M. C. A. officers for the coming year occurs April 16. It was postponed from the last meeting on account of the storm.

A very interesting meeting of the Mechanical and Electrical Engineering society was held April 14. A paper on the Manhattan Power Plant by Mr. Mansfield and one on the History and Application of the Gas Engine by Mr. Bartlett constituted the program.

Several new bulletin boards have been put up about the college. A large one bearing the order of experiments in laboratory electricity, nicely typewritten, is a great improvement over the old system.

Mayflowers in April is the order this spring. Many of the students have collected some fine bunches.

The picture of the Mechanical and Electrical Seniors has proved so successful that the Civil Seniors are talking of having theirs taken. Why not have the whole class of 1902 taken in front of one of the halls? Everyone looks natural in these pictures and they are much more satisfactory than the "dressed up" pictures as a souvenir.

Stanley J. Steward, '96, foreman of the shop, is at work upon his thesis to be presented to the trustees for the degree of M. E. The subject of the thesis is the Test and Efficiency of Steam Engines. His experiments will be confined to the two engines used in the shop.

C. A. Stilphen, '02, has been engaged on his thesis work for the last three weeks at Kernebunk. He is testing the efficiency of the plant.

The class in Practical Astronomy are doing their usual stargazing at present in the observatory.

Mansur and Crowe of the freshman class have moved into Oak Hall in the room formerly occupied by Pease and Lewis.

Prof. Hart has been a boarder at the Commons during the past week. Mrs. Hart is visiting Mrs. A. W. Harris at Port Deposit, Maryland.

The Colby College catalogue has been issued and is different in form from any of the previous ones. Attempts have been made to broaden the curriculum of the college and a course in Spanish and one in Italian has been offered. The book contains over ninety pages bound in heavy gray covers, lettered in white with the seal of the college below in black.

A great deal of interest in track athletics is

being manifested at M. I. T. Most every afternoon there are about seventy-five men out for work, with some very promising candidates. Tech will probably make things interesting for Dartmouth and Brown in their triangular meet.

On the evening of April 9th occurred the annual meeting of the local society of Gamma Eta Gamma in their rooms. At this time occurred the initiation of Prof. William E. Waiz and Hon. Louis C. Southard of Boston as honorary members, and P. J. Mitchell, W. G. Mansur and J. H. Morson as active members.

The officers elected were as follows: Chancellor, George H. Winn; Preator, Thomas R. Geary; Index, George W. Thombs; Lictor, John B. Merrill; Sheriff, C. H. Reid, Jr.; Recorder, James O'Halloran; Investor, Glidden Bryant; Bailiff, Malcolm Mackay; Tipstave, E. P. Wilson.

The society was founded in the spring of 1901 and has been very successful since its organization. It now numbers about twenty members.

During the year there have been added to the equipment of the department of physics a photometer with various accessories, a ballistic galvanometre, a coincidence pendulum, a colorimeter, a force table and several articles of lesser value. The photometer was imported from the Reichstanstalt establishment in Germany and is sensitive to about 1 m m. It will be used by the juniors in electrical measurements and testing, and the juniors and seniors in advanced optics, and by the senior electricals in connection with their thesis work. The galvanometre is of great delicacy and it will be used chiefly by the electrical juniors in capacity measurements. The coincidence pendulum will measure time to hundredths of a second, and the force table is for practice in the composition and resolution of forces.

A course in electro-chemistry is being given by Mr. Burbank this term. It has been elected

by about a dozen students and it is hoped that it may become a permanent feature of the work of the department.

Prof. Stevens is revising the proof sheets of a test-book on physics written for use in the schools of Missouri, and published by D. C. Heath & Co., Boston, Mass.

Prof. Beck of Colby College, has registered for work in physics at this University to be done in part in absence. Part of the work has already been completed here and at the University of Chicago. During the coming term he will work in the Colby laboratory on the effects of various physical conditions upon the magnetic moment.

Mr. Ponchi has been working during the year on the relation between magnetic induction and magnetic power, and Miss Rice has completed an investigation along the line of Atwidometry. Her results will be published late in the "Weather Bureau Monthly."

Dr. Fellows is delivering a course of lectures at the Law School on European Constitution.

There are several candidates for the position of head of the Mechanical Engineering course, but nothing definite as to the lucky one is known as yet. There is some talk of establishing a course of Marine Engineering. It is argued that as Maine is a ship-building state, such a course would be of great advantage. If the subsidy bill, which has already passed the Senate comes into effect, there will doubtless be a great increase in ship-building and such a course as suggested might be a very popular one.

W. C. Loud, '03, spent his Easter recess with friends in Newburgh.

Dr. Fellows is engaged to deliver the Memorial Day address at Orono.

A prominent alumnus has promised to give \$100 to the Athletic association this year. This is the kind of assistance we need.

Arrangements are under way for the tennis tournament. Medals for the winners in singles and doubles are given by Hon. L. C. Southard, '75.

Special funds have been raised for defraying the expenses of the interscholastic athletic meet. Much interest is being shown in this meet among some of the fitting schools of the state. The good natured rivalry between Bangor and Brewer is shown by the numerous comments in their school papers. A special committee consisting of Prof. R. K. Jones, Mr. P. E. McCarthy and Mr. P. H. Harris, have the meet in charge.

LIBRARIANS MEET.

The Eastern Maine Library club held its regular spring meeting in Coburn Hall, University of Maine, Orono, Friday, April 11, 1902.

The program:

10.45 a. m.—Business meeting.

10.55 a. m.—Discussion of the following questions: Methods of collecting and preserving items of local history. Is it advisable to accept all books offered to the library? Opened by Prof. E. W. Hall of Colby College library. Catalogues of small libraries: How to start them so that additions may easily be made; what kind and how often should they be given to the public; would money better be invested in books in a small library? Opened by Rev. D. A. Boatright, Bangor, formerly librarian at Stratham, N. H. What can be done to interest librarians in our library meetings? Opened by J. H. Winchester, librarian Stewart Free library.

1.30 p. m.—Historical reading for the young. President George Emory Fellows, University of Maine. Discussion: The care and binding of books. Prof. E. W. Hall, Colby College. Discussion: Meeting of the American Library Association at Magnolia, Mass.; advantages to be obtained. Educational value of fiction. Prof. H. M. Estabrooke, University of Maine.

R. K. Jones, University of Maine, Pres.

Mrs. Kate C. Estabrooke, Orono, Vice Pres.

J. H. Winchester, Corinna, Sec'y.

'86.

George F. Lull of Great Works, who has been superintendent and chemist of the Orono Pulp & Paper Co.'s plant at Basin Mills for several years past, has resigned his position to accept the superintendency of the plant of the Traders M'fg. Co., at Lockport, N. Y. Mr. Lull was formerly chemist at the Great Works pulp mill and ranks high in his profession. His departure from this section will be much regretted.

'99.

The marriage of Maurice Henry Powell of Orono and Miss Carrie Gertrude Nealley of Brewer occurred at the residence of Mr. and Mrs. Meldon Nealley on North Main street, Tuesday evening, March 11. The ceremony was performed in the presence of a few immediate relatives and friends of the two parties, by Rev. F. W. Atkinson, pastor of the Orono Universalist church. Directly after the ceremony Mr. and Mrs. Powell left for Orono, where they will reside in the future. Mr. Powell is engaged in business in Orono. Mrs. Powell is a graduate of Brewer High school and for several years has been one of the city's most efficient school teachers.

A report has reached the Campus of the death by consumption of Alson Edwin Boynton. No particulars further than the fact of his death are known. Mr. Boynton had been an invalid for some months previous to his death, having been taken ill at Ramona, California, where he was at work in his capacity as civil engineer, and where his death subsequently occurred. Mr. Boynton was graduated in the Civil Engineering course of the University. He thereupon took a position as civil engineer with the Metropolitan Park commission of

Boston. He was a member of the local chapter of Phi Gamma Delta fraternity.

'00.

The engagement is announced of C. H. Lombard to Miss Edith Holmes of Orono. Mr. Lombard has a position as civil engineer with Pennsylvania R. R. and situated at Bristol, Penn.

MUSICAL CLUB.

The University of Maine Glee, Mandolin, Guitar and Banjo Clubs appeared in the Town Hall, Friday evening, April 11th, before a large and enthusiastic audience in one of the best concerts ever given by the organization. Every number of the program was received with applause and the encores were so hearty that further selections were given in nearly every case. It was in every way a success and was a fitting close of a successful season.

Every number of the program was so well rendered that it is almost impossible to say which was the best. The "Ghost Patrol" was perhaps the best of the instrumental music; while "The Goblins" by the Glee Club was especially good. A feature of the concert was a Cello solo by Mr. Sprague, who showed himself entirely the master of the instrument. The readings of Mr. Huot were considered excellent and were greeted with hearty applause.

Following is the program:

PART I.

- Hurrah BoysLacelle
Glee and Mandolin Clubs.
- Day in a CottonfieldZublin
Mandolin Club.
- Reading
Mr. Albert L. Huot.
- The Goblins

Reading
A. L. Huot.

Banjo Trio, Twin Star March
Messrs. Baker, Flynt and Huot.

Ghost Patrol Weaver
Mandolin Club.

Campus Song Arr. by O. F. Lewis
Glee Club.

The U. of M. Musical Clubs have made three trips this year. The first trip was through Aroostook County during which they gave five concerts winning praises from all who heard them. The second trip was through Washington County. On this trip only three concerts were given but it was entirely successful.

The third and most important trip of the season was taken during the Easter vacation. Concerts were given at Pittsfield, Hallowell, Portland, Rumford Falls and Livermore Falls. This tour is of especial importance because it includes a part of the state that has never before been visited by musical clubs.

The concert April 11th closed a very successful season for the "Musical Clubs" of the University of Maine. During the season they have given nineteen concerts, the first occurring Nov. 23rd, and the last April 11th. This year the clubs have been by far better than any of the musical clubs U. of M. has ever put out.

Owing to severe weather conditions they have not been quite as successful as could have been wished; the loss, however, is more than compensated by the enviable reputation the clubs have gained throughout the state.

ENGINEERING BOOKS.

A recent number of *The Engineer* contains an article from which the following clipping is made:

Can any one tell me how the authors of ninety-nine out of every one hundred of the books on engineering subjects justify themselves?.... Pick up any of these popular hand-books and catechisms, and the excuse the author gives in the preface generally reads like this: "I have often been asked by young men about to make a study of engineering, to recommend some good books for them to study. After looking over all the available literature on the subject, I have had to tell them that there weren't any good books on the subject. With a view to helping all those who think of entering the profession this book has been compiled.".... Some authors claim to be practical men, and probably they are; but by the looks of his book we suspect that he credited every prospective reader with knowing as much as himself; so to include something the reader don't know, he wrote of what he (the author) knew nothing about. If he starts to write of what he knows, he finds that he knows so little that it don't take many pages to get it all down, so he copies some tables and other stuff from some other book; and for fear he might miss something, he puts in mistakes and all.

The largest salary paid to a college president in the United States is said to be \$10,000, paid to the president of Leland-Stanford University.

Phi Beta Kappa will not hold its senate meeting this year, owing to no new applications. There are still ten old ones to be considered.

Amherst has not lost a basket-ball game for two years. William Crawford of Brooklyn has been chosen captain for next year.

Yale has a basketball schedule of 31 games extending from March 22 to June 28.

DEAN GARDNER RESIGNS.

The announcement of the resignation of Dean Gardner of the School of Law has been received with sincere regret by every friend of the school and of the University. He leaves to accept a position on the faculty of the Boston University School of Law, where he will receive a considerably larger salary than he has been getting, and where he will be obliged to deliver but one lecture a day, thus giving him time for his private practice.

Professor Gardner is a native of Massachusetts and a graduate of Amherst College in the class of 1885. At the organization of the University of Maine School of Law, in 1898, Professor Gardner, then in charge of the Law School of the University of Illinois, was appointed Dean. The University of Maine school has been a success from its organization. Its work has been of such a grade as to win for it the respect of all who have become acquainted with it, and the record it has achieved, is an evidence of the thoroughness of its work which speaks more eloquently for it than can any words.

Professor Gardner is a teacher of rare ability and has the capacity of winning the sincerest respect and affection of all students with whom he comes in contact. He may feel assured that when he leaves Maine he will carry with him the deepest admiration of all of those who have been his pupils during his connection with the University, and the best wishes of all those connected with the undergraduate departments at Orono, as well as of the school in Bangor, for his continued success and for his happiness in his new field of labor.

The trustees of the University have as yet made no choice of his successor.

University of Pennsylvania defeated Michigan in their annual debate.

Fire has destroyed the Hutchins' dormitory at Yale with loss of \$200,000.

MR. E. N. ROBINSON WILL COACH.

Manager Cole has closed the contract with E. N. Robinson, Brown '96, to coach the eleven next fall. Mr. Robinson comes highly recommended by W. H. Lewis, Harvard's greatest center rush.

Upon his college team he played every position except quarter-back and was considered an all-around man.

Mr. Robinson coached the University of Nebraska for two years with the best of success producing a winning team. In the college league his team won four, tied one and lost one of the championship games with the University of Iowa, University of Kansas and University of Missouri.

For the last four years he has coached Brown, keeping Dartmouth from scoring three years and making good gains on Harvard and University of Pennsylvania, and tied Yale in one game. The Brown eleven, under his coaching succeeded in defeating the University of Chicago. Besides being a great football coach he is also a sprinter and a baseball coach, making the All American Baseball team under Walter Camp.

The committee and manager should be congratulated for their success in securing Mr. Robinson and under his coaching the University of Maine should again have a winning team and there seems to be no doubt but that with the good material the best hopes will be realized.

The football schedule is nearly complete and will appear in THE CAMPUS of a later date.

ATHLETICS.

As the season advances, the prospect of a good track team is improving, and by the time of the meet the men ought to be in the best of condition.

Captain Harris has recommended May 10 as the date for the interclass meet. When we consider that this is only four weeks distant,

the necessity of good earnest training is apparent. So far the men have turned out in good shape, but if we are to have a successful interclass meet, there ought to be an increase in the number of men from the different classes. At present there are only four men from the Junior class who are training. It is a disgrace that in a class of nearly sixty men that only four should have class spirit enough to turn out and do an half hour's work each day. The condition in the Senior class is but little better. If there was anything very disagreeable about the practice, there would be some excuse for the failure to train; but considering the benefit to be derived physically, it does seem queer that no more men will take part.

The Sophomore--Freshman meet is not very far off and the sophomores will lose the meet if something is not done at once. The freshmen have about three times as many men out as the sophomores and there is a lot of good material among the freshmen.

Considering the team as a whole, it is doing very well; Davis, '02, and Harris, '03, are out for the hundred yard; Perkins, '04, is a find for this event and is doing excellent work. In the 220, there are four men now out and doing well. Harris, '03, will be a strong man in this event this year. Perkins, '04, Conner, '03, and Sheahan, '03, should come in for some place.

There are only two men out for the quarter-mile. Kelley, '02, who won the bicycle race last year is doing good work in this event. He has a long easy stride and is looked upon to win points in this event. Conner, '03, will try the quarter and with hard training ought to show up well. Silver, '02, Shaw, '03, and Crowe, '05, are trying for the half mile. Silver has taken points in this event before and Shaw is expected to develop into a good man. Crowe is a freshman and has never had any experience but is doing very good work.

Lawrence, '04, is planning to run the mile this year. He has been in constant training

for several months. Thomas, Cowan and Hayes of the Freshman class are showing up well in this event.

In the two miles there are three good men now out: Lawrence, '04; Bacheider, '05; Hayes, '05.

There are three men who ought to approach ten feet in the pole vault this year. Parker, '04, and Shaw, '05, have already passed ten feet and Davis, '02, will not be behind when he is called upon.

Soderstrom, '04, and Shaw, '05, are doing excellent work in the high jump. Soderstrom took points in this event last year and is doing well. Shaw is just learning the form and will jump 5 ft. 6 in. by May.

Parker, '04, is doing good work at the broad jump as well as the pole vault. Last week he succeeded in jumping 20 ft. 3 in. Davis, '02, Soderstrom, '04, and Sweetser, '05, are all doing good work.

In the high hurdles, Davis, '02, is a fast man and will undoubtedly make one of the fastest hurdlers that the college has ever had. Thatcher, '05, and Sweetser, '05, are training for the hurdles.

There are only two men now down for the low hurdles: Davis, '02, and Sheahan, '03. There is a good chance for some more men in this event and some ought to turn out.

There is some good material in the weights this year. Elliott, '02, Bearce, '05, and Wood, '05, are doing well with the hammer and with a month's practice should make good men.

Elliott, '02, is putting the shot again this year. Wood, '05, is also doing good work.

In the discus Watson, '02, is doing well for the time of the year. Elliott, '02, and Wood, '05, are training hard and will no doubt put the discus out in good shape. Manager Cole of the football team has suggested that the football eleven get out and train for the track team as preliminary for next fall. It is hoped that his suggestion will meet with universal approval. There ought to be a lot of good

weight men among the squad. From now out there will be practice every day and the coach will be glad to make appointment with any who cannot be out at the regular time.

HARVARD 8; MAINE 2.

On Saturday afternoon, April 5th, on Soldiers' Field, Cambridge, the U. of M. and the Harvard nines played their first game of baseball of the season. This was also Maine's initial game with Harvard, and although we did not win, we are very much pleased because of the grand showing of our team, and the outcome was far above our greatest expectations. Our grand work against Harvard will open up the way to more games with not only Harvard, but also with the other colleges, and give us a standing which we have never before enjoyed.

In spite of the fact that the weather was cold and a high wind was blowing, 700 undergraduates turned out to see the game. Considering the fact that this was Maine's first game they played strongly, and the infield put up a fast game. The sensational play of the game was made by Towse of Maine. The Harvard shortstop Matthews hit a foul fly about ten feet just outside the foul line, and Towse succeeded in getting it after a hard run. Only one man tried to steal a base, and he was put out on a fine throw by Kernan the Harvard catcher.

Mitchell did fine work, he allowed the Harvard batters but nine hits, but struck out five men, gave only one base on balls, but was unfortunate and hit three men. Besides pitching a good game he fielded his position in grand style as the seven and two put outs show, he also made one of the six hits for his team. The best batting was done by "Frisky" Davis, he getting three hits, two of which were two baggers, while Capt. Carr hit the ball for two singles.

At this point of the game our boys showed the weakest, and upon this a great deal of practice must be had and it will be necessary for

them to spend every spare hour in this department of the game.

The outfield had very little work to do. Towse in right field made the star catch of the game.

The lineup:

MAINE 4; WESLEYAN 3.

Great was the demonstration upon the Campus Monday evening, April 7th, and in some respect the demonstration was carried a trifle too far. The cause of the demonstration was the celebration of the first victory of our baseball team, which defeated the Wesleyan team, on their own ground by a score of four to three.

This was Maine's second game of the season, and was close and interesting all the way through. The Wesleyan team lost because of their inability to hit Mosher effectively when hits meant runs and also by a combination of errors in the sixth inning. But in the ninth inning they made a grand rally but it came too late and was not effective enough.

One change was made on the Maine team. Mitchell, the pitcher, was played in left field in place of Bachelder. The feature of the game was the pitching of Mosher, who allowed Wesleyan only four hits, and the batting of Captain Carr. The score:

Innings	1	2	3	4	5	6	7	8	9	RH—E
U. of M.	0	2	0	0	0	2	0	0	0	4 7—3
Wesleyan	0	0	0	0	0	0	1	0	2	3 4—4

Batteries—Chapman, Howe, Inglis, Mosher and Chadbourne.

NEW YORK 7; MAINE 2.

The game between the New York National League team and the University of Maine, which was to have been played on Tuesday, was played on Friday, April 11th, and resulted in a score of seven to two in favor of the

leaguers. The game was most creditable to the collegians, and the small score to which they held the professionals indicates beyond doubt their ability as ball players. Maine's freshman pitcher, Mitchell, was opposed to Thielman for the first four innings, and to McGee for the remainder of the game, and did not suffer much by comparison, considering the support accorded each. Holmes and Chadbourn both batted finely, and the New Yorks fielded without an error, rather a remarkable performance considering the condition of the grounds. A lightning double-play by Davis, Carr and Collins was the chief fielding feature, and elicited much well deserved applause from the spectators.

Runs made, by Dupee, Jones, Lander, Doyle 2, Delahanty, Yeager, Carr, Bachelder. Two base hits, Doyle, Yeager. Stolen bases, Doyle 2, Smith, Yeager 2. Base on balls, by Thielman 2, by Mitchell 3. Struck out, by Thielman 7, by McGee 3, by Mitchell. Sacrifice hit, Smith. Double-play, Thatcher, Carr and Collins. Hit by pitched ball, by McGee, by Mitchell 2. Wild pitches, Thielman, Mitchell. Passed balls, Yeager, Chadbourn. Umpire, Hornung. Time 1 hour, 40 minutes.

MANHATTAN 12; MAINE 7.

The game between the Manhattan College team and the University of Maine, which was played on Thursday, April 10th, at the Polo grounds, was a very loose exhibition, owing to the muddy condition of the field. The game was a slugger match, and while the home team secured but one more hit than the visitors, their hits were more timely, and their error column not so large by a considerable margin. The fielding of the Manhattan team was excellent, especially the outfield, and it was due to their making several almost impossible catches of terrific drives from the visitors' bats that the victory fell to their credit. McPhilips, Manhattan's crack twirler, proved easy for Maine and he was driven to the bench in the sixth, being replaced by Callagan. He was not much more effective than his predecessor, but had good luck and kept his opponents from scoring more than two runs while he occupied the box. Maine had the bases full in the ninth when Manhattan's center-fielder pulled down a terrific drive from Mitchell's bat that looked like a sure three bagger, ending the game. Davis made a wonderful one-handed stop of a sizzling grounder in his own inimitable style, and was cheered repeatedly for his effort. The score:

Manhattan, 12; Maine, 7. Hits, Manhattan 15, Maine 14. Errors, Manhattan 13, Maine 7. Batteries, McPhilips, Callagan and Duff; Mosher and Mitchell, Chadbourn.

MAINE 11; ANDOVER 7.

Maine scored a victory over Andover on the latter's ground, on Saturday, April 12th, by eleven runs to seven. Mosher pitched for Maine, and though hit hard at times, he was very steady and fairly effective at critical stages. Brown, the Andover pitcher, was no puzzle to the visiting batsmen, and the hits made off him were all hard and timely. Andover led up to the fourth, when a succession of hits, followed by Towse's slashing three-bagger to deep center, netted five runs and gave Maine the lead, and from there on she was never headed. Holmes fielded finely and gave a good exhibition of accurate throwing, while Davis, Chadbourne, Thatcher and Towse batted and ran bases in great style. The feature of the game came in the last inning with two men out, when Davis jumped high in the air and pulled down a terrific liner from Carter's bat. The score:

19 CENTRE ST., OLD TOWN, ME.

BOWDOIN COLLEGE

MEDICAL DEPARTMENT.

The 82nd Annual Course of Lectures will begin Thursday December 26, 1901, and continue twenty-six weeks.

Four courses of lectures are required of all who matriculate as first-course students.

The courses are graded and cover Lectures, Recitations, Laboratory Work and Clinical Instruction.

The third and fourth classes will receive their entire instruction at Portland, where excellent clinical facilities will be afforded at the Maine General Hospital.

FACULTY.—W. DEWITT HYDE, D. D., President; I. T. DANA, M. D., Emeritus Professor of Pathology and Practice; A. MITCHELL, M. D., Pathology and Practice; F. H. GERRISH, M. D., Anatomy; S. H. WEEKS, M. D., Surgery and Clinical Surgery; C. O. HUNT, M. D., Materia Medica and Therapeutics; F. C. ROBINSON, A. M., Chemistry; L. A. EMERY, LL. D., Medical Jurisprudence; C. D. SMITH, M. D., Physiology and Public Health; J. F. THOMPSON, M. D., Diseases of Women; A. R. MOULTON, M. D., Mental Diseases; W. B. MOULTON, M. D., Clinical Professor of Eye and Ear; C. A. RING, M. D., Obstetrics; A. S. THAYER, M. D., Diseases of Children; ALFRED KING, M. D., Instructor in Anatomy; F. N. WHITTIER, M. D., Instructor in Bacteriology and Pathological Histology; H. H. BROCK, M. D., Instructor in Surgery; E. J. McDONOUGH, M. D., Instructor in Histology.

For catalogue apply to

ALFRED MITCHELL, M. D. Dean.

BRUNSWICK, ME., April 15, 1900.

To Young Men

Young men think more about style than anyone else—but often they are not particular enough about fit—fact is the fit is the most important element of the style.

MILITARY BACK with PADDED SHOULDERS

is the great thing this year. We knew the young men would take to it and you can't embarrass us then for a minute. We've got them and are ready for the young man who wants the proper thing—

ROUGH FABRICS, CHEVIOTS, SERGES, WORSTEDS in all the new and snappy patterns.

You are sure to find what you want here and we are always happy to serve the U. of M. Boys.
