## WELCOME TO DR. FELLOWS.

For the first time since Dr. Fellows' arrival, the members of the Penobscot Valley Alumni association had an opportunity on the evening of Friday, April 25, to greet him in their capacity as an organization. Although the attendance was not so large as is usual at the annual meetings of the association, as the date conflicted with engagements already made by many who have previously been most constant in their attendance, the affair will always hold a prominent place in the records of the association, as one which was of inestimable value in cementing the ties which bind each alumnus to his alma mater. About forty persons were present, however, representing all departments of the institution. The banquet was served at about 7 o'clock under the direction of Weferling.

Edward H. Kelley, '90, the president of the association, officiated as toastmaster in the absence of Hon. William T. Haines, '76, of Waterville, who was expected to act in that capacity, but who was unavoidably detained.

Dr. Fellows was the first to respond. He made a bright and entertaining speech, which, the applause following indicated, found favor with everyone present. The other speakers were Hon. Henry Lord, president of the board of trustees; E. J. Haskell of Westbrook, a graduate of the first class, '72, and the recently elected alumni representative on the board of trustees; Col. I. K. Stetson, Hon. Charles E. Oak, '76, Prof. C. D. Woods, Prof. G. M. Gowell, Vernon K. Gould, '97, Prof. O. F. Lewis, Prof. J. S. Stevens and W. E. Waterhouse, Esq., of Old Town, and Prof. W. E. Walz of the Law school.

During the meeting the old board of officers

was re-elected as follows:

President, Edward H. Kelley, '90, Bangor.

Secretary-Treasurer, Charles A. Dillingham, '90, Bangor.

Executive Committee, Freeland Jones, '75, Bangor; J. F. Gould, '82, Old Town; N. C. Grover, '90, Orono.

During the meeting a set of felicitations formulated by Librarian R. K. Jones were passed and conveyed by Dr. Fernald, to the Bangor Alumni Association of Bowdoin, who were at the same time holding a banquet at the Bangor House in honor of their president, Wm. DeWitt Hyde. The resolutions were as follows:

The Penobscot Valley Alumni Association of the University of Maine extends greeting to the Bowdoin alumni.

Felicitations are tendered upon the presence with you of President Hyde, the dean of college presidents of our state. May he long continue at Bowdoin's head a power for intellectual freedom and academic development!

May the alumni of the two institutions be as one in devotion to the educational advancement and material prosperity of the state of Maine!

Before the meeting broke up Bowdoin's greetings were returned. They were brought by Rev. Charles H. Cutler, who presented them after a few brief remarks:

The Bangor Alumni Association of Bowdoin College at their annual banquet with Pres. Hyde as their guest, have received with gratification and gratitude the fraternal greetings from the Penobscot Valley Alumni Association of the University of Maine and heartily return their kind wishes and share in their generous aims of education for our state. In our interests we have much in common and we Bowdoin men unite in the hope that the University of Maine, under the administration of its new president may be increasingly useful and prosperous.

To President Fellows we extend our cordial welcome and good wishes in the name of Bowdoin college.

On motion of Mr. Lord, three cheers were given for Bowdoin and three for the University of Maine.

After the meeting was adjourned President Fellows, accompanied by Dr. Fernald and Rev. Mr. Cutler, went to the Bangor House to pay his respects in person to President Hyde and the Bowdoin men there assembled.

Besides those already mentioned the following were present: Dr. M. C. Fernald, Orono; Prof. W. M. Munson, Orono; Prof. J. H. Huddilston, Orono; Prof. Horace M. Estabrooke, '76, Orono; Prof. J. N. Hart, '85, Orono; Prof. F. L. Russell, '85, Orono; Ralph K. Jones, '86, Orono; Harold S. Boardman, '95, Bangor; Stanley J. Steward, '96, Orono; Lewis R. Cary, '01, Orono; G. H. Hamilton, '72, Orono; John M. Oak, '73, Bangor; Francis Jones, '75, Bangor; Edward M. Blanding, '76, Bangor; A. H. Brown, '80, Old Town; C. W. Mullen, '83, Bangor; J. B. Bartlett, '82, Ashland; Charles A. Dillingham, '90, Bangor; Frank H. Damon, '95, Bangor; H. B. Buck, '93, Bangor; Paul D. Sargent, '96, Calais; Harry M. Lincoln, '98, Bangor; Charles P. Crowell, '98, Orono; Charles J. Sawyer, '98, Orono; J. F. Thomas, '98, Bangor; Samuel D. Thompson, '01, Bangor.

### DELTA RHO ENTERS SIGMA CHI.

On Saturday, April 19th, at the A. O. H. hall, Bangor, the Delta Rho society was affiliated into the Sigma Chi National Fraternity.

The initiates went through the different stunts which are generally required of college fraternities, and although the proceedings were somewhat new to Bangor's sightseers, yet they seemed to be much pleased with the collegians' tactics.

The initiations lasted from 4 to half past ten, after which a banquet was served by Fox & Adams. The menu was as follows:

Oysters on the Half Shell.	Bread Sticks.
Tomato Soup.	Roast Turkey, Cranberry Sauce.
Mashed Potatoes.	Green Peas.
Lobster Salad.	

Rolls.

Macaroni and Cheese.	Olive.
Ice Cream.	Assorted Cake.
Coffee.	Spring Water.
Orange Punch.	

Immediately following the banquet came the speech-making, which was one of the most enjoyable features of the evening. E. J. Bartlett, of the Senior class, acted as toastmaster, and the following toasts were proposed and responded to as follows:

Welcome to Sigma Chi.....	P. H. Mosher
Reminiscences of Oak Hall.....	T. C. Herbert
Sigma Chi.....	Ben. P. Runkle
Delta Rho.....	F. W. Hopkins
University of Maine.....	T. E. Leary
Law School.....	W. W. Buckley
Trials of a Freshman.....	A. S. Ward
Our Alumni.....	V. E. Ellstrom
Our Future.....	P. E. McCarthy
Our Star in the East.....	W. H. P. Conklin

The initiatory exercises were presided over by Gen. Ben. P. Runkle, military instructor at the University, and one of the men who founded Sigma Chi Fraternity at Miami University in 1855. There were also present William H. P. Conklin, Brooklyn, N. Y., Cornell; P. L. Brown, Amesbury, Dartmouth; Charles S. Cole, H. H. Russell, C. C. Thompson, Boston, Massachusetts Institute of Technology.

The members of the faculty and graduates initiated were Prof. L. H. Merrill, Prof. J. H. Huddilston, R. M. Packard, Dr. C. S. Whitcomb, Fred W. Hopkins, Cornelius Dow and B. J. Woodman.

The undergraduates in Rho Rho chapter are Luther Peck, Charles W. Stevens, Enoch J. Bartlett, Percy H. Mosher, P. E. McCarthy, Harry E. Duren, Victor Ellstrom, C. S. Everett, K. A. Sinclair, T. C. Herbert, F. S. Burns, A. H. Phinney, W. W. McIntire, T. E. Leary, F. O. Sweetzer, Stephen E. Patrick, Arthur Ward, Earl Curran, W. A. Kendrick, C. W. Pennell, E. L. Cowan, William B. Buckley,

## STUDENT SUPPORT OF MUSICAL CLUBS

To one interested in music, it seems strange that the musical clubs of the University of Maine receive no better support financially on the part of the student body. The musical clubs, indeed, are looked down upon, and sneered at, as if they did not amount to anything; while if the truth were known, it would be found that the influence of these clubs is felt over a far larger territory than the influence of the athletic teams of the University.

No doubt the athletic teams exert a greater influence in the few large cities of Maine, than the musical clubs do; but in the smaller towns of Maine, the doings of the University are scarcely known; and it is to these towns that the musical clubs penetrate especially, and make the people realize that the University of Maine is no vague phantom, but a real institution, rapidly enlarging and expanding. In thus advertising the University, it seems as if the musical clubs were doing a good work, and spreading the gospel, as it were, into the uttermost parts of this state of Maine. In the western part of the state, indeed, this advertising is especially beneficial, as most of the towns contain strong Bowdoin and Bates supporters, and have scarcely heard of the University of Maine.

Some say that the musical clubs should be self-supporting, and so they should, perhaps, if concerts were given only in the large cities; if the weather would always be favorable; and if friends of the University were there to push things along; but in giving concerts in small places, where the University is hardly known, except by name, it is not always possible to make money, but quite easy to lose it.

The athletic teams, on the other hand, are provided with money, cheered by the students when they go away; and, when the members return victorious, they are fondled, petted, and "made lions of," as if they had accomplished some great deeds! How different is the departure of the musical clubs! They depart

with scarcely enough money to reach the first stopping place; and from that time until they return, they live from hand to mouth, and, perhaps, even have to borrow money to get back with! When they return, where is the crowd of students waiting to welcome them? Where the speeches by the members of the faculty? These things are noticeably absent, though the musical clubs have probably done as much for the University as the athletic teams.

The instrumental club this year is conceded to be the equal if not the best, in the state; the glee club does not have this high reputation. Why? Because there is lack of instruction! Why? Because the treasury is low! If we could have only a little of the \$18,000 that Cornell expends annually on her musical clubs, what might we not do. The band of the University, it is true, has received a little money, but the glee and instrumental clubs not a cent.

It does not seem possible that anyone, who will think clearly upon this question of the support of the musical clubs can doubt that it would be of benefit to the University to give a little aid to the musical clubs.

R. R. D., '05.

## AMONG THE COLLEGES.

By the will of the late Cecil Rhodes, scholarships at Oxford have been endowed for two Americans from each state in the union. The will of Mr. Rhodes also provides for fine scholarships for students of German birth, at Oxford, to be nominated by the Emperor William.

Today there are 629 universities and colleges and 45 schools of technology in the United States, with a total attendance of 150,000.

Dr. William J. Tucker is about finishing the first decade of his presidency of Dartmouth College. When he took charge there were 453 students, and at present the number is over 1,400. Over \$1,500,000 has been received in endowments.

## THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

## STUDENTS' DIRECTORY.

TRAINS—Leave Orono for Bangor at 6.46, 8.57, 9.57, 10.52, A.M.; 12.45, 1.42, 2.52, 4.02, 7.12 P.M.

Leave Orono for points north of Old Town at 7.21 A.M.; 2.28, 5.04, 6.53 P.M.

Leave Bangor for Orono at 4.35, 7.00, 8.30, 11.30 A.M.; 1.15, 2.05, 2.50, 3.10, 4.45, 5.30, 6.30, 11.05 P.M.

Leave Bangor for the south and west at 7.15 A.M.; 1.35, 8.09, 11.45 P.M.

Leave Bangor for Bar Harbor at 6.00, 9.30 A.M.; 4.50 P.M.

ELECTRICS—Cars leave Bangor at 5.30 A.M. and each hour thereafter until 11.30 A.M.; after 11.30 P.M. on the half hour until 8.00 P.M.; after 8.00 P.M. until 11.00 P.M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10 m. past the hour.

MAILS—From Bangor and the west, 7.06 A. M., 3.29 and 6.53 P. M. From Vanceboro and the Provinces, 7.06 A. M. and 1.00 P. M. From Aroostook and Piscataquis Cos., 3.29 and 7.00 P. M. Mails will close at the post office for trains: To Bangor and the West, 6.30 A.M., 12.40 and

6.40 P. M. To Vanceboro and the Provinces, 3.10 and 6.40 P. M. To Aroostook and Piscataquis Cos., 6.30 A. M. and 12.40 P. M. Mails from Stillwater, 6.00 A. M., 5 P. M. To Stillwater, 7.45 A. M., 5.15 P. M.

The college library is open from 8.00 to 12.00 A.M. and from 1.30 to 5.30 P.M.

The college office is open from 8.00 to 12.00 A.M., also from 1.30 to 5.00 P.M., but only matters of special importance should be submitted during the latter hours.

## EDITORIALS.

READERS of the March number of the *Atlantic Monthly* will have noticed a very interesting article entitled "Confessions of an Editor." Among other things, the writer describes his first experiences in writing editorials, of the lavish promises that he made to conduct his paper as a mouthpiece of the public, and ever and always as an accurate and impartial chronicler of affairs. He begins: "With the blare of trumpets I announced my mission. With a mustering day of the good old stock phrases used on such occasions, I marshalled my metaphors." He soared along for a while at about the same height until the first issue of his paper, when he was gradually brought to the ground by coming in contact with a few of the stern realities which always present themselves to one who attempts to pose as a public servant. We believe thoroughly that "lavish promises lessen credit." We have confidence in the above mentioned writer and intend to profit by his experiences. We will therefore say nothing further than that the new board of editors will do its best to make THE CAMPUS what it has always been, a paper devoted to the welfare of the University and of everything connected with it.

AMONG the many ideas which the editors of THE CAMPUS wish to impress anew on the minds of both students and faculty, there is one which cannot under any conditions be worded too forcibly. THE CAMPUS is the college paper. It is the only publication representative of the student body.

We and, a its we not ha we ha we wo wholly we are a camp are we yet,—t is mor make o to mak between ideas, of ever a name idea up The w when a haps be that sh enough points a the leas

THE of ec caused serves proverb of every many co the bro dling, o that eac needed is left t concoct. plicable that in torial st ment w

We are all sharers in it in one way or other, and, as a student enterprise, are interested in its welfare. Whatever success it may or may not have in the accomplishment of its purpose, we have only to think of the kind of reputation we would have outside the college, if we were wholly without a representative organ. Now we are not urging this opinion preparatory to a campaign against delinquent subscribers, nor are we looking for any pocket-book support yet,—that will come later. What we are after is moral support. We want the students to make contributions to *THE CAMPUS*; we want to make the paper a medium of communication between students; a medium of exchange of ideas, whose columns are to be free for the use of everyone who has an opinion to express, and a name to put below it. We wish to urge this idea upon you with all the power of words. The way Mrs. Artemus Ward shut the door, when angry at her worthy spouse, would perhaps be about right. Artemus himself tells us that she shut it in italics. If this is not enough, imagine a battalion of exclamation points after it. You may be assured of not in the least exaggerating our meaning.

THE plan that was adopted by the last board of editors, of reducing the number of the editorial board from ten to six members has caused more or less comment and perhaps deserves a little explanation. There is no proverb more applicable to certain conditions of everyday life, than the old saying, that "too many cooks spoil the broth." They may spoil the broth from too much indiscriminate meddling, or the broth may suffer from the fact that each cook has a vague idea that he is not needed in its preparation, and consequently it is left to his equally irresponsible brothers to concoct. The latter interpretation is as applicable as the former. The last board felt that in thus reducing the number of the editorial staff, the responsibility for each department would rest upon only one or two mem-

bers, who knowing that they and they alone would be depended upon for their proportionate share of the work, would feel an especial responsibility and pride in making their department come up to the desired standard. The arrangement of choosing three members from the Junior class, two from the Sophomore and one from the Freshman, seemed to be as fair an apportionment among the classes as could be obtained.

IN another column of this paper announcement is made of the probable formation in the near future of a club which shall have for its object the study of German life and literature of the present day. This is a proposition that is bound to evoke applause from everyone who is interested in our further advancement in matters of a classical and literary nature. Never could we have hoped to become complete as a university, until just such voluntary organizations as the one proposed, had been formed for the independent study and elaboration of matters taken up in the class-room. All such organizations are finishing touches to that structure which we call a university. Without them we would have an institution devoid of everything that delights and satisfies the craving for intellectual improvement. With them we have an opportunity to apply our knowledge obtained in the class-room, exchange ideas, and allow ourselves to pursue the study of that branch of the subject which appeals to us most strongly.

ONE of the most noticeable features of the lectures recently delivered by Prof. Rogers, is the frequency with which the speaker refers to places and incidents which figure in the works of Sir Walter Scott. Indeed a certain acquaintance with the great poet and novelist would seem to be essential to a proper appreciation of the lectures. Especially delightful was the description of the trip through Western Perthshire. This district,

situated in the heart of the Scottish lake region, has, of all places in the world, been endowed by the great writer with that veil of chivalry and romance which is ever connected with his name. Nobody, who has read the "Lady of the Lake," can fail to appreciate the charm of the description of the region where is situated the famous Ben Lomond, and down beneath the old mountain, the valley which burst forth before the enraptured gaze of Fitz-James as he issued from the glen, and

Where, gleaming with the setting sun,  
One burnish'd sheet of living gold,  
Loch Katrine lay beneath him roll'd,  
In all her length far winding lay,  
With promontory, creek, and bay,  
And islands that, empurpled bright,  
Floated amid the livelier light,  
And mountains, that like giants stand,  
To sentinel enchanted land.

Truly one of the finest examples of landscape-painting in poetry, in existence. Also in exhibiting the moonlight view of Melrose abbey, it is evident that Prof. Rogers had in mind the beautiful description of the famous ruin, which we find in the "Lay of the Last Minstrel:"

If thou wouldst visit fair Melrose aright,  
Go visit it by the pale moonlight;  
For the gay beams of lightsome day  
Gild, but to flout, the ruins gray.  
When the broken arches are black in night,  
And each shafted oriel glimmers white;  
When the cold light's uncertain shower  
Streams on the ruined central tower;  
When buttress and buttress, alternately,  
Seem framed of ebony and ivory;  
When silver edges the imagery,  
And the scrolls that teach thee to live and die;  
When distant Tweed is heard to rave,  
And the owl to hoot o'er the dead man's grave;  
Then go—but go alone the while—  
Then view Saint David's ruined pile,  
And, home returning, soothly swear,  
Was never scene so sad and fair!

And then there is Kenilworth Castle made famous by the description in "Kenilworth," of the entrance of Queen Elizabeth and her brilliant train of courtiers into its martial precincts. "She was mounted on a milk-white horse, which she reined with a peculiar grace and dignity. And in the whole of her stately and noble carriage, you saw the daughter of a hun-

dred kings." Is not this description the very embodiment of majestic and queenly dignity?

Only a few instances have been here mentioned in which the monuments of English and Scottish history have had their fame perpetuated through the genius of Scott, but judging even from these, we can form an idea of what a desirable, nay, almost necessary part of the equipment of one who contemplated travelling in the island home of our ancestors, would be a close acquaintance with the author of "Waverley."

### SENIOR EXAMINATIONS.

MONDAY, MAY 19, 1902.

1.30 P. M.

Ms5, Analytical Geometry .....	1	A. II.

All conflicts and omissions should be reported at the office immediately.

Prof. Huddilston will give all of his examinations on Saturday, May 17.

Today there are 629 universities and colleges, and 45 schools of Technology in the United States, with a total attendance of 150,000. The percentage of female students in the United States is greater than that of any other country.

There has been more or less agitation in recent times in favor of reviving the use of the whipping-post. Some bright minds on the campus suggest that the ducking-stool be included also.

Our Puritan fathers found it an efficient means for the repression of the unruly member, and it certainly bears the recommendation of being a great labor-saving contrivance.

C. D. Kittredge passed the latter part of Fast day week at his home in Milo.

C. S. Chaplin has gone on a visit to his home in Portland for a few days.

Saturday, April 20th, the Oak Hall nine played the Beta nine, losing.

It is rumored that a senior was recently a victim of the April showers at Oak Hall.

E. M. Breed attended the military ball and exhibition drill held recently by the Bangor High school at City Hall, Bangor.

President and Mrs. Fellows recently entertained a party of Juniors and Sophomores at their residence.

S. P. Davis and E. W. Delano are at Montague. They are with a surveying party in charge of Prof. G. H. Hamlin.

At a recent meeting of the Art Guild, President Fellows gave an interesting address, on "The Relation of Art to History."

The Betas played the Algonquin Club of Brewer, Thursday, April 24th, and won easily, the score being 24-4. Williams, '05, was the star of the game.

Fast day was celebrated at college by baseball games. In the forenoon the Oak Hall nine played the Kappa Sigma nine and was defeated 15-6.

For the first time, on April 22, the battalion has practiced firing with cartridges. The first trial was, all things considered, satisfactory, but left quite a margin for improvement.

Bishop John M. Walden, of Cincinnati, conducted chapel exercises April 14th. After the exercises he gave a short but interesting address.

President Fellows, attended the installation of President Butler, at Columbia University. On his return he stopped at Medford, to attend the celebration of the 50th anniversary of the founding of Tufts College.

Mr. E. J. Haskell of Westbrook, our recently elected trustee, was on the campus for a few days when he attended the reception given by the Penobscot Valley Alumni Association to Pres. Fellows.

The treasurer of the Athletic association received a letter from Mr. Holman of the U. of M. Law school, congratulating the boys on their recent trip through Massachusetts and New York. The letter was accompanied by a check for ten dollars.

Architect Frank A. Bourne has completed the plans for the Phi Kappa Sigma Fraternity house, which is to be erected on the campus. E. T. Hartwell of Old Town, has been awarded the contract and will begin work at once in order that the house may be ready for occupation by next fall.

The annual catalogue of the University of Maine for 1901-1902 has been received at the college office. The covers are grey with a new design in silver. The book contains 144 pages, illustrated with seven fine half-tones of the views around the campus. A new course has been added in Mining Engineering.

The first debate of the interclass series was held Thursday, April 17, between the Sophomore and Freshman classes. After a very lively debate, the judges decided in favor of the Sophomore class. The judges were Dr. M. C. Fernald, Prof. J. N. Hart and Prof. Karl P. Harrington.

Prof. Allen E. Rogers delivered a lecture on England and Scotland to an audience of about three hundred. The lecture was illustrated by pictures taken on a recent trip through these countries by Prof. Rogers, Prof. Gowell and Prof. Estabrooke. The lecture was particularly interesting and instructive.

A meeting of the Mathematical and Physical section of the Scientific Association was held Wednesday evening, April 23, when the following program was carried out: Scientific Notes, Mr. Poucher; Problems in Attraction, Miss Knowles; Experiments in Atvidometry, Miss Rice.

The Maine Bulletin, containing announcement of the Law school, has been received from the printers. This pamphlet contains much interesting information about this department of the University. It is illustrated by halftones of Pres. Fellows, Dean Gardner, Mr. Southard, Mr. Martin, Prof. Rogers, Judge Emery, Mr. Clark, Gen. Hamlin, Prof. Waiz and Instructor Simpson.

#### BOOKS RECEIVED AT THE LIBRARY.

It is the intention to publish from time to time in THE CAMPUS lists of the principal books which are received at the library. It seems to be the only way by which patrons of the library may easily inform themselves of acquisitions of books as they arrive, as no catalogue is issued for that purpose. Following is a list of most important books received since the last publication:

Transactions of American Society of Mechanical Engineers, Vol. 22.

Shakespeare, Much Ado About Nothing, (Variorum Edition).

Saintsbury, Earlier Renaissance.

Hastings, The Theatre.

Munsterburg, American Traits.

Hurl, Murillo, Titian.

Howard, Mosquitoes.

Wilson, Irrigation Engineering.

Hayson, Filtration of Public Water Supplies.

Palmer, Russian Life in Town and Country.

Lynch, French Life in Town and Country.

Hemstreet, Reporting for the Newspapers.

Cousens, Chemistry of the Garden.

Packard, Lamarck.

Berenson, Italian Art.

Gardiner, Oliver Cromwell.

Otis, Story of Old Falmouth.

Thomas, Intuitive Suggestion.

Gummier, Beginnings of Poetry.

Whittaker's Almanac for 1902.

Freeman, Italian Sculpture of the Renaissance.

Gegenbaur, Vergleichende Anatomie, Vol. 2.

Bromwell, French Art.

Muret-Saunders, English and German Dictionary.

Proceedings of the Society for Physical Research, 15 Vols.

Hough, Dutch Life in Town and Country.

Beers, History of English Romanticism in the 19th Century.

Lee, Microtomists' Vade Mecum.

Neumann, Electrolytic Methods of Analysis.

Love, Fast and Thanksgiving Days of New England.

Windelband, History of Philosophy.

Perrot and Chippiez, History of Art in Primitive Greece; 2 Vols.

Truchot, Les Terres Rares.

Ranson, Gardiner, and Saycock, Dictionary of Dyes.

Maine Historical Society Collections. Vols. 5, 6 and 7.

Centennial Celebration of Orono.

Hiscox, Compressed Air.

Snell, Age of Chaucer.

Keefe, Cast-iron.

Kenfield, College Student and His Problems.

Schelling, English Chronicle Play.

Baker, Municipal Engineering and Sanitation.

Baldwin, On Heating.

## SIGMA ALPHA EPSILON DANCE.

The members of the Sigma Alpha Epsilon Fraternity gave a dancing party in Orono Town Hall, on the evening of April 19. More than fifty couples were present. The event proved to be one of the most pleasant college fraternity events of the year. Before the dancing began, Mrs. George E. Fellows, Dr. and Mrs. Fernald, Mrs. Briggs, and numbers from the Fraternity, received the guests. Following the reception dancing was indulged in and enjoyed to the music of Pullen's orchestra, and it was long past midnight before the party broke up.

The committee in charge of the arrangements were: S. G. Small, R. H. White, E. L. Baker and J. M. Bearce, and much of the success is due to them.

Among the young women present were Miss Thurston, Miss Lord, Miss Thompson, Miss Rowe, Miss Parsons, Miss Lyon, Miss Estabrook, Miss Jordan, Miss Nelson, Miss Hennessey, Miss Dunton, Miss Haskell, Miss Jewett, Miss Brockway, Miss Knowles, Miss Rice, Miss Webber, Miss Danforth, Miss Chalmers, Miss Adams, Miss Smith, all of Bangor; Miss Clare Browne, Houlton; Miss Helen Gray, Miss Fellows and Miss Brown, Old Town; the Misses Cowan, Miss Fellows, Miss Powell, Miss Snow, Miss Hamilton and Miss Crowell, Orono.

Besides the members of the fraternity and other university students, a number of Bangor young men were present.

## ADDITIONS TO CHEMICAL EQUIPMENT.

The equipment of the branch of the Department of Chemistry devoted to the study of industrial chemistry has been recently augmented by the receipt of samples of substances adapted to its use, from several manufacturing firms, and of which due acknowledgment is made.

The firm of William J. Matthewson & Co., has sent more than three hundred samples of aniline dyes. About eighteen specimens of essential oils have been received from Fritzsch Bros., representing Schummel & Co., and from the Standard Oil Co., specimens illustrating the petroleum industry.

## A NEW ORGANIZATION.

It is the intention of Prof. Lewis either before Commencement or at the beginning of the next college year, probably the latter, to call a meeting of all who may be interested in the formation of a German club. Both members of the faculty and students will be included in the invitation. The purposes of the club will be to study the conditions of German life as they exist today, paying particular attention to the modern literature of Germany, the drama, and kindred subjects.

## THESES IN CHEMISTRY.

The titles of theses in all departments except that of chemistry, were published recently. In the chemical course, A. G. Hamilton has chosen for a subject, "Double Salts of Quinoline." A. B. Foster has completed his work on the subject, "A Method for Testing the Availability of Nitrogen in Fertilizers."

## PHI GAMMA DELTA HOUSE PARTY.

On Thursday evening, May 1, the local chapter of Phi Gamma Delta will give a dancing party at their chapter house. The committee of arrangements consists of Messrs. Little, Goodwin and Garland.

## CONSTITUTION REJECTED.

At a meeting of the executive committee of the U. of M. Athletic Association, it was voted not to recommend the adoption of the constitution proposed for the Maine Intercollegiate Athletic Association. The article is incomplete and does not meet the requirements for the government of Maine athletics.

**ART GUILD ELECTS OFFICERS.**

The April meeting of the University Guild was held in Guild Hall on Wednesday evening, April 16. Owing to the expected absence of Prof. Huddilston in May, it was voted to make this meeting the annual meeting, and consequently the annual election of officers took place. The report of the treasurer was read and accepted and the meeting closed with a short address by Pres. Fellows.

A nomination committee was appointed and the following names were presented and accepted as officers for the coming year: President, Mrs. Fellows; vice-president, Mrs. Fernald; secretary, E. R. Mansfield; treasurer, Mrs. Harrington.

The report of Mrs. Harrington, the treasurer of the Guild, showed that the total receipts were \$161.21; expenditures, \$63.13; leaving a balance of \$98.08 in the treasury. The subscriptions for remodeling and furnishing Guild Hall amounted to \$615.05; received from the trustees of the University, \$300; expenditures, \$854.25; leaving a balance of \$60.80. Prof. Huddilston outlined plans for the coming year and at his suggestion, it was voted to place in his hands all available money for him to spend while abroad this summer in the purchase of additions to the already good sized collection. Casts, pictures and the like, may be bought in Europe more cheaply than in this country and as there will be no duty to be paid on them, it is expected that the money will go for the buying of a large number of pieces.

In the course of his remarks, Prof. Huddilston said that 18 new names had been added to the list of members. During the past year 11 casts, 171 photographs, 84 valuable pictures and numerous other smaller pictures had been added to the Guild's collection.

Pres. Fellows then entertained the audience for about half an hour with a very interesting address on The Relation of Art to History.

**THE UNIVERSITY CATALOGUE.**

The University of Maine Catalogue for 1901-1902 has just been issued. In general arrangement, it is similar to others of recent years, the most noticeable change being in the cover which is one of the soft gray tints so popular this year. It contains 144 pages, with full-page illustrations of the campus, Alumni Hall, the Alpha Tau Omega House, a view of the Mount Vernon House, the interior of the gymnasium, and Wingate Hall, and a map of the campus.

The faculty list contains 56 names, and there are 411 students, an increase of 29 over last year. Of the students 5 are graduates, 310 in regular four years' undergraduate courses, (57 Seniors, 55 Juniors, 81 Sophomores and 117 Freshmen), 14 in the short courses in agriculture, 21 specials, and 47 in the School of Law. Three hundred and forty-nine of the students are residents of Maine, 41 Massachusetts, four Connecticut, two New York, two Ohio, and one each from Florida, Illinois, Indiana, Maryland, Minnesota, Rhode Island and Vermont. In addition to these, two come from New Brunswick, and one each from Puerto Rico, Nova Scotia, Prince Edward Island, and Bulgaria.

New courses appear in experimental psychology, history of education, electro-chemistry, machine drawing, Greek prose composition and Italian Art.

Announcement is made of the establishment of a course in Mining Engineering. This states that the work of the first two years will be identical with that in Civil Engineering, except that during the second year, class and laboratory work in chemistry will take the place of mechanical drawing, descriptive geometry and surveying. It is expected that more specific and advanced instruction will be provided for in this department at an early date.

'86.

Edwin Dwight Graves of Hartford, who has been in Bangor on business relating to the reconstruction of the bridge destroyed in the freshet has been appointed one of a committee of three which is to have charge of building the steel span for the toll bridge.

'88.

Dr. Harry Butler, one of Bangor's most prominent physicians is taking advanced work in his profession at one of the medical colleges in Philadelphia.

'90.

Dr. and Mrs. Frank W. Sawyer who have resided in Bangor for the past three or four years, left last week for Everett, Mass. Mrs. Sawyer will visit her parents while Dr. Sawyer will take an extended trip through the West with the object of locating his residence there. Their many friends will be sorry to learn that their removal is caused by Dr. Sawyer's ill health.

The marriage of Ralph Holbrook Wight and Miss Cynthia Celia Titus occurred at the home of the bride's sister, Mrs. W. F. Hayford on Fourth avenue, Cedar Rapids, Iowa, on Thursday, April 17. Since graduation Mr. Wight has been connected with the civil engineering departments of railroads of the Middle West. He is now division engineer of the Iowa Central railroad. Mr. and Mrs. Wight will reside at Marshalltown, Iowa, after May 12.

'91.

The marriage of Clarence Scott and Miss Charlotte Chase Folsom of Old Town, occurred at the home of Mr. and Mrs. Franklin W. Folsom on High street, Old Town, Tuesday evening, April 15. The ceremony was

performed by Rev. E. A. Davis, pastor of the Old Town Baptist church, in the presence of immediate friends and relatives. Directly after the ceremony Mr. and Mrs. Scott took the night train for an extended trip through the west. Mr. Scott is one of the leading attorneys in this section of the state, and the many and costly presents show the high esteem in which both parties are held.

'97.

Allen Rogers, formerly instructor in chemistry at the university, and who has been taking advanced work at the University of Pennsylvania, has been awarded a senior fellowship at that institution.

'98.

C. E. Watts has a fine position as mechanical engineer at a coal mine in Winburne, Penn. In a recent letter he says that U. of M. is at a disadvantage in being so far from the engineering centers, but that the school is all right and must soon forge to the front.

'99.

The alumni department wishes to correct an erroneous statement made in the last issue. The death of Mr. Alson E. Boynton took place at Ballena, San Diego County, California, instead of Ramona, Los Angeles county, as was stated.

C. C. Whittier has a position as civil engineer with R. W. Hunt & Co., Chicago.

'00.

W. C. Clark is catching for the Jersey City team this season. In a recent game against the Athletics he made the only hit of the game.

The engagement is announced of Charles H. Lombard to Miss Edith Holmes of Orono. Mr. Lombard has a position as civil engineer with the Pennsylvania Railroad at Bristol, Penn. Miss Holmes is a teacher in the public schools of Orono.

'01.

R. G. Wormell, who has been employed on the Maine Central railroad since graduation, has accepted a position as draughtsman at Steelton, Penn.

B. F. Faunce has accepted a position as machine inspector with the Cambria Steel Co., of Pennsylvania. His duties require that he put in the greater part of his time travelling, as he has charge of all machinery belonging to the company. Address all letters to 113 Union Street, Johnstown, Penn.

C. A. Mitchell has a position as draughtsman in the office of Robert W. Hunt & Co., of Chicago. He expects, however, to be sent out on construction work in the near future. His address is 6057 Ellis Avenue.

Ex-'01.

N. H. Adams was on the campus recently visiting friends. He has accepted a position with a surveying party and will spend the summer in the vicinity of Chesuncook Lake.

Ex-'03.

C. W. Lewis is transit man on the Illinois Central railroad. Address care of Roadmaster's office, Mattoon, Ill.

### UNIVERSITY OF MAINE 26; WATERVILLE HIGH 1.

The first game of the season on the home ground was played April 19th, against Waterville High. The game was very one-sided, the visitors only making one score. Mitchell was in the box for the University and pitched a good game. Larrabee was put in the box for the last five innings and showed up well. Whittaker pitched for the visitors and pitched a good game, although he had poor support.

The playing of the home team was very good, the only error being by Collins, who dropped a hard one at first.

Waterville High succeeded in crossing the plate in the third. Abbott got first on a single and got second on a sacrifice by Cook and scored on a two bagger by McClellan.

Waterville H. S.	0	0	1	0	0	0	0	0	—1

Two base hits—Holmes, Davis, Thatcher, McLellan, 2. Base on balls—By Mitchell, 2, by Larrabee, 3; by Whittaker, 6. Struck out—By Mitchell, 3; by Larrabee, 6; by Whittaker, 4. Double plays—Abbott and McCorkle. Passed balls—Abbott, 4. Umpire—Beattie—1 hour, 45 minutes.

### UNIVERSITY OF MAINE 6; COBURN CLASSICAL INSTITUTE 0.

On the afternoon of April 23rd occurred one of the most interesting games ever experienced on Alumni field, and most unexpectedly so as well; when C. C. I., with Coombs and Dennison for battery, played the varsity team to a stand still for seven innings.

Mitchell was in the box for Maine and

pitched a strong game, allowing the visitors only three hits. Coburn came to the bat first. Dennison was out on a fly to Larrabee. Dunn got his base on balls but was put out trying to steal second. Hopkins got a single, but was caught out at second.

For Maine, Holmes got a walk and stole second. Then Coombs did his work and struck out Thatcher, Carr, and Davis.

In the second Curtis struck out, also Merrifield. Everleth was out on a fly to Carr. In the second half Mitchell got his base by being hit, Chadbourne was out on a fly and Mitchell was caught at second. Larrabee tried to do his duty but struck out. Dennison in the third was out on a fly to Larrabee. Dunn was out at second. Hopkins got his base on an error and Coombs was out at second.

For Maine, Collins succeeded in hitting the ball, but was out at first. Towse did the same and Holmes struck out. In the fourth, Curtis knocked a long fly to Holmes who settled it; Mitchell was out at first and Merrifield fanned out. In this inning things looked better for Maine. Thatcher found the ball but was out at first; Carr got a single and made a pretty steal for second, making it by several seconds, but was put out by the umpire. Davis was out at first.

In the next three innings, neither side got very far, every man going down either at first, on a fly, or at the plate. As is usually the case, the boys rallied in the eighth and things looked dark for a while for C. C. I. In the first half the men from Waterville went down one, two, three. Larrabee came to himself, wiped the smile off and landed on the sphere for a two-bagger. Collins waited and walked. Towse attempted to bunt and was out. Holmes smoked up and got a single and filled the bases. Thatcher placed another one and Larrabee scored. Carr was out at first on a sacrifice hit, Collins and Holmes scoring. Davis got a single and Mitchell found it for a two-bagger; Thatcher and Davis scored; Chadbourne got a

single and Mitchell scored; Larrabee was out at first.

C. C. I. was unable to find the ball in the ninth and the score stood 6 to 0. Coombs pitched gilt edge ball and, except in the eighth, was too swift for the college team. He is without doubt the fastest pitcher among the preparatory schools. The umpiring of Dorricos was somewhat shady at times, but the visitors had nothing to complain of. Allen at short for Coburn played a good game. Dennison caught very well, roping in some hard fouls.

Mitchell and Chadbourne for Maine played the game for keeps. Mitchell's control was almost perfect and was steady at critical points. The playing for Maine was somewhat loose at first but seeing it was necessary, the boys settled down to fast baseball.
