THE CAMPUS

Vol. III.

ORONO, ME., JUNE 1, 1902.

No. 16

N. E. I. PRESS ASSOCIATION.

About twenty collegians, representing the papers and magazines of nine of the New England colleges, gathered at the Copley Square Hotel, Boston, on Monday, May 26, to attend the annual meeting of the New England Intercollegiate Press association. At 2.30 p. m. there was a business meeting followed by articles on subjects connected with the publication of college papers. At this meeting the following papers were read and discussed: How to Interest Freshmen in the College Paper, Miss H. S. Buhlert, Wellesley; College News Department, Albert W. Atwood, Amherst; Humor in College Magazines, W. H. Leary, Amherst; Literary Value of College Prose and Poetry, Clement F. Robinson, Bowdoin; Trials of a Business Manager, P. F. Doyle, Holy Cross. In the evening at eight o'clock a banquet was served by Proprietor Risteen for the association. Colleges whose papers were represented were Bowdoin, University of Maine, Massachusetts Institute of Technology, Amherst, Wesleyan, Holy Cross, Wellesley, Mt. Holyoke and Boston University. In the case of colleges publishing more than one paper, all publications were generally represented. Officers for the ensuing year were elected as follows: President, L. L. Palmer, Wesleyan; vice president, A. Grace McGovern, Mt. Holyoke; secretary and treasurer, Clement F. Robinson, Bowdoin.

THE CAMPUS REPRESENTED.

The CAMPUS was represented at the meeting of the association by Business Manager I. E. Treworgy. Mr. Treworgy reports that he got much valuable information from his attendance, which is sure to be of great help in conducting the paper.

MORE ELECTIVES FOR ENGINEERING STUDENTS.

An important change is to be made next year in the method of selecting studies for the respective courses. A plan has been adopted which is now satisfactorily employed in a number of other colleges, and which allows a student more freedom in making out his course. The change is important, and should be thoroughly understood. The rules by which the system is to be guided are accordingly given in full.

REQUIREMENTS FOR GRADUATION.

The satisfactory completion of five hours a week for one term entitles the student to one credit. The regular minimum work for a term is fifteen hours, leading to three credits. A minimum of six credits represents the work of a year. The present rules on military drill and gymnasium work are unchanged.

Candidates for graduation are required to complete a four-years' course of study by securing at least twenty-four credits (credits for 12C term hours). Certain courses require from one to six more credits.

Credits are distributed as follows:

Required Work. This work, common to all courses, must be done by all students who are candidates for graduation, *unless a special excuse is obtained from the Faculty Committee on Required Work*. The required work is as follows: 1. *English*, one year, daily, or two years divided. 2. *Language*, (French, German, Greek, Latin), one language two years, or two languages one year each, daily. Students beginning any language must take at least one year of daily recitations in that language and receive two credits for it before the work can

be counted towards graduation. 3. *Mathematics*, one year, daily. 4. *Science*, (Chemistry, Physics, Botany, Biology, Geology, or Physiological Psychology), one year, daily, of which time at least one-half shall be accompanied by laboratory work.

ELECTIVE WORK.

Major Subject. Each student must select the work in some one department, from three to four years daily. In many cases the selection of a major subject need not be made before the beginning of the Sophomore year. A student may change his major subject with the consent of the professor in charge of the department which he leaves, and also of the one which he wishes to enter; but no student will be graduated who has not finished all the work required for graduation in some one department, no matter how much work he may have done in other departments. The major subject must include at least three full years of daily work, and no professor may demand more than eight terms, of five hours each, of a student's work.

Minor Subject. The remainder of the student's work may be selected from any department or departments of the University. This must be done with the advice of the head of the department in which the student has chosen his major subject, and the head of the department in which he may select his work, that it may bear some useful relation to his other work.

SOPHOMORE HOP.

One of the most enjoyable events that has occurred on the campus for some time was the Sophomore Hop held in the "Gym" on the evening of May 23rd. The success of the affair establishes the prestige of the class as social leaders when called upon.

Conditions were excellent for the fullest enjoyment of every minute of the dance, as the decorations were unusually complete and at-

tractive. Pullen's orchestra of seven pieces furnished music and this, together with the perfect condition of the floor, made an ideal dance hall.

Special cars ran over the B. O. & O. leaving West Market square at 7 o'clock, and specials left the campus for Bangor and Old Town at 1.20 Saturday morning. Many people came up from Bangor and each was enthusiastic over the treatment received. On the down trip it was the same good old case of hug a strap, but there was a bigger crowd than had been expected and the railroad officials thought that two specials would give everybody a seat. Nobody had any complaints coming, as both trolleys were in an uproar of good nature from the time the campus was left until Bangor was reached.

At the gymnasium no pains had been spared in the way of decorating. The class colors in bunting, crimson and blue, were everywhere in evidence and the national colors were displayed lavishly. Along the balcony railings flags of the University of Maine were gracefully draped and from the central chandelier a large silk American flag was hung. The receiving booth was made attractive by rugs and couches, and the orchestra, which was stationed in the center of the floor, was screened by palms and potted plants. The effect from both gallery and floor was pleasing and called forth much praise. Much credit is due to the young men who had the entire affair under charge, Ralph T. Hopkins, Karl Byron Porter and James H. Sawyer.

An innovation was introduced at this hop which hasn't been tried before this year; it was walking on the campus. The big doors at the rear of the hall were swung open and the dancers were allowed to descend to the walks by the broad path that is used by the battalion to and from parade. The atmosphere was warm enough to obviate any likelihood of contracting cold and between every dance and at intermission the young people flocked out and filled their lungs with fresh air.

Before the dance a short reception was held during which the guests were introduced to the president of the sophomore class, Mrs. George Emory Fellows, and Dr. and Mrs. M. C. Fernald. The presentations were made in a graceful manner by a large corps of ushers.

The floor manager for the dance was Thomas C. Herbert, and his aids were E. R. Berry, H. D. Haley, R. C. Baker and K. B. Porter.

Among the people present at the dance from Bangor were Miss Hart, Miss Hammond, Miss Oak, Miss Adams, Miss Lovejoy, Miss Parlin, Miss Thurston, Miss Estabrook, Miss Ethel Rowe, Miss Bass, Miss Leslie Jewett, Miss Mabel Bridges, Miss Marjorie Robinsen, Miss Marjorie Brown, Miss Bernice Rowe, Miss Nelson, Miss Rachel A. Jordan, Miss Lyon, Miss Stetson, Miss Chase, Miss Danforth, Miss Alice Lord, Miss Hasty, Miss Rena Keliy, Miss Nellie Hogan, Miss Pauline Hayford, the Misses Buckley, Frank E. Hutchinson, Joseph H. Woodward, Fred A. Anderson, Linden P. Brown, Ralph E. Gardner, Fred H. Hopkins, Irvin C. Swett, Charles W. Bailey, William J. Crowley, Frank Bass, Ralph E. Bridges, Edward H. Finnegan, Harry M. Lincoln, Harold C. Stetson, Samuel D. Thompson, Haraden S. Pearl, Ralph E. Lord, Christopher Toole, Jr., M. T. Copeland, Howard G. Stone, Wilfred Finnigan and Geo. L. Downer.

SOME RADICAL CHANGES.

The Faculty meeting of Monday, May 25, was an important one for all concerned, although the effects will not be felt immediately. A radical departure was made from the existing order of things when it was decided to abolish the system in present use, of designating the days of the college calendar as single star and double star days alternately. This plan, although it had its advantages, was cumbersome and productive of numerous complications. In place of it, beginning with the next

term, the method will be employed of assigning hours of recitation in the respective studies for certain days of the week. Also in addition to this, it was voted that all students having arrearage laboratory work, be required to make up that work before being allowed to register. Senior vacation with this college year is a thing of the past, and a still further reduction in the length of the term will be made by shortening the Christmas recess, which next year will extend from Wednesday, December 23 at 5.30 o'clock, to January 22 at noon.

EDWARD J. BLAKE.

Edward J. Blake, whose death is noted in another column, was born at Brighton, Maine, November 23, 1858. He entered the Maine State College with the class of seventy-nine. While there he was very popular with his classmates, being elected president of his class at the first election. As a student he was quick of comprehension and possessed of a retentive memory, leading his class with the highest average rank for four years. He also stood high in the science of military tactics and during his course served successively as corporal, first sergeant and captain. After graduation, when he received the degree of C. E., he was engaged in various odd positions, until in 1888 he accepted a position with the C. B. & Q. R. R. He led a varied life for some years after, holding positions with the Hannibal & St. Joseph R. R. and the Kansas City, St. Joseph & Council Bluffs R. R., but finally returning to the C. B. & Q., where he was soon advanced to the position of consulting engineer of the entire system, which he held at the time of his death.

Mr. Blake stood high in his profession, being a member of the American Society of Civil Engineers, and also of the Western Society of Engineers, and the University Club of Chicago. He was certainly one of the most successful of the Maine Alumni.

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

Terms: \$1.50 per year, strictly in advance; single copies 10 cents.

Address all business communications and make all checks payable to Isaac E. Treworgy, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

Entered at the Post Office at Orono, Me., as second-class mail matter.

PRINTED BY J. P. BASS & Co.

STUDENTS' DIRECTORY.

TRAINS—Leave Orono for Bangor at 6.46, 8.57, 9.57, 10.52, A.M.; 12.45, 1.42, 2.52, 4.02, 7.12 P.M.

Leave Orono for points north of Old Town at 7.21 A.M.; 2.28, 5.04, 6.53 P.M.

Leave Bangor for Orono at 4.35, 7.00, 8.30, 11.30 A.M.; 1.15, 2.05, 2.50, 3.10, 4.45, 5.30, 6.30, 11.05 P.M.

Leave Bangor for the south and west at 7.15 A.M.; 1.35, 8.09, 11.45 P.M.

Leave Bangor for Bar Harbor at 6.00, 9.30 A.M.; 4.50 P.M.

ELECTRICS—Cars leave Bangor at 5.30 A.M. and each hour thereafter until 11.30 A.M.; after 11.30 P.M. on the half hour until 8.00 P.M.; after 8.00 P.M. until 11.00 P.M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10 m. past the hour.

MAILS—From Bangor and the west, 7.06 A.M., 3.29 and 6.53 P.M. From Vanceboro and the Provinces, 7.06 A.M. and 1.00 P.M. From Aroostook and Piscataquis Cos., 3.29 and 7.00 P.M. Mails will close at the post office for trains: To Bangor and the West, 6.30 A.M., 12.40 and

6.40 P.M. To Vanceboro and the Provinces, 3.10 and 6.40 P.M. To Aroostook and Piscataquis Cos., 6.30 A.M. and 12.40 P.M. Mails from Stillwater, 6.00 A.M., 5 P.M. To Stillwater, 7.45 A.M., 5.15 P.M.

The college library is open from 8.00 to 12.00 A.M. and from 1.30 to 5.30 P.M.

The college office is open from 8.00 to 12.00 A.M., also from 1.30 to 5.00 P.M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS.

ALTHOUGH we expected a large entering class next fall, we were hardly prepared for the report that four hundred persons had signified their intention of entering with the next Freshman class. This preposterous idea had however gained considerable headway, and for sake of certainty we investigated it. As would be expected it was found that the number included all who have been corresponding with a view of entering some college or other. The number of *bona fide* applications was however surprisingly large.

A little matter that has probably never occurred to those having charge of the commencement exercises is that a great many are deterred from attending the evening functions by the difficulty attending the return. In June the nights are cold, but open cars are generally in use. Those who are compelled to use them as a means of transportation are accordingly put to great trouble in being obliged to carry somewhat heavier wraps than from the nature of the case are convenient. If it could be arranged to have the winter cars in service whenever an evening function is in progress a great obstacle would be removed which now prevents many from attending who otherwise would do so.

Invitation Meet

RECENTLY we have heard more or less frequent reference to a certain inter-collegiate cup. Although there seems to be nobody who has very definite ideas as to its whereabouts, or in fact as to its

existence, it is very certain that there is such a cup in possession of one of the Maine colleges. For the constitution of the Maine Intercollegiate Athletic Association mentions one and lays down rules by which it shall be awarded. These rules provide that the cup shall be given to the college that wins the largest number out of ten annual track meets. But during the time elapsing before its final disposition, it shall be in the possession of the college which shall have at any time won the last regular meet. According to these rules the cup would be awarded at the next meet, and of course would go to Bowdoin. But likewise according to the rules it should be in our possession until that time, as the winners of the last contest.

“WELL, well, well,” say those of Brunswick, “they *did* do it didn’t they?” And you ought to hear them say it.

As if the youngster had given the old man a little more of a tussle than he was looking for from a year’s growth, but the old gentleman would take care next time and gird his loins a little higher. And then, “Presto!” the whole performance is over as neatly as of old. And what gives us this impression is chiefly from reading the *Orient* of May 23. But we likewise glanced over the pages of the previous issue of the same periodical and found things humming a very different tune, which was pitched in the following key: “The college should go to Lewiston in a body Friday. The track men have worked hard and trained earnestly and it is but just to give them the encouragement they have earned. No mere feeling that Bowdoin is sure in any case to win the meet should keep students from going with the team to cheer it. We do expect to win but the mere winning is but a part of the object of the meet. We must win by a large enough margin to show that the loss of two or three of our best men by graduation has not crippled us.” It must be a grand sensation to be so superior to your antagonist that you can afford to let him beat

you for the fun of the thing, but it is one which he hardly appreciates.

IT would be difficult for one who had not examined the report of the committee on preparatory schools and courses of the Maine Modern Language association, an account of which we give in another column, to realize the chaotic condition in which the instruction of modern languages was found to be. Before the formation of the association no organized attempt on a sufficiently large scale had ever been made toward establishing a uniform course of preparation for college in these studies. Needless to say, the confusion and trouble caused by each school determining its own course independently of others has been a source of infinite trouble to the colleges. And it is by no means a remarkable fact that modern languages seem to be the greatest sufferers in this respect. The preparation in most other studies has long since assumed a certain uniformity, and the amount and kind of preparation needed is well understood, and even if not so it is a matter to be easily determined. But in the case of modern languages, the full importance of which has been generally recognized only in comparatively recent years, the planning of a preparatory course was left in the great majority of cases to the judgment of each individual teacher, and consequently a great variation in the modern language curriculum was the result. This condition of affairs, in a time when the fitting school is intended to lead directly to the college without the medium of further preparation, could not help causing endless confusion. It is to arrange this state of affairs more uniformly, bringing order out of chaos, that the aforementioned association was formed. And the undertaking, especially considering its incipient condition, has already given promising results.

The answers received by the committee on the blank forms that were sent to be filled out by every teacher of modern languages in the state are

significant, and throw a searching light on the matter which the committee is investigating. The committee finds that too often is poor instruction supplied in modern languages or pupils are made to unconsciously receive an impression of their inferior importance. Another fact which is surprising is the comparatively large number of schools that divide their daily sessions into thirty minute periods, which is obviously too short a time for accomplishing a sufficient amount of work. In regard to this matter the committee recommends that all recitation periods be at least forty minutes in length. The teacher seems to have struck a chord that needs more sounding, who returned the answer, "English needed more," to the question as to whether the requirement of a year of some modern language by the colleges would help the situation in Maine. Not but that there is any doubt that at least a year could and should be spared for the study of French or German but this teacher seems to be conscious of the fact that the first language to be mastered by a pupil is his own, and that a great deal of the difficulty which is encountered in the study of a foreign language is due to an incomplete knowledge, more particularly of grammatical construction, of English.

A NEW FIELD OPEN.

The report of the committee on preparatory schools and courses of the Maine Modern Language Association has been adopted and printed by the Educational Department of the State. Dr. Lewis is chairman of the committee and it was through the efforts of himself and Prof. Files of Bowdoin that the association was organized. The report itself is as nearly complete as was possible to make it, being a pamphlet of thirty-four pages. The unsparing efforts to tabulate information wherever necessary shows that the committee have done their best to treat the matter in a clear and comprehensive light.

In the spring of 1901 the first meeting of the association was held at Colby college at the instigation of Profs. Lewis and Files. At that meeting a committee of five was appointed to present at the next meeting suggestions as to the number and length of periods in modern language instruction that might best be given in fitting schools. That the committee did their work well the completeness of the report amply testifies. In summarizing the results of their work they make a number of recommendations which should be of invaluable interest to all who contemplate becoming teachers. Some of the most important are as follows:

2. (a) That the periods devoted to modern language instruction be at least 40 minutes in length.

(c) That less than 180 minutes of instruction per week in a modern language course be considered by the colleges as probably not fulfilling the certification requirements in that course.

(d) That schools giving less than 34 weeks of actual instruction per year in modern languages be considered by the colleges as probably not meeting the college requirements in those courses.

3. That no course of less than six terms in modern languages, except in Spanish or Italian, be offered in the secondary schools of the State.

4. That the vote of the Association at its first annual meeting in reference to the addition of a year of a modern language to college entrance requirements be reconsidered.

5. That the English Conference be strongly urged to consider the present state of instruction in English grammar in the schools in its effect upon the teaching of modern languages.

The University of Michigan has more alumni than any other University in the United States, having 15,000. Harvard is second with 14,006, and Yale third with 11,436.

Prof. Stevens is to offer two new courses next term in laboratory physics. One is to be in electricity and one in optics, each of five hours per week.

No more senior vacations.

Dr. Fellows delivered a memorial address at City Hall, Bangor, Sunday evening, May 25.

Prof. Woods has been confined to his house for two weeks but is out again.

Little, '04, has been detained at his home in Bucksport on account of illness.

Olivenbaum, '04, has been confined to his room for some time on account of illness.

Wiley '03, recently spent a few days at his home in Bethel.

Breed '04, has left college for the remainder of the year.

The appearance of the exterior of the Beta house has been much improved by a coat of red paint.

A committee of the faculty is at present considering the plan of lengthening the college year one week.

Dr. Fellows entertained the Seniors at Senior Tea on Tuesday and Wednesday evenings of last week.

The Experiment Station has recently received from Paris a diploma awarded at the Exposition Universelle de 1900.

Treworgy, '03, took advantage of his trip to Boston as representative of the CAMPUS at the meeting of the N. E. I. Press association, to attend the Worcester meet.

The cup which has been on exhibition in the library and at Bangor is made from Tobin bronze, from the plates left over after the com-

pletion of the cup defender, Columbia.

Prof. Jones and Miss Hamilton are to attend the meeting of the American Library association, held in Boston and Magnolia, June 14-20.

The Experiment Station has recently received a request from Holland for eggs for setting purposes. This seems to indicate that the reputation of Maine hens has gone abroad.

The second circular of the summer school has been received at the office. The summer school is now a certain thing as enough applications have been received to assure its success.

A banner has been received from Wright & Ditson, which is to be presented to the preparatory school whose athletic team won in the invitation meet. The banner goes to Bangor High school.

Prof. and Mrs. Huddilston have sailed for Europe. Prof. Huddilston plans to spend the greater part of his time in Italy. During his absence he is to make numerous purchases for the Art Guild.

Prof. Merrill is at present working on a sample of the ashes that fell at Barbadoes during the recent volcanic eruption. The object of his investigations is to ascertain if the ashes possess any fertilizing value.

On Friday evening, May 23, the Freshman class held a hop at Music hall, Old Town. There were about 40 couples present and the dancing continued till an early hour when the party returned on a special car.

There has been issued from the college office a pamphlet containing a collection of photographs of the campus buildings, etc. The pamphlet is well gotten up, well printed, and presents a very attractive appearance. It should do much toward attracting prospective students.

Work has begun on grading and putting in cement walks in front of Alumni Hall. The lawn will be raised to the level of the walk already in place, and cement walks will take the place of the gravel walks that were so muddy

this spring. The driveway will also be wide enough for carriages to pass each other.

Prof. Harrington has been away for ten days. The object of his trip was to attend the New England Association of Colleges on Entrance Requirements which was held in Boston. At this meeting nine New England colleges were represented. During his absence he also visited several "prep" schools in Massachusetts and Connecticut that wish to be placed on the approved list of the U. of M.

The following rules have been adopted by the faculty:

1.—A student having an arrearage in one or more courses in laboratory work, at the beginning of the term, when such work is regularly taken, shall be required to complete the arrearage work before taking up advanced laboratory courses.

2.—In case the student as above has no advanced laboratory courses he shall be required to complete his arrearages at the beginning of the term, said arrearages having precedence. Neglect of immediate and regular attention to such work shall subject him to the discipline of the faculty.

3.—A Junior shall not be allowed to register until all Freshman laboratory courses are completed. A Senior will not be allowed to register till all Sophomore laboratory courses are completed. The word laboratory as used above means time work.

THANKS FOR MILITARY DEPARTMENT.

Hannibal Hamlin post, G. A. R., at its regular meeting on May 15, passed the following resolutions of thanks to Gen. Runkle and to the members of the battalion:

Resolved, That the thanks of Hannibal Hamlin post, 165, Department of Maine, G. A. R., are hereby tendered to Gen. Benjamin P. Runkle, U. S. A., and the cadets of the University of Maine for their kind and patriotic offer

to furnish escort to the Grand Army on Memorial day.

The heartfelt thanks of the old soldiers are also due them for their thoughtful offer to furnish officers to other organizations to enable them to show their regards and respect to the memory of the men who gave their lives to save their country from chaos and destruction.

COMMENCEMENT PROGRAMME IN FULL.

PROGRAM.

SATURDAY, June 7.

Junior Exhibition, in the Chapel, 8 p. m.

SUNDAY, June 8.

Baccalaureate Address, by President George Emory Fellows, in the Chapel, 8 p. m.

MONDAY, June 9.

Convocation, in the Chapel, 10 a. m.

Class Day Exercises, in the Chapel, 2.30 p. m.

Informal Reunion of the Alumni, at the President's House, 8 p. m.

TUESDAY, June 10.

Buildings open to visitors, 9.30 a. m.

Phi Kappa Phi Initiation, in the Chapel, 9.30 a. m.

Baseball Game, Alumni Field, 10 a. m.

Receptions by the Alpha Tau Omega, Beta Theta Pi, Kappa Sigma, Phi Gamma, Phi Gamma Delta, and Sigma Chi Fraternities, in the afternoon.

Reception by the President, 8 p. m.

WEDNESDAY, June 11.

Annual Meeting of the Alumni Association, Room 1, Alumni Hall, 10 a. m.

Commencement Exercises, in the Chapel, 11 a. m.

Commencement Dinner, in the Gymnasium, 1 p. m.

Commencement Concert, in the Chapel, 8 p. m.

Charles Gould, the Yale football captain for last season, will coach Amherst this year.

Copies of the following letter have been sent out to all the alumni, and from present indications there will be an unusually large number present at commencement:

Orono, Maine, May 20, 1902.

Dear Sir:—

Commencement this year comes June 7-11, and it is expected that there will be a large attendance of alumni.

The University sends no invitation to Commencement to the alumni, regarding them as members of the family who know that they are always welcome. A copy of the official program is enclosed.

One event of special interest to the alumni is the "Informal Reunion of the Alumni," Monday evening at eight o'clock. This is a new feature, and although it comes so early in the week that some who may wish to do so may be unable to attend, yet it is believed that all who can will take advantage of the opportunity to meet one another at this time, and to meet President Fellows in the purely social and informal manner that this affords.

As the years pass, the number of alumni increases, traditions gather around the University, and attendance at Commencement comes to be pleasanter every year. If you haven't been coming regularly, come this time; if you come this year, you will plan to come next year.

Yours very truly,

L. C. SOUTHARD, President,

RALPH K. JONES, Cor. Sec.,

University of Maine Alumni Association.

Please notify the Cor. Sec. if you wish to have a seat reserved for you at the Commencement dinner.

'77.

At a conference of influential Democrats from different parts of the state held at Augusta recently it was decided to present the name of Samuel W. Gould of Skowhegan for the nomination for governor at the Democratic state convention to be held in Bangor, June 17. Judging from newspaper reports, there seems little doubt that Mr. Gould will receive the nomination.

'79.

Edward J. Blake, who held the position of consulting engineer of the Chicago, Burlington & Quincy Railroad Co., was killed recently in a railroad wreck at Alma, Wisconsin. Mr. Blake was a native of Bridgton, and was a member of the Q. T. V. fraternity. Particulars of his death had not been received at the time of going to press.

'81.

G. W. Sturtevant of Chicago, Ills., has recently been on the campus. Mr. Sturtevant makes an annual trip east for business purposes and never fails to make us a call.

'82.

Charles S. Bickford was recently re-elected chairman of the school board at Belfast, Me.

E. C. Webster sailed from Boston Thursday on the Celtic for Europe. Mr. Webster expects to spend about two months abroad; the greater part of the time in Germany.

C. C. Garland, manager of the Debsconeag Fish and Game club, has announced himself as a candidate for nomination on the Republican ticket for election to the state legislature from Old Town.

'85.

Leonard G. Paine of Philadelphia was in Bangor recently. He was called there by the death of his father, Prof. L. L. Paine of the Theological Seminary. Mr. Paine has assumed the position formerly filled by J. D. Lazell as Philadelphia representative of the Plunger Elevator Co., and the Passaic Rolling Mill Co., with offices at rooms 804 and 805, 1416 South Penn. Ave., Philadelphia.

'87.

James D. Lazell has accepted a most desirable position as assistant to the president of the Transit Finance Company, a newly organized corporation which controls numerous electric railways.

'90.

A. H. White, chief engineer of the International Paper Co., visited the Webster Pulp mill May 5.

C. C. Harvey of Fort Fairfield has purchased "The Leader and Farm Journal," one of the best known papers in the northern part of this state, and will conduct the paper henceforth under the name of "The Fort Fairfield Review."

'92.

Arthur C. Grover for some years city engineer of Rutland, Vermont, has been in Fort Fairfield for some days examining the streets, sidewalks and sewerage of the town and giving professional advice upon them. Mr. Grover is a brother to Prof. Grover.

William C. Holden, principal of the Manual Training School of Lynn, Mass., has been offered a similar position by the school authorities of Hartford, Conn. One of the leading Lynn newspapers expresses great fear that Mr. Holden will accept the offered position, which shows the esteem in which he is held.

An account of Mr. Holden's life and the training which he has received to fit him for his profession is sufficient evidence of the standing which he has in his line of work. Mr. Holden was born in Saco, Maine, fitted for college at Bridgton Academy. After graduation he accepted a position as special teacher of manual training in St. Paul, Minn. At the end of a year he took a similar position at Cleveland, Ohio; from there he went to Portland, Maine, resigning to accept the position in Lynn. His work in Lynn has been very successful, building up this branch of educational work until the class is

one of the largest attending the Lynn high schools.

'93.

Harry M. Smith of Bangor has received his commission as captain of Company G, N. G. S. M.

'95.

Ora W. Knight, chemist of the Experiment station, was recently in Portland on business. Mr. Knight there visited stores handling fertilizers and took samples which he brought back for analysis at the Experiment station.

Melville F. Rollins, who has been a member of the Chicago, Milwaukee & St. Paul railroad's engineering staff in Iowa, for the past three years, has been transferred to Milwaukee, where he is in charge of the building of a big railroad yard which necessitates the turning of the course of a stream.

'98.

F. W. Sawtelle has been appointed road master on the Maine Central railroad. He has charge of the third division extending from Bangor to Vanceboro with headquarters at Bangor.

Charles A. Pearce, who has been at work in Boston since graduation, expects to return to Fort Fairfield about June 1.

'99.

Leonard H. Ford, formerly of Bangor, was on the campus recently. He is at present principal of the High school and superintendent of schools at East Eddington, Me.

D. C. Cleaves has accepted a position as assistant chemist at the Massachusetts Agricultural college.

Invitations were received on the campus from George Libby Hilton to attend the commencement exercises of the graduating class of 1902 of which Mr. Hilton is a member, of the College of Physicians and Surgeons of Baltimore, held at Ford's Opera House, Baltimore, on Tuesday, April 29, at 12 o'clock.

'00.

Frank McDonald has returned to his

home in Portland from Schenectady, New York, where he has had a position as electrician with the General Electric Company.

'00 (Law School.)

Frank J. Small, Esq., of the firm of Cook & Small of Waterville, who has been the leader in a French class formed in that city, was, at the last meeting, presented with two valuable books of quotations from the class.

Howard Peirce of Blaine is a candidate for the Republican nomination to the State senate from northern Aroostook.

'01.

B. C. Martin has taken charge of the construction of a division of the Fort Kent extension of the B. & A. railroad.

C. D. Harvey who has been employed as chemist at New Limerick has taken a position with the Cambria Steel company.

Ex-'02.

Harry B. Burns has recently returned to Fort Fairfield from the West, where he has been visiting his uncle, R. B. Burns, '77, who holds a fine position as chief engineer on the Santa Fe Pacific railroad; address, 2642 Vermont Ave., Los Angeles, California.

I. E. Mosher sailed from Boston recently on one of the steamers carrying supplies to relieve the sufferers at Martinique.

Mr. Nathan H. Adams of Notch, Me., was married to Miss Grace E. Carr of Old Town on the evening of Wednesday, April 30, the ceremony being performed at the home of the bride's parents, Mr. and Mrs. G. W. Carr by Rev. E. A. Davis in the presence of immediate friends and relatives. Mr. Adams is employed as transit man on the West Branch survey, which will operate in the neighborhood of Chesuncook lake the coming summer.

Ex-'03.

Liston Harris has been in the vicinity of Norcross where he has been in the employ of the New England Telephone Co.

NINTH ANNUAL MEET.

Lewiston, Me., May 16, 1902.

For the first time in the history of the Maine Intercollegiate meet the championship was taken from Bowdoin. It was universally conceded before the meet that Bowdoin would again win and it seemed probable that Bowdoin would win at least 77 points. The outcome was a surprise to all and is only explained by the fact that the University of Maine team has been training for the meet for over three months under Coach Mack.

In 1900 the University of Maine team took only 12 points, winning third place. The following year under the coaching of Mr. Mack, Maine succeeded in winning 39 points.

In the meet on May 16 Maine won eight first places, and a total of 60 points against 57 for Bowdoin, 8 for Bates, and 1 Colby.

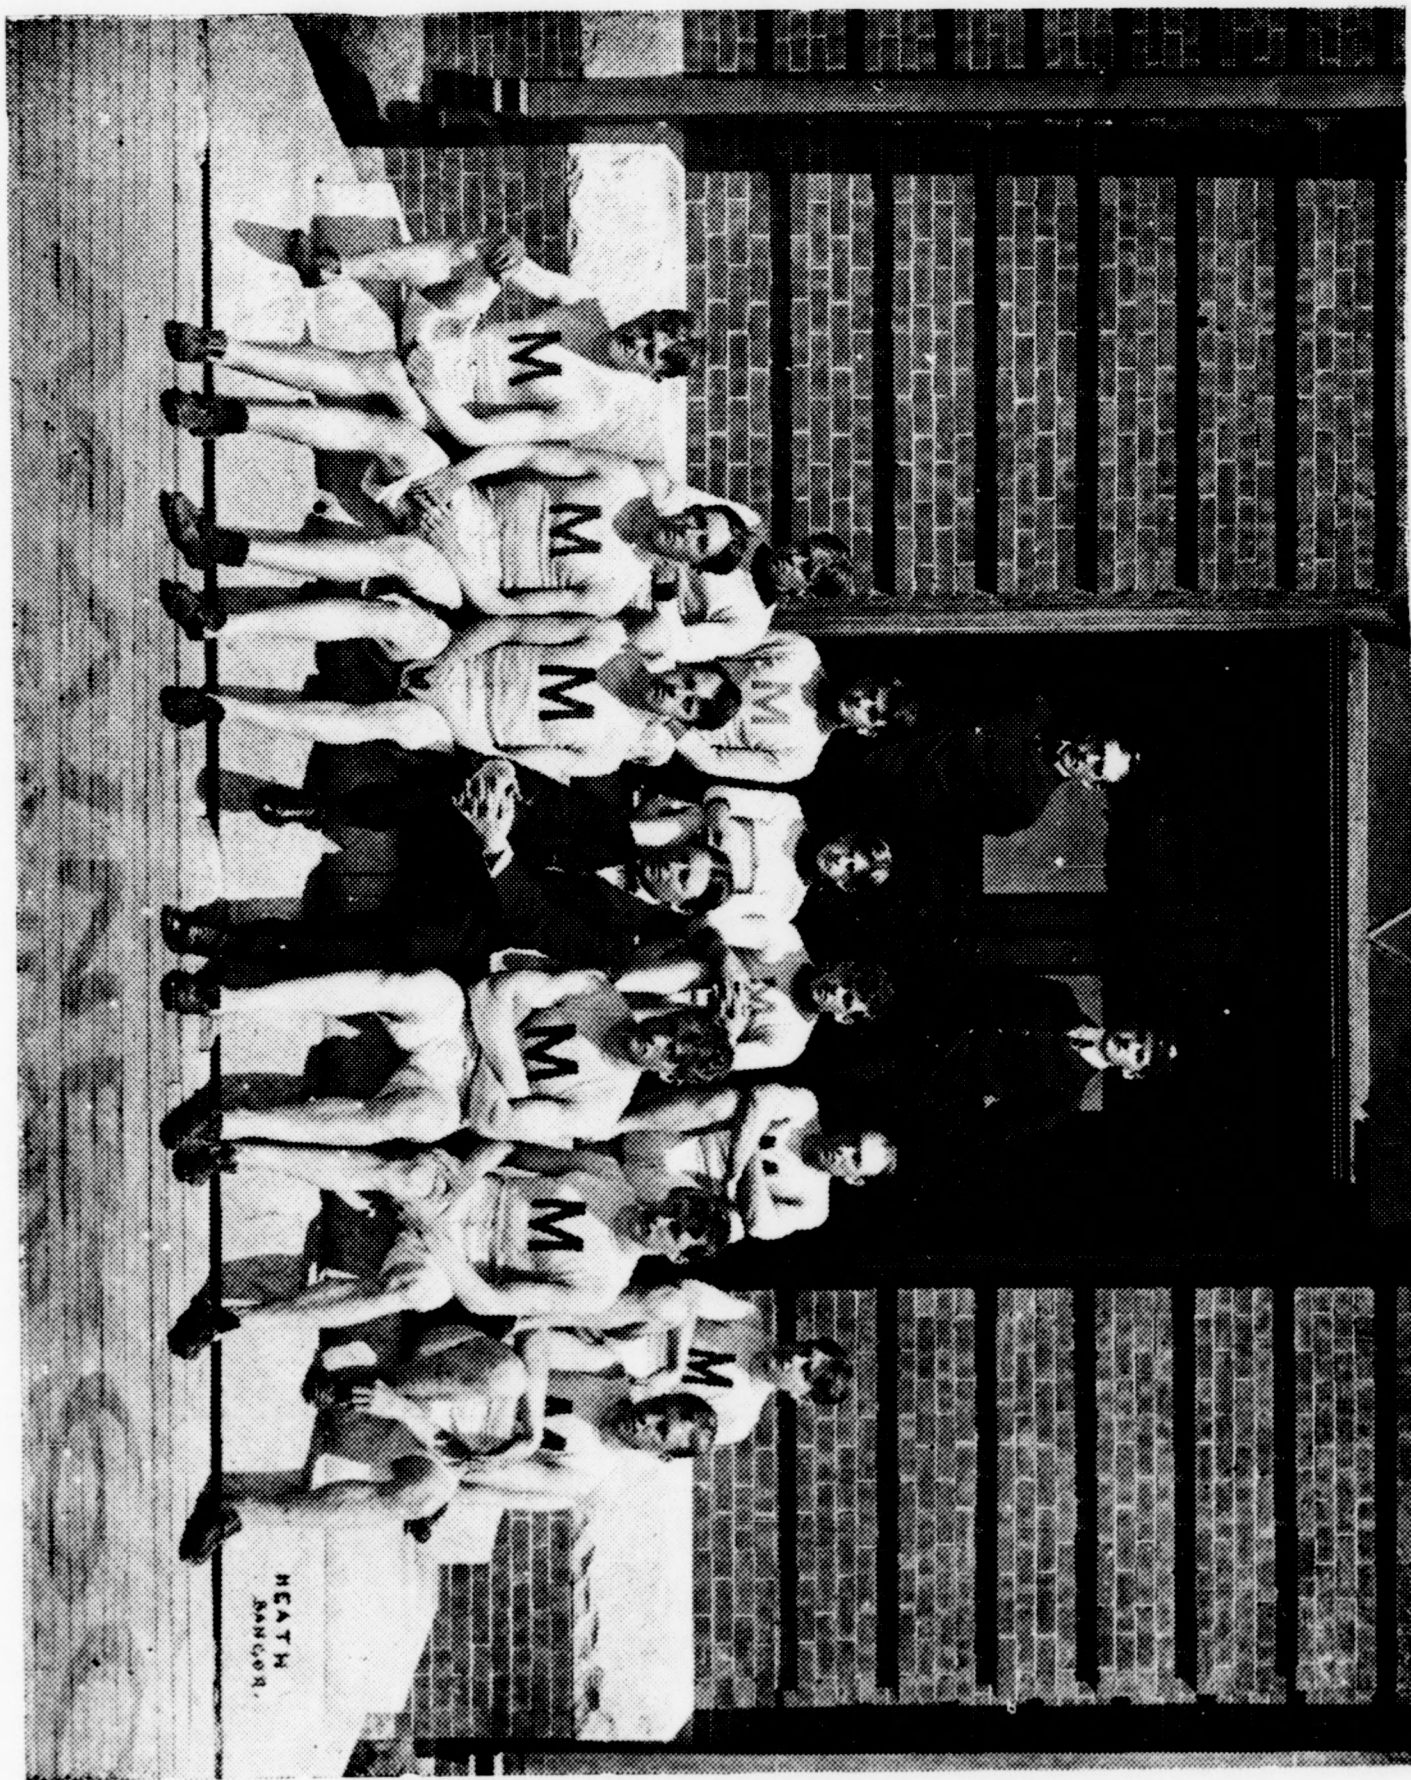

The ninth annual meet was without doubt the most interesting of any yet held among the Maine colleges. Nearly every event was closely contested, and the result of the meet was in doubt until the last event was finished.

The first event was the 440-yard dash and was run in one heat in the forenoon. Gray of Bowdoin drew eighth position but was given the pole. Conner took the pole for the first half of the course and then was passed by Gray and then by Perkins, who followed Gray in a good race to the tape. It was a hard race and run in good time.

In the sprints Captain Harris of the University of Maine captured the hundred and two-twenty dash. Davis captured both hurdles for the University although he had never run the whole distance before. Nutter of Bowdoin took the half-mile by a long lead, breaking the record of 2 m., 4 1-5 secs. by 2 1-5 secs.

Lawrence of the U. of M. easily won the two mile, finishing at a two-twenty clip with the rest far in the rear. He could have run much faster without doubt.

Denning of Bowdoin took the hammer-

throw, breaking the record by seven feet and eight inches. He also took the shot-put. Watson took the discus event.

In the pole vault Parker and Shaw of the University of Maine tied at 9 feet, 9 inches, each clearing the stick the first attempt and did not try any more.

The most interesting part of the meet was the running broad. The points then stood: Maine 55, Bowdoin 53. In the first jumps, Hamilton of Bowdoin went 19 feet, 3 inches; Parker, U. of M., 19 feet, 8½ inches; Hunt, of Bowdoin, 20 feet, 4 inches. Then Hamilton went 20 feet; Hunt, 20 feet, 4¼ inches. The next jump for Parker; he went out 20 feet, 5⅞ inches. Captain Hunt, leaning over the pit, remarked: "That's better than mine; I will have to beat that this time." He jumped next time 18 feet, 7½ inches and was unable to do much better. In the finals Parker showed great steadiness, his three jumps being 20 feet, 6 inches, 20 feet, 5 inches, 20 feet, 5¾ inches.

Too much can not be said in praise of the work of Coach Mack. In two years he has brought the University of Maine track team from almost a total failure to first place in the state. Whatever may be the excuses of others, the success of Maine is due to good coaching, and honest training under Coach Mack and Captain Harris.

The summary follows:

100-yards dash—Won by Harris of U. of M.; second, Hunt of Bowdoin; third, Soule of Bowdoin. Time, 10 1-5 seconds.

220-yards dash—Won by Harris of U. of M.; second, Perkins of U. of M.; third, Everett of Bowdoin. Time, 23 seconds.

120-yards hurdle—Won by Davis of U. of M.; second, Hunt of Bowdoin; third, Babcock of Bates. Time, 17 seconds.

220-yards hurdle—Won by Davis of U. of M.; second, Rowe of Bowdoin; third, Thatcher of U. of M. Time, 27 seconds.

440-yards dash—Won by Gray of Bowdoin; second, Perkins of U. of M.; third, Rounds of

Bates. Time, 53 3-5 seconds.

Half-mile run—Won by Nutter of Bowdoin; second, Thompson of Bowdoin; third, Silver of U. of M. Time, 2 minutes, 2 seconds. (Record).

One-mile run—Won by Lane of Bates; second, Pierce of Bowdoin; third, Thomas of U. of M. Time, 4 minutes, 55 4-5 seconds.

Two-mile run—Won by Lawrence of U. of M.; second, Bisbee of Bowdoin; third, Robbins of Bates. Time, 11 minutes, 7 4-5 seconds.

Running high jump—Won by Hamilton of Bowdoin; second, Clark of Bowdoin; third, Soderstrom of U. of M. Height, 5 feet, 6 inches.

Running broad jump—Won by Parker of U. of M.; second, Hunt of Bowdoin; third, Hamilton of Bowdoin. Distance, 20 feet, 6 inches.

Pole vault—Parker of U. of M., and Shaw of U. of M., tied for first place; third, Hawes of Colby. Height, 9 feet, 9 inches.

Throwing 16-pound hammer—Won by Denning of Bowdoin; second, Elliott of U. of M.; third, Small of Bowdoin. Distance, 129 feet, 11 inches. (Record).

Putting 16-pound shot—Won by Denning of Bowdoin; second, Small of Bowdoin; third, Elliott of U. of M. Distance, 38 feet, 6½ inches.

Throwing discus—Won by Watson of U. of M.; second, Elliott of U. of M.; third, Small of Bowdoin. Distance, 104 feet, 11¼ inches.

The following is the standing of the four colleges, first place counting five points, second three, and third one:

	U. of M.	Bowdoin	Bates	Colby.

Throwing discus	8	1	.	.
Totals	60	57	9	1

SECOND ANNUAL INVITATION MEET.

The Second Annual Invitation Meet was held on Alumni Field, May 17, in which Bangor High school won out in a close finish over Kent's Hill by a total of 41 1-5 points. The latter team had to content itself with 31 points and second place while third place went to Skowhegan High school with 27 1-5 points. Brewer High school drew fourth position.

Although in their total, Bangor stood first with a good margin of ten points over their closest rivals, Kent's Hill, nevertheless it was a race to a finish between these two teams and not until Porter had covered 18 feet, 11 inches in the broad jump, thereby winning this event, was Bangor assured of a victory.

Bangor's success was largely due to the systematic training which they have had this spring and their acquaintance with the track, two afternoons of each week having been spent at Orono under the eye of Coach Mack of the University of Maine track team, in working out the men with the advantages of the athletic field.

Eight schools and academies competed for honors, and the plucky work of the various teams was most commendable, many of the schools being entered for the first time in any athletic contest. The results are considered most satisfactory by the promoters of the invitation meet as an immediate interest has been created in track events in the schools and academies in this section of the state and during the ensuing year a wider list of entries is

assured. The trials were all run off in the morning, the entire afternoon being employed in running off the finals. The weather was quite favorable except for a stiff breeze which was of a decided inconvenience to the competitors in the sprints. For Kent's Hill, Higgins was their stronghold, winning first in all of the weight events. This started things going their way and it was nip and tuck to the finish with Bangor.

The various teams arrived in Orono, Friday, afternoon and evening, and were entertained by the various fraternities on the campus.

Buildings were thrown open to inspection and general attention given to the visitors. The trophy which is to be presented to the team which shall win the largest number of points at three invitation meets, held at Orono, will be held by Bangor High school until the next annual invitation meet.

The events were as follows:

Putting 16 Pound Shot—Higgins, (Kent's Hill) 1st; Bailey, (Higgins Clas.) 2d; McKay, (Higgins Clas.) 3d. Distance, 34 feet 3 inches.

Throwing 16 Pound Hammer—Higgins, (Kent's Hill) 1st; Ayer, (Kent's Hill) 2d, Oliver, (Ricker) 3d. Distance, 112 feet 7 inches.

Throwing the discus—Higgins, (Kent's Hill) 1st; Day, (Higgins) 2d; Oliver, (Ricker) 3d. Distance, 102 feet 9 inches.

100 yards dash—Porter, (Bangor) 1st; Flagg, (Skowhegan) 2d; Bass, (Bangor) 3d. Time, 11 4-5 seconds.

Half Mile Run—Manter, (Kent's Hill) 1st; Pullen, (Brewer) 2d; Crawford, (Bangor) 3d. Time, 2.14 2-5.

120 Yards Hurdle—Adams, (Bangor) 1st; Pierce, (Bangor) 2d; Day, (Skowhegan) 3d. Time, 20 1-5 seconds.

440 Yards Dash—Manter (Kent's Hill) 1st; Brastow, (Brewer) 2d; Finnegan, (Bangor) 3d. Time, 58 3-5 seconds.

Mile Run—Thomas, (Skowhegan) 1st;

O'Connor, (Bangor) 2d; Norwood, (Brewer) 3d. Time, 5 minutes 9 seconds.

220 Yards Hurdle—Smith, (Skowhegan) 1st; Adams, (Bangor) 2d; Merrill, (Brewer) 3d. Time, 30 4-5 seconds.

220 Yards Dash—Porter, (Bangor) 1st; Patten, (Brewer) 2d; Flagg, (Skowhegan) 3d. Time, 25 3-5 seconds.

Two Mile Run—Thomas, (Skowhegan) 1st; Crawford, (Bangor) 2d; Rice, (Bangor) 3d. Time, 12 minutes, 32 1-5 seconds.

Pole Vault—Pierce, (Bangor) 1st; Oliver, (Ricker) 2d; Smith, (Brewer) 3d. Height, 9 feet, 2 inches.

Running High Jump—Jordan, (Ellsworth) 1st; Smith, (Skowhegan) 2d; Day, (Skowhegan) Blaisdell, (Fort Fairfield) Carter, (Ricker) Matthews, (Bangor) tied for 3d. Height, 5 feet 1 1-2 inches.

Running Broad Jump—Porter, (Bangor) 1st; Flagg, (Skowhegan) 2d; Smith, (Skowhegan) 3d. Distance, 18 feet, 11 7-8 inches.

The University of California came to New Haven and met defeat at the hands of Yale in a dual track meet.

Colby has not won a college baseball game this year. She has all but two of her old players with which she won the championship of Maine last year.

GAMES WILL BE PLAYED.

Manager Simpson has practically concluded negotiations with the Bates baseball management for a game to be played between the teams of the two colleges in Bangor on June 7. The game with Colby which was postponed on account of bad weather will be played sometime during Commencement week.

U. OF M. 2; BATES 1.

On Wednesday, May 14, the University of Maine baseball aggregation retaliated its defeat in Lewiston on the 3d of May by taking Bates into camp by the narrow margin of 2 to 1. It was one of the most scientific exhibitions of ball playing to which we have been treated on home grounds this year.

Both teams played fast baseball that ranked closely to professional. For six innings neither team scored and the immense crowd began to realize that they were seeing a rare game of ball in which it was a fight to the finish, both teams being matched to a hair in strength.

Mitchell was in his regular form, allowed nobody to walk, and although not striking out nearly as many men as Towne, succeeded admirably in keeping Bates' hits scattered.

For Bates, Towne was a tower of strength, striking out a total of eight men, besides pulling successfully out of one of the hardest predicaments that a pitcher could be cast into. This was in the fourth inning.

Carr was the first man up for Maine. He got

the ball well located and sent a hot one over second for a pretty single. The cheering squad took advantage of this point to make themselves known. This was certainly an auspicious opening for Maine for neither side up to this time had scored. "Frisky" Davis bunted a handsome one to Towne who was too late to get his man at first. Things were certainly coming Maine's way. Mitchell chose second base for his alley and lined a slow one to Clason who was a little too eager to make a double and fumbled it until too late to catch either man.

The bases were now full with no one out. If Maine was ever going to score it surely seemed that the time had arrived.

But such good fortune was not for Maine.

Larrabee was the first victim to fail. He was unable to connect and went back. Violette followed his example, while the grandstand groaned. Things were looking black for Maine but there was still some chance for scoring, as Collins was at the bat and a hit meant two scores. Towne settled down and sent one across the plate that Collins couldn't see. It was one strike. He was unable to connect with the next two balls and the side was retired.

In the next two innings six men only were up and Maine had failed to score. In the last half of the eighth came the happy part of the game, in the estimation of Maine's supporters. Holmes was the first man up for Maine. He popped up an easy one to Parsons at third who dropped it and Holmes was safe. Thatcher, who was having an off day, failed to connect. Carr was up. The latter hit safe into center field, while Holmes brought up at third.

The cheers were deafening. Davis was up and a hit meant the tying of the score. He was equal to the emergency and placing his broad shoulders against the sphere sent one sizzling between shortstop and third base, scoring Holmes.

The score was tied and cheers were deafen-

ing. But one man was out; Carr was on third, with Mitchell at bat. A long hit meant a score and a single score probably meant the winning of the game. Mitchell braced and the ball went soaring heavenward, seemingly good for two bases. Moody in center field, by a long hard run placed himself under it. At the instant the ball struck Moody's hands Carr started for home and the winning run had been made before the ball was returned.

This clinched the game for Maine, for Larrabee retired the side by putting an easy one to Towne, who threw him out at first. Bates was unable to score throughout the rest of the game. The score:

U. OF M. 11; TUFTS 6.

The University of Maine won the first game from Tufts on May 20th at Medford, Mass. The game was a terrific batting contest from the first, the Maine boys finding Clay for one home run, one three-bagger, one two-bagger with a total of fourteen hits. Mitchell held down the home team to eleven scattering hits. The victory came as a great surprise to the University of Maine, as Tufts has a strong team and it was expected that Tufts would win. Mitchell pitched a steady game, also made two hits and fielded in his usual form.

**BOWDOIN 5; U. OF M. 3.**

Maine crossed bats with Bowdoin for the second time this season on Whittier Field, Wednesday, May 21, and was defeated in a close game by a score of five to three. The Bowdoin team was much stronger than it was when it appeared in Orono, probably due in part to the shake-up which it has undergone since that time.

Mosher started in to do the twirling for Maine but was retired in the sixth in favor of Mitchell, who did some fine work in the remaining innings, holding his opponents down to a single hit, in spite of the fact that he had pitched a hard game against Tufts the preceding day. Oakes did good work in the box, and was ably assisted by his team-mates, who played a fast game from start to finish. The large number of strike-outs placed to his credit, however, were in a great measure due to the kindly assistance of the umpire, who obligingly closed his eyes and called everything which was not hit, a strike.

Bowdoin won the game in the second inning, when five runs were scored on a few clean hits and some more timely aid from the umpire. Incidentally, the umpiring in this game was about the worst exhibition ever seen by the players on either team, and was denounced by both teams, in spite of the fact that Maine was getting the short end of it all the time. In

justice to the Bowdoin team and its manager, however, it should be said that in all probability they were unaware of the thorough incompetency of the man when engaging him to officiate.

Outside of the above mentioned spectacle the feature of the game was the batting of Capt. Carr, who made three fine hits in four times up. The score:
