CHANGES IN THE FACULTY

The following list includes the changes and promotions in the faculty of the University of Maine for the coming year:

President George E. Fellows has been appointed professor in history in charge of the department.

Caroline Colvin has been appointed instructor in history. Miss Colvin is a graduate of the University of Indiana in the class of 1893. She has been tutor at Fort Wayne, Ind., five years. She was a Fellow in history at the University of Pennsylvania for three years and received the degree of Ph. D. Her thesis was on a subject in Irish History and upon the merits of this thesis she was invited to become a member of the Royal Antiquarian society. She has spent a year in travel and study abroad.

Prof. A. E. Rogers has been relieved of the work in history and will hereafter be professor of political economy and civics.

Perly F. Walker has been appointed professor of mechanical engineering, in charge of the department made vacant by the resignation of Prof. Walter Flint. Mr. Walker graduated from the University of Maine in the class of 1896. He was four years instructor in the University of Maine. He has taken post graduate work and the degree of M. M. E. at Cornell University and has been employed by a ship building company at Newport News, Va., for the past year. He was engaged as instructor for a time at Cornell University and is a member of the honorary society, Sigma XI.

H. H. Hilborn of Brooklyn, N. Y., has been appointed instructor in mechanical engineering to fill the vacancy caused by the resignation of Fred H. Vose, who has accepted a similar position at Washington University, St. Louis, Mo. Mr. Hilborn is a graduate of Cornell University

and for the past few years has been engaged in practical work in Brooklyn.

George D. Hadzsists has been appointed temporary professor in Greek in the absence of Prof. Huddilston in Europe.

Walter M. Eby has been appointed instructor in English and public speaking. Mr. Eby is a graduate of Harvard University, where he has taken special work in the department of public speaking.

Walter Y. Dubuque has been appointed instructor in romance languages in place of P. W. Harry, resigned. Mr. Dubuque is a graduate of Yale University. He has spent a year at the University of Paris and has been instructor at the University of Indiana for a year.

F. H. Mitchell has been promoted from tutor to instructor in chemistry.

H. W. Britcher, who has been assistant zoologist in the experiment station has been appointed instructor in biology.

Guy A. Thompson has been promoted from tutor to instructor in English and modern languages.

Walter D. Lambert has been appointed tutor in mathematics in place of Louis Siff, resigned. Mr. Lambert is a graduate of Harvard and has taught at Purdue University, Lafayette, Ind.

W. A. Mitchell has been appointed tutor in physics. Mr. Mitchell graduated from Trinity in the class of 1901, where he took honors in physics. He has been connected with the New York & New Jersey Telephone company during the last year.

Thomas Buck has been appointed tutor in mathematics in place of R. M. Packard. Mr. Buck is a graduate of the University of Maine, class of 1901, and has studied at the University of Chicago during the past year.

H. E. Cole has been appointed tutor in electrical engineering in place of G. H. Davis,

resigned. Mr. Cole is a graduate of the University of Maine, class of 1902.

H. P. Hamlin has been appointed assistant in civil engineering. Mr. Hamlin is a graduate of the University of Maine, class of 1902.

H. H. Hanson has been appointed assistant chemist in the experiment station.

M. B. Cummings has been appointed assistant in horticulture. Mr. Cummings is a graduate of the University of Vermont, class of 1901.

Stanley J. Steward, in addition to his position as foreman of the shop, has been given charge of the heat and light plant.

IN THE LAW SCHOOL.

Prof. W. S. Walz of the School of Law has been promoted to acting dean of the School of Law, to fill the vacancy caused by the resignation of Prof. Gardner.

Edwin M. Simpson, instructor in law, has been made assistant professor in law.

Y. M. C. A. NOTES.

The association began its work as usual by establishing an information bureau in the military instructor's office in which the usual investigation in regard to membership in evangelical churches, was carried on. The results show about the same number as last year. The bureau proved a valuable assistance to those who were looking for boarding places. On Monday morning the usual handbooks were distributed, which are a very creditable work of the association, and prove of much value to the students seeking general information.

J. H. McCready, R. F. Chandler and H. A. Stanley, represented the association at the Northfield Convention, and received many good ideas for Y. M. C. A. work. The association wishes to thank the students who so willingly subscribed to the fund, which made the delegates visit possible.

On Saturday evening, Sept. 20th, the regular reception to the incoming class was held in the chapel. The reception committee consisted of Dr. and Mrs. Fellows, Prof. and Mrs. Stevens and Prof. and Mrs. Harrington. Lemonade

and fancy crackers were served by Misses Wentworth and Hinckley. The speakers were Dr. Fernald, Prof. Stevens and Dr. Fellows. Mrs. Fellows sang a selection during the evening which was enjoyed by all. As usual the evening closed by all gathering around the piano and indulging in college songs. Everyone reports a very pleasant time.

On the afternoon of Sept. 21st, the association held its first meeting in its room in the Art Guild. Prof. Hulbert of the Bangor Theological Seminary spoke to a large body of the young men. This was the first of a series of talks which the association plans to continue during the year.

Prof. Sewall of the Bangor Theological Seminary, spoke Sunday afternoon, Sept. 27th, on the subject of Bible Study. Miss Drinkwater, of Bangor, sang. These afternoon meetings are very helpful and a large number are availing themselves of the opportunity. The association holds its mid-week prayer meeting on Wednesday evening from 6.45 until 7.30. On Sunday afternoon at 4.00 is the Bible study classes in the library reading room. It is urged upon the members of the class of 1906 to avail themselves of the privileges afforded by the meetings.

NOTICE.

This number of THE CAMPUS is sent to each member of the entering class. Unless notice to discontinue the paper is given to the business manager, Mr. I. E. Treworgy, Kappa Sigma House, it will be sent you for the year at the regular subscription price of \$1.50.

We take this liberty feeling certain that you will find it to your interest to take the paper, not only for this year but for every year while you are in college. It will give you a record of all the principal events of the year and if you will preserve the copies and have them bound, they will afford you a good deal of satisfaction in years to come. Every effort will be made on the part of those having the paper in charge to keep it up to its standard, and, if possible, improve it where it is thought needed. We solicit your aid in this undertaking.

CLASS OF 1906

Largest Entering Class in the History of the University

Up to Sept 25th, 151 students have registered in the entering class. Of these 127 are entering the regular course, for four years; 10 are to take short pharmacy and 14 are special. There are 20 from Massachusetts, 2 from New Hampshire, 1 from New Jersey, 1 from Rhode Island, 1 from Virginia. It includes students from Brown, Radcliffe, Syracuse University, Colby and Bates. Last year the entering class numbered 138 which was the largest in the history of the college. The present class outnumbers that and may reach the 160 mark. Following are the names of the new students and the places where they room as far as can be ascertained at this writing:

Edward B. Aborn, Lynn, Mass., University Hall.
Herbert L. Abbott, Bucksport, Me.
Jefferson L. Alexander, Eastport, Me., F. A. Abbott.
Alton A. Austin, Mexico, Me., Mrs. Latno.
Roy S. Brown, Oakland, Me., University Hall.
Frank Banks, Biddeford, Me.
Frank L. Bailey, So. Harpswell, Me.
Girard N. Bass, East Wilton, Me., Mrs. W. E. Page.
John Battye, Wales, Mass.
Ernest D. Bean, Haverhill, Mass., University Hall.
Henry W. Bearce, Hebron, Me., Oak Hall.
Arthur G. Bennett, Paris Hill, Me., University Hall.
Emery R. Bowdoin, Prospect Ferry, Me.
Leland G. Boyd, No. Monroe, Me.
Elmer P. Bradley, Pemaquid, Me., Alpha House.
Elwin D. Brown, Dexter, Me., University Hall.
Everett D. Brown, No. Bethel, Me.
H. Everett Burrill, Waterville, Me., University Hall.
Albert J. Butterworth, Southbridge, Mass., Oak Hall.
Charles W. Campbell, Ellsworth, Me.
F. G. Campbell, Rockland, Me., Mrs. Latno.
Gotthard W. Carlson, Bethel, Me.
Wilbur J. Carver, Searsport, Me., Mrs. A. M. Gee.
Sidney Cassey, Lynn, Mass., University Hall.
Claude E. Caswell, Gray, Me., Mr. Harry Beale.
Galen S. Cleland, Calais, Me., Mr. Harding.
Edward K. Colby, Lynn, Mass., University Hall.
Joanna C. Colcord, Searsport, Me., Mount Vernon House.

Guerrio D. Coligny, Springfield, Mass., Mrs. Latno.
Daniel W. Cony, Augusta, Me., Beta Theta Pi House.
Lincoln Crowell, Boston, Mass., Charles Crowell.
William M. Cullen, Thomaston, Me.
Charles Ellsworth Currier, Brewer, Me.
Franklin W. Danforth, Skowhegan, Me.
Frank A. Derby, Temple, Me., Mrs. W. E. Page.
Rosmar S. Devereux, Castine, Me., No. 53 Main St., Orono.
Artie A. Dinsmore, Bingham, Me.
Esther M. Dixon, So. West Harbor, Me., Mrs. O. C. Dunn.
William R. Dolbeer, Salem, Me.
Herbert P. Downing, Ripley, Me.
James R. Dwelly, Franklin, Me.
Dayton J. Edward, Oaks, Me.
Hallet C. Elliott, Patten, Me.
Samuel Elliott, Rumford Point, Me., Spearin Hall.
Harry A. Emery, No. Anson, Me., 47 Main St.
James W. Elms, Foxcroft, Me.
H. E. Farnsworth, West Jonesport, Me.
Gladys E. Fellows, Orono, Me., President's House.
John D. Finnegan, Bangor, Me.
Charles W. Floyd, Wytotitlock, Me.
Clinton F. Forbes, Buckfield, Me.
Percy D. Fraser, Oldtown, Me.
Walter O. Frost, Rockland, Me., University Hall.
Cecil S. French, Kingfield, Me., Mrs. Beal.
Claude A. Gray, Bridgton, Me.
Ernest L. Gray, No. Fairfield, Me.
Robert W. Grinnell, Searsport, Me.
George P. Goodwin, Skowhegan, Me., A. A. Walton.
L. E. Gould, Presque Isle, Me., University Hall.
Roy G. Hamlin, Gorham, N. H., Harris.
Brydon E. Harding, Danforth, Me., Mrs. Gee.
Frederick H. Harlow, Gorham, Me.
Guy L. Harville, Skowhegan, Me., Mrs. A. E. Walton.
Frank S. Herricks, So. Turner, Me.
Wellington P. Hews, Ashland, Me., Mrs. Latno.
George H. Hill, Saco, Me.
Oliver F. Hills, Rockland, Me.
Lester B. Howard, Dover, Me., Mrs. Webster.
Charles J. Hien, Sabbattus, Me., Spearin Hall.
Carl Hannevell, Madison, Me., University Hall.
Carolyn Hodgdon, Hampden Corner, Me., Mt. Vernon House.
Harvey H. Hoxie, Waterville, Me.

Caleb H. Johnson, Nahant, Mass., Mrs. Merriman.
 A. C. Jones, Rockland, Me., University Hall.
 Roy F. Jordan, Norway, Me., Mrs. Merriman.
 Harold Louis Karl, Rockland, Me., Mrs. O. F. Abbott.
 Ralph B. Kelly, Island Falls, Me., Oak Hall.
 J. R. Kittredge, Rockland, Me., University Hall.
 Raymond B. Kittredge, Beverly, Mass., 101 Oak Hall.
 Arthur B. Lancaster, Gardner, Me.
 Howard A. Lancaster, Oldtown, Me.
 Clement F. Lemassena, Newark, N. J., Mrs. R. S. Merriman.
 Oscar R. L'Esperance, Woonsocket, R. I., Spearin Hall.
 James N. Libby, So. Gorham, Me.
 William H. Linn, Hartland, Me., Phi Gamma Delta House.
 Adelbert Y. Locke, Farmington, Me., Phi Gamma Delta House.
 Ralph E. Lord, Bangor, Me.
 Merton R. Lovett, Beverly, Mass., 101 Oak Hall.
 Edward Martin Lynott, East Eddington, Me.
 Charles H. Martin, Fort Fairfield, Me., Phi Gamma Delta House.
 William L. McDermott, Biddeford, Me., Alpha House.
 Karl McDonald, Belfast, Me., 108 Oak Hall.
 William A. McLain, Rockland, Me., University Hall.
 Henry P. Millane, Holyoke, Mass.
 James M. Moody, Limington, Me.
 Jerome A. Moorin, Biddeford, Me., Mrs. Lynch.
 Max Gibson Newman, Friburg, Me., 47 Main St.
 Leroy C. Nickols, Saco, Me.
 H. E. Norwood, Bangor, Me.
 Harry H. Nutter, Corinna, Me.
 Robert F. Olds, Lewiston, Me., University Hall.
 Ignatius V. O'Donoghue, Portland, Me., Mrs. Latno.
 George S. Owen, Portland, Me., Phi Gamma Delta.
 James L. Paige, Southbridge, Me., 310 Oak Hall.
 Alcott J. Pennell, Melrose Highland, Mass., Mrs. Merriman.
 William W. Peterson, Searsport, Me.
 Arthur B. Plummer, No. New Portland, Me.
 Roy H. Porter, So. Paris, Me., University Hall.
 Arthur W. Prescott, Hanover, N. H., Spearin Hall.
 Charles E. Prince, Kittery, Me., 306 Oak Hall.
 Frank R. Reed, Rumford Falls, Me., 311 Oak Hall.
 T. Harold Reynolds, Eastport, Me., F. A. Abbott.
 Earle R. Richards, New Gloucester, Me., Mrs. W. S. Hatch.
 Alton W. Richardson, Bethel, Me.
 Guy H. B. Roberts, Alfred, Me.
 Bernhard E. Robertson, Detroit, Me., 47 Main St.
 David W. Rogers, Patten, Me., 111 Oak Hall.
 Harold D. Ross, Skowhegan, Me.
 Edgar J. Sawyer, Millbridge, Me.
 Warren S. Sawyer, Ft. Fairfield, Me., 10 Pine St.

Orville A. Scudder, Jamaica Plains, Mass.
 Raphael S. Sherman, Camden, Me., Mrs. O. F. Abbott.
 Walter S. Sikes, Three Rivers, Mass., University Hall.
 John P. Simmons, Belfast, Me., President Fellows.
 Edward L. Skinner, Mansfield, Mass.
 Ralph S. Smith, Orono, Me.
 Frederick D. Southard, Dorchester, Mass., Phi Gamma Delta.
 Arthur S. Sparrow, So. Orleans, Mass., Mrs. A. Emery.
 Carl C. Spencer, Beverly, Mass., University Hall.
 Edward A. Stanford, Lovell Ct., Me., 306 Oak Hall.
 F. Carroll Stewart, Farmington, Me., Mrs. Latno.
 Lucrus B. Swett, West Hollis, Me.
 Geo. R. Tarbox, Calais, Me.
 John L. Tewksbury, Lewiston, Me., Mrs. Latno.
 Elroy G. True, Yarmouthville, Me., Mrs. Merriman.
 Leroy R. Varney, Windham Ct., Me.
 Perley W. Varney, Windham Ct., Me., H. O. Beale.
 F. F. Veazie, Rockland, Me., Beta House.
 James G. Wallace, Portland, Me.
 Marian L. Webster, Orono, Me.
 Arthur P. Weymouth, Corinna, Me.
 Albert A. Whitmore, Fryeburg, Me., Mrs. Latno.
 Mary M. Wilson, Solon, Me., Mt. Vernon House.
 George Wilson, Portland, Me.
 Walter A. Wood, Gardner, Me., Kappa Sigma House.
 Herbert W. Worcester, Portland, Me., Mrs. Kenney.

MUSICAL CLUBS.

At a meeting of the musical clubs Sept. 23, Philip Dorticos, '04, was elected leader of the instrumental clubs, and Kittredge, '03, was elected leader of the glee club. Freeman, '03, was chosen manager last spring and will return to college soon when active work will begin. The club did not lose but few men by graduation and as there is some valuable material in the freshman class it is expected that a successful season will follow.

NOTICE.

Henry E. Cole has been elected treasurer of the athletic association.

Major Ben P. Runkle has been appointed to a position at the Peekskill Military Academy, Peekskill, N. Y.

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

Terms: \$1.50 per year, strictly in advance; single copies 10 cents.

Address all business communications and make all checks payable to Isaac E. Treworgy, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

Entered at the Post Office at Orono, Me., as second-class matter.

PRINTED BY BANGOR CO-OPERATIVE PRINTING CO.

STUDENTS' DIRECTORY.

TRAINS—Leave Orono for Bangor at 6.35, 8.48, 9.57, 10.52, A. M.; 12.46, 1.42, 2.52, 3.52, 7.12, P. M.

Leave Orono for points north of Old Town at 4.18, 6.20, 7.23 A. M.; 3.44, 5.23, 6.43, 11.23 P. M.

Leave Bangor for Orono at 4.00, 8.25, 11.35 A. M.; 1.15, 2.20, 3.25, 5.00, 5.30, 6.20, 11.00 P. M.

Leave Bangor for the south and west at 7.00 A. M.; 1.40, 8.00, 12.25 P. M.

Leave Bangor for Bar Harbor at 6.05, 9.30 A. M.; 4.55 P. M.

ELECTRICS—Cars leave Bangor at 5.30 A. M. and each hour thereafter until 9.00 P. M.; after 9.00 P. M. on the hour until 11.00 P. M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10m. past the hour.

The boat of the Boston & Bangor S. S. Co. leaves Bangor for Boston, stopping at Rockland and intermediate landings, on Monday, Wednesday, Thursday and Saturday at 12 M.

The college library is open from 8.00 to 12.00 A. M. and from 1.30 to 5.30 P. M.

The college office is open from 8.00 to 12.00 A. M., also from 1.30 to 5.30 P. M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS.

ANOTHER year has gone and THE CAMPUS again has the opportunity of making its welcome known to all of the students. After a summer of rest from the study and confinement of college life we find ourselves rested and ready to undertake the work of another college year with renewed zeal and activity and with the same anxious desire to see the name of the University of Maine kept bright and glorious as our predecessors have left it. We miss the old faces of the class of 1902 and wish at times that they might be with us. But we are consoled by the presence of a large entering class and the promise of another year of successful achievements in athletics; if not victorious, yet successful in view of the fact that it represents the best interest of the college and consists of good, earnest men who have chosen this college as their own without any material inducement.

During the last year many changes have come to us. Among them the resignation and departure of our president, Dr. Harris, whose work will always serve as a lasting monument to remind us of his ever relentless efforts in behalf of the University. With his departure comes our new president whom we have every reason to believe will be to us what our last president was, a good friend, an able instructor, and a leader in things pertaining to college life and activities. Another change has taken place

which we believe means much to us all; in the resignation of General Runkle the students of the University of Maine lose a good friend and able instructor. He entered the University under very unfavorable conditions, having only one class that had had any drilling at all, but through his efforts he succeeded in putting out three very well drilled companies which made a very creditable showing. Not only was he successful as an instructor but he was the students' friend and will be greatly missed by all.

Many other changes have taken place which will be mentioned elsewhere.

TO the members of the class of 1906 THE CAMPUS extends a hearty welcome. We feel that you have taken the right step in coming here. The demand for men educated in the mechanical arts is on the increase and this demand will increase as the years go on. The increased size of the entering class each year is an encouraging sign.

In your connection with the University you will find much to interest you. You have come with the intention of improving your condition and you should not lose sight of the fact that you can also be of use to the University. You should lose no time in becoming acquainted with its various phases. What the future is to be depends as much upon you doing your part faithfully as upon those at its head. From time to time you may be asked to aid in different undertakings, sometimes in a financial way, which should be considered as a privilege rather than otherwise. Always be in that place where the success of the college may bring to you a satisfaction that you have aided it and are a part of it, or if defeat comes, never allow yourself to be in a position where you could feel that it might have been otherwise if you had done your part. If you are an athlete, follow that when you pos-

sibly can; if musical, ally yourself with the musical clubs; if literary, there is work for you on the college publication. In conclusion be loyal and enthusiastic to your college and it will reward you wonderfully.

COLLEGE MEETING.

The first college meeting held this year for the purpose of promoting interest and enthusiasm among the students, was held Thursday morning directly after chapel. The meeting lasted a full hour during which speeches were made by members of the faculty and others.

Pres. Fred Collins of the Athletic Association called the meeting to order, and after explaining the reason and necessity for such meeting, called upon Prof. Stevens for a speech. The speaker at once asked for the college yell, which was led by Capt. P. H. Harris of the track team. Prof. Stevens then began to eulogize a number of the athletes who made a name for themselves in various contests last year, but who have since graduated.

He said that a student who put all his attention on books was not the one who generally succeeded in life, but those who spent part of their time in observation, athletics and the like, always proved to be good business men in after life. Physical exercise was one of the chief requirements in a person's life, and this can be obtained in no better way than by taking part in athletics.

Dr. Lewis also spoke a few words for the success of the game, and said that a few years ago the University of Maine was not known in Massachusetts, but the students as well as the colleges in that state, had just awakened to the fact that the U. of M. was fast gaining prominence in both learning and athletics among the people of New England.

Manager Cole of the football team, spoke a few words on the outlook of the future season, and said that unless financial aid was given by the students, Maine's future would be dimmed. Let every lady and gentleman give heartily to

the support of athletics and in after life they can look back on the victories of Maine's football team and say that they helped to win the games as well as those who played.

Coach E. N. Robinson was called upon for a few remarks, and he said that a football team could not exist long unless it had good support. Money alone could not produce a winning team; strong, rugged, able-bodied young men were needed, and Maine had her share, and with hard work ought to have a team which would be an honor to any institution.

This finished the speech making, and a subscription paper was passed among the students and faculty, with a result that nearly \$1200 was raised to support the game.

This certainly shows a spirit among the students, but it is necessary and furthermore it is the duty of each individual student to get out for practice, if he is physically unfit why then get out on the side line and cheer the team on to victory. If Maine's students will only do this, another glorious and successful football season will be the record of U. of M. for 1902.

FOOT BALL.

Again the season for foot ball is here and Maine finds itself confronted with the task of putting a creditable team on the gridiron. Most of last year's men returned early and work began under the direction of Coach Robinson.

Mr. Robinson was graduated from Brown, 1896, and comes highly recommended from W. H. Lewis, Harvard's famous center, besides being indorsed by Farley, who coached Maine last year, and is now Harvard's head coach. For two years after graduation Mr. Robinson coached University of Nebraska, producing a winning team. He then returned to Brown and coached for three years with the best of success. His work with the U. of M. eleven will be con-

ducted along the lines laid down by Coach Farley. Mr. Robinson has already won many friends among the men and is of their high type of character which Mr. Farley showed himself to be.

It is too early to state anything definite concerning the makeup of the team as yet. Every day brings out good material and there seems to be an abundance of good material in the freshman class. Of last year's men, Dorticos '03, Towse '03, Parker '04, Taylor '04, Bradford '04, Sawyer '04, Bean '04, Bailey '05, Collins '05, Shaw '05, Bearce '05, Learned '05, will be promising candidates for the varsity. Among the freshman class there seems to be oceans of good material from which to choose. Among them is Libby, Reid, Finnigan, McDonald, Tewksbury, Southard, Wilson and many others.

A movement is on foot to arrange a game between the freshman class of Bowdoin and the freshman class of the University of Maine. The assistant manager is making arrangements for three or four games for the second eleven.

Below is a partial schedule of games of the four Maine colleges as far as could be acquired by the writer.

- Sept. 20—U. of M. vs. Bar Harbor at Bar Harbor.
Bates vs. Fort Preble at Lewiston.
- Sept. 24—U. of M. vs. E. M. C. S. at Orono.
Bates vs. Hebron at Waterville.
- Sept. 27—Bowdoin vs. Fort Preble at Brunswick.
Colby vs. Brown at Providence.
U. of M. vs. C. C. I. at Orono.
- Oct. 1—Bowdoin vs. Harvard at Cambridge.
- Oct. 4—Bates vs. Harvard at Cambridge.
U. of M. vs. Colby at Waterville.
- Oct. 8—Bowdoin vs. Exeter at Brunswick.
- Oct. 11—U. of M. vs. Harvard at Cambridge.
Bowdoin vs. N. H. State College at Brunswick
- Oct. 15—Bowdoin vs. Yale at New Haven.
- Oct. 18—U. of M. vs. Tufts at Orono.
- Oct. 22—Bates vs. Brown at Providence.
- Oct. 25—Bowdoin vs. Colby at Brunswick.
- Nov. 1—U. of M. vs. Bates at Lewiston.
Bowdoin vs. Amherst at Amherst.
- Nov. 8—U. of M. vs. Colby at Orono.
Bates vs. Bowdoin at Brunswick.
- Nov. 15—U. of M. vs. Bowdoin at Orono.

U. OF M., 18; BAR HARBOR, 0.

The first game of the season was played against Bar Harbor at Bar Harbor on Saturday,

Sept. 20th. It was the first game for both teams and served to show some of the weak points.

Bar Harbor was weakened by the loss of Connor and the want of training. The University team was tried throughout and some change were made during the game. Finnigan at end played a good game, it being his first game on a college team. Maine tried the tackles back play with good results. The line up was as follows:

U. OF M.	BAR HARBOR
Bean, l e.....	r e, Jellison
Bearce, l t.....	r t, Small
Sawyer, l g.....	r g, Davis
Learned, c.....	c, Savage
Libbey, r g.....	l g, Bernadini
Dorticos, r t.....	l t { Wooster
	{ Stanley
Finnegan, r e.....	l e, Roberts
Bailey, q b.....	q b, Carter
Parker, } r h b.....	l h b, { Conners
Taylor, }	{ Alley
Shaw, } f b.....	f b, Yackel
Collins, }	

Score—U. of M., 18; Bar Harbor, 0. Touchdowns—Parker, Dorticos 2. Goals from touchdowns—Bean 3. Referee—Murray of Bangor. Umpire—Joy of Bar Harbor. Timekeepers—Stafford, Walter Wood. Linemen—McDonald, Boothby. Time of game—15 minute halves.

U. OF M., 36; E. M. C. S., 0.

The first game on the campus for the season was played against Eastern Maine Conference Seminary, on Wednesday, Sept. 24th. The game during the first half was rather uninteresting on account of being so one-sided. E. M. C. S. kicked off and Dorticos caught the pigskin and brought it back to the center of the field before he was downed. On the first play Parker went around the end for a touchdown. Bean kicked the goal. On the next kickoff Dorticos caught the ball and advanced it about 20 yards before he was downed. By a series of plays Parker again went around the end for a touchdown. Time, 56 seconds. Bean kicked the goal.

During the rest of the game Maine tried several drop kicks and punts. The team from Bucksport played well, especially in the second half. Wentworth at left half played a plucky game and would have undoubtedly made good

gains if the line had helped better. On one end play he made about 10 yards. With practice the team ought to be able to do good work with any of the teams in its class.

During the second half coach Robinson sent all but three of the varsity men in and filled their places from the second eleven. Only one touchdown was made in this half, when Bearce made a 40-yards run with several men after him for a touchdown. The E. M. C. S. team played much better in this half. The line up:

U. OF M.	E. M. C. S.
Bean, } r e.....	l e, Luce
Wilson, }	
Towse, } r t.....	l t, McCready
Tewksbury, }	
Sawyer, } r g.....	l g, Rich

McDonald, }	
Bearce, l h b.....	r h b, Sawyer
Dorticos, } f b.....	f b, Brann
Shaw, }	
Bailey, q b.....	q b, Norton

Score—U. of M. 36; E. M. C. S. 0. Touchdowns—Bearce 3, Dorticos 1, Parker 2. Goals from touchdowns—Bean 5, Learned 1. Referee—Cole, U. of M. Umpire—Carver, E. M. C. S. Linemen—Conner and Grindle. Timekeepers—Ross and Smith. Time 15 and 10 minute halves.

U. OF M., 30; C. C. I., 0.

The University of Maine played a practice game with Coburn Classical Institute on Saturday, Sept. 27th, which resulted in a victory for the college team 30 to 0.

The Waterville boys were plucky and played hard, but were outclassed in speed and weight. They also showed lack of condition. Coburn was not able to stop the plunges of the Maine backs or break up the strong interference.

They secured the ball a number of times on fumbles, which were numerous, and on offside plays and punts. They made their distance several times through Maine's guards. End runs were smothered before they started, and plays at tackle were usually stopped for a loss. Bearce played the star game for Maine and made

a number of long runs. Bean's goal kicking was excellent. Bailey brought back several punts for long gains, and Dorticos plowed through the lines for big gains.

In the latter part of the second half a number of Maine substitutes were played, and made an excellent showing. For Coburn, Whittaker did fine work and hit the Maine line hard for frequent gains.

The game was, upon the whole, encouraging for Maine, showing much improvement in the work of the backs and general team play. It also developed the weak point in the center of the line, and there will probably be some changes before the big games.

Bearce will be a tower of strength for the team, and the change of Dorticos from the line to full-back seems to have been a wise one. Maine's next hard game will be with Colby next Saturday.

The summary:

U. OF M.	COBURN C. I.
Collins, } l e	r e, Merrifield
Wilson, }

FRESHMAN—SOPHOMORE GAME.

In accordance with the regular custom the two lower classes met to battle for supremacy in base ball, on Saturday forenoon, Sept. 27. The game was called for 9.30 and the annual scrap was to be before. In consideration of the danger resulting from the old custom of grand stand scraps, it was brought about through the energy of some of the upper class men that a flag rush was to be substituted in place of the grand stand scrap. At about 9 o'clock both classes appeared on the field, the freshmen outnumbering the sophomores by a few.

R. E. Mullaney and L. Bradford had the two classes to manage and provided a large canvas flag with '06 in large figures on one side. A freshman and a sophomore were chosen to hold the flag in the center of the field, and at the signal from the referee, the two classes, running from opposite ends of the field, came together around the flag, and the scrap began in earnest. For twenty minutes they battled in one surging mass, pulling and pushing as seemed best, many climbing over the heads of others in their attempt to get a hand on the flag. It was marked by many individual scraps on the outside of the crowd, in which the freshmen had the best of it. At the end of twenty minutes the scrap was stopped and the hands on the flag were counted. It was found that the sophomores had 33 and the freshmen 18, which gave the victory to the sophomores. Both classes fought with a good deal of spirit and showed evidence of more trouble to come.

It is probable that a grand stand scrap would have resulted later but was prevented by the presence of several ladies who were in the grand stand to watch the base ball game that was to follow.

The base ball game was all that lovers of that kind of sport could wish. But for a few costly errors it is doubtful if the sophomore team would have scored. In the second inning by an error by the third baseman and by an error at first, two runs were made by the sophomore team. In the third a wild throw and a wild pitch gave them another. For the next eight innings the

freshmen pitcher held them down to a shut out each time. It was a pitchers' battle throughout, and considering the amount of practice, it was a fine exhibition of base ball. Frost, the freshman pitcher, showed fine speed and control, striking out sixteen men and losing the credit of five more through the dropping of the third strike by the catcher. Mitchell pitched a fine game allowing only five hits and no bases on balls.

In the third Bird made a phenomenal catch of a fly, and in the tenth Curran made two catches which looked like hits but for his fast work.

Coney, who began to catch for '06, was unable to hold Frost, and McLain went in in the fifth. McLain caught very well but was weak in his throw to second. Thatcher caught a fine game allowing only one pass ball.

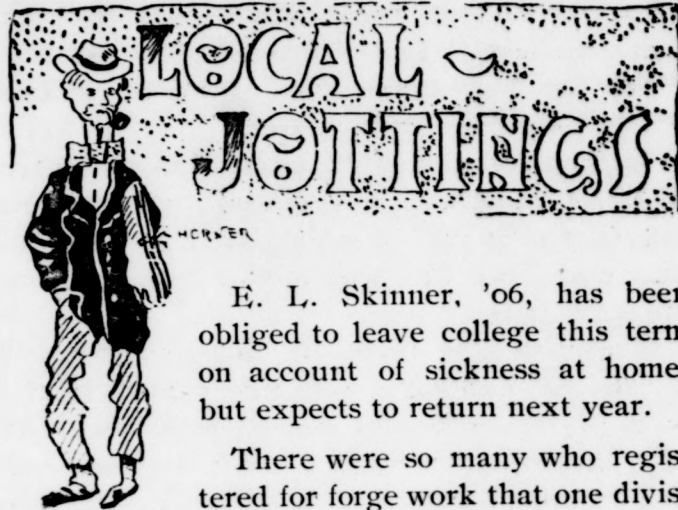

The game served to bring out some good material and it seems reasonable to believe that the vacancies caused by graduation will be filled by competent men. The score:

SOPHOMORE.				
	bh	po	a	e
Thatcher, c	0	12	1	2
Collins, 1b	0	10	0	0
Flanders, 2b	0	2	3	3

Runs made by Thatcher, Mitchell 2, Bird 2, McDonald, McLain, Bas, Austin. Two-base hits, Frost. Struck out, by Mitchell 9, by Frost 16. Umpire, Towse. Time, 2h. 20m.

E. L. Skinner, '06, has been obliged to leave college this term on account of sickness at home, but expects to return next year.

There were so many who registered for forge work that one division had to be put in the carpenter's shop.

The University has leased the Orono House for one year. It is to be used as a dormitory and will be run as nearly like Oak Hall and the Commons as is possible. Mrs. Richards, who has charge of the hall, has been matron at one of the fraternity houses at M. I. T. and also has had experience at several preparatory schools.

Dr. Fernald, son of Prof. Robert H. Fernald, U. of M. '92, received his degree of Ph. D. from Columbia University last spring and was elected Professor of Mechanical Engineering in Washington University at St. Louis. A short time ago, while on a trip through the West, he was taken ill with typhoid fever at San Francisco and is at present in the hospital at that city. Although the crisis of the disease has not yet been reached he is doing well.

Mr. Mansfield, of the Experiment Station, has recently returned from a month's vacation at Chesuncook lake.

A hundred new seats for the chapel have just arrived.

A new tennis court is in process of construction at the Mt. Vernon House.

At a meeting of the track team Tuesday morning, Sept. 23rd, P. H. Harris, '03, was elected captain for the second year. Captain Harris holds the college record for the 220 yards and 440 yards run and equaled the college record for the 100. We wish him the same success as last year.

Prof. O. F. Lewis was elected chairman of a committee for Maine night at a recent meeting of the athletic association.

At a recent meeting of the executive committee of the athletic association, C. G. Chase, '04, was elected assistant manager of the foot ball eleven.

Much credit is due those who have had it in charge for the fine condition in which the returning classes find the college grounds. Never did the campus look neater and better kept. Every student should feel proud of it.

Fred Webber, who played full back for the U. of M. last year, is to coach Bar Harbor for the season.

In addition to the large number of regular freshmen this year, there are several students entering the upper classes from other colleges. Miss Marian L. Webster from Radcliffe College enters as a special; Miss Florence E. Buck from Syracuse University enters the junior class as a special; Mr. Allen M. Knowles of Colby has entered the junior class.

Irving Clark, '87, was on the campus recently.

The Congregational church tendered a reception to the freshmen Saturday evening of last week.

Prof. Woods leaves next week for a three weeks' trip through the South. His main object is to attend the convention of Official Agricultural Chemists held in Washington, D. C., Oct. 2-4, and the Convention of Agricultural Colleges and Experiment Stations held in Atlanta, Ga., Oct. 7-9. He also plans to visit several of the other colleges and experiment stations and many of the larger cities of the South. On his return trip he is to spend a few days with Dr. Harris at Fort Deposit, Md.

Dr. Fellows is to attend the Convention of Agricultural Colleges and Experiment Stations to be held at Atlanta, Ga., Oct. 7-9.

The introduction of the new course in agriculture has resulted in attracting a larger number of students than have registered for that course for several years.

The new course in forestry is proving very popular. Most of those who have registered for this are from the civil engineering course.

Mr. Hanson, assistant chemist at the Experiment Station, has just returned from a two weeks' vacation at Manchester, N. H.

W. A. Hall, ex-'03, is firing at the local light and power station.

C. A. Mason, '87, was on the campus recently.

The experiments in the culture of potatoes and wheat in Aroostook county and in apple orchard culture in Manchester promise valuable results. Full reports of these experiments will be published in the Bulletin of the Experiment Station late in the fall.

MARTIN—KANE.

The wedding of Miss Lillian May Kane, daughter of Capt. John W. Kane of Bluehill, and Mr. Fred L. Martin of Hancock Point, was solemnized at the First Congregational church, Bluehill, Tuesday evening, June 17. Rev. Mr. Olds assisted by Rev. E. Bean performed the ceremony. Three hundred invitations were issued and the church was filled with guests. The ceremony took place under a canopy of greenery, from which a floral marriage bell was suspended. The bridal party was preceded by two children, a brother of the bride, John W. Kane, and little Abbie Partridge, who scattered flowers along the isle. The bride entered on the arm of her father. She was unattended. The ushers were six young lady friends. Immediately after the ceremony an informal reception was held in an alcove of the church, made beautiful with greenery and flowers, when Mr. and Mrs. Martin received the well wishes of their numerous friends. The gifts were many and of considerable value, including an amount of silverware, with cut glass and bric-a-brac.

Mr. Martin graduated from the University of Maine in the class of 1900 and since that time has been employed in Chicago by the Kellogg Switchboard & Supply Co., where he has met with the best of success.

NOTICE.

In the next issue of THE CAMPUS we plan to have as complete a list as possible of the 1902 graduates, giving their address and present occupation. Any information along this line would be gratefully received by the Board.

'82.

Mr. C. Weston Brown and family spent a portion of the summer visiting with Mrs. Brown's parents, Mr. and Mrs. William Coburn. Mr. Brown was graduated from the Mechanical Engineering department of this university with the class of 1882 and is employed in the patent office, Washington, D. C.

'90.

George M. Pillsbury has a position as chemist for the Oxford mill at Rumford Falls, Me.

'91.

Wallace R. Farrington, formerly of Brewer, is now editor of the Evening Bulletin, published at Honolulu, and the leading journal of the territory of Hawaii. Mr. Farrington has recently enlarged his paper and it now ranks with the leading papers of the West.

'92.

A telegram was received here Sept. 22 announcing the illness with typhoid fever of Robert H. Fernald at McNeill hospital, San Francisco, Cal. Mr. Fernald is a son of Dr. M. C. Fernald of this institution and was graduated from the mechanical engineering in 1892. He had recently accepted a position as professor of mechanical engineering at Washington University, St Louis, and was on his way to that place when taken ill.

'94.

The marriage of Edward H. Cowan, formerly of Orono, and Miss Maude M. Stoly of Marion, Ohio, occurred at the home of the bride's parents, Marion, Ohio, on Wednesday evening, Sept. 10. Mr. Cowan is superintendent of the Marion City Water Co.

'98.

Mr. Walter L. Ellis, who has a position as draughtsman with the Bath Iron Works, visited friends in Orono a short time ago.

'99.

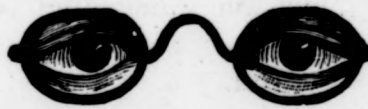

Miss Maud W. Snow was united in marriage to John Wilson Brown, Jr., at the residence of Dr. E. N. Mayo, on Wednesday evening, June 18. Mr. Brown graduated from the University in 1899 and is now employed as electrical engineer at the plant of the Westinghouse Co. in Pittsburg, Penn.

'1900.

Clinton L. Cole has a position as surveyor and acting foreman at Fort Michie, N. Y.

LAW SCHOOL.

The University of Maine Law School opened October 1st with a large entering class. Prof. Walz is acting dean in place of Dr. Gardner, resigned. Among those entering are graduates from several of the sister colleges. The registration so far is as follows:

SENIORS.

William W. Buckley Winchendon, Mass.
John B. Merrill Bangor.
Ulysses G. Mudgett Hampden.
Charles H. Reid Bangor.
George W. Thombs Monson.
Donald F. Snow Bangor.
George H. Winn Lewiston.

JUNIORS.

Glidden Bryant New Castle.
Edward E. Clark New Bedford, Mass.
George E. Clough Monson, Mass.
George E. Hadlock Islesford.
Clarence B. Hight Athens.
J. Harvard Holy Bingham.
Alfred A. Lang Bangor.
George Lougee Hampden.
Neil V. McLean Bangor.
Walter S. Mansur Pittsfield.
Lewis S. Record Worcester, Mass.

FIRST YEAR.

William T. Adams Bangor.
Mark A. Barwise Bangor.
Leon G. C. Brown Milo.
Adolphus S. Crawford Oldtown.
Walter H. Foster Bangor.
Arthur G. Gould Presque Isle.
Joseph E. Hall, Jr. Bangor.
Frank K. Head Jackman.
Orman L. Keyes Stetson.
Daniel J. Linchaw Bradford, Mass.
Charles L. Morang Ellsworth.

Leon I. Peabody Rockland.
E. B. Putnam Danforth.
Charles A. Robbins Patten.
Curville C. Robinson East Machias.
Chas. T. Smalley Rockland.
Erastus L. Wall Castine.
Harvey A. White Brewer.
Joseph T. Winslow New Bedford, Mass.

SPECIAL STUDENT.

William F. Ball So. Lubec.

CLASS OFFICERS.

'03.

At a meeting of the Senior class the following officers were chosen: President, Paul D. Simpson; 1st vice president, Arthur R. Towse; 2d vice president, Roderick E. Mullaney; secretary, Miss Frances Hinckley; treasurer, Fred Collins. An executive committee is to be chosen consisting of the presidents and two others chosen by them.

'04.

President, Thomas C. Herbert; 1st vice president, Clifford G. Chase; 2d vice president, Charles I. Day; secretary, Roy H. Flynt; treasurer, Ira M. Bearce; executive committee, E. R. Berry, H. D. Haley, A. R. Small, K. B. Porter and S. P. Livermore.

'05.

President, Edwin F. Bearce; 1st vice president, Arthur W. Collins; 2d vice president, Ernest E. Trafton; secretary, Miss Florence Balentine; treasurer, George K. Huntington.

The class chose a committee to look after the publishing of the calendar for the coming year. The committee consists of the following: Frank T. Crowe, Miss Marian B. Wentworth, Carl D.

Smith, Frank L. Flanders and William E. P. Fullam.

A committee to look after a class cane was chosen as follows: Harry O. Beale, Joseph W. Crowe, Oland W. Trask.

'06.

President, Adelbert Lock; vice president, Miss Gladys Fellows; secretary and treasurer, Ralph E. Lord.

NOTICE.

WITHIN the last few weeks we have heard several calls made upon the students for one thing and another. First was the call for foot ball men, then a call for more enthusiasm and more and better support of the team. Then came a call for the band men to turn out for practice, and later the trial for the men in the musical clubs and other organizations. All these have met with hearty response on the part of the student body. Thirty odd men turn out for foot ball; about twenty men are in the band and a large number are trying for the musical clubs.

During this time THE CAMPUS board has become weakened by the resignation of the editor-in-chief, and other valuable aid. The object of this article, is to bring to the attention of the students, the fact that they have an obligation to their college publications which should receive careful consideration.

It will be necessary in the immediate future, to choose two or three men to the board. A hustling and enthusiastic athletic editor is needed to write an impartial account of the games, and prospects of the teams. This part of our college paper should be given very careful consideration, in order that our alumni may have an opportunity of seeing the progress along these lines.

A new department is to be started and an

editor is necessary for that. It is an essential factor in our college life, that the doings of our own college as well as those of others, to a certain degree, are published from time to time and the duty must fall upon the students themselves.

It is desired that any who have any ability as writers or who would be willing to try, would speak to the editor-in-chief.

The positions on the board have been filled in years past, from those who have presented the best ability along the line of paper publication. This especially applies to the freshmen. There are, undoubtedly, among the hundred and fifty odd students entering for the first year, some who have done work of a high character upon their high school papers and who could lend valuable aid to the college paper if they had an opportunity. The editor and business manager will be pleased to assist any who wish to compete and do not know what to do to win a position on the board of editors or managing staff.

CAMPUS MEETING.

A meeting of THE CAMPUS board was held in 311 Oak Hall, on Friday, Oct. 10th, and the resignation of Mr. Hilliard from the board was read and after some discussion was accepted. In the resignation of Mr. Hilliard the board loses one of its most energetic workers and it was with a feeling of disappointment that the members allowed him to sever his connections with the board.

R. M. Conner was elected editor-in-chief and V. E. Ellstrom was chosen a member of the board and will have charge of a department of review of the doings in other colleges.

It is the desire of the editors to make the college paper, as much as possible, a source of general information, and any help in regard to such matters will be gratefully received.

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

Leave Bangor for Bar Harbor at 6.05, 9.30 A. M.; 4.55 P. M.

ELECTRICS—Cars leave Bangor at 5.30 A. M. and each hour thereafter until 9.00 P. M.; after 9.00 P. M. on the hour until 11.00 P. M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10m. past the hour.

The boat of the Boston & Bangor S. S. Co. leaves Bangor for Boston, stopping at Rockland and intermediate landings, on Monday, Wednesday, Thursday and Saturday at 12 M.

The college library is open from 8.00 to 12.00 A. M. and from 1.30 to 5.30 P. M.

The college office is open from 8.00 to 12.00 A. M., also from 1.30 to 5.30 P. M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS.

THE foot ball game at Waterville was a source of information in more ways than one. It not only demonstrated which college had the better team, but it also brought to light some of the erroneous and unqualified statements that are from time to time scattered around the State by somebody who does not voice the opinion of the college students.

From some source it was stated that the Maine team was confident of winning from Colby by a score of at least 20 to 0. Now such a statement does not express the spirit of the college or of the athletic team. It is not the custom nor the policy of the college students to tell what they are going to do, but to put out a good team that represent the very backbone of the institution and rest assured that the best team will win and that no disgrace will come in either defeat or victory if the game is played on sportsmanlike principles. The university students do not pretend to say that their eleven will win the championship again this year; such a statement would be childish; but each and every one feels as though it is his duty to try for it and the best team will win.

A good deal is being prophesied concerning the next game with Colby and no doubt there is reason for a good deal of speculation as to who will win. Although Colby was defeated before she will be undoubtedly stronger the

next game and Maine will be in better condition also. What the result of the game will be, will be in doubt until the whistle blows that time is up in the last half. To say the least, those who love good foot-ball playing will get their money's worth.

When the game is played, like those with Bowdoin and Bates, it will be time to make good solid statements, but until then it is hoped that every one will do more work and less bragging.

WE are continually being reminded that we belong to a young institution and that our college is in its infancy. Well, so we hope, when compared to the age and glory we wish her to attain, but we are reminded just at this time that our college is not so young as we are prone to think. This fact is brought to our notice very forcibly by the presence in our freshman class of four sons of alumni of the University. They are Frederick D. Southard, son of Louis C. Southard, '75; Charles H. Martin, son of Nelson H. Martin, '76; Frank R. Reed, Jr., son of Frank R. Reed, '76; and T. Harold Reynolds, son of Henry J. Reynolds, '76.

During the last week Charles E. Oak, vice president and general manager of American Reality Co., and Oliver Crosby, president and engineer American Hoist and Derrick Co., were calling on friends about the college. While here they visited their old room in Oak Hall and expressed themselves as very much pleased with the growth and progress of the college. They both were graduated in the class of 1876. All these incidents bring to our minds the fact that our beloved college is growing old and will soon be classed in a different list. May her greatness grow with her age.

MOUNT VERNON DANCE.

A very pleasant dancing party was given by the ladies of the Mount Vernon House, Friday evening, Oct. 10th. Mrs. Briggs was hostess for the evening and her genial manner made all feel as if at home. There were about forty couple present. Ping pong and whist were indulged in by those not dancing. Light refreshments were served. It was the first party of the year and all report an excellent time. Music was furnished by Mr. Larsen.

AMONG THE COLLEGES.

Ex-captain O'Connor of Dartmouth, is coaching Bowdoin this fall and according to reports is receiving good support from the student body. When the Bowdoin team gets rounded into shape it will be a good team to look out for. Bowdoin was defeated by Harvard, 17—6.

This fall seems to be a banner year for entering classes. In nearly every institution the entering class is the largest on record.

The University of Michigan recently defeated the Michigan Agricultural College 119—0.

The five center men on the University of Chicago weigh over 1,000 pounds, and Coach Stogg has material on hand this year to bring Chicago back her old prestige.

A new college was recently dedicated in Worcester and is to be known as Clark College. It is an annex to Clark University, a graduate school.

Colby has a very heavy team this year and this is especially true behind the line where Keene, Cowing and Abbot are playing.

Of the sixty odd candidates for the Harvard foot ball team, only five weigh over two hundred pounds, the largest being King from Iowa, weighing two hundred and forty-seven pounds.

Mr. Hopkins, '04, was chosen manager of the track team by the executive committee Monday night, Oct. 13th.

MEMBERS OF 1902.

A. W. Batchelder is mechanical engineer with Baldwin Locomotive Works, Philadelphia, Pa. Address, 1324 Vine street.

W. E. Barrows, in testing department of General Electric Co., Lynn, Mass. Address, 17 Grove street.

E. J. Bartlett is draughtsman for the Electric Vehicle Co., Hartford, Conn. Address, 45 Huntington street.

H. A. Buck is at his home in Orland.

Miss E. M. Bussell is teaching school at Milford, Me. Address at Oldtown.

Jas. W. Butman is civil engineer on Governor's Island, Boston Harbor.

H. M. Carr is working for his father at Sangerville.

H. W. Chadbourne is in the employ of the Browne & Sharpe Lath Co., Providence, R. I.

Samuel Clark is at Sydney, Me.

H. E. Cole, tutor in electrical engineering at the University of Maine. Address at Orono.

A. R. Davis is taking the testing course with General Electric Co. at Schenectady, N. Y.

S. P. Davis is in the employ of the New York Central R. R. Address, 124 West 22d street, New York City.

E. W. Delano is at work with a surveying party on the Bangor & Aroostook R. R. Present address at Houlton.

H. E. Duren is taking the testing course with General Electric Co. at Schenectady, N. Y. Address, 612 Smith street.

G. W. Durgan is teacher of science at a seminary in the west.

W. H. Eldridge is draughtsman for the B. F. Sturtevant Co., Boston, Mass. Address, 5 Oakdale street, Jamaica Plains, Mass.

W. C. Elliott is in the employ of the B. F. Sturtevant Co., Boston, Mass.

H. O. Farrington is engineer for a manufacturing concern at Portland, Me.

L. E. Fessenden is draughtsman in the Associated Factory, Mutual Fire Insurance Co., Boston. Address, Room 510, 31 Milk street.

H. C. French is with an engineering party on the Portland & Rumford Falls R. R.

H. P. Hamlin is assistant in civil engineering at the University of Maine.

F. E. Holmes is assistant roadmaster on Maine Central R. R. Address at Waterville.

F. W. Kallom is in the employ of the Boston & Northern Street Ry. Co., Lynn, Mass.

B. V. Kelley is draughtsman for General Electric Co. Address, 811 State street, Schenectady, N. Y.

H. W. Kneeland is with B. F. Sturtevant Co., Boston.

P. C. Knight is working for his father at his home in Gorham, Me.

Miss L. M. Knowles is at her home in Bangor.

S. S. Lowe is with the New York, New Haven & Hartford R. R.

A. C. Lyon is taking post graduate work in naval architecture at Massachusetts Institute of Technology.

P. E. McCarthy is with a surveying party on the extension of the Portland & Rumford Falls R. R.

H. W. Mansfield has a position with the General Electric Co. at Schenectady, Induction Motor Dept. Address, 791 State street, Schenectady, N. Y.

C. W. Margesson is a draughtsman at Steelton, Pa.

P. H. Mosher is with a surveying party on

the extension of the Portland & Rumford Falls R. R.

Luther Peck is studying medicine at the University of Michigan.

F. E. Pressey is engaged in civil engineering work at Bangor.

C. N. Rackliffe is taking the testing course with General Electric Co., Schenectady. Address 108 Nott Terrace, Schenectady, N. Y.

Miss M. C. Rice is taking post graduate work at this institution.

E. B. Ross is in the employ of the International Paper Co., at Lincoln, Me.

R. E. Russel is in Minneapolis, Minn. Address 2741 Portland Ave.

H. W. Sewall has a position with the Kellogg Switchboard & Supply Co., Chicago.

A. E. Silver is taking the testing course with General Electric Co., Schenectady. Address 108 Nott Terrace, Schenectady, N. Y.

C. W. Stephens is draughtsman for the Berlin Bridge Co., Hartford, Conn.

C. A. Stilphen is in the employ of the B. F. Sturtevant Co., Boston.

E. S. True is in the employ of the New York Telephone Co. Address 124 West 22nd St., New York city.

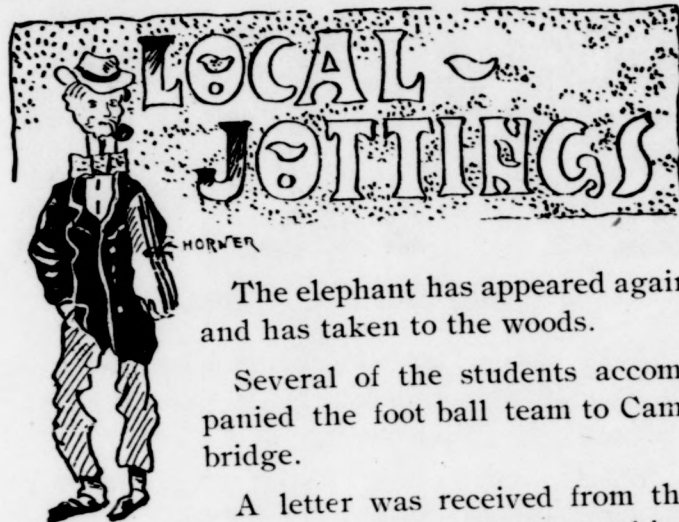

J. C. Warren is studying law in Portland.

A. M. Watson is in testing department of the General Electric Co., at Schenectady. Address 108 Nott Terrace.

Ralph Whittier is assistant to the principal of Hampden Academy.

Pres. Fellows, on his recent trip, attended at Augusta the meeting of the college presidents to discuss the best method of awarding the Rhodes scholarships for Maine. He then went to Atlanta, Ga., to attend the sixteenth annual convention of American agricultural colleges and experiment stations. He also attended the inauguration of Edmund Y. James at Northwestern University at Evanstown, Ill.

The elephant has appeared again and has taken to the woods.

Several of the students accompanied the foot ball team to Cambridge.

A letter was received from the manager of the M. I. T. foot ball team asking for a game with Maine on our own grounds. It is hoped a game can be arranged.

F. V. Fifield, '04, has returned to college.

J. C. Warren was on the campus recently.

A call for volunteers for a fire department was issued by Pres. Fellows one morning last week. Already several have passed in their names. The necessity of the movement on the part of the president is apparent.

The University should be receiving congratulations about now on its nice stock of coal. It has on hand enough to last all winter.

A real old-fashioned sendoff was given the foot ball eleven on their departure for Cambridge. About 250 of the students accompanied by the band marched down to the depot and the train drew out amid rousing cheers, the likes of which are seldom heard in this part of the country. Keep up the good work.

F. E. Holmes, '02, visited friends on the campus recently.

Quite a number of the students availed themselves of the opportunity of attending the festival chorus.

The Philological Club met in 23 Wingate Hall, Monday, October 6th, at 7.30 P. M., and the following program was presented: "The Relation of Virgil to the Roman Temperament," Dr. Geo. Depue Hadzsity.

The Scientific Association met in 23 Wingate Hall, Wednesday, Oct. 8th. Following is the program: "Religion and Science," Prof. J. S. Stevens; "Notes on the Hydrographic Survey of Maine," Prof. N. C. Grover.

Mr. Perry takes the place of Mr. Dume who has gone to Fort Deposit.

Dr. and Mrs. Harris spent a month in Orono the past summer, occupying Prof. Harrington's house.

Lieut. A. A. Starbird, U. S. A., was on the campus recently. He has been assigned to Fort Du Pont in Delaware and will report there soon.

At the last meeting of the Athletic Committee a committee was appointed to consider the matter of giving a minstrel show. The same committee also had power to arrange a series of dances in the gymnasium.

E. F. Danforth, '87, was on the campus Oct. 9th.

Prof. Harrington left Thursday for a short trip to New Haven. During his absence Dr. Hadzsity officiates at the organ in chapel.

Mr. Eby, instructor in English, arrived Oct. 3d. In addition to his other work in English he will have entire charge of the public speaking.

Vaughn Jones has been chosen assistant treasurer of the athletic association. Athletic dues may be paid to him at the Kappa Sigma House.

The students who accompanied the foot ball team to Colby saw a game well worth seeing.

Lieut. D. T. Merrill, '98, was at the Colby game and came to Orono Saturday. In the evening he was initiated into the Sigma Alpha Epsilon fraternity. Lieut. Merrill was one of the founders of the Iota Phi society.

G. S. Brann, '04, spent a few days at home last week.

The freshmen were tendered a reception by the ladies of the Universalist church Saturday, Oct. 11th.

The men are at work on the river flat clearing away the bushes and shrubs so as to give glimpses of the river at various places. This was supposed to be merely an alder swamp but in the work of clearing a great many elms, willows and birches have been found which will in a few years add greatly to the appearance of the campus. A delightful walk is being opened along the bank of the river extending from just back of Prof. Webb's up to the Mt. Vernon House. It is hoped that later the walk may be extended along the river bank to the covered bridge.

Invitations are out for a dancing party at the Phi Gamma Delta House for Friday, Oct. 17th.

The freshmen should be proud of their artistic work on the stand pipe.

Ralph B. Kelley, '06, has left college.

Invitations are out for a dance at the Commons on the evening of Oct. 24th. The dance is to be given by Mrs. J. A. Knights. The dining room of the Commons has been given a new floor of hard wood. A very pleasant time is anticipated.

Chas. E. Oak, '76, was on the campus Oct. 9th.

Oliver Crosby, '76, president of the American Hoist & Derrick Co. of St. Paul, was on the campus Oct. 9th.

Quite a sensation was created Monday morning by a large flag which was flying from the flag pole and bore the numerals of the freshman class. Several attempts were made to get it down; some even resorted to shooting. During the time one freshman was led to the Stillwater and received a bath. The flag was removed by Mr. Wells, '05.

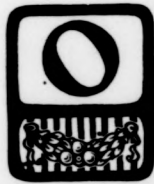

A committee consisting of Archie Grover, P. H. Harris and R. E. Mullaney were appointed by the president of the athletic association to run a series of dances in the gymnasium.

Lester Mitchell, '05, has been elected captain of the base ball team for the coming year.

ATHLETICS.

A Mass Meeting Held and Enthusiasm Aroused Among the Students.

ONE week prior to the scheduled football game with Harvard, college spirit and enthusiasm on the part of the student body seemed absent in the superlative sense of the word. Just how this condition of affairs came about is hard to answer; but that there was a lack of

COACH ROBINSON.

interest in football and in the team, was apparent to everybody. Not only did this condition of affairs exist a week before the Harvard game but, throughout this fall, the interest manifested toward football has been slight. One would not have gathered from any talk on the Campus that Maine was to play Harvard for the first time in her history, and not only that but she had been given the place on Harvard's schedule formerly held by Columbia.

The sad condition of affairs could not have been brought about through any fault in the football team, for this year, the season was most

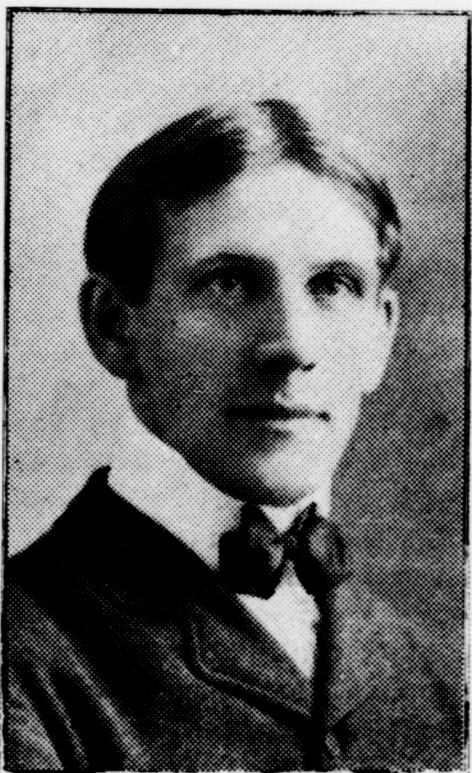

favorably opened with a larger number of old men on the field and a larger squad of good men to pick from than has been available at Maine for some years. The fault was certainly not in the coaching department for Mr. Robinson is such a man as any Maine college would be congratulated upon having secured.

During his football career at Brown he ranked as one of the most intelligent of her players and has the ability to teach it as well as play it. Surely his coaching of the team, thus far this season, has proven all this. There was certainly no fault in the list of games arranged for the team, for manager Cole has completed a schedule, this fall, whose equal has never been effected by any previous manager.

But in spite of all this—in spite of the fact that all conditions leaned toward an auspicious season, giving promise of a repetition of last year's success, there was that prevailing tendency to let football take care of itself, or, if the men wanted to get out and put forth their utmost energies in an endeavor to build up a team that could uphold the honor and reputation of the college, why all well and good; but would you find students on the sidelines lending their encouragement? Perhaps one would find a few but the majority preferred to remain in the gymnasium and bowl or pass their spare moments after recitations, in some form of recreation rather than to get out on the field and show the team that its efforts were being appreciated.

Then came the game with Colby. Here it was that another sad condition of affairs made itself manifest. True it is, that some enthusiasm was shown at the station when the team left for Waterville, but so great was the confidence among some of the student body that most of the betting and estimating was upon how big

a score the team would roll up on Colby, and then, when the result of the game was learned, some of the unloyal ones became possessed of the idea that it must have played a poor sort of game and some of the students felt even sore and disgusted to think that the team didn't pile up

W. LEE COLE, MANAGER.

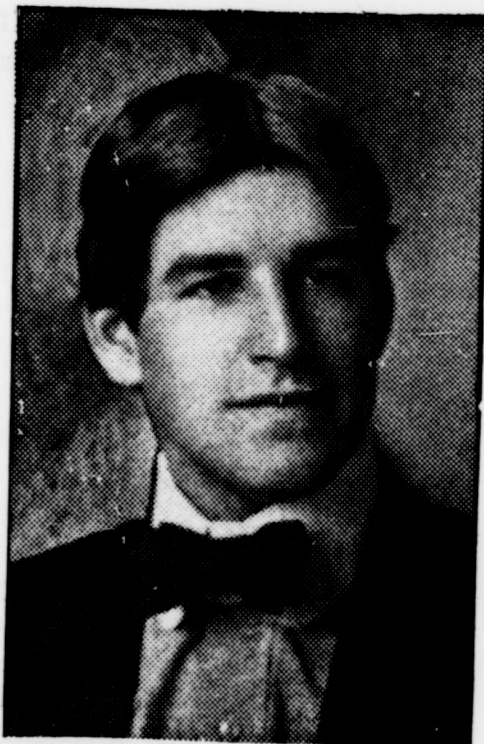

20 or 30 points on their opponents. They didn't even wait to hear what the men who saw the game had to say, but passed judgment without going to the pains of finding out the truth in the matter. As one of the Maine students who saw the game at Waterville said, "It was one of the pluckiest exhibitions of football that I ever saw the team put up; the harder Colby fought, the harder did Maine come back at her." Certainly that exhibition of football was worthy of the highest amount of praise that the student body could forward. It must have been a sore disappointment for the team to hear some man say that it must have played a pretty poor sort of game not to have rolled up a bigger score.

It was easily apparent that something had got to be done to stimulate a more active interest in the game and in the team if the students could

not on their own accord become infused. Accordingly a college meeting was held last Thursday for this specific purpose and certainly served its means. What true son of Maine could not, after having heard that series of stirring speeches, have felt his heart beat a little faster and his blood tingle with new warmth when such rousing cheers as the chapel had never before heard, rose from nearly 400 throats?

From the date of that college meeting the tide of enthusiasm and college spirit began to rise and to date there has never been more spirit manifested than that which now prevails. It is now a matter of history how, on last Friday morning, nearly the entire student body turned out with the band to give the team the grandest and most loyal send-off that was ever tendered a team on a similar occasion.

It is also memorable how, at the final practice of the team Thursday afternoon, before the game

CARLOS DORTICOS, CAPTAIN.

with Harvard Saturday, nearly 150 students were in the grand stand or on the field, each lending his voice to help swell the many lusty cheers that the team received throughout the practice. In anticipation of the pending game it was of course in order to bring forth

Boliver, the tame elephant and mascot of our athletic teams, who has been spending the summer at some nearby resort, immune from mosquitoes and other pests. Boliver has become in the eyes of all students at the University of Maine an all-important factor in athletic contests of all kinds, and his value as a mascot cannot be over-estimated. With a good "feed" or two and a new coat he will be the same old Boliver that made last spring's baseball team famous.

All this goes to show the awakening of spirit among the student body, and such a spirit is bound to win victories for the team and reputation for our university. It is absolutely necessary that there be no ebb of spirit this time and in view of the pending games with Bates, Bowdoin and Tufts there seems to be no danger at present of such conditions taking place.

The football squad itself has been doing some of the hardest kind of practice. From thirty-five to forty men are out and Captain Dorticos is finding work for all of them. The games for the second eleven tend to increase the spirit among the players and give promise of better conditions ahead. The players are in very good condition after the game with Harvard, some are pretty sore from the severe hammering but will be in shape by the next game.

U. OF M., 6; COLBY, 0.

The first college game for the season was played at Waterville on Saturday and resulted in a victory of 6 to 0 for the "farmers," although the real merits of the game would be better expressed by a much larger score. It was a good game and very exciting throughout and except from numerous cases of "time out" caused by the poor condition of the Colby team, the game proceeded very well.

Both teams were about the same weight and very equally matched. But Maine's superior training showed itself throughout the game, it not being necessary to ask for time out at all, while during the last half time was taken out for the Colby team nearly every down.

Most of the ground gaining for Colby was

made by Keene, whose work at full was of the highest character. He alone was able to make any distance through Maine's line and he was given the ball time after time in succession. Abbott succeeded in getting nearly around Maine's left end but was tackled by Bailey and fumbled the ball which was felled on by Bearce. Pugsley and Cowing were tried with the ball but were unable to gain much. Lavine, who had been a Colby student some sixty-five minutes when the game began, was tried at left guard but was of little use on account of lack of practice.

Bearce and Parker did fast work for Maine. Their long end runs were the features of the game. Dorticos plowed through the line for big gains and when he was called upon to make one and a half yards for a touchdown, he measured off four like a giant. Bearce showed great endurance, receiving many hard knocks from being tackled around the head and neck. Wood was tried at left tackle in the first half and will make a valuable man after a little more practice. Sawyer, who had been sick, was put in his place and played his regular game.

The game showed some places where the teams need coaching, as it was the first hard game for both teams. The Maine eleven stood the pace very well and had plenty of reserve energy on hand at all times. This showed itself very distinctly when in the last half the eleven pushed the ball half the length of the field for a touchdown and not a man on the team was exhausted, and in the three minutes remaining pushed the ball from their 30-yard line to within 15 yards of Colby's goal line again with greater speed and much easier than in the first half. If there had been half a minute's more play Maine would undoubtedly have scored another touchdown.

Maine got the toss and chose the west goal. Allen kicked off to Bailey, who advanced the ball 20 yards; Parker went around left end for 20 more; Bearce went around right for 10. Dorticos made big gains through guard and tackle. With the ball on Colby's 14-yard line, a forward pass was made and Maine lost the ball and Colby was given 10 yards. Colby in

turn plunged through the line and Abbott came near getting around the end but lost the ball on a fumble. Maine worked the ball back again to the 20-yard line and Colby held for downs. Colby regained part of the ground and Maine held and forced Colby to punt. Maine rushed the ball down the field and when time was up the ball was on Colby's 30-yard line.

In the second half Dorticos kicked off to Keene, who advanced the ball 20 yards. Keene was sent through the tackle for two yards and through guard for two more, then made two more around tackle. Maine held for downs and advanced the ball about 10 yards and Colby was given 10 yards for off side. Colby held for downs. At the beginning of the five-minute signal the "farmers" took a brace and forced Colby to punt. Then the reign of terror began. First around one end, then the other; then through the line for gains of from 3 to 10 yards. Maine had started for the goal and Colby was powerless before them. Dorticos was given the ball and walked the pigskin over through guard and tackle. Bean kicked the goal.

Allen kicked off to Dorticos, who brought it back 25 yards. Then trouble began again. With only three minutes to play and the whole length of the field to go, the eleven started out and carried the ball to the 15-yard line when time was up.

The game was never in doubt and Maine's goal was never in danger.

Score—U. of M., 6; Colby, 0. Touchdown—made by Dorticos. Goal from touchdown—Beane. Umpire—Murray. Referee—Kelley. Linesmen—Palmer, Alden and Finnegan. Timers—Perkins and Day. Time—20 and 15-minute halves.

HARVARD 22. U. OF M., O.

Maine played Harvard for the first time October 11th and considering the great difference in weight it is fair to say Maine made a good showing. Also since one of Harvard's touchdowns was made from a block kick and during the first half only one touchdown was scored. Maine made her distance five times and held for downs once and forced Harvard to punt several times. A large number of alumni of the University of Maine were present and cheered the team continually. On the whole the result was very satisfactory and the students are proud of the showing made by the team.

In the first half Marshall kicked off to Maine's 15-yard line, and Parker and Bearce went through the line for five yards apiece. Harvard held and forced Maine to punt; Dorticos' kick was blocked and Harvard had the ball. Harvard sent Foster around the end but he fumbled and lost eight yards. Harvard was forced to punt to Bailey on the 10-yard line. Bailey brought the ball back 10 yards and Parker made three yards around Harvard's right and Bearce made three more through the line. Parker made short distance through Mills, and Dorticos made first down through center. Parker was then thrown back eight yards and Bearce lost eight more. Maine moved the ball back and had first down. Parker tried Bowditch's end but fumbled and Harvard had the ball on Maine's 20-yard line.

After a series of six plays Foster went through right tackle for a touchdown. Dorticos kicked off over the line and Stillman kicked to Parker on the 40-yard line, who brought it back 13 yards. Maine lost on a trick play and Dorticos punted to Marshall on the 45-yard line and Marshall brought the ball back 10 yards. Foster made two yards around end and Piper two yards on center and Maine held for downs.

Bearce made a yard through Whitwell and Parker was thrown back five yards. Maine punted to Stillman on the 50-yard line, Stillman returned the kick to Bailey who brought it back from the seven to the fourteen-yard line. Dorticos failed to gain and Bearce was thrown back for a loss.

Stillman received the punt on the 35-yard line and ran it in five yards. Marshall tried a drop kick but it was blocked by Reed, and Maine had the ball. Dorticos made two yards and Bearce made the required distance for first down. Time was called with the ball in Maine's possession on her own 40-yard line.

In the second half Harvard played a rushing game, putting in substitutes at short intervals and hammering at tackle continually. Harvard's weight and fresh material told on the Maine team which was weakened by the loss of four of the best players.

In the first of the half Marshall tried for a drop kick but failed by a short distance. Dorticos dropped back for a kick and Piper got through and blocked the kick and ran with the ball from the 35-yard line for a touchdown. During the rest of the game Harvard played fast and strong and by several end runs and line plunges they piled up two more touchdowns making the score 22-0. The game finished with ball in Maine's possession on Harvard's 50-yard line.

The summary :

HARVARD.	U. OF MAINE.
Jones, l e	r e, Bean
Whitwell, } 1 t	r t, Towse
Bleakie, }

ORONO, ME., NOVEMBER 1, 1902

No. 3

MAINE NIGHT AT THE UNIVERSITY.

TO THE ALUMNI:

The second annual Maine Night will be held in Alumni Hall upon Friday evening, Nov. 14, the night before the annual game with Bowdoin, that this year is to be played in Bangor. It is an occasion to draw powerfully upon the hearts of our alumni, and we as undergraduates hope that the second meeting, the initial gathering having been so successful in every way last year, will prove the big reunion of the year. At commencement time many of the undergraduates have already left for their homes, and the old "grads" who come back then have little opportunity to see to what a body of sturdy young fellows the University has grown in the last decade. Nor do the undergraduates have the opportunities they desire to come in contact with the graduates. The absence of the old men upon the campus has been considerably felt in the past, and so Maine Night among other things can perhaps bring the young men and the old men of Maine into close touch at least once a year.

This year the exercises will be conducted in general upon the plan followed last year. We had hoped to see Dr. Harris present on Maine Night, but he will be unavoidably absent. Mr. Farley, last year's football coach, and now head coach of Harvard, has written that if possible he will be down for that evening. Mr. W. R. Hosard, '82, who for many years has been one of the most ardent and thoughtful supporters of the college, will act as chairman of the meeting. Among others, Mr. Southard and Prof. Walz have been asked to speak, for no meeting has come to seem complete without some words from them. Of course songs and cheers are in the plan. The glee club will probably sing, the University band will be present, and Pullen's orchestra will be a part of the program and also

furnish music for the dance that is to be held informally after the close of the exercises in the chapel.

We wish to urge the alumni to come back and be again with the boys upon the night of the 14th. Return in time for the last foot ball practice of the season on the afternoon of the 14th, and go to Maine Night and the dance afterwards. The management wishes to call particular attention to the request that it be not considered an occasion for evening dress, for it is desired that from first to last it shall be a home coming for the alumni and a stimulus for the students. Letters have been sent out to a large number of the alumni living in the state and in New England, and since the list may not be followed completely, this notice in the columns of THE CAMPUS is to be considered by every alumnus as a personal invitation to return and celebrate the past, and cheer for the present and future.

This fall the foot ball team has already proved itself worthy of our confidence. It may not win all the games, but it is winning considerably more than half of the contests. Is it not now your opportunity, and if you can find it possible to return, your duty, to come back and give them a good word before the Bowdoin game?

INTERCOLLEGIATE DEBATING AT MAINE.

Anyone who has come from a preparatory school or college where there is an interest in debating, is forcibly struck with the sad conditions in which he finds debating at Maine. He inquires for the freshman debating club and is told that there is none. He then looks for the University club and learns that it is not yet working. But the worst blow comes when he is told that the University to which he has allied

himself, has never in her history sent out a University team to debate with a rival institution, and that she is yet to have her first experience with intercollegiate debating.

It is true that such conditions are to be regretted, but I do not know that we can call them discouraging. Only a few years ago we had no winning track team, no victorious base ball nine, and no champion foot ball eleven. But a loyal spirit and hard work have developed all three. This shows us what we can do. Knowing our possibilities then, shall we remain passive while the needs for debating cry out all around us?

I think not. If Bowdoin and Bates and Colby can each develop and send out a College debating team, Maine can do it too. She does not intend to stay behind in the struggle for broad manhood. She has got as good brains and as glib tongues as any of her rivals and she is going to show it.

We need intercollegiate debating at Maine for two reasons. First, it helps to develop the students, and second it advertises the University.

The first reason is so well understood that it needs no emphasizing. When young men meet time after time in contests that draw upon wits and a fluent tongue for weapons, ability to think readily and to speak well, must result. The other reason why we need debating is, however, regardless of its importance, too often overlooked. Therefore we shall be justified in observing it briefly to see just what is its import.

The second reason then, why we should have a University debating team, is that it would advertise the University. I think all agree that nothing advertises a University better than its own organizations. If we could estimate the influence that our victorious athletic teams have had in building up the prestige of Maine the past year, and in bringing to Maine such a large Freshman class this fall, we doubtless should find it much greater than most of us realize. An athletic young man prefers to go to a college where he can exercise his eager muscle and put into play some of his college enthusiasm. And so when he looks about for a

college he naturally chooses the one that offers the best inducements for such a career. He wants to go to a college that sends out a foot ball eleven, a track team, and a base ball nine. Now I believe it is equally true that the young man endowed with an especially keen mind, will also look about for a college that will give him a chance to gain distinction among his fellows. If he sees that Bowdoin and Bates and Colby have good debating organizations and that he will have a chance to make a "Varsity team," to one of those colleges he will go. The debating interests appeal to him just as strongly as the athletic interests appeal to the muscular young fellow. As matters stand now, the athletic young man would come to Maine, but the debating inclined young fellow would go elsewhere—to Bowdoin or Bates.

Now such conditions must not continue. Of course we have got to have the athletes—we cannot get along without them. But we also want our share of these sharp young fellows; and there is no reason why we should not have them. To be sure we already get a goodly number of these bright minds, but we want more. And it is the debating interest that would help draw them.

But there is, moreover, a still broader influence that intercollegiate debates would give to Maine. I refer to the prominence which the University would obtain from the newspapers throughout the state, at the time of the debates, and which would bring good to us from many quarters that are now unperceived. These benefits, however, I can only take time to suggest for to enumerate them would take too long. But with such possibilities as I have already mentioned, before us—possibilities of drawing to Maine men whose interests now take them elsewhere and also possibilities of receiving strength from the expansion of our influence through the newspapers, it appears that we cannot do otherwise than send out a University debating team.

Furthermore our prospects of success in this new field are certainly promising. The debating mind is one that must be able to analyze an argument carefully, discover the important

issue, and then show its truth or falsity. In other words the debating mind is the scientific mind. And where in the state of Maine, I ask, is such a mind better developed than right here in our own University where scientific methods of investigation are held to most rigidly and where proof is demanded for everything? The same quality of mind that gives skill in analyzing a drop of water, or in investigating the workings of electricity, or indeed in prying into the principles and running of a machine, also ensures ability in analyzing the statements of an opponent in debate.

What shall we finally conclude? Shall we have a University debating team, and accept the challenges from Colby, or Bowdoin or Bates? Our spirit of loyalty to our University and our desire to see her grow larger and stronger, says "We will!" If we can honor our University on the diamond and on the gridiron where skill and strength compete, we also can honor her in the arena where tongues and intellects clash. We cannot afford to rest on the laurels that we have already won but we must look about us and find other foes in new and untried fields to conquer. The University is what the students make it. Then let us see to it that we are loyal to our worthy institution and that we make her influence felt wherever her name is heard; and not only in contests of physical skill and endurance, but also in the field where victories depend upon the most persuasive presentation of the most logical and impenetrable line of argument.

INITIATES.

Below will be found a list of the men who have been initiated or pledged to the different societies. Any errors or omissions will be corrected.

THE LAW SCHOOL

In its Relation to the University, its Alumni and the State of Maine

THE Law School at Bangor, though situated at a distance of about eight miles from the main part of the University at Orono, is not separated from it in any other sense.

In all respects it is an integral part of the University. It draws from the common fund and takes part in the common life. As its students are by reason of birth and residence citizens of the State, so they are by virtue of their admission to the Law School *ipso facto* members of the University and have conferred upon them the rights and privileges of the institution together with the corresponding duties and obligations. This fact alone constitutes every student of the Law School a member of the athletic association, and everyone, as his eyes run over the flags of the different universities shown on the cushion cover exhibited at the show window of E. C. Nichols Co., lets them rest with delight and strong affection on "My Favorite," the glorious symbol of Maine prowess on many a hard contested field. As they lovingly gaze upon this beautiful and honored flag, the upperclass men think of N. L. Violette, and Paul Potter, and Charles H. Reid, who, each in his own sphere, by valiant deed and wise counsel, have upheld the honor of the Law School, and therefore of the University, while the first-year men point with pride at the future champions of the class of 1905 destined to carry their fame from one end of the State to the other and "to the regions beyond."

This unity of Law School and University, while most conspicuous on the field of athletic contest, is increasingly apparent also in other lines. Students begin to attend both the Law School and the University, while graduates of

Orono come in ever increasing numbers to take advantage of the two years' course provided by the Law School for college graduates. President Fellows has delivered a number of well appreciated lectures to the Law School men, while the writer of these lines and his predecessor, Dean Gardner, have on different occasions during past years addressed the student body at Orono. Hon. William T. Haines, LL. D., and Hon. L. C. Southard, General Charles Hamlin and Hon. H. M. Heath, Hon. Andrew P. Wiswell and Hon. L. A. Emery—all have in many different and most important ways contributed to the success of the University of Maine as an organic unit of State and national life, while the Board of Trustees under the leadership of their president, Hon. Henry Lord, have fostered this spirit of unity by their general policy of promoting all the interests of the University in an unostentatious but most effective way and with minds bent on furthering the highest welfare of the people of Maine.

If true success consists, in a large measure, in the establishing of the right kind of relationships with our fellow-men, it is of the greatest importance that the proper spirit of unity should exist not only between the Law School and the University but also between the Law School and its alumni. During the last four months every alumnus of the Law School has been heard of, and nearly everyone has been directly heard from, while many of them have personally called at the office of the school. One great means of keeping in touch with the alumni has been the post-graduate course as re-organized by the Committee on Advanced Degrees, Dr. M. C. Fernald, chairman. In 1900 the Law School had one post-graduate student who did

not finish the course, in 1901 none, and now in the fall of 1902 eight with possibly a few more to follow. That this course, which involves much additional labor, is appreciated, may be seen from the following extract taken from the letter of an alumnus in Massachusetts: "Time spent in earning an LL. M. degree is well invested, for it insures the reading of a certain amount every day, whereas without a spur or an inducement the new attorney is apt to spend the greater part of the forenoon in reading the newspaper or in writing his name on a tablet and thus rust out in the course of a very little time." This post-graduate course naturally leads the alumni to continue to take an interest not only in the school but also in the young men now attending it. Shortly before the opening of the school one of the alumni wrote: "In closing this letter allow me to suggest two thoughts, through you, to your entering class. One is, that the possible value of every hour of the few hundred a student is permitted to spend at a law school can hardly be overestimated; the other, that the danger of 'breaking down' as a result of study is grossly exaggerated. A word to the wise is sometimes sufficient." This advice was kindly taken by the Law School students, and it is here, with the permission of the editor, given a wider circulation in the hope that it may be appreciated also by the readers of THE CAMPUS.

Finally, the relation of the Law School to the State. It is a well known fact that the more easily men are admitted to the bar and the more poorly they are equipped for their duties the better this is, financially, for lawyers of average ability but with a well established practice. Their prosperity is in direct proportion to the number of ignorant and incompetent rivals. Their light shines out brilliantly by reason of the surrounding darkness. Hon. John A. Peters, at the banquet tendered him by the Penobscot County Bar, on his retirement from the Chief Justiceship, February 1, 1900, said: "From 1843 to 1859 the statutes allowed an admission to the bar without an examination upon a certificate of good moral character, and even the moral character was not of much account.

Someone has said that every person has a good character—good for something or good for nothing. Through the wide open door provided by the fanatical Act of 1843 not a few ignorant and reckless men came to the bar. The statute was called by its authors "a lawyer-killer," but it killed the clients instead and in a way helped the good lawyers by the commotions and kind of business stirred up by undisciplined men." This discipline, it is admitted, can not well be acquired in an office. The law school has taken its place and is recommended for that purpose by the State Law Examiners of New York, not to speak of the leading men in the profession in New England generally. One of the Justices of the Supreme Judicial Court of this state has repeatedly stated that he has noted a decided improvement in the profession since the establishment of the Maine University School of Law. Examinations for admission to the bar in Maine have become more searching and embrace a wider field of legal knowledge. Whether this raising of the professional standard is advantageous to individuals or not, it is of great benefit to the State, and in this respect the State Board of Bar Examiners have done well by the profession as a whole and by the people whose legal interests have been confided to their care. The University of Maine School of Law not only favors a higher standard of professional efficiency but, in a still stronger degree, advocates also the raising of the standard of the law schools themselves and its voice and vote, in the Association of American Law Schools, have always been in the direction of measures and policies looking towards stricter entrance conditions. Last, not least—most difficult task of all—the Law School endeavors, year by year, to raise its own standard and to turn out better work; that is, better and more fully equipped men. On the accomplishment of this, it most earnestly, but full of confidence, seek the co-operation of every student in the Law School and University, of all the alumni, and of the sovereign people of the State of Maine itself as represented by their Legislature in Augusta.

W. E. WALZ.

THE MUSICAL CLUBS.

Why should we have musical clubs at college? What is their object? These questions are sure to be asked by students entering a college, especially those devoted to athletics. Everyone knows that the reputation gained by the athletic teams of a college has a far-reaching effect in bringing students to that college; but very few people consider that a reputation gained by the musical clubs has the same effect in bringing to college both musicians and those who are not musicians. The football team, baseball team and track team of the University of Maine hold the championship of the State for the past year. What did the musical clubs do?

The musical clubs which Maine sent out last year were among the best in its history. Especially good was the work of the instrumental club and we may say with truth that it was second to none in this State. The glee club also did good work and made a decided hit at some places. Above all, however, the members of the clubs earned the reputation of being gentlemen, and were earnestly invited by the people with whom they stayed to come again.

The clubs gave concerts not only in the large towns of the State but also in some small places where the name "University of Maine" was scarcely known. The people were eager for information concerning our college and certainly they learned all we could tell them.

This year we are beginning work under rather unfavorable circumstances. In the first place we miss the leader of last year's clubs. He certainly worked hard and did much to bring the clubs up to the high standard which they attained. This year we have two leaders who have had a great deal of experience in musical matters and are well fitted to lead the clubs. We have also secured the services of the same director, Mr. Wilbur Cochrane of Bangor, who so ably worked for the glee club last year. Of last year's glee club, so far only six have come out to rehearsals; but there is some good material in the freshman class and at rehearsals there are about twenty men present. The instrumental club has not fared so well. At the first rehearsal seven men turned out — all last year's

men. Not a freshman who plays mandolin or guitar has answered the call for candidates. There must be some new men who play and they should help the college by coming to rehearsals.

We do not wish to lose the reputation which the musical clubs gained last year, and it is not necessary that we should. Let each man who plays an instrument or sings remember that it is a duty he owes to the college to try and make a success of the musical clubs.

We might say for the benefit of new students that in belonging to the musical clubs they will have plenty of good times on the trips, see many new places, meet many sociable people and make some strong friendships, besides advancing the interests of their college.

No trips have as yet been arranged, as the manager has not yet returned to college. The first trip no doubt will be sometime about the Thanksgiving recess, so we should be prepared for it.

1904 PRISM.

The editor-in-chief of the 1904 Prism has chosen the members of the board with the exception of one to represent the law school. Mr. Flynt has taken great care in the choice of his men and has selected a very able board to assist him. He has had a large amount of experience along such lines and in his hands the success of the 1904 Prism is assured. Mr. Sawyer, as business manager, has already done considerable work on the book and expects to make the book a financial success also. It has not as yet been decided where the book will be printed; negotiations are going on with a firm in Augusta and another in Saco and the job will undoubtedly be let in a few days.

The members of the board are as follows: Editor-in-chief, Roy H. Flynt, Augusta; Associate Editors, Miss Lennie P. Copeland, Bangor; Phillip Dorticos, Woodfords; Edward C. Clifford, West Falmouth; Roy M. Snell, Lagrange; Luther C. Bradford, Turner; Clyde I. Giles, Skowhegan; Thomas F. Taylor, Bangor; Charles I. Day, Damariscotta; Artist, Fred W. Talbot, Andover. The assistant business manager has not as yet been chosen.

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

Terms: \$1.50 per year, strictly in advance; single copies 10 cents.

Address all business communications and make all checks payable to Isaac E. Treworgy, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

Entered at the Post Office at Orono, Me., as second-class matter.

PRINTED BY BANGOR CO-OPERATIVE PRINTING CO.

STUDENTS' DIRECTORY.

TRAINS—Leave Orono for Bangor at 6.35, 8.48, 9.57, 10.52, A. M.; 12.46, 1.42, 2.52, 3.52, 7.12, P. M.

Leave Orono for points north of Old Town at 4.18, 6.20, 7.23 A. M.; 3.44, 5.23, 6.43, 11.23 P. M.

Leave Bangor for Orono at 4.00, 8.25, 11.35 A. M.; 1.15, 2.20, 3.25, 5.00, 5.30, 6.20, 11.00 P. M.

Leave Bangor for the south and west at 7.00 A. M.; 1.40, 8.00, 12.25 P. M.

Leave Bangor for Bar Harbor at 6.05, 9.30 A. M.; 4.55 P. M.

ELECTRICS—Cars leave Bangor at 5.30 A. M. and each hour thereafter until 9.00 P. M.; after 9.00 P. M. on the hour until 11.00 P. M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10m. past the hour.

The boat of the Boston & Bangor S. S. Co. leaves Bangor for Boston, stopping at Rockland and inter-

mediate landings, on Monday, Wednesday, Thursday and Saturday at 12 M.

The college library is open from 8.00 to 12.00 A. M. and from 1.30 to 5.30 P. M.

The college office is open from 8.00 to 12.00 A. M., also from 1.30 to 5.30 P. M., but only matters of special importance should be submitted during the latter hours.

EDITORIALS.

AN editorial appeared recently in one of the Bangor papers, which has been read by the students here with a good deal of satisfaction. It was an appeal to the people of Bangor for their better support of our athletics and incidentally mentioned several other things concerning the University in a manner which certainly merits our gratitude.

We should look at the spiritual, as well as the material side of that article. We should regard the spirit which inspired it as of more value than the practical arguments which it contained. Maine is, indeed, Bangor's college and whatever benefits us benefits Bangor. We spend considerable money down there and in return we are favored a good deal by the tradesmen. The people turn out fairly well to our games at Maplewood because we generally give them a good thing for their money. All this is as it should be; but we are glad to see, in addition to this, a sentiment arising of something more than a mere business interest. We want the people of Bangor to feel with us and for us, to rejoice when we are victorious, and to help us, with their sympathy at least, to sustain defeat. We do not ask them to help support our athletic teams and if a disposition to help us out is shown, it is all the more valuable because unasked for. Let us respond to this feeling heartily, whenever it is forthcoming, and thus build up the most congenial relations possible with the people whom we are continually meeting, both socially and in a business way.

IT does not seem possible that there are only about two weeks remaining before the Bowdoin game and then the football season of 1902 will be closed for the University. If we don't look out we won't get around to exercise a lot of that pent-up enthusiasm that we have been saving all the year. If you will come out and shout a little at about four-thirty each night it will be of great benefit to the team. It looks as if there would be some very good exhibitions of football the next few weeks and no one knows who will win. All are trying as they never tried before and the best team will win and there won't be much choice until after the game. Colby undoubtedly will come over here with a large number of supporters to say nothing of one of the strongest teams that Colby ever put out. Bowdoin will be over in a week with vengeance flowing in the veins of every man for that game "on the onion patch" and we must fight to win in good old Maine style. With Maine night the night before, there will be a large number of alumni present and Maine must make a good showing.

The team is doing good work and the boys are training well and they deserve your support. Now "come out everyone of ye," in the words of Capt. Harris and see the practice. What if it is cold and the wind blows! You ought to have spirit and enthusiasm enough to keep you warm. Do your part and the team will do theirs.

A GOOD deal has been said and much more ought to be said about some of the habits and doings of some unthoughtful students in college. It is a customary sight in visiting grammar schools and some high schools to see numerals and initials cut in the desks and walls of the building, but it does seem deplorable that this should be carried so

far that each year the numerals of the two lower classes are constantly being placed in conspicuous places in and about our college buildings. This does not apply to the annual painting of the stand pipe but to the marking the walls of the public buildings with large letters of '05 and '06. Class enthusiasm is a good and essential thing in college, and every effort to encourage it should be favored by all, but some more common-sense way should be taken than that of disgracing yourself and class by defacing the walls of the corridors with such work.

If the sophomore class wants to keep the freshmen in subjection, why don't they get out a set of rules for them to conduct themselves by, as they do in other colleges? Why don't they look after those freshmen sporting around with the girls and smoking big pipes? Such things are very unfreshmanly and should be prohibited.

The honor of the college is at stake in this matter of defacing the buildings and every student should see to it that it is stopped. In the words of some, "cut it out."

THE MAINE ASSOCIATION OF COLLEGES AND PREPARATORY SCHOOLS.

A meeting of this body was held at Augusta, Friday and Saturday, Oct. 24 and 25. The following were in attendance from this University: Professors Hart, Estabrooke, Stevens, Harrington, Lewis and Hadsitz, and Messrs. Thompson, Dubuque and Shute. The other colleges were well represented and there were present about eighty from the secondary schools.

The principal work was done in the various sections. In the classical section Principal H. K. White of Bangor presided and Prof. Woodruff of Bowdoin read a paper on "How can translation be made effective in teaching English?" Prof. Stevens presided at the mathematic and science section, and papers were read by Prof. Moody of Bowdoin, Mr. J. O. Newton of Kent's Hill, and Mr. F. H. Damon of Ban-

gor. Prof. Hedman of Colby presided over the section devoted to modern languages, and the meeting was devoted entirely to business. In the English and history section the subject of entrance requirements in English was fully discussed, and the opinion seemed to prevail that a radical change in those requirements was necessary. Prof. Estabrooke was the section president.

The conference of presidents and principals held a public meeting on Saturday morning, when papers were read on "The Relation of the Academy and High School to the College," by Principal Sargent of Hebron, and "The Relation of the Secondary Schools to the Lower Schools," by Principal Spratt of Bridgton.

At the general session the most important matter considered was the report presented by Prof. Harrington, suggesting uniform entrance requirements for the four Maine colleges, and proposing a system of units for admission. This report recommended that for the degree of B. A. twenty-six units must be offered, of which nineteen should be required; for B. S., eleven are required and fifteen elective. Physics and chemistry were the only sciences recommended for units in this scheme.

The following officers were elected for the coming year: President, Pres. G. C. Chase of Bates; Vice President, Prin. H. K. White of Bangor; Secretary and Treasurer, Prof. J. W. Black of Colby.

These officers together with Prof. Houghton of Bowdoin, Prof. Stevens of the U. of M., and Principals Powers and Foss constitute the executive committee.

* * * *

NOTICE.

According to the custom of THE CAMPUS in years past, the position of assistant manager will be open to competition and shall be given to that member of the sophomore class who will do the most effective work along that line. Some have already spoken to the business manager about the matter and desired an opportunity to work. That each may be given a fair chance this notice is inserted. All those wishing to compete should see the manager, Mr. Treworgy, and make arrangements at once.

EDWIN M. TATE.

The sad news of the death of Edwin M. Tate reached Orono, Oct. 15th. Mr. Tate was employed by the Illinois Central Railroad and was at Memphis, Tenn., completing a piece of work after which he was to return home for a short vacation. He was taken ill with pneumonia and was sick but a short time when the disease proved fatal and death occurred Oct. 12th.

Mr. Tate graduated from the University in 1900 from the civil engineering department and entered the employ of the Illinois Central Railroad where he remained until his death.

During his college course he was esteemed very highly by his classmates and by all who knew him. He took an active part in athletics and represented the college on the 'varsity track team.

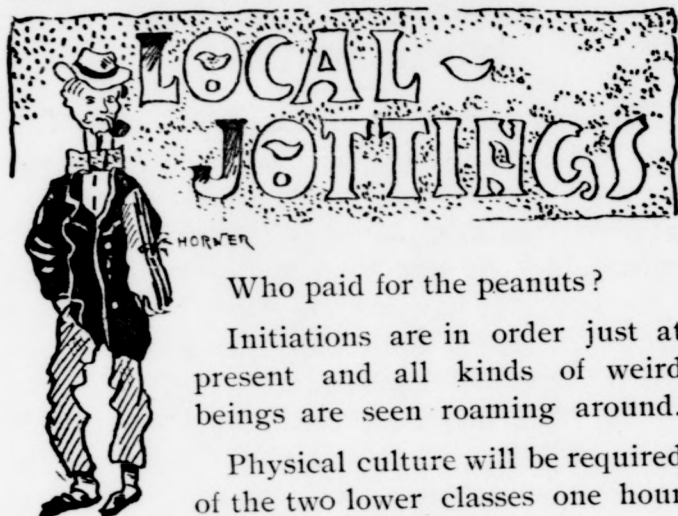

The news of his death will be read with great sorrow by all who knew him and all sympathize with his grief stricken father and mother, who, with his two brothers and sister, mourn his death.

* * * *

Miss Amy I. Maxfield, '05, has left college on account of sickness. She is to keep her work along and it is hoped may be able to return later in the year.

With this issue of THE CAMPUS will be used for the first time the cover which has so long been expected. It was designed by Mr. Rastall ex-'03, in response to the call issued by the editor of THE CAMPUS last spring. Other designs were submitted and will be made use of on later issues.

The members of the sophomore class who are to take part in the sophomore prize exhibition were chosen Oct. 27th and are as follows: Howard L. Churchill, North Buckfield; Henry K. Dow, Oldtown; Frank L. Flanders, Howard, R. I.; Andrew J. Hayes, Oxford; George K. Huntington, Lynn, Mass.; Carl D. Smith, Revere; Miss Marian B. Wentworth, Kennebunk Beach.

Who paid for the peanuts?

Initiations are in order just at present and all kinds of weird beings are seen roaming around.

Physical culture will be required of the two lower classes one hour a week from Nov. 30th to April 1st.

Dr. Fellows attended the inauguration of Woodrow Wilson at Princeton, N. J., on Oct. 25th.

A series of Institutes, held under the direction of the Agricultural Department of the State of Maine, will open on the evening of Nov 4 at Saco, Me. Dr. Fellows will speak that evening.

Have you seen those U. of M. sofa pillows in Bangor? They are the best yet and just the thing to complete your room.

THE CAMPUS received a very catchy song recently from the Zickel Publishing Co. of Detroit, Mich., entitled "The Jolly Student." The glee club is trying it and it promises to become very popular.

The following students have been admitted to honor courses in the different branches: Miss Amy I. Maxfield, biology; Leroy M. Coffin and Miss Lennie P. Copeland, mathematics; E. M. Breed, C. S. Chaplin and R. W. E. Kingsbury, physics.

"Duff" Cushman visited friends on the campus last week. He has a position with a bridge company in Pittsburg.

Dr. Fellows returned Oct. 27th from an extended trip through the South.

A movement is on foot for the establishing of a debating club or putting the present club on better footing. The plan is well set forth in the article on that subject. Everyone should take an interest in this matter.

Eight of the members of the faculty attended the meeting of the Association of New England Colleges and Preparatory Schools held at Augusta, Friday and Saturday, Oct. 24-25.

Miss McQuillan, a graduate of Brown, and Miss Hodgton, a graduate of Tufts, were visitors at the Mt. Vernon House last week.

There is a new planting of trees by the side of the main road from Prof. Drew's house to the main grounds which emphasizes the entrance to the college property.

E. F. Bearse of Auburn, and Rex W. Dodge are expected to register this week.

Thomas F. O'Brien of South Boston, registered for the electrical engineering course, Oct. 10.

W. H. Linn, '06, and J. M. Moody, '06, have left college.

E. G. Rodgers, '05, was called home last week by the sickness of his father.

A large number of the students attended the Bangor—Portland football game last Saturday.

M. J. Bartlett, '01, has entered the law school.

F. W. Sawtelle, '98, was on the campus Oct. 24.

W. L. Cole umpired and J. H. Sawyer refereed at the Bangor—Portland game of last Saturday.

Several students attended the Bowdoin—Colby game.

The tomatoes for the winter crop are now in bloom. The plants are of a hybrid variety originated at the green houses and are a cross between the currant tomato and the large garden variety.

A visit to the greenhouses at the present time would well repay anyone interested in chrysanthemums. The early varieties are now in bloom and the other varieties will blossom later so as to give a succession of bloom till Christmas.

The chapel exercises were particularly pleasing last week on account of the unusual amount of extra music. On Monday, Mrs. Jordan, wife

of A. T. Jordan, '94, rendered a selection. Wednesday, Miss Drinkwater sang in her usual pleasing manner, and on Friday, Sprague, '05, played an excellent 'cello solo.

In the carnation house there are some of the famous Lawson carnations in bloom.

Harry Carle has been visiting his brother, Geo. Carle, '05, during the past week.

Talk about generosity! The class of 1906 has the prize along that line. They furnished three bushels of peanuts for the sophomores on Oct. 14th and on Oct. 16th they gave three to the juniors and seniors. During the evening of Oct. 16th a little friendly scrap occurred between the members of the two lower classes marked by several individual conflicts and an unknown number of agitations of the frog pond. Among the natural resources of the campus few are any more appreciated than this historic pool whose troubled waters have been the source of innumerable blessings to the needy freshmen.

RECEPTION AND DANCE.

Friday evening, Oct. 24th, was the occasion of a very enjoyable reception and dance, given by Mrs. Knights in honor of the faculty, and students of Oak Hall.

The dining room was tastefully trimmed with red, white and blue bunting, making a very pretty appearance.

On the reception committee were Mrs. Knights, Mrs. Fellows, Dr. and Mrs. Fernald and Mrs. Harrington.

At nine o'clock dancing commenced and was enjoyed until a late hour, the party breaking up in time to take the last cars for Bangor and Old Town.

During the evening refreshments were served.

Many of the rooms in Oak Hall were open to visitors and their homelike appearance was the object of some comment.

About thirty-five couples were present including many of the Faculty.

The whole affair was a success and much thanks is due to the kindness of Mrs. Knights.

'73.

The death of Clarence E. Pullen, one of the most prominent civil engineers Maine has ever produced, occurred at the home of his sister in Bangor, on Wednesday, Oct. 9th. Mr. Pullen was a member of the class of 1873, but left this place to enter the Massachusetts Institute of Technology. During his life Mr. Pullen filled a number of prominent positions, among them being surveyor general of Mexico, and civil engineer for Atchison, Topeka & Santa Fe R. R.

'90.

KELLEY — BARSTOW.

The marriage of Miss Carolyn Estelle Barstow and Edward Havener Kelley occurred at the home of the bride's parents, Mr. and Mrs. Irving A. Barstow, No. 187 Main street, Brewer, Me., at 8.30 o'clock, Wednesday evening, Oct. 8th. The marriage ceremony was performed by Rev. B. B. Merrill, pastor of the First Congregational church, and was witnessed by the relatives of the young couple together with a few of their intimate friends. The ceremony was performed in the front parlor which was handsomely decorated in evergreen, palms and white flowers, the whole making an effective white and green color scene. The floral ornamentations were so arranged as to give a green and yellow effect, while the color display in the dining room decorations was pink and green. Following the wedding a reception was held from 9 to 10 o'clock during which dainty refreshments were served to a large gathering of friends. They left on the midnight train for a brief wedding tour in Boston and New York. Mr. and Mrs. Kelley will reside at 74 Birch street, Bangor, and will be at home after Jan. 7. The display of wedding gifts were many and beautiful, which testify the esteem in which Mr.

and Mrs. Kelley are held by their many friends. Mr. Kelley is managing editor of the Bangor Daily Commercial and is a prominent figure in Maine newspaper circles. Since his graduation he has always kept in close touch with the University and has done much for the interest of the college. They have the best wishes of scores of friends both in and out the University of Maine.

'95.

Ora W. Knight, who resigned his position at the Experiment Station the first of July, has entered upon the business of commercial chemist and State assayer. His address is 84 Forest avenue, Bangor.

'96.

Herbert L. Niles was married on Oct. 14 to Miss Irene C. Mast at Maple Hill, Iowa.

EX—'98.

WATTS—BENNET.

The marriage of Miss Cecelia Bennet, daughter of Dr. E. H. Bennet, of Lubec, and Mr. Clarence E. Watts of Windber, Pa., took place at the home of the bride's father, Wednesday, Oct. 22, at 2 o'clock. The ceremony was performed by Rev. Mr. Millett assisted by Rev. Mr. Palmer, both of Lubec. The rooms were made beautiful by the presence of evergreen branches intertwined with white. The ceremony was performed in the presence of only a few relatives and friends. The bridal party was preceded by two little children, a boy and a girl, who acted as the ring bearers. The bride entered upon the arm of her father. Miss Mamie Bennet, a sister of the bride, was maid of honor, and Mr. Henry E. Cole, '02, was best man. After the ceremony an informal reception was held when Mr. and Mrs. Watts received the best wishes of all present.

Mr. Watts was for three years a member of the class of 1898, University of Maine, and now holds an enviable position with the Berwind-White Coal Mining Co., Windber, Pa., as Superintendent of the Mechanical and Electrical Departments. He has met with remarkable success in this work and has also won quite a

reputation on engineering contracts which he has successfully carried out.

'99.

McFARLAND—DOWNING.

The marriage of Miss Gertrude B. McFarland of Bucksport to Mr. Marshall B. Downing of New York occurred at the Snowman homestead in Bucksport, on Wednesday morning, Oct. 9. The ceremony was performed by Rev. E. F. Pember of Bangor in the presence of immediate relatives and friends. After the ceremony the happy couple left at once for New York, where they will reside in the future. Mr. Downing was graduated from the electrical engineering course at the University of Maine and is at present superintendent of a telephone exchange in New York. The bride is one of Bucksport's most charming young ladies and will be sadly missed there.

'01.

A very pretty wedding occurred at the home of Mr. and Mrs. David Davies in Steelton, Pa., when their daughter, Miss Emily Davies was united in marriage to Mr. Benjamin F. Faunce. The groom was attended by Mr. C. D. Harvey, who was one of his classmates at the University of Maine, and both being now in the employ of the Cambria Steel Co. Mr. and Mrs. Faunce will reside at 324 Tioga street, Steelton, Pa.

Athletics

FOOTBALL.

U. of M.—TUFTS.

On Saturday, Oct. 18, at Maplewood park, Bangor, the University of Maine won from Tufts by a score of 12—0, in one of the hardest fought and most closely interesting games that the team has played this season.

Maine went into the contest with the spirit and determination to retaliate its defeat of last year at College Hill at Tufts' hands and the team certainly accomplished its end handsome-

ly. Tufts, on the other hand, entered the game with great confidence of winning and were bent upon effecting its purpose at any cost much to the team's discredit. Many contemptible tricks were employed by the members of Tufts' team that, although they may have been perhaps unnoticed by the referee, prompted the indignation of those of the spectators who were in a position to see. Doubtless provoked by the action of their opponents one or two members of the Maine team attempted to even up matters a little but were not scientific enough in their movements to escape the notice of the referee. Such conduct on the part of Maine's players is certainly not endorsed by her supporters and any attempt at unfair play even though the opposing side may be at fault should be beneath the dignity of any representative of a Maine team. It is earnestly hoped that a repetition of this work will not again occur as it lowers the opinion both of the players and of the college that the team represents in the eyes of the people outside of the college. Whether or not Maine will meet Tufts again in foot ball is simply a matter of conjecture as no official action concerning this matter has yet been taken.

Two of Maine's strongest linesmen, Towse and Bean, were out of the game on account of injuries, and Bearce, who sustained a sprained ankle in the game with Colby, Oct. 4, was unable to play his position at left half, although during the second half he was put in right tackle in place of Wood. In spite of the fact that it was necessary to play several substitutes, the team made an excellent showing, beyond even the fondest hopes of its supporters.

In no part of the game did Tufts hold for downs and but once was Maine forced to punt. In the first half, Tufts had the ball on Maine's 8-yard line and lost on a fumble, and in the second half, was held for downs on Maine's 5-yard line, which was the nearest they came to scoring.

Tufts had the ball in her possession but comparatively little of the time and twice during the game rallied, her strong backs hammering Maine's line for consistent gains. In this part of the game Tufts used the Tandem play to good

advantage, and throughout the game this was the principal mode of play used by them for gains of any consequence.

Maine appeared to stand up better under the strain than did Tufts and in this respect showed the result of the hard training that it has been through.

Throughout the game the line bucking of Dorticos was a feature and it was seldom that he failed to get his distance whenever given the ball. Collins made his initial appearance at left half back and clearly demonstrated his ability to fill this position. Bailey handled the team admirably while Parker made good gains on end plays.

For Tufts, Connell was easily individual star, making good gains at every opportunity. McGlew distinguished himself in the second half by circling Maine's end for 25 yards.

Tufts won the toss and Knight kicked to Dorticos on the 15-yard line, who, covered 15 good yards before he could be brought to ground. Parker circled the end for 15 yards and dropped the ball, which luckily for Maine, was recovered by Bailey. Dorticos tried tackle for 10 clean yards. Then Collins and Dorticos hammered the line for five yards apiece. After a small gain by Taylor, Dorticos, on the next play fumbled, the ball being recovered by Knight on Tufts' 30-yard line. Tufts was able to make no consistent gains and Knight punted to Parker, who brought it back five yards. Dorticos bucked the line for three yards while Woods pushed it through center for a first down. Collins advanced it two and one-half yards further and then it was given to Dorticos again for a good seven yards through tackle. A series of gains by Parker, Collins and Dorticos, put the ball on Tufts' 10-yard line. On the next play Tufts' line held and Libby, on the next play, was only able to hammer out three yards through center. Parker cleared left tackle for a first down and the Maine crowd fairly went frantic. Dorticos was then given the ball and again hammered Tufts' heavy line. A mixup followed and it looked like a touchdown for Maine, and as it was, the ball was within a half-yard of the line. Tufts tried to brace but it was no use

and on the next play Libby took it over for a touchdown amid the deafening cheers of Maine's rooters. It took just 12 minutes of play for Maine to get her first touchdown. Dorticos kicked an easy goal. Knight sent the ball over the line on the kickoff, and Dorticos, on a fine kick from the 25-yard line sent the ball to Tufts' 15-yard line. Tufts made but few consistent gains and it was the third down on Maine's 30-yard line. It looked as though Maine would hold for downs, but Connell made the distance on the next play, and following up his advantage made two five yard gains through Maine's tackle. The ball was now on Maine's 15-yard line and with Tufts hammering the line for consistent gains, a touchdown seemed inevitable, but fate was this time with Maine. On the next play Bailey got the ball on a fumble and Parker went at left end for five yards. Dorticos carried it down 20 yards further. Then Maine easily rushed the ball down the field for good gains on every play until Finnigan fumbled and it was Tufts' ball near the center of the field. Maine here held and Taylor got the ball on a quarterback kick. Tufts' line held and Dorticos punted to Knight on her 20-yard line. Time was called with the ball in Tufts' possession.

In the second half, Dorticos kicked to Tufts' 15-yard line and Knight was downed without a gain. McGlew circled the end and breaking loose from his tacklers, started for Maine's goal with only Bailey between him and the line. Maine's plucky quarterback was equal to the emergency and brought his man to earth; but not until he had covered a good 25 yards. Tufts, by the fiercest kind of line bucking, placed the pigskin on Maine's 40-yard line. Maine's line seemed to be weakening under the persistent hammering of Tufts' backs. Thus they advanced the ball until it was the third down with only a yard to gain on Maine's 8-yard line. Again a touchdown seemed inevitable for the strain seemed to be telling on the men. But, inspired, as it seemed by the encouraging words of Capt. Dorticos, the team took a brace and by sheer grit forced back Tufts' next charge, and it was Maine's ball on her own 8-yard line. Tufts then suffered a relapse and could do but

little against Maine's fierce onslaughts. Big gains by Libby, Dorticos, Collins and Parker, and Tufts' 15-yard line was reached. Collins pushed through right tackle for eight clean yards. Dorticos advanced it a few yards further. Libby made it a first down on the 5-yard line. Dorticos vaulted the line for his distance, but was carried back two yards. The ball was now on Tufts' 5-yard line and on the next play Parker smashed through left tackle for a touchdown. Dorticos kicked a goal. Fifteen minutes of play was involved in getting the second touchdown. Knight kicked to Maine's 15-yard line and Parker brought it in 10 yards. Small gains followed and time was called with the ball in Maine's possession near the middle of the field.

The summary:

U. OF M.	TUFTS.
Taylor, l e,.....	r e, Dunham
Sawyer, l t,.....	r t, McMahon
Reed, l g,.....	r g, { Prince Chism
Learned, c,.....	c, Bray
Libby, r g,.....	l g, Calernan
Wood, } r t,.....	l t, Hurley
Bearce, }	
Finnegan, r e,.....	l e, Nason
Bailey, q b,.....	q b, McCarthy
Collins, l h b,.....	r h b, Cannell
Parker, r h b,.....	l h b, McGlew
Dorticos, f b,.....	f b, Knight

Score, U. of M. 12. Touchdowns, Libby, Parker. Goals from touchdowns, Dorticos, 2. Umpire, Murray. Referee, Fairbanks. Linesmen, Knowlton of Tufts and Bean of U. of M. Time, 20-m. halves.

WEIGHT OF MAINE TEAM.

The weight of the team this year is slightly lower than last, several of the old men being very much lighter. The following is the weights of the regular team and a few subs:

Dorticos	181 lbs.
Towse	174 "
Sawyer	181 "
Bean	165 "
Taylor	152 "
Parker	151 "
Learned	182 "
Bearce	173 "
Bailey	133 "
Collins	162 "

Wood.....	177 lbs.
Reed	180 "
Libby.....	183 "
Finnegan	158 "

Average 168 lbs.

OTHER GAMES.

Oct. 8, Bowdoin, 12; Hebron, 6.
 Oct. 8, Colby, 15; Bates, 0.
 Oct. 25, Colby, 15; Bowdoin, 6.
 Oct. 25, Bates, 56; Coburn C. I., 0.

AMONG THE COLLEGES.

The University of Nebraska's enrollment this year is 1602.

Brown is to erect a \$30,000 clock tower ninety feet in height.

The present enrollment of the University of Wisconsin is 1710.

Lawrence, fullback for Michigan, has kicked forty-five out of forty-six goals so far this season.

University of Michigan has the largest alumni of any college in the United States. She also has one of the best foot ball teams, this fall, in the country.

Union College in New York has given birth to six national fraternities, Theta Delta Chi, Delta Phi, Psi Upsilon, Chi Psi, Kappa Alpha and Sigma Phi.

In order to promote class spirit, the senior class of the University of Pennsylvania has passed a resolution that all freshmen shall wear black caps on every day but Sunday.

Bucknell defeated Carlisle Indians by a score of 16-0. The Indians are reported to have a very strong team this year and bid fair to come up to their old standard when Hudson was in his prime.

Bates College is the only Protestant institution in New England where there are no Greek letter fraternities represented. Princeton is another strong anti-fraternity college but she has her literary societies.

Coach Pierson and Captain Knight of Tufts have about thirty men out for practice every

night and the team is receiving good support from the students. West Point defeated Tufts 5-0 in a very exciting game while Yale defeated her 34-6.

The University of Pennsylvania foot ball players will wear khaki suits this year. There is a feeling among the larger colleges that Pennsy is bordering on professionalism when she has summer practice as she has this year. She is making every effort to regain her former prestige of five or six years ago.

Wisconsin sophomores have posted the following proclamation: "Infinitesimal particles of atomic insignificance, mewling infants of 1906: Tremble with palpitating terror, for demoniac develtrees and hellish holocaust of any slaughter is about to render your pusillanimous impotence into a mass of crushed and mangled corpses. Burrow deep and avoid destruction.

Last spring sixty-one students were dismissed from the Southwestern Baptist University, Jackson, Tenn., for interfering with the management of the university. The trouble originated when Prof. Bray and Steed King, a freshman, had a quarrel. King was asked to apologize or Prof. Bray would tender his resignation. The matter was delayed and Prof. Bray did not appear to teach his classes. Sixty-one students took the matter up, signed a petition for the removal of King, and were dismissed.

BOWDOIN COLLEGE, MEDICAL DEPARTMENT.

The 83rd Annual Course of Lectures will begin Thursday December 25, 1902, and continue twenty-six weeks.

Four courses of lectures are required of all who matriculate as first-course students.

The courses are graded and cover Lectures, Recitations, Laboratory Work and Clinical Instruction.

The third and fourth classes will receive their entire instruction at Portland, where excellent clinical facilities will be afforded at the Maine General Hospital.

FACULTY.—W. DEWITT HYDE, D. D., President; I. T. DANA, M. D., Emeritus Professor of Pathology and Practice; A. MITCHELL, M. D., Pathology and Practice; F. H. GERRISH, M. D., Anatomy; S. H. WEEKS, M. D., Surgery and Clinical Surgery; C. O. HUNT, M. D., Materia Medica and Therapeutics; F. C. ROBINSON, A. M., Chemistry; L. A. EMERY, LL. D., Medical Jurisprudence; C. D. SMITH, M. D., Physiology and Public Health; J. F. THOMPSON, M. D., Diseases of Women; A. R. MOULTON, M. D., Mental Diseases; W. B. MOULTON, M. D., Clinical Professor of Eye and Ear; C. A. RING, M. D., Obstetrics; A. S. THAYER, M. D., Disease of Children; ALFRED KING, M. D., Instructor in Anatomy; F. N. WHITTIER, M. D., Instructor in Bacteriology and Pathological Histology; H. H. BROCK, M. D., Clinical Instructor in Surgery; E. J. McDONOUGH, M. D., Instructor in Histology; A. MITCHELL, JR., Instructor in Surgery.

To Young Men...

Young men think more about style than anyone else—but often they are not particular enough about fit—fact is the fit is the most important element of the style.

**Military Back with
Padded Shoulders**

is the great thing this year. We knew the young men would take to it and you can't embarrass us then for a minute. We've got them and are ready for the young man who wants the proper thing—

**Rough Fabrics, Cheviots, Serges, Worsteds
in all the New and Snappy Patterns.**
