THE CAMPUS

Vol. IV

ORONO, ME., MAY 15, 1903

No. 15

THE CAMPUS

Published on the first and fifteenth of each month during the college year by the students of the University of Maine.

MANAGING EDITOR

ROY H. FLYNT, 1904

SCHOOL OF LAW

MARK J. BARTLETT, 1904

ATHLETIC EDITORS

FRANK MCCULLOUGH, 1904

FRANK L. FLANDERS, 1905

LOCAL EDITORS

CHAS. L. LANG, 1905

FRANCIS T. CROWE, 1905

ALUMNI EDITOR

CLIFFORD G. CHASE, 1904

AMONG THE COLLEGES

WILLIAM W. KENRICK, 1905

IRA M. BEARCE, 1904,

Business Mgr.

GEORGE K. HUNTINGTON, 1905,

Asst. Business Mgr.

Terms: \$1.50 per year, strictly in advance; single copies 10 cents.

Address all business communications and make all checks payable to Ira M. Bearce, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

Entered at the Post Office at Orono, Me., as second-class matter.

PRINTED BY BANGOR CO-OPERATIVE PRINTING CO.

STUDENTS' DIRECTORY

Football Manager, C. G. Chase; Captain, C. L. Bailey.

Baseball Manager, T. C. Herbert; Captain, L. C. Mitchell.

Track Team Manager, Vaughan Jones; Captain, P. H. Harris.

Basket Ball Manager, R. M. Conner; Captain, V. E. Ellstrom.

Campus Business Manager, Ira M. Bearce; Managing Editor, Roy H. Flynt.

Prism Business Manager, J. H. Sawyer; Managing Editor, R. H. Flynt.

Glee Club Manager, A. D. Case; Leader, C. A. Kittredge.

TRAINS—Leave Orono for Bangor at 6.46, 8.57, 9.57, 10.52, A. M.; 12.45, 1.42, 2.46, 4.02, 7.12, 11.49 P. M.

Leave Orono for points north of Old Town at 4.05, 7.06, A. M.; 3.35, 5.14, 6.43, P. M.

Leave Bangor for Orono at 3.45, 6.45, 8.30, 11.32 A. M.; 1.15, 2.20, 3.15, 4.50, 5.30, 6.20, 11.00 P. M.

Leave Bangor for the south and west at 7.15 A. M.; 1.35, 4.40, 8.00, 12.25 P. M.

Leave Bangor for Bar Harbor at 6.00, 10.00 A. M.; 4.55, 6.00, P. M.

ELECTRICS—Cars leave Bangor at 5.30 A. M. and each half hour until 9.00 P. M.; after 9.00 P. M. on the hour until 11.00 P. M. Cars arrive at U. of M. fifty minutes after leaving Bangor. Cars pass the campus going north, 10m. of and 20m. past the hour; going south, 20m. of and 10m. past the hour.

The college library is open from 8.00 to 12.00 A. M. and from 1.30 to 5.30 P. M. but only matters of special importance should be submitted during the latter hours.

EDITORIALS

AN accident in which Ralph Kendall was the unfortunate victim, was a sad feature of the University of Maine-Bates game, and one that served to put a complete damper on the enthusiasm of the game.

The accident referred to, happened in the beginning of the second inning. Thatcher, the first man up, got a single and made a desperate attempt to steal. He is the fastest runner on the team and flew down to second at a 10-second gait. The Bates catcher shot the ball to Kendall and Thatcher saw it was a case of slide and went down feet first. The force carried him into Kendall in a cloud of dust. There was a sick-

ening crack heard all over the field and Kendall went down in a heap, groaning. Physicians were on the field in a moment and an examination showed that Kendall's leg was fractured, the big bone showing a break just below the knee. He was taken to the office of Dr. Bayard at Orono and thence to his home in Orrington.

Ralph Kendall is one of the star athletes of Bates, having risen to distinction last fall in foot ball, where his wonderful hurdling was the feature of the season. On the base ball field he has been showing up well both in the field and at the bat and was a feature of the team.

Although the break is not considered a bad one, the accident to say the least, is unfortunate, and the students of the University of Maine take this opportunity to extend to Mr. Kendall their deepest sympathy.

THE CAMPUS wishes to call the attention of the students to the importance of patronizing its advertisers in so far as is possible, and more particularly in making known to the different merchants that it is through the pages of the CAMPUS that their patronage is directed. That the financial success of this paper is dependent upon its advertisers is a matter which is self-evident. With a little thought on the part of the students when making purchases, the attention to which the merchants are justly entitled could be easily rendered, and the duties of the Business Manager materially lightened.

THE University of Maine has recently been elected to membership in the New England College Entrance Certificate Board. This board is made up of ten of the most prominent institutions in New England;

namely, Brown, Wellesly, Mt. Holyoke, Boston University, Amherst, Dartmouth, Tufts, Smith, Wesleyan, and the University of Maine. The object of this board is to determine a list of approved schools, from which students will be admitted to any of the foregoing colleges merely upon the presentation of a certificate properly filled out and signed. It can be readily seen that the uniform adoption of such a system among all colleges is an end which will eventually be attained, and which is essential to the success of all institutions pretending to maintain a high standard of requirements. Though this new scheme will materially decrease our list of approved schools within the state, this loss will be more than repaired by the addition of many of the more prominent preparatory schools of New England. This essentially leads up to an increase in each succeeding freshman class, and places the college in a position free from criticism among the schools which each year supply the colleges with the great army of men and women seeking higher education.

EXAMINATIONS

Commencing on Wednesday, June 3, the final examinations at the University of Maine School of Law will be held.

The seniors will be examined in Partnership, which they have taken during the term with Dean W. E. Walz; Conflict of Laws, Mr. Thompson; Wills, Mr. Holman; Maine Practice, Mr. Martin; Executors and Administrators with Mr. Simpson and in a review with Dean Walz.

The juniors will take, Negotiable Paper, Dean Walz; Agency, Mr. Fletcher; Wills, Mr. Holman; and Admiralty with Mr. Rogers. The first year men will be examined in Criminal Law, Mr. Simpson; Common Law Pleading, Mr. Martin; Agency, Mr. Fletcher; Torts, Dean Walz, and Contracts, Mr. Donworth.

CONSTITUTION OF M. I. A. BOARD

ARTICLE I.

NAME.

This organization shall be called the Maine Intercollegiate Athletic Board.

ARTICLE II.

OBJECT.

The object of this Board shall be to promote friendly competition in athletics between the various Maine colleges, and to adjudicate any controversies between them which may be referred to it for settlement.

ARTICLE III.

MEMBERSHIP.

SEC. 1. This Board shall be composed of representatives of Bates, Colby, and the University of Maine. The representatives of each college shall be one undergraduate, one member of the faculty, and one alumnus who shall have been out of college at least five years and who shall not be a resident of the town in which his college is located, to be chosen at such times and in such manner as each college may determine for itself.

SEC. 2. Any other Maine college may be admitted to membership at any regular meeting upon its adoption of all the agreements in force between the colleges already members.

ARTICLE IV.

OFFICERS AND THEIR DUTIES.

SEC. 1. The officers of this Board shall be a President and a Secretary-Treasurer, who shall hold office for one year or until their successors are elected. The Secretary-Treasurer shall be a resident of Maine.

SEC. 2. It shall be the duty of the President to preside at all meetings of the Board, and to perform such other duties as usually devolve upon a president.

SEC. 3. It shall be the duty of the Secretary-Treasurer to call all meetings of the Board, to mail to each representative notices thereof at least one week prior thereto, and to perform

such other duties as usually devolve upon a secretary and a treasurer.

ARTICLE V.

FINANCES.

SEC. 1. Assessments for books, stationery, postage, etc., may be levied by the Board equally upon each college represented on it.

SEC. 2. The expenses of the representatives incurred in attending regular meetings of the Board shall be borne by the college which they represent.

SEC. 3. If a special meeting is called to settle a controversy, between two colleges, the expenses of the representatives shall be borne as follows:—

(a) All the expenses shall be borne by the college at whose request the meeting is held provided the decision of the Board is against that college.

(b) One-third of the expenses shall be borne by the college at whose request the meeting is held provided the decision is in its favor, and the remaining two-thirds by the college against whom the decision is made.

(c) The expenses shall be divided equally between the two colleges when the decision is partly in favor of one and partly in favor of the other.

(d) In all cases except those provided for above, by a three-fourths vote the Board may make any distribution of expense.

ARTICLE VI.

MEETINGS.

SEC. 1. Regular meetings of the Board shall be held twice annually, on the first Saturday after the 15th of October, and the third Saturday in April. These meetings shall be held in the various college towns in the following order,—Orono, Lewiston, Waterville, and so on in the same order, except in cases where disputes are to be adjudicated, in which case the meeting shall be at the site of one of the colleges not directly concerned in the settlement. In case

all the colleges are concerned, the meeting shall be held at some neutral point.

SEC. 2. The election of officers for each year shall be held at the October meeting.

SEC. 3. Special meetings shall be called by the Secretary-Treasurer upon request of one or more of the colleges represented on the Board. Such meetings shall be held in Augusta, or in one of the college towns, provided it be that of a college not directly concerned in the settlement of the controversy for which the meeting is called. The place, date, time, and purpose of such meetings shall be designated by the Secretary in his call.

SEC. 4. Controversies may be acted upon at any regular meeting, provided that notice that such action is desired be sent at least ten days before the date of said meeting to the Secretary, who shall thereupon insert such notice in his call.

ARTICLE VII.

QUORUM.

A majority of the representatives entitled to membership on the Board, shall constitute a quorum, provided that this include at least one representative of each college entitled to representation. But a smaller number may adjourn any meeting from time to time.

ARTICLE VIII.

VOTING.

Each member of the Board present at a meeting shall be entitled to one vote, and a majority of the votes cast shall decide all questions, except as herein provided for. In the decision of any controversy, the voting shall be by roll call if requested by any representative.

ARTICLE IX.

AMENDMENTS.

Amendments to the constitution to be binding must be voted by a majority of the Board, and must be ratified by the college.

THE BETA DANCE

The last of a long list of fraternity dances which have been held on the campus this winter was given in Alumni hall, Friday evening, May

8, by the University of Maine chapter of Beta Theta Pi. The affair was a brilliant one and will long be remembered as one of the most enjoyable of the season's society events.

The decorations were profuse and effective. About the balcony had been draped festoons of pink and blue bunting together with the insignias and miniature banners of the fraternity. Extending from corner to corner, numerous strings of electric lights concealed by Japanese lanterns, produced a pleasing effect, and gave the hall a subdued appearance in marked contrast to the usual glare of the arc lights.

In the corners and various other convenient spots, prettily arranged cozy corners, added to the comfort of the guests and lent a home-like appearance to the otherwise bareness of the large floor space. In the center, Pullen's orchestra was almost completely concealed behind a bank of evergreen. During the arrival of the invited guests a concert programme was rendered and a reception held by a committee consisting of Mrs. Alden Webster, Mrs. Harry Chapman of Bangor, and Henry K. Crocker for the fraternity. Dancing commenced shortly before 9 o'clock and was continued until after 12, with the usual intermission. The music was of the customary excellence, the floor was in the best condition possible, and the last dance was as thoroughly enjoyed as was the first. The committee in charge consisted of Paul Dyer Simpson, Edward Robie Berry, James Harvey McClure, Edwin Freeman Bearce and Ralph Edwin Lord.

At a meeting of the Junior class held Monday, May 11, the resignation of Miss Lottie Small as Ivy Day poetess was accepted, and Miss Florence Buck was elected to fill the vacancy.

At a meeting of the Executive Committee of the Athletic Association, held Monday evening, May 11, the following "regular ticket" was recommended for the officers of the Athletic Association for the ensuing year: President, Roy H. Flynt; Vice President, Frank L. Flanders; Secretary, George K. Huntington; Treasurer, Perley F. Walker.

ALUMNI

'96

One of Hartford's most prominent engineers is Edwin D. Graves, who was born in Orono, Penobscot county, Me., in 1865. He is a typical Maine man, and as such, has had the happy faculty of reaching the goal he had in view. Educated here, young Graves was eventually graduated from the University of Maine in 1896, having taken the course in civil engineering. He immediately began practice by surveying, in a small way, lots and plots, in order to get a clientele. He was of a determinable disposition and soon became popular, to the extent that his services were sought by corporations, and he entered into the railroad survey business. In 1890 he came to Connecticut and at once entered into that branch of engineering applicable to the construction of bridges and other structures in which steel and iron are the principal parts. He took charge of the work of building the bridges over the Connecticut river at White River Junction, Vt., and of several other like structures in New England. His fame as a civil engineer having overlapped his immediate environments, he was asked to give his opinions regarding the proposed construction of the Hartford Coliseum and, when expressed, they were so practicable, that he was induced to take full charge of its erection. Mr. Graves subsequently became chief engineer of the Connecticut River Bridge and Highway District Commission, which responsible position he now holds. He is president of the Connecticut Civil Engineers' and Surveyors' association and a member of the American Society of Civil Engineers and of many other organizations of a like nature in the eastern and middle states. While never having had any desire for political honors, Mr. Graves has always been a fervent Republican. He is also one of the most prominent members of the famous Hartford club.

—Hartford Post.

The following are extracts from the year book of the class of '96. They are interesting in that they show how widely the graduates of the

University of Maine become scattered and the diversity of occupations:

"Edward Everett Gibbs, 1005 N. Charles street, Baltimore, Md., President Southern Can Co.

'Employed on Bangor water works extension after graduation, but left soon after to work on the subway in Boston. After one year of this work, entered the Boston office of the Fawcett Fireproof Building Co., and when their Boston office was discontinued, accepted the position of secretary for the Gibbs Preserving Co. Resigned from this position, November, 1901, to accept present position.'

Frederick Andrew Hobbs, South Berwick, Maine. Lawyer.

'After graduation I went to Westbrook and taught the High School there for three years. At the beginning of the Spanish war, I enlisted as a private and later received a commission as second lieutenant. I completed reading law in the office of John B. Donovan of Alfred, and settled in South Berwick, November 21, 1901; at present, expect to make this my permanent residence and place of business.'

George Wesley Jeffrey, 56 Judson street, Malden, Mass. Draughtsman with Edison Electric Illuminating Co., Boston.

'Have been in present position since October, 1902, and expect to remain here until something better turns up.'

Elmer Elwood Kidder, Somerset, Pa. Civil Engineer with Baltimore & Ohio R. R.

'I left the employ of the N. Y., N. H. & H. R. R. a year ago and went into street railway work. Kept at that until the tenth of January, when I got a position in the civil engineer corps of the B. & O. R. R. Was married in June, 1901, and have one child.'

Frank J. Libby, Box 462, Richmond, Maine.

'At home sick. Expect to remain in Richmond for at least a year.'

Frank L. Marston, 55 Grove street, Bangor, Me. Civil Engineer. Conducts a general engineering business.

Lore Alfred Rogers, 2812 13th street, N. W.,

Washington, D. C. Dairy Bacteriologist, Bureau of Animal Industry.

'Since graduation I have spent one year as a student at the University of Wisconsin, and three years as assistant in bacteriology at the New York Agricultural Experiment Station. Since last July, I have been in the Department of Agriculture, and expect to remain here indefinitely. I am still unmarried and unengaged.'

Paul D. Sargent, Machias, Me.

Register of Deeds for Washington County. Until January 1, chief engineer for the Washington County R. R.

Erastus Roland Simpson, 176 Federal street, Boston. With Chapman Double Ball Shafting Bearing Co.

'What I needed in the past was experience. What I need now is more salary. What I shall need in the future if I continue in engineering is an endowed room in the old men's home.'

Gilbert Tolman, 39 West 117th street, New York, N. Y.

'Since graduation have spent four years teaching in the South, and the remaining three years as assistant in physics at Columbia. I was married a little over a year ago.'

Charles P. Weston, 314 West 113th street, New York. Graduate student and assistant in mechanics, Columbia University.

'After graduation served on the faculty of the University of Maine, followed to date by graduate work at Columbia. Held "Fellowship in Mechanics," last year, received the A. M. degree in June, and expect to put in another year as above.'

Perley Walker, Orono, Maine. Professor of Mechanical Engineering at the University of Maine.

Frank E. Weymouth, U. S. Geological Survey, Washington.

'After graduating, I was on water works construction for two and a half years in Boston and Manitoba. Was with the Isthmian Canal commission nearly two years, a greater part of that time in Nicaragua. Later I was in Ecuador, South America, for a year for an English-American Railway syndicate. Am at present assist-

ant engineer U. S. Reclamation service. I was in Montana and Colorado last summer, and will make a reconnaissance of North Dakota this summer.'

Beecher Davis Whitcomb, 6 Broad street, Providence, R. I. Electrician with the Rhode Island Company.

Gardner B. Wilkins, 39 Worcester street, Boston, Mass. Electrical draughtsman, Navy Yard.

'For several years preceding June, 1902, was employed by the street railway companies in and around Boston. Since June have been in the Navy Yard. Uncle Sam is a good man to work for, but he spoils his help for anything else.'

SCHOOL OF LAW

Last week the students had the pleasure of listening to the lectures of Judge Emery upon Roman Law, and the way in which he treated the subject made it both entertaining and instructive to those interested in the history and development of the law.

After giving a sketch of the origin and growth of Roman customs and laws, down to the time of Justenian, when the laws were drawn up in the form of a code and by imperial decree became fixed, he discussed the similarity between this system and that of the common law, stating that both systems are the result of growth; each fitting itself to the people and their needs, and with age dropping many of the harsh principles for those more just.

In closing he gave some examples of principles found in the Roman law and stated that the courts are looking each year to the laws of Rome for principles to apply in cases that are constantly arising; and that one of the most important things for a lawyer is to have some knowledge of the Roman law.

✱

"Can you tell me, Mr. Thombs, where 'Anson on Contracts' is?"

"Well, I think Mr. X— has that, but it ought to be back soon for it has been gone a couple of months."

This is only one of the many questions that are asked daily about some of the books that are usually missing from the library shelves since the inauguration of the system which allows books to be taken out for an indefinite period; a system good enough in itself but liable to abuse by those who are so greedy for knowledge that they will take several volumes to their rooms, oblivious to the fact that others might want to turn the leaves of those same books.

It is not surprising that this thing happens, for man is forgetful, and especially so, where there is nothing in particular to call the matter to his mind. The mere wandering of an anxious student among the shelves would not even suggest to him the thought that a missing book might be wanted. The library should be so regulated as to give the greatest benefit to the greatest number, and a system introduced that would ensure that result. What is the good of having a place for reference if, when you get there, the books are gone, and nothing definite can be ascertained as to the time when they will be returned?

If this taking out of books for a long time was confined to those works not in daily use it would not be objectionable; but where it includes works that are referred to daily in recitations it is, to say the least, inconvenient. There are certain volumes such as the encyclopedias which ought not to be taken away but left on the shelves. Others with profit might be taken out for a week or two. A time limit should be fixed to suit the special cases and some provision made which will give one's memory a jog and ensure the return of books within a reasonable time.

Smalley and Junkins recently made visits to their homes.

Height and Sipprell have left for Lubec, where they have secured positions for the summer.

Erastus Wall has left College in order to teach for a short time, but intends to return in time for the examinations.

The students were entertained in the assembly

room one forenoon last week, by an Italian band, consisting of two men and several instruments. Visitors were welcomed and judging from the applause, all had an enjoyable time.

It is a frequent source of pleasure when college graduates get together to compare the athletic teams of their college days with those that now represent the same institutions on the diamond and the gridiron. There seems to be a general disposition on the part of the old fellows to make the comparison favor the teams they used to know so well, but it is by no means sure that their comparisons are well founded. Base ball is the sport most generally discussed in this way, and it seems to almost every oldtimer as if the team that represented his college in his undergraduate days could handily defeat the aggregation of very young fellows who now tread the same diamond. Reflection, however, should show him that he is probably all wrong about the matter, and that the college base ball of to-day is faster than it ever was before. This must be so because the material from which the college nines are made up is superior to that formerly at command. A score of years ago, it might be necessary for a Maine college base ball manager to press into service for the 'varsity nine men to whom base ball at the beginning of their college course was practically an unknown art. Now there are several candidates for every position on the team, and the ultimate selection of players results from the careful weighing of qualities of different men, all of whom may be able to play pretty well. The reason for the change is not far to seek. It lies in the increased, and constantly increasing interest in athletics in all the schools. In every city there is not only a high school team, but there are grammar school teams without number, and all the academies are in the game. The result is that the colleges are making up their base ball nines and their foot ball elevens from skilled material. Some of the best base ball games to be seen in Maine this season are being played now week after week by the nines of the academies and high schools.—*Kennebec Journal*.

1904 PRISM

Owing to unavoidable delay, the *Prism* will not be issued by the 15th as promised, but will surely be ready for sale by the 25th.

The book is larger this year than formerly, containing fifty more pages of reading matter, besides many additional illustrations. The Grind department has exceeded the expectations of the editors, both in quantity of matter and in the quality of the articles submitted.

The printers will complete their work on the books this week, and only the binding remains before they will be received on the campus.

The editors, this year, have endeavored to make the *Prism* characteristic of the University of Maine—to represent the doings of a complete college year at this institution, and in this they feel quite confident that they have succeeded. Every student in college should possess one of these books, as in after years, its value cannot

be estimated. There are things in it to laugh at, things that are sad, also things to be criticised perhaps, but the editors have the satisfaction of knowing that the hardest kind of work has been put into the annual and this ought to insure its success.

One department of the 1904 *Prism* should not be overlooked, as it is a new departure and one that promises to "take" with all.

That is the "Review of the Year." Here are recounted the events of a complete college year, abundantly illustrated and written up in a humorous vein. Our victories and defeats in athletics, humorous incidents and jokes—in fact this department is a pot pourri of all the happenings of two terms.

Again the editors wish to call attention to the Literary department. Here we find an article by Dr. M. C. Fernald, "A Crisis Passed," dealing with the early history of our University and which should appeal to every student. A sketch of President Fellows accompanied by an excellent half-tone is also included in this department. Then "The Stamp Chain" which is a typical college story of unusual interest, and "A Natural Mistake," complete a most acceptable feature of the book.

One hundred more *Prisms* than usual will be published this year, and according to all indications, every copy will be sold.

RESOLUTIONS

OMEGA MU CHAPTER OF
PHI GAMMA DELTA,
April 10, 1903.

Whereas: Almighty God in his infinite wisdom has seen fit to remove from our midst our beloved brother, Robert Barr Fraser of the class of 1905, be it

Resolved, That we, the members of Omega Mu Chapter of Phi Gamma Delta, have sustained, in his death, the loss of a true and loyal brother, and be it

Resolved, That we extend our most heartfelt sympathy to his bereaved relatives and friends, and be it further

Resolved, That these resolutions be spread upon our records, published in the CAMPUS and a copy sent to his parents.

H. M. SOPER, } Committee
E. G. DAY, } for the
D. F. SMITH, } Chapter.

LOCALS

Darkness is still eminent on the north end of the campus.

A. T. Hayes, '05 is confined to his room with the measles.

The *Prism* will be out next week, have you signed for one yet?

R. H. Fifield, '05 has left college for the remainder of the term.

F. Simpson, '06 has left college to take a situation in Massachusetts.

Davis, '03 and Wiley, '03, spent the past week in Dixfield working upon their theses.

E. C. Brown, '04 was called home last week on account of the dangerous illness of his mother.

During the past week, the tennis tournament has been the absorbing topic of interest on the campus.

A. T. Paine, '04 has left college to accept a situation upon the United States Geological Survey at Middlebury, Vt.

At a meeting of the basket ball team held May 8, G. L. Soderstrom, '04, was elected captain of the team for next year.

At the last meeting of the Executive Committee the amendments to the constitution of the Maine Intercollegiate Athletic Association were accepted.

At the meeting of the class of 1905, held May 11, F. L. Flanders was elected editor-in-chief, and G. K. Huntington business manager of the 1905 *Prism*.

The grounds in the vicinity of the athletic field are looking a little shabby. This should be attended to at once by those whose duty it is to look after such matters, as carelessness in the care of our campus is noticed by the crowds that witness athletic contests here.

In the recent tennis tournament, Stewart, '03, captured the singles, while in the final of the doubles, Stewart and Hubert won out against

Dorticos and Swett after two hard deuce sets of 8-6 and 7-5 respectively.

The Oak Hall first floor base ball team played the second floor team Saturday morning, and the Oak Hall team played Finn's Inn in the afternoon. Both games were conspicuous for their abundance of scores.

President Fellows officiated as one of the judges in the Bates-Boston University debate held at Lewiston, May 4, in which the former college won. The other judges were Professor George P. Baker of Harvard University, and Samuel J. Elder, Esq., Boston.

At a meeting of the Athletic Association held in chapel, May 8, the recommendation of the Executive Committee concerning the adoption of the constitution of the Maine Intercollegiate Tennis Association was accepted. The constitution of the Maine Intercollegiate Athletic Association was also accepted.

The ground for the new electrical and mechanical laboratory was broken on Monday morning, May 11. The contract for the excavation and foundation is held by M. C. Foster & Son of Waterville. The contract for the superstructure has not been let out as yet, as some changes are being made in the plans.

The track team, accompanied by Coach Keane, left for Brunswick Friday afternoon, May 15. The men taken were Captain Harris, Parker, Conner, Soderstrom, Perkins, Chaplin, Lawrence, Violette, Stow, Thatcher, Thomas, Brown, E. F. Bearce, Currier, Porter, L. Crowell, J. W. Crowley, Spencer, Rogers, H. Bearce and Goodwin.

On Thursday afternoon the musical clubs held their annual election of officers. The following men were chosen: R. H. Alton, Manager; Leader Glee Club, Plummer, '06; Leader Mandolin Club, Dorticos, '01; Leader Banjo Club, H. A. Sawyer, '04; Secretary, Hill, '06; Auditors, Goodwin, '06, Burke, '06. The prospects for the coming year were talked over and appeared to be very favorable. By graduation only four men are lost and that is good material to start a new season.

Some recent additions to the star class in the strength test have been made. Following is a complete list to date of all students who have succeeded in passing the 1000 mark, with the respective ranks: E. F. Bearce, '05, 1105.6; G. L. Soderstrom, '04, 1029.0; W. P. Bearce, '06, 1154.3; H. P. Downing, '06, 1155.7; E. A. Parker, '04, 1098.5; H. D. Thatcher, '05, 1050.9; H. L. Churchill, '05, 1086.0; E. A. Porter, '03, 1120.7; R. F. Olds, '06, 1076.7.

INTERSCHOLASTIC PRIZE SPEAKING

On the evening of Friday, May 22, the day preceding the annual invitation meet at Orono, held under the auspices of the University of Maine Athletic Association, there will be held in the chapel an interscholastic prize speaking contest to be participated in by representatives from 22 of the fitting schools of the State. A prize of \$20.00 (in gold) is to be awarded the winner of the contest, in which decision the principals of oratory and elocution will be taken into consideration. Owing to the large number of entries, a preliminary contest will in all probability be held in the afternoon in order to reduce the number down within the limits of an evening's entertainment. Below we print a list of the names of the participating contestants, with their respective schools:

Earl W. Philbrook, Gould's Academy, Bethel.
 Frank Williams, Leavitt Institute, Turner Center.
 Horace C. Marsden, Pennell Institute, Gray.
 Eugene Foster, Maine Central Institute, Pittsfield.
 Ralph W. E. Hunt, Westbrook Seminary, Westbrook.
 Charles F. Thomas, Jr., Caribou High School.
 Harold H. Flanders, Monmouth Academy, Monmouth.
 Alexis B. Luce, Bucksport Seminary.
 Joe K. Goodrich, Skowhegan High School.
 Francis L. Searway, Fort Fairfield High School.
 Carl H. Bryant, Machias High School.
 Cornelius O'Leary, Bangor High School.
 Agnes L. Jordan, Mechanic Falls High School.
 Arthur E. Winslow, Coburn Classical Institute, Waterville.
 George A. Cowan, Hampden Academy.
 Arthur K. Winslow, Thornton Academy, Saco.
 Weston P. Holmes, Wilton Academy.
 Arthur C. Hodge, Westbrook High School.
 Denton R. Davis, East Corinth Academy.
 Charles E. Davis, Bridgton High School.
 Otis Stevens, Presque Isle High School.
 Luther G. Cushing, Freeport High School.

Entries from the following schools have also been received by A. L. Grover for the invitation meet which

takes place on the Saturday following; Bangor High School, Ellsworth High School, Brewer High School, Westbrook Seminary, Fort Fairfield High School, Belfast High School and Bucksport Seminary. The Colby invitation meet coming on the same day at Waterville takes from our list of entries two schools that participated last year, namely, Higgins Classical Institute and Ricker Classical Institute. There promises, however, to be some good material entered and another successful interscholastic meet at Orono is anticipated.

AMONG THE COLLEGES

Brown defeated Yale in base ball Saturday, May 9, by a score of 5 to 3.

Columbia, Cornell and Pennsylvania have formed a debating league.

Alfred E. Preble, '03, has just established a new strength test at Tufts. He registered 1433 kilos.

Rev. Samuel Francis Smith, the author of "America," has made a gift of \$25,000 to Colby.

A new Greek letter fraternity, Sigma Nu Phi, has filed articles of incorporation at Washington, D. C.

There are 98,923 students registered in the American colleges; making one student to every 780 inhabitants.

D. L. Richardson, Pennsylvania 1900, the star end of the foot ball team, will coach Bates in foot ball next fall.

Massachusetts Institute of Technology defeated the Dartmouth track team at Hanover, N. H., running the first track meet between these colleges by a score of 94 to 71.

Yale's crew defeated Annapolis in a two-mile race on the Severns, Saturday, May 9. The time was 10 minutes, 45 seconds, which is the fastest time ever made on the course.

At Dartmouth a Rathskeller is being put in the basement of College Hall. This is to be under the management of the Dartmouth College Club and will be open to all its members during each day and evening.

ATHLETIC DEPARTMENT

INTERCLASS MEET

The tenth annual interclass track meet of the University of Maine Athletic Association was held on Alumni Field, Saturday, May 9. Some of the events were intensely interesting, although no great enthusiasm was shown by the several classes. Everyone seemed satisfied to see the freshmen win the meet; and the prediction made some weeks ago, that there was some exceptionally good track material in this class, seems to have been fulfilled. No official time was given for the different events and the results in but two events were announced, namely, the heights in the pole vault and high jump. In the pole vault Shaw and Parker tied for first place, breaking the College record and exceeding the State record by more than an inch. The height was 10 ft. 6 in. Shaw also won the high jump, 5 ft. 5 1-2 in., with Soderstrom and Goodwin tied for second.

About ten o'clock, the first trials were run off and then things moved rapidly until about one o'clock P. M. The first event was the trials in the 100 yards dash and Harris, Parker, Porter and Currier qualified. In the finals Parker took first, Harris second and Currier third.

The half mile run was won by Chaplin, '04, who ran a good race considering his physical condition. He was pushed hard by H. Bearce, '06, who came in a close second. Crowell, '06, took third.

In the 120 yards hurdle trials, Thatcher, Currier, Wilson and E. F. Bearce qualified, but Thatcher did not run in the finals. The final heat was won by Currier, '06; Wilson, '06, second; E. F. Bearce, '05, third.

The 440 yards dash was a hot contest between Perkins, '04, and Porter, '06, the latter winning out. Conner, '03, took third.

Only three men started in the mile run, Lawrence, '04, Thomas, '05, and Spencer, '06. Thomas dropped out in the last lap while Lawrence took first and Spencer second.

No trials were run in the 220 yards hurdles. Thatcher, '05, won out in the finals, with Cur-

rier, '06, a close second. Wilson, '06, got the other point.

Porter, Conner, Perkins and Harris qualified for the 220 yards dash. Harris won the final heat; Porter, '06, second; and Perkins, '04, third.

Lawrence won the two mile run, with Brown, '05, and Bachelder, '05, second and third respectively.

In the broad jump Parker broke another college record, while Currier, who got second place, equaled the old record of 20 ft. 6 in., established by Parker at the Maine meet last year. Soderstrom took the other point.

In the weight events no exceptionally fine work was done, although E. F. Bearce threw the hammer something over a hundred feet. Bennett, '06, took second, and Wood, '05, third in the hammer throw.

The shot put: W. Bearse, '06, first; Wood, '05, second; Bradford, '04, third.

The discus throw: Higgins, '05, first; Hilton, '05, second; Weymouth, '06, third.

DISTRIBUTION OF POINTS.

Events.	'03	'04	'05	'06

Judges—Prof. R. K. Jones, Prof. O. F. Lewis.
 Measurers—H. E. Cole, V. E. Ellstrom.
 Scorer—C. L. Bailey.

BASE BALL

MAINE DOWNS BATES

The first intercollegiate game of the season to be played at Orono occurred Saturday, May 2, University of Maine vs. Bates. There was a large attendance from Bangor and vicinity, filling the grand stand and the side lines. The usual crowd of students was present, but, from the amount of enthusiasm displayed, one would never have imagined that the final outcome of the game was in the least dependent upon the support which they might lend, or the cheers which the home team expected of them when playing well or in the face of defeat. Too much was assumed as a natural course of events, and not a single mouth was opened. For the first time in the history of the institution a profound silence was maintained and it is to be hoped it will be the last.

In the second inning a distressing accident occurred in which Kendall, the Bates second baseman, received a broken leg, resulting from a collision with Thatcher while the latter was attempting to steal second. The happening of this unfortunate accident served somewhat as a damper to the spirit of the game, as well as materially weakening the Bates team work, in which Kendall was an important factor.

Frost was in the box for Maine and was very effective, keeping his hits well scattered, striking out seven men, and allowing but two bases on balls. His good support, however, saved him some hard hits at critical points of the game, and his mystifying delivery kept the Bates men guessing, accounting for many of his strikeouts. Doe, the Bates pitcher, who played Amherst to a standstill in a 1-0 game the same week, was landed on rather hard at different times and he succeeded in shutting out but three of the Maine batters. His control was good, however, as nobody walked.

Larrabee, at left, played a star game with a total of four chances without an error and three base hits besides. Collins contributed a brace of singles with a clean fielding record. Conner, the Bates first baseman, was prominent for the visitors with but a single error out of 14 chances, and two base-hits in addition. Maerz at second, played a steady game after he succeeded in getting his error in judgment down to a minimum. The score:

Umpire—Ned Murray.

MAINE, 8; CASTINE, 3

The last "prep" school game of the season was played on Alumni Field, Wednesday, May 6, when Maine defeated the Castine Normal School team by a score of 8 to 3. It was another of those cold days so common this spring and the members of the 'varsity team went after the ball stiffly and with little snap. A total of nine errors was made by Maine's infield.

Kenniston, who was in the box for the visitors, pitched a hard, steady game. He allowed only eight hits and gave but two bases on balls. Both Bond and Allen played good ball for Castine.

Frost pitched the first six innings for Maine, holding the visitors down to one hit and giving but one base on balls. Mitchell went in to pitch in the seventh and tossed up a few slow ones from which the Normals secured several hits.

The score:

Umpire—Eby.

E. M. C. S., 8; MAINE 2nd, 4

The 2nd base ball team which went to Buckport, Saturday, May 2, and played the E. M. C. S. team was defeated by a score of 8 to 4. The score does not reflect discredit on the team, for the game was, in general, played the right way. Considering the fact that the 2nd team had had, at that time, only about three days' practice as a team, and practically no batting practice whatever, the result was quite satisfactory. Williams pitched a good game, with the exception of a little wildness, although handicapped by the inability of his catcher to hold his hot ones. Karl, however, threw well to second, catching two men, and with a little

more practice will make a good catcher. Bridges pitched a steady game for the home team and received good support.

BOWDOIN, 5; UNIVERSITY OF MAINE, 4

Bowdoin won her first game in the Maine intercollegiate series, and University of Maine likewise met her first defeat at Orono, Saturday, May 9. It was one of those hair-raising contests in which one is liable to have several attacks of heart failure before the final outcome is decided.

Maine started in too well, when Veazie smashed the first ball delivered for a pretty single to short right. He stole second in his usual fashion and went to third on Blanchard's throw, the ball getting past Bly. A passed ball scored him and the Bowdoin contingent began to wonder what it all really meant. But, they had forgotten "Jimmy" Cox, he of national fame, who began to steam up a bit and send them over so fast that they fairly sizzled.

Bowdoin was shut out in the first, and when Maine came up Collins dropped a pop fly just behind first base. Violette let loose and slammed one to deep center which Munro mixed up in bad shape, Collins circulating. In Bowdoin's half, Blanchard was hit and went to first. Mitchell attempted to stop him there, but the ball sailed by Collins into the crowd and Blanchard came home amid the wild excitement of the Bowdoin supporters.

Maine was out one-two-three order in the third, while Bowdoin was not to be let down so easy. Mitchell was bumped in terrific style for three straight hits with a total of seven bases, and three scores annexed. It was now 4-2 and remained so until Maine's eighth, when, with two out and two men on bases, Mitchell got Cox into a hole. It was two and three. Up went Cox's arm and a slight crack followed in quick succession. The ball flew to short left, McDonald and Larrabee scoring.

In the next inning Cox evened matters up a little with a long one between center and right which Chase failed to retain. The next ball down got by Violette, who trying to catch Cox at third presented him with the last quarter of his circuit—and the game. Maine made a desperate attempt in the ninth, but Collins and Chase fled out when Cox sent them over faster than ever. Violette struck out.

BASE BALL AVERAGES

With the Bowdoin game of Saturday, the University of Maine team has played nine games this season. Five of these have been with "prep." schools. In these games the members of the team, or the most of them, have played with but little attention to records, and so it is that perhaps the figures which have been compiled and are given below hardly do justice to the actual merits of the players.

Larrabee leads the batting with the excellent average of .412. This, with Violette's tremendous heavy-hitting record of 11 with a total of 20 are probably record-breaking figures of a 'varsity team at this stage of the season. Thatcher, although standing at the foot of the class in actual average, stands third in run-getting, in which department Veazie leads. Chase leads in the "bunting" department.

The fielding average is fairly good but it is in this department perhaps that the "prep." school games have injured records.

BATTING AVERAGES

	g.	ab.	r.	bh.	tb.	sh.	sb.	av.
Larrabee.....	8	34	9	14	17	0	8	.412
Frost.....	6	24	6	8	12	0	3	.333
Veazie.....	9	42	14	14	14	0	12	.300

MODERN MAN HUNTING

Man hunting in the olden days was a barbarous pastime; to-day it is a very scientific business. Hapgoods of 309 Broadway, New York, is an organization of employment experts which finds right men for right places and right places for right men. It hunts constantly for competent, trustworthy men to take positions of responsibility in business and technical work. It makes a specialty of supplying recent college graduates to employers who wish to inject some young blood into their establishments and have learned by experience that colleges and universities are the best places to look for the right combinations of brains and hustle. Men who would like to get in touch with desirable opportunities immediately after graduation should write for booklet.

The Swell Young Man

wants life, dash and ginger in his suit and overcoat. He wants more coloring, more fashionable curves and kinks than the older and more conservative dresser. We have caught the spirit of the young men's wants and have suits and overcoats as smart and swell as his heart can desire. "Boston Made" clothing are perfect in every detail of fabric, fit, style and workmanship. If you are not already one of our customers give us a trial on your next clothing wants.
