THE MAINE CAMPUS

Vol. VI

ORONO, MAINE, MARCH 15, 1905

No. 11

DR. HARRIS' VISIT

DR. A. W. HARRIS, who was president of the University of Maine from 1893 until 1901, and is now director of the Jacob Tome Institute at Port Deposit, Maryland, made an unexpected visit to the University Monday, Mar. 6. Dr. Harris had been in Boston the Saturday before attending the annual dinner of the Boston Alumni association, and decided at the last min-

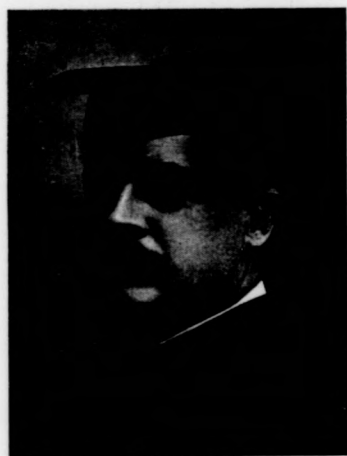

tered the chapel and accorded him a hearty ovation.

Dr. Harris spoke to the students for a short while at the close of chapel. He said that it had been always in his mind since his departure from Orono, to visit the campus when college was in session, but that until now he had not been able to bring this about.

"Now I am addressing the student body of the University of Maine from this platform for the first time in four years," Dr. Harris went on, "and now I am in the midst of the one thing that I have always dreaded in connection with my first visit—the speech that I am expected to make.

"I have not prepared any topic to speak on, however, and you will pardon me if I take up a point which came very forcibly to my attention on entering this chapel, and which would, I think, impress any visitor—that is, the question of sentiment. I cannot help feeling a certain uplift when I come into your presence; and I know that it is purely a matter of sentiment—it is the Maine spirit which I feel in you, and which is always ready in my own heart to answer.

"The question and education of sentiment is a new force in our college training. The time is not so far distant when all thought of sentiment in education was tabooed, just as the physical element in education, the plain cultivation of health in the pursuit of the ideal, was neg-

DR. A. W. HARRIS

ute to take a trip to Orono. His arrival was a great and pleasant surprise.

President Fellows was confined to his house with illness, and was not able to be present at chapel exercises. Dr. Harris was requested to lead. Although the present seniors are the only ones who remember Dr. Harris as president of the University, as he left during the fall of 1901, the students at once recognized him as he en-

lected and scorned. Students strove only for the development of that cold and impassionate organ—the mind. And the great difference between the old and the new education lies just along those lines. The old education was purely intellectual; the new is intellectual, moral, physical, and it works for the perfection of the human race.

“My friends, if there is any lesson that I can leave with you this morning, it is this—life is not solely an effort to make money. Someone has said that it is better to make a good life than to make a good living. That is the point I want to emphasize, and it is one which you need bear in mind. In a technical school, such as the University of Maine largely is, the material consideration in getting an education is apt to be uppermost; the necessity of making a living is the controlling force in your education.

“But I want you to keep in mind, too, certain ethical and idealistic principles—sentiment and inspiration and love.

“These are the things, after all, upon which your life is founded and these are the ultimate joy of a successful life. Money is a necessity, and you are bound to the wheel, but this does not preclude the sentiments. On the contrary, I know that there is no class in the world so passionately sentimental as the young men of New England. They have been taught to crush it out, but the newer education strives to cherish it, and I want you, who some day will call on the sentiments to prove that your life has been worth while, to love well and live well while you are young.

“There is no better spirit in the country today than Maine spirit, which permeates this air like a living force. My friends, there is no finer lesson in your college course than the lesson that Maine spirit teaches you. It gives you an impetus to all your work, it gives you a glad heart, it gives you confidence, it is a sentiment—it is love. When you are gone from these scenes, as I am gone, I caution you to hold your love for Maine inviolate; you will find that after all it is the same love you will be using every day. I got it a long while ago, and I shall always love Maine.”

At this point Dr. Harris was obliged to wait until the prolonged applause had subsided, and then he went on to speak of the financial needs of the institution and congratulated the students on their good luck in receiving a gift for a library building from Mr. Carnegie. At the close of his remarks Dr. Harris requested that the students sing to the tune of America the verse composed during his administration and inserted in the chapel hymn books. After the singing of the verse Dr. Harris was enthusiastically cheered, in fact, it is doubtful if his own students in the old days could have been more enthusiastic in their demonstration.

A NEW ALUMNI ASSOCIATION

General Electric Co.'s Men from Maine Organize at Schenectady

On Wednesday, March 2, President Fellows returned from a trip to Schenectady, where he was present at the formation of a new University of Maine alumni association, to be known as the Central New York Alumni association. It is composed largely of employees of the General Electric Co.

A banquet was held at Schenectady on Monday evening, at which all of the Maine men in the region, numbering some twenty-five, were present. J. G. Lurvey, 1900, acted as toastmaster, and all of the five speakers contributed to the enthusiasm of the evening.

W. L. Merrill, 1900, spoke on the University of Maine as represented in the General Electric Co. He made the statement that 58 University of Maine graduates had at different times worked in the testing department of this company. Electrical graduates of Maine look to the General Electrical Co. first for a position; and the early years of experience gained with them are invaluable to the professional electrical engineer.

P. H. Harris, 1903, spoke on a topic which appeals particularly to him—athletics, reviewed from both the graduate and the undergraduate standpoint. Mr. Harris was captain of Maine's winning track team of two years ago, which beat Bowdoin by such a close score. He holds

his college record for the hundred yard dash, and was captain of the first relay team that Maine ever sent to the B. A. A. meet. Mr. Harris spoke feelingly of his athletic recollections, and made a strong appeal to the alumni present to support the athletic interests of Maine and to show the same spirit which they had felt as undergraduates.

A comparison of the electrical engineering courses at Union College with those of Maine was taken up by P. H. Mansfield, 1902. Mr. Mansfield is instructor in mechanical engineering at Union College, which is situated at Schenectady. Union is called the "home of electrical engineering."

Dr. Fellows then spoke on a general topic—the University of Maine. He was greeted with applause and throughout his remarks great enthusiasm was manifest. He outlined the situation of the university at present, stating the changes in administration that have gone into effect recently, the attempt to raise the general grade of scholarship, and so forth.

The last speaker was King, ex-1902, whose subject was, "A University of Maine Man in India." Mr. King has recently returned from India, where he was a member of a party which was putting in American electrical works in that country near Bombay. His remarks were very interesting, both from a technical and non-technical standpoint.

Following the toasts a series of remarks by a few of the members, chief among whom being C. W. Bartlett, 1900; E. G. Glidden, 1899, and F. I. Kimball, 1882, were given.

The officers of the new association were elected after the banquet as follows:

President—J. G. Lurvey, 1900.

Vice President—C. N. Rackliffe, 1902.

Secretary—H. E. Duren, 1902.

Treasurer—H. F. Hoxie, 1899.

Executive Committee—J. G. Lurvey, 1900, C. W. Bartlett, 1900, and H. P. Mayo, 1899.

BOSTON ALUMNI MEETING

On the evening of March 4, the annual meeting of the Boston Alumni association of the University of Maine was held at the Hotel Bellevue. Over forty alumni were present. President Fellows was prevented from attending on account of illness and Professor Stevens represented the University in his stead. Among others present were Dr. Harris, our former president and now director of the Jacob Tome Institute, Port Deposit, Md.; Professor H. T. Fernald, of the class of '85, son of ex-president M. C. Fernald, and professor of entomology at the Mass. Agricultural College; L. C. Southard, of Boston; E. J. Haskell, of Portland; and W. R. Howard, of Newton.

The officers elected were as follows: President, E. E. Palmer, '99; vice-president, W. N. Cargill, '00; secretary, S. D. Thompson, '01; treasurer, A. R. Davis, '02; executive committee, W. R. Howard, '82; C. H. Gasset, '92; G. W. Lawrence, '98. A scholarship of thirty dollars a year was established at the University.

Professor Stevens spoke on the prosperity of the work at the University and stated that out of the 560 students registered at present, 40 had collegiate degrees. He also said that nearly 100 came from outside the State.

NEW YORK ALUMNI DINNER

The annual dinner of the New York alumni was held at the Hotel Astor, Long Acre Square, New York, on Saturday evening, February 25. About sixty sat down at one long table at eight o'clock and the toasts were not finished until after twelve Sunday morning. THE CAMPUS has been unable to procure the toast list and the list of those present.

One alumnus writes that "Dr. Fellows deserves a great deal of credit for being present. He was a very sick man, but he came just to show his good will. It was a hard thing for him to do, and every man in the room realized it very fully.

The dinner was a thorough success and it is said that there was more spirit shown than there would have been had the dinner been held right on the campus.

PHILOLOGICAL CLUB

The subject of the regular meeting of the Philological club on Monday, March 13, was "The Development of Certain Classical Studies," the address being given by Professor Huddilston.

AGRICULTURAL CLUB

The last meeting of the Agricultural club was held in Holmes hall on March 1. Professor Rogers gave an interesting and instructive lecture on "Farm Laws."

DEBATING CLUB

The question under discussion at the meeting of the Debating club held Tuesday, March 7, was the subject for the debate with Bates. Daniel Chase and Miss Balentine had the affirmative, and Edward A. Stanford and Harold M. Ellis the negative. The teams which are to compete in the set of preliminary debates prior to the Bates debate are being made up by E. L. Dinsmore, president of the club. It is urged that there be a larger attendance at the meetings.

PHI KAPPA PHI

The following five members of the senior class, having obtained the highest rank during the last three years, have been elected to membership in Phi Kappa Phi, the honorary frater-

nity: Miss Florence Balentine, R. R. Drummond, G. K. Huntington, H. A. Stanley, and C. W. Weeks. Five more members will be elected at commencement, at which time the initiation will take place.

THE MUSICAL CLUBS

Perhaps the hardest and most interesting trip ever taken by the Musical clubs was that of the week beginning Feb. 27. The first concert was given in Bucksport, and the next day the fellows crossed the ferry and rode thirty-six miles to Camden, arriving there about quarter past eight, and giving the concert without having had supper. Other concerts were given at Rockland, Belfast, and Searsport.

Although the clubs were handicapped by not having Goodrich and Sprague, the large audiences and the hearty applause given testify to the good work done throughout the trip. We cannot do better than quote what the Bucksport correspondent of the *Bangor Daily News* has to say concerning the concert given there:

"The concert given on Monday night in Emery hall by the University of Maine Glee, Banjo, Mandolin and Guitar clubs, was a great success. The concert was given under the auspices of the students of the E. M. C. S. The clubs have been putting in hard work this year and the results fully justified the efforts of the men. The audience was a large and enthusiastic one, as was proved by the hearty applause which followed every number on the program. Each number as well as the encores were rendered with true artistic skill. The voices were well blended and the choruses showed plainly the results of the hard work.

The Mandolin club, under the leadership of Mr. Drummond of Bangor, is a well trained club, and the leadership work could hardly have been improved, each piece being rendered with expression and feeling.

The Banjo club played well and all of its members were heartily received. J. K. Goodrich, the reader, was in excellent form on Monday evening, and his selections were entertaining as well as amusing and particularly well done. A. W. Sprague's 'cello solo was a charming piece of work and very sympathetically rendered. The full-toned baritone voice of E. O. Sweetser added much to the enjoyment of the evening. George P. Goodwin, the leader of the Glee club, won fresh laurels for himself both as a leader and for his tenor solo."

THE BAND CONCERT

The second concert of the season was given by the University of Maine Band at Bangor City hall, March 8, under the auspices of the young people of the Universalist church.

There was a fair sized but cold audience, very few numbers being encored. The concert was good in nearly every respect, but the selection from "Carmen" was especially well done and caused much favorable comment.

The many college fellows present was a good indication of the support which is given to all the organizations at the University.

The program was somewhat different from that given at the Orono concert and so we give it in full.

BOWDOIN FOOTBALL COACH

Announcement was made on February 21, by J. W. Sewall, '06, of Oldtown, manager of the Bowdoin football team, that the coach for next year would be Thomas Barry, an old Brown University man. He is now attending the Harvard Law School, and comes to Bowdoin highly recommended.

THE ASSEMBLY

The second assembly of the series was held Friday evening, March 1, in the gymnasium, and proved to be even more successful than the first.

From eight until nine o'clock a reception was held. Those on the reception committee were Prof. and Mrs. Boardman, Prof. Colvin, Hon. and Mrs. Henry Lord, and Gould R. Anthony. The hall was plainly but artistically decorated. At either end of the balcony were hung large Maine banners, while between these banners were hung numerous flags from other colleges and prep. schools. Cosy corners and couches were much in evidence and added much to the enjoyment of the evening. The floor was excellent, as was also the music, and no one left the campus without regretting that such a good time had come to an end. Everyone is now looking forward to the third assembly, March 24, and wondering if by any possibility it will be as good a time as the one just passed.

Y. M. C. A.

H. A. Stanley, '05, led the devotional meeting March 9, the subject being "A Clean Body." At the close of the service a committee for making nominations for officers for the ensuing year was appointed consisting of G. K. Huntington, C. D. Smith, and C. J. Moody.

Mr. R. H. Edwards, Yale 1901, addressed the meeting at four o'clock, Sunday, March 12. Mr. Edwards was for three years general secretary of the Yale Association, and is now visiting the different institutions in the interests of Bible study. Miss Frances Weston, of Bangor, was the soloist.

At the close of the meeting Mr. Edwards went to work earnestly to interest the members in the formation of classes for Bible study. His idea is to have each fraternity organize its own class and have appointed hours for the study of the Word.

THE DEUTSCHER VEREIN

The Deutscher Verein held its regular meeting Wednesday evening, March 1, at the Mt. Vernon house. Prof. Segall gave a very interesting talk on "The Literary Differences of France and Germany."

The meeting adjourned at eight o'clock in order that the members might attend the Maine-Colby basketball game in the gymnasium. After the game they returned to the Mt. Vernon house and spent the remainder of the evening socially. Refreshments were served.

PROFESSOR SPRING'S LECTURE

The sixth and last in the University series of lectures was given in the chapel on Thursday evening, March 2, by Professor S. N. Spring. His subject was Some Aspects of Forestry. The lecture was illustrated with the stereopticon and was delivered in an attractive manner. It was a subject of absorbing interest to all citizens of Maine. Professor Spring demonstrated conclusively the importance and value of forest growth to any section of any country. Many of the stereopticon slides were furnished by the Bureau of Forestry at Washington.

SENIOR PARTS

In accordance with a rule adopted by the faculty last year the following sixteen seniors, having obtained the highest rank during their course, have been selected to prepare class parts for the exercises at commencement: C. E. Abbott, G. R. Anthony, H. W. Bachelder, F. Balentine, A. W. Collins, E. L. Dinsmore, H. K. Dow, R. R. Drummond, G. K. Huntington, J. H. McClure, C. D. Smith, D. F. Smith, A. W. Swrague, H. A. Stanley, C. W. Weeks, and F. O. White. From these, a certain number, probably six, will be selected to deliver their parts at commencement. As far as compatible with the excellence of the parts presented, the speakers will be chosen to represent the

several undergraduate courses. The faculty committee on commencement parts is composed of Professors Estabrooke, Stevens, and Merrill. Subjects must be passed in to the committee on or before March 17.

SENIOR COMMITTEES AND CLASS DAY SPEAKERS

At a meeting of the senior class on March 8, plans pertaining to commencement were considered. The following committees were elected:

Class Day—Collins, Carle, Crowe, Foss, and Sprague.

Decorations—Sweetzer, Flanders, and Anthony.

Concert and Ball—Sprague, Mitchell, Drummond, Learned, Pennell, and McDermott.

At a meeting of the class on March 14 A. W. Collins was elected marshall for class day and F. E. Learned, assistant marshall. The following speakers were elected: Valedictorian, G. K. Huntington; Address to Undergraduates, F. L. Flanders; Historian, J. A. McDermott; Odist, E. O. Sweetzer; Poet, E. L. Dinsmore; Orator, A. W. Sprague.

VISIT OF SOLONS

On Friday, March 10, the committees on education and agriculture, together with many other legislators and their wives and friends, made a visit to the University. Those who came to Orono in the afternoon were entertained at dinner by the different fraternities. Chapel exercises were postponed until two o'clock in order that all the guests might be present.

At the conclusion of the chapel exercises President Fellows made a few remarks concerning the University. He spoke of the great work the University has done, and was now doing, with the amount of money available to pay running expenses; of the exceedingly small sum, when compared with the other states of the

Union, that Maine appropriated to the highest branch of her public school system, for that is just what the University of Maine really is; and of the trust that the State took upon itself when it accepted the institution from the national government under the Morrill act. Many of the larger and richer states of the Union, those with a larger population and more taxable property than our own—as, for instance, Illinois, Michigan, Wisconsin, Minnesota and Iowa—appropriate large sums of money each year for the support of their state universities. Just this year Illinois has appropriated a million and a half for this purpose. But it is also a fact that states with the same population and taxable property as the State of Maine, do very much more for their state universities than does this State. West Virginia and Colorado appropriate from four to six hundred thousand each year.

The State of Maine does far less for the maintenance and support of her University than does any other state. However, the University of Maine does not and will not ever ask from the State more than is absolutely necessary for the needs of the institution. With the means which it has had at its command the work of the University has been remarkable, and today, with its present plant,—the total value of which, by the way, is less than the amount appropriated yearly by some states for their universities—it is doing a truly noble work along the lines of higher education, and in nearly every branch of study and research. Dr. Fellows said that he believed that the legislature in passing the recent resolve for a \$12,000 yearly increase in the state appropriation for the next two years recognized the trust placed with it.

At the conclusion of President Fellows' short address the visitors went for an inspection of the various buildings and departments, and were given a chance to see the students at their everyday work. President Fellows was unable to accompany the visitors about the campus, as he was very ill and obliged to go home. It was only through grit and determination that he appeared at all, as he had been ill for some time. The legislators and their friends left on their return to Augusta on the 4.04 train from Orono.

EXECUTIVE COMMITTEE

The regular monthly meeting of the executive committee of the Athletic association was held Monday evening, March 13. The treasurer's report practically showed an even balance between the assets and liabilities, so that the spring athletics must depend entirely upon the spring subscriptions.

On recommendation of the football committee E. W. Philbrook, '07, was elected assistant manager of the football team for the coming season. Mr. Campbell presented the matter of the almost useless condition of the bowling alleys and the possibility of making them over into a part of the baseball cage. It was thought that the best way to get at the matter would be to petition the trustees of the University to the effect desired, and the committee voted its sanction to the circulation of such a petition. In view of the poor condition of the baseball ground during the early part of last spring, and in the hope of drying it off at an earlier date this season, it was voted that the track and baseball managers be authorized to clear the snow from the athletic field.

INTERCOLLEGIATE ATHLETIC COMMITTEE

Representatives from all the Maine Colleges met at Brunswick Saturday, March 4, and discussed plans for the intercollegiate meet this spring. It was voted that the meet be held at Alumni Field, Orono, May 13. The following officers were elected:

President—B. A. Gooch, Colby.

Vice-President—D. B. Andrews, Bowdoin.

Secretary—L. G. Brune, Bates.

Treasurer—E. A. Stanford, Maine.

The rules governing hammer throwing were amended so that if the hammer goes out of the hand accidentally while the athlete is attempting to throw, it is not a foul.

The following officials were selected for the Maine meet:

Marshal, George Carle, U. of M.; track

events, referee, G. R. Lee, Portland; judges, A. A. Wing of Lewiston, W. W. Bolster, Jr., of Lewiston, and E. A. Parker of Skowhegan; timers, A. L. Grover of Orono, Dr. F. N. Whittier and E. Rice of Waterville; starter, A. S. McCreadie of Portland and scorer, E. C. Wilson of Bates.

Field events, measurers, E. T. Clason, of South Paris, Harry Lewis Bowdoin, and J. W. Crowe U. of M.; judges, Thomas of Hebron, A. F. Laferiere of Hebron; scorer, Cotton of Colby, and announcer, R. E. Hall, Bowdoin.

JUNIOR THEMES

The eight juniors having attained the highest rank in themes as sophomores have been announced by the faculty. These eight will contest for the prize at the annual junior exhibition which is held just before commencement. The competitors are as follows: A. J. Butterworth, C. W. Campbell, J. C. Colcord, H. A. Emery, P. H. Glover, G. H. Hill, R. B. Kittredge, and E. A. Stanford.

Subjects must be passed in on or before Saturday, March 18, and themes must be in directly after the Easter recess.

A BOOK ON ATHLETICS

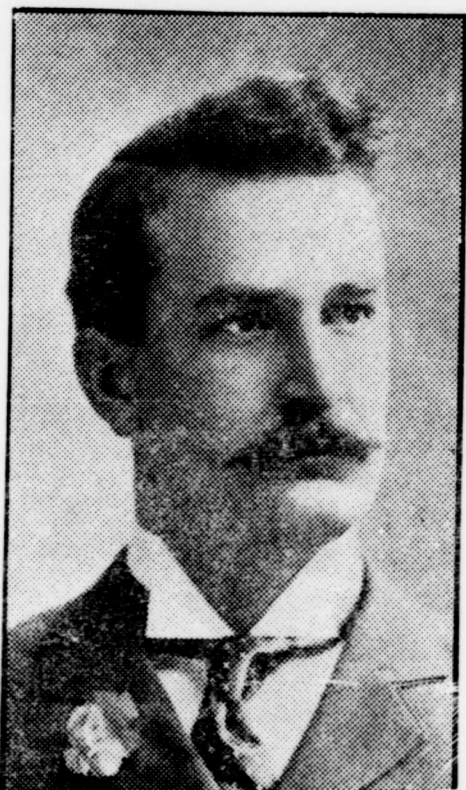

An interesting volume on Practical Track and Field Athletics, by John Graham and Ellery H. Clark, has recently been added to the library. This volume is profusely illustrated with photographs and ought to be of especial interest to men who were in college two years ago, as "Tom" Keene, the old "champion" who coached Maine at that time, figures prominently in the illustrations.

W. L. Sturtevant, '07, and L. R. Lord, '08, have been elected to THE CAMPUS board. A. J. Butterworth, '06, has resigned, and L. R. Colcord, '06, has been elected assistant editor. Mr. Butterworth resigned on account of the pressure of other duties.

BANGOR'S NEW MAYOR.

William B. Pierce, a graduate of the University of Maine, in the class of 1890, has been elected mayor of Bangor. He was the Democratic candidate and had a very complimentary majority. Bangor is strongly Republican, and Mr. Pierce has the honor of being the fifth Democratic mayor who has been elected in the history of the city, a period of seventy-two years. He is a prominent lawyer, a member of the Pe-

WILLIAM B. PIERCE, MAYOR-ELECT OF BANGOR. nobscot bar, and has been active in city politics for several years.

Mr. Pierce's early education was acquired at East Corinth academy, and he continued his studies at the University of Maine, graduating with the degree of B. M. E. in 1890. He read law for two years in the office of A. F. Simpson, one year in the office of the late Daniel F. Davis, former governor of Maine, and was admitted to practice at the Penobscot bar August 18, 1893. Mr. Pierce was nominated for representative in

the legislature but failed of election, although making a good run. In 1904 he was nominated for mayor of Bangor and was defeated by Hon. F. O. Beal. Having in view Mr. Peirce's strength, as demonstrated in the campaign of 1904, the Democrats this year tendered him a unanimous renomination with the result that he was elected over such a prominent Republican as Dr. Daniel A. Robinson by a plurality of 231 votes. He will be inaugurated on Monday, March 20.

INDOOR MEET.

Class rivalry will run high at the annual indoor meet, which is to be held in the gymnasium on the evening of April 6. The contest between the sophomores and freshmen promises to arouse more than ordinary excitement as the freshmen have material enough to make the sophomores work hard for what they get, and stand an even chance of beating them on points.

A new feature, for which Coach Farrell is responsible, is the inter-class tug of war, which is sure to furnish all kinds of excitement for every one concerned. The trial pulls will be between the freshmen and sophomores, and the seniors and juniors, the two winners to pull in a final.

In the relay races the juniors and sophomores are picked to win the trials with a toss-up for the final, as each team has two members of the 'Varsity team and several other good ones. The freshman and sophomore basketball teams are evenly matched and the game will be a battle royal from start to finish.

The juniors are picked as the logical winners of the meet, but the large margin which they have had in former years will probably be reduced considerably. The events are as follows:

Tug of war, pole vault, shot put, 25-yard dash, 25-yard low hurdles, high jump, 25-yard high hurdles, basketball game — '07 vs. '08, relay races — '05 vs. '06, '07 vs. '08.

The following 1904 men are employed by the Westinghouse Co.: E. M. Breed, A. C. Jordan and C. H. Leighton.

EDITORIALS

THE last few days have given promise of the warmer weather which is to come and involuntarily our thoughts turn towards the out-of-door sports. We think of the baseball games of last spring and wonder how we shall come out this year.

Right here we must acknowledge that the larger part of our defeats last year was our own fault,—not the team's fault, but the fault of the rest of us who did not play on the team, but who merely watched the games. We certainly did not give the men who represented us the proper support and backing.

The Maine spirit is not a constant quantity.

At times indeed it rises to the greatest heights, but it does not stay there. Instead, it slides gradually down again until the much vaunted spirit seems but a thing of the past, yet again it rises like the Phoenix out of the dead ashes of the past. Like the tides of the ocean it is never still, but is constantly rising and falling, ebbing and flooding.

Last spring our spirit seemed dormant, and indeed, it was at as low a depth as it ever will be. When we did win a victory the cheering was loud and long, but when the team had done its best and had been defeated through no fault of its own, there were no ringing cheers from the sidelines and the grand-stand was as silent as the dead. The men felt as the old Roman gladiators must have felt when, having been overthrown, they looked to the spectators for mercy, and heard only taunts and jeers and saw only scowls and down-turned thumbs.

The team did not and does not need the support of the fellows when it is winning an easy victory; it is when things are going against it, or when the victory hangs in the balance, that it must feel that the whole University is behind it, backing it and giving it the much needed moral support. When the team came back from an unsuccessful trip last year, the men received little sympathy and much blame. Nine-tenths of the students seemed to think that it was entirely due to some carelessness on the team's part that it had not won, and they treated the men accordingly. If we had given them the needed support they could have done their best and more, as Farley used to say. As it was, they did all they could, but they felt that something was lacking in the support that was accorded to them.

Few of the fellows on the sidelines really know how much good, hard, continuous cheering does towards winning a closely contested game.

Every man on the team feels that he must win somehow, and if he does by any chance lose, that it may be said of him what was written on the tomb of the cowboy out West: "He done his damndest; angels could do no more."

The cheering at the Bowdoin game last fall left nothing to be desired. When the team lost ground the cheers rang out to encourage it, and when it did gain ground the cheers boomed out from the bleachers only to be taken up and turned back by the grandstand, then to be tossed back and forth like the echoes between two mountains. This cheering, and the final brace taken by the team in the last few minutes of play, when the team went through the Bowdoin line as they had gone through ours earlier in the game, were the only bright features in an otherwise hopeless defeat.

We can win the track and the baseball championship this spring if we have even a moderate amount of luck and any kind of support; but one thing is certain—we cannot and we shall not win if the track men and the baseball team do not have that support.

The truth remains that the baseball men can not make the winning run, nor can the track men clip the requisite quarter of a second from the record if the whole student body is not behind them pushing them on, making them do it whether they will or not.

It seems strange that every once in a while somebody rushes into print with a long article upon a subject about which he appears to know nothing, or at least has so biased a view as to render his criticism more than useless.

In the last issue of *Munsey's Magazine* appears an article by Julian Hawthorne on hazing, which presents such a gross misconception of the existing circumstances as to be an insult to every

college man. A person reading the article would—if he did not know better—suppose that it was the custom of the average college to kill or permanently maim at least one man every five years. It is full of allusions to the beastly and obscene actions which the poor victim is forced to perform, to the horrible torture which he undergoes, and the awful cruelty of it all. These are untrue facts in themselves, and in the impression which they tend to give. If the writer had taken the trouble to investigate he would soon have learned that the average college man is not a cross between a hoodlum and a broken-down prize fighter, as his words seem to imply.

The hazing which a man receives in college is almost the same which he would receive anywhere—on a training ship, in a mining camp, or even in a large business office. No one cares to make a comrade of an untried man, and even less does he wish to be ruled by one who is but entering upon the life which has been his for some time. There are exceptions, of course, for human nature varies, and accidents will happen; but there is no excuse for making the exception the rule and thus giving a false and unjust impression of the American colleges as a whole.

The larger part of the incidents which Mr. Hawthorne takes for illustrations happened years ago. They are old stories. Hazing was undoubtedly brutal then, but he should not judge the college student of today by the one of previous decades. Life has advanced greatly in the last few years along humane lines, and in this, as in everything else, the college man is abreast of the times.

NO one who attended the enthusiastic college meeting, held recently in the interest of the Debating club, can fail to realize that we stand

face to face with an issue. At last we are to meet one of the older institutions of the State on what is generally conceded to be her favorite field—that of debate. The steady and rapid rise of our fortunes in athletics is a matter of common knowledge, and is justly a record to which we may point with honest pride. The excellent work of our musical organizations is also a worthy source of gratification; but if we are to rest content with our past success and fail to do our utmost to promote our interests in the new field of college activity, surely we are unworthy both of our past success and our present reputation for being energetic and enterprising. The calls for support by all other organizations have been responded to most generously. Let it not be said to our discredit that we let our Debating club die out because we failed to face an issue. Of course it's to be expected that many will sit back and lay all the responsibility for action on fellows that are already overloaded; but that won't win the debate. Somebody has got to make a sacrifice and get out and work for the team. Don't put it off on the other fellow; get out and do a little scratching *yourself*, even if it's only effect is to make someone hustle harder for first place. We don't want any half-way work about this thing, and we don't want any men to make the debating team at a walk. Remember, that if a man makes the team who isn't big enough to fill the place, it isn't his fault that he's there, it's *yours*. You should have either beaten him out for his place or made him work harder. Now let everybody, who possibly can, get into this work for all he is worth. It's up to all of us—for ourselves and for "Old Maine."

Ernest L. Baker, 1903, is taking post graduate work at the University of Columbia.

LOCALS

Neat folders containing the baseball schedule were distributed at the close of chapel March 9.

Professor Webb has been confined to the house for the last fortnight with an attack of the grip.

A "smoker" was held at the Phi Gamma Delta house Tuesday evening, March 7, for the faculty.

Professor K. P. Harrington recently gave an illustrated lecture before his classes on "Journey von Dissium."

F. O. Stevens left college Tuesday for Moosehead lake where he will be engaged in survey work. He will be gone about a month.

Miss Alice Hanson, of Bangor, sang in chapel recently. Miss Hanson has a sweet, rich, contralto voice, and pleased a large audience.

E. E. Trafton, R. E. Taylor, and L. A. Thomas will leave the latter part of this week for Auburn where they will work on their thesis.

Dr. A. W. Harris has recently been offered the presidency of Northwestern University. It is not known as yet whether he will accept or not.

The sophomores have elected A. P. Wyman, of Skowhegan, captain of their track team, and the freshmen have elected W. R. Sawyer, of Milbridge.

Professor Woods has recently been in New York attending the meetings of the experiment station directors of the eastern section of the United States.

Lincoln R. Colcord, '06, left college March 9 for the remainder of the year to accept a position with the civil engineering department of the Northern Maine Seaport Railroad in the vicinity of Searsport.

John May, P. R. Moody, and B. M. Cowan returned recently from their thesis work at the power plant of the Rockland, Thomaston and Camden Street Railway at Glen Cove.

Burton W. Goodwin, '03, a member of the firm of Goodwin Bros., dealers in hardware at Rumford Falls, is visiting friends on the campus.

There have been some unusually good attractions at the Bangor Opera house during the last fortnight and many of the students have availed themselves of the opportunity of seeing them.

The sophomores are sporting their class pipes. The pipe is a straight stem one of French briar with an amber mouthpiece and is mounted with sterling silver. Inlaid in the front of the bowl is a block M with a smaller naught on one side and a seven on the other.

The resolve appropriating an additional \$12,000 annually for the next two years for the University passed both houses of the legislature and was signed by the Governor March 9. Mr. Higgins, of Limerick, tried to hang the bill up, but was unsuccessful. A great deal of credit is due Representative Thompson, who worked untiringly for the passage of the resolve.

The University of Maine has been invited by the University of Pennsylvania to send a relay team and other athletes to the Eleventh Annual Inter-collegiate and Interscholastic Relay Race meeting on April 29. The different colleges have been divided into groups of six and Maine has been put in the third group with Dartmouth, Williams, Tech, Wesleyan, and Vermont.

In a recent issue of the *Kennebec Journal* appears a somewhat long and official statement from the authorities of Bowdoin College concerning the new course in education, or pedagogy, recently instituted there. The article ends thus: "It is clear that the colleges of Maine have been slow in responding to the demand for the professional training of college-bred men teachers, and as already stated Bowdoin is the first college in the State to take up the work." Perhaps it will be sufficient to say that ever since the fall of 1899 the University of Maine has offered courses in both pedagogy and the history of education, and that both courses have been well attended. Instruction in these courses is in charge of Dr. M. C. Fernald.

ALUMNI

'75

E. F. Hitchings is assisting the Maine State Commission of Agriculture in the investigation of the brown tail moth pest.

'79

Dr. Geo. P. Merrill, curator of the Department of Geology in the United States Museum, has been appointed an associate editor of the *American Geologist*.

'90

The Rambler in the *Portland Press* has the following to say about Bangor's major on Gov. Cobb's staff:

"Major Edward Havener Kelley of Gov. Cobb's military staff, and who will ride in the inaugural parade on Saturday as an aide to Gen. Chaffee, has a good right to the gold lace of his rank, because he is a well-trained and perfectly capable soldier. He is a graduate of the University of Maine where he had high rank in the cadet battalion, and in the south, where he lived for sometime afterward, he was interested in military operations in a practical way. For a number of years he was a Washington correspondent, so that the capital is not new to him by any means, and since leaving there he has been managing editor of the *Bangor Commercial* — altogether one of the distinctly brilliant and successful men Maine has turned out."

'91

John W. Steward, a prominent business man of Skowhegan, was on the campus recently.

'93

Orono people will be interested in the success which is attending George W. Hutchinson of Orono. Mr. Hutchinson is now the resident engineer of the Keystone Coal & Coke Co., of Greensburg, Pa., but in addition to this work he in 1903 established with Frank B. Miller of that town the St. Clair Coal & Coke Co. in which, as a local paper expresses it, "by unlimited push and enterprise they have built up a business of which Greensburg may well indeed be proud. They are also extensive dealers in builders' supplies, sand, cement of various kinds, sewer pipe and building blocks in a seemingly endless

variety. They have all equipment appertaining to the handling of coal and coke business and give to their patrons the best of service." Mr. Hutchinson's business with the Keystone company takes him about considerably and he spent some time at the St. Louis exposition last year in the interests of the concern. Mr. Hutchinson during the Spanish war was volunteer in one of the Pennsylvania companies and saw service in the Philippines.

'99

The marriage of Miss Elisabeth Frances Lempert to Mr. Reginald Lovejoy Fernald took place at Rochester, New York, Feb. 28, 1905. Mr. Fernald is the son of Prof. M. C. Fernald, and is now in the employ of Ginn & Co., Publishers, New York City.

'02

Mr. Luther Peck after completing a course in the Homeopathic Medical College at the University of Michigan, has opened an office at Plymouth, Mich.

S. S. Lowe, who is employed in the engineering department of the New York Central Railroad, was recently severely injured, sustaining a fracture of the skull. It was at first thought that the result would be fatal, but recent reports give hope of his recovery.

'03

Henry M. Soper, who has been employed as a chemist with the Cambia Steel Co., Johnstown, Pa., has accepted a similar position in Minnesota.

'04

L. E. Little visited at the Phi Gamma Delta house last week.

ATHLETICS

THE BASEBALL OUTLOOK

It is very easy at this time in the season to write that "prospects are higher than ever before;" any proposition is apt to seem easier as we think of it in the future than when the time

comes to grapple with it in the present, but after a careful consideration of all the factors necessary for a winning athletic team, it certainly seems that we have more cause to be hopeful for our baseball team this year than ever before.

These hopes are not founded in the prowess of a few particular stars, but upon a squad of forty men, a large percentage of whom can be relied upon for a good stiff article in the way of baseball. With this promising bunch of material there will be several hustling candidates for every position and every man will have to put the best he has into the game in order to make good.

"There will be lots of hard work," said Capt. Collins when asked about his plans for the spring, "and with so much really good material the man who holds his position will have to train conscientiously and pay strict attention to the game." These words give the situation in a nutshell and require little comment, but a few words about the men and what they are doing may be of interest.

The backstop position is perhaps the most uncertain of any and the news that Neil Violette may be seen in a Maine suit again this year is hailed with delight by everyone. After Neil comes a bunch of five or six from which it will be hard to make a final selection. Karl, '06, was substitute last year and will make a strong bid for the position this spring but will have to work hard to beat Flanders, '05, or Gordon, Emery and Dickson, '08.

The candidates for the infield positions are particularly strong and numerous. Capt. Collins will hold down first base with a strong emergency substitute in Lunt, '07, who will also be given a try in the outfield.

Doc Thatcher will be back in the game and will add lots of snap and ginger to the whole infield. Moody, the freshman, who did gilded work in the class games, is a natural ball player and with the training which he will get this spring will make a cracker-jack for short stop or second base. Burns, '07, and Hosmer, '07, of last year's team will have something to say when it comes to the final selection, while

Chase and Richardson, '08, have already demonstrated that they are made of "varsity stuff."

The outfield is something of a problem and one to which Coach Rudderham will probably give more attention than to any other department of the game. It has always been the custom to count on the pitching staff to furnish one man for the the outfield, but this year, while no doubt the pitchers may be used for this purpose to a certain extent, it is Capt. Collins' intention to have a strong outfield independent of them. Among the many promising candidates for these positions are Austin, McDermott, Hews, Tarbox and Sawyer, '06, Sturtevant, Hanscom and Sawyer, '08. O'Halloran of the Law School, ex-captain of the University of Vermont team, will not be eligible for the Maine games on account of the one year rule, but may be taken on some of the trips out of the State.

The schedule calls for at least three 'Varsity pitchers, two of which will probably be Jack Frost and ex-Captain Mitchell, leaving one to be picked from candidates who have had little or no 'Varsity experience.

Quint, '07, who was 'Varsity sub. last year and pitched a very creditable game against Andover, should develop into a reliable man this year, and Tarbox, '06, who although he has played on class and second teams ever since entering college, has never attempted any pitching, is making an excellent showing in the cage.

Of the two freshman pitchers, Dow and French, little can be said except that they showed up well in their class games last fall. A freshman is an unknown quantity until he has appeared in at least one big game, and so many who have been stars in their prep. schools have failed to make good in college, that it is useless to predict for them.

The second team will play an important part in this season's work, and considering the number of good men who will fail to make the first team it ought to be a fast aggregation. The first team schedule is a long, hard one, but under Steve Farrell's watchful eye the team will be in the best of physical condition, and Captain Collins feels confident of a fair percentage of victories.

TRACK TEAM

As it is hard to size up a green runner, jumper, or hurdler by his work indoors, it is hard to say at present just how much the freshman class will contribute to this year's track team, but leaving freshmen out of consideration entirely, there seems to be no reason why we cannot from the three upper classes turn out a team as fast or faster than that of 1904.

There seems to be a dearth of sprinters this year, but Porter, '06, Currier, '06, and Sawyer, '08, are three good men who will do their level best in training without being forced to it by competition.

The quarter mile is probably at present the fastest event in the Maine Intercollegiate meet and in Wyman, '07, and St. Onge, '07, we have two who can be relied upon to finish among the first, while Hews, '06, Hamlin, '06, Knowlton, '07, and Draper, '08, can do a quarter in good time.

Of the men who ran the half mile last year, Crowe, '05, Henry Bearce, '06, and Colby, '06, are left and will have to work against Livherness, '07, Miner, '05, and Black, '08.

Thomas, '05, will try to lower his last year's record in the mile; Crowell, '06, and Schoppe, '07, will also try for places, and from the string of freshmen, Black, Cobb, Gannett and Preble, some point winners may develop.

For the two mile only four men are in training at present, Brown, '05, Abbott, '06, Stevens, '07, and Witherell, '08. This is a hard, heart-breaking race, but the college record is extremely low and there is a good chance for an "M" for someone, a fact which should call out several more candidates.

Capt. Shaw will, of course, easily take the lead in the high jump and pole vault, with Goodwin, '06, in the jump and Rogers, '06, in the vault as close seconds. Meserve, '08, has been doing excellent work in the jump and bids fair to make high marks before he graduates. R. J. Smith and Hopkins will represent the freshmen in the pole vault and with a little more training and experience should give a good account of themselves.

Thatcher, '05, Currier, '06, and McClure, '05, should easily capture a majority of the points in the hurdles, while Clayton, '07, and Matheas, '07, may be considered as strong possibilities.

The weight men will be about the same this year as last with the exception perhaps of Smith, a freshman, who, for a green man, is making a very fair showing in the shot put. Wood, '05, Bearce, '05, Weymouth, '06, Bennett, '06, and Reed, '06, are so evenly matched in the weight events that it is impossible to pick anyone as a winner at this stage of the game.

Several members of last year's team have not as yet showed up for practice and the delegation from the freshman class is small. This should not be; we have lots of work cut out for us this spring. The pace will be a hot one and if we are to stay for the finish everyone must begin now to lay in his stock of good form and endurance.

BASKETBALL

MAINE 19, COLBY 9

Maine clinched the college championship of the state by defeating Colby to the tune of 19-9 in a game which lacked excitement and interest for the spectators. Colby seemed unable to put up any semblance of a fast game while at no time did the situation call for fast work on the part of the Maine teams. The features of the game were a phenomenal goal by Huntington and the tumbling contest of St. Onge and McVane in which "Spider" easily held his own with the strong Colby half-back. Huntington, St. Onge and Owen scored 12 points for Maine in the first-half, Colby getting but four.

The second half was dull and uninteresting, Colby getting the most of her points in fouls. The game ended with the score 19-9 in Maine's favor.

The summary:

MAINE		COLBY	
Huntington,1 f	Willey
St. Onge,r f	Peterson
Matheas,c	Thompson
Owen,r b	McVane
Stuart,1 b	DeWitt

Score—19, Colby 9. Goals from field—Huntington 2, St. Onge 2, Owen 2, Stuart 1, Willey 2. Goals from fouls—Maine 2, Colby 5. Fouls called on Maine 6, on Colby 3. Referees—Blivers and Rogan of Bangor. Time—two 20-min. periods.

MAINE 21; NEWHAMPSHIRE 3.

The game with New Hampshire, on March 4, was far more interesting than the score indicates. The New Hampshire players were evidently lost on our floor, but they played a fast, aggressive game, following and worrying their opponents continually and doing some fine passing. From the number of fouls called on them it was quite plain that the New Hampshire men were accustomed to more lenient refereeing, as at no time did they show a disposition to play anything but a clean, fair game. Maine made very little out of these fouls, as neither Huntington or Matheas could seem to find the basket from the foul line.

In team work the Maine team showed great improvement and had it not been for their hard work and clever dodging they would have been completely worn out by the rushing tactics of their heavier opponents.

Matheas commenced the scoring for Maine, with a goal from the floor during the first minute of play, and followed it up with one on Fuller's foul. St. Onge added two more points by a pretty one from under the basket; Huntington scored from a foul on Flint, and after considerable "scrappy" work in the middle of the floor, Owen found an opening which netted another goal.

New Hampshire got one point in this half on Stewart's interference with one of her men as he was trying for a basket, and the game ended with the score—Maine, 9; N. H., 1.

The play in the second half was even faster and more exciting than in the first, and several times the New Hampshire men fought their way clear for an easy try at the basket, only to fail in their shots.

St. Onge threw an apparently impossible goal from a point well back under the basket, but it did not count, as he was outside.

Hardy threw two goals from the foul line in

this half, and Maine added twelve points, making the final score—Maine, 21; N. H., 3.

The summary :

MAINE	N. H.
Huntington, r f	1 b, Flint
St. Onge, l f	r b, Weeks
Matheas, c	Hardy
Owen, r b	1 f, Johnson
Stewart, l b	r f, Fuller

Goals from floor—Owen 4, St. Onge 3, Huntington 1, Matheas 1. Goals from foul-line—Matheas 1, Huntington 2, Hardy 2. Fouls—on Maine 5, on N. H., 13—Referee—Don Snow, Bangor. Time—two 20-min. periods.

THE NEW HAMPSHIRE TRIP

The last basketball trip of the season resulted in one victory and two defeats, a victory from Thornton Academy and defeats from Gardiner and N. H. State.

The Thornton game was a fairly close and exciting one in which Maine won by a score of 25-17.

At Gardiner the home team had the advantage of familiarity with the small hall and won easily by a score of 13-4. New Hampshire merely got even with us—they were lost on our large floor and we could not find room to turn around on their's and their heavy team simply ran over ours in a "rough-house" game which ended with the score N. H. 28, Maine 10.

SECOND TEAM GAMES

CRESCENTS 7-MAINE 2nd, 6

The Bangor Y. M. C. A., Crescents defeated the Maine 2nd. team at Orono on March 1, in a game which was amusing to watch, being more of a rough house than a basketball game.

The line-up :

MAINE 2nd	CRESCENTS
Chase, r f	1 b, Smith
Emery, l f	r b, Hardy
Talbot, c	c, Talbot
Schoppe, r b	1 f, Withee
Penney l b	r f, Comins

MAINE 2nd, 23-O. H. S. 13

Maine 2nd, defeated Orono High school on the night of the Colby game in a game which was fast and furious at times. The Orono boys put up a game scrap but their opponents out-passed them and were more sure of their tries for goals. Sutton played a fast game for Orono, while Burke excelled for Maine.

The line-up :

MAINE 2ND	ORONO
Black, l b	r f, Hammond
Schoppr, r b	1 f, Stevens
Lancaster, (Currier) c	Clifford
Chase, r f	1 b, Finns
Burke, l f	r b, Suttons

LAW SCHOOL NOTES

'99

Frank D. Fenderson, Portland, is with the legal department of the New England Telephone and Telegraph Company, and has in consequence given up his office at Limerick.

Lawrence V. McGill, Rochester, N. H., since his appointment to the bench recently reported by us, has been very busy, but not too busy to maintain his connection with the Law School and its friends by correspondence.

'00

Claude D. Geaton has been appointed city clerk in Burlington, Vermont, and is doing very well.

E. E. Hobson, of Palmer, Mass., is steadily gaining ground in Hampden county and is establishing himself strongly in the profession.

Edward Hutchings, Appleton Building, Boston, is the successful representative of the Accident and Liability Department of the Aetna Life Insurance Company of Hartford, Conn.

John D. Mackay, Quincy, Mass., has recently married, and is doing an ever increasing law business in that town and in Boston.

Senator Howard Pierce, Fort Kent, represents Aroostook county in the legislature at Augusta, and takes an active part both in the committee work and in the deliberations of that body. He is on the committees for Legal Affairs, Claims, Public Buildings and Grounds, and Salaries.

William H. Waterhouse, Oldtown, has been unanimously nominated by the Democratic caucus as their candidate for mayor of the city, and his chances of election are excellent.

'01

Ernest C. Butler, Skowhegan, is doing very well in the profession and acquiring a fine reputation for efficiency as a lawyer.

'02

Varney A. Putnam, Danforth, is in Augusta, representing his fellow-citizens in the legislature where he is doing excellent work on the important Committee for Interior Waters.

Frank P. Wilson, Belfast, contemplates opening an office in New York City some time during this month or April.

'03

Ernest E. Noble has removed from Blaine and Mars Hill to practice law in Portland where he has opened an office.

Waldo H. Bennett, Newport; William W. Buckley, Southbridge, Mass.; Edward P. Murray, Bangor; Paul Potter, Worcester, Mass.; Charles H. Reid, Bangor; Geo. W. Thombs, Lincoln; and Geo. H. Winn, Lewiston, have settled in these respective towns, hung out their shingles, and are succeeding well.

'04

Alfred A. Lang, of Vicques, Porto Rico, has passed the Massachusetts bar examination with great credit and intends to open a law office in Boston. The best wishes of the whole Law School go with him, for he has won, while in the school and in Bangor, the friendship of many and the respect of all.

Judson E. Sipprelle, Bangor, has gone to Colorado with the intention of opening a law office somewhere in the west, probably in Oregon or Washington.

'06

Percy A. Hasty, Brooks, is rapidly recovering from the effects of a recent operation for appendicitis, and is receiving the congratulations of his friends.

Joseph A. Laliberte, Fort Kent, is at Augusta in attendance at the legislature as a member of the House. He takes an active part in its proceedings and is, among others, on the Committee for State Lands and State Roads.

MOOT - COURT LIST

University of Maine School of Law, Spring Term, 1905

April 3.—No. 27. Price v. Fourth National Bank of Bangor. Before J. H. Doyle, Justice.

For plaintiff, F. S. Head. For defendant, M. H. Harris. Opinions then due are to be read on this day.

April 10.—No. 29. Pote v. Deland. Before N. V. MacLean, Justice. For plaintiff, H. N. Gardner. For defendant, J. A. Laliberte.

April 17.—No. 32. Prim v. Dane. Before L. S. Record, Justice. For plaintiff, W. M. Warren. For defendant, W. A. Johnson.

April 24.—No. 33. Philbrook v. Delano. Before O. L. Keyes, Justice. For plaintiff, A. H. Bridges. For defendant, R. W. Brown.

May 1.—No. 22. Elton v. Grand National Railroad Company. Before C. C. Robinson, Justice. For plaintiff, D. J. Linehan. For defendant, C. T. Smalley.

N. B.—All opinions not rendered on or before May 1st, must be handed in on or before May 20th. This is also the day on or before which seniors will have to submit their theses, completion of which is a requirement for graduation.
