Jonsie's Room Always Looks Neat!

THERE'S no collars or cuffs laying about on the table,—no neckties thrown over the backs of the chairs, and in his semi-negligee attire his shirt bosom shows the effect of the protection it has had since leaving the laundry. Jonsie has a chiffoniere in his room,—not a high-priced one, but a medium quality one that stood him \$10.00. It has a good-sized bevel glass, roomy drawers,—four of them,—a cabinet that can be used to keep the dress hat or the college caps in, and possesses features that makes it an attractive article as well as a useful one. We have more of them, and there is no reason why all college boys should not possess a chiffoniere. We also have them without glass,—but cheaper,—and then we have those ranging in price up to \$30.00. Better do a little chiffoniere thinking, and come down and see them in reality when you get ready.

CHANGES IN THE FACULTY.

The opening of the new college year finds the faculty changed, enlarged, and improved in many ways. Among the new members are representatives from the most prominent universities in the world, and many of them have had successful careers in their professions both in teaching and in actual work.

The professorship of Latin, left vacant by the departure of Prof. Karl P. Harrington to take the chair of Latin in Wesleyan University, which his father has occupied for more than 30 years, will be filled by George Davis Chase, a graduate of Harvard in the class of 1889. Prof. Chase during the five years immediately after graduation was instructor in Latin in the Taunton, Mass., High school. He received the degree of Master of Arts from Harvard in 1895, and that of Doctor of Philosophy in 1897. During the year 1897-98 Prof. Chase studied at the University of Leipzig, and in 1898-99 he taught Latin in Lawrenceville Academy. He declined the professorship of ancient languages in the University of Idaho to become acting professor of comparative philology in Cornell University. Since 1900 he has been associate professor of Latin in Wesleyan University. Prof. Chase has edited an edition of Nepos and has contributed to Harvard Classical Studies, and to the proceedings of the American Philological Association and the American Dialectic Society.

To fill the position of professor of Forestry, which Prof. Spring has resigned to return to the United States Forest Service, Gordon Edwin Tower, B. S., Michigan, 1901, has been elected. Prof. Tower for three years was a member of the U. S. Forest Service, and in 1905 after a year's work in the Yale Forest School, received the degree of Master of Forestry. During the summer he has acted as assistant to Prof. Graves

at the summer session of the Yale Forest School held at Milford, Pa.

During the year's absence of Dr. O. F. Lewis, the professorship of German will be occupied by Max Carl Guenther Leutz, a native of the Province of Brandenburg, Prussia, and a student in the past at the Universities of Munich, Berlin, Furich, and Geneva. On coming to America Prof. Leutz taught modern languages at the Dallas, Texas, High school, and afterward at Oakeliffe College and the Patterson N. J. Military Institute. For several years he has been engaged in editing books for the large textbook concerns of The American Book Company, Silver, Burdett & Co., Allyn & Bacon, and Ginn & Co.

Walter K. Ganoug has been promoted to acting professor of electrical engineering, and his old position as instructor will be filled by Harold Doby Carpenter, Princeton, B. A., 1895, M. A., 1896. For the three years following his graduation Mr. Carpenter was an instructor in applied science in various Western colleges, and since that time has taken advanced work in Vanderbilt University and the University of Chicago. He has had practical experience as an engineer with the Stanley Electric Co., at Pittsfield, Mass.

The increase in the number of students in the agricultural department has been provided for by the appointment of Arthur Witter Gilbert to the new instructorship in agriculture. Mr. Gilbert holds the degree of Bachelor of Arts from the Massachusetts Agricultural College, and that of Master of Science in Agriculture from Cornell University.

Matthew Hume Bedford, who is a graduate of the B. A. course of the Central University of Kentucky in the class of '03, and who has performed the rather unusual feat of gaining the Doctor of Philosophy degree from the Univer-

sity of Pennsylvania in two years, will be an instructor in chemistry.

The sudden resignation of Mr. L. E. Woodman has left vacant the position of instructor in physics, and this vacancy will be filled in the near future by William Ross Ham, B. A., Babes 1901, who since his graduation has been instructor in physics in a St. Louis High school, and who has had two years of Harvard summer school work.

Miss Bessie G. Leeds, University of Minnesota, 1905, becomes general assistant at the Experiment Station and Mr. L. T. Ernst, Bussey Institute 1906, becomes assistant in horticulture.

Walter Everett Prince, Ph. B., 1904 and M. A., 1905, Brown University, has taken Mr. Edson's place in the english department. Mr. Prince while in college was one of the most prominent of the debaters who represented Brown against the other universities.

Ira M. Bearce, University of Maine, 1904, takes the position vacated by Mr. Bowen in the physics department. Mr. Bowen becomes assistant in physics in the Carnegie Institute.

John Byron Reed has resigned to accept a position as instructor in chemistry in the Lowell Textile School, Lowell, Mass.

The graduating class of the University of Maine furnishes the faculty two new members — Miss Florence Balentine becomes assistant in Biology, and Ralph E. Seabury becomes assistant in chemistry.

Arthur Crawford Jewett has been promoted from instructor to associate professor in Mechanical engineering.

Thomas McGuinn, B. A., University of Washington, 1899, M. A., 1900, B. S., Massachusetts Institute of Technology, 1905, who has had much experience in engineering, takes the position of instructor in mechanical engineering left vacant by the promotion of Mr. Jewett.

Mr. Harry A. Sawyer has resigned from the chemical department to accept a position in the Lawrence, Massachusetts, city government employ.

Tom Barry, a former Brown man, will coach Bowdoin in football this season.

THROUGH THE SUMMER.

Last summer was one of the busiest in the annals of the University of Maine. Scarcely was Commencement Week over before junior field work began.

Members of the junior class who were taking civil engineering, together with a few sophomores and one or two foresters remained after Commencement and put in a hundred hours of field work. A base line was measured and triangulation work was taken up, besides the various other problems which fall to the lot of the embryo civil engineer. Several small dances were held at one of the fraternity houses and the life was full of recreation and healthy outdoor work.

With the close of junior field work came the Summer Term. The attendance was larger than had been anticipated by even the most sanguine, sixty-one students were registered in the various courses, almost double the number of the previous year. The number included teachers, principals, college students, and preparatory men and made up altogether a jolly bunch of enthusiastic workers.

While the mornings were well taken up with work and study, plenty of time was found for recreation of the pleasantest sort and the time passed rapidly. Dancing, canoeing, and driving parties were numerous. A series of very interesting vesper services was held with addresses by prominent men. These were supplemented by a course of lectures by the best speakers obtainable.

The courses of study were taken up in an interesting and instructive manner and were well attended. The various French courses given by Prof. Raiche were popular, almost every student electing from them.

Those registered at the Summer Term were:

Rena Bell Albee, Wiscasset.
 Caroline F. Allen, Bangor.
 Julia M. Annis, Camden.
 Edwin F. Bearce, Auburn.
 Richard Bolt, St. John, N. B.
 Ernest Bolt, St. John, N. B.
 Kenneth E. Braden, E. Sullivan.
 A. B. Brown, Lincolnville.

Bertha W. Burnham, Old Town.
 Maude E. Capron, Pawtucket, R. I.
 Irvin W. Chaney, Brunswick.
 Margaret M. Corrigan, Norton Heights, Conn.
 Joanna C. Colcord, Searsport.
 Ralph Craft, Lincoln.
 W. R. Dolbier, Salem.
 Carl B. Estabrooke, Orono.
 Marion C. Estabrooke, Orono.
 Dorothy R. B. Fellows, Orono.
 Chas. W. Floyd, Wytotitlock.
 Anna G. Foley, Worcester, Mass.
 Abbie M. Fowler, Sangerville.
 Joe W. Gerrity, Bangor.
 Edith M. Grant, Bangor.
 C. M. Hamlin, Orono.
 Earle W. Hall, No. Anson.
 Laura D. Hagerty, Buffalo, N. Y.
 Mary C. Henry, Worcester, Mass.
 Marion G. Kelleher, Orono.
 Mattie G. Knight, Deer Isle.
 Mary W. Knight, Deer Isle.
 Harold McMahon, Brewer.
 Chas. H. Martin, Fort Fairfield.
 Clayton W. Mayers, Dresden.
 Frank W. Moody, Hallowell.
 Sherman R. Paine, Eastport.
 Fred Carleton Mitchell, Camden.
 Ellen H. Peabody, Machias.
 Clinton A. Plumley, Lincoln.
 Marie C. Rice, Bangor.
 Harold D. Ross, Showhegan.
 Thomas A. Saunders, Sangerville.
 Hannah B. Sargent, Alton.
 Jessie Sargent, Alton.
 Fred J. Simmons.
 Thomas F. Shatney, Orono.
 E. H. Smith, Ashville, N. C.
 Nathan R. Smith, Orono.
 Albert W. Stevens, Belfast.
 Helen F. Stevens.
 Robert K. Stewart, Skowhegan.
 Hawell Thompson, Harvey, Ill.
 Blanche E. Thompson, Santa Anna, Cal.
 Ernest L. Toner, Auburn.
 Chas. S. Wadsworth, Canton Point.
 Amy E. Ware, Bangor.
 Clifton E. Wass, Sangerville.
 Charles Whitney, Dresden Mills.
 Mary Wright, Wiscasset.
 Frank F. Wood, Old Town.

David R. Porter, Bowdoin ex-'06, and Oxford University, has been on the campus during the past week, in the interests of the Y. M. C. A. work.

STANDING COMMITTEES.

At a meeting of the faculty held recently the following standing committees were appointed for the ensuing year. We publish the list in hopes that it may prove a means of reference for those desiring it.

Admission to Examinations:—Professors Fernald, Ganouge and Weston.

Fitting Schools:—Professors Estabrooke, Fernald, Chase, Hart, Huddilston, Stevens, Thompson.

Athletics:—Professors Hurd and Boardman and Mr. Grover.

Catalogue:—Professors Stevens, Hurd and Jewett.

Course of Study:—Professors Drew, Hart and Stevens.

Delinquent Students:—Professors Boardman, Munson, and Thompson, and Mr. Buck and Davis.

Graduate Degrees:—Professors Fernald, Estabrooke, Chase, Weston and Colvin.

Health:—Professors Rogers, Jackman, Russell, Colvin, and Capt. Symmonds.

Honors:—Professors Stevens, Huddilston, Munson, Drew, and Leutz.

Library:—Professors Jones, Estabrooke, Colvin, Jackman.

Military:—Capt. Symmonds and Professors Woods and Jewett.

Musical Organizations:—Professors Jones, Hurd and Tower.

Rules:—Professors Woods, Stevens, and Munson.

Student Advisers:—For freshmen; Prof. Hart. All others, the head of the department in which major subject is taken.

Admission to College:—Professors Fellows, Hart, Stevens, Aubert, Drew, Estabrooke, Chase, Huddilston, Segall, and Colvin.

Bulletins:—Professors Jones, Merrill, and Thompson.

Press:—Professors Jones, Thompson and Mr. Morley.

Class Roll:—Mr. Willard and Mr. Hamlin.

Exercises Commencement Week:—Prof. Weston.

Invitations: — Prof. Merrill.
 Convocation: — Prof. Stevens.
 Dinner: — Prof. Woods.
 Transportation: — Prof. Gowell.
 Decorations: — Prof. Munson and Mr. Cummings.
 Diplomas: — Prof. Aubert and Huddilston.
 Printing: — Prof. Jones.
 Entrance Examinations: — Prof. Stevens.
 Lectures: — Professors Drew, Segall and Chase.
 Time Schedules: — Mrs. Balentine and Prof. Weston.
 Tuition Loans: — Professors Fellows, Fernald and Rogers.
 Freshman Registration: — Professor Hart.
 Council: — Professors Fellows, Hart, Stevens and Boardman.
 Use of Gymnasium: — Professors Jones, Hart, and Munson.
 Approved Tutors: — Dean Hart and Mrs. Balentine.
 Summer School: — Dean Stevens.
 Speakers for Sophomore and Junior Exhibitions: — The English departments with Dean Stevens.
 Registration: — Deans Hart and Stevens, and Professor Thompson.
 Debates: — Professors Estabrooke and Rogers.
 Bachelor's Degrees: — Dean Stevens with Professors Colvin and Weston.

FIRST CHAPEL.

The first chapel exercises of the year were held Thursday, Sept. 21.

Following the custom inaugurated last year the exercises were arranged especially for the benefit of the freshmen, and in short talks appropriate to the occasion the various organizations of the University were explained by men prominent in each.

President Fellows in a short and pithy address gave the new men a cordial welcome and a few suggestions of a general nature. He was followed by Dean Hart who outlined more in

detail the work for the year. The remaining speakers were from the student body as follows:

F. A. Banks, president of the athletic association, spoke on the athletic outlook and especially on the football situation. He urged the freshmen to turn out for football practice and to get into the athletic life surrounding them.

G. H. Hill, treasurer of the combined musical clubs, spoke of the musical work and of the opening for freshmen along this line.

A. J. Butterworth, editor-in-chief of THE CAMPUS, outlined the plans for the paper for the coming year and suggested that any new students who could write would find ample opportunity in this work, or as University correspondents for the newspapers.

R. S. Sherman, ex-president of the Y. M. C. A., explained the prospects and plans of the Association and urged a large attendance from the freshman class.

AT LAW SCHOOL

ENTRANCE REQUIREMENTS

An important step in connection with the requirements for entrance to the School of Law is soon to be taken by the faculty. On and after Sept. 9, 1907, admission to the law school without preliminary entrance examination will be possible only to men who can show a diploma from a High school having a four year course. Diplomas from schools with a three year course will no longer entitle a man to admission to the law school without preliminary examination. A man may, however, be admitted without examination provided he has gone through a course of preparation that would be accepted for admission to the state university or to any of the principal colleges of the state. This step is one taken in accordance with more than forty other law schools throughout the country.

Registration at the University of Maine School of Law for the year 1905-6, will begin Wednesday, Oct. 4. Dean W. E. Walz has been at the school for some time preparing for the coming of the students to resume their studies and everything will be ready for them to

Law,

begin work as soon as registration is finished. A few of the students are already in town and others are arriving every day. It is, of course, too early to make any predictions as to the size of the entering class, but it is expected that it will be about as large as usual with perhaps a slight increase.

Last fall, there were 19 students in the entering class and a total enrollment of 81 students during the year. A few figures of the years preceding will show the manner in which the attendance at the school has increased. In 1901 there were 42 students enrolled, in 1902 there were 61, the next year saw an increase of 10, and other increase in 1904 brought the number up to 81.

The school graduated 18 students last year. Nearly all of these graduates are now engaged in practice. Leon G. C. Brown is practicing in Milo; A. S. Crawford of Old Town, practicing in Millinocket; Waldo T. Davis, a Dartmouth graduate, practicing in Worcester, Mass.; W. A. Johnson, practicing in Milo; D. J. Linnehan, has opened a law office in Haverhill, Mass.; N. B. McLean is practicing in Bangor; Erastus L. Wall, a graduate of Bates, is practicing in Easton; Joseph T. Winslow has opened a law office at his home in New Bedford.

LECTURES THIS YEAR.

As has been the case at the School of Law in other years, so also this year there will be a course of lectures by capable speakers on interesting subjects. These lectures are a feature of the work at the school and are highly instructive to the students and many young local attorneys who take advantage of them.

Hugo Clark, Esq., will lecture on Equity Pleading and Practice, a very thorough course which is given every other year and is greatly appreciated by the students. Gen. Charles Hamlin will lecture on Bankruptcy and Federal Proceedings some time during the year. This is an interesting course of 20 lectures of great practical value and a great favorite with the students.

Mr. Justice Emery of the Maine Supreme court, who lectures on Roman Law and Probate Law, will make a new departure this year and

will give a series of lectures on "What To Do in Court," or some equivalent topic. The students well remember the lectures on this subject which Justice Emery gave two years ago and will hail with delight his decision to expand them into a running course. This new departure on the part of Justice Emery is greatly appreciated by the faculty of the Law School and University.

At the meeting of the American Bar association at Narragansett Pier, R. I., this summer, Justice Emery gave a brief but most effective address on the teaching done at "a little law school up in Maine," and his words were listened to with marked attention by delegates from every state in the union. Maine was fortunate in being represented at this meeting by Justice Emery, Hon. Charles F. Libby of Portland and Dean Walz of the U. of M. School of Law.

Chief Justice Wiswell of the Supreme court, who was unable to give his lectures on Evidence last spring, owing to his departure for Europe, is likely to give them some time during the winter or spring term. The lectures of the chief justice are heartily welcomed by the students and are eagerly looked forward to. Hon. L. C. Southard of Boston will deliver several lectures on Medico-Legal Relations during the spring term.

RESOLUTIONS

William W. Kendrick, Rho Rho Chapter of Sigma Chi Fraternity, ex-1905, died September 26, 1905, and the following resolutions were adopted by Rho Rho Chapter:

WHEREAS, It has pleased Almighty God to remove from us our beloved brother, William W. Kendrick, and

WHEREAS, We, his brothers in Rho Rho Chapter of the Sigma Chi Fraternity desire to express our deepest regret and grief in the loss of our brother, be it

Resolved, That we extend to the family of our deceased brother our heartfelt sympathy in their sad bereavement; and be it further

Resolved, That in respect to his memory we drape our badges for the next thirty days; and lastly be it

Resolved, That a copy of these resolutions be sent to our fraternity publications, and be entered in our chapter history.

Entered at the Post Office at Orono, Me., as second-class matter.

EDITORIALS

Another vacation has passed with its pleasures and hard work. Its close has been the occasion for the reunion of many old friends, the addition to our list of many new ones, and for some, has been the occasion of making an entirely new circle of acquaintances. **The New Year.** THE CAMPUS extends to the faculty and to both new and old students a most cordial greeting. We are confident that we retain the good wishes of all our old friends, but we hope that we may have also in every new student a hearty supporter.

But as we look around we find that things are

not as they were when last we met. Changes have been made in various ways to which we must become accustomed. We miss many faces among the students which have been familiar to us in times past. Some have finished their college days and have scattered far apart. Others of our close friends and our own classmates, perhaps, have not returned. We miss them all and wish that they were here, but their places have been taken by new students for whom we have in our hearts all the more room for friendship and sympathy. Not only among the student ranks do we see these changes, but the faculty has undergone a greater change. Nearly one-half the faculty now has been replaced by others new to us. Though we are loath to part with all of them, we feel that their places have been ably filled, and we start our new year with the fullest of confidence and brightest anticipations.

Fellow students, let us make this the best year which the University of Maine has ever had. The greatness or littleness of any institution is determined by the calibre of the men and women which it sends out as graduates. What we will be when we leave this institution is determined by what we are making of ourselves day by day—we will be no more, no less. The character which we are making now is the character for which we will be remembered and by which we will be known later. Emerson says, "Character is of a stellar and undiminishable greatness," by which we understand that he means good and noble character. Livy says, "An injury to character is so great that it can not possibly be estimated." If these estimates of the value of character be true, it is certainly worth our while to cultivate within ourselves a character and high moral purpose that shall be to all the expression of some definite, living, enduring principle. By so doing we may all aid

in establishing high moral standards, and in creating a healthful and helpful atmosphere for the University. We cannot afford to smile at, or turn our backs on things which we know ought not to exist in our midst; but when an evil appears, it should be discountenanced and eradicated.

The only way that many such evils can be eradicated is by raising public sentiment to such a plane that it will not tolerate them. We are each and all exerting an influence; let us use our influence for the common good of the University and students.

The matter of fall track work is one which we, as students, ought to consider carefully and assist in every manner possible. An attempt was made to establish a fall system of training last year, but it served but little more than to break the ice for some real solid, valuable work this fall, and in the years to come. We are behind our rivals, and indeed, many smaller colleges if we do not take this up, and certainly the results obtained with the track men are well worth the effort.

We have a coach in Steve Farrell, who will develop all there is in a man, if only given a chance. But where the new men and the old alike wait until the rush of spring athletics is on, there is little opportunity for a coach to give a great deal of attention to the men who are new and undeveloped. Neither can they expect to receive the personal attention which, if received in the fall when the long winter was before them, might be the means of developing points in them hidden from the eye of any but an experienced coach, that would make them valuable and necessary point winners, even during their first year.

Track work, more than any other branch of athletics, is the result of long, conscientious training in a certain branch of physical exertion. If, then, we are to succeed in track work, we must begin our training in earnest. That means, start in the fall and work out your line of work all winter under Coach Farrell. In the spring you will not only have the accompanying fine physique and robust health, but you will be developed enough so that you will be a valuable man at the start.

The work should not be left to those who have already starred in track work, but the new men and old ones who are undeveloped ought to throw themselves into it and work out into a sphere of usefulness. It's track men we want and that's the way to get them. The best quarter miler Maine has ever claimed never had a track suit on until the year he broke the college record. There is a chance for you, and you are needed.

The weekly CAMPUS has at last become a reality and the editors can announce with pleasure that the new departure will be effected at once. The next issue of the paper will be the opening number of the change which is to be experimented. As the details of the change have not been fully settled, a discussion will be left for the next issue, but the main difficulties have been overcome and it now remains for the students to support us in our undertaking.

"The largest entering class in the history of the institution," is quite a common expression just now.

At Colby the Sophomore co-eds have abolished hazing among the women students.

While the total registration figures of the University are not available at present the registration blanks for first year men are available and the data below may prove of interest. The results show a very satisfactory reaction after the depression in numbers caused by the increased entrance requirements adopted last year. The results this year plainly indicate that the setback was only a temporary one and that Maine may reasonably expect a steadily growing entering class, composed of students much better prepared for college work than was possible under the old requirements.

The statistics show that we have twelve men entering from other states than Maine. Nine from Massachusetts, two from New Hampshire, and one, a special, enters from Matanzas, Cuba.

This year the electrical course has been the most popular and has 35 new men. Civil course comes second with 29 freshmen.

There are 12 in mechanical engineering course, 11 in engineering, nine in classical, six in chemical, four in pharmacy, two in agriculture, two in forestry and nine in other departments, making a total of 119 regular freshmen.

THE Y. M. C. A. RECEPTION.

A large number of the entering class availed themselves of opportunity of becoming acquainted with many of the faculty and upper classmen, which was afforded by the reception extended by the Young Men's Christian Association to the members of the freshman class. Many also took advantage of the occasion to meet the receiving committee composed of President Caleb Johnson of the Association, President and Mrs. George E. Fellows, and Professor and Mrs. Merritt C. Fernald.

As the guests entered the chapel Mr. Sherman 1906 and Mr. Chase 1908 pinned a neat tag to each one bearing the name and class of the wearer and every one entered into the pleasant occupation of making the acquaintance of the others. The refreshment table in one corner presided over by the Misses Chase, 1908, was the nucleus of another interested group.

About nine o'clock President Johnson extended an invitation to the new men to attend the "decision" meeting on Sunday and to support the work of the Association in general. The next speaker was Professor Fernald who emphasized the need of developing the moral side of one's nature along with his other development in college. Dr. Fellows spoke more at

length concerning the value of character illustrating his discourse with instances from the lives of the great public men of today. After the speeches the company gathered around the piano where L. R. Lord officiated and whiled away an enjoyable hour in singing the familiar college songs.

ALUMNI NEWS

1905

From the information we have available we have collected the following regarding our 1905 Alumni:

E. O. Sweetser is instructor in Civil Engineering at Washington University.

L. A. Thomas is draftsman for the New York Central and Hudson River Railroad, New York City.
