R. C. WHITAKER, Treasurer.

Superintendent's Report

To the Superintending School Committee and Citizens of Unity:

It is with pleasure and a degree of pride that I submit to you, this my first annual report of your schools.

The Saturday before schools opened, I held an all day Teachers' Meeting at the high school room, for the purpose of giving some special instructions, outlining school work and discussing school problems. Your teachers were all present except one. If I am to remain with you, as your superintendent, these meetings will precede the opening of each school year.

I want your children to get the most out of school and school life that is possible. Children often fail to understand the true purpose for which schools were instituted, and not children alone, even parents and too often teachers fail to have their pupils realize that they are preparing for life's work. We should make clear to children certain objectives to which I called the attention of our teachers.

1. Character development.
2. Command of the fundamental processes
3. Health and physical efficiency.
4. Good citizenship.
5. Training for home life.
6. Worthy use of leisure.
7. Vocational efficiency.
8. General mental efficiency.

I have observed in visiting your schools that these objectives have been carefully handled in most cases and that a correct school spirit is plainly manifested by both pupil and teacher. The work done by your teachers and pupils is to me very commendable.

We have always heard it remarked that our students enter high school with a very poor preparation in English. This being true, I have given the subject special attention and have sought out places where they were getting correct results in this subject. I have come to the conclusion that we must give more attention to reading, correct usage of language and a special period for oral and written composition.

We are giving special attention to the above mentioned subject, and are using an outline similar to that gotten up by Supt. Sheridan, Lawrence, Mass. Each teacher is using his book as a guide. I am convinced from the good work our teachers have done that we are on the right road and that we shall send out pupils better prepared for high school work. Right here I want to express my appreciation for the good grace with which our teachers have taken hold of this work. It has been an added burden, because they have not had the proper material with which to work.

BOOKS

Your schools are very well supplied with text-books and all except the grammars are in good condition. Next year your committee will adopt a new text, which is gotten up similar to the outline we are now following.

We started the first grade in the Beacon primer and will follow through with this series.

REPAIRS

The septic tank was installed at the high school. The cost was much more than was anticipated, as quicksand was a menace in digging the trench.

This being the last year in fulfilling certain requirements, it becomes necessary to conform with the law and install toilets at the Village elementary school. Mr. Libby, the agent for rural education, has investigated and recommends the chemical toilet.

Extensive repairs must be made on the Worth school building. New families have moved into the district who have children to warrant the maintenance of a school for some time.

PROMOTION

A pupil who has been in school a year is not in line for promotion, unless he or she has completed the work of the particular grade. I do not dare promote a child who is not prepared, because it only works a hardship.

I find the scholarship throughout the town exceptionally good. One pupil received promotion at mid-year.

Combined Enrollment by Grades

Grades	1	2	3	4	5	6	7	8	Total
Boys	8	8	5	8	8	1	9	5	52
Girls	4	4	6	9	10	3	8	9	53
Total	12	12	11	17	18	4	17	14	105

H. S.

It is not necessary for me to report on the high school, as Mr. Andrews has given it in detail and Mr. Wood has

fully reported his department.

Only one vacancy occurred in your teaching force last year and that was filled by Miss Carrie V. Baker, whose good work is recognized and appreciated by all.

I am pleased to be serving a town that has a high school of such good standing, that has such a good building and equipment and, best of all, such a fine group of young men and women eager for an education.

AN INVITATION

The high school grounds are not at all in keeping with the building. They should be graded, a fixed driveway, walk and tennis court prepared.

I suggest that we have a grading bee on Arbor Day, and all are invited to come out with us on that day. The school committee will have charge of the work and planned in advance.

TESTS

I plan to give "Achievement Tests" to all grades, including the high school, early in the spring term. I would very much like to give "Intelligence Tests". If the town gives us a small appropriation it will be mostly used for test work and showing pupils just their respective ability.

	Margart Farwell	308.00
		<hr/>
		\$4212.00

All the schools have been in session 30 weeks and the teachers paid for the same.

Miscellaneous

I trust that the schools will be visited by a school nurse during the spring term.

A fine professional spirit was shown on the part of the teachers in having 100% enrollment for the M. T. A. The entire union enrolled 100% and was second to report.

The town is very fortunate in having such an efficient corps of teachers, and I know their services are appreciated.

The town is also very fortunate in having a superintendenting school committee who understand school work, and are

willing to give their time to it. They work together unbiased for the good of your schools

The schools have an organized league, and give a special school program every two weeks. They have on hand at this time approximately \$50.00 with which to purchase special apparatus.

Tuition due from Thorndike	\$140.00
Tuition due from Knox	90.00
	<hr/>
Amount due	\$230.00

General Remarks

In conclusion, I solicit your co-operation in school work. We must have a desire to see the good, and to show the spirit of helpfulness and appreciation which is so effective in bringing out the best.

I want every citizen to know me as a man ready to listen to your special needs, one who knows the burden of taxation, the value of money and of education.

To the citizens with whom I have come in contact, I thank you for your cordiality and words of commendation; to the student body for your conduct and application to work, you have won my esteem; to the teachers, I express my appreciation, for your loyalty and devotion to duty; and to you, members of the committee, my hearty thanks for your co-operation and support in school administration.

Respectfully submitted,

GEO. M. D. GRANT, Supt.

Report of the High School Principal

To the officers and citizens of the town of Unity the following report of the high school is respectfully submitted:

The figures compiled during registration at the beginning of the fall term showed a total of sixty-two students enrolled. Fifty-four of these are now listed on the records and are classified as follows:

By Classes

	Boys	Girls	Totals
Senior	6	7	13
Junior	2	4	6
Sophomore	6	12	18
Freshman	8	9	17
Totals	22	32	54

By Courses

	English	College Prep.	Agriculture
Senior	7	3	3
Junior	2	2	2
Sophomore	12	1	5

Freshman	6	6	5
Totals	27	12	15

Of the students who have dropped out, two attended less than a week, one student married, one moved out of town and one left because of illness in the family. The others were not capable of doing high school work.

The number of absences has been large throughout the year; the principal reasons being illness, bad roads and work at home.

The number of students attending from the different towns is as follows:

Unity	35
Troy	11
Thorndike	5
Knox	2
Burnham	1
Total	<hr/> 54

The curriculum is the same as last year. No changes are recommended for the coming year, except that it would be advisable to offer plane geometry in the Junior year instead of in the Sophomore year, as we find that a majority of the students now coming to us are too young to comprehend the work in their second year.

Approximately seventy-five percent of the students are making good records in scholarship. Fifty percent of the whole student body had their names on the honor roll at the end of the fall term. Among the other twenty-five percent there will be many failures of from one to three subjects, due partly to the poor preparation of some of the entering students, and partly to the indifference of some of the stu-

dents who are able to do the work and do not. I wish to state here that I attach no blame to the elementary teachers for the lack of preparation of some of the entering students. I think they have done all that anyone could do. If any blame lies at their door it is for promoting too easily. I am sure that any fair minded person will admit that when boys and girls have reached the age of sixteen years, and are still unable to read understandingly, to spell common words or to make use of the simple rules of grammar, there is not much chance of teaching them algebra, geometry or physics.

The students are showing a good spirit of loyalty and co-operation and their conduct in and around school is excellent. There is a hearty response to all school activities and the moral standard is high. A few instances of reckless conduct outside of school hours sometimes cause people to form a hasty opinion concerning the moral tone of a school. I wish to assure the parents that our students are a clean minded group of young people, and that they need have no fear of the danger of corrupting influences.

Mr. Wood and Miss Baker are meeting with success in their respective departments and are doing their full share of the work of the school. The town is extremely fortunate in securing two teachers of their caliber.

I find the parents interested in the work of the school and co-operating loyally in all our projects. I wish to thank them at this time for their interest and to congratulate them upon their splendid boys and girls.

There are a few repairs and improvements which I feel would add materially to the efficiency of the school. The most important being; the tinting of the walls throughout the building, more blackboards in all classrooms, new cur-

tains, repairs to the toilets and radiators, and the construction of walks of some sort outside of building. A few window ventilators and more book shelves or cases to contain the library would also be helpful.

This high school of ours is one of the biggest assets of the town. In order to keep it in its proper place among the schools of the state, we must keep it in repair, add annually to its equipment, insist that its standards of scholarship be kept up, and that its attendance be regular. We can then point to it with pride and number it among the leading institutions of the community.

In closing, I wish to express my appreciation of the manner in which the School Board, the Superintendent and the other town officials have worked with us during the past year, and to thank all citizens for their interest and support.

HAROLD P. ANDREWS, Principal.

Feb 18, 1926

Report of Teacher of Agriculture

To the People of Unity:

The agricultural work in the school this year has been unusually successful, especially in the outside work.

We started by sending a team of three boys to judge cattle at the Bangor Fair. We placed in seventh place among the fourteen teams there. This gave us experience and the

much needed competition contact of the other teams which helps greatly to make winning teams. When we learned of the contest to be held at the University of Maine in Orono, in the early fall, we renewed our endeavors to produce a team that would place near the top. We sent the following five boys to compete with the other Smith Hughes High Schools in this state: Clyde Dodge, Ralph Palmer, Herman Cates, Victor Hathaway and Charles Fogg. The first ten placings of each contest were used to give points. We placed as follows:

Clyde Dodge placed second in rope splicing, second in judging Jerseys, fourth in killing poultry and seventh in rope tying.

Ralph Palmer placed first in judging Holsteins and seventh in judging Jerseys.

Victor Hathaway placed second in judging potatoes.

This gave the team composed of Dodge, Palmer and Fogg first place in judging cattle; the team composed of Dodge, Cates and Hathaway second place in judging potatoes, and the combined team of five boys the sweepstakes championship of the State of Maine for school boys taking agriculture under the Smith Hughes act. We do not want to be greedy, but next year we hope to win out in potato judging also, for the potato cup alongside of the cattle and sweepstakes cup which we now have, would mean a great deal to the school. I think that contests such as these are of a great deal of benefit to the student, not only in an educational way, but since they are held at an institution of higher learning, they create a desire to attend such a school. Due to this, either directly or indirectly, there are six seniors in school now who are planning to attend college.

I wish to thank the people of Unity for the way they have supported the work and made it possible for the boys to have this chance.

Respectfully submitted,

CHARLES W. WOOD
Instructor of Agriculture.

Town Warrant

To Hale Taylor, a Constable of Unity, County of Waldo,
Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the Town of Unity, qualified by law to vote in town affairs, to meet at the Town House in said town on Monday, the 8th day of March 1926, at ten o'clock in the forenoon, to act on the following articles, viz:

- Art. 1 To choose by ballot a moderator to preside at said meeting.
- Art. 2 To choose by ballot a town clerk for the ensuing year.
- Art. 3 To choose by ballot selectmen, assessors and overseers of the poor for the ensuing year.
- Art. 4 To choose by ballot a treasurer for the ensuing year.
- Art. 5 To choose by ballot a collector of taxes for the ensuing year.
- Art. 6 To choose by ballot the necessary school committee for the ensuing year
- Art. 7 To choose by ballot one or more constables for the ensuing year.
