ORONO, MAINE, MAY 22, 1906

No. 28

MAINE WINS TRACK MEET

UNIVERSITY OF MAINE, 51 BOWDOIN, 39 BATES, 22 COLBY, 14

THE twelfth annual track meet of the four Maine Colleges was held at Lewiston, Saturday May 12, on Garcelon field under the auspices of Bates College. The weather, while not of the best, for it was very cold and disagreeable at times on the field, was better than might have been expected,

the intervals for announcements, the two bands and the rooters kept up an incessant noise during the entire afternoon.

The preliminaries were run off in the morning,

MANAGER WILLIAMS, of the Varsity track team considering that of the rest of the week, and a large crowd of people watched Maine carry off the honors from the other three colleges for the first time since four years.

With the exception of Colby, all the colleges were well represented on the field. A special train arrived at Lewiston about ten o'clock with over three hundred Maine supporters and the college band; while two hundred men with the Bowdoin band turned out from Brunswick. The Bates and Bowdoin sympathizers each occupied one-half of the grand stand, and the Maine crowd completely filled the bleachers on the right. With the exception of

CAPT. PORTER, of the Varsity Track team, Winner of the 220 and 100-yd. dashes

but nothing out of the ordinary happened, except to show for a certainty that first place in the meet would go either to Bowdoin or to Maine. Although the majority of people had expected that the meet

would be close and would be won by a small margin, yet Maine won easily from Bowdoin by a lead of 12 points. The total scores made by each of the colleges are as follows:

Maine 51, Bowdoin 39, Bates 22, and Colby 14. Maine won six firsts, Bowdoin three, Bates four and Colby one. Maine won four seconds, Bowdoin six, Bates none, and Colby three. Maine and Bowdoin divided second and third in the high jump. Maine won seven thirds, Bowdoin four, and Bates two. Together Bates and Colby took 36 points, which is a decided improvement over their showing last year.

The first event of the afternoon was the trials of the 100 yard dash. Four men qualified, Porter and Harlow of Maine, and Doherty and Hanson of Bowdoin. In the final heat Porter took first place easily,

fied two men, one of whom was Kimball, while Maine had three and Colby one. Kimball was the favorite and Bowdoin counted on his getting nothing less than first place. Kimball maintained the lead nearly three-fourths of the way around the track, and the Bowdoin men were cheering him on to victory, when St. Onge and Wyman of Maine both jumped ahead and finished in order, leaving third place for Kimball. The time was 52 2-5 sec.

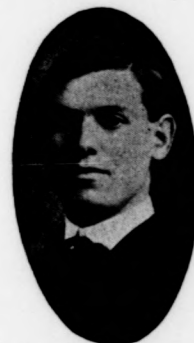

In the 120 yard hurdles, it was nip and tuck between Tobey of Bowdoin and Currier of Maine. It was won by Tobey in record time, 16 2-5 seconds, with Currier a close second. Frazer finished third and started the ball to rolling for Bates.

The next event on the program was the half-mile, which was easily taken by H. W. Bearce of Maine,

HARLOW, third in the 220-yd. hurdles with Doherty second. In the minds of all who saw the finish of the race, including many Bowdoin men, Harlow crossed the line fully two feet ahead of Hanson, but the judges evidently saw this differently, for they gave Hanson third place. Time 10 1-5 sec.

It was at this point, in the finals of the 440 yard

H. W. BEARCE, Winner of the half mile run with Blair of Bowdoin second and Phillips of Bates third. Time, 2 min. 10 1-5 sec.

The one mile race was the same old story. The two running mates, Shorey and Robinson of Bowdoin, took first and second respectively, with Potter of Maine, third. The time was 4 min. 49 2-5 sec.

Again, Porter showed his superiority in the 220 yard dash, winning it in 22 2-5 seconds, which is 2-5 of a second more than record time. Doherty of Bowdoin and Wyman of Maine fought hard for second place, and were almost together at the finish; but the judges awarded Doherty second place, giving Wyman third.

The surprise of the day came when Bosworth of Bates captured the two mile race, trimming Bowdoin's strong runners—Shorey and Robinson—and breaking the M. I. A. A. record by 5 1-10 seconds, running it in 10 min. 34 2-5 sec. The Bates man took a lead of nearly half a lap and kept ahead throughout the race, running easily and confidently. On the last lap Shorey made a desperate effort to

ST. ONGE,
They won eight points in the 440-yd. dash dash that Bowdoin's hopes of winning the meet received their first severe blow. Bowdoin had quali-

WYMAN,

gain the intervening distance, but failed and finished second with Robinson third.

In the preliminaries, Maine qualified three men out of four in the 220 yard hurdles, and being sure of two places, saved Currier for the broad jump.

CLAYTON, second in the 220-yd. hurdles

The event was won by Tobey of Bowdoin in 26 1-5 seconds. Clayton and Harlow of Maine finished in order.

The high jump was somewhat of a surprise, as it was expected that Bowdoin would take first, at least. As it was, however, Meserve of Maine easily took first, jumping 5 feet 6 3-8 inches. Higgins, who was in excellent form, tied for second with Pennell of Bowdoin.

Maine also took two places in the broad jump, Currier winning out by going 20 feet 8 inches. He

CURRIER, Winner of the broad jump

was followed by Atwood of Bowdoin, second, and St. Onge of Maine third.

In the weights, Bates and Colby seemed to have it their own way, for Bates took two firsts, Colby one first, and three seconds, while Maine was forced to be content with three third places.

The last event of the meet was the pole vault. Maine was now sure of the meet, since she had a

lead of ten points over Bowdoin; but the interest was strong, as it was known that Bates, Bowdoin and Maine all had good men entered in this event. Men kept dropping out, until Skofield of Bowdoin failed to go over and had to be satisfied with third place. It was now between Wiggin of Eates and Rogers of Maine. It was expected by the majority that Rogers would win out, as he had been vaulting over 10 ft. 6 in. When the bar reached the height

ROGERS, second in the pole vault

of 10 ft. 4 in., Wiggin cleared it in excellent form; but Rogers failed in the first attempt. In his second try he broke his pole and narrowly escaped serious injury. He was obliged to take a new pole for his third try, but being unaccustomed to it and being now somewhat nervous, he failed to clear the bar, thus giving Bates first place in the event.

The summary of points won :

	Maine	Bowdoin	Bates	Colby
Half-mile run	5	3	1	0
440-yard dash	8	1	0	0
100 yard dash	5	4	0	0
One-mile run	1	8	0	0
120-yard hurdles	3	5	1	0
220-yard hurdles	4	5	0	0
Two-mile run	0	4	5	0
220-yard dash	6	3	0	0
Pole vault	3	1	5	0
Putting the shot	1	0	0	8
Throwing hammer	1	0	5	3
Running broad jump	6	3	0	0
Running high jump	7	2	0	0
Throwing discus	1	0	5	3
Totals	51	39	22	14

After the meet was finished over three hundred of the Maine delegation paraded the streets with the college band at their head.

THE MAINE CAMPUS

EDITORIALS

Of the many interesting events of the college year, Junior Week is rapidly becoming one of the most important. Although **Junior Week** of recent date in the University of Maine, it bids fair to stay, and to become of increasing value to our college life.

It is one of those events which helps to keep strong the ties of college friendship and to make permanent the unity of a college class.

This week, the gay and jolly juniors will have the right of way. You will know them by the broad smile and the glad hand, as well as the air of importance they have necessarily assumed in the consciousness of the responsibilities which devolve upon them as college hosts.

From all over the state, many from far away,

will come mothers—the noble mothers, whom we love and whom we honor before all else—the sisters, who for long have looked forward with eager curiosity to the festivities of Junior Week; the “cousins” fair, so numerous, and yet whose absence would sadly mar our enjoyment; and here and there the quiet, thoughtful father, who drops in upon us just to let us know that he has not forgotten all about the days of long ago. We are glad he has come, and we introduce him to our college chums. We feel proud of ourselves because we can be proud of him.

And then there is the large number who come to represent the secondary schools of our state, and who hope to win distinction for themselves and honor for their school, who, incidentally, will get their first impression of college life, and wonder if they want to become the sons and daughters of our beloved Alma Mater. To all, the junior and the college bids you welcome. A welcome to our halls, a welcome to our hearts. It will be our care, our pleasure to serve you, and to make your stay of such enjoyment, that it will long abide as one of your most pleasant memories.

The *Prism* is out on time. When the report spread over the campus that the books had arrived on schedule time it seemed hardly probable. But nevertheless it is true and it is just as Manager Wilson of the *Prism* has said right along, that the 1907 *Prism* would be on hand when the curtain went up for the festivities on Junior Week.

It has been several years since the annuals have made their appearance in any kind of season. They have generally come drifting along a few days after the fellows had all gone home for the summer vacation, and the result has been that few have been

sold outside of the class and a great deal of money has been lost.

This year things have been different. The class of 1907 has shown a good deal of hustle. They elected their *Prism* board in the spring term of their sophomore year, and their choice for business manager, E. J. Wilson, and the editor, T. A. Malloy, could not have been improved upon. These men have worked early and late giving nearly all their time and thought that the 1907 *Prism* might be a success. They have won the praise of every person connected with the University. Hats off to 1907! One of the few classes in the history of the University that has got their *Prism* out on time.

It is hardly necessary to allude to the fact that there is an investigation of the legal status of the University of Maine about to be reported upon by a committee the moving and leading spirit of which is Mr. Potter of Brunswick. It is not necessary to state that the rights that the University of Maine possesses have been shown to be legal beyond the shadow of a doubt. There can be no questioning as regards the right of the state to name its University and to grant to it the privileges which it has had and the rights which it enjoys. By the progress which the University of Maine has made she has shown that she has neglected no privilege that has been given to her. She has shown by her progressive spirit and by the class of men which she graduates each year that the State University not only meets a great necessity for education, but that every right has been faithfully regarded and every opportunity improved, and by the growing number who attend the University it is most decidedly shown that not only the state of Maine but New England as well appreciates the merit and success

of our University. If the young men of Maine require that Greek, Latin, pedagogy, etc., be made possible to them at the University certainly Maine has an established right to teach these things.

By a recent vote of the student body it was unanimously expressed that Maine should continue to teach all these things. Now it is clear the legal status of Maine is established, and it is also well known throughout the State that this University, in addition to giving young men instruction in mechanics, sciences, arts and literature is not neglecting to cultivate broader education which all book learning, if it is to count for success, must be founded upon, in order that men shall make the best of their opportunities and privileges; that is a sound, moral training. We speak advisedly, and with deep conviction of its truth when we make the statement that we do not think that there is a college or university in this country where the moral tone is stronger than at the University of Maine, let the press, the pulpit, and the intelligent classes of people through the country, put their estimate upon what this means for the future true success of the men who graduate from Maine or any other school.

The legal standing of the University of Maine as we have stated is unquestionably established, and we invite the attention of the State to our moral standing as we are justly proud of the clean, manly conduct of our students in athletics, in our studies, in our every day lives; we challenge comparison along these lines and we invite investigation. Now, accepting these facts as the fair-minded people must do, why then is there so much and so persistent a discussion of the rights of the University of Maine to teach what its students require? Why should it not be called by the name which its

State has bestowed upon it? What is the motive back of all this investigation business? Who or what class of people are to profit by it? and why are a small number of men headed by Mr. Potter of Brunswick endeavoring with so much effort and time and labor to limit or curtail the rights and privileges, as well as the future possibilities of the University of Maine?

Would it not be a good idea for a committee to bring these questions to the attention of the next legislature of Maine, and to discover what broad interests that stand for the ultimate good of our state are being served by the present committee of investigation into the rights of the University of Maine?

Thus far this season all of our baseball games on the home grounds have been called at four o'clock instead of three-thirty as in **Twilight Baseball.** This action has met with a great deal of unfavorable comment not only from the students at the University but from people who come from the surrounding towns to see our games. In the first place the out of town people are unable to get home in any kind of season and then again it stretches the game too far along into the twilight hours when it is almost impossible to play good ball.

We must take the people who come to our games into consideration especially those coming the longest distances, say from Bangor and Oldtown. They pay their money and are anxious to see the entire game. But when the games are called at such a late hour it is impossible for them to do it. During the Colby game many Bangor people were obliged to leave at the end of the fifth inning in order to get home at 6.30. Those who saw the game out could not get home until 7.30.

It does not matter so much with the students as they all live near the athletic field, but it makes a

great difference to the people who come from out of town to see a baseball game and have to either go before the game is finished or arrive home late in the evening. We sincerely hope that this idea of calling games at four o'clock will be discontinued at once for it is no particular benefit to anyone concerned and to many it certainly is a nuisance.

The recent publication of a University bulletin brings to our mind a matter on which we have long been pondering. We recall **A Needed Bulletin.** that several years ago there was published one of these bulletins which contained to our mind the most convincing argument which was ever advanced to us as a reason for attending the University of Maine. The bulletin in question included among many other things a list of several of the more prominent alumni and the work that they were doing. We remember in particular the records given of some of the graduates of the course which appealed to us personally. The graduates of that course stand in the very fore front of the engineering profession in the country and are a most convincing testimony to the thoroughness and value of the preparation for engineering work offered in that course.

It is such arguments as these that appeal to the man who is selecting his college. He cares less for the great public men whom everyone hears of than for the great engineers and professional men in the particular line which he intends to pursue. The college that has prepared these men for success is the college that he wishes to attend, and unless in some way his attention can be drawn to the success of our own graduates that man is less likely to throw in his lot with us. And yet this matter has passed unnoticed during the last five or six years. During this time the monthly bulletins have continued to appear and still no permanent record of the steady rise in influence and importance of our

alumni has been issued. There can be no claim made of any lack of material in this line for we hear continually of the advancement to very high positions of very many of our alumni and the University has gained a very enviable reputation from its graduates especially in engineering and technical lines. We owe it to ourselves to fill this want in the near future.

THE N. E. I. A. A. MEET

It was decided at a recent meeting of the New England Intercollegiate A. A., that the annual meet which has formerly been held at Worcester, will be held at the Massachusetts Institute of Technology field, Brookline, under the auspices of the M. I. T. A. A. This change is due to the dissatisfaction of the members of the association with the conditions at Worcester, and the wish on their part to have the meet conducted under the auspices of a college athletic association rather than under the direction of a private individual. The meet has been held for a number of years at Worcester, because of its central location, but it was thought that Boston would offer many advantages that Worcester did not have.

The meet will be held this year on Friday and Saturday, May 18 and 19. The Friday contest, which will start at three o'clock in the afternoon, will be the trial heats in 220, 440 and 880 yard dashes, and 120 yard high hurdles and the 220 yard low hurdles. The best eight men will be picked in each event. In the field events the trials will be run off, five men being picked in each event. On Saturday afternoon the finals in these events will be held, together with the finals and the semi-finals in the 100 yard dash, and the mile and two mile runs.

The team which the University of Maine will send to Boston will consist of the following men: Porter (Capt.), St. Onge, Wyman, Rogers and Meserve. These men constitute the strongest and best team which Maine can send out, and they should do credit to themselves and their University. Some of the athletes whom our men will have to

run against are among the best athletes in the country, and many of them have high records.

The colleges who are to enter teams are Amherst, Massachusetts Tech., Trinity, Williams, Dartmouth, University of Vermont, Bowdoin and University of Maine.

SENIOR CLASS MEETING

An important meeting of the senior class was held in Room 1, Alumni Hall, on last Tuesday noon. Acting upon the report of the finance committee, the class voted to assess each member \$3.50 to cover Commencement expenses. Another matter which came up for consideration was that of the Commencement receptions by the different fraternities. It seemed to be the general opinion that several features of these receptions, as conducted in the past, have been the source of considerable needless expense, and that it was advisable to make some changes in regard to them. After considerable discussion, a committee consisting of a representative from each fraternity, was appointed which should recommend to the several fraternities that the invitations and music for the Commencement Week receptions be done away with. The class also voted to accept the invitation extended to them by Rev. Nellie M. Opdale to attend a special service in the Universalist church at Orono on the morning of June 3d.

EXCUSES GRANTED FOR JUNIOR WEEK

Tuesday, May 22

Speakers in Junior Exhibition and Ivy Day, all day.

Junior class, after chapel, all students for the afternoon.

Wednesday, May 23

Junior class for the afternoon.

Friday, May 25

Junior class, all day.

BASEBALL

COLBY 4, MAINE 2

By losing to Colby in a hard-fought game on Alumni field on Wednesday, May 16. Maine lost all hope of winning the baseball championship this season. Although the Maine team fought hard until the last man was out, Colby had the game clinched in the second inning, when she ran up her score to 4. Both "Jack" Frost and "Cy" Coombs were at their best, and it was pretty to see them fan out man after man as they stepped to the bat. The

W. O. FROST
Capt. Varsity Base Ball

honors were very evenly divided between them. Frost striking out 14 men and allowing six hits, and Coombs striking out 11 men and allowing 6 hits. Coombs received better support from his team at critical moments than did Frost. Neither side showed any marked proficiency in batting, and the base running was decidedly weak, for Colby had three men caught napping on bases. The game was lost by inability to connect with Coombs' twisters at the proper moment, and by bad support in the field. "Jack" should be complimented on the excellent game that he pitched, and there is one thing certain, if Maine cannot get the championship herself, she may be able to mix up matters for some of the other colleges before the season is over.

The game started in lively with both teams on their toes and neither side scored in the first three innings. It was not until the first of the fourth that the trouble started. Tribou got a base on balls, but would have been caught between first and second had it not been for some foolish base throwing. Dwyer fanned and then Craig stepped up and drove out a pretty single. Coombs was the next man up, and everyone looked for something to happen.

However, he lined a hot one to Chase, who froze it in a way that was good to see. With two men out things looked better for Maine, but Willey was given a pass, and then Tilton connected with a hot one, scoring Tribou and Craig. Shaw got a hit, but Reynolds struck out. When Scales came to the bat for Maine, he rolled a nice one down to Reynolds, who lined it over Willey's head. Then ensued a general mix-up, and when things were straightened out again, Scales was perched on third, amid the cheers of the whole Maine crowd. He got home when Coombs threw Quint out at first. Burns got a pass and went second, but the next two men were out and the scoring was ended.

Nothing happened again until the first of the sixth, when Craig got first and stole second. Coombs got a hit, and when Willey lined down a speedy one and Scales made a bad error which allowed Craig and Coombs to score, making the count Colby 4, Maine 1. Tilton and Shaw both got their base on errors and it seemed as if the scoring was not yet done; but "Jack" got into the harness and retired the next three men with a rapidity which made their hair stand on end.

This finished the fun until the last of the ninth, when the Maine boys came to the bat, and tried

G. E. HAYWARD
Manager Varsity Base Ball

desperately to overcome Colby's lead. Mayo was up first, and got a hit, but was forced out at second by Frost. However, Jack went to second on a passed ball, got third on Sawyer's out, and went home on a dropped throw. Scales and Quint were both out and the game was at an end with the score standing Colby 4, Maine 2.

MAINE 2d 10, B. H. S. 9

In a rather sensational exhibition of baseball, Maine 2d downed Bangor High school at Orono on Thursday afternoon, May 17, by the close call of 10 to 9. The game was by no means fast and the spectators were kept busy all the time watching the hits and errors which followed each other in rapid succession. The second team was evidently making up for the weakness in batting shown by the 'varsity thus far this season, while Bangor was not far behind when it was a question of lining out the good ones. The base running was daring, to say the least, and time after time the Maine players trotted round of the bases on account of a series of

errors made by the prep. school infield. In spite of their erratic playing the Bangor boys worked hard, and at one time in the ninth inning, it looked as if they might tie the score, having brought in three runs in as many minutes. However, the second team succeeded in stemming the tide. While the game was far removed from good baseball, the spectators were given all kinds of amusement and they showed great enthusiasm at every sensational play.

THE TENNIS TOURNAMENT

The annual tournament of the Maine Intercollegiate Lawn Tennis Association was held at Waterville on Monday and Tuesday of last week. It was ideal weather for tennis and the tournament was played off in two days, the doubles on Monday and the singles on Tuesday. Tobey and Paine of Bowdoin won in the doubles and also in the singles but did not play off the final match.

Lovett and Tabor of Maine played excellent tennis, easily beating Palmer and Stevens of Colby, last year's champions, in the preliminaries and Jordan and Austin of Bates in the semi-finals. In the final match they were defeated by Tobey and Paine. In the singles Lovett defeated Stevens of

M. R. LOVETT, Captain tennis team

Colby, 6-0 and 6-2 and Tabor defeated Palmer of Colby, 6-3 and 6-3. In the semi-finals after two very interesting and hotly contested sets Tobey defeated Lovett; Paine defeated Tabor also in two very closely contested sets. Maine made an excellent showing in the tournament and too much praise cannot be given Capt. Lovett and Tabor for what they have done.

The results of the tournament are as follows;

Singles—Tobey of Bowdoin defeated Jordan of Bates, 6-2, 6-0; Lovett of Maine defeated Stevens of Colby, 6-0, 6-2; Paine of Bowdoin defeated Austin of Bates, 6-3, 4-6, 7-5; Tabor of Maine defeated Palmer of Colby, 6-3, 6-3. Semi-finals—Tobey of Bowdoin defeated Lovett of Maine, 7-5, 6-4; Paine of Bowdoin defeated Tabor of Maine, 6-4, 9-7.

Doubles. Preliminaries—Lovett and Tabor of Maine beat Palmer and Stevens of Colby, 6-4, 7-5; Jordan and Austin of Bates beat Roberts and Johnson of Bowdoin, 6-4, 6-2; Guptill and Dunn of

Colby beat Mitchell and Jewett of Maine 9-7, 8-6; Tobey and Paine of Bowdoin beat Salley and Fisher of Bates, 7-5, 6-3.

Semi-finals—Lovett and Tabor of Maine beat Jordan and Austin of Bates, 6-3, 3-6; Tobey and Paine of Bowdoin beat Guptill and Dunn of Colby, 6-3, 6-4.

Final round—Tobey and Paine beat Lovett and Tabor 6-1, 6-1, 6-0.

The entries for the tournament for the Southard medals were as follows: Singles—M. R. Lovett, R. S. Tabor, J. H. Burleigh, J. N. Jewett, R. L. Mitchell, G. C. French.

Doubles—Lovett and Kittredge, Tabor and Burleigh, Owen and Mitchell, Woodbury and Jewett, Boyle and Hews, Gould and Corson, Steward and Southard.

A PRESENT FOR COACH FARRELL

One of the most pleasing incidents of the year took place at the conclusion of the regular chapel exercises of the University of Maine, when Prof. Stevens in behalf of the undergraduate body presented "Steve" Farrell, the coach and trainer of the Maine track team, a beautiful silver water pitcher as a token of their appreciation.

Prof. Stevens made a very pretty speech commending Mr. Farrell in his work. He also spoke of the clean way "Steve" had of doing things and also the quiet and gentlemanly manner. Prof. Stevens said that Mr. Farrell had inspired the greatest respect of the faculty in general and himself in particular and that everybody connected with the University should be proud of having such a trainer and coach as "Steve" Farrell at Maine. With these words he presented the pitcher to Mr. Farrell.

"Steve" made a fine speech thanking the student body. He said he was proud of being coach of such a squad of men as Maine sent to Lewiston last Saturday, for while he had seen faster men he declared he had never seen a pluckier squad than the Maine Track Team of 1906. Steve also said that one pleasure in having to do with Maine athletics was that the boys could stand behind a losing team as well as a

winning one and he cited the football season of 1904-05 when Maine lost all the State games but the student body stood behind that team as finely as they did the champion team of last fall.

At this point "Steve" filled the heart of every man present with joy when he said, "It is a pleasure for me to be at Maine and I am coming back next year." At these words there was a thunder of applause which has not rang in Alumni Hall since Pres. Fellows announced the gift of the new library last year.

When the applause subsided so that he could be heard, Mr. Farrell continued his speech. He said that Maine lost a good class this year, one that had done well on the track and gridiron. Many good men would be missed next year, but all the best men were not going and there were good men coming to college. It was up to the student body to do all in their power to get them to come to Maine. "Get them here to school once and let them get the Maine spirit and you can't get them away with a team of oxen."

Mr. Farrell ended his speech by thanking the men for their present and by telling them if all got out for athletics who could do anything, Maine would have as good a season next year as this.

NEW CHAPTER OF ALPHA ZETA

The technical fraternity, Alpha Zeta, has granted a charter to the agricultural students of the University of Maine. This is a purely technical, and in one sense an honorary fraternity. It is honorary in that only students who have done meritorious work in agricultural lines can be elected to membership.

The following students in the College of Agriculture were initiated as charter members on May 9, by Instructor Gilbert, who is a member of the Cornell chapter; Roy S. Bacon, '06; Frederic H. Harlow, '06; Thomas H. Reynolds, '06; Alton W. Richardson, '06; Edward A. Stanford, '06; Alton A. Austin, '07; Sidney M. Bird, '07; C. E. S. Burns, '07; F. S. Erskine, '07; Herbert H. Green, '07; Wm. F. Schoppe, '07; Richard F. Talbot, '07. President Fellows, Professor Hurd, Professor Gow-

ell and Professor Merrill were initiated as honorary members.

The establishment of this Maine chapter of Alpha Zeta is another of the advancing steps which the College of Agriculture is making. Membership in this technical agricultural fraternity will give the agricultural students a broader horizon. It adds the University of Maine as a link in the chain of the best Colleges of Agriculture.

Alpha Zeta was established in 1897 and now has twelve chapters as follows: Ohio State University, Pennsylvania State College, University of Illinois, Cornell University, Michigan Agricultural College, New Hampshire State College, University of Nebraska, North Carolina State College, University of Minnesota, University of Vermont, Iowa State University, University of Maine.

Alpha Zeta's aims are five-fold: 1 To create better fellowship among the students in the College of Agriculture; 2 To honor meritorious work in agricultural science; 3 To raise the standard of scholarship; 4 To give the agricultural students an opportunity to get experience and training in agricultural matters, while undergraduates, which cannot be gotten from the class room; 5 To broaden out the agricultural student's horizon and give him a better opportunity to see what is going on among students in colleges similar to his own.

LAW SCHOOL NOTES

Hon. Louis H. Southard has just completed a series of lectures on "Medico-Legal Relations at the School of Law." Mr. Southard has a method of making his lectures very interesting and as he is also a strong Maine man, is always well received and deserves the great applause which greets him yearly.

Mr. Southard delivered four lectures this year. In the first two he gave a detailed account of malpractice as it is today. This is a subject which is growing more important each year on account of the various disclosures which are rising. The last two lectures dealt with insanity and the advisability of evidence in insane cases. Mr. Southard showed a very wide knowledge in the treatment of these subjects and thereby held the closest attention of the students throughout the series.

LAW SCHOOL 12, BAR HARBOR 6.

On Saturday the baseball team took a trip to Bar Harbor and easily took the Y. M. C. A. team into camp. The game was exciting throughout, the Law School holding the lead 3 to 0 up to the sixth inning when Bar Harbor jumped into the lead. In the eighth the Law School took a spurt and scored four runs and then clinched the game in the ninth by scoring five runs. Linscott pitched a great game for Bar Harbor, striking out nine men. O'Halloran played a great fielding game for the Law School, as did Shaw and Cleaves for Bar Harbor. Summary:

Two base hits, Keegan, O'Halloran, Davidson, Selsby, Linscott. Struck out, by Linscott 9, by French 4. Bases on balls, off Linscott 5, off French 1. Hit by pitched ball, Connors. Double play, Keegan to DeWolfe. Umpire, Bernidini.

On Thursday evening from eight to ten, Dr. Fernald gave a reception to the young ladies of the University. The affair was a very pretty one and will be long remembered.

JUNIOR WEEK PROGRAM

In order that the official program for Junior Week may be fully understood, the following enlargement of the program has been prepared by the Junior Week Committee:

MONDAY, MAY 21

Morning—Semi-finals in tennis for the Southard medals, played on the Beta Theta Pi fraternity court.

Afternoon — Finals in tennis.

Evening — Concert by the University Musical Clubs in chapel at 8.00 o'clock. After the concert, an informal dance will be given in the gymnasium, with music by the University Orchestra. A general invitation is extended to the students and their friends to be present.

TUESDAY, MAY 22

Afternoon — The Ivy Day exercises will be held in the chapel. The ivy will be planted near Lord Hall and music will be furnished by the University Orchestra.

Evening—The Junior exhibition will be held in the chapel.

WEDNESDAY, MAY 23

Morning — Special chapel music will be given by Mr. Lane of Bangor.

Afternoon — 3.30 — Baseball game, Bowdoin and Maine on Alumni Field.

The Junior Spread comes after the Bowdoin game in the gymnasium. Music by the University Orchestra, and the Glee Club. Tickets for the spread can be obtained from members of the Junior Week Committee.

Evening — The University Cadet Band will give a concert in front of Alumni Hall beginning at 8.00 o'clock.

THURSDAY, MAY 24

Morning — Special chapel exercises. Music by violincello trio consisting of Prof. Lentz, Messrs. Sprague and Maxwell. A member of the junior class will lead the exercises.

Afternoon — Baseball game, Alumni Field, Amherst and Maine.

Evening — "Open house" by all the frater-

nities. Friends and visitors are invited to inspect the several chapter houses.

FRIDAY, MAY 25

Evening — Junior Prom, the formal dance of the Junior year, will be held in the gymnasium, with a reception from 8 to 9 o'clock in the chapel.

SATURDAY, MAY 26

Afternoon — Baseball game, Bates and Maine on Alumni Field at 3.00 o'clock.

Copies of the CAMPUS, *Blue Book* and *Prism* can be obtained at the Literary Federation news stand, near the walk in front of Coburn Hall.

Programs can be bought at the several fraternity houses, Oak Hall, or at the news stand.

Further information in regard to the week can be obtained from any of the following members of the committee: A. W. Totman, G. E. Hayward, E. T. Harlow, E. W. Philbrook and E. J. Wilson.

INTERSCHOLASTIC PRIZE SPEAKING

Won by **Hallowell High School**

The annual interscholastic prize speaking contest, was held before a large crowd in the chapel on Friday night, May 18, and was pronounced the best ever held here in point of excellence in training and ability shown by the contestants. The prizes were awarded as follows:

First prize, \$20 in gold—Harold G. Wood, Hallowell High school.

Second prize, \$10 in gold—Frank W. Peters, Bridgton Academy.

Third prize, \$5 in gold—Maud Lillian Brown, Camden High school.

In the afternoon the trials were held and from the sixteen competitors, after careful consideration, the following six were selected to speak in the evening:

The Mortgage Scene from David Harum

HAROLD G. WOOD, Hallowell High School

The Trial of Pickwick

FRANK W. PETERS, Bridgton Academy

The Prisoner's Plea

OSCAR H. EMERY, Hebron Academy

The High Tide

JEAN INGELOW, Island Falls High School

How It Happened

JESSIE ALICE TUPPER, Waterville High School

The Soul of the Violin

MAUD LILLIAN BROWN, Camden High School

MUSICAL FEDERATION CONCERT

The first annual concert of the Musical Federation was held in the chapel on last Saturday evening. The program was made up of numbers by the different organizations represented by the Federation, together with readings by Messrs. Goodrich and Fellows and 'cello solos by Mr. James Maxwell. This is the first appearance of the musical clubs in Orono since the beginning of the season, and a marked improvement, due to the season's training, was noticeable. The whole program was warmly received and several encores were responded to. The concert program was as follows:

1. Overture, Childrens' Festival

UNIVERSITY ORCHESTRA

2. Marching Song, Up and Away,

GLEE AND MANDOLIN CLUBS

3. The Toastmaster March

MANDOLIN CLUB

4. Kaloola

BANJO ORCHESTRA

5. Mandolin Trio, Gibson March

MESSRS. SOUTHARD, MORRISON, AND NASH

6. The Sandman

MESSRS. MARSH, SMITH, HODGINS AND BYE

WITH GLEE CLUB

INTERMISSION

1. Serenade

UNIVERSITY ORCHESTRA

2. Moonlight

MANDOLIN CLUB

3. Fill Your Steins

MESSRS. BOYLE, FELLOWS, NASH AND BIRD

WITH GLEE CLUBS

MR. BYE AT THE PIANO

4. 'Cello Solo

MR. MAXWELL

5. Circus Parade *Jennings*
Introducing Brass Band, Clown Band, Chimes,
Drums and Kentucky Jubilee Singers.
BANJO ORCHESTRA
6. Stein Song *Colcord, '07*
GLEE CLUB

The concert was followed by a social dance in the gymnasium for which music was furnished by the University orchestra. The proceeds of the concert and dance will be used to promote musical interests in the University.

THE SUMMER SCHOOL OF THE UNIVERSITY OF CALIFORNIA WILL BE HELD, NOTWITHSTANDING THE RECENT DISASTER

President Wheeler has definitely announced that the Summer Session of the University of California will be held from June twenty-fifth to August fourth. While the University suffered very heavily by the loss of income property in the San Francisco fire, the University buildings and their contents at Berkeley suffered very little damage. The University work will continue as usual, as soon as the refugees, who are housed in the various buildings on the campus have been cared for. The Academic Council met, and in consideration of the fact that the University Cadets will probably be employed for some time further in guarding property, and the women students of the University will be busy with the Relief Work, the Council voted to suspend the rules, which require that final examinations be given before marks for the term can be filed with the Recorder. The students will be passed in their subjects on the basis of the term's work, which was within one week of completion at the time of the earthquake. In cases where the instructor is doubtful as to the students having satisfactorily done the work of the course, examination will be deferred until the opening of college next August. Commencement exercises will be held. The date of the exercises and the form they will take will be announced later.

The members of the faculty are nearly all engaged in the Relief Work, having rendered particularly valuable aid in the organization of the Execu-

tive and Sanitary Departments. Professor Lawson, of the Department of Geology, is at the head of a committee to investigate the causes of the earthquake. Professor Cory, Head of the Department of Mechanical and Electrical Engineering, is working with the Citizens' Committee of San Francisco, planning the reconstruction of the new city.

Professor Derleth, Jr., of the Department of Civil Engineering, together with a number of his assistants is investigating the effects of the earthquake and fire on the different forms of construction, and the materials used for building in San Francisco. Professor Hyde, Professor of Sanitary Engineering, is at the head of the Sanitary Department of the University Relief Committee, and in addition is making a careful study of the Sanitary situation. Captain J. T. Nance, Commandant of the University Cadets, took the regiment to San Francisco on the day of the fire, where a strip of territory twenty-seven blocks long and nine blocks wide, in the residence district, was placed under their protection. They remained on duty in San Francisco until Friday evening, when they were relieved and returned to Berkeley at the request of the citizens of Berkeley, who desired their services in guarding property on this side of the bay. Their work in San Francisco called forth the friendly praise of the regular troops and police, to whom they rendered every possible service.

Aside from the temporary abandonment of the regular University routine, on account of members of the faculty and the student-body being engaged in Relief Work, there will be little permanent effect on the University other than a serious financial handicap, owing to heavy loss of income property in San Francisco.

ALUMNI

'88

H. F. Lincoln has accepted a position as engineer with the Bodwell Water Power Co. of Old Town.

'96

H. S. Martin is assistant engineer with the Twin Falls Land and Water Co., of Twin Falls, Idaho.

'99

William Nelson, for some years with the Bath

Iron Works, is now inspector with the Fore River Shipbuilding Co. at 11 Charles St., Quincey Point, Mass.

'00

F. A. Noyes has changed his address to Rio Janeiro Railway, Light & Power Co., Rio Janeiro, Brazil. He is now employed as an electrical engineer with this company.

Announcement is made of the marriage of F. A. Noyes and Miss Grace Weld, May 2, 1906, at Berlin, N. H.

'01

E. L. Watson is supervisor of signals with the Philadelphia division of the Pennsylvania Railroad. His address is now 710 Capital St., Harrisburg, Pa.

'02

W. H. Eldridge has recently severed his connection with the Westinghouse Electric Co. at Pittsburg, Pa., and has returned to the employ of the B. F. Sturtevant Co., at Hyde Park, Mass., as chief designer and electrical engineer.

'05

F. L. Flanders is employed in the extension of the works of the Orono Pulp and Paper Co. at Orono.

* * *

LOCALS

Mr. G. C. de Coligny, '06, has recently accepted a fine position with the U. S. Steel Co., at Rising Fawn, Ga., as chemist. Mr. Coligny left on Saturday and will begin his duties at once.

The meeting of the Literati which would have met tonight, May 22, has necessarily been postponed on account of Junior exercises to May 29, when it will be held at the Art Guild under the auspices of the Department of the Drama. As it will be the last meeting of the society for the college year there should be a large attendance. Next week the CAMPUS will print the report of the delightful evening which the society spent with Dean Stevens at his home.

Miss M. B. Colcord, assistant librarian at the University, visited relatives in Bucksport on Sunday.

Hon. S. L. Boardman and Mrs. Boardman of Bangor were on the campus last week. Mr. Boardman is editor of the *Bangor Daily Commercial*, and one of the loyal supporters of the University.

Several of the engineering students recently went to Millinocket where they are employed by the Great Northern Paper Co. in surveying for a new paper mill. They were F. E. Maddocks, '07; F. P. Holbrook, '07; L. C. Witham, '07, and C. E. Davis, '07.

Prof. Tower of the forestry department and Mr. Gilbert of the agricultural department were away during last week on an extended tour of the Normal schools of the state. The trip was made in connection with a series of lectures that are being delivered by D. J. Crosby of the office of experiment stations at Washington, D. C., on the subject of common gardening and nature study. The lectures are supplemented by those of Prof. Tower and Mr. Gilbert. Thursday, the party was joined by Supt. Stetson who accompanied them on the remainder of the trip. The party stopped at Orono on Wednesday evening when a lecture on the same lines was delivered by D. J. Davis in the chapel. The lecture was free to all and of especial interest. It was illustrated with stereopticon views. The places the party visited are as follows: Monday, Fort Kent; Tuesday, Presque Isle; Wednesday, University of Maine; Thursday, Castine; Friday, Farmington; Saturday, Gorham.

At a meeting of the New England college entrance certificate board, held Saturday, May 12, the Orono High School was made one of the schools from which certificates are accepted. Hereafter a certificate from the principal will admit to any college in New England which admits by certificate.

The regular meeting of the executive committee of the Athletic Association was held on Wednesday evening, May 16. The principal business transacted was the nominating of a ticket of officers for the ensuing year as follows:

President, W. L. Sturtevant; Vice Pres., F. P. Hosmer; Sec'y, H. D. Yates; Treasurer to be elected next fall.

Special to
