CHANGES IN THE FACULTY.

The growth of the University and the resignation of some of the old members of the faculty has necessitated many important additions and changes in that body. This increase we feel means much for the University of Maine.

The Chair of Germanic Languages left vacant by Dr. O. F. Lewis is to be filled by Joseph W. Carr Ph. D. Dr. Carr is a Harvard '89 man, receiving his M. A. from his Alma Mater in 1890. Later while abroad studying he received his Ph. D. from Leipzig. On his return he occupied a position in the German department of the University of West Virginia. For the past five years he has had entire charge of the modern language department of the University of Arkansas.

At the head of the new department of Education is Prof. Charles Davidson a graduate of Iowa State College. Later he took graduate work at Yale from which place he received his Ph. D. in 1892. Dr. Davidson has been Asst. Professor of English in, Indiana University and Western Reserve University was for eight years inspector of secondary schools for the University of the State of New York. For the past year he has been Professor of Education in Pomona College, Cal. His wide acquaintance with secondary schools especially fits him for his present position.

During the absence of Prof. Rogers, the chair of Economics and Sociology will be filled by Robert J. Sprague, Ph. D. Dr. Sprague graduated from Boston University in 1897, having previously spent two years in Ohio Wesleyan. After taking graduate work at Harvard and Boston University he received his M. A. from both institutions. In 1901, Boston University conferred upon him the degree of Ph. D. Professor Sprague is a native of Maine.

Lieutenant Walter S. Brown who succeeds Captain Symmonds as instructor in Military Science graduated from West Point in 1899. He received his appointment as first lieutenant in 1900. He

served in the Philippines in 1899 and later in 1902-03 and has since been on detached duty.

Lieut. Brown stands among the first on the list of First Lieutenant and will be promoted to the rank of Captain in the near future.

Assistant Professor of English, Guy W. Thompson is doing graduate work at the University of Chicago. His position during his absence is to be taken by Acting Assistant Professor George R. Wheeler.

Another new position on the faculty is that of Director of the Gymnasium and University Physician, the holder of which is Percy L. Reynolds, M. D. Dr. Reynolds is a graduate of the Springfield Training school which fits him especially well for his gymnasium work. After graduation he became Physical Director in the Y. M. C. A., at Atlanta, Georgia. While here he received the degree of M. D. from the University of Georgia. His Hospital and other medical experience highly qualifies him as medical advisor to the student body.

After a year spent in graduate work in Iowa State College, Mr. Percy A. Campbell returns to us as instructor in Animal Industry. He is a graduate of N. H. College in the class of 1904 and will be remembered as assistant in Animal Industry at Maine in 1905.

The vacancy left by the resignation of Mr. L. T. Ernst as Instructor in Horticulture is filled by Mr. Maxwell J. Dorsey. Since graduation from the Michigan State Agricultural College, he has been connected with the Ohio Agricultural Experiment Station and has had charge of the Michigan State Park on Mackinaw Island.

The Civil Engineering Department has two new instructors. One Mr. Charles B. Brown, Sheffield Scientific School, C. E. 1896, will have direct charge of the railroad Engineering work in which line he has had extensive practical experience.

Mr. C. J. Carter takes the place of Mr. A. W. Cole as instructor in Machine Shop Practice. Mr.

Carter is a practical machinist of fifteen years experience and has taken special work at M. I. T. to better prepare himself for teaching. For the year he has been assistant in the shops of the Engineering Department of Tufts College. Part of Mr. Carter's regular work will be the entire charge of the University power and heating plants.

The new Instructor in Electrical Engineering, Mr. Gustav Wittig, is a graduate of Rutgers College in the class of '96. After four years of work in secondary schools he took graduate work at Columbia receiving from that university the degree of E. E. in 1904. Since that time he has been with the Westinghouse, Church, Kerr Co.

Public Speaking this year will be in charge of Mr. Windsor P. Daggett, who was prominent in Brown debating and dramatics. Mr. Daggett graduated from Brown University in 1902 and has since made a specialty of teaching elocution in secondary schools.

Mr. Thomas Buck has resigned as Instructor in Mathematics and is taking graduate study at Chicago. The new instructor in this department is Mr. Elmer E. Moots, a graduate of Missouri State Normal School and of Highland Park College.

Prof. W. J. Morse, M. S. has been appointed Vegetable Pathologist in the Experiment Station. Prof. Morse graduated from the University of Vermont in 1898. His work here will be along the line of investigation of plant diseases.

The class of 1906 of the University of Maine gives us three new faculty members. Harry A. Emery is Instructor in Civil Engineering. Miss Joanna C. Colcord is Chemist in the Experiment Station, and Henry W. Bearce is Tutor in Physics.

Miss Jennie E. Dinsmore, Cataloguer in the Library, received the degree of B. S. in Library Economy from Limmous College last June. Miss Dinsmore has had practical cataloguing in the Harvard library and elsewhere.

The following promotions have been made. Miss Caroline Colvin, Ph. D., from Asst. Professor to Professor of History; A. C. Jewett, B. S., from Associate Professor to Professor of Mechanical Engineering; W. K. Ganong, B. S., from Acting Professor to Professor of Electrical Engineering; A. W. Gilbert, M. S. A., from Instructor to Asst. Professor in Agronomy; R. L. Seabury, B. S., from

Asst. in Chemistry to Instructor in Agricultural and Biological Chemistry; Miss Florence Balentine, B. A., from Assistant to Tutor in Biology; W. M. Munson, Ph. D., from Professor of Horticulture and Horticulturist in the Experiment Station to Orchardist in the Experiment Station; L. H. Merrill, B. S., from Professor of Biological Chemistry and Chemist in the Experiment Station to Chemist in the Experiment Station; Max C. G. Leutz from Acting Professor to Assistant Professor of Germanic Languages; and H. M. Shute, M. A., from Instructor in Modern Languages to Instructor in Romance Languages.

THE WORK OF THE SUMMER AT THE UNIVERSITY.

The past summer months have been ones of great activity in the progress of the University.

Perhaps the most evidence of this activity is shown by the new library which is practically finished and is soon to be dedicated.

During the Summer President Fellows received \$5,000 more from Mr. Carnegie for the interior furnishing. The building itself is without doubt the most imposing on the campus.

The last signs of the departure of most of the Students were hardly over before the Junior Civils were at work on their field work. During their stay in town they enjoyed dances at the fraternity houses and other social gatherings. These with the healthful out-of-door work made their stay until the last of June a very pleasant one.

Next came the summer term which was in many respects the most successful yet held. Sixty students were in attendance, twenty-two of whom were teachers, others being from several different colleges. The usual summer courses were offered. In addition several lectures on topics of interest to those attending were given.

Not all the time was spent in study, however and many pleasant hours spent in social gatherings and in athletics. Contests in the latter were held between teams composed of the university students in attendance and the non-university students. Two dances were held at the commons and a general reception was given at the Mt. Vernon House.

STATE BOARD OF TRADE VISITS UNIVERSITY.

On last Thursday the members of the State Board of Trade in session this year at Bangor, visited the University on their trip to the places of interest about Bangor. The members of the party, about 70 in all, arrived on the 11.40 car, going directly to Alumni Hall where the Chapel service had been delayed for them. The visitors after greeting President Fellows were ushered to seats on the platform from which they witnessed the Chapel exercises.

Many of the party were unfamiliar with the work of the University and they all expressed themselves as profoundly surprised. It was a revelation to many of them which they will not forget, and they will carry home some adequate conception of what the University of Maine is doing, of the sort of young men who are there for an education—and perhaps more than anything else, their numbers. Although the rain poured in torrents many visited the different buildings, particularly the new Carnegie library, now nearly completed.

Lunch was served in the Commons at 1 o'clock and here another hit was made. It was a substantial spread without any frills—admirably served by a well-drilled corps of student waiters. Everybody was hungry and did ample justice to the soups, roast beef, vegetables, ice cream, cake and fruit.

At the close of the meal President Winslow of the Board of Trade called for order and after a few remarks called on President Fellows, who spoke briefly but to the point. He was speaking to men interested in the development of the resources of the State. For such development men trained in industrial lines were a necessity, were indispensable—and it was that kind of men the University of Maine was turning out. It was a business proposition. There were graduates who were today earning double and even three times as much salary as was paid the president of the University, or ever would be paid.

President Fellows spoke of the expiration of the ten-year appropriation for the University, at the end of the present year and appealed to the members of the State board to give the matter careful considera-

tion and that aid in any way would be deeply appreciated.

He spoke particularly and emphatically of what he terms plainly a lie, the report in circulation that the University would ask for aid in the completion of the Carnegie library. President Fellows said that he found that the \$50,000 given by Andrew Carnegie paid for the building; that he had asked for and received \$5,000 in addition, which would completely furnish the building ready to occupy and that the building would not cost the State of Maine a cent. He urged his hearers to deny any report to the contrary.

There is no doubt but what President Fellows struck the right chord and gained some strong allies for the University.

Hon Henry Lord, of Bangor, made a short but vigorous speech, a strong point of which was an allusion to a graduate engineer of the University of Maine, who had discovered and planned a development of water power that had added more to the valuation of Maine than the University had cost the State from its beginning to the present time. Dr. M. C. Fernald, the first president, spoke briefly of the early history of the institution.

The party left at 2.15 for Milford on a visit to the plant of the Bodwell power plant.

FACULTY RECEPTION.

Dr. and Mrs. Fellows held a reception at their home last Friday evening for new members of the faculty. A very pleasant evening was spent, in renewing and forming acquaintances, after which a dainty lunch was served by the hostess.

The following assisted in receiving: Dr. and Mrs. Fellows, Prof. and Mrs. Davidson, Prof. and Mrs. Leutz, Prof. and Mrs. Morse, Prof. Sprague, Prof. Wheeler and Lieutenant Brown.

ASSISTANT CAMPUS MANAGER.

All who wish to be considered for assistant manager of the CAMPUS are requested to give their names to R. S. Coffin or W. D. Trask.

THE MAINE CAMPUS

Published on Tuesday of each week during the college year by the students of the University of Maine.

Address all business communications and make all checks payable to R. S. Coffin, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

EDITORIALS.

The Board of Editors wish to express their deep regret that Managing Editor Sturtevant was unable to return with us this fall. His work the past year as editor of the CAMPUS led us to believe that the CAMPUS would be brought to a high state of perfection during the coming year under his able management.

We realize that it is "bad form" to offer excuses for a poor quality of work or what might seem like lack of improvement

An Apology. in this, the first issue of the CAMPUS for the year, but we assure you as true and loyal Maine men, that we will do our best to place the CAMPUS among

the leaders of college weeklies with following issues.

There is much of the panoramic about college life. The scenes are constantly shifting. The old faces pass and new ones appear upon the stage. As students we live our little day and then depart; to be sure, in the future, to regret, that through our failures, the day of opportunity brought us so little or value. There is cheer tomorrow in the knowledge that while the senior goes the freshman just as surely comes. His young and untried heart is full of hope. His opportunity is here and he proposes to make full use of it.

It is to him, at this time, that the CAMPUS turns and with hearty greeting bids him welcome.—A welcome to the promise of a future big with mystery.—A welcome to new friendships and helpful associations.—A welcome to that ripeness and roundness of mental and moral experience, that makes life all it ought to become, and we bid you welcome also to those conflicts that in more ways than one await you, from contact with which, you will go out into the coming years, to play your part in the stern engagements of life, And let us tell you—what you already know—that that part will be largely craven or heroic, even as you face them in the experiences of your college career. You are our hope. Give us proof that you are worthy.

The CAMPUS also notes the large number of new faces among the members of the faculty, and while loyal to those who have gone, we are hearty and sincere in our welcome to you who have come. Maine is a great state—in her resources—in her men—in her future; but your new field of labor in the University is the greatest opportunity in her borders. May you stay long and be happy.

Let
return

This is not the time, in view of the unbounded prosperity of the University, from the standpoint at least of increased attendance to give utterance to regrets; we think however, that this particular regret is in its proper place and will find a response in all our hearts, when it is known that neither the University, nor the town itself, no longer can accommodate the increasing numbers of Maine's sons and daughters who clamor for admittance to our walls.

When four men have to occupy space, originally intended for but two, it is surely time that this great state arise and give her children those facilities for life's equipment which are worthy of them.

We must have a new dormitory soon or we shall be compelled to sleep in the laboratories, and as for chapel, we suppose we can attend in sections—or, not at all.

In any case, All hail to our Alma Mater! and we predict that this shall be the greatest of all the years.

The matter of fall track work is one which we as students ought to consider carefully and assist in every way possible. In

Fall Track Work.

the past this work has not been very satisfactory for just one reason, the track candidates did not look upon the matter as of vast importance, and the student body did not attempt to change this opinion. Unless we begin to realize the mistake made in the past, we are not advancing in the right direction. All the smaller colleges are taking up fall track work with a strong determination to make the most possible out of the short space of time remaining before snow flies, and not a few have fall track meets.

Let us consider our position seriously. We return this fall as track champions of the state,

and we will have to make a strong fight to retain this title. We all realize what the graduation of the 1906 class means to us, and of the many places left vacant last spring.

We have one strong hope left, however, Steve Farrell. He needs no introduction to many of us but to the new men he may be a stranger. He is a coach who will develop all there is in a man, if only given an opportunity. It makes no difference whether you have ever done track work or not, you will receive the same careful attention, and have the same opportunities as the best athlete in the University.

It is the intention of Coach Farrell to run a series of cross country runs this fall, and also have the track squad out on alumni field every pleasant afternoon until it is necessary to go in the gymnasium on account of the cold weather. This means, however, he must have the men to work with, and we trust you will consider this whole matter carefully, and either go out yourself or talk with someone who can and will.

THE BAND

All of the old band men, together with many new ones, met for the first business meeting and rehearsal of the year in Alumni Hall on Thursday, September 27th.

It was most pleasing to the management to see so many new men out, and to note the zest with which new ones went into the work. Leader Newman says that there are some fine musicians among the new material, and as the band lost but a few of its good players last year, he has every hope of turning out a better band this year than ever before. The manager expects to have some of the new and latest music on hand for the next rehearsal. Regular rehearsals will be held once a week, and oftener if possible, from now on, so that the band will be in the best of condition for the football games, and its regular winter's work.

NEW STUDENTS.

The following is the complete list of new students registered at the University of Maine, freshmen, special students and in the special courses, 172 in all. The law school will probably bring the total new registration very close to the 200 mark.

The new students include representations from every county in Maine, from every New England state, and from Michigan, Maryland and Nova Scotia.

Cumberland county send 25, Penobscot is next with 18, Washington county has 13, Oxford 12, and Kennebec 10. The Massachusetts delegation in the new class numbers 26 and the aggregate "Bay State Club" at U. of M. will number about 50 students.

NEW PHYSICAL DIRECTOR.

By vote of the trustees of the University, a new office has been created, that of Physical Director and University Medical Advisor.

Dr. Reynolds, a graduate of the Y. M. C. A. training school at Springfield, Mass., and a man especially well adapted for the position, has been placed in charge.

Dr. Reynolds will have charge of the class standing of the athletic candidates, with power to remove anyone who fails to maintain the requirements recently adopted by the faculty.

In case of injuries to any athlete, Dr. Reynolds will be able to give them immediate attention, something which the University athletes have never been certain of before.

Dr. Reynolds as Medical Advisor, will be pleased to give any student medical advice at any time, free of cost to the student, and may be found in his office in Alumni Hall from 9 to 11 o'clock daily.

THE FIRST CHAPEL.

The first chapel exercise of the year was held on Thursday morning and there was a large attendance of both faculty and students, many freshman having to stand. President Fellows, Dean Hart, Dean Stevens and Prof. Hurd were very heartily greeted as they walked to the platform.

For special music Miss Frances Weston of Bangor rendered a solo in an excellent manner. President Fellows extended a hearty greeting to all the students, both old men and new. He said that no individual or institution could stand still, that it must either progress or regress, and that he was glad to see that the University of Maine was progressing so rapidly in all branches. He also showed the significance of the state universities in the rapid growth and development of our nation.

Mr. Daggett, our new English instructor, who is an alumnus of Brown, spoke in behalf of the Debating Club and offered his services to help on its work. Mr. E. W. Philbrook, '07, the manager of the football team, spoke on the subject of athletics with special attention to football, and made an appeal to the freshman to turn out and support the team. Dr. Reynolds spoke for a short time in behalf of the Y. M. C. A. The literary organizations were represented by Mr. Garland, '07, who spoke on the work of the Press Club, the CAMPUS, the Blue-Book, and the Literati. Mr. E. J. Wilson, '07, spoke in behalf of the musical organizations---the band, the musical clubs, the University Orchestra, and the choir. The chapel exercises were closed by singing the University hymn.

1909-1910 DEBATE.

The sophomore class has decided to form a debating team this year, and has issued a challenge to the freshman class for a debate during the month of November. It is expected that this challenge will be accepted.

COLLEGE MEETING.

Thursday morning, September 27, Pres. Hosmer of the Athletic Association called the first college meeting of the year in behalf of the A. A.

Pres. Fellows was the first speaker and he talked on the attitude of the faculty towards athletics, and he emphasized the fact that the University of Maine stands for clean athletics and offers no inducements of any kind to get athletes for the several teams.

Manager Philbrook next spoke on the hard and long schedule. Captain Burleigh spoke on the lack of heavy men and urged the student body to aid the team with their support.

Following Capt. Burleigh, Coach McCoy was next introduced and it was several minutes before he could make himself heard on account of the loud applause. There is no doubt that Coach McCoy is one of the most popular men connected with the University and that every member of the student body and faculty is back of him to a man.

He gave a very pessimistic outlook for a championship team owing to the lack of heavy material for the line. Nearly all the line men graduated last year, and as Moore, the heavy centre for the past two seasons, will not return, it will be necessary to build an entire new line.

Following Coach McCoy, D. Chase, '08 and Mr. Shute spoke on the financial conditions for the fall and then subscription papers were passed, and a total of 276 signatures obtained which is rather a small number. Another opportunity will be given for all to sign, and it is hoped that the total number of signatures will reach over 400.

DEBATING CLUB.

At a recent meeting of the Debating Club the following officers were elected: President, D. Chase, '08; Vice-President, J. H. Mason, '09; Secretary-Treasurer, H. M. Ellis, '08; and Manager, A. P. Rounds, '07.

THE NEW DEPARTMENT OF EDUCATION.

The great demand for teachers especially for high schools throughout the state and the inability of the normal schools to supply the demand has led to the establishment of a new department in the University, that of the Department of Education. The head of this department, as has been stated elsewhere, is Prof. Davidson. An outline of the work he proposes to do in this line is as follows.

The work is designed to serve directly the needs of high school teachers, principals, supervisors and superintendents, and of those who desire to fit themselves for these positions. It will be planned for those who contemplate a full University course and also for those who wish only a term or more of study in certain subjects in order to increase their efficiency in the classroom. The fact is recognized that the needs of the high school instructor who teaches in one department are not in all particulars the same as those of the principal or superintendent. The work pertaining to each subject in the high school accordingly will be so arranged that the student may find in the University the course that will most directly prepare him for the task.

This is merely intended to convey some idea of the course. A detailed outline will be published later.

FLAG RUSH

The annual flag rush between the freshmen and sophomores was held on Alumni Field last Saturday afternoon. This was the first organized class rush of the two classes, and while the freshmen won, the honors were about even. After a fierce and bloody fight, it was found that the freshmen had won with twenty-four hands on the flag, while the sophomores had fourteen.

The sophomores evened matters by winning the baseball game following the rush an account of which is given in another column.

DEBATING CLUB.

The first meeting of the debating club was held in Alumni hall last Thursday evening.

Considering that it was the first meeting of the year there was quite a large attendance, and a great deal of interest was shown in the plan of work for the coming year.

There were many of the faculty at the meeting nearly the whole quota of the English department being present. After the records of the last were read and approved, President Chase spoke to the club in regard to the work in the past and outlined the scheme of the executive committee for the work for this year. The members then held an informal discussion of the plans, and a definite arrangement was decided upon. In order to arouse the interest of the student body in the club, and at the same time to find good material for the varsity debating team, it was decided to arrange for a debate between the sophomore and freshman classes, to be held some time in November. Mr. Rounds, the manager of the debating team, expects to arrange for debates with the University Law School, Bates, Bowdoin, and possibly the Boston University.

Beginning with next Thursday evening regular debates on live topics of the day will be held every week. Competent critics and judges will be present at each meeting, several of the faculty having very kindly volunteered their services.

Before the men begin to prepare for the college debates a regular coach will have been secured who will have the candidates under his direct supervision. Every student who has ever had any experience in debating and all who have any interest in such work, should come out and work for the debating team. All members of the faculty, students, and their friends will be cordially welcomed at the debating club meetings.

Harvard's new medical school, long the dream of President Eliot was dedicated recently. It is the finest and most complete of its kind in America, if not in the world.

A STUDENT DIRECTORY

Athletic Association—President, F. P. Hosmer; secretary, R. Fellows.

Football—Manager, E. W. Philbrook; captain, J. H. Burleigh.

Baseball—Manager, H. L. Miner; captain, H. L. Gordan.

Basketball—Manager, A. W. Totman; captain, G. A. Stuart.

Track Athletics—Manager, M. L. Sturtevant; captain, W. J. St. Onge.

Tennis—Manager, R. L. Mitchell,

Musical Association—President, J. K. Goodrich

Manager of Musical clubs—Raymond Fellows.

Glee Club—leader, C. Boyle.

Mandolin Club—leader, C. Marsh.

Banjo Club—leader, S. M. Bird.

U. of M. Band—Manager, ; leader, M. G. Newman.

Orchestra—Manager, H. B. Smith; leader, M. G. Newman.

The Literary Federation—President, E. J. Wilson; Secretary, A. R. Lord.

Debating Club—Manager, A. P. Rounds; president, D. Chase.

The Literati—President, ; secretary, D. Chase.

THE MAINE CAMPUS—Business Manager R. S. Coffin managing editor, E. J. Wilson

The Blue Book—Business Manager, A. B. Cayting; editor-in-chief, A. R. Lord.

"The Prism"—Business Manager, W. D. Trask; editor-in-chief, R. L. Lord.

The Y. M. C. A.—President, L. J. Reed; secretary, F. M. A. Clafin.

Physical Director—Dr. P. L. Reynolds; office hours 9—11 daily in Alumni Hall.

PRESS CLUB.

All students interested in newspaper work should plan to attend the meetings of the Press Club in Coburn Hall at nine o'clock every Saturday morning.

Prof. Jones, who is at the head of the club this year, has several papers in view for perspective correspondents, and he would be pleased to meet anyone interested in the subject.

Not only is there an excellent opportunity to gain valuable experience with this work, but there is no better way for you to help your university than to tell the people in all parts of the state what their University is doing.

MEETING OF THE EXECUTIVE COMMITTEE OF THE ATHLETIC ASSOCIATION.

A special meeting of the Executive Committee of the Athletic Association was held Thursday evening, Sept. 20th.

The following slate of officers were nominated to be voted upon by the Association at a meeting to be held in the near future. For president F. P. Hosmer, now vice-president, was nominated; for vice-president, R. J. Talbot; for secretary, Raymond Fellows and for Treasurer Mr. H. M. Shute of the faculty.

CONVERSATION CLUB.

The older members of the faculty have organized a club to be known as the Conversation Club. It is the intention to hold monthly meetings, and to have one member speak on some important subject.

The first meeting of the year was held at Pres. Fellows' home, last Saturday evening, and Prof. Jones spoke on Maine Athletics in a very able manner.

SOPHOMORE CLASS.

At a recent meeting of the 1909 class it was decided not to have class canes this year. The question of class pipes has been settled, and the orders are now being placed with the committee.

The committee on the annual calendar issued by the sophomore class will soon be elected, and work commenced at once so as to have the calendars ready by the Christmas recess.

FRESHMAN CLASS.

The following have been elected to serve as officers of the freshman class, for one month, when permanent officers will be elected:

President, Arthur C. Chase.

Sec. and treas., K. R. Fox.

J. N. Kane has charge of the 1910 base ball team as manager and captain.

NEW HAMPSHIRE GAME.

Saturday, September 22, Maine played her first game of the season against N. H. College winning by a score of 7-0. The students had their first opportunity to study the new rules but it was difficult to form any definite idea regarding the rules as neither team made many attempts to use them.

The work of the Maine team was very unsatisfactory and it was very evident that it would require much practice before the team can hope to make any kind of a showing against the larger colleges.

On the other hand the N. H. team was very speedy and played a fast and hard game, especially on the defence.

The main feature of the game was a 90 yards' run by Higgins for a touchdown.

FOOT-BALL SCHEDULE.

Manager Philbrook has arranged the following long and hard schedule for this fall:

- Sept. 22. N. H. State at Orono.
- 29. Maine 2nd at Orono.
- Oct. 3. Norwich University at Orono.
- 6. Harvard at Cambridge.
- 13. Dartmouth at Hanover.
- 20. Holy Cross at Portland.
- 27. Tufts at Orono.
- Nov. 3. Colby at Waterville.
- 10. Bates at Lewiston.
- 17. Bowdoin at Orono.

McVane, a former football star at Colby has returned to that college. He is considered one of the best half-backs Colby has ever had.

The Columbia-Yale, Columbia-Pennsylvania, and the Columbia-Cornell games will not take place this year owing to the ban placed upon the game by the faculty of Columbia University. These games will be very much missed by New Yorkers.

COLLEGE OF LAW NOTES.

Thirteen men of the class of 1906 were successful in their examinations for admittance to the bar of the State of Maine. It is interesting to note that all who took the examinations were successful. Two others took the examinations for admission to the Massachusetts bar and were admitted.

One graduate and another an attendant at the college only two years were admitted to the bar of the latter state mentioned above.

Two more of the graduates in the class of '05 were admitted to the Maine bar also during the past year while another graduate and one an attendant were admitted to the bar of New Hampshire.

As in the past three years the graduates of our own College of Law have maintained a higher standing and a better average than those of Harvard and the Boston University Law Schools.

LIBRARY DEDICATION.

The new library building will be dedicated Friday, November 2, with the Hon. E. E. Brown, U. S. commissioner of education, as principal speaker.

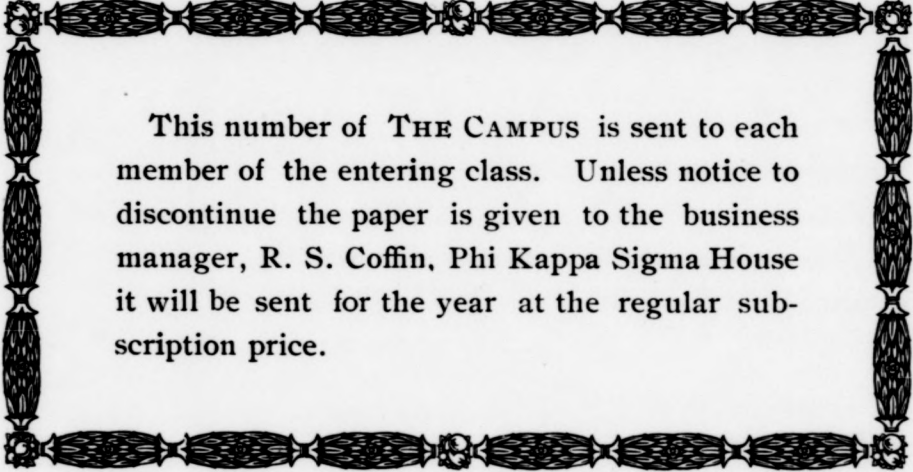

The following letters remain in the University Post Office, Coburn Hall, Sept 28: Ames, L. W.; Arand, V. M.; Barber, C. W.; Blaisdell, H.; Brown, G. H.; Carter, H.; Carver, J. H.; Gooldton, S. W.; Gorson, P. L.; Hall, C. H.; Helson, W.; Holmes, C. F.; McLean, D. W.; Morse, W. J.; Patrick, A.; Paul, S. A.; Smith, A. H.; Soule, M. M.

At a meeting of the Junior Class nominating committee held Friday, Sept. 28, J. T. Kendrigan and C. P. Meserve were nominated as candidates for class president, and W. D. Trask and J. A. Gannett were nominated for vice presidency of the class.

Prof. H. M. Bowman, head of the department of political science at Dartmouth college, has resigned to accept a position as political editor of the *New York Globe*. His successor has not yet been appointed.

This number of THE CAMPUS is sent to each member of the entering class. Unless notice to discontinue the paper is given to the business manager, R. S. Coffin, Phi Kappa Sigma House it will be sent for the year at the regular subscription price.

THE MAINE CAMPUS

Knox College in Galesburg, Ill., has dropped football for the soccer game.

The custom of the women of the senior class at Colby wearing mortar board hats regularly has been revived.

The Carlisle Indians are this year practicing under Indian coaches and their prospects are considered very bright for a winning team this year.

In the annual Freshman class election at Princeton which is the occasion of a rush between the two lower classes the men of 1910 aided by the Juniors outwitted the Sophomores. Later the Sophomores retaliated in a rush around the old cannon.

Coach Reid of Harvard last year received \$3500 from the Athletic Association for two months' work. He also received \$1500 from outsiders. This is the highest salary ever paid

a foot ball coach. Yosk of Michigan receives \$3500 for his work and it is thought that Williams of Minnesota and Stagg of Chicago each receive the same amount.

THREE SIMPLE MOTIONS TO FILL
The ORIGINAL and ONLY GENUINE

CONKLIN'S SELF-FILLING PEN

—and all in a few seconds of time. The pressure of the thumb on the small projecting disc compresses an inside elastic ink reservoir, which, when released, draws in the ink and the pen is instantly filled ready for use. So simple is the operation that the CONKLIN PEN

Really Fills Itself.

The quickly adjusted lock ring prevents the ink from being forced out again. The simplest, most practical, most efficient of fountain pens. Dispenses entirely with the old-fashioned drop filler. No complex parts to cause trouble. Large ink capacity. Ink flows with remarkable evenness and regularity; always ready to respond to the first touch. The feed channels are thoroughly cleaned by the same easy process as filling, making the CONKLIN PEN a *Self-Cleaner* as well. Fully guaranteed.

If your dealer does not handle the CONKLIN PEN, let us make you our *Special Offer to Fountain Pen Users*. Full information, with illustrated catalogue, sent upon request.

Sold by Dealers Everywhere.

Cornell University Medical College,

NEW YORK CITY.

The course covering four years begins during the last week in September and continues until June.

A preliminary training in natural science is of great advantage.

All the classes are divided into small sections for recitations, laboratory and clinical bedside instruction.

Students are admitted to advanced standing after passing the requisite examinations.

The successful completion of the first year in any College or University recognized by the Regents of the State of New York as maintaining a satisfactory standard is sufficient to satisfy the requirements for admission which have lately been raised.

The annual announcement giving full particulars will be mailed on application.

Jonsie's Room Always Looks Neat!

THERE'S no collars or cuffs laying about on the table,—no
neckties thrown over the backs of the chairs, and in his
semi-negligee attire his shirt bosom shows the effect of the pro-
tection it has had since leaving the laundry. Jonsie has a
chiffoniere in his room,—not a high-priced one, but a medium
quality one that stood him \$10.00. It has a good-sized bevel
glass, roomy drawers,—four of them,—a cabinet that can be
used to keep the dress hat or the college caps in, and possesses
features that makes it an attractive article as well as a useful
one. We have more of them, and there is no reason why all
college boys should not possess a chiffoniere. We also have
them without glass,—but cheaper,—and then we have those
ranging in price up to \$30.00. Better do a little chiffoniere
thinking, and come down and see them in reality when you get
ready.
