THE MAINE CAMPUS

Vol. VIII

ORONO, MAINE, OCTOBER 9, 1906

No. 2

COLLEGE OF LAW NOTES.

During the year the following members of the class of 1906 were admitted to the bar of the State of Maine after passing the prescribed bar examination:

Gerry Lynn Brooks, Upton; Winfield Scott Brown, Dexter; Elmer John Burnham, Kittery; Charles Patrick Conners, Bangor; George Albert Cowen, Hampden; James Albert Donnelly, Houlton; Frederick Eugene Doyle, Ellsworth; Oscar Hall Dunbar, Jonesport; Percy Albert Hasty, Bangor; Joseph Alphonse Laliberte, Fort Kent; William Richard Roix, Bucksport; Lucius Black Swett, West Hollis; William Moncena Warren, Bangor.

Harry Ansel Bridges, Oldtown, and Herbert Nelson Gardner, Patten, both members of the class of 1905, have also been admitted during this year.

The following graduates of 1906 passed the Massachusetts bar examinations and were admitted in that Commonwealth:

Carl Cotton, Boston; Moses Harry Harris, Boston.

The following, one a graduate and the other an attendant at the College during two years only, passed the examination in Massachusetts and were admitted to the bar there:

Michael Joseph Comerford, Worcester, Mass., Charles Dana Clift Moore, Lynn, Mass.

The following, one a graduate and the other an attendant at the College of Law, passed the examinations and were admitted in New Hampshire;

Edgar Marshall Bowker, Whitefield, N. H.; George William Pike, Lisbon, N. H.

In Maine every member of the class of 1906, without exception, that took the bar examination passed successfully. One member, Lucius Black Swett of West Hollis, the honor man of his class, passed with a mark of 92, the highest mark ever given by the Board of Bar Examiners since its existence.

Again, as during the last three years, the graduates

of the College of Law maintained a higher standing and a better average in the examination than the men of the Harvard and the Boston University Law Schools.

At the meeting of the section of Legal Education of the American Bar Association, during a lively and animated debate as to the relative ability of law schools to teach the subject of Practice, Mr. Justice L. A. Emery of the Supreme Judicial Court of Maine was able to make the following contributions to the general discussion: "I want to say, Mr. Chairman, that we have in my State a little law school that does teach practice. I am speaking now from the standpoint of a judge of the supreme court of that State and as a friend of that law school. I can say that at the end of their course in the study of practice in that school some of the students are better practitioners than those men who came to the bar directly from the office and without ever having been in a law school. Practice is taught and pleading is taught, and my only purpose in rising now was to testify to the fact that not only can it be done but that it is done and done thoroughly."

Strong applause followed these remarks and it was evident that on the general question the sentiment of the section was with the position taken by Mr. Justice Emery. See report of the Twenty-eighth Annual Meeting of the American Bar Association, held at Narragansett Pier, R. I. 1905, page 564.

In this connection we quote from Vol. VIII, No. 1, of the Maine Bulletin. It says: "It is the great good fortune of the University of Maine to be able to say that since the establishment of its Law School [1898], no Massachusetts man that came to study in it and took the regular course in three years, ever failed to pass the bar examinations of his own state, and that, too, at the first trial. For three years in succession, and each year more decisively so, the students of the University of Maine have stood ahead of the Harvard and Boston University Law School men in the bar examinations held in Maine, a fact which finds its explanation, in

part, at least, in the advantages a smaller school enjoys over a larger school, as pointed out by the Dean of the School in his address at St. Louis." See the Transactions of the Twenty-seventh Annual Meeting of the American Bar Association, held at St. Louis, Mo., 1904, page 807.

LAW SCHOOL REGISTRATION.

The registration at University Law School Oct. 3, gave an increase of twenty-five new students to the University. Six of this number were from Mass. and one from Colo. As this was the first day of the registration it is expected the list will be increased when all are registered.

The names, home addresses, and fitting schools are as follows:

- A. E. Anderson, Portland, Me., Portland High.
- H. M. Brackett, Berwick, Me., Berwick High.
- H. R. Elder, Chicopee Falls, Mass., Chicopee High.
- H. E. Ellis, Yarmouth, Mass., Yarmouth High and Hyannis Normal.
- O. H. Emery, Bar Harbor, Hebron Acad.
- Wm. C. Fraser, Taunton, Mass., Taunton High.
- H. I. Goss, Berwick, Me., Sullivan High.
- W. P. Hamilton, Caribou, Me., Bates College.
- N. M. Hammond, Wilton, Me., Milton Acad.
- J. F. Kiernan, Wareham, Mass., Tabor Acad. and Brown University.
- W. L. F. Mass, Brooks, Me., Freedom Acad.
- Ray Morrison, Saco, Me., Thornton Acad.
- A. J. W. Peters, Bangor, Me., College of P. and S. Boston, Mass.
- S. F. Randolph, Boulder, Colo., Boston University.
- V. L. Riggs, Livermore Falls, Me., Livermore Falls High.
- T. A. Sanders, Sangerville, Me., Sangerville High and U. of M. Summer School.
- E. L. Seavey, Caribou, Me., Boston.
- C. T. Small, Caribou, Me., Bangor High.
- F. B. Snow, Blue Hill, Me., Blue Hill Acad.
- F. D. Thwing, Newton, Mass., Oakland High.
- C. D. C. Moore, Lynn, Mass., Mass. Bar.
- C. C. Heard, Biddeford, Me., Post Graduate, Biddeford High, Yale University, Maine Bar.
- D. F. Perkins, Skowhegan, Me., Post Graduate University of Maine.
- Seth May, Augusta, University of Maine.
- S. Arthur Paul,

EXPERIMENT STATION.

The passage by the last Congress of the Adams Bill, so-called, adds materially to the income of the Experiment Station, and consequently to its opportunities for usefulness to the people of the State of Maine. Heretofore, the Station has received \$15,000 a year from the United States, under the terms of the Hatch Act of 1887. This has constituted the entire income of the Station except fees from police duties in the line of inspection work required under the State laws, and a recent special assignment of \$1,000 a year by the U. S. Department of Agriculture for the promotion of the important poultry investigations being carried on by the Maine Station. The Adams Act increases the income by \$5,000 a year with an addition of \$2,000 a year until it makes the total \$30,000 instead of \$15,000. The Station staff has already been enlarged by the addition of a vegetable pathologist, Professor W. J. Morse, and an additional chemist. Professor Morse is to work on plant diseases, a line which promises to be of material value to the agricultural interests of the State. Further plans will be made by Director Woods and submitted by him to the Station Council for consideration. The control of the Station is in the hands of the University trustees, but the work of investigation is submitted for approval before it goes to the trustees to a council which includes the Commissioner of Agriculture of Maine, representatives of the State Grange, the State Pomological Society, and the State Dairy-men's Association. This increase in the Station staff has made it necessary for it to have the exclusive use of Holmes Hall, consequently the College of Agriculture has been obliged to find accommodations elsewhere. This shows how imperative the erection of a suitable agricultural building is where all the work of the College of Agriculture may be carried on under one roof instead of under several as is necessary at present. The agricultural building should be of a character creditable to the great interest it represents. For the temporary accommodation of the College, rooms have been fitted up on the third floor of Lord Hall. There are two recitation rooms, a laboratory, and two offices, and they will serve fairly well until suitable permanent quarters can be provided.

REGISTRATION LIMITATIONS.

The following action relative to registration has been taken by the faculty:

In 30 credit courses, students may register for not less than 17 nor more than 22 hours, except as provided below.

In 25 credit courses, students may register for not less than 14 nor more than 28 hours, except as provided below.

Students whose work in the University has averaged 85 per cent or above may register for more than the limits fixed above under the direction of their major instructors and the Registration committee.

When a student changes his registration from one College of the University to another which requires less credits, he shall be obliged to complete all of the work in the College he is leaving up to the time of making the change, or an equivalent, and all of the work of the College he is entering from that time to the completion of his course.

No student will be permitted to register for major work in any branch of engineering for less than the number of credits required of regular technical students.

The number of credits required for the completion of the regular courses in the College of Agriculture and in the course in Forestry in the College of Technology has been increased from 25 to 30. This makes a uniform requirement of 30 credits in all the courses in the College of Technology, and the four years courses in the Colleges of Agriculture and Pharmacy. The requirement in the College of Arts and sciences remains at 25, as heretofore.

Radcliffe College opened at Cambridge, with an entering class of 120 young women, 35 of whom were specials.

After registration Dean Irwin made a short address to the girls in the auditorium of Agassiz house.

She said that next year a new library and a new dormitory will be added to the school buildings.

1909 PROCLAMATION.

Halt! Heed!

Then

Hike ye Freshmen

Read! Remember and Obey, you innocent and ignorant babes these following ten commandments laid down for you by your elders and superiors, the class of 1909, that you may stay your tottering footsteps lest you stray upon that paddled lined path which leads to the cold and turbulent river, and then BIFF! BANG! SPLASH!

1st. Freshmen shall not under any conditions smoke on the University Campus.

2nd. Freshmen shall not accompany ladies.

3d. Freshmen shall not wear derbies.

4th. Freshmen shall not wear or display kid gloves.

5th. Freshmen shall not carry canes.

6th. Freshmen shall not smoke pipes.

7th. Freshmen shall not venture forth upon the Campus bareheaded.

8th. Freshmen shall not wear anything but college emblems upon their clothing.

9th. Freshmen shall not wear clothing which is loud or in any way conspicuous.

10th. Freshmen shall not under any circumstances fail to show the proper respect for, and to give precedence to ladies, faculty, and upper class men.

Class of 1910 hark ye these immortal words, these words prescribed by fate, fate bearing your uncertain future, fate inexorable, and not to be controlled.

— 1909.

Note. This is published at the request of the 1909 class so that every member of 1910 can have a copy to paste in their hats.

A CORRECTION.

In the last issue of THE CAMPUS, a mistake was made in the name of the new cataloger and should read as follows: Miss Jennie E. Dunmore, Cataloger in the Library, received the degree of B. S. in Library Economy from Simmons College last June. During her course at Simmons, Miss Dunmore did practice work in cataloging in the Harvard College library and elsewhere.

THE MAINE CAMPUS

Published on Tuesday of each week during the college year by the students of the University of Maine.

Terms: \$2.00 per year, on or before Nov. 1st; single copies 10 cents.

Address all business communications and make all checks payable to R. S. Coffin, Business Manager, Orono, Me.

Contributions from undergraduates and alumni are earnestly solicited. They should be addressed to the Managing Editor.

EDITORIALS

THE CAMPUS prints the following taken from the welcome of Pres. Eliot to the freshman class at Harvard, in hopes it may appeal

A Warning. not only to the freshmen, but to the whole student body at Maine:

"When a man grows older," the president said, "he makes mistakes. You today may make them. But you must have the will to regulate your conduct, and be your own taskmasters.

"Our cities are not so well governed as those of Europe. Is freedom the cause? Yet it is necessary to human character.

"The world is made for men who win character through danger. It is will that makes the thinker and the inventor. Will is the motive power. Train your will with reason.

"In your studies choose what you are interested

in; develop your working power by working in what you are most interested in. Choose companionship that is ennobling.

"It only takes five minutes to find who stirs you with evil and who with good. Choose all wisely and well and you will succeed in college and in life."

It seems fitting at this time to speak of the competition for vacant places on THE CAMPUS editorial staff. At the present time,

Staff Vacancies. owing to graduation and the resignation of several staff

members there is an opportunity for at least four additional men, and we will begin the competition at once. What we must have, however, is not so much a literary genius, but a fellow who can see things and express these observations in an interesting manner, and if you show an ease in writing so much the better. One thing is very necessary, however, and that is, you must have your copy ready at the proper time, and even after you make the board you must observe this rule, or else resign, for THE CAMPUS has no sympathy for those who cannot be depended upon.

It makes no difference which class you belong to, if you desire to try for the board, the opportunity is open. If you are a Senior or Junior, you know what is expected. If a Sophomore, you must begin to realize what the University is, and there is an excellent chance for you to show what you have gained from your first year at Maine. It is the Freshman, however, who can get the most from this work. There is no better way for you to become acquainted, and make yourself known, than by getting in touch with the very University itself.

If you will give us an opportunity to explain in detail any uncertain points, we will consider the time well spent, and you may have the means to make THE CAMPUS what we hope to make it—a representative paper of Maine.

Every educational institution such as the University of Maine, is a community distinct in itself.

Its interests are wide and varied, **The Campus.** pertaining not only to the present, with its immediate activities, but to the past, as related to its history, and to the future, as related to its continued prosperity.

With the affairs of such an institution, its graduate and undergraduate body should seek to become familiar, and it is of the utmost importance, that the undergraduate especially, should not fail in this particular; for failure in this respect, means a lamentable indifference to the wider aspects of college life.

Now it is manifestly impossible for any student or alumnus to acquire this knowledge of their Alma Mater, without some authorized and reliable medium, the business of which, is to gather from all sources those facts of history, and items of news, of interest to a college community.

Such a medium is the college paper, as for example, **THE CAMPUS.** It brings to us each week reports of all the important transactions of the college, and calls attention to the work outlined for the immediate future. Thus we have at our disposal for immediate reference, a full account of college affairs, in which, as undergraduates, we must necessarily have a part, and in which, as alumni, we still retain a deep and abiding interest.

The college paper also serves as a medium not only of news, but also of exchange, by which we may obtain the opinion of the alumni, as well as the student, concerning those affairs of general college interest, and it thus maintains, in no small way, the spirit of one's Alma Mater.

But it not only senses the individual in the manner indicated. It is perhaps of supreme value to the University as a whole, inasmuch as it is representative of the life of the college community, and as such, is viewed by the world. It is a concrete expression of the value and progress of the institu-

tion which it serves, and in this way may win a wide approval, of that, for which it stands.

In view of these facts, the attention of both students and alumni is called to the necessity for maintaining the college paper. Every undergraduate should not fail to keep a file and thus have ready for the instant, an accurate history of perhaps the most important part of his life. Every alumnus should still follow the affairs of his Alma Mater, who made possible in a large way his present success in life, by retaining his name upon the subscription lists, and every friend of the wider outlook for humanity, made possible by the opportunity for higher education, should have this best of all means, for noting its continued advancement.

THE LITERATI

At a meeting of the Literati recently held, it was decided to give an informal reception to all students of the College of Arts and Sciences, in the Art Guild, Tuesday, October 8, at 7.30 P. M. It is very desirable that every student who has registered in the College of Liberal Arts should become acquainted with the aims and purposes of this society. The programs prepared under its auspices last year, were of a very high order, and showed the distinctive value of such a society in college life.

No student can come into contact with its influence without having a larger conception of that, for which real culture stands.

On Tuesday, Dean Stevens will give an outline of the work which the society hopes to accomplish. A short program is being prepared and light refreshments will be served. Every Liberal Art student is invited and will be cordially welcome.

BLUE BOOK

The following officers have been elected for the Blue Book: Editor-in-Chief, A. R. Lord, 1907; Business Manager, A. B. Cayting, 1907; Assistant Business Manager, G. L. Wildes, 1908. Assistant Editors will be announced later.

STANDING COMMITTEES.

At a meeting of the faculty held recently the following standing committees were appointed for the ensuing year. We publish the list in hopes it may prove a means of reference for those desiring it:

Committee on Standing Committee—The President, Profs. Hart, Stevens, Woods.

Admission to Examination—Profs. Fernald, Ganong, Weston.

Fitting Schools—Profs. Estabrooke, Fernald, Chase, Hart, Huddilston, Stevens, Davidson.

Athletics—Profs. Jones, Boardman, Dr. Reynolds.

Catalogue—Prof. Stevens.

Course of Study—Profs. Drew, Boardman, Hart, Stevens.

Delinquents—Profs. Boardman, Hurd, Mr. Shute, Mr. Grover, Mr. Willard.

Graduate Degrees—Profs. Fernald, Estabrooke, Chase, Weston, Walz, Colvin.

Health—Profs. Jackman, Russell, Colvin, Brown, Dr. Reynolds.

Honors—Profs. Stevens, Huddilston, Drew, Carr.

Library—Profs. Jones, Estabrooke, Colvin, Jackman.

Military—Lieut. Brown, Profs. Woods, Jewett.

Musical Organizations—Profs. Jones, Leutz, Tower.

Rules—Profs. Hart, Woods, Stevens.

Student Advisers—For Freshmen: Prof. Hart. All other students, the head of the department in which their major subject is taken.

Admission to College—President Fellows, Profs. Hart, Stevens, Drew, Estabrooke, Chase, Huddilston, Segall, Colvin, Carr, Aubert.

Bulletins—Profs. Jones, Merrill, Wheeler.

Press—Prof. Jones, Mr. Morley.

Class Rolls—Mr. Willard, Mr. Brown.

Exercises of Commencement Week. Invitations—Prof. Estabrooke.

Convocation—Prof. Stevens.

Dinner—Prof. Woods.

Transportation—Prof. Gowell.

Decorations—Prof. Munson, Mr. Cummings.

Diplomas—Profs. Aubert, Huddilston.

Printing—Prof. Jones.

Entrance Examinations—Prof. Stevens.

Lectures—Profs. Drew, Segall, Chase.

Time Schedule—Mrs. Balentine, Profs. Weston, Jewett.

Tuition Loans—President Fellows, Profs. Fernald, Estabrooke.

The Student Council—President Fellows, Profs. Hart, Stevens, Boardman.

Use of Gymnasium—Prof. Jones.

Approved Tutors—Mrs. Balentine, Prof. Hart.

Summer School—Prof. Stevens.

Speakers for Sophomore and Junior exhibitions. Department of English, with—Prof. Stevens

Registration—Profs. Stevens, Hart, Drew.

Debates—Profs. Estabrooke, Sprague, Daggett, Colvin.

Bachelors Degrees—Profs. Stevens, Colvin, Weston.

1906 CLASS

The class of 1906 which left us last June is now scattered far and wide over the country.

Some have gone to other schools to do graduate work. D. N. Rogers and W. O. Frost are studying in the Yale Forestry School while F. D. Southard is in the Harvard Law School.

Among those who have taken up work inside the State are R. B. Kitredge who is in the offices of the Maine Central R. R., in Bangor, H. L. Abbot who is with the Bangor & Aroostook R. R. in the office of the Engineering Department, in Houlton, E. A. Stanford, manager of a farm in Kennebunk, Me., E. J. Sawyer, in business with his father in Millbridge, F. R. Reed, with the Rumford Falls Railway Co., F. O. Stevens, who is with the U. S. Geological Survey in Cedargrove, F. H. Harlow who is running a farm in Gorham, Me., and G. S. Owen who is doing engineering work for the government in one of the forts in Portland Harbor.

In and around New England we find several of the graduates in this class. The Stanley Electric Co., has W. H. Burke and L. C. Nichols in Pittsfield, Mass. Jas. W. Elms is in the Chemical Dept. of the General Electric Co., in Lynn. M. R. Lovett is in business with his father in Beverly, Mass. Ralph Lord, and C. E. Currier are both located in New York City, the former with the American

Bridge Co., the latter with the New York Telephone Co. G. R. Tarbox is with the firm of Russell & Irving in New Britain, Conn.

As has been the case with former classes several have gone West. W. P. Hewes is in the U. S. Reclamation Service in Idaho. C. W. Campbell is also in the same state as assistant engineer on a railroad. Frank A. Banks is stationed at Glendive, Montana, with the U. S. R. S. R. S. Sherman and A. J. Butterworth are in Chicago with the Western Electric Co. G. G. deColigny is in the same city as chemist with the W. K. Fairbanks Co. R. H. Porter is Instructor in Mechanical Engineering at Ames College, in Ames, Iowa.

The General Electric Co. in Schenectady, N. Y. took three of the '06 men, C. E. Prince, J. Karl, and W. D. Bearce. A. P. Weymouth is located with the Westinghouse Electric Co. in Pittsburgh, Penn., and C. F. Forbes is with the same company in Wilkesburg, Penn.

J. P. Alexander is in Ponce, Porto Rico, in the interests of the Stanley Electric Co.

THE 1908 PRISM.

The 1908 *Prism*, which is now well under way, begs to call the attention of the class in particular and the student body in general to a few salient facts which vitally concern the success of the book. Every member of the Junior class is well acquainted with the fact that the success of their annual depends, not merely upon the efforts of their board of editors, but upon the hearty co-operation of every member both of the class and University. This disposition to help may be evinced from the start in a number of ways.

Chalmers of Bangor has been selected by the class as the photographer. It is now incumbent upon every member of the class to sit for his photograph at the earliest possible date, and Nov. 1 has been set as the latest date on which he can guarantee the prompt service. The class pictures should all be in by the first of December in order to make it possible to bring out the *Prism* on the date set. As this is an important factor in its financial success, the urgent necessity of prompt action on the matter by everyone can readily be seen.

The matter of reporting grinds, roasts, humorous and interesting incidents, sketches, and snap-shots of college life should be kept in mind by every student, and all such contributions will be gratefully received by those who have the matter in charge.

An appeal is also made to those who have any ability along artistic lines, and especially is this directed to those of the entering class who have any artistic ability, either in cartoons and caricature, or in other work. As there has been neither time nor opportunity for the new men to show up in this kind of work, it is especially desired that they voluntarily make themselves known.

From time to time reports of the progress of the book will be published, and it is hoped that the class and student body as a whole will co-operate to make the 1908 *Prism* one of the best in the annals of the University.

THE GROWTH OF DARTMOUTH.

The opening of Dartmouth for its 137th year, September 27th, was marked by conditions unique among American colleges. Enrolment in the different classes, though not fully complete, will exceed last previous enrolment of the college by 150. Without regarding the graduate student or those in the associated schools, the numbers for the college are as follows: Seniors 120; Juniors 205; Sophomores 300; Freshmen 350; making a total of 1045.

The growth is about a year ahead of the preparations which the college is making for its own increase.

1907 PRISM.

Attention of the Freshmen is called to the *Prism*, the University year book published by the junior class. This book contains cuts of the several members of the faculty, members of the 1907 class, all athletic teams, fraternity chapters, etc., and matters of general interest.

Every Freshman, as well as every other member of the University should have a copy. Copies can be secured from E. J. Wilson, Sigma Chi House, or at the University Store.

THE NEW UNIVERSITY SUPPLY STORE

Owing to the rapidly increasing amount of business, and the additional lines of goods now being carried by the University Supply Store, it was considered advisable to change from Oak Hall to the basement of Coburn Hall, thus giving one more room for dormitory purposes.

For the past few years, the store has been conducted in Oak Hall by students of the University. During the past two years, the store has been operated by the genial and accommodating Sampson Bros., the present managers.

At present but few of the intended arrangements have been made, but when finished the store will be a credit to the University.

The University store will now fill a long felt want, for in addition to the regular line of general college supplies, drawing materials and instruments, Waterman's fountain pens, class room books, etc., many new lines have been added. A full line of athletic goods, sweaters, shoes, will be found in stock, also they have secured the agency for the Regal shoes.

Under the new arrangement, the morning, afternoon and evening mails will be brought to the post office at the University, conducted by the Sampson Brothers, promptly after their arrival in Orono. The long distance telephone for the accommodation of students will be in the Sampson store. There will also be a local branch telephone exchange installed there with instruments in the University office, the Experiment Station, the Commons, Wingate Hall, Fernald Hall, Lord Hall, the new Library, the Horticultural Building, the Dairy Building, the residences of the President, Secretary, Dean Hart, the Professor of Agriculture, the Professor of Animal Industry, the Farm Superintendent, and the head janitor. This private University system is for the accommodation of the officers of the University, not for the use of the student body.

A dormitory for girls is to be established on Beacon Hill by the Gamma Delta Society of the Boston University College of Liberal Arts. The trustees had planned to erect such a dormitory, but the girls were first in the field.

HONOR NOT ACCEPTED.

Prof. Hurd will not accept the position as president of the Smith Agricultural School at North Hampton, although flattering inducements have been offered.

The student body has every reason to feel pleased at this decision, as Prof. Hurd's loss would be greatly felt, and his position difficult to fill.

Smith Agricultural School was founded by the same man that started Smith College, and is one of the leading schools of its kind in New England.

NEW REGULATION.

After Oct. first, the University of Maine Athletic Association will pay the physicians bills for members or candidates of its athletic teams when such bills are for the treatment of injuries or illness resulting from games or training; provided the physician consulted is the University physician or some physician consulted with his approval.

This seems like a step in the right direction, and while it is to be desired that none of the athletes will have to take advantage of this assistance, it is however a pleasure to note that the needs of those who work for the honor of the light blue are not forgotten by those who have their welfare in trust.

THE ORCHESTRA.

According to all reports the University of Maine Orchestra this year promises to not only equal but to surpass the high standard set by the orchestra of last year. It is planned this year to have a Symphony Orchestra for which attractive trips are being arranged. From this, the best men will be picked to form the orchestra which will play for dances and other functions. Thus there is a chance for a number of new men. Leader Newman especially wishes for cello, viola, and trombone players. Now, it is up to every man in college to get out and help the orchestra along, provided of course, he has any talent along this line. He will help himself out for there is quite a financial return for the successful candidates, but above all he will be working for the good of his university.

FRIDAY, OCT. 12.

- 3.30 P. M. Football Practice, Alumni Field.

SATURDAY, OCT. 13.

Football, Maine vs. Dartmouth at Hanover.

SUNDAY, OCT. 14.

- 4.00 P. M. Y. M. C. A., in Art Guild.

MONDAY, OCT. 15.

- 3.30 P. M. Football Practice, Alumni Field.

L. R. Colcord, ex-'07, who wrote "The Metamorphosis of the Mate" for the *Blue Book* last year, is to be congratulated upon having the same republished in the *Red Book* for October.

ALUMNI.

I. M. Bearce, '01, is instructor in Physics, in the High School, at Helena, Montana.

F. Talbot, '05, is an engineer on the Panama Canal.

D. F. Perkins, '00, is now at the Law School.

Seth May, ex-'08, has registered at the Law School.

H. H. Andrews, '81, of Callaway, Neb., has been elected vice president of the National Irrigation congress for Nebraska. Mr. Andrews is very much interested in the irrigation project, and has just attended the congress at Boise City, Idaho, as a delegate of Nebraska, having been sent there by Gov. Mickey.

LOCALS.

Foster, ex-'07, is with the General Electric Co. in Lynn. Colcord, ex-'07, is working on the location survey for the new line of the B. & A. R. R., between South Lagrange and Northwest Pond. Elliott, ex-'09, is with the B. & A. R. R. on the new Schoodic Stream line.

The Sophomore Class has elected the following cheer leaders, E. L. Towle, and G. H. Brimmer.

One of the first house parties of the season was held at the Phi Kappa Sigma house, Friday evening, September 28.

The number of agricultural students at present registered will reach over forty which is considerable over the number registered in previous years.

O. Gardiner of Rockland, State Master of Granges was a visitor to the Campus recently.

The Hon. W. Shmitz of the U. S. Dept. of Agriculture has been at the University for a short time investigating certain conditions in the interests of his department.

Many of the students attended the excellent concerts of the Festival Chorus given in Bangor last week.

SOPHOMORES WIN.

The sophomore class at the University of Maine took sweet revenge on the freshmen for the numerous defeats they have handed them this fall, when they won the first baseball game in the series for the peanuts. The freshmen got an awful whaling. The final score of 15 to 2 does not show half what the older men did to the grass-blades.

The showing made by the freshmen was decidedly disappointing to the college in general as they were hoping that some stars at least would appear. Captain Tewell tried out 16 men in hopes to get a combination that would at least put up a decent showing against the Sophs and in all these men there were only two or three who seemed to have any signs of being 'varsity material.

Adams, the pitcher from the Oxford semi-professional team, started in to do the pitching for the freshmen, but got his bumps good and fair. The Sophs got to him in the very first inning and continued to land on him until Welch was put in to lessen the slaughter in the seventh. Welsh blanked '09 in the seventh, but in the eighth, he was touched up for three hits, which gave the Sophs the same number of runs.

Adams is without doubt a cracker-jack pitcher even after the drubbing he got to-day. He was cool and collected at all times and handled himself in the box like the veteran that he is. He met the ball well when he was at bat and is very fast on the bases. It is only fair to say he was working under a heavy handicap Saturday. He has not pitched for some time and was out of practice. His catcher, Metcalf, a Cony High school man, caught well but was not what Adams has been used to having on his receiving end and he was afraid to use his sharp curves.

Tuell at third was the best infielder the freshmen had and may with training make 'varsity material. He did not, however, cover much ground Saturday. Tuell comes from Augusta where he played on Cony High.

The outfielders for the freshmen were worse than useless and gathered about the back field taking naps and discussing the events of the day.

The Sophs on the whole played good ball. Captain Hall pitched a good game and was a tower of

strength. There were eight hits made off him, but they were well scattered and when hits meant runs there were none forthcoming. He also hit some making four hits with a total of nine in five times at bat. The infield with two 'varsity men, played good ball.

The Sophomores fielded nearly perfectly, while the freshmen made six errors.

The score:

1909
