COMMON SCHOOLS

The total enrollment of the common schools is 121, of this number there are but 39 pupils in the three outside rural schools. It is costing \$40 per pupil in the rural school against \$25 in the Village graded school. It would seem to be most economical in the long run to consolidate all your schools in the village.

Mrs. Ward was elected to the Farwells Corner school. Mrs. Doris Mollison to the Woods school and Mrs. Fogg to the Worth school. The teachers in the Village grades remain in the same as last year. All these teachers are experienced and have proven very satisfactory.

HIGH SCHOOL

There has been a complete change in the high school staff this year. Mr. Crockett the principal came to us with 9 years experience and has proven an able administrator and teacher. Miss Fuller, assistant in the high school, while not having had any previous experience has proved to be an excellent teacher. These two teachers have been car-

rying on the work of three. This is the only high school in this section which has only two teachers, teaching the regular secondary subjects. Another teacher is needed badly. We are going to be handicapped another year in offering all the necessary subjects required to keep this school up to a grade A standard. An increase of 5 more tuition students and by putting the Agriculture and Home Economics teachers on a full time basis would more than pay the salary of another teacher.

HOME ECONOMICS

This year for the first time we have started a course in Home Economics. 28 girls are taking this course. This number will be increased another year. This is a full four year course.

Miss Anora Peavey an experienced teacher and a graduate of U. of M. was elected for the position. Besides her teaching she is Dean of girls and coaches girls basketball. This course will prove of great benefit for the girls of this community and for those that come here from surrounding towns. Unity H. S. is now the only school in Waldo County which offers both Home Economics and Agriculture. We should be proud that we are pioneering these practical courses to young people.

AGRICULTURE

The course in agriculture is now under the leadership of Mr. Braley a graduate of U. of M. Mr. Braley is Dean of Boys and coaches boys athletics. This course has been rearranged and the standard brought up to a higher level. There are about 35 boys taking this course.

REPAIRS

Our school buildings at present time are in fair condition, but there is much needed work to be done. This year we ave had to put in a new septic tank and sewer. The ceiling in the main room of the high school has had to be strengthened.

I offer the following suggestions which should be carried out during the next two or three years.

1. Painting the high school this year.
2. Putting the remaining partition in the main room of the high school. This should be done for safety's sake as well as to bring the capacity of the H. S. up to 100 students.
3. The high school building will have to have a steel roof by another year.
4. When this roof is fixed dormer windows should be put in on the east and west sides and the large attics should be finished off for class rooms. This would enable you to bring the 7 and 8th grades into the high school building and make it possible to consolidate all schools in the Village. This arrangement would save the Town \$400.00 per year, over present costs.

SCHOOL BUDGET, 1938-39

This year I believe that the Citizens of the Town should be presented with an itemized budget showing how the appropriations we have asked for will be spent. These figures are based on the actual cost of running the school under present rate of expenditures.

The High School Registration shows a total of 81 last fall. Of this number 6 have dropped out.

By classes. Freshmen, 25; Sophomores, 17; Juniors, 13; Seniors, 20. 34 of these were tuition students first half year. There will be 28 last half.

CONCLUSION

I have enjoyed my work as your Superintendent very much during the year. The whole hearted support of the School Committee, teachers and the Citizens of the Town has been most encouraging. I feel that a plan should be worked out for the betterment of our schools in the future. A goal which we may work toward over a period of years.

These young people who are in our schools today will take our places as the citizens of tomorrow. They will be confronted with conditions which we have never been faced with or experienced. We owe it to them and their future to give them a better preparation than we had.

Respectfully submitted,

KARL H. McKECHNIE,

1938.

Superintendent of Schools.
