## INSECT NOTES.

### BULLETIN OF THE MAINE AGRICULTURAL EXPERIMENT STATION.

Insect Notes for 1906 (Bulletin No. 134, Maine Agricultural Experiment Station) records some of the insects which have been especially injurious or otherwise prominent during the past season.

The brown-tail moth which has for several years been present in the southern and coast counties of this State, and the gypsy moth the egg clusters of which have been found this winter in the region of Kittery, are discussed with reference to the damage they threaten and the means of combatting them.

The large areas devoted to potato in Aroostook County invites the attack of such insects as can adapt themselves to this plant. Aside from the inevitable Colorado potato beetle and the common flea beetle, the insects working most conspicuously upon the potato the past season are the smart-weed flea beetle, the tarnished plant bug, and two species of plant lice.

For several years the alders in the State have been white stemmed with a large wooly plant louse called the alder blight. The syrphus maggots and the harvester caterpillars are recorded as practically exterminating this plant louse in some localities.

An account is given of the Larch case bearer at work on the larch or "juniper" trees.

Among the miscellaneous insect notes are discussed the yellowhead cranberry worm on sweet Gale; the distinction between the character of the work of the railroad worm and the coding moth; a moth infesting spruce cones; the diamond back moth as a greenhouse pest; six troublesome orchard caterpillars; and the spiny caterpillar so common upon elm and willow.

Seven species of mosquitoes, two belonging to

the genus Anopheles, which were collected during the season, are recorded.

Such insects received at the Station during the year for identification as possess economic or other interest, are listed with the locality from which they were received. Often important insect situations are brought to notice through insects received in this way.

A few new illustrations are given in this Bulletin: Figures of the harvester, the butterfly enemy to the alder blight; a photograph of a cicada or harvest fly, numerous last summer; and a photograph of a common parasite of the red-humped caterpillar which destroyed enormous numbers of these orchard pests in Maine during the past two seasons.

## FOOD INSPECTION.

### BAKING POWDERS, VINEGAR AND SPICES.

The Maine Agricultural Experiment Station has recently published two bulletins on Food Inspection. The first, No. 135, contains the full text of the Maine law and the standards which have been adopted for Maine. The Maine Pure Law is so closely in accord with the National Law that the executive officer is finding no difficulty in making rulings under the State law in harmony with those made by the executive officer of the National Law. This bulletin, (135) not being of general interest, is only sent out on request.

Bulletin 136 gives the results of the analyses of baking powders, vinegar, and spices collected by the inspectors in the Maine markets. While considerable goods have been found that are not in conformity with the law, and under the definitions would have to be considered as adulterated, no injurious materials have thus far been found. The frauds found are against

the pocketbook rather than against the health of the consumer. While there are still being sold in Maine goods that are not in accordance with the Pure Food Laws, there is a commendable desire on the part of the dealers to conform to the requirements.

The matter of the purity of foods is largely a question of education and of time. While the dealers are desirous to conform to the law, there is a large amount of ignorance as to the quality of the goods which they are actually handling. The law calls for correct branding and there is every reason for hoping that this will be literally complied with in a not very distant future.

### FARMER'S WEEK

Four days of practical instruction, beginning Monday night, March 11th, and ending Friday afternoon, March 15th, has been arranged by the College of Agriculture as a means of further helping the farmers of Maine. As many cannot leave their homes for the eight weeks winter courses, this still shorter course is planned so that every citizen of the State can receive practical help from their University.

The following program has been arranged:

#### MONDAY EVENING

- 7.00 P. M. Registration in Lecture Hall of the University Library.  
7.30 " Address of Welcome, and Illustrated talk on the University of Maine.  
President, George Emory Fellows  
Address. Hon. A. W. Gilman.  
Commissioner of Agriculture

#### TUESDAY

- 8.00 A. M. "Milk from the Cow to the Consumer." Professor G. M. Gowell  
9.00 " "Tuberculosis." Dr. F. L. Russell  
10.00 " "Grass and Clover production for Maine." Prof. Wm. D. Hurd  
1.30-2.30 P. M. "Cultivating and Fertilizing Orchards." Instructor M. J. Dorsey  
2.30-4.30 " Demonstration and Scoring and Judging Cattle.  
7.30 " Question Box.  
Lecture—Orchard Management for Maine. Professor W. M. Munson  
General Discussion

#### WEDNESDAY

- 8.00 A. M. "Corn for Silage and Factory." Assistant Professor A. W. Gilbert  
9.00 " "Making of the Dairy Cow." Mr. Campbell  
10.00 " "Orchard Insects and Diseases." Mr. Dorsey  
1.30-2.30 P. M. "Potato Growing." Professor Hurd  
2.30-4.30 " "Demonstration of Pruning and Grafting."  
7.30 " Question Box.  
Lecture—Poultry Breeding and Management. Prof. G. M. Gowell  
General Discussion.

#### THURSDAY

- 8.00 A. M. "Commercial Fertilizers,"—(a discussion of the subject from the farmers' standpoint.) Professor Hurd  
9.00 " "Sheep Husbandry for Maine Farmers." Professor Gowell  
10.00 " Stable Construction, Sanitation and Ventilation. Professor Gilbert  
1.30-2.30 P. M. "Spraying." Mr. Dorsey  
2.30-4.30 " Demonstration of Home Mixing of Fertilizers.  
7.30 " Question Box.  
Lecture—"The Work of the Maine Experiment Station."  
Director Chas. D. Woods,  
of the Maine Experiment Station

#### FRIDAY

- 8.00 A. M. "Harvesting and Storing Fruit." Mr. Dorsey  
9.00 " "The Causes of Disease." Dr. Russell  
10.00 " "Feeding Dairy Cattle." Mr. Campbell  
1.30-2.30 P. M. "Raising Draft Horses on Maine Farms." Mr. Campbell  
2.30-4.30 " Demonstration of Practical Dairy Work.

### NEW INSTRUCTOR.

A. D. Holmes of Walpole, N. H., has been secured as an instructor in chemistry to take the freshmen chemistry divisions, in order to enable Dr. Bedford, who has had the freshmen recitations during the last term, to devote more of his time to laboratory work. Mr. Holmes will have complete charge of the freshmen divisions, both in recitation and laboratory work. He is a graduate of Dartmouth in the class of '06 and since his graduation has acted as assistant in the chemical laboratory at Dartmouth.

## ALPHA ZETA.

Alpha Zeta, a technical agricultural fraternity, was first established at the Ohio State College in Dec., 1898, and at the present time has fourteen active chapters, situated in the following states: Ohio, Pennsylvania, Illinois, New York, Michigan, New Hampshire, Nebraska, Minnesota, Vermont, Iowa, Wisconsin, Colorado, and Maine.

The object of Alpha Zeta is to create a strong feeling of loyalty among agricultural students, and instill into them such an intense love for agriculture, that they will ever work toward the advancing and uplifting of it.

Recognizing the benefits and achievements of Alpha Zeta in other agricultural colleges, and the need of a little more stimulus in our own institution, Prof. Arthur W. Gilbert obtained permission to establish a chapter at the University of Maine. Accordingly, on the tenth of May, nineteen hundred six, the "Maine" chapter was installed with ten active, and three honorary members.

In the short space of eight years, Alpha Zeta has made great strides and its power made manifest in no uncertain way. It seeks to bring together men of good character, and men who are willing to work for the agricultural interests of the nation, and it already has on its roll some of the foremost agricultural workers of the present time. The fraternity publishes a Quarterly containing agricultural notes in interest from alumni and active members and correspondence from the different chapters. It also publishes a directory and holds biennial conclaves, the last one being held at Champaign, Ill., on July 11, 1906. Alpha Zeta is, and is bound to be a powerful factor in the future development of scientific agriculture.

Tufts defeated Bowdoin in their relay race at the B. A. A. meet in Boston. Kimball, the last runner for Bowdoin, was in the lead, when by a fall on the second turn, Green, the Tufts runner, took the lead and won easily.

## DEATH OF WALES R. BARTLETT, '01.

The sad news has been received in Orono of the sudden death of Wales R. Bartlett, aged 29 and unmarried, principal of the Hardwick High school at Gilbertville, Mass. Mr. Bartlett slipped on an icy sidewalk Friday and died Saturday, Feb. 10, of concussion of the brain.

Wales R. Bartlett was the son of Mr. and Mrs. J. O. Bartlett, and was born in California, where his parents were then residing. He attended the schools of Waldo county and entered the University of Maine with the class of 1901, graduating with degree of Bachelor of Arts. He was prominent in college affairs during his college course and was elected to the honorary society, Phi Kappa Phi. He entered upon the work of teaching upon his graduation and had been principal of the Central High school at Essex, Mass., previous to taking the position at Gilbertville. He was popular among his associates and his untimely death will be generally regretted.

## RESOLUTIONS.

WHEREAS, It has been the will of Almighty God to remove from our midst our beloved brother Wales R. Bartlett, and

WHEREAS, We, his brothers in Alpha Delta Chapter of Phi Kappa Sigma Fraternity, desire to express our deepest grief in the loss of our brother, be it

RESOLVED, That we extend to the family of our deceased brother our heartfelt sympathy in their sad bereavement and be it further

RESOLVED, That our charter be draped and our pins be worn in mourning for the next thirty days and lastly be it

RESOLVED, That a copy of these resolutions be entered in our chapter records, printed in the University publications, and sent to his family.

## EDITORIALS

While showing visitors from Canada over the Campus, Washington's Birthday, one member of the party made the remark that "it was

**Where is the Flag?** quite strange that no flag was to be seen on the flag-pole." No doubt, some person neglected their duty, by

not raising the colors which we all love so dearly, and rather than hear criticism of this nature, would ask that the matter receive attention before the next legal holiday.

Now that the Student Council has taken up the matter of Chapel Services, we hope that an earnest effort will be made to eradicate that evil, for such it has grown to be.

### Chapel

We are always glad to entertain visitors, and it is unfair to our University for a few students to create a wrong impression by a thoughtless act or two, during the Chapel Service.

Let us, therefore, overcome these acts by student sentiment, rather than by compulsion, and in this way make our Chapel sacred in the minds of our graduates in the future.

"Hats off to the Band." If you attended their concert last Friday, the above needs no explanation; if you were not there, we extend our sympathy to you, for the valuable part of your college education which you are neglecting.

Fellows, that concert was the best musical entertainment ever given by a Maine organization during the past four years and after all that has been said about the support of college activities, to think that less than seventy-five tickets were sold, is enough to discourage every member of the Band. In fact, there was a larger percentage of faculty than of students in the audience.

When Spring comes along with its baseball games, we will expect the Band to furnish us with music to cheer the players in their efforts to win, yet when we have an opportunity to assist that same Band, we are found wanting. Now if the Band gives another concert in the Spring as is planned, show your appreciation of their work by turning out and supporting them as they so richly deserve.

Bowdoin will celebrate the 100th anniversary of Longfellow's birth tomorrow, Feb. 27.

A number of cases of scarlet fever among the students of Amherst have made it necessary to close the college till March 1.

### LOCALS.

Manager M. A. Sturtevant represented U. of M. at the annual meeting of the New England Intercollegiate Athletic association held in Boston Saturday. It was voted to have the annual meet on the Worcester oval, instead of on the M. I. T. field as last year.

The College of Arts and Sciences of the University of Maine has arranged a series of weekly lectures of a popular nature along lines of work covered by the heads of departments in college. In the fall of 1906-1907 the lectures were upon subjects connected with the departments of physics, biology, and chemistry. In the spring term of 1907 a course of sixteen lectures are to be given, beginning Wednesday, February the sixth, in the lecture room of the Library building, and continuing throughout the term at the same time and place. The lectures are open to the public and are without charge.

The Bowdoin musical clubs gave a very successful concert in the Bangor City Hall, last Thursday evening under the auspices of the Yaker Club of the Bangor High School.

Special chapel music last week was given by M. G. Newman, '07. Mr. Newman played a solo for the violin, Dans Cinquantaine, by G. Maries, and his playing was greatly enjoyed by everyone present at the service. Mr. Newman was with the Musical Clubs on their trip through Washington County, and his playing was received with the greatest favor at every concert.

The Sophomore Theme Book is now ready in the College Office for signatures on the fifth set of themes.

Prof. Carr will speak before the Deutscher Verein of Bowdoin College, next Friday evening, March 1. The Maine Verein recently had the privilege of hearing a very able lecture on Germany by Prof. Files of Bowdoin.

Members of the Senior Skulls and Hebron Club entertained the Hebron basketball team in the Library after the Maine-Hebron game.

The most important event of the winter will be the Ice Carnival on the river next Friday and Saturday.

The Y. W. C. A. will hold a candy sale in Coburn Hall, tomorrow afternoon, Wednesday, Feb. 27, from 3.30-6.00. All students are invited to attend, and assist a worthy effort.

Several members of the Bowdoin Musical Clubs attended the Bowdoin-Maine hockey game at the Orono Rink Washington's Birthday.

The Massachusetts Club will hold a smoker in the Library this evening at 7.45. All members of the Club are requested to attend.

Several applications for rooms during Farmer's Week, March 11th to the 15th, have already been engaged, and a large attendance is expected.

Profs. Boardman and Jewett are away on a two weeks business trip to New York and Philadelphia.

### Y. M. C. A.

The Y. M. C. A. meeting on Sunday afternoon, Feb. 17, was addressed by Rev. Mr. Morse of Brewer Congregational church. His subject was taken from the parable of the sick man, and it was treated in a very able and interesting manner.

A crisis comes into the life of every man when he comes, as he surely will come, to the choice of eternity. A typical example of such a crisis is that of the rich young man who come to Christ and inquired the way to eternal life. He thought he was a religious man, but he was really unconscious of the true condition and he realized it only when he faced his crisis. He failed in his choice because his principle interest was misplaced. The grip of worldly things was too strong for him.

Worldliness is not the mere possession of wealth nor all the luxuries that wealth can procure. Things are worldly when they cause a man to be untrue to his spiritual development.

We all need to fear that we shall grow unmindful of the small voice speaking from within; the voice which, if followed will lead us in the right path. It is a big thing to live in this world amid the complexities and absorbing interests and not lose sight of the real goal of life, but each man should make it his first interest to live right.

## COLLEGE OF LAW.

The regular meeting of the Assembly was held on last Friday evening. W. L. Waldron gave an interesting talk on current events. After this the question of the evening Resolved: That, Thaw was justified in killing Stanford White was ably discussed. Affirmative—Riggs, Snow; negative—Bridgham, Goss.

The arguments were so good that Judges DeWolfe and Huntley voted in favor of the affirmative and negative, respectively, while Judge Driscoll was on the fence so that both sides won. The question was then thrown open to the house and was ably discussed by Dr. Petes, Kiernan, Driscoll and Elder.

The debate as a whole proved intensely interesting and was the best of the year.

At a meeting of the student body on Wednesday Charles G. Lewis, was elected Manager of the Baseball Team for the present year. Manager Lewis has already accepted a challenge from Higgins Classical Institute and is arranging games with Presque Isle, St. Mary's College, Ricker Classical Institute, Maine Central Institute and Bar Harbor Y. M. C. A.

There are four men of last year's team in school and there is considerable promising material in the first year class so that the team will probably be as good as that of last year.

Chief Justice Emery is scheduled to lecture at the Law School on Probate Practice Feb. 25, from 2-5 P. M.; 26th, 27th and 28th, from 10-12 A. M.

The Judge's lectures are always interesting and the students are looking forward to them with pleasure.

On Wednesday evening, the Judge gave an interesting talk to the members of the Sigma Beta Pi Fraternity at their rooms. He spoke of the trials of the young lawyer and related several of his own experiences. He also gave his advice as to the best place for a young lawyer to start in the practice of law.

The lecture throughout was intensely interesting and was listened to with great eagerness by all the members present.

After the lecture the Judge said he was pre-

pared to answer any questions which the boys desired to ask and suffice it to say that he was busily engaged for a long while.

## BAND CONCERT

One of the most enjoyable musical entertainments ever given under the name of the University was that given by the Band in Orono Town Hall, last Friday evening.

Owing to the Bowdoin concert at Oldtown, and house-parties or other attractions, there were but few present, and it is to be hoped that later in the year another opportunity will be offered to hear the Band, for their playing this year is much above the average. The Band shows the result of constant rehearsals by their excellent tones and technique and M. G. Newman, '07, who directs the Band this year, deserves the greatest credit for bringing the Band to its present state of perfection.

Following the concert, an informal dance was held with music by the University Orchestra of ten pieces. The following concert programme was given:

## PROGRAMME

- 1 *a.* March—"Stabat Mater".....*F. H. Losey*  
*b.* March—"Waterville".....*R. B. Hall*  
BAND
- 2 The Red Mill.....*Victor Herbert*

### FIRST GAME OF COLLEGE HOCKEY

The first intercollegiate hockey game ever played in Maine was played on the ice at Bowdoin field Saturday afternoon, Feb. 16, between Bowdoin and the University of Maine. Bowdoin won by a score of 4 to 1. The game was witnessed by a good sized crowd, and it is safe to predict that another winter will see the game very popular among the Maine colleges.

The first goal of the game was quickly scored. Maine rushed the puck down the rink to a point directly in front of Bowdoin's goal, where in a scrimmage, in which several men were mixed up, R. Lamb, the Maine center, succeeded in sending the rubber disk between the goal posts. The next 15 minutes passed with no scoring on either side. The puck remained in the vicinity of the Bowdoin goal the greater part of the time, but the Maine men were unable to put it between the posts. The puck was sent up and down the rink, and then Dresser, the Bowdoin center, made a pretty shot from about the middle of the field, sending the puck directly between the Maine goal posts. This ended the scoring for the first half, although several times both sides came near accomplishing the trick.

The second half Bowdoin made a decided change in its work, and played a far better game than in the first half. Cleaves twice shot the puck through the Maine goal posts, and Abbott scored once. This was all the scoring of the half.

Dresser, Hughes, and Abbott all played excellent games for Bowdoin, and R. Lamb, Milliken and Miner all did good work for Maine. An unpleasant feature of the game was the condition of the ice, which was so soft that the skates cut it badly. The worst place was on the rink in the vicinity of west goal, and it was in front of this goal that the greater part of the playing was done. Bowdoin defended it during the first half and Maine the second. Several times a forward would start towards the goal with a clear field only to lose the puck in the uneven places of the ice. It is safe to say that had the ice been hard both sides would have scored much more. The bad condition of the ice also interfered with the skating and caused many falls, which otherwise would have been avoided.

Intercollegiate hockey has probably come into

Maine athletics to stay. This game was successful in every way and without doubt another year will see much more playing. The season is now too far advanced for many more games this year, although two or three may be played.

This is the first year that Maine has had a hockey team, and as this is the first game ever played by the Maine team, while Bowdoin has played with the strong St. Paul team of Concord, N. H., and other teams this season the result gives the supporters of the Light Blue every reason to believe that another season will see a strong team developed here at Maine.

Bowdoin has been several years in developing a hockey team. The first move was made three years ago when a portion of Whittier field was flooded. This was used but little, and the attempt was rather unsuccessful. Last winter a rink was again made and several interfraternity games were played, but nothing was done towards forming a college team. The summary:

BOWDOIN	MAINE
Dresser, f .....	f, R. Lamb
Abbott, f .....	f, E. Lamb
Cleaves, f .....	f, Milliken
Hamberger, f .....	f, Hosmer
Hughes, point .....	point, Chase
Bower, c p .....	c p, Miner
Smith, goal .....	goal, Bragg

Score — Bowdoin 4, Maine 1. Goals — Cleaves 2, Dresser, Abbott, R. Lamb. Referee—Hoey of Boston. Timers—Lawrence and Pray. Time—20 minute halves.

### U. OF M., 21; HEBRON 16.

The last home game of the University of Maine basketball season was played with Hebron Friday evening, Feb. 15, in the gymnasium. The Maine team won out by a small margin, the score being 21 to 16. The game although fast and exciting, was one of the roughest seen on the home floor for some time. The game started in at a fast pace, continuing so throughout and both teams held out remarkably well. Hebron has a strong, heavy team and put up an excellent game, making the Maine boys hustle at some points to keep the lead.

Hebron's team work and passing were very

good for a "prep" team but not equal to that of the Maine team, but the local players did not seem to be up to their usual standard in locating the basket. Stobie was unable to play Saturday night, and Stuart and Scales were not in their best form. Stuart, however, made a special effort, and he distinguished himself several times by the way in which he guarded his man and broke up Hebron's passes.

During the first half of the game the honors were fairly evenly divided and it looked as if either side had an even show of winning. However, in the second half the prep. school players got excited at times, and began to rough it, so that the cooler-headed college men took advantage and advanced their lead a few points. Stuart and Wadsworth got in perhaps the best work for Maine, although the whole team played hard and passed finely. Macfarland, captain of the visiting team, was the whole team for Hebron, and Keough played an excellent game, his passing being exceptionally good.

The line-up and summary:

MAINE	HEBRON
Scales, r f .....	l. f, Keough
Wadsworth, l f .....	r f, Wilson
Black, c .....	c, Rogers
Morton, French, r g .....	l g, Soule
Stuart, l g (Capt.) .....	r. g, MacFarland, (Capt.)

Score—Maine 21, Hebron 16. Referee, Gilbert. Timer, Quint. Scorers, Torrey and Ridges. Time of halves, 20-minute. Goals from fouls, Wadsworth 2, Scales 1, Wilson 1, MacFarland 1. Goals from floor, Wadsworth 4, Scales 1, Black 1, Morton 1, French 2, MacFarland 4, Rogers 2, Keough 1.

After the game, the usual dance was held in the gymnasium with music by the university orchestra, and the members of the Hebron team were entertained by the Senior Skulls and Hebron Club in the new Library.

During the game the members of the Hebron Club were seated in a section, and they gave frequent cheers and applause for the visitors.

A. F. Noble, Amherst '05, has been engaged to coach the Colby track team. Work began in the gymnasium last week.

## MAINE WINS RELAY.

The University of Maine relay team won its race with University of Vermont at the big B. A. A. indoor meet in Mechanics' hall, Boston, Saturday, Feb. 16. Capt. St. Onge jumped away like a shot on the first relay and opened a big lead which his team-mates, Knowlton, Sawyer and Wyman, had no trouble in holding, Wyman roping home to the tape with nearly half a lap to the good of his rival, Vermonter.

This is the fifth year in succession Maine has sent a team to the B. A. A. indoor meet and the boys have always come home victors. The previous races have always been with Tufts. This year Maine was sent against Vermont, considered a harder proposition, but she had the fastest quartet ever sent to the Boston meet and turned the trick handily.

Maine's time was 3.17 1-4, while that of Tufts was 3.19 3-5, showing that Maine would no doubt have won again from Tufts this year, had they had Tufts for opponents, as in the past four years.

## COLLEGE MEETING.

A short college meeting was held in the chapel Wednesday, for the purpose of starting interest in the Ice Carnival on the river, during the evenings of March 1 and 2.

The meeting was in charge of Pres. F. Hosmer, '07, of the Athletic Association, and he called on the following speakers: Prof. Gilbert treasurer of the Athletic Association, who outlined the plans of the committee in charge of the Carnival. Following Prof. Gilbert, the following undergraduates spoke in favor of the Carnival, E. J. Wilson, '07, D. Chase, '08, P. Rounds '07 and A. Totman, '07.

If the interest which was shown during this meeting is maintained during the week there can be but little uncertainty as regards the success of the Carnival next Friday and Saturday evenings.

## ICE CARNIVAL

As an innovation and also as a break in the monotony of our long winter the Athletic Association has decided to give an ice carnival. The treasurer of the association is chairman of the committee to arrange for the same and a great deal has already been done.

It is planned to make this one of the best events of the kind ever held in the State. It will be the first ever held in any Maine college and if supported as expected will be a grand success.

The evenings of March the first and second have been chosen as the nights of the festivities. On one night a Freshman-Sophomore hockey game is planned, and on another a grand masquerade on skates. Refreshments of all kinds will be served and the band has been engaged to furnish music both evenings.

On the nights in question there will be a full moon. Besides this, electric lights are to be strung around the ice, and on one or perhaps both nights there will be a bon fire.

Work was begun Thursday afternoon scraping the snow from a large portion of the river. The hockey rink is to be used as part of the skating surface, besides which about three times as much more will be cleared. The entire enclosure will probably be flooded during the middle of this week ensuring a fine skating surface.

It is hoped that this carnival may become an annual event but whether or not this is so depends upon this year's success. No more brilliant or enjoyable scene can be imagined than such a carnival at its height with the many skates gliding to the playing of a band, the brilliant lights and the bon fires. Everyone who has ever been to such an occasion will be sure to attend this Ice Carnival and we know that all who come this year will be enthusiastic for its repetition in the coming years.

We need such a thing as this to arouse us from our winter apathy and prepare us for the activities of the spring.

To every Maine man we say, come and bring your friends. To all we promise the time of your life.

The committee of arrangements is as follows: Prof. A. W. Gilbert, Chairman; G. L. Smith '08,

Milliken '08, Gannett '08, Mitchell '08, Kendrigan '08, Chase '08, Philbrook '08, Erskine '07, Jacobs '08, Rounds '07, and Cayting '07.

## U. OF M. BASEBALL SCHEDULE.

Manager Henry L. Miner of the baseball team has announced his schedule for the coming season. It consists of 16 games, two of which are pending, those with New Hampshire State at Durham and Massachusetts Agricultural college at Orono. Six games will be played at Orono this season, four of them coming the latter part of the season, when not only the team but the field should be in the best condition. Besides Exeter, only one preparatory school game is scheduled, that with Ricker Classical Institute, which opens the season. During the first part of the season a trip will be taken through Massachusetts and New Hampshire consisting of seven games. An exhibition game is arranged with Colby to be played at Waterville before the opening of the Maine college season. The usual two games are to be played with the three other Maine colleges. In many respects the schedule is harder than that of last year and it means a lot of work on the part of the coach, captain and players to bring the season to a successful outcome.

The following is the schedule as announced by Manager Miner Wednesday:

April 20, Ricker Classical Institute at Orono.  
 April 25, Colby at Waterville (exhibition game).  
 April 26, New Hampshire State at Durham (pending).  
 April 27, Exeter at Exeter.  
 April 29, Harvard at Cambridge.  
 April 30, Tufts at Medford.  
 May 1, Brown at Providence.  
 May 2, Wesleyan at Middletown.  
 May 8, Bates at Orono.  
 May 15, Colby at Waterville.  
 May 18, Bowdoin at Brunswick.  
 May 22, Bowdoin at Orono.  
 May 23, Tufts at Orono.  
 May 25, Colby at Orono.  
 May 29, Massachusetts Agricultural college at Orono (pending).  
 June 1, Bates at Lewiston.

### FOOTBALL RULES REVISED

On January 26, at the Murray Hill hotel of New York City, fourteen men, representing various American colleges and universities, met to discuss the revision of the new football rules of 1906. No changes of a drastic nature were made, but several amendments were added to the rules which proved acceptable last season. The general plan of the game remains the same and all the salient features have been retained. No modifications were made in the rules calling for ten yards in three downs, the onside kick, the forward pass, or the tackling below the knees. With one exception this committee was composed of the same men as framed the new football rules of last year.

The most important amendment had to do with a forward pass, by the substitution of a 15-yard penalty on the first or second down, in place of the loss of the ball, if the play was not successful. The proposed substitute for the forward pass rule reads as follows: "If a forward pass before reaching the ground, or a kicked ball, either before or after reaching the ground, goes out of bounds, the ball shall belong to the opponents at the point where it crosses the side lines."

Another important change is the lengthening of the halves from thirty to thirty-five minutes. This change, which has long been desired and urged by many, was passed without friction.

The committee considered the question of officials with the greatest care. Hereafter the officials will be a referee, a line umpire, a field umpire, and a head linesman. The new game has made it exceedingly difficult for the referee and umpire to settle contested plays, so the new official, the field umpire, was created to be on the defended territory and always at the scene of play. The field umpire, whose duties will be about the same as those of the head linesman of last year, will serve as an assistant referee, with jurisdiction over the ball, interference, fouls, catching, the position of the ball, and the spot of a fair catch. It is hoped that in the creation of this new official all of last year's arguments and disputes will be obviated.

The rule concerning the fair catch states that the player shall be considered as having an opportunity

to make a fair catch if he is in such a position that it would be possible for him to reach the ball before it touches the ground. To this article was added:

"In case a signal for a fair catch is made by any player who has an opportunity for a fair catch, and another player by his side who has not signalled for a fair catches the ball, no run shall be made and a fair catch shall not be allowed, but the ball shall be given to the catcher's side for a down at a point where the catch was made."

A special committee was appointed consisting of Prof. L. M. Dennis, Cornell; Walter Camp, Yale; and E. K. Hall, Dartmouth, to codify the rules and report at the next meeting of the regular committee, which will be held some time in March. At this meeting it was agreed that no changes should be made except such as may be necessary in the wording.

### LECTURE BY PROF. ESTABROOKE.

Tuesday evening, Feb. 26, Prof. Estabrooke will give his lecture on "The Supernatural Element in Tennyson," in the lecture room of the Library.

Prof. Estabrooke has spent much time in the study of the life, and works of Lord Tennyson, and so can present his topic in a manner, that will interest every student and member of the faculty.

The program is under the auspices of the Literati, and includes musical numbers by Miss F. Huntington '10. The lecture will begin at 7.30, and all students and friends are invited to attend.

### Y. M. C. A.

The weekly meeting of the Y. M. C. A., was held in the new Library building, Wednesday evening, with F. D. Knight, '09, as leader. On account of the storm, there was a small attendance. G. T. Corning, Sp., in the absence of the regular pianist, presided at the piano. The topic for the evening "Self Control," was freely discussed by all present and proved to be a very interesting subject.

Elmer O. Goodridge, has recently been re-elected alderman in Melrose, Mass., and to membership in the highway committee which legislates regarding sidewalks, sewer and water supplies as well as streets.

'05

C. D. Smith and D. F. Smith are in the employ of the Producer Gas Department of the U. S. G. S. Coal Testing plant. This being a part of the exhibit at the St. Louis World's Fair, has remained in that city ever since, but is soon to be moved to Virginia for the Jamestown Exposition.

The marriage of Mr. Lloyd R. Martin and Miss Emma Martin of Brooklyn, N. Y., took place in that city, December 29. Mr. Martin will be remembered as a former Old Town young man, and the son of Mr. and Mrs. Joseph Martin. He graduated from the University of Maine in the class of 1905 as a civil engineer. Being successful in civil engineering work in New York, he was promoted, obtaining a flattering position in the city of Brooklyn.

E. O. Sweetser is instructor of civil engineering at Washington University, St. Louis, Mo.

R. W. Haskell, is attending the Philadelphia Textile School this year.

'06

R. F. Olds is teaching in the Penn. State College.

C. L. Small is at the Oakes Mfg. Co., Steinway, N. J.

E. J. Sawyer has been on a visit to friends at the Kappa Sigma House.

Eben L. Littlefield, of Brooks, U. of M. Law, '06, who has been studying in the office of W. P. Thompson of Belfast, has applied for admission to the bar of this State.

**N. Y. ALUMNI REUNION.**

THE CAMPUS EDITOR,

Dear Sir:—The reunion, which was the seventeenth of the N. Y. Alumni, was held at the Hotel Astor on Feb. 10th. It was the largest we have

ever held, and in point of enthusiasm and good fellowship was second to none of recent years.

We elected the following list of officers for the ensuing year: President, W. J. Hancock, '88; Vice President, Allen Rogers, '97; Assistant Secretary, C. E. Currier, '06; and Treasurer, to serve 3 years, C. A. Perkins, '04.

After the dinner Pres. Kilbourne as master of ceremonies, called on Dr. Fellows to discuss the general subject of Legislatures and Appropriations, with particular reference to the methods and difficulties of separating one from the other.

Dr. Fellows gave us a clear and interesting account of the campaign up to date and the prospects ahead. Dr. W. H. Jordan, '75, followed in his usual happy vein and gave us some anecdotes of the old days at M. S. C.

Mr. F. H. Edmunds, President of the New York Alumni Association of Colby College, who was the only one of the N. Y. Alumni Association Presidents of the three Maine colleges who was able to be present, made a very felicitous speech and voiced the hope of the Colby alumni of this vicinity that "Maine" would get all Dr. Fellows is asking for.

Speeches were also made by T. S. Ferguson, '89, Allen Rogers, '97, R. L. Fernald, '99 and by F. P. Wilson and C. C. Robinson of the Law School.

The 57 members and guests lingered till a late hour talking over old times.

Very truly yours,

RALPH HAMLIN, Secretary.

500 Twelfth St., Brooklyn.

Feb. 20, 1907.

Among those present were: President Fellows, F. H. Edmunds, Colby. Dr. W. H. Jordan, '75, L. Riggs, '85, J. F. Lockwood, '86, W. J. Hancock, '88, C. G. Cushman and L. G. Ferguson, '89, H. P. Farrington, '90, C. H. Kilbourne, '91, F. G. Tottman and C. H. Nealley, '92, H. H. Heywood, '96, P. F. Goodridge, E. M. Atwood, and Allen Rogers, '97, G. S. Frost, A. A. Starbird and Ralph Hamlin, '98, W. E. Belcher, C. W. Crockett, M. B. Downing, R. L. Fernald, W. W. Haney, M. B. Morell, W. A. Murray and A. W. Stephens, '99, W. H. Caswell, C. P. Gray, L. A. Hayes, C. H. Lombard and F. H. Mitchell, '00, W. H. Boardman, P. R. Keller and E. L. Watson, '01, H. P. Hamlin, C. W. Mar-

gesson, S. S. Lowe and C. W. Stephens, '02, G. S. Brann, E. S. Broadwell, A. D. Case, R. W. E. Kingsbury, Frank McCullough, C. A. Perkins and A. L. Whipple, '03, R. R. Drummond, John May, L. A. Thomas and Alphonso Wood, '05, C. E. Currier, Ralph Lord and Hal Palmer, '06, F. P. Wilson, L. S., '02, C. C. Robinson, L. S., '05.

### BASEBALL

The call for the battery candidates to show up for practice in the cage was issued for Saturday, Feb. 16, and a remarkably good showing was made. Practice is now being held three times a week, Tuesdays, Thursdays and Saturdays, at 3.30 P. M., and will continue so until March first when the general call for candidates will be issued. Between 15 and 20 men have turned out and signified their intention of trying for a battery position and there are several more yet who have not come out. Of course, it is altogether too early to make any statements about the candidates; for beside the old men, whose records we all know, nothing can be told except by reputation. The men are simply taking light work in the cage, getting into form and getting their arms limbered up preparatory to settling down to steady work when the new coach gets here.

The team has been greatly weakened by the loss of last year's captain, "Jack" Frost, who graduated, and by the loss of "Rip" Hall who left college at the end of the fall term. It was a great surprise and disappointment to see Hall go, as he had been depended upon very strongly to do much of the pitching this spring. This leaves the box as practically an open position and there will be plenty of opportunity for all the men to get a good show, who prove that they have got the right stuff in them.

It is to be hoped out of the large number of candidates out now, as many of them are new men, that some excellent material that was not found in the class games, will come to light. The following are the old men who are out for these two positions: Captain Gordon '08, Quint '07, MacDonald '07, Blossom '08, Dow '08, and Dixon '08. Among the new men who have turned out so far are the following for catcher: Wood '08, Staples '10, and Goodrich '10; for the box: Weck '10, Dwinal '10, Libby '10, Kyes '10, Skolfield '10, and Curtis '10.

### CALENDAR.

#### TUESDAY, FEB. 26, 1907.

- 10.00 A. M. Track Team practice, Gymnasium.
- 12.45 P. M. Glee Club rehearsal, Alumni Hall.
- 2.30 P. M. Track Team practice, Gymnasium.
- 3.45 P. M. Hockey practice, University Rink.
- 4.30 P. M. Mandolin Club rehearsal, Alumni Hall.
- 7.30 P. M. Band rehearsal, Chapel.
- 7.30 P. M. Literati Library.

#### WEDNESDAY, FEB. 27.

- 10.00 A. M. Track Team practice, Gymnasium.
- 2.30 P. M. Track Team practice, Gymnasium.
- 3.45 P. M. Hockey practice, University Rink.
- 6.45 P. M. Y. M. C. A., Meeting, Library Building.
- 7.00 P. M. Glee Club rehearsal, Alumni Hall.
- 7.30 P. M. Agricultural Club, Holmes Hall.

#### THURSDAY, FEB. 28.

- 10.00 A. M. Track Team practice, Gymnasium.
- 12.45 P. M. Glee Club rehearsal, Alumni Hall.
- 2.30 P. M. Track Team practice, Gymnasium.
- 3.45 P. M. Hockey practice, University Rink.
- 4.30 P. M. Mandolin Club rehearsal, Alumni Hall.
- Band rehearsal, Chapel.
- Chemical Club Meeting, Fernald Hall. (Lecture by Prof. Aubert).
- 7.30 P. M. Debating Club Meeting, Library Building.
- University of Maine plays, New Hampshire College at Durham, N. H.

#### FRIDAY, MARCH 1, 1907.

- 10.00 A. M. Track Team practice, Gymnasium.
- 2.30 P. M. Track Team practice, Gymnasium.
- 3.45 P. M. Hockey practice, University Rink.
- 7.15 P. M. Dramatic Club rehearsal, Coburn Hall.
- 7.30 P. M. University of Maine plays, Tufts College at basketball at Medford, Mass.
- Ice-Carnival, afternoon and evening.

#### SATURDAY, MARCH 2.

- 10.00 A. M. Dramatic Club rehearsal, Coburn Hall.
- 11.00 A. M. Press Club meeting, Library Building.
- 3.00 P. M. University of Maine plays, Mass Inst. Tech. at Boston, Mass.
- Ice-Carnival, afternoon and evening.

#### SUNDAY, MARCH 2.

- 3.30 P. M. Y. M. C. A., Meeting, Library Building.

#### MONDAY, MARCH 3.

- 10.00 A. M. Track Team practice, Gymnasium.
- 2.30 P. M. Track Team practice, Gymnasium.
- 7.00 P. M. Glee Club rehearsal, Alumni Hall.

### SIGMA ALPHA EPSILON

The seventh anniversary of the installation of the Maine Alpha chapter of Sigma Alpha Epsilon at the University of Maine was celebrated last Friday and Saturday. Friday evening the chapter held a house party attended by a large number of friends. A banquet was served during the first part of the evening followed by dancing.

Saturday, the chapter held their annual banquet at the Penobscot Exchange, Bangor. About twenty of the alumni were present during the two days.

## THE MAINE CAMPUS

### LECTURE BEFORE THE SOPHOMORE CLASS

Last Thursday forenoon Dean Walz of the School of Law, came to Orono and gave the sophomore class a very interesting talk, which was very thoroughly enjoyed.

President Gerrity of the sophomore class, introduced Dean Walz, who was very cordially received. His talk was very interesting and well chosen, and the attention did not waver. All were very much pleased and thank Dean Walz for his interest in the class and the trouble he has taken in coming here to address the class.

### THE UNIVERSITY OF MAINE.

A notable address was made recently in the state capitol at Augusta by George Emory Fellows, Ph. D., President of the University of Maine, and if there were Legislators who were in doubt as to the large appropriation asked for for this institution the opposition should now be withdrawn. In the light of the strong presentation of incontrovertible facts, no one unless strongly prejudiced can for a moment fail to see the urgency of the situation. Highly important is it that the State University should be supplied with funds amply sufficient to enable it to go forward on its great mission. Under the inspiring leadership of President Fellows, the University of Maine has already far surpassed the expectations of its most sanguine friends, and with generous

treatment at the hands of the Legislators a great future is assured this most deserving institution. Every citizen of Maine should feel a just pride in furthering the advancement of the State University.—*Industrial Journal*.

### INTERCOLLEGIATE NOTES.

University of Chicago authorities say that the \$3,000,000 pension system to be installed at the University for the benefit of superannuated professors is the fulfillment of a plan made by the late President Harper. Dr. Harper worked out a provisional plan and presented it to the trustees shortly before his death. He hoped to see the system a reality during his administration it is declared, and when it became known that his disease was incurable, he often expressed confidence that the work would be carried on without him.

The register of Cornell University for the college year 1906-7 shows the total enrolment of regular students to be 3,442 while the additional enrolments for the winter course in agriculture and the summer course add 890 to this number. The total number of teachers of all grades is 507; there are 213 names in the list of the graduate department, and the college of arts and sciences has 735 students. The Sibley college of mechanical engineering has 1,072 students, being far the largest of the colleges, which together, make up the University. This catalog is compact, but gives very full information on all the matters in which students or those intending to be students are interested. Other matters sometimes placed in annual catalogs seem in this to be reserved for other publications.

### Cornell University Medical College,

NEW YORK CITY.

The course covering four years begins during the last week in September and continues until June.

A preliminary training in natural science is of great advantage.

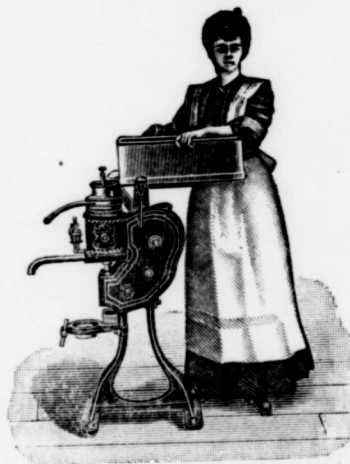

All the classes are divided into small sections for recitations, laboratory and clinical bedside instruction.

Students are admitted to advanced standing after passing the requisite examinations.

The successful completion of the first year in any College or University recognized by the Regents of the State of New York as maintaining a satisfactory standard is sufficient to satisfy the requirements for admission which have lately been raised.

The annual announcement giving full particulars will be mailed on application.
