## AGRICULTURAL BUILDING EXCAVATION.

Work on the new agricultural building for the construction of which the University received a state appropriation of \$50,000 has been temporarily delayed owing to the fact that the excavators found a solid ledge only a few feet below the surface of the ground. The work of excavation is being done under contract by D. C. Moulton, of Old Town, and the first steps toward the completion of this phase of the construction of the building were taken during the first of September. When the northeast corner of the basement had been excavated to a depth of three feet the ledge was struck and was found again at a depth of six feet on the southwest corner. This ledge slopes toward the west, and in its lowest position will necessitate but a very small amount of blasting. As soon as the blue prints for this blasting are received from the architect's office, work will be resumed and it is expected that nothing further will cause any delay until the season becomes so late that work will be rendered impractical. It is not expected that the appearance of the ledge will make any important changes in the original plans of the building, but that the structure as originally planned will be built 63x100 feet with a three foot projection on the front 38 feet long and projections on each end eight by eleven feet in dimensions.

While the work on this building is temporarily stopped, Mr. Moulton is excavating a small piece of ground 12x25 feet on the southern side of the wing of Coburn Hall. A greenhouse is to be built here for the use of the department of Horticulture. This will be a much needed addition to the department as it will make it possible for the students in these courses to procure specimens at all seasons of the year. Mr. Moulton has only the contract for the excavation and expects to have the work completed within a few days.

## AGRICULTURAL TRIP.

In order that the students, who are taking the agricultural course at the University, could have a chance to see the farm operations in the famous Aroostook County, a trip was arranged under the direction of Dean Hurd. About thirty students took advantage of the cheap rates, as well as the opportunity to observe agriculture as it is carried on in that section of the state. The potato industry was the greatest attraction, although attention was paid to the farm equipment, potato storage houses, stock farms, grain growing and starch factories.

The start was made at 6.45 A. M. Wednesday, Oct. 2, from Orono. The party of about thirty students left Old Town at 7.40 A. M. and arrived in Houlton for dinner. The afternoon was spent in visiting the starch factories, potato fields and warehouses. After supper, the journey was resumed to Presque Isle.

Thursday morning was spent in visiting more starch factories, a bean and potato farm of 120 acres, a stock farm and other points of interest in the afternoon the party drove to Fort Fairfield by way of Easton and Mapleton, stopping at several farms on the way. Supper, lodging and breakfast were obtained at Fort Fairfield.

Friday morning was a busy time. Some potato storage houses and Hopkins Brothers' stock were visited, as well as Burn's horses and other points of interest. At 11.25 A. M. the return trip was begun. The party arrived home in the evening, after a most enjoyable and successful trip.

## CLASS ELECTIONS.

At a meeting of the Senior Class held last Wednesday, Oct. 2, the following officers were elected for the ensuing year: President, James Adrian Gannett; Vice President, L. Roland

Lord; Secretary, Sarah E. Brown; Treasurer, Fred C. Morton; Student Council, Arthur S. Hanscom.

The Junior Class also elected class officers for the year last Tuesday, Oct. 1. They are: President, Elton L. Towle. Vice President, Frank C. Richardson; Secretary, Irene C. Richardson; Treasurer, Dwight A. Woodbury; Executive Committee, G. E. Torrey, S. S. Lockyer, N. H. Mayo, W. A. Carter, Florence E. Harvey. As Junior Members of the Student Council, F. D. Knight and H. P. Higgins were chosen.

The matter of the annual Sophomore Calendar was also brought up and the committee was appointed, consisting of R. B. Cruikshank, chairman; H. W. Wright, Miss G. A. Reed, C. C. Johnson, and C. S. Stickney.

#### FACULTY NOTES.

Professor W. M. Munson resigned his position as Pomologist in the Experiment Station to accept a position as Horticulturist at the West Virginia Experiment Station at a salary considerably larger than that Maine could offer.

Concerning the instructors leaving the University this year, the following information is of interest: Mr. Morley is to study abroad for two years; Mr. Ham will work for his doctor's degree at the University of Chicago, where he will act as laboratory assistant; Mr. Gunn is to return to practical marine engineering on the Pacific coast; Mr. Emery has accepted an appointment as assistant engineer in the U. S. Reclamation Service; Mr. Dorsey has excepted a position as horticulturist in the N. Y. Experiment Station; Mr. Seabury will remain in Alaska, where he has been this summer, connected with the mining interests of Captain W. S. Brown. Miss Balentine was married on Aug. 21, to Mr. E. F. Hannaburgh of New York City.

Assistant Professor Thompson has asked for a year's extension of his leave of absence in order to continue his graduate work at the University of Chicago, where he has a fellowship in English.

Dean Walz attended the meetings of the American Law Association and the International Law Congress in Portland in August.

### EDITORIAL

THE first issue of the *Blue Book* will be the October number. Contributions are solicited from the students.

MISS Anna Jeanes has given one million dollars to Swarthmore College on condition that it renounces athletics. How would such a bequest fare at Maine!

THE Harvard—Bowdoin score of Wednesday, October 2, was the smallest score to which a Maine college team ever held Harvard, thus breaking the record previously held by the University of Maine whose team came off Sold-

iers' Field with a score of only 6-0 in Harvard's favor to her credit in 1903.

ONE of the luxuries which the Athletic Association can not as yet afford, but which would have a salutary effect in the competition between the members of the football squad would be some sort of a medal or cup offered yearly to the member of the squad who excelled in a branch of the game. For instance a punter's cup, offered every year by the alumni or students, to the man who excelled in the art would go far toward stimulating the competition, keen as it now is. This would offer something more tangible than anything which now exists in the line of individual trophies, and presents a good field for some enterprising body of alumni or students.

### THE FESTIVAL.

The Eleventh Annual Festival of the Eastern Maine Musical Association was held at the Bangor Auditorium Thursday, Friday, and Saturday of last week. The course comprised a series of five concerts, one each evening and matinees on Friday and Saturday afternoons. The Festival this year was one of unusual brilliance, better in the number of celebrated artists present and the excellence of their work. The chorus was much larger than in years past.

The program Thursday evening was one of popular selections, and during the evening solos were rendered by Mrs. Virginia Wilson, soprano and Mr. Clifford Willey, baritone.

Friday Afternoon was given over to a matinee by Mr. Cecil Fanning.

The opera "Sampson and Delilah" by Saint Saens was produced on Friday evening. The leading parts were assumed by the Festival soloists, while the members of the Festival Chorus made up the Chorus of Hebrews and Phillistines.

On Saturday afternoon the most of the pro-

gram was given over to work by the Junior Festival Chorus, together with Miss Roa Eaton, Soprano.

On Saturday evening Madame Calve made her only appearance at the Festival with the exception of the public rehearsal on Friday morning.

Madame Calve was accompanied by Mlle. Rene'e Chemet, violinist, and M. Camille Decreuse, pianist, both members of her own Grand Opera Company. The great prima donna rendered several selections, and was very gracious in responding to encores.

As in years past the ushers for the concerts were secured from the student body of the University and nearly fifty students were enabled thus to be present at the whole Festival.

F. C. Richardson '09 was a member of the Festival Chorus.

### MUSICAL CLUBS.

The outlook for the musical clubs is exceptionally good this fall. Many new men reported at the recent meetings of the clubs, and already the work of rehearsing is well under way. B. L. Roberts '09, Manager of the Clubs, has made no definite plans for the season as yet, but he assures the men that there will many concerts forthcoming as soon as the leaders get their respective clubs sufficiently drilled.

Malcolm E. Fassett '10, and Raymond E. Fellows '08, both readers in last years' clubs, will be heard in the concerts again this year. Mr. Fassett, recently elected Assistant Manager of the Clubs, together with Mr. Fellows, who has more than a local reputation, will make their part of the program very strong.

In the Glee Club, Leader F. C. Richardson '09, has about thirty new men, many of them being upper-classmen. Among these are some good singers, and, with H. A. Rich '09 as accompanist, some excellent music should result. Twenty new men are out for the Mandolin Club, among whom Leader R. H. Morrison '09, has noticed many capable players. With

plenty of mandolins and guitars, F. S. Cram on the mandola, and C. F. Smith on the 'cello, a well balanced club is assured. Leader C. S. Phinney '10, of the Banjo Orchestra has held no rehearsals as yet, hence nothing definite can be said concerning this department. However many of the last years men are still in college, which will be a great help when the rehearsals commence.

Not all of the new music has arrived, but when it is received, and the assistant leaders have been elected, the rehearsals will commence in earnest.

To everybody's surprise the first Freshman Sophomore baseball game was a good one, the score 1 to 0 being the closest known for years in a class game at Maine, if not the record for the college. The game really amounted to a battle between the pitchers. Libby the Sophomore pitched his usual steady game and it was no fault of his that the 1910 team did not win. Fulton, who was backstop for the sophomore team showed up very well both in playing his position and batting.

The Class of 1909 has selected Chalmers of Bangor, as the class photographer. Manager Sutton, of the 1909 Prism, has decided to place the contract with the Co-Operative Printing Company, of Bangor, but has not yet decided upon the engraving company.

During the summer, Mr. E. W. Davee, Instructor in Carpentry, Pattern Making, and Forge Shop Practice, completed the course in carpentry and pattern making at the Massachusetts Institute of Technology in order to familiarize himself with the methods of instruction in these branches used at Tech.

Professor G. A. Drew has, as usual, had charge of the instruction in laboratory zoology at the Marine Biological Laboratory at Woods Hole, Mass., during the summer. In August he attended the meeting of the International Zoological Congress in Boston. Professor Drew is the author of a "Laboratory Manual of Invertebrate Zoology," published this summer by W. B. Saunders, Philadelphia.

Professor A. W. Gilbert has resigned his position as professor of agronomy and will do graduate work in agriculture at Cornell. Professor E. D. Ward of Ohio State College will assume the professorship left vacant by Prof. Gilbert.

Professor Chrysler, Professor in Botany, has

recently published a pamphlet on the structure and relationship of pond weeds.

At the meeting of the Maine Library Association to be held Oct. 17 and 18, Prof. R. K. Jones will speak on "What Our College Libraries Are Doing, and What They May Do for the Other Public Libraries and the Public."

The annual Freshman Sophomore track meet will be held Oct. 26.

The soloist at chapel service last Wednesday was Mrs. W. A. Nelson of Bangor.

University Bulletin No. 1, Vol. X, recently appeared. It gives information in regard to changes and appointments in the faculty, the new heating plant, summer school, College of Law notes, and it also includes a resume of the B. A. controversy of last winter.

#### ALUMNI.

'97

Lore A. Rogers and wife have been spending a few days with friends in Orono.

'00

Clarence W. Stowell and Grace L. Dinsmore were married July 10 at Hallowell.

'01

L. R. Carey who is doing graduate work at Johns Hopkins University for Ph. D. degree is on the Campus for a few days.

'05

A. W. Sprague who received the degree M. S. from Harvard University last spring is to return to that institution this fall and take up work leading to a Ph. D. degree. He is one of the 'cellists in the Orchestra of the New England Conservatory of Music and that organization has used some of Mr. Sprague's compositions to good advantage.

E. L. Dinsmore is again principal of Newport High School.

F. W. Talbot was on the campus recently. He has returned to his position in the Civil Engineering Department on the Panama Canal.

'06

George Tarbox is assistant engineer with the Corbin Hardware Co. New Britain, Conn.

W. O. Frost has entered the lumber business in Michigan.

J. G. Wallace is in the florist business in Portland with his father.

The engagement of G. S. Owen to Miss Elma Wood has been announced.

W. H. Burke is with the Ohio Brass Works, Manchester, Ohio.

'07

D. W. Rollins is principal of the Clinton (Me.) High School.

L. J. Reed has returned to the University as instructor in mathematics and physics.

J. K. Goodrich is in the Testing Dep't. of the Western Electric Co. Chicago, Ill.

L. D. Barrows is in Louisiana in the interests of the U. S. Highway Improvement Service.

W. D. Hall is assistant principal of the Aroostook State Normal School, Presque Isle.

W. F. Schoppe is connected with the Rhode Island State Exp. Station, Kingston.

E. H. Stetson is in Bradbury, Pa. engaged in civil engineering work.

E. D. Braun is employed in the Experimental Department of the Locomobile Company Bridgeport, Conn.

S. M. Bird has charge of a poultry farm near Portland.

H. W. Kierstead is a civil engineer with Hollingsworth and Whitney of Waterville.

Karl McDonald is with the Allis Chambers Co., at their West Allis, Wis., plant.

E. T. Harlow is engaged on the construction of a nine mile tunnel for the San Jose Co., in New Mexico.

A. P. Rounds is an inspector of masonry construction at Shattuck, Oklahoma.

H. E. McKenzie has resigned his position at Washington to study some advanced engineering subjects at the Sheffield Scientific School of Yale University.

F. P. Holbrook is draughting with the American Bridge Co., at Newark, N. J. E. H. Hussy is with the same company at their Edgemoor plant at Wilmington, Del., while W. O. Hutchins is at their New London, Conn. plant.

W. B. Alexander is at the head of the department of advanced mathematics and science at Manor School, Stamford, Conn.

A. B. Cayting is travelling for a Boston coffee house and has been a frequent visitor on the Campus the past month.

R. S. Coffin has opened a penny arcade in Bangor and is soon to establish another in Lewiston.

C. N. Garland is pastor of the Bar Harbor Methodist church, one of the largest and most influential parishes in Maine.

E. P. Lambe and T. B. Berry are following up the practice and study of electrical engineering at Cincinnati, Ohio.

T. A. Malloy is teaching in Porto Rico.

Ned Druery is employed as chemist at Bangor.

F. E. Maddocks is draughting at Greensburg, Pa.

Seven of the class of 1907 are still connected with the University. Four are instructing—R. E. Clayton, W. F. Washington, L. J. Reed, and A. R. Lord—one, R. C. Gellerson, is a chemist at the experiment station; another R. L. Mitchell is attending the Law School, while H. M. Ellis is studying for his M. A. degree.
